(1) Max. speed based on short gusts. (2) Max. speed calculated from minimum time during which one mile of wind passed the station.

Tides and Their Causes

Source: National Ocean Service, NOAA, U.S. Dept. of Commerce

The tides are natural phenomena involving the movement of waves in the Earth’s large fluid bodies as a result of the gravitational attraction of the sun and moon. These two variable influences combined produce the complex recurrent cycle of the tides. Tides may occur in both oceans and seas; to a limited extent in large lakes and in the atmosphere; and, to a very minute degree, in the Earth itself. The length of time between succeeding tides can vary.

The tide-generating force represents the difference between (1) the centrifugal force produced by Earth’s revolution around the common center-of-gravity of the Earth-moon system and (2) the gravitational attraction of the moon acting upon the Earth’s overlying waters. The moon is about 390 times closer to Earth than is the sun. So despite its smaller mass, the moon’s tide-raising force is two times greater.

The tide-generating forces of the moon and sun acting tangentially to the Earth’s surface tend to cause a maximum accumulation of waters at two diametrically opposite points on the Earth’s surface and to withdraw compensating amounts of water from all points 90° removed from these tidal bulges. As the Earth rotates beneath the maxima and minima of these tide-generating forces, a sequence of two high tides, separated by two low tides, is produced each lunar day (the time it takes for a specific site on the Earth to rotate from an exact point under the moon to the same point under the moon, 24 hours and 50 minutes) in what is called a **semidiurnal tide**. Each ocean basin reacts differently to tidal forces.

Twice each month, when the sun, moon, and Earth are directly aligned—the moon between the Earth and sun (at new moon) or on the opposite side of Earth from the sun (at full moon)—the sun and moon exert gravitational forces in a mutual or additive fashion. The highest high tides and low-

est low tides, called **spring tides**, are produced at these times. At two positions 90° in between, the moon and sun’s gravitational forces—imposed at right angles—counteract each other to the greatest extent, and the range between high and low tides is reduced, resulting in **neap tides**.

The inclination of the moon’s monthly orbit and of the sun to the equator during Earth’s yearly rotation through its orbit produce a difference in the height of succeeding high and low tides, known as the diurnal inequality. In most cases, this produces a so-called **mixed tide**. In extreme cases, these phenomena may result in a **diurnal tide**, with only one high tide and one low tide each day. There are other monthly and yearly variations in the tides because of the elliptical shape of the orbits.

U.S. convention distinguishes between mean higher high water (MHHW), mean high water (MHW), mean tide level (MTL), mean sea level (MSL), mean low water (MLW), and mean lower low water (MLLW). Great diurnal range of tide is the difference in height between MHHW and MLLW. Mean range of tide is the difference between MHW and MLW.

The range of tides in the open ocean is generally less than in the coastal regions, where the incoming tide can be augmented by the continental shelves, as well as by bays and estuaries. The largest tidal ranges in the world occur in the Bay of Fundy and in Ungava Bay, Canada, where the range of tide reaches 53 ft. In New Orleans, the periodic rise and fall of the diurnal tide is affected by the seasonal stages of the Mississippi River, being about 10 in. at low stage and 0 at high.

In every case, actual high or low tide can vary considerably from the average, as a result of weather conditions such as strong winds, abrupt barometric pressure changes, or prolonged periods of extreme high or low pressure.

Average Rise and Fall of Tides

El Niño and La Niña

Source: National Weather Service, NOAA, U.S. Dept. of Commerce

El Niño is a climatically significant disruption of the ocean-atmosphere system characterized by large-scale weakening of trade winds and warming of the surface layers in the central and eastern equatorial Pacific. The term *El Niño*, Spanish for “the little boy” or “The Christ Child,” was originally used by fishermen to refer to a warm ocean current that appeared around Christmas off the west coasts of Ecuador and Peru that lasted several months. The term has come to be reserved for exceptionally strong, warm currents that bring heavy rains.

El Niño events generally occur at irregular intervals of 2 to 7 years, at an average of once every 3 to 4 years. They typically last 12 to 18 months. The intensity of El Niño events varies depending on the area encompassed by the abnormally warm ocean temperatures. Some are strong, such as in 1982-83 and 1997-98. Others are considerably weaker, such as the 2009-10 event. The eastward extent of warmer than normal water varies from episode to episode.

El Niño influences weather around the globe, and its impacts are most clearly seen in the winter. During El Niño years, winter temperatures in the continental U.S. tend to be warmer than normal in the North and West Coast states and

cooler than normal in the Southeast. Conditions tend to be wetter than normal over central and southern California, the Southwest states and across much of the South, and drier than normal over the northern portions of the Rocky Mountains and in the Ohio valley. Globally, El Niño brings wetter than normal conditions to Peru and Chile and dry conditions to Australia and Indonesia. It should be noted that El Niño is only one of a number of factors influencing seasonal variations of climate.

La Niña (“the little girl”) is characterized by colder than normal sea surface temperatures in the equatorial Pacific. La Niña typically brings wetter, cooler conditions to the Pacific North-west and drier, warmer conditions to much of the southern U.S. El Niño and La Niña are opposite phases of the El Niño-Southern Oscillation (ENSO) cycle, a shift in tropical sea-level pressure between the Eastern and Western hemispheres.

The National Weather Service’s Climate Prediction Center, using satellites and buoys in the Pacific Ocean, monitors these events. Highly sophisticated numerical computer models of the ocean and atmosphere use these data to predict the onset and evolution of El Niño and La Niña.

Wind Chill Table

Source: National Weather Service, NOAA, U.S. Dept. of Commerce

Temperature and wind combine to cause heat loss from body surfaces. For example, a temperature of 5°F, plus a 10-mph wind, causes body heat loss equal to that which would occur in -10°F with no wind. In other words, a 10-mph wind makes 5°F feel like -10°F. Wind speeds greater than 45 mph have little additional chilling effect. Direct sunlight can increase the wind chill temperature 10° to 15°F. When the wind chill temperature falls within the shaded area, frostbite can occur in 30 mins. or less.

		Air temperature (°F)															
Calm		40	35	30	25	20	15	10	5	0	-5	-10	-15	-20	-25	-30	-35

Heat Index

Source: National Weather Service, NOAA, U.S. Dept. of Commerce

The heat index, or the “apparent temperature,” is an accurate measure of how hot it really feels when the relative humidity is added to the actual air temperature. For example, when the air temperature is 100°F, and the relative humidity is 50%, it will feel as if it’s 118°F (with no humidity). Full sunlight can make one feel even hotter. On the chart, the shaded area above 105° corresponds to a level that may cause increasingly severe heat disorders with continued exposure and/or physical activity.

Ultraviolet (UV) Index Forecast

Source: National Weather Service, NOAA, U.S. Dept. of Commerce; U.S. Environmental Protection Agency

The National Weather Service (NWS) and the Environmental Protection Agency (EPA) developed and began offering a UV index in 1994, in response to increasing incidences of skin cancer, cataracts, and other effects from exposure to the sun’s harmful rays. In 2004, the Global Solar UV Index was released by the World Health Organization. The UV index is now a regular element of NWS atmospheric forecasts.

The UV index, ranging from 0 to 11+, is an indication of the expected intensity of UV radiation reaching the Earth’s surface during the solar noon hour (the time of day when the sun appears to have reached its highest point in the sky; it depends on location and the time of year). The lower the UV index value, the less the radiation. The UV index forecast is produced daily for 58 cities by the NWS Climate Prediction Center and uses the following scale.

UV index	Exposure	Minimum precautions
0-2	Low	Sunscreen with an SPF of at least 15
3-5	Moderate	Sunscreen, covering up
6-7	High	Sunscreen, hat, UV-blocking sunglasses, avoid sun 10 AM-4 PM
8-10	Very high	Same as above
11+	Extreme	Same as above

The index value is valid for a radius of about 30 miles around a listed city and is based on several factors:

Ozone. Ozone, a form of oxygen, the molecules of which consist of three atoms rather than two, blocks UV radiation. The more ozone, the lower the UV radiation at the surface.

Sun height. The higher the sun is in the sky, the higher the UV radiation level.

Cloudiness. UV radiation levels are highest under cloudless skies. Even with cloud cover, UV radiation levels can

be high due to the scattering of UV radiation by water molecules and fine particles in the atmosphere.

Reflectivity. Reflective surfaces intensify UV exposure. Sand reflects about 15% of UV radiation reaching the surface; sea foam, 25%; snow, as much as 80%; water, up to 100% depending on reflection angle.

Elevation. At higher elevations, UV radiation travels a shorter distance to reach Earth’s surface so there is less atmosphere to absorb the rays. For every 1,000 m (3,281 ft) one travels above sea level, UV levels increase by 10-12%. Snow and lack of pollutants intensify UV exposure at higher altitudes.

Latitude. The closer a location is to the equator, the higher the UV radiation level.

SPF (sun protection factor) number. The UV index is not linked in any way to the SPF number on suntan lotions and sunscreens. The Centers for Disease Control and Prevention (CDC) recommends using a sunscreen with at least SPF 15. For an explanation of the SPF factor, contact the product’s manufacturer or refer to the Food and Drug Administration website www.fda.gov/ForConsumers/ConsumerUpdates

Further information. For precautions to take after learning the UV index value, call the EPA’s Stratospheric Ozone Hotline (800-296-1996). For questions on scientific aspects, visit the NWS Climate Prediction Center online at www.cpc.noaa.gov.

Lightning

Source: National Weather Service, NOAA, U.S. Dept. of Commerce

Lightning occurs as a result of ice in storm clouds. As ice particles rise and sink in a cloud, collisions between them cause a separation of electrical charge. Positively charged crystals rise to the top, while negatively charged crystals drop. As the storm travels, a pool of positive charges gathers in the ground below and follows along, traveling up objects like trees, houses, and telephone poles. In a common form of lightning, the negatively charged area in a storm sends charges downward, attracted to positively charged objects. A channel develops and the electrical transfer seen is lightning. Lightning can travel miles away from the area of a storm.

The transfer of charges in lightning generates a huge amount of heat, sending the temperature in the channel to 50,000°F and causing the air within it to expand rapidly. The sound of that expansion is thunder. Sound travels more slowly than light, so lightning is usually observed before thunder is heard.

An estimated 25 mil cloud-to-ground lightning bolts happen in the U.S. each year, killing an annual average of

58 people in 1980-2009. This is a small number compared to U.S. deaths from fire (about 3,000 a year) and motor vehicle accidents (40,000-50,000), but it is still significant. In comparison, tornadoes caused an average of 57 deaths a year and hurricanes an average of 48 over the same 30-year time period. The National Weather Service reported that in 2009, 34 people were struck and killed by lightning; 201 more were injured.

Most lightning deaths and injuries occur in the summer months when people are outdoors. If outdoors, one should run to a safe building or vehicle when the first thunder is heard, lightning is seen, or dark threatening clouds are observed developing overhead. Even while indoors, one is advised to stay away from windows and avoid contact with anything conducting electricity, including corded phones, and tubs, showers, and other plumbing, and stay inside until 30 mins. after the last clap of thunder is heard.

More information about lightning can be found online at www.lightningsafety.noaa.gov.

Global Measured Extremes of Temperature and Precipitation Records

DISASTERS

Some Notable Aircraft Disasters Since 1937

Source: National Transportation Safety Board; World Almanac research. As of Sept. 2010.

Particularly notable disasters are in bold. Asterisk (*) indicates number of deaths includes those on ground.

Date	Aircraft	Site of accident	Deaths
1937, May 6	German zeppelin Hindenburg	Burned at mooring, Lakehurst, NJ	36*
1944, Aug. 23	U.S. Air Force B-24 Liberator bomber	Hit school, Freckleton, England	61*
1945, July 28	U.S. Army B-25	Hit Empire State Building after getting lost in fog, New York, NY	14*
1952, Dec. 20	U.S. Air Force C-124	Crashed at Moses Lake, WA	87
1953, Mar. 3	Canadian Pacific DH-106 Comet	Crashed on takeoff from Karachi, Pakistan; world's first fatal commercial passenger jet crash	11
1953, June 18	U.S. Air Force C-124	Crashed, burned near Tokyo, Japan	129
1955, Oct. 6	United Airlines DC-4	Crashed in Medicine Bow Peak, WY	66
1955, Nov. 1	United Airlines DC-6	Bomb on board exploded near Longmont, CO	44 ¹
1956, June 20	Venezuelan Super Constellation	Crashed into Atlantic off Asbury Park, NJ	74
1956, June 30	TWA Super Const., United DC-7	Collided over Grand Canyon, AZ	128
1960, Dec. 16	United DC-8, TWA Super Const.	Collided over New York, NY, killing all 128 on planes, 6 on ground	134*
1962, Mar. 16	Flying Tiger Super Constellation	Vanished in W Pacific en route to Philippines from Guam	107
1962, June 3	Air France Boeing 707	Crashed on takeoff from Paris, France	130
1962, June 22	Air France Boeing 707	Crashed in storm, Guadeloupe, French West Indies	113
1963, Feb. 1	Lebanese Middle East Airlines Vickers Viscount 754, Turkish Mil. Douglas C-47	Collided over Ankara, Turkey, killing all 17 on planes, 87 on ground	104*
1963, June 3	Northwest Airlines DC-7	Crashed into Pacific off British Columbia, Canada	101
1963, Nov. 29	Trans-Canada Air Lines DC-8	Crashed after takeoff from Montreal, Quebec, Canada	118
1965, May 20	Pakistani Boeing 720	Crashed at airport in Cairo, Egypt	121
1966, Jan. 24	Air India Boeing 707	Crashed on Mont Blanc, France-Italy	117
1966, Feb. 4	All-Nippon Boeing 727	Plunged into Tokyo Bay, Japan	133
1966, Mar. 5	BOAC Boeing 707	Crashed into Mt. Fuji, Japan, after encountering severe turbulence	124
1966, Dec. 24	U.S. military-chartered CL-44	Crashed into village in S Vietnam	129*
1967, Apr. 20	Globe Air Bristol Britannia	Crashed on approach to airport, Nicosia, Cyprus	126
1967, July 19	Piedmont Boeing 727, Cessna 310	Collided over Hendersonville, NC	82
1968, Apr. 20	S. African Airways Boeing 707	Crashed on takeoff from Windhoek, South-West Africa	122
1968, May 3	Braniff International Electra	Crashed in storm near Dawson, TX	85
1969, Mar. 16	Venezuelan DC-9	Crashed after takeoff from Maracaibo, Venezuela	155 ²
1969, Dec. 8	Olympic Airways DC-6B	Crashed in storm near Athens, Greece	93
1970, Feb. 15	Dominicana DC-9	Crashed into sea on takeoff from Santo Domingo, Dominican Rep.	102
1970, July 3	British-chartered DH-106 Comet	Crashed near Barcelona, Spain	112
1970, July 5	Air Canada DC-8	Crashed near Toronto International Airport, Canada	108
1970, Aug. 9	LANSA Lockheed L-188A Electra	Crashed on takeoff from Cuzco, Peru	101*
1970, Nov. 14	Southern Airways DC-9	Crashed into mountains near Huntington, WV	75 ³
1971, July 30	All-Nippon Boeing 727, Japan Air Force F-86 fighter	Collided over Morioka, Japan	162 ⁴
1971, Sept. 4	Alaska Airlines Boeing 727	Crashed into mountain near Juneau, AK	111
1972, Aug. 14	East German IL-62	Crashed on takeoff from East Berlin	156
1972, Oct. 13	Aeroflot IL-62	Crashed near Moscow, U.S.S.R.	176
1972, Dec. 3	Spanish-chartered Convair CV-990	Crashed on takeoff from Canary Islands, Spain	155
1972, Dec. 29	Eastern Airlines Lockheed Tristar	Crashed on approach to Miami Intl. Airport, FL	101
1973, Jan. 22	Nigerian-chartered Boeing 707	Burst into flames upon landing at Kano Airport, Nigeria	176
1973, Feb. 21	Libyan Arab Boeing 727	Flew off course, shot down by Israeli fighter planes over Sinai Desert	108
1973, Apr. 10	British Vickers Vanguard	Crashed during snowstorm on approach to Basel, Switzerland	104
1973, June 3	Soviet Supersonic Tu-144	Crashed near Goussainville, France	14 ⁵
1973, July 11	Brazilian Boeing 707	Crashed on approach to Orly Airport, Paris, France	122
1973, July 31	Delta Airlines DC-9	Crashed while attempting landing in fog, Logan Airport, Boston, MA	89
1974, Mar. 3	Turkish DC-10	Crashed in Ermenonville, near Paris, France	346
1974, Apr. 22	Pan American Boeing 707	Crashed in Bali, Indonesia	107
1974, Dec. 1	TWA Boeing 727	Crashed on approach in storm, Upperville, VA	92
1974, Dec. 4	Dutch-chartered DC-8	Crashed in storm near Colombo, Sri Lanka	191
1975, Apr. 4	Air Force Galaxy C-5A	Crashed on takeoff near Saigon, S Viet.; carried orphans	172
1975, June 24	Eastern Airlines 727	Crashed in storm, JFK Airport, New York, NY	113
1975, Aug. 3	Alia Royal Jordanian Boeing 707	Hit mountainside in heavy fog near Agadir, Morocco	188
1976, Sept. 10	Brit. Airways Trident, Yug. DC-9	Collided near Zagreb, Yugoslavia	176
1976, Sept. 19	Turkish 727	Hit mountain in S Turkey	155
1976, Oct. 13	LAB Boeing 707	Crashed after takeoff from Santa Cruz, Bolivia	100 ⁶
1977, Mar. 27	KLM 747, Pan American 747	Collided on runway, Tenerife, Canary Islands, Spain; world's worst airline disaster	583
1977, Nov. 19	TAP Portugal Boeing 727	Crashed in Madeira, Portugal	130
1977, Dec. 4	Malaysian Airlines Boeing 737	Hijacked and forced to fly to Singapore, crashed near Johor Strait	100
1977, Dec. 13	National Jet Service DC-3	Crashed after takeoff from Evansville, IN; passengers incl. Univ. of Evansville men's basketball team	29
1978, Jan. 1	Air India 747	Crashed into sea after takeoff from Bombay, India	213
1978, Sept. 25	Boeing 727, Cessna 172	Collided over San Diego, CA	150
1978, Nov. 15	Indonesian-chartered DC-8	Crashed on approach to airport, Colombo, Sri Lanka	183
1979, May 25	American Airlines DC-10	Crashed after takeoff from O'Hare Airport, Chicago, IL; highest death toll in U.S. aviation history	275*
1979, Aug. 11	Aeroflot/Moldova Tu-134, Aeroflot Tu-134	Collided over Ukraine	178
1979, Nov. 26	Pakistani Boeing 707	Crashed near Jidda, Saudi Arabia	156
1979, Nov. 28	Air New Zealand DC-10	Crashed into mountain after takeoff from Antarctica	257
1980, Mar. 14	PLL LOT IL-62	Crashed making emergency landing, Warsaw, Poland	87 ⁷
1980, Aug. 19	Saudi Arabian Tristar	Burned after emergency landing in Riyadh, Saudi Arabia	301
1981, Dec. 1	Inex Adria DC-9	Crashed into mountain on island of Corsica, France	180
1982, Jan. 13	Air Florida Boeing 737	Crashed into Potomac R. after takeoff from Washington, DC	78
1982, July 9	Pan Am Boeing 727	Crashed after takeoff from Kenner, LA, near New Orleans	153*
1983, Sept. 1	S. Korean Boeing 747	Shot down after violating Soviet airspace near Sakhalin; plane apparently misidentified	269
1983, Nov. 27	Avianca Boeing 747	Crashed near Barajas Airport, Madrid, Spain	183

Date	Aircraft	Site of accident	Deaths
1984, Oct. 11	Aeroflot/East Siberia Tu-154	Crashed into vehicles on runway while landing in poor weather, Omsk, Russia	178*
1985, Feb. 19	Spanish Boeing 727	Crashed into Mt. Oiz, Spain	148
1985, June 23	Air India Boeing 747	Crashed into Atlantic off Ireland after bomb detonated on board	329
1985, Aug. 2	Delta Air Lines L-1011	Crashed at Dallas-Ft. Worth Airport, TX	137
1985, Aug. 12	Japan Air Lines Boeing 747	Crashed into Mt. Ogura, Japan; world's worst single-plane disaster	520
1985, Dec. 12	Arrow Air DC-8	Crashed after takeoff from Gander, Newfoundland, Canada	256 ⁸
1986, Mar. 31	Mexican Boeing 727	Crashed NW of Mexico City	166
1986, Aug. 31	Aeromexico DC-9, Piper PA-28	Collided over Cerritos, CA	82*
1987, May 9	Polish IL-62M	Crashed after takeoff from Warsaw, Poland	183
1987, Aug. 16	Northwest Airlines MD-82	Crashed after takeoff from Romulus, MI	156
1987, Nov. 28	S. African Boeing 747	Crashed into Indian Ocean near Mauritius	159
1987, Nov. 29	S. Korean Boeing 707	Bomb planted by 2 N. Korean agents exploded while plane over Thai-Burmese border	155
1988, Mar. 17	Colombian Boeing 707	Crashed into mountainside near Venezuela border	137
1988, July 3	Iran Air Airbus A300	Misidentified as hostile aircraft, shot down by U.S. Navy warship Vincennes over Pers. Gulf	290
1988, Dec. 21	Pan Am Boeing 747	Libyan agent planted bomb on board; exploded over Lockerbie, Scotland	270⁹
1989, Feb. 8	U.S.-chartered Boeing 707	Crashed into mountain on Azores Isls., off Portugal	144
1989, June 7	Suriname DC-8	Crashed near Paramaribo Airport, Suriname	168
1989, July 19	United Airlines DC-10	Crashed on landing in Sioux City, IA	111
1989, Sept. 19	UTA DC-10	Bomb exploded on board flight from Chad to France while over desert in Niger	171
1989, Nov. 27	Avianca Boeing 727	Bomb exploded on flight from Bogotá, Colombia	107
1990, Jan. 25	Avianca Air Boeing 707	Crashed on landing at JFK Airport, New York, NY	73
1990, Feb. 14	Indian Airlines Airbus 320	Crashed and burned on landing in Bangalore, India	91
1990, Oct. 2	Xiamen Airlines Boeing 737	Hijacked after takeoff from Xiamen; struck empty 707, then 757 on runway, Guangzhou, China	132
1991, May 26	Lauda-Air Boeing 767-300	Exploded over rural Thailand	223
1991, July 11	Nigerian DC-8	Crashed on landing at Jidda, Saudi Arabia	261
1991, Oct. 5	Air Force Lockheed C-130 Hercules	Crashed after takeoff from Jakarta, Indonesia	137*
1992, July 31	Thai Airbus A300-310	Crashed into mountain N of Kathmandu, Nepal	113
1992, Oct. 4	El Al Boeing 747-200F	Crashed into 2 apartment bldgs., Amsterdam, Netherlands	120*
1993, Feb. 8	Iran Air Tu-154, Iranian Air Force jet	Collided after military jet took off from Tehran, Iran	133
1993, Mar. 5	Macedonian Pal Air Fokker 100	Crashed after takeoff in snowstorm from Skopje, Macedonia	83
1994, Jan. 3	Aeroflot Tu-154	Crashed and exploded after takeoff from Irkutsk, Russia	125*
1994, Apr. 26	China Airlines Airbus A300	Crashed on approach to Nagoya Airport, Japan	264
1994, June 6	China Northwest Airlines Tu-154	Crashed near Xian, China	160
1994, Sept. 8	USAir Boeing 737-300	Crashed near Pittsburgh Intl. Airport, Aliquippa, PA	132
1994, Oct. 31	American Eagle ATR-72-210	Crashed in field near Roselawn, IN	68
1995, Aug. 11	Aviateca Boeing 737	Crashed into Chichontepec volcano, El Salvador	65
1995, Dec. 20	American Airlines Boeing 757	Crashed into mountain N of Cali, Colombia	160
1996, Jan. 8	Antonov-32 cargo plane	Crashed into central market in Kinshasa, Zaire	350+*
1996, Feb. 6	Turkish Boeing 757	Crashed into Atlantic off Dominican Republic	189
1996, Apr. 3	U.S. Air Force Boeing T-43A	Crashed into mountain near Dubrovnik, Croatia	35 ¹⁰
1996, May 11	ValuJet DC-9	Crashed into Florida Everglades after takeoff	110
1996, July 17	Trans World Airlines Boeing 747	Exploded and crashed into Atlantic off Long Isl., NY	230
1996, Aug. 29	Vnukovo Tu-154	Crashed into mountain on Arctic island of Spitsbergen	141
1996, Oct. 2	Aeroperu Boeing 757	Crashed into Pacific after takeoff from Lima, Peru	70
1996, Oct. 31	Brazilian TAM Fokker-100	Crashed shortly after takeoff from São Paulo, Brazil	97*
1996, Nov. 7	ADG Boeing 727	Crashed into lagoon SE of Lagos, Nigeria	143
1996, Nov. 12	Saudi Arabian Boeing 747, Kazakh IL-76 cargo plane	Collided near New Delhi, India; world's worst midair collision	349
1996, Nov. 23	Ethiopian Airlines Boeing 767	Hijacked, then crashed into Indian Ocean off the Comoros	127
1997, Aug. 6	Korean Air Boeing 747-300	Crashed into jungle on Guam on approach to airport	228
1997, Sept. 3	Vietnamese Airlines Tu-134	Crashed on approach to Phnom Penh airport, Cambodia	64
1997, Sept. 26	Indonesian Airbus A300	Crashed near airport, Medan, Indonesia	234
1997, Oct. 10	Austral Airlines DC-9-32	Crashed and exploded near Neuvo Berlin, Uruguay	74
1997, Dec. 6	Russian AN-124 transport cargo plane	Crashed into apartment complex near Irkutsk, Siberia	67*
1997, Dec. 15	Tajik Air Tu-154	Crashed in desert near airport, Sharja, UAE	85
1997, Dec. 17	AeroSvit Airlines Yakovlev-42	Crashed into mountains near Katerini, Greece	70
1997, Dec. 19	SilkAir Boeing 737-300	Crashed into Musi River, Sumatra, Indonesia	104
1998, Feb. 2	Cebu Pacific Air DC-9-32	Crashed into mountain near Cagayan de Oro, Philippines	104
1998, Feb. 16	China Airlines Airbus A300	Crashed on approach to airport in Taipei, Taiwan	203*
1998, Apr. 20	Air France Boeing 727-200	Crashed into mountain after takeoff from Bogotá, Colombia	53
1998, Sept. 2	Swissair MD-11	Crashed into Atlantic off Nova Scotia, Canada	229
1998, Dec. 11	Thai Airways Airbus A310	Crashed on third landing attempt at Surat Thani airport, Thailand	101
1999, Feb. 24	China Southwest Airlines Tu-154	Crashed on approach to airport in Wenzhou, China	61
1999, Sept. 1	LAPA Boeing 737-200	Crashed on takeoff from airport, Buenos Aires, Argentina	74*
1999, Oct. 31	EgyptAir Boeing 767	Crashed off Nantucket, MA; result of deliberate actions by copilot, motives unknown	217
2000, Jan. 30	Kenya Airways Airbus A310	Crashed into Atlantic after takeoff from Abidjan, Ivory Coast	169
2000, Jan. 31	Alaska Airlines MD-83	Crashed into Pacific off coast of Southern CA	88
2000, Apr. 19	Air Philippines Boeing 737-200	Crashed on approach to airport, Davao, Philippines	131
2000, July 25	Air France Concorde	Crashed into hotel after takeoff from Paris; world's first Concorde crash	113*
2000, Aug. 23	Gulf Air Airbus A320	Crashed into Persian Gulf on approach to airport in Bahrain	143
2000, Oct. 31	Singapore Airlines Boeing 747	Crashed immediately after takeoff from Taipei, Taiwan	81
2001, Apr. 7	M-17 helicopter	Crashed into mountain S of Hanoi, Vietnam	16 ¹¹
2001, July 3	Vladivostokavia Tu-154	Crashed on approach to airport, Irkutsk, Russia	145
2001, Sept. 11	2 Boeing 767s, 2 Boeing 757s	September 11 terrorist attacks	265¹²
2001, Oct. 4	Sibir Airlines Tu-154	Crashed into Black Sea, off Russia, after hit by errant Ukrainian missile	78
2001, Oct. 8	Cessna 525A Citation, Scandinavian Airlines System (SAS) MD-87	Collided in heavy fog on takeoff from Milan, Italy	118*
2001, Nov. 12	American Airlines Airbus A300	Crashed after takeoff from JFK Airport, New York, NY	265*

Date	Aircraft	Site of accident	Deaths
2002, Jan. 28	TAME Ecuador Boeing 727	Crashed into Andes mountains, S Colombia	92
2002, Feb. 12	Iran Air Tours Tu-154	Crashed in Khorramabad, Iran	119
2002, Apr. 15	Air China Boeing 767	Crashed into mountainside in rain and fog on approach to airport, Pusan, S. Korea	129
2002, May 4	EAS Airlines BAC 1-11	Crashed shortly after takeoff from Kano, Nigeria	149
2002, May 7	China Northern Airlines MD-82	Plunged into sea, apparently after a passenger started fire in cabin, NE China	112
2002, May 25	China Airlines Boeing 747	Broke apart in midair, plunged into Taiwan Strait en route to Hong Kong airport	225
2002, July 1	Bashkirian Airlines Tu-154, DHL Boeing 757 cargo	Collided over S Germany	71
2002, July 27	Ukraine Air Force Sukhoi Su-27	Crashed while performing, Lviv, Ukraine; world's worst air-show crash	77 ¹³
2002, Aug. 19	Russian Mi-26 transport helicopter	Hit by Chechen missile near Grozny, Chechnya	127
2003, Jan. 8	Turkish Airlines British Aerospace RJ-100	Crashed on approach to airport in Diyarbakir, Turkey	75
2003, Feb. 19	Iranian Revolutionary Guard Il-76	Crashed into mountain near Kerman, Iran; passengers were Revolutionary Guard members	275
2003, Mar. 6	Air Algérie Boeing 737-200	Crashed on takeoff from Tamanrasset, Algeria	102
2003, May 8	Congolese Air Force Il-76	On flight from Kinshasa, Dem. Rep. of Congo, cargo door opened, passengers sucked out	7+ ¹⁴
2003, May 26	Ukrain.-Medit. Airlines Yak-42	Crashed into mountain in fog approaching Trabzon, Turkey; Spanish peacekeepers returning from Afghan	75
2003, July 8	Sudan Airways Boeing 737-200	Mechanical problems reported shortly after takeoff; crashed upon return to Port Sudan Airport	115
2003, Dec. 25	Union Transp. Africains Boeing 727	Overloading caused crash on takeoff from Cotonou, Benin	138
2004, Jan. 3	Flash Airlines Boeing 737-300	Crashed into Red Sea after takeoff from Sharm el-Sheik, Egypt	148
2004, Feb. 10	Iranian Kish Airline Fokker-50	Crashed on approach to Sharjah, UAE	43
2004, Aug. 24	Volga-Aviaexpress Tu-134, Sibir Airlines Tu-154	2 planes that took off from Moscow crashed within minutes of each other; brought down by Chechen suicide bombers	90
2005, Feb. 3	Kam Air Boeing 737-200	Crashed on approach to airport in Kabul, Afghan	104
2005, Aug. 14	Helios Airways Boeing 737-300	Crashed after air pressure failure on board, near Athens, Greece	121
2005, Aug. 16	West Caribbean Airways MD-82	Crashed after engine failure, near Machiques, Venezuela	160
2005, Sept. 5	Mandala Airlines Boeing 737-200	Crashed shortly after takeoff from Medan, Sumatra, Indonesia	145 ¹⁵
2005, Oct. 22	Bellview Airlines Boeing 737-200	Crashed during heavy electrical storm near Lagos, Nigeria	117
2005, Dec. 6	Islamic Rep. of Iran Air Force Lockheed C-130	Crashed into apartment building after reportedly attempting emergency landing back at airport, Tehran, Iran	116+ ¹⁶
2005, Dec. 10	Sosoliso Airlines DC-9-30	Crashed during storm on approach to Port Harcourt, Nigeria	107
2006, May 3	Armavia Airbus A320	Crashed into Black Sea on approach to airport, Sochi, Russia	113
2006, July 9	S7 Airlines Airbus A310	Skidded off runway, crashed into concrete barrier after landing, Irkutsk, Russia	125
2006, Aug. 22	Pulkovo Aviation Tu-154	Crashed after encountering storm, near Donetsk, Ukraine	170
2006, Aug. 27	Comair Bombardier CRJ-100	Crashed after takeoff from Lexington, KY	49
2006, Sept. 29	Gol Airlines Boeing 737	Crashed into Amazon jungle after midair collision with Embraer Legacy jet, Brazil	154
2006, Oct. 29	ADC Airlines Boeing 737-200	Crashed in stormy weather shortly after takeoff from Abuja, Nigeria	96
2007, Jan. 1	Adam Air Boeing 737-400	Crashed into sea off coast, Makassar, Indonesia	102
2007, May 5	Kenya Airways Boeing 737-800	Crashed shortly after takeoff from Douala, Cameroon	114
2007, July 17	TAM Airlines Airbus 320	Crashed into cargo depot, gas station after skidding off airport runway, São Paulo, Brazil	199*
2007, Sept. 16	One-Two-Go Airlines Boeing-MD-82	Skidded off runway, caught fire after landing, Phuket, Thailand	89
2007, Nov. 30	Atlasjet MD-83	Crashed on approach to airport, Isparta, Turkey	57
2008, Aug. 20	Spanair Boeing-MD-82	Swerved off runway, caught fire on takeoff attempt, Madrid, Spain	154
2008, Aug. 24	Itek Air Boeing 737	Crashed after takeoff from Bishkek, Kyrgyzstan	65
2008, Sept. 14	Aeroflot-Nord Boeing 737-500	Crashed on approach to airport, Perm, Russia	88
2009, Feb. 12	Colgan Air Bombardier Dash 8 Q400	Crashed into house near airport, Buffalo, NY	50*
2009, May 20	Indonesian military C-130 Hercules	Crashed into houses and a rice field, Java, Indonesia	98
2009, June 1	Air France Airbus A330	Plunged into Atlantic Ocean en route from Rio de Janeiro, Brazil, to Paris, France	228
2009, June 29	Yemenia Airbus A310-300	Fell into Indian Ocean on approach to Moroni, Comoros	152
2009, July 15	Caspian Airlines Tupolev 154	Crashed after takeoff from Tehran, Iran	168
2010, Jan. 25	Ethiopian Airlines Boeing 737-300	Crashed into Mediterranean after takeoff from Beirut, Lebanon	90
2010, May 12	Afriqiyah Airways Airbus A330-200	Crashed short of runway in Tripoli, Libya	103
2010, May 22	Air India Express Boeing 737-300	Overran runway on landing at Mangalore, India	158

(1) Bomb was planted by Jack G. Graham in insurance plot to kill his mother, Daisie E. King, a passenger. (2) 84 on plane, 71 on ground killed. (3) Incl. 43 Marshall Univ. (WV) football players and coaches. (4) Fighter pilot parachuted to safety. (5) First supersonic plane crash; killed 8 on ground. (6) Crew of 3, 97 on ground killed. (7) Incl. 22 members of U.S. amateur boxing team. (8) Incl. 248 members of U.S. 101st Airborne Division. (9) Incl. 11 on ground. (10) Incl. U.S. Sec. of Commerce Ron Brown. (11) Carried U.S. mil. personnel searching for MIAs from Vietnam War. (12) 4 planes were hijacked and crashed, with all on board killed (265, incl. 19 hijackers). American Airlines Flight 11, a Boeing 767-200, with 81 passengers, 11 crew, crashed into Tower 1 of World Trade Center; United Airlines Flight 175, a Boeing 767-200, with 56 passengers, 9 crew, crashed into Tower 2 of World Trade Center; American Airlines Flight 77, a Boeing 757-200, with 58 passengers, 6 crew, crashed into Pentagon outside Washington, DC; United Air Lines Flight 93, a Boeing 757-200, with 37 passengers, 7 crew, crashed near Shanksville, PA. About 125 died on ground in the Pentagon. In May 2007, for first time, medical examiner linked a death to exposure to dust from collapsed towers on Sept. 11. Additional deaths from such exposure brought number of World Trade Center victims to 2,752 as of Sept. 2009. (13) Pilots ejected to safety. All spectator deaths. (14) 7 confirmed dead. Actual number might be 60-100+. (15) Incl. 44 on ground. (16) 94 on plane plus 22+ on ground.

Disaster Averted

Date: Jan. 15, 2009. **Location:** Hudson River, NY-NJ. **Fatalities:** 0.

Chesley B. "Sully" Sullenberger III, the captain of U.S. Airways Flight 1549, made a spectacular emergency landing on the surface of a chilly Hudson River after apparent bird strikes took out both of the plane's engines shortly after takeoff from New York's LaGuardia Airport. Ferry boats and other nearby watercraft safely evacuated the five crew members and all 150 passengers to shore soon after the emergency water landing.

Some Notable Shipwrecks Since 1854

Figures are estimated deaths. Does not include most wartime disasters.

- 1854, Mar. 1—**City of Glasgow**; Brit. steamer left Liverpool for Philadelphia, never heard from again; 480.
- 1854, Sept. 27—**Arctic** and **Vesta**; U.S. Collins Line steamer sunk in collision with French steamer nr. Cape Race, Canada; 285-351.
- 1856, Jan. 23—**Pacific**; U.S. Collins Line steamer went missing in N Atlantic; 186-286.
- 1858, Sept. 23—**Austria**; German steamer destroyed by fire in N Atlantic; 471.
- 1863, Apr. 27—**Anglo-Saxon**; Brit. steamer wrecked at Cape Race, Canada; 238.
- 1865, Apr. 27—**Sultana**; Mississippi R. steamer blew up nr. Memphis, TN; 1,450.
- 1869, Oct. 27—**Stonewall**; steamer burned, Mississippi R. below Cairo, IL; 200.
- 1870, Jan. 25—**City of Boston**; Brit. Inman Line steamer vanished between New York and Liverpool; 177.
- 1870, Oct. 19—**Cambria**; Brit. steamer off N Ireland; 196.
- 1872, Nov. 7—**Mary Celeste**; U.S. half-brig sailing from New York to Genoa, Italy, found abandoned; loss of life unknown.
- 1873, Jan. 22—**Northfleet**; Brit. steamer foundered off Dungeness, England; 300.
- 1873, Apr. 1—**Atlantic**; Brit. White Star steamer off Nova Scotia, Can.; 585.
- 1873, Nov. 23—**Ville du Havre** and **Loch Earn**; French steamer sank after collision with Brit. sailing ship; 226.
- 1875, May 7—**Schiller**; German steamer off Scilly Isles, UK; 312.
- 1875, Nov. 4—**Pacific**; U.S. steamer sank after collision off Cape Flattery, WA; 236.
- 1878, Sept. 3—**Princess Alice**; Brit. steamer sank after collision with *Bywell Castle* in Thames R.; 700.
- 1878, Dec. 18—**Byzantin**; French steamer sank after collision in Dardanelles, off Turkey; 210.
- 1881, May 24—**Victoria**; steamer capsized in Thames R., ON, Canada; 200.
- 1883, Jan. 19—**Cimbria** and **Sultan**; German steamer sank in collision with Brit. steamer in North Sea; 389.
- 1890, Feb. 17—**Duburg**; Brit. steamer wrecked, China Sea; 400.
- 1890, Sept. 19—**Ertogrul**; Turkish frigate off Japan; 540.
- 1891, Mar. 17—**Utopia** and **Anson**; Brit. steamer sank in collision with Brit. ironclad off Gibraltar; 562.
- 1895, Jan. 30—**Elbe** and **Craithie**; German steamer sank in collision with Brit. steamer in North Sea; 332.
- 1895, Mar. 11—**Reina Regenta**; Spanish cruiser foundered nr. Gibraltar; 400.
- 1898, Feb. 15—**USS Maine**; explosion caused battleship to sink in Havana Harbor, Cuba; 260.
- 1898, July 4—**La Bourgogne** and **Cromartyshire**; French steamer sank in collision with Brit. sailing ship off Nova Scotia, Can.; 549.
- 1898, Nov. 26—**Portland**; U.S. steamer, off Cape Cod, MA; 157.
- 1904, June 15—**General Slocum**; excursion steamer burned in East R., New York, NY; 1,021.
- 1904, June 28—**Norge**; Danish steamer wrecked on Rockall Isl., Scotland; 620.
- 1906, Aug. 4—**Sirio**; Italian steamer wrecked off Cape Palos, Spain; 350.
- 1908, Mar. 23—**Mutsu Maru**; Japanese steamer sank in collision with another steamer nr. Hakodate, Japan; 300.
- 1909, Aug. 1—**Waratah**; Brit. steamer vanished en route from Sydney to London; 300.
- 1910, Feb. 9—**General Chanzy**; French steamer wrecked off Minorca, Spain; 200.
- 1911, Sept. 25—**Liberté**; French battleship exploded at Toulon; 285.
- 1912, Mar. 5—**Principe de Asturias**; Spanish steamer wrecked off Spanish coast; 500.
- 1912, Apr. 14-15—**Titanic**; Brit. White Star steamer hit iceberg in N Atlantic; 1,503.
- 1912, Sept. 28—**Kichemaru**; Japanese steamer sank off Japan coast; 1,000.
- 1914, May 29—**Empress of Ireland**; Canadian Pacific steamer collided with Norwegian coal transporter *Storstad* in St. Lawrence R., Can.; 1,014.
- 1915, May 7—**Lusitania**; Brit. Cunard Line steamer torpedoed and sunk by German submarine off Ireland; 1,198.
- 1915, July 24—**Eastland**; steamer capsized, Chicago R., IL; 844.
- 1916, Feb. 26—**Provence**; French cruiser sank in Medit.; 3,100.
- 1916, Mar. 3—**Principe de Asturias**; Spanish steamer wrecked nr. Santos, Brazil; 558.
- 1917, Dec. 6—**Mont Blanc** and **Imo**; French ammunition ship and Belgian steamer collided in Halifax Harbor, Can.; 1,600.
- 1918, Apr. 25—**Kiang-Kwan**; Chinese steamer sank in collision off Hankow; 500.
- 1918, July 12—**Kawachi**; Japanese battleship blew up in Tokayama Bay; 500.
- 1918, Oct. 25—**Princess Sophia**; Canadian steamer sank off Alaskan coast; 398.
- 1919, Jan. 17—**Chaonia**; French steamer lost in Straits of Messina, Italy; 460.
- 1919, Sept. 9—**Valbanera**; Spanish steamer lost off FL coast; 500.
- 1921, Mar. 18—**Hong Kong**; steamer wrecked, S China Sea; 1,000.
- 1922, Aug. 26—**Niitaka**; Japanese cruiser sank in storm off Kamchatka, USSR; 300.
- 1924, June 12—**USS Mississippi**; explosions in battleship's gun turret, off San Pedro, CA; 48.
- 1927, Oct. 25—**Principessa Mafalda**; Italian steamer blew up, sank off Porto Seguro, Brazil; 314.
- 1928, Nov. 12—**Vestris**; Brit. steamer sank off VA coast; 113.
- 1934, Sept. 8—**Morro Castle**; U.S. steamer en route from Havana to New York, burned off Asbury Park, NJ; 134.
- 1939, May 23—**Squalus**; U.S. submarine sank off Portsmouth, NH; 26.
- 1939, June 1—**Thetis**; Brit. submarine sank, Liverpool Bay; 99.
- 1942, Feb. 18—**USS Truxtun** and **USS Pollux**; destroyer and cargo ship ran aground, sank off Newfoundland, Can.; 204.
- 1942, Oct. 2—**Curacao** and **Queen Mary**; Brit. cruiser sank after collision with liner; 338.
- 1944, Dec. 17-18—3 U.S. Third Fleet destroyers sank during typhoon, Philippine Sea; 790.
- 1945, Jan. 30—**Wilhelm Gustloff**; liner with German refugees, soldiers sunk by Soviet submarine in Baltic; 5,000-9,000.
- 1945, Apr. 16—**Goya**; cargo ship carrying German refugees, soldiers sunk by Soviet submarine in Baltic; 6,000-7,000.
- 1945, May 3—**Cap Arcona** and **Thielbek**; German liners carrying concentration camp inmates sunk by British warplanes in Lubeck Bay, Ger.; 7,000-8,000.
- 1947, Jan. 19—**Himera**; Greek steamer hit mine off Athens, Greece; 392.
- 1947, Apr. 16—**Grandcamp**; French freighter exploded, Texas City, TX, harbor, started fires; 576+.
- 1948, Dec. 3—**Kiangya**; Chinese refugee ship wrecked in explosion S of Shanghai; 1,100+.
- 1949, Sept. 17—**Noronic**; Canadian Great Lakes Cruiser burned in dock, Toronto, Can.; 130.
- 1952, Apr. 26—**USS Hobson** and **USS Wasp**; destroyer and aircraft carrier collided in Atlantic; 176.
- 1954, Sept. 26—**Toya Maru**; Japanese ferry sank, Tsugaru Strait, Japan; 1,172.
- 1956, July 26—**Andrea Doria** and **Stockholm**; Italian liner and Swedish liner collided off Nantucket Isl., MA; 51.
- 1957, July 14—**Eshghabad**; Soviet ship ran aground in Caspian Sea; 270.
- 1961, Apr. 8—**Dara**; Brit. liner exploded in Persian Gulf; 236.
- 1961, July 8—**Save**; Portuguese ship ran aground off Mozambique; 259.
- 1963, Apr. 10—**Thresher**; U.S. Navy atomic submarine sank in N Atlantic; 129.
- 1964, Feb. 10—**Voyager**; Australian destroyer sank after collision with aircraft carrier *Melbourne* off New South Wales; 82.
- 1965, Nov. 13—**Yarmouth Castle**; Panamanian-registered cruise ship burned, sank off Nassau, Bahamas; 89.
- 1968, Jan. 25—**Dakar**; Israeli submarine vanished in Medit.; 69.
- 1968, May 27—**Scorpion**; U.S. nuclear submarine went missing, later found to have sunk in Atlantic nr. Azores; 99.
- 1969, June 2—**Evans** and **Melbourne**; U.S. destroyer cut in half by Australian carrier, S China Sea; 74.
- 1970, Mar. 4—**Eurydice**; French submarine sank in Medit. nr. Toulon; 57.
- 1970, Dec. 15—**Namyong-Ho**; S. Korean ferry sank in Korea Strait; 308.
- 1974, Sept. 26—Soviet destroyer sank in Black Sea; 200+.
- 1975, Nov. 10—**Edmund Fitzgerald**; U.S. cargo ship sank during storm on Lake Superior; 29.
- 1976, Oct. 20—**George Prince** and **Frosta**; U.S. ferryboat and Norwegian tanker collided, Mississippi R., at Luling, LA; 77.
- 1976, Dec. 25—**Patria**; Egyptian liner caught fire, sank in Red Sea; 100.

Sinking of the *General Slocum*

Date: June 15, 1904. **Location:** New York, NY. **Fatalities:** 1,021.

The highest death toll of any incident in New York City prior to the Sept. 11, 2001, terrorist attacks. The *General Slocum* caught fire while on the East River. Most of its 1,300-1,500 passengers were women and children, German immigrants on a daylong church outing. Shortly after the ship launched, a fire erupted on board. The inexperienced crew didn't know how to respond, and the ship, which was in poor condition, lacked adequate safety measures. Those who didn't know how to swim died in the fire or drowned when they jumped into the water.

1979, Aug. 14—23 yachts competing in Fastnet yacht race sank or abandoned during storm in S Irish Sea; 18.
1980, Apr. 22—**Don Juan**; sank off Mindoro Isl., Philippines, after colliding with barge; 1,000+.
1981, Jan. 27—**Tamponas II**; Indonesian passenger ship caught fire and sank in Java Sea; 580.
1983, Feb. 12—**Marine Electric**; coal freighter sank during storm off Chincoteague, VA; 33.
1983, May 25—**10th of Ramadan**; Nile steamer caught fire and sank in Lake Nasser, Egypt; 357.
1986, Apr. 20—**Atlas Star**; ferry sank in storm, Dhaleswari R. nr. Dhaka, Bangladesh; 300+.
1986, May 25—**Shamia**; ferry capsized in storm, Meghna R., Bangladesh; 500+.
1986, Sept. 1—**Admiral Nakhimov** and **Pyotr Vasev**; Soviet cruise ship collided with Soviet freighter in Black Sea; 425.
1987, Mar. 6—**Herald of Free Enterprise**; Brit. ferry capsized off Zeebrugge, Belgium; 189.
1987, Dec. 20—**Doña Paz** and **Victor**; Philippine ferry and oil tanker collided in Tablas Strait; 4,341.
1988, Aug. 6—Indian ferry capsized on Ganges R.; 400+.
1989, Apr. 7—**Komsolets**; Soviet submarine sank after fire off Norwegian coast; 42.
1989, Aug. 20—**Bowbelle** and **Marchioness**; Brit. barge struck Brit. pleasure cruiser on Thames R. in central London; 56.
1991, Apr. 10—**Moby Prince** and **Agip Abruzzo**; auto ferry and oil tanker collided outside Livorno Harbor, Italy; 140.
1991, Dec. 14—**Salem Express**; ferry rammed coral reef nr. Safaga, Egypt; 462.
1993, Feb. 17—**Neptune**; ferry capsized off Port-au-Prince, Haiti; 500+.
1993, Oct. 10—**Seohae**; capsized in Yellow Sea nr. W S. Korea during storm; 285.
1994, Sept. 28—**Estonia**; ferry sank in Baltic Sea; 852.
1996, May 21—**Bukoba**; overcrowded Tanzanian ferry sank in Lake Victoria; 500+.
1997, Feb. 20—Tamil refugee boat sank off Sri Lanka; 165.
1997, Mar. 28—Albanian refugee boat sank in Adriatic after being rammed by Italian navy warship *Sibilla*; 83.
1997, Sept. 8—**Pride of la Gonâve**; Haitian ferry sank off Montrouis, Haiti; 200+.
1998, Apr. 4—Passenger boat capsized off coast nr. Ibaka beach, Nigeria; 280.
1998, Sept. 2—2 passenger boats capsized on Lake Kivu, nr. Bukavu, Congo; 200+.
1999, Feb. 6—**Harta Rimba**; cargo ship sank off Indonesia; 280+.
1999, May 1—**Miss Majestic**; “duck” boat on tour sank, Lake Hamilton, AR; 13.
1999, Nov. 24—**Dashun**; passenger ferry capsized nr. Yantai, China; 280.

2000, June 29—**Cahaya Bahari**; overloaded ferry carrying refugees from religious strife capsized in storm off Sulawesi Isl., Indonesia; 500+.
2000, Aug. 12—**Kursk**; faulty torpedo exploded on board Russian submarine, causing it to sink in Barents Sea; 118.
2000, Sept. 26—**Express Samina**; Greek ferry sank off Paros, Greece; 81+.
2001, Feb. 9—**Ehime Maru**; Japanese trawler sunk by surfacing U.S. submarine *Greeneville*, nr. Hawaii; 9.
2001, Oct. 19—Fishing boat overloaded with refugees, mainly from Middle East, sank off Indonesia; 350+.
2001, Dec. 22—Suspected N. Korean spy ship sank after exchanging fire with Japanese coast guard; 15.
2002, May 4—**Salahuddin-2**; overloaded Bangladesh ferry sank in Meghna R.; 300+.
2002, Sept. 26—**Joola**; overloaded Senegalese ferry capsized in ocean off The Gambia; 1,863.
2003, Mar. 23—**Kashowgwe**; overloaded ferry capsized in Lake Tanganyika, off Burundi; 111+.
2003, July 8—**MV-Nasrin 1**; overcrowded ferry sank nr. Chandpur in Bangladesh R.; 400.
2003, Oct. 15—**Andrew J. Barberi**; NYC ferry crashed into dock on approach to Staten Isl.; 11.
2003, Nov. 25—**Dieu Merci**; overloaded ferry sank on Lake Mayi Ndombe, Dem. Rep. of Congo; 130-200.
2004, Jan. 26—**Convoi Lengi**; ferry caught fire on Congo R., Dem. Rep. of Congo; 200.
2004, Mar 6—**Lady D**; water taxi capsized in storm, Inner Harbor, Baltimore, MD; 5.
2004, Mar. 11—**Samson**; ferry sank off Madagascar during cyclone; 113.
2005, July 7—**KMP Digul**; ferry capsized in rough waters nr. Merauke, Indonesia; 150+.
2005, Aug. 12—Fishing boat overloaded with Ecuadorans attempting to migrate to U.S. sank off Colombia; 94.
2005, Oct. 2—**Ethan Allen**; glass boat carrying senior citizens capsized on tour, Lake George, NY; 20.
2006, Feb. 3—**Al-Salam Boccaccio 98**; ferry caught fire, sank in Red Sea off Egypt; 1,000+.
2006, Dec. 30—**Senopati Nusantara**; high waves capsized ferry en route to Java, Indonesia; 400+.
2007, May 4—Boat overloaded with illegal Haitian immigrants capsized in storm nr. Turks and Caicos Isls.; 61+.
2007, Nov. 23—**Explorer**; Canadian cruise ship sank off Antarctica, first comm. passenger ship to sink in region; none.
2008, June 23—**Princess of the Stars**; Philippine ferry capsized during Typhoon *Fengshen* nr. Manila; 800.
2009, Mar. 30—Passenger boat carrying African immigrants to Italy capsized off coast of Libya; 200+.

Some Notable Railroad Disasters Since 1925

Date	Location	Deaths	Date	Location	Deaths
1925, June 16	Hackettstown, NJ	50	1957, Sept. 1	Kendal, Jamaica	178

(1) What hurricanes are called W of intl. date line and N of equator. (2) Incl. about 500 lost on ships at sea. (3) Official toll as of Aug. 2006 was 1,577 in LA, 238 in MS, 14 in FL, and 2 each in AL and GA. (4) Incl. 55 indirect deaths, among them 20 people, mostly elderly evacuees from a nursing home, whose bus exploded and caught fire outside Dallas. (5) Incl. deaths from floods and landslides generated by heavy rainstorms. (6) First documented super cyclone in Arabian Sea.

"Storm of the Century"

Dates: Mar. 12-14, 1993. Location: East Coast, U.S. Fatalities: 270+. Damages: \$5-6 bil.

One of the worst winter storms to strike the eastern U.S. About 90 mil people were subjected to high wind gusts (max. 71-144 mph) and record low temperatures, from 31° in FL to -12°F in VT and ME. Snowfall totals ranged from 4 in. to 56 in. A reported 15 tornadoes struck FL, causing deadly storm surges. For the first time, every major airport on the East Coast experienced closings because of the storm. The National Weather Service estimated that 44 mil acre-ft of water fell as snow during the storm—comparable to the volume of water in the Mississippi R. that flows past New Orleans in 40 days.

(1) Based on official estimates assembled by the Intl. Fed. of Red Cross and Red Crescent Societies, including 50,773 missing; as reported Dec. 15, 2005. The nearly 176,300 listed as dead include 128,645 from Indonesia; 31,147 from Sri Lanka; 10,749 from India; and 5,395 from Thailand.

Hurricane Katrina

Dates: Aug. 25-29, 2005. **Location:** FL, LA, MS, AL, other inland states.
Fatalities: 1,833+. **Damages:** \$125 bil.

The costliest storm to date in U.S. history first made landfall in SE Florida, Aug. 25, as a Category 1 hurricane. Katrina brought heavy rains that led to flooding in the FL peninsula. Katrina then weakened slightly, strengthened over the Gulf of Mexico, but was downgraded again to Category 3 status before hitting land south of Buras, LA, on Aug. 29. Despite weakening, Katrina caused massive storm surges measuring up to 25-28 ft throughout SE Louisiana, S Mississippi, and SW Alabama. These storm surges, combined with strong winds and heavy rainfall, contributed to the failure of New Orleans's levee system Aug. 30. About 80% of the city eventually flooded. Approximately 1 mil were displaced from their homes.

Some Major Earthquakes

Source: Global Volcanism Network, Smithsonian Institution; U.S. Geological Survey, U.S. Dept. of the Interior; World Almanac research

Magnitude of earthquakes (mag.) is based on the Richter scale; an increase of one whole point represents a release of about 30 times more energy. Adopted in 1935, the scale is applied to earthquakes as far back as reliable seismograms are available, but earlier figures should be considered estimates.

NA = Not available. (1) Once thought to have been a volcanic eruption; evidence indicates a destructive earthquake and tsunami occurred on this date. (2) This earthquake caused the most deadly tsunami to date in the Atlantic Ocean. (3) Incl. deaths from resulting fires; revised estimates of magnitude range from 7.7 to 7.9. (4) Commonly referred to as the Gansu quake; actually located within the Ningxia autonomous region. (5) The largest recorded earthquake; caused a deadly tsunami that spread across the Pacific Ocean as far as Japan. (6) The "Good Friday" earthquake sent a tsunami that hit British Columbia, Canada, and the U.S. Pacific coast. (7) This undersea earthquake triggered devastating tsunamis that hit 12 Indian Ocean nations. See also listing under Floods; Nations of the World.

Cocoanut Grove Nightclub Fire

Date: Nov. 28, 1942. **Location:** Boston, MA. **Fatalities:** 492.

More than 1,000 people were packed into the popular Cocoanut Grove nightclub one Saturday night when a lit match accidentally set an artificial palm tree ablaze. The fire quickly spread from a downstairs lounge through the rest of the nightclub, which was furnished with highly flammable material. The crowds—larger than should have been allowed in the club—panicked and mobbed the exits that weren't locked. Hundreds were trampled or were consumed by the conflagration. The survivors suffered burns, smoke inhalation, and other injuries.

Some Notable Explosions Since 1920

See also Principal U.S. Mine Disasters Since 1900. Some bombings related to political conflicts and terrorism are not included.

Bhopal Industrial Disaster

Date: Dec. 3, 1984. **Location:** Bhopal, India. **Fatalities:** 16,000 (est.). **Damages:** \$470 mil+.

Tons of toxic methyl isocyanate gas leaked from a defective storage tank at a Union Carbide pesticide plant in Bhopal, central India. Between 2,000 and 3,000—many of them residents of slums adjacent to the plant—died shortly thereafter. About 50,000 were treated for severe injuries to their eyes, lungs, and kidneys. An estimated 15,000-20,000 may have subsequently died from exposure to the lethal gas. In 1989, Union Carbide settled a lawsuit by agreeing to provide \$470 mil in compensation. Bhopal residents still contend with the effects of the disaster, including health problems and contaminated groundwater.

Notable Nuclear Accidents

- Oct. 7, 1957:** Fire in the Windscale plutonium production reactor N of Liverpool, England, released radioactive material; later blamed for 39 cancer deaths.
- Jan. 3, 1961:** Reactor explosion at a federal installation near Idaho Falls, ID, killed 3 workers. Radiation contained.
- Oct. 5, 1966:** Sodium cooling system malfunction caused a partial core meltdown at the Enrico Fermi demonstration breeder reactor, near Detroit, MI. Radiation contained.
- Jan. 21, 1969:** Coolant malfunction from an experimental underground reactor at Lucens Vad, Switzerland, released radiation into a cavern, which was then sealed.
- Mar. 22, 1975:** Fire at the Brown's Ferry reactor in Decatur, AL, caused dangerous lowering of cooling water levels.
- Mar. 28, 1979:** Worst commercial nuclear accident in the U.S. occurred as equipment failures and human mistakes led to a loss of coolant and a partial core meltdown at the Three Mile Island reactor in Middletown, PA.
- Feb. 11, 1981:** 8 workers were contaminated when 100,000 gallons of radioactive coolant fluid leaked into containment building of TVA's Sequoyah 1 plant near Chattanooga, TN.
- Apr. 25, 1981:** Some 100 workers were exposed to radiation during repairs of a nuclear plant at Tsuruga, Japan.
- Jan. 6, 1986:** Cylinder of nuclear material burst after being improperly heated at a Kerr-McGee plant at Gore, OK. One worker died; 100 were hospitalized.
- Apr. 26, 1986:** In the worst nuclear accident in the history of nuclear power, fires and explosions resulting from an unauthorized experiment at the Chernobyl nuclear power plant near Kiev, USSR (now in Ukraine), left at least 31 dead in the immediate aftermath and spread radioactive material over much of Europe. An estimated 135,000 people were evacuated from the region, some of which was uninhabitable for years. As a result of the radiation released, tens of thousands of excess cancer deaths (as well as increased birth defects) were expected.
- Sept. 30, 1999:** Japan's worst nuclear accident ever occurred at a uranium-reprocessing facility in Tokaimura, NE of Tokyo, when workers accidentally overloaded a container with uranium, thereby exposing workers and area residents to extremely high radiation levels.

Record Oil Spills

The exact number of barrels in a ton varies with the type of oil, but a good approximation is 7 barrels per ton. Each barrel contains 42 gallons.

Name, location	Date	Cause	Tons
BP <i>Deepwater Horizon</i> rig, Gulf of Mexico, U.S.	Apr. 20-July 15, 2010	Explosion	700,000 ¹
Ixtoc I oil well, S Gulf of Mexico	June 3, 1979	Blowout	600,000
Nowruz oil field, Persian Gulf	Feb. 1983	Blowout	600,000 (est.)
<i>Atlantic Empress</i> and <i>Aegean Captain</i> , off Trinidad and Tobago	July 19, 1979	Collision	300,000
<i>ABT Summer</i> , off Angola	May 28, 1991	Explosion	260,000
<i>Castillo de Bellver</i> , off Cape Town, South Africa	Aug. 6, 1983	Fire	250,000
<i>Amoco Cadiz</i> , near Portsall, France	Mar. 16, 1978	Grounding	223,000
<i>Torrey Canyon</i> , off Land's End, England	Mar. 18, 1967	Grounding	119,000
<i>Sea Star</i> , Gulf of Oman	Dec. 19, 1972	Collision	115,000
<i>Urquiola</i> , La Coruna, Spain	May 12, 1976	Grounding	100,000

Other Notable Oil Spills

Name, location	Date	Cause	Gallons
Persian Gulf	Began Jan. 23, 1991	Spillage by Iraq	130,000,000 ²
<i>Braer</i> , off Shetland Islands, UK	Jan. 5, 1993	Grounding	26,000,000
<i>Prestige</i> , off N Spain	Nov. 13-19, 2002	Ship broke in half	22,600,000
<i>Aegean Sea</i> , off N Spain	Dec. 3, 1992	Unknown	21,500,000
<i>Sea Empress</i> , off SW Wales	Feb. 15, 1996	Grounding	18,000,000
<i>World Glory</i> , off South Africa	June 13, 1968	Hull failure	13,524,000
Newtown Creek, Greenpoint, Brooklyn, NY	Oct. 5, 1950-present	Industrial explosion, preceded by leaks in 1940s-50s	17,000,000
<i>Exxon Valdez</i> , Prince William Sound, AK	Mar. 24, 1989	Grounding	10,080,000
Ashland Oil facility, Floreffe, PA; Monongahela R.	Jan. 2, 1988	Storage tank collapse	3,850,000

(1) The Dept. of Energy estimated the spill at 4.9 mil barrels, or more than 200 mil gallons. See 2010: Year in Review. (2) Est. by Saudi Arabia. Some estimates as low as 25 mil gal.

Some Notable Miscellaneous Disasters Since 1950

Date	Event	Location	Details	Est. deaths
1952, Dec.	Pollution	London, England	Heavy smog blanketed city; caused breathing difficulties	4,000
1973-74	Drought and famine	Ethiopia	Caused by 6-year drought	200,000
1974	Famine	Bangladesh	Caused by flooding	26,000+
1974-75	Famine	Sub-Saharan Africa	Drought in some regions, torrential rains in others, compounded by government mismanagement	40,000+
1980, summer	Heat wave	United States	June through Sept	1,265
1984, Dec. 3	Industrial accident	Bhopal, India	Toxic gas leaked from a Union Carbide factory	16,000
1984	Famine	Africa, espec. Ethiopia	Several years of drought compounded by government mismanagement	800,000-1 mil
1986, Aug. 21	Gas	Nr. Lake Nyos, Cameroon	Volcanic lake released cloud of carbon dioxide gas	1,700
1990, July 2	Stampede	Mecca, Saudi Arabia	Pilgrims panicked in tunnel leading to the holy city	1,426
2003, summer	Heat wave	Europe	Abnormally high temperatures from Russia to Britain; France suffered most, with 14,800 dead	35,000
2005, Aug. 31	Stampede	Baghdad, Iraq	Fear of suicide bomber caused bridge stampede	1,000

The 1918 Flu Pandemic

Dates: 1918-19. **Location:** Worldwide. **Fatalities:** 50-100 mil.

One of the most devastating epidemics in history, also known as the Spanish flu, in which approximately one-third of the world's population, or 500 mil, were infected by the flu virus. In spring of 1918, a deadly new strain of influenza appeared within the army training grounds of Camp Funston, KS. American soldiers are believed to have carried the virus to W Europe, where they had been shipped to fight in World War I. The pandemic peaked in fall 1918: many of those infected with the flu also developed complications from pneumonia and died within days of the first appearance of their symptoms.

AEROSPACE

Memorable Moments in Human Spaceflight

Source: National Aeronautics and Space Administration (NASA); Congressional Research Service; World Almanac research.

The spaceflights listed are a selection of notable U.S. missions by NASA, unless otherwise noted, plus non-U.S. missions (shown with an asterisk). The non-U.S missions were sponsored by the USSR (later, the Commonwealth of Independent States and, from 1997, Russia) or by China. Launch dates are Eastern standard time. EVA = extravehicular activity. ASTP = Apollo-Soyuz Test Project. STS = Space Transportation System, NASA’s name for the overall shuttle program.

For shuttle flights, mission name is in parentheses following name of orbiter. Duration of flight is listed in hours:minutes for 1961-Apr. 1970; days (d.), hours (hr.), and minutes (min.) for June 1970-Nov. 1981; days only thereafter. Number of total flights taken by each crew member is given in parentheses when flight listed is not the person’s first.

4/12/61: *Vostok 1; 1:48; Yuri A. Gagarin. **1st human orbital flight.**

5/5/61: Mercury-Redstone 3; 0:15; Alan B. Shepard Jr. **1st American in space.**

7/21/61: Mercury-Redstone 4; 0:15; Virgil I. Grissom. Flight successful but spacecraft sank shortly after splashdown, Grissom rescued.

8/6/61: *Vostok 2; 25:18; Gherman S. Titov. 1st spaceflight of more than 24 hrs.

2/20/62: Mercury-Atlas 6; 4:55; John H. Glenn Jr. **1st American in orbit;** 3 orbits.

5/24/62: Mercury-Atlas 7; 4:56; M. Scott Carpenter. Manual retrofire error caused 250-mi landing overshoot.

8/11/62: *Vostok 3; 94:22; Andrian G. Nikolayev. *Vostok 3* and *4* made 1st group flight.

8/12/62: *Vostok 4; 70:57; Pavel R. Popovich. On 1st orbit, it came within 3 mi of *Vostok 3*.

10/3/62: Mercury-Atlas 8; 9:13; Walter M. Schirra Jr. Landed 5 mi from target; 6 orbits.

5/15/63: Mercury-Atlas 9; 34:19; L. Gordon Cooper. 1st U.S. evaluation of effects of one day in space on a person; 22 orbits.

6/14/63: *Vostok 5; 119:06; Valery F. Bykovsky. *Vostok 5* and *6* made 2nd group flight.

6/16/63: *Vostok 6; 70:50; Valentina V. Tereshkova. **1st woman in space;** passed within 3 mi of *Vostok 5*.

10/12/64: *Voskhod 1; 24:17; Vladimir M. Komarov, Konstantin P. Feoktistov, Boris B. Yegorov. 1st 3-person orbital flight; 1st without space suits.

3/18/65: *Voskhod 2; 26:02; Pavel I. Belyayev, Aleksei A. Leonov. Leonov made **1st “space walk”** (10 min.).

3/23/65: Gemini-Titan 3; 4:53; Virgil I. Grissom (2), John W. Young. 1st piloted spacecraft to change its orbital path.

6/3/65: Gemini-Titan 4; 97:56; James A. McDivitt, Edward H. White 2nd. White was **1st American to “walk in space”** (36 min.).

8/21/65: Gemini-Titan 5; 190:55; L. Gordon Cooper (2), Charles Conrad Jr. Longest-duration human flight to date.

12/4/65: Gemini-Titan 7; 330:35; Frank Borman, James A. Lovell. Longest-duration *Gemini* flight.

12/15/65: Gemini-Titan 6A; 25:51; Walter M. Schirra Jr. (2), Thomas P. Stafford. Completed 1st U.S. space rendezvous, with *Gemini 7*.

3/16/66: Gemini-Titan 8; 10:41; Neil A. Armstrong, David R. Scott. **1st docking of one space vehicle with another;** mission aborted, control malfunction; 1st Pacific landing.

6/3/66: Gemini-Titan 9A; 72:21; Thomas P. Stafford (2), Eugene A. Cernan. Performed simulation of lunar module rendezvous.

7/18/66: Gemini-Titan 10; 70:47; John W. Young (2), Michael Collins. 1st use of Agena target vehicle’s propulsion systems; 1st orbital docking.

9/12/66: Gemini-Titan 11; 71:17; Charles Conrad Jr. (2), Richard F. Gordon Jr. 1st tethered flight; highest Earth-orbit altitude (850 mi).

11/11/66: Gemini-Titan 12; 94:34; James A. Lovell (2), Edwin E. “Buzz” Aldrin Jr. Final *Gemini* mission; 5-hr. EVA.

4/23/67: *Soyuz 1; 26:40; Vladimir M. Komarov (2). Crashed on reentry, killing Komarov; **1st space fatality.**

10/11/68: Apollo-Saturn 7; 260:09; Walter M. Schirra Jr. (3), Donn F. Eisele, R. Walter Cunningham. 1st piloted flight of **Apollo** spacecraft command-service module only; live TV footage of crew.

12/21/68: Apollo-Saturn 8; 147:00; Frank Borman (2), James A. Lovell (3), William A. Anders. **1st lunar orbit** and piloted lunar return reentry (command-service module only); views of lunar surface televised to Earth.

1/14/69: *Soyuz 4; 71:21; Vladimir A. Shatalov. Docked with *Soyuz 5*.

1/15/69: *Soyuz 5; 72:54; Boris V. Volyanov, Aleksei S. Yeliseyev, Yevgeny V. Khrunov. Docked with *Soyuz 4*; Yeliseyev and Khrunov transferred to *Soyuz 4* via a spacewalk.

3/3/69: Apollo-Saturn 9; 241:00; James A. McDivitt (2), David R. Scott (2), Russell L. Schweickart. 1st piloted flight of lunar module.

5/18/69: Apollo-Saturn 10; 192:03; Thomas P. Stafford (3), John W. Young (3), Eugene A. Cernan (2). 1st lunar module orbit of Moon, 50,000 ft from Moon’s surface.

7/16/69: Apollo-Saturn 11; 195:18; Neil A. Armstrong (2), Michael Collins (2), Edwin E. “Buzz” Aldrin Jr. (2). **1st lunar landing** made by Armstrong and Aldrin (7/20); collected 48.5 lbs of soil, rock samples; lunar stay time 21:36.

10/11/69: *Soyuz 6; 118:43; Georgi S. Shonin, Valery N. Kubasov. 1st welding of metals in space.

10/12/69: *Soyuz 7; 118:40; Anatoly V. Flipchenko, Vladislav N. Volkov, Viktor V. Gorbatko. Space lab construction test made; *Soyuz 6*, *7*, and *8*: 1st time 3 spacecraft, 7 crew members orbited the Earth at once.

10/13/69: *Soyuz 8; 118:51; Vladimir A. Shatalov (2), Aleksei S. Yeliseyev (2). Part of space lab construction team.

11/14/69: Apollo-Saturn 12; 244:36; Charles Conrad Jr. (3), Richard F. Gordon Jr. (2), Alan L. Bean. Conrad and Bean made **2nd Moon landing** (11/18); collected 74.7 lbs of samples; lunar stay time 31:31.

4/11/70: Apollo-Saturn 13; 142:54; James A. Lovell (4), Fred W. Haise Jr., John L. Swigert Jr. Aborted after service module oxygen tank ruptured; crew returned in lunar module.

6/1/70: *Soyuz 9; 17 d., 16 hr., 59 min.; Andrian G. Nikolayev (2), Vitaliy I. Sevastyanov. Longest human spaceflight to this date.

1/31/71: Apollo-Saturn 14; 9 d., 2 min.; Alan B. Shepard Jr. (2), Stuart A. Roosa, Edgar D. Mitchell. Shepard and Mitchell made **3rd Moon landing** (2/3); collected 96 lbs of lunar samples; lunar stay 33:31.

4/19/71: *Salyut 1; launched without crew. **1st space station.**

4/22/71: *Soyuz 10; 1 d., 23 hr., 46 min.; Vladimir A. Shatalov (3), Aleksei S. Yeliseyev (3), Nikolay N. Rukavishnikov. **1st successful docking with a space station;** failed to enter space station.

6/6/71: *Soyuz 11; 23 d., 28 hr., 22 min.; Georgi T. Dobrovolskiy, Vladislav N. Volkov (2), Viktor I. Patsayev. Docked and entered *Salyut 1* space station; **crew died** during reentry from loss of pressurization.

7/26/71: Apollo-Saturn 15; 12 d., 17 hr., 12 min.; David R. Scott (3), James B. Irwin, Alfred M. Worden; Scott and Irwin made **4th Moon landing** (7/30). 1st lunar rover use; 1st deep space walk; 170 lbs of samples; 66:55 stay.

4/16/72: Apollo-Saturn 16; 11 d., 1 hr., 51 min.; John W. Young (4), Charles M. Duke Jr., Thomas K. Mattingly 2nd. Young and Duke made **5th Moon landing** (4/20); collected 213 lbs of lunar samples; lunar stay 71:02.

- 12/7/72: Apollo-Saturn 17**; 12 d., 13 hr., 52 min.; Eugene A. Cernan (3), Ronald E. Evans, Harrison H. Schmitt. Cernan and Schmitt made 6th and **last lunar landing** (12/11); collected 243 lbs of samples; record lunar stay over 75 hrs.
- 5/14/73: Skylab 1**; launched without crew. **1st U.S. space station**; fell out of orbit 7/11/79.
- 5/25/73: Skylab 2**; 28 d., 49 min.; Charles Conrad Jr. (4), Joseph P. Kerwin, Paul J. Weitz; 1st U.S.-piloted orbiting space station; crew repaired damage caused in boost.
- 7/28/73: Skylab 3**; 59 d., 11 hr., 1 min.; Alan L. Bean (2), Owen K. Garriott, Jack R. Lousma. Crew systems and operational tests; scientific activities; 3 EVAs, 13:44.
- 11/16/73: Skylab 4**; 84 d., 1 hr., 16 min.; Gerald P. Carr, Edward G. Gibson, William R. Pogue. Final Skylab mission.
- 7/15/75: *Soyuz 19 (ASTP)**; 6 d., 11 hr., 31 min.; Aleksei A. Leonov (2), Valery N. Kubasov (2). U.S.-USSR joint flight; crews linked up in space (7/17), conducted experiments, shared meals, held a joint news conf.
- 7/15/75: Apollo (ASTP)**; 9 d., 7 hr., 28 min.; Vance D. Brand, Thomas P. Stafford (4), Donald K. Slayton. Joint flight with Soyuz 19.
- 12/10/77: *Soyuz 26**; 96 d., 10 hr.; Yuri V. Romanenko, Georgiy M. Grechko (2). 1st multiple docking at a space station (Soyuz 26 and 27 docked at Salyut 6).
- 1/10/78: *Soyuz 27**; 5 d., 22 hr., 59 min.; Vladimir A. Dzhanibekov. See Soyuz 26.
- 3/2/78: *Soyuz 28**; 7 d., 22 hr., 16 min.; Aleksei A. Gubarev (2), Vladimir Remek. 1st international crew launch; Remek was 1st Czech in space.
- 4/12/81: Columbia (STS-1)**; 2 d., 6 hr., 21 min.; John W. Young (5), Robert L. Crippen. **1st reusable space shuttle** to fly into Earth's orbit.
- 11/12/81: Columbia (STS-2)**; 3 days; Joe H. Engle, Richard H. Truly. 1st scientific payload; 1st reuse of space shuttle.
- 11/11/82: Columbia (STS-5)**; 6 days; Vance D. Brand (2), Robert F. Overmyer, William Lenoir, Joseph Allen. 1st 4-person crew.
- 6/18/83: Challenger (STS-7)**; 7 days; Robert L. Crippen (2), Frederick Hauck, Sally K. Ride, John M. Fabian, Norman E. Thagard. Ride was **1st U.S. woman in space**; 1st 5-person crew.
- 6/27/83: *Soyuz T-9**; 150 days; Vladimir A. Lyakhov (2), Aleksandr Pavlovich. Docked at Salyut 7. 1st construction in space.
- 8/30/83: Challenger (STS-8)**; 7 days; Richard H. Truly (2), Daniel Brandenstein, William Thornton, Guion Bluford, Dale Gardner. Bluford was **1st African American in space**; **1st night launch**.
- 11/28/83: Columbia (STS-9)**; 11 days; John W. Young (6), Brewster Shaw Jr., Robert Parker, Owen K. Garriott (2), Byron Lichtenberg, Ulf Merbold. 1st 6-person crew; 1st Spacelab mission.
- 2/3/84: Challenger (41-B)**; 8 days; Vance Brand (3), Robert Gibson, Ronald McNair, Bruce McCandless, Robert Stewart. 1st untethered EVA.
- 2/8/84: *Soyuz T-10B**; 63 days; Leonid Kizim, Vladimir Solovyov, Oleg Atkov. Docked with Salyut 7; crew set space duration record of 237 days.
- 4/3/84: *Soyuz T-11**; 182 days; Yury Malyshev (2), Gennady Strekalov (3), Rakesh Sharma. Docked with Salyut 7; Sharma was 1st Indian in space.
- 4/6/84: Challenger (41-C)**; 7 days; Robert L. Crippen (3), Francis R. Scobee, George D. Nelson, Terry J. Hart, James D. van Hoften. 1st in-orbit satellite repair.
- 7/17/84: *Soyuz T-12**; 12 days; Vladimir A. Dzhanibekov (4), Svetlana Y. Savitskaya (2), Igor P. Volk. Docked at Salyut 7; Savitskaya was 1st woman to perform EVA.
- 8/30/84: Discovery (41-D)**; 7 days; Henry W. Hartsfield (2), Michael L. Coats, Richard M. Mullane, Steven A. Hawley, Judith A. Resnik, Charles D. Walker. 1st flight of U.S. non-astronaut (Walker).
- 10/5/84: Challenger (41-G)**; 9 days; Robert L. Crippen (4), Jon A. McBride, Kathryn D. Sullivan, Sally K. Ride (2), Marc Garneau, David C. Leestma, Paul D. Scully-Power. 1st 7-person crew.
- 11/8/84: Discovery (51-A)**; 8 days; Frederick Hauck (2), David M. Walker, Dr. Anna L. Fisher, Joseph Allen (2), Dale Gardner (2). 1st satellite retrieval/repair.
- 4/12/85: Discovery (51-D)**; 7 days; Karol J. Bobko, Donald E. Williams, Jake Garn, Charles Walker (2), Jeffrey A. Hoffman, S. David Griggs, M. Rhea Seddon. Garn (R, UT) was **1st U.S. senator in space**.
- 6/17/85: Discovery (51-G)**; 8 days; Daniel Brandenstein (2), John O. Creighton, Shannon W. Lucid, Steven R. Nagel, John M. Fabian (2), Prince Sultan Salman al-Saud, Patrick Baudry. Launched 3 satellites; Salman al-Saud was 1st Arab in space; Baudry was 1st French person on U.S. mission.
- 10/3/85: Atlantis (51-J)**; 5 days; Karol J. Bobko (3), Ronald J. Grabe, David C. Hilmer, Robert Stewart (2), William A. Pailles. 1st Atlantis flight.
- 10/30/85: Challenger (61-A)**; 8 days; Henry W. Hartsfield (3), Steven R. Nagel (2), James F. Buchli (2), Guion Bluford (2), Bonnie J. Dunbar, Wubbo J. Ockels, Richard Furrer, Ernst Messerschmid. 1st 8-person crew; 1st German Spacelab mission.
- 1/12/86: Columbia (61-C)**; 7 days; Robert Gibson (2), Charles F. Bolden Jr., Steven A. Hawley (2), George D. Nelson (2), Franklin R. Chang-Diaz, Robert J. Cenker, Bill Nelson. Nelson (D, FL) was **1st U.S. representative in space**.
- 1/28/86: Challenger (51-L)**; 73 seconds; Francis R. Scobee (2), Michael J. Smith, Judith A. Resnik (2), Ellison S. Onizuka (2), Ronald E. McNair, Gregory B. Jarvis, Christa McAuliffe. **Exploded 73 seconds after liftoff; all aboard were killed**, including McAuliffe, a New Hampshire schoolteacher who won a national competition to become 1st private citizen in space.
- 2/20/86: *Mir¹**; launched without crew. **Space station** with 6 docking ports launched.
- 3/13/86: *Soyuz T-15**; 125 days; Leonid Kizim (3), Vladimir Solovyov (2). Ferry between stations; docked at Mir.
- 2/5/87: *Soyuz TM-2**; 327 days; Yuri V. Romanenko (3), Aleksandr I. Laveikin. Romanenko set endurance record, since broken.
- 7/22/87: *Soyuz TM-3**; 161 days; Aleksandr Viktorenko, Aleksandr Pavlovich Aleksandrov (2), Mohammed Faris. Docked with Mir; Faris was 1st Syrian in space.
- 9/29/88: Discovery (STS-26)**; 4 days; Frederick Hauck (3), Richard O. Covey (2), David C. Hilmer (2), George D. Nelson (3), John M. Lounge (2). **1st shuttle flight since Challenger explosion** 1/28/86.
- 5/4/89: Atlantis (STS-30)**; 4 days; David M. Walker (2), Ronald J. Grabe (2), Norman E. Thagard (3), Mary L. Cleave (2), Mark C. Lee. Launched Venus orbiter *Magellan*.
- 10/18/89: Atlantis (STS-34)**; 5 days; Donald E. Williams (2), Michael J. McCulley, Shannon W. Lucid (2), Franklin R. Chang-Diaz (2), Ellen S. Baker. Launched Jupiter probe and orbiter *Galileo*.
- 4/24/90: Discovery (STS-31)**; 6 days; Loren J. Shriver (2), Charles F. Bolden Jr. (2), Steven A. Hawley (3), Bruce McCandless (2), Kathryn D. Sullivan (2). **Launched Hubble Space Telescope**.
- 10/6/90: Discovery (STS-41)**; 5 days; Richard N. Richards (2), Robert D. Cabana, Bruce E. Melnick, William M. Shepherd (2), Thomas D. Akers. Launched *Ulysses* spacecraft to investigate interstellar space and the Sun.
- 5/18/91: *Soyuz TM-12**; 145 days; Anatoly Artsebarskiy, Sergei Krikalev (2) (to Mir), Helen Sharman. Docked with Mir; Sharman was 1st Briton in space.
- 3/17/92: *Soyuz TM-14**; 146 days; Aleksandr Viktorenko (3) (to Mir), Alexandr Kaleri (to Mir), Klaus-Dietrich Flade, Aleksandr

Volkov (3) (from *Mir*), Sergei Krikalev (2) (from *Mir*). 1st human CIS space mission; docked with *Mir* 3/19; Krikalev was in space 313 days.

5/7/92: Endeavour (STS-49); 9 days; Daniel Brandenstein (4), Thomas D. Akers (2), Kevin C. Chilton, Richard J. Hieb (2), Bruce E. Melnick (2), Kathryn Thornton (2), Pierre J. Thuot (2). 1st 3-person EVA; satellite recovery and redeployment.

9/12/92: Endeavour (STS-47); 8 days; Robert Gibson (4), Jay Apt (2), Curtis L. Brown Jr., N. Jan Davis, Mae Carol Jemison, Mark C. Lee (2), Mamoru Mohri. Jemison was **1st black woman in space**; Lee and Davis were **1st married couple to travel together in space**; 1st Japanese Spacelab.

6/21/93: Endeavour (STS-57); 10 days; Ronald J. Grabe (4), Brian J. Duffy (2), G. David Low (3), Nancy J. Sherlock, Janice E. Voss, Peter J. K. Wisoff. Carried Spacelab commercial payload module.

12/2/93: Endeavour (STS-61); 11 days; Richard O. Covey (3), Kenneth D. Bowersox (2), Claude Nicollier (2), F. Story Musgrave (5), Thomas D. Akers (3), Kathryn Thornton (3), Jeffrey A. Hoffman (4). Hubble Space Telescope repaired; Akers set new U.S. EVA duration record (29 hr., 40 min.).

2/3/94: Discovery (STS-60); 9 days; Charles F. Bolden Jr. (3), Kenneth S. Reightler Jr. (2), N. Jan Davis (2), Franklin R. Chang-Diaz (3), Ronald M. Sega, Sergei Krikalev (3). Krikalev was 1st Russian on U.S. shuttle.

7/1/94: *Soyuz TM-19; 126 days; Yuri I. Malenchenko, Talgat A. Musabayev, Ulf Merbold (2) (from *Mir*). Docked with *Mir*.

9/9/94: Discovery (STS-64); 11 days; Richard N. Richards (4), L. Blaine Hammond Jr. (2), Jerry M. Linenger, Susan J. Helms (2), Carl J. Meade (3), Mark C. Lee (3). Performed atmospheric research; 1st untethered EVA in more than 10 years.

2/3/95: Discovery (STS-63); 9 days; James D. Wetherbee (3), Eileen M. Collins, Bernard A. Harris (2), C. Michael Foale (3), Janice E. Voss (2), Vladimir Titov (4). *Discovery* and Russian space station rendezvous.

3/2/95: Endeavour (STS-67); 17 days; Stephen S. Oswald (3), William G. Gregory, Samuel T. Durrance (2), Ronald Parise (2), Wendy B. Lawrence, Tamara E. Jernigan (3), John M. Grunsfeld. Shuttle data made available on the Internet.

3/14/95: *Soyuz TM-21; 112 days; Norman E. Thagard (5), Vladimir Dezhurov, Gennady Strekalov (5); Docked with *Mir* 3/16/95. Thagard was 1st American onboard Russian spacecraft; Valery Polyakov returned to Earth, 3/22/95, after record stay in space (439 days).

6/27/95: Atlantis (STS-71); 10 days; Robert Gibson (5), Charles J. Precourt (2), E. Baker (3), Gregory J. Harbaugh (3), Bonnie J. Dunbar (4), Anatoly Solovyev (4) (to *Mir*), Nikolai M. Budarin (to *Mir*), Norman E. Thagard (5) (from *Mir*), Gennady Strekalov (from *Mir*), Vladimir Dezhurov (from *Mir*). **1st shuttle-Mir docking**; exchanged crew members with *Mir*.

11/12/95: Atlantis (STS-74); 9 days; Kenneth D. Cameron (3), James D. Halsell Jr. (2), Chris Hadfield, Jerry L. Ross (5), William S. McArthur (2). 2nd shuttle-Mir docking (11/15-11/18); erected a 15-ft permanent docking tunnel to *Mir* for future use by U.S. orbiters.

2/22/96: Columbia (STS-75); 16 days; Andrew M. Allen (3), Scott J. Horowitz, Franklin R. Chang-Diaz (5), Umberto Guidoni, Jeffrey A. Hoffman (5), Maurizio Cheli, Claude Nicollier (3). Lost an Italian satellite when its tether was severed; microgravity experiments performed; singe marks found on 2 O-rings.

3/22/96: Atlantis (STS-76); 10 days; Kevin C. Chilton (3), Richard A. Searfoss (2), Ronald M. Sega (2), Michael R. Clifford (3), Linda Godwin (3), Shannon W. Lucid (5) (to *Mir*). 3rd shuttle-Mir docking (5 days); 2-person EVA.

9/16/96: Atlantis (STS-79); 11 days; Jay Apt (4), Terry W. Wilcutt (2), William Readdy (3), Thomas D. Akers (4), Carl E. Walz (3), Shannon W. Lucid (5) (from *Mir*), John E. Blaha (5) (to *Mir*).

Docked with *Mir* 9/18; exchanged crew members; Lucid set **U.S. and women's duration in space record** (188 days).

11/19/96: Columbia (STS-80); 18 days; Kenneth D. Cockrell (3), Kent V. Rominger (2), Tamara E. Jernigan (4), Thomas D. Jones (3), F. Story Musgrave (6). Longest-duration shuttle flight; Musgrave, 61, oldest thus far to fly in space; 2 science satellites deployed, retrieved.

1/12/97: Atlantis (STS-81); 11 days; Michael A. Baker (4), John M. Grunsfeld (2), Marsha Ivins (4), Brent W. Jett (2), Peter J. K. Wisoff (3), Jerry M. Linenger (2) (to *Mir*), John E. Blaha (5) (from *Mir*). Docked with *Mir* 1/14-1/19; Blaha spent 128 days in space.

2/11/97: Discovery (STS-82); 10 days; Kenneth D. Bowersox (4), Gregory J. Harbaugh (4), Steven A. Hawley (4), Scott J. Horowitz (2), Mark C. Lee (4), Steve Smith (2), Joe Tanner (2). Increased capabilities of Hubble Space Telescope; 5 EVAs used to service it.

5/15/97: Atlantis (STS-84); 10 days; Charles J. Precourt (3), Jean-François Clervoy (2), Eileen M. Collins (2), Elena Kondakova, Edward T. Lu, Carlos Noriega, C. Michael Foale (4) (to *Mir*), Jerry M. Linenger (2) (from *Mir*). Docked with *Mir* 5/16-5/21; stay on *Mir* marked by troubles incl. fire 2/23.

8/5/97: *Soyuz TM-26; 198 days; Anatoly Solovyev (5), Pavel Vinogradov. Docked with *Mir* 8/7; repaired damaged space station.

8/7/97: Discovery (STS-85); 12 days; Curtis L. Brown Jr. (4), Robert L. Curbeam Jr., N. Jan Davis (3), Stephen K. Robinson, Kent V. Rominger (3), Bjarni V. Tryggvason. Deployed and retrieved satellite designed to study Earth's middle atmosphere; demonstrated robotic arm.

9/25/97: Atlantis (STS-86); 11 days; James D. Wetherbee (4), Michael J. Bloomfield, Vladimir Titov (4), Scott Parazynski (2), Jean-Loup Chrétien (3), Wendy B. Lawrence (2), David A. Wolf (2) (to *Mir*), C. Michael Foale (4) (from *Mir*). Docked with *Mir* 9/27-10/3; delivered new computer to *Mir*; stay on *Mir* marked by major collision with cargo ship 6/25.

4/17/98: Columbia (STS-90); 16 days; Richard A. Searfoss (3), Scott D. Altman, Richard M. Linnehan (2), Dave R. Williams, Kathryn P. Hire, Jay C. Buckey, James A. Pawelczyk. Studied effects of microgravity on the nervous systems of the crew and more than 2,000 live animals; 1st surgery in space on animals meant to survive.

6/2/98: Discovery (STS-91); 10 days; Charles J. Precourt (4), Dominic L. Gorie, Wendy B. Lawrence (3), Franklin R. Chang-Diaz (6), Janet L. Kavandi, Valery Ryumin (4), Andrew S.W. Thomas (2) (from *Mir*). Final docking mission with *Mir*; Thomas from *Mir*, 141 days in space.

10/29/98: Discovery (STS-95); 10 days; Curtis L. Brown Jr. (5), Steven W. Lindsey (2), Scott Parazynski (3), Stephen K. Robinson (2), Pedro Duque, Chiaki Mukai (2), John H. Glenn Jr. (2). Glenn, one of the original Mercury astronauts, and at that point a senator (D, OH), 77, was **oldest person to fly in space**; Duque was 1st Spaniard in space; experiments to study aging performed on Glenn.

12/4/98: Endeavour (STS-88); 12 days; Robert D. Cabana (4), Frederick W. Sturckow, Nancy J. Currie (3), Jerry L. Ross (6), James H. Newman (3), Sergei Krikalev (4). **1st assembly of International Space Station (ISS)**; attached U.S.-built *Unity* connecting module to Russian-built *Zarya* control module; 1st crew to enter ISS.

7/23/99: Columbia (STS-93); 5 days; Eileen M. Collins (3), Jeffrey S. Ashby, Steven A. Hawley (5), Catherine G. Coleman (2), Michel Tognini (2). Collins was **1st woman space shuttle commander**; deployed Chandra X-ray Observatory telescope.

2/11/00: Endeavour (STS-99); 12 days; Kevin R. Kregel (4), Dominic L. Gorie (2), Janet L. Kavandi (2), Janice E. Voss (5), Mamoru Mohri (2), Gerhard P.J. Thiele. Used radar to make most complete topographic map of Earth's surface ever produced.

9/8/00: *Atlantis* (STS-106); 12 days; Terry W. Wilcutt (4), Scott D. Altman (2), Edward T. Lu (2), Richard A. Mastracchio, Daniel C. Burbank, Yuri I. Malenchenko (2), Boris V. Morukov. Prepared ISS for 1st permanent crew; 1 EVA by all 7 crew members.

10/31/00: *Soyuz TM-31*; William M. Shepherd (4), Yuri Gidzenko (2), Sergei Krikalev (5); Established **1st permanent manning of ISS** with 3-person crew for a 4-month stay.

3/8/01: *Discovery* (STS-102); 13 days; James D. Wetherbee (5), James M. Kelly, Susan J. Helms (4) (to ISS), James S. Voss (5) (to ISS), Paul Richards, Andrew S.W. Thomas (2), Yuri V. Usachev (4) (to ISS), William M. Shepherd (4) (from ISS), Gidzenko (2) (from ISS), Krikalev (5) (from ISS). Transported 2nd permanent crew to ISS and returned 1st crew to Earth; 2 EVAs.

7/12/01: *Atlantis* (STS-104); 13 days; Steven W. Lindsey (3), Charles O. Hobaugh, Michael L. Gernhardt (4), Janet L. Kavandi (3), James F. Reilly II (2). Installed a Joint Airlock, with nitrogen and oxygen tanks to permit future spacewalks from the ISS; 3 EVAs.

3/1/02: *Columbia* (STS-109); 11 days; Scott D. Altman (3), Duane G. Carey, John M. Grunsfeld (4), Nancy J. Currie (4), Richard M. Linnehan (3), James H. Newman (4), Michael J. Massimino. Installed powerful new camera and upgraded other equipment on Hubble Space Telescope; 5 EVAs.

4/8/02: *Atlantis* (STS-110); 11 days; Michael J. Bloomfield (3), Stephen N. Frick, Rex J. Walheim, Ellen Ochoa (4), Lee M.E. Morin, Jerry L. Ross (7), Steven L. Smith (4). Installed S0 Truss, backbone for expansion of ISS; Ross set records with 7th spaceflight, 9th spacewalk.

10/30/02: *Soyuz TMA-1³*; Sergei Zalyotin (2), Frank De Winne, Yuri Lonchakov (2). 1st launch of *Soyuz TMA*; (crew returned 11/10/02 on *Soyuz TM-34* already docked at ISS).

1/16/03: *Columbia* (STS 107); 16 days; Rick Husband (2), William McCool, Michael Anderson (2), David Brown, Kalpana Chawla (2), Laurel Clark, Ilan Ramon. **Entire crew lost when *Columbia* burned** during reentry, 2/1; Ramon was 1st Israeli astronaut.

10/15/03: *Shenzhou 5*; 21 hr.; Yang Liwei. **1st Chinese manned spacecraft.**

6/21/04: *SpaceShipOne*; 90 min.; Mike Melvill. **1st privately funded manned spaceflight².**

7/26/05: *Discovery* (STS-114); 14 days; Charles Camarda, Eileen M. Collins (4), James M. Kelly (2), Wendy B. Lawrence (4), Soichi Noguchi, Stephen K. Robinson (3), Andrew S.W. Thomas (3). **1st space shuttle flight since *Columbia* disaster;** tested new safety modifications to craft.

7/4/06: *Discovery* (STS-121); 13 days; Steven W. Lindsey (4), Mark E. Kelly, Michael E. Fossum, Piers J. Sellers (2), Lisa M. Nowak, Thomas Reiter (to ISS), Stephanie D. Wilson. **1st shuttle to launch on Independence Day;** conducted more safety tests to craft; brought supplies to and performed maintenance on ISS.

4/7/07: *Soyuz TMA-10³*; Oleg Kotov (to ISS), Sheikh Muszaphar Shukor (from ISS), Charles Simonyi (U.S.) Fyodor Yurchikhin (to ISS). Kotov and Yurchikhin joined ISS expedition 15; Simonyi became **5th space tourist** (returned on *TMA-9*); Shukor was 1st Malaysian in space (arrived on *TMA-11*).

6/8/07: *Atlantis* (STS-117); 14 days; Frederick Sturckow (3), Lee Archambault, Patrick Forrester (2), John "Danny" Olivas, Jim Reilly (3), Steven Swanson, Clayton Anderson (to ISS), Sunita L. Williams (from ISS). Delivered truss segments and

solar arrays to ISS; Williams set record for **longest space-flight by a woman.**

8/8/07: *Endeavour* (STS-118); 13 days; Scott Kelly (2), Alvin Drew, Barbara R. Morgan, Charles O. Hobaugh (2), Tracy Caldwell, Rick Mastracchio (2), Dave R. Williams (2). Brought **Teacher in Space** project participant Morgan to ISS; attached new truss segment, repaired faulty gyroscope.

10/10/07: *Soyuz TMA-11³*; Yuri I. Malenchenko (3), Sheikh Muszaphar Shukor (to ISS), Peggy A. Whitson (2) (from ISS), Yi So-Yeon (from ISS). Delivered and installed components of ISS; malfunctioned on return to Earth, landing short of its touchdown area but causing no fatalities.

10/23/07: *Discovery* (STS-120); 16 days; Pamela A. Melroy (3), Paolo Nespoli, Scott Parazynski (5), Douglas Wheelock, Stephanie Wilson, George Zamka, Daniel M. Tani (2) (to ISS), Clayton Anderson (from ISS). Installed living space (Harmony Node 2) on ISS.

2/7/08: *Atlantis* (STS-122); 13 days; Stephen N. Frick (2), Stanley G. Love, Leland D. Melvin, Alan G. Poindexter, Hans Schlegel (2), Léopold Eyharts (to ISS), Daniel M. Tani (from ISS), Rex J. Walheim (2). Installed European Space Agency's Columbus laboratory on the ISS; minor damage to a thermal plate caused concern about the shuttle's safety during reentry, but *Atlantis* landed safely.

3/11/08: *Endeavor* (STS-123); 16 days; Dominic L. Gorie (4), Robert L. Behnken, Takao Doi (2), Michael J. Foreman, Gregory H. Johnson, Richard M. Linnehan (4), Léopold Eyharts (from ISS), Garrett Reisman (to ISS). Delivered and installed components of the Japanese Kibo science laboratory.

4/8/08: *Soyuz TMA-12³*; Oleg Kononenko, Sergei Volkov, Yi So-Yeon (to ISS); Richard Garriott (from ISS). Yi became 1st S. Korean in space.

5/31/08: *Discovery* (STS-124); 14 days; Mark E. Kelly (3), Michael E. Fossum (2), Ronald J. Garan Jr., Kenneth T. Ham, Akihiko Hoshide, Karen Nyberg, Gregory E. Chamitoff (to ISS), Garrett Reisman (from ISS). Delivered and installed pressurized and experimental modules of Kibo.

9/25/08: *Shenzhou 7*; 68 hr.; Jing Haipeng, Liu Boming, Zhai Zhigang. Zhai completed 1st Chinese spacewalk.

10/12/08: *Soyuz TMA-13³*; Richard Garriott (to ISS), Yuri V. Lonchakov (3), Michael Fincke. Garriott became 6th space tourist.

3/15/09: *Discovery* (STS-119); 13 days; Lee J. Archambault (2), Joseph M. Acaba, Dominic A. Antonelli, Richard R. Arnold, John L. Phillips, Steven Swanson (2), Koichi Wakata (to ISS), Sandra H. Magnus (from ISS). Delivered final solar panels and last U.S.-made truss segment.

5/11/09: *Atlantis* (STS-125); 13 days; Scott D. Altman (4), Andrew J. Feustel, Michael T. Good, John M. Grunsfeld (5), Gregory C. Johnson, Michael J. Massimino (2), K. Megan McArthur. Final Hubble Space Telescope servicing mission.

11/16/09: *Atlantis* (STS-129); 11 days; Charles O. Hobaugh (3), Randolph J. Bresnik, Michael J. Foreman (2), Leland D. Melvin (2), Robert L. Satcher Jr., Barry E. Wilmore, Nicole P. Stott (from ISS). Final Space Shuttle crew rotation flight.

5/14/10: *Atlantis* (STS-132); 12 days; Kenneth T. Ham (2), Dominic A. Antonelli (2), Stephen J. Bowen (2), Michael T. Good (2), Garrett E. Reisman (2), Piers J. Sellers (3). Delivered Russian Research Module to ISS; **final *Atlantis* mission.**

6/15/10: *Soyuz TMA-19³*; Fyodor Yurchikhin (3), Shannon Walker, Douglas H. Wheelock (2). 100th mission since launching of the International Space Station.

Note: Four Soviet cosmonauts have died during spaceflight: Vladimir Komarov was killed on *Soyuz 1* (1967) when parachute lines tangled during descent; the 3-person *Soyuz 11* crew (1971) was asphyxiated. Six Americans and an Israeli astronaut died aboard the *Columbia*; 7 Americans died in the *Challenger* explosion; and 3 astronauts—Virgil I. Grissom, Edward H. White, and Roger B. Chaffee—died in the Jan. 27, 1967, *Apollo 1* fire on the ground at Cape Canaveral, FL. (1) Space stations, such as the *Salyuts* and *Mir*, were used to house crews starting in 1971. (2) Date of first successful flight; later, *SpaceShipOne* flew at least 100 km (62 mi) into space, 9/29/04, piloted by Mike Melvill, and 10/4/04, piloted by Brian Binnie, winning the \$10 mil Ansari Prize for 1st private venture to accomplish this feat twice within two weeks. (3) *Soyuz* crew often return from ISS on spacecraft that launched and were docked at the station before their arrival.

U.S. Manned Space Program

Source: National Aeronautics and Space Administration (NASA)

After 30 years of flight, the U.S. space shuttle program is expected to be retired after its final scheduled flight in Feb. 2011. The program’s success was tempered by two tragedies: the Jan. 28, 1986, *Challenger* explosion, in which six astronauts and schoolteacher Christa McAuliffe were killed 73 seconds after liftoff; and the Jan. 16, 2003, incident in which all seven astronauts aboard died when the *Columbia* burned up on re-entry.

In 2004, Pres. George W. Bush outlined a vision for space exploration that included an orbital capsule, *Orion*, which would be used for carrying astronauts on missions to the International Space Station, and spacecraft to Mars that would be built in space. He wanted astronauts to return to the Moon by 2020.

In a Apr. 15, 2010, speech at NASA’s Kennedy Space Center, Pres. Barack Obama announced a new plan, whereby NASA would work with private space companies to spur competition and innovation in spacecraft that could reach low earth orbits. The *Orion* program already underway would be repurposed to create a rescue vehicle for quickly bringing astronauts home from the ISS.

A new heavy-lift rocket would be designed by 2015 to transport crew capsules, other rockets, and large quantities of supplies into space in order to make deep-space explorations more feasible. While Obama’s plan eliminated manned missions to the Moon, it called for the creation of a long-range spacecraft by 2025, capable of transporting astronauts to an asteroid. A mission to Mars could follow by the mid-2030s.

International Space Station

Source: National Aeronautics and Space Administration (NASA)

The International Space Station (ISS) is considered the largest cooperative scientific project in history. Construction began in 1998; it has been inhabited by international crew members since 2000.

16 cooperating nations: Brazil, Belgium, Canada, Denmark, France, Germany, Italy, Japan, Netherlands, Norway, Russia, Spain, Sweden, Switzerland, United Kingdom, United States.

The station when completed:

- Mass of 925,000 lbs
- 361 ft long, with almost an acre of solar panels
- Internal volume roughly equivalent to one-and-a-half 747 jumbo jets
- 6 laboratories; living space for up to 7 people

Examples of research conducted or planned:

- Studying the effects of long-term exposure to reduced gravity on plants, crystals, plant and animal cells, and pathogens
- Studying the effects on humans of long-term exposure to reduced gravity
- Recording large-scale long-term changes in Earth’s environment by observing the planet from orbit
- Testing recycling technologies for human life support

Summary of Worldwide Successful Launches, 1957-2010

(1) Includes launches sponsored by countries not shown. (2) Data for 1957-91 apply to the Soviet Union, for 1992-96 to the Commonwealth of Independent States, after 1996 to Russia. (3) European Space Agency. Member states are Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and United Kingdom. Canada, Hungary, and Czech Republic also participate in some projects under cooperation agreements. (4) As of Sept. 4, 2010.

Notable Proposed U.S. Space Missions in 2011

Source: National Aeronautics and Space Administration (NASA)

Planned launch	Mission	Purpose
Feb. 26	Space Shuttle Endeavour (STS-134)	Final U.S. space shuttle flight.
TBA	Aquarius	Map salt concentrations in the ocean’s surface to understand heat transport and storage in the ocean.
Aug. 5	Juno (solar-powered spacecraft)	Orbit Jupiter’s poles 33 times to find out more about its origins, structure, atmosphere, and magnetosphere.
Sept. 8	Gravity Recovery and Interior Laboratory (GRAIL)	Determine the structure of the lunar interior from crust to core and advance understanding of the thermal evolution of the moon.
Oct. 18	National Polar-orbiting Operational Environmental Satellite System Preparatory Project (NPP)	Measure Earth’s atmospheric and sea surface temperatures.
Nov. 25	Mars Science Laboratory (Mars Rover)	Assess whether Mars ever was or is still today able to support microbial life and determine the planet’s habitability.

Notable Lunar and Planetary Science Missions

Source: National Aeronautics and Space Administration (NASA)

Spacecraft	Launch date ¹	Mission	Remarks
Mariner 2	Aug. 27, 1962	Venus	Passed within 22,000 mi of Venus 12/14/62; confirmed high surface temperature on planet; contact lost 1/3/63 at 54 mil mi.
Ranger 7	July 28, 1964	Moon	Yielded over 4,000 photos of lunar surface.
Mariner 4	Nov. 28, 1964	Mars	1st probe to fly by Mars; passed behind planet 7/14/65; took 22 photos from 6,000 mi above surface.

Spacecraft	Launch date ¹	Mission	Remarks
Ranger 8	Feb. 17, 1965	Moon	Yielded over 7,000 photos of lunar surface.
Venera 3	Nov. 16, 1965	Venus	Soviet probe; 1st artificial probe to impact on the surface of another planet 3/1/66; probe failed to send back data.
Surveyor 3	Apr. 17, 1967	Moon	Scooped and tested lunar soil.
Mariner 5	June 14, 1967	Venus	In solar orbit; closest Venus flyby 10/19/67; allowed scientists to obtain accurate readings on the composition of the Venusian atmosphere.
Mariner 6	Feb. 24, 1969	Mars	Came within 2,000 mi of Mars 7/31/69; collected data, photos.
Mariner 7	Mar. 27, 1969	Mars	Came within 2,000 mi of Mars 8/5/69.
Venera 7	Aug. 17, 1970	Venus	Soviet probe; 1st probe to land safely on the surface of another planet; because of high atmospheric temperatures, probe is thought to have melted.
Mariner 9	May 30, 1971	Mars	1st craft to orbit Mars 11/13/71; sent back over 7,000 photos.
Pioneer 10	Mar. 2, 1972	Jupiter	Passed Jupiter 12/4/73; took readings on Jupiter's composition, found that the planet is composed mostly of hydrogen; exited the planetary system 6/13/83; transmission ended 3/31/97 at 6.39 bil mi.
Pioneer 11	Apr. 5, 1973	Jupiter, Saturn	Passed Jupiter 12/3/74, Saturn 9/1/79; discovered an additional ring and 2 moons around Saturn; operating in outer solar system; transmission ended 9/30/95.
Mariner 10	Nov. 3, 1973	Venus, Mercury	Passed Venus 2/5/74; arrived Mercury 3/29/74. 1st time gravity of 1 planet (Venus) used to whip spacecraft toward another (Mercury); 1st probe to visit 2 planets; took readings of cloud and wind patterns in Venusian atmosphere.
Viking 1	Aug. 20, 1975	Mars	Landed on Mars 7/20/76; 1st probe to land safely on Mars; performed chemical analysis of soil; functioned 6 years.
Viking 2	Sept. 9, 1975	Mars	Sister probe of <i>Viking 1</i> ; landed on Mars 9/3/76; functioned 3 years.
Voyager 2	Aug. 20, 1977	Jupiter, Saturn, Uranus, Neptune	Encountered Jupiter 7/9/79; Saturn 8/25/81; Uranus 1/24/86; Neptune 8/25/89; confirmed existence of rings around Neptune; observed Neptune's "great dark spot," which has since dissipated. Entered boundary of solar system 10/07.
Voyager 1	Sept. 5, 1977	Jupiter, Saturn	Encountered Jupiter 3/5/79, provided evidence of rings around Jupiter; passed near Saturn 11/12/80; passed <i>Pioneer 10</i> to become most distant human-made object 2/17/98; 8/15/06 reached a distance of 100 AUs from sun.
Pioneer Venus 1	May 20, 1978	Venus	Entered Venus orbit 12/4/78; studied atmosphere, magnetic field, weather, and surface; fuel ran out and probe was destroyed in atomospheric entry, 8/92.
Pioneer Venus 2 (multiprobe)	Aug. 8, 1978	Venus	Consisted of a "bus" carrying 1 large and 3 small atmospheric probes. All 4 probes entered the Venus atmosphere 12/9/78, followed by the bus; took readings of Venusian atmosphere; probes impacted on surface.
Magellan	May 4, 1989	Venus	Landed on Venus 8/10/90; monitored geological activity; mapped more than 99% of planet surface, observed more than 1,600 volcanoes and volcanic features, enabling creation of a 3-dimensional map; showed that about 85% of the surface is covered by volcanic flows; ceased operating 10/11/94.
Galileo	Oct. 18, 1989	Jupiter	Used Earth's gravity to propel it toward Jupiter; encountered Venus 2/90; encountered Jupiter 12/7/95; encountered moons; released probe into Jovian atmosphere; intentionally flown into Jupiter 9/21/03 to prevent accidental contamination of Jupiter's moon Europa.
Mars Global Surveyor	Nov. 7, 1996	Mars	Began orbiting Mars 9/11/97; began mapping survey of entire surface 3/9/99; discovered a weak magnetic field on planet; observed Martian moon Phobos; found evidence of liquid water in past 6/22/00.
Mars Pathfinder	Dec. 4, 1996	Mars	Landed on Mars 7/4/97; rover <i>Sojourner</i> made measurements of climate and soil composition, sending thousands of surface images; ceased operating 9/27/97.
Cassini-Huygens	Oct. 15, 1997	Saturn	Began orbiting Saturn 6/30/04; 4-year mission to study planet's atmosphere, rings, and moons; spotted evidence of a subterranean ocean and 300-mi-wide hot spot region on Titan; detected an atmosphere on Saturn's moon Enceladus. <i>Huygens</i> probe landed on Titan 1/14/05; found a muddy surface, possible deposits of water ice, channels carved by liquid methane springs.
Lunar Prospector	Jan. 6, 1998	Moon	Began orbiting Moon 1/11/98; mapped abundance of 11 elements on Moon's surface; discovered evidence of water ice at both lunar poles; crashed into crater near Moon's south pole 7/31/99 to end mission.
Deep Space 1	Oct. 24, 1998	Comet Borrelly	Flew within 1,500 mi of comet; sent back photos showing a 6-mi-long nucleus.
Stardust	Feb. 7, 1999	Comet Wild-2	Reached comet 1/2/04; gathered dust samples, returned to Earth 1/15/06.
2001 Mars Odyssey	Apr. 7, 2001	Mars	Reached Mars 10/24/01; detected evidence of water ice near south pole; primary mission to study climate and geologic history completed 8/04; began extended mission, aiming to identify minerals on Mars.
Genesis	Aug. 8, 2001	Sun	Orbited Sun, collected particles from solar wind; capsule containing specimens crashed to Earth 9/8/04; some samples survived.
Mars Express/Beagle 2 lander	June 3, 2003	Mars	1st European Space Agency probe to another planet; arrived at Mars 12/03; performing remote sensing including photography in search for subsurface water; <i>Beagle 2</i> lander was deployed 12/19/03 but contact was lost soon after.
Mars Exploration Rovers	June 7 & July 10, 2003	Mars	Rovers <i>Spirit</i> and <i>Opportunity</i> landed on Mars 1/04, found further evidence that water existed on surface; <i>Spirit</i> took 1st photo of a Martian meteor; survived severe dust storms in 2007; <i>Opportunity</i> explored massive Victoria Crater Sept. 2007-Aug. 2008 and sighted larger Endeavor Crater 3/09.
MESSENGER	Mar. 2, 2004	Mercury	Flew by Mercury 10/6/08, expected to enter orbit in 2011; provided images of 20% of Mercury's surface; reached 2-bil-mi mark in 9/07.
Deep Impact	Jan. 12, 2005	Comet Tempel 1	Reached Tempel 1; deployed an impact probe which slammed into the comet on 7/4/05, impacting with a force equivalent to roughly 5 tons of TNT; orbiter probe passed Earth 12/31/07; en route to Comet Hartley 2 in 10/10.
Mars Reconnaissance Orbiter	Aug. 12, 2005	Mars	Reached Mars 3/10/06 and began taking detailed images of the Martian surface; in 3/08, found salt deposits suggesting ancient water supplies; 6/08 found largest known crater in solar system.
New Horizons (Pluto)	Jan. 19, 2006	Pluto & Charon	Flew by Jupiter 7/07. Due to reach Pluto and Charon in 7/15; may examine other Kuiper Belt Objects.
Phoenix Mars Lander	Aug. 4, 2007	Mars	Landed 5/25/08; examining northern polar region, monitoring weather and analyzing minerals; evidence of water ice verified 7/31/08; lost contact 11/2/08.
Dawn	Sept. 27, 2007	Asteroid Belt (bet. Jupiter and Mars)	Will compare the evolution of Ceres, a dwarf planet, with Vesta, an asteroid, in an effort to shed light on the formation of the solar system.
Lunar CRater Observation and Sensing Satellite (LCROSS)	June 18, 2009	Moon	Launch vehicle's upper stage and LCROSS impacted Cabeus crater on 10/9/09; impacts were intended to create plumes of lunar debris that could be analyzed for water content.

Milestones in Aviation History

Source: National Aeronautics and Space Administration (NASA), National Air and Space Museum, Air Transport Association of America, National Museum of the U.S. Air Force, U.S. National Park Service

- 1903, Dec. 17:** Brothers Wilbur and Orville Wright (U.S.) made the first human-carrying, powered flight near Kitty Hawk, NC. Each brother made two flights; the longest, about 852 ft, lasted 59 sec.
- 1907:** Glenn H. Curtiss (U.S.) formed the first American airplane manufacturing company.
- 1908, May 14:** Charles Furnas (U.S.) became first American airplane passenger.
- 1911, Feb. 1:** Glenn H. Curtiss (U.S.) joined forces with the Burgess Company to become the first U.S. airplane manufacturing company.
- 1911, Sept. 23:** First transportation of mail by airplane officially approved by the U.S. Postal Service.
- 1914, Jan. 1:** First scheduled passenger airline service began. A seaplane that landed on water, it operated between St. Petersburg and Tampa, FL.
- 1918, May 14:** First scheduled air mail service began, between New York and Washington, DC, with intermediate stops in Philadelphia. In 1921, scheduled transcontinental airmail service began between New York City and San Francisco.
- 1919, June 14-15:** Capt. John Alcock (UK) and Lt. Arthur W. Brown (U.S.) completed the first non-stop flight across the Atlantic Ocean. They traveled from Newfoundland, Canada, to Ireland in 16 hours and 12 minutes.
- 1923, Aug. 23:** Rotating beacons enabled the first night flights.
- 1924, Apr. 6-Sept. 28:** Two U.S. Army planes landed in Seattle, completing the first circumnavigation of the globe. They completed the 26,000-mi journey in 371 hours of flying time.
- 1926, May 12-13:** Roald Amundsen (Norway), Umberto Nobile (Italy), Lincoln Ellsworth (U.S.), and Oscar Wisting (Norway) made the first flight over the North Pole, in a dirigible that flew between Spitsbergen, Norway, and Teller, Alaska. Two weeks earlier, Adm. Richard E. Byrd (U.S.) and Floyd Bennett (U.S.) claimed to have made the first flight over the Pole (May 9, 1926) in a Fokker F-VII. But when Byrd's diary was released to the public in 1996, some historians began to question whether his plane indeed reached the Pole.
- 1927, May 20-21:** Charles Lindbergh (U.S.) completed the first solo transatlantic flight in the *Spirit of St. Louis*. Lucky Lindy traveled 3,610 mi from New York to Paris in 33 hours, 29 minutes, and 30 seconds.
- 1929, Aug. 8-29:** Hugo Eckener (Germany) piloted the *Graf Zeppelin* around the world in record time: 20,373 mi in 21 days, 5 hours, and 31 minutes.
- 1929, Nov. 28:** Adm. Richard E. Byrd (U.S.) and Bernt Balchen (Norway) became the first to fly to the South Pole and back, in 18 hours and 41 minutes.
- 1930, May 15:** Ellen Church (U.S.) became first flight attendant.
- 1931, June 23-July 1:** Wiley Post (U.S.) and Harold Gatty (U.S.) broke the speed record for around-the-world flight. They traveled 15,474 mi in 8 days, 15 hours, and 51 minutes in the monoplane *Winnie Mae*.
- 1931, Oct. 3-5:** Clyde Pangborn (U.S.) and Hugh Herndon (U.S.) completed the first non-stop transpacific flight. They traveled 4,558 mi from Misawa, Japan, to East Wenatchee, WA, in 41 hours and 34 minutes.
- 1932, May 20-21:** Amelia Earhart (U.S.) completed first solo transoceanic flight by a woman. She completed the 2,026-mi journey from Newfoundland, Canada, to Ireland in 14 hours and 56 minutes.
- 1933, July 15-22:** Wiley Post (U.S.) completed the first solo circumnavigation of the globe. His 15,596-mi trip took 7 days, 18 hours, and 49 minutes.
- 1936, June 25:** American Airlines began scheduled passenger service of the first Douglas DC-3 aircraft. The DC-3 was the first aircraft with a kitchen onboard and hence offered the first in-flight hot meal service.
- 1937, May 6:** *Hindenburg* zeppelin exploded and burst into flames in Lakehurst, NJ, killing 35 of the 97 people aboard (and one on the ground). The airship had made 34 transatlantic flights in 1936.
- 1938, July 10-13:** Howard Hughes (U.S.) and four assistants established a new speed record for circumnavigating the globe: 14,824 mi in 3 days, 9 hours, 17 minutes.
- 1939, Aug. 27:** The German-made Heinkel He 178 made the first successful flight powered by a jet engine.
- 1947, June 17-30:** Pan American Airways began the first scheduled around-the-world passenger flights, from New York or San Francisco.
- 1947, Oct. 14:** Chuck Yeager (U.S.) broke the sound barrier, reaching Mach 1 speed in a Bell X-1 rocket-powered aircraft.
- 1947, Nov. 2:** Howard Hughes (U.S.) piloted the *Spruce Goose* on its maiden and only flight. The largest airplane ever built, it could carry 750 troops or two Sherman tanks.
- 1949, Mar. 2:** James Gallagher (U.S.) piloted the first round-the-world flight to be refueled in midair. The *Lucky Lady* USAF B-50 covered 23,452 mi in 94 hours and one minute and was refueled four times.
- 1950, Sept. 22:** Col. David Schilling (USAF) made the first non-stop transatlantic jet flight, covering 3,300 mi in 10 hours and 1 minute.
- 1952, Aug. 26:** The U.K. bomber Canberra made the first round-trip transatlantic crossing on the same day, from Northern Ireland to Newfoundland, Canada, and back in 7 hours and 59 minutes.
- 1953, May 18:** Jacqueline Cochran (U.S.) became first woman to fly faster than the speed of sound.
- 1956, Nov. 11:** Convair B-58, first supersonic bomber, was introduced.
- 1957, Jan. 15-18:** Three USAF B-52 Stratofortresses made the first nonstop global flight by jet planes. They were refueled in flight by KC-97 aerial tankers.
- 1956, Mar. 10:** Britain's Fairey FD-2 aircraft set a world speed record of 1,132 mph.
- 1958, Oct.:** Marcel Dassault (France) flew a Mirage III-A at Mach 2, the first European plane to reach this speed.
- 1962, Nov. 29:** Britain and France signed an agreement to jointly develop the Concorde, a supersonic plane that could fly twice as fast as most U.S. jets.
- 1969, June 5:** The Soviet Tupolev Tu-144 became the first passenger airliner to reach Mach 2 (twice the speed of sound).
- 1970, May 26:** The Tupolev Tu-144 reached a top speed of about 1,335 mph at 53,475 ft.
- 1976, Aug. 23:** The Concorde began first scheduled supersonic commercial service.
- 1977, Aug. 23:** The *Gossamer Condor* successfully demonstrated human-powered flight through pedalling, completing a figure-8 course of 1.15 mi.
- 1979, June 12:** The human-powered *Gossamer Albatross* crossed the English Channel in 2 hours and 49 minutes.
- 1981, July 7:** *Solar Challenger* became the first solar-powered airplane to cross the English Channel.
- 1995, Aug. 15-16:** The Concorde set a new around-the-world speed record of 31 hours, 27 minutes, and 49 seconds.
- 1999, Mar. 1-21:** Bertrand Piccard (Switz.) and Brian Jones (UK) completed the first around-the-world flight in a hot-air balloon. Their 29,055-mi journey began in Chateau-d'Oex, Switzerland, and ended 19 days, 21 hours, and 55 minutes later in the Egyptian desert.
- 2001, Aug. 13:** Solar powered, propeller-driven plane *Helios* (NASA) reached 96,863 ft, breaking altitude record for non-rocket-powered aircraft.
- 2002, June 19-July 4:** Steve Fossett (U.S.) completed the first nonstop solo circumnavigation of globe in a balloon.
- 2003, Nov. 26:** The Concorde flew its final flight.
- 2005, Mar. 1-3:** Steve Fossett (U.S.) achieved the first nonstop solo circumnavigation in an airplane without refueling.
- 2005, Apr. 27:** The Airbus A380, the biggest-ever commercial jet, made its maiden voyage. It was 240 ft long, had a wingspan of 262 ft, and could seat a maximum of 840 passengers. Its first commercial flight was Oct. 25, 2007.
- 2006, Feb. 8-11:** Steve Fossett (U.S.) flew the longest nonstop, non-refueled solo flight.
- 2009, Dec. 15:** Boeing's 787 Dreamliner, the company's most fuel-efficient plane and the first to be constructed primarily from composite materials, made its maiden voyage, two years after it was originally scheduled.

ASTRONOMY

Edited by Michael J. Kaufman, Dept. of Physics and Astronomy, San Jose State University

Celestial Events Summary, 2011

There are 6 eclipses in 2011: 4 partial solar eclipses and 2 total lunar eclipses. None of the solar eclipses is visible in the continental U.S. The second lunar eclipse will be visible over wide portions of N America.

The most likely viewing successes for meteor showers will be the Perseids in Aug., the Orionids in Oct., and the Geminids in Dec. See page 339.

At the start of the year Saturn is up in the evening. Jupiter is low in the West at sunset, while Mars is too close to the Sun to be visible. Mercury begins the year low in the west after sunset. Venus is a bright evening object through the entire first half of the year, becoming a morning object from Sept. onwards. Jupiter is visible in the evening sky through Mar., then moves to the morning sky from Apr. through Oct.; by late fall, it is visible high in the sky throughout the night. Saturn is up all night long from Mar. through May, becoming an early morning object by fall; by the end of the year, it

is again in the evening sky. The best opportunities for seeing Mercury occur in late Mar., late July, and mid Nov. in the morning sky and in mid-Jan., early May, early Sept., and late Dec. in the evening sky.

The crescent Moon, with its subdued light, regularly makes pretty pairings with the 2 brightest planets, Venus and Jupiter. Waxing crescent pairings are visible in the early evening soon after sunset, while waning crescent pairings are visible in the early morning before sunrise. The waxing crescent Moon pairs with Venus in each of the months from Sept. through Dec. The waning crescent Moon pairs with Venus in all of the months from Jan. through June. The waxing crescent Moon pairs with Jupiter in the evening in Jan., Feb., and Mar., and the waning crescent pairs with Jupiter twice in May, and in June. In the early morning of May 1, the crescent Moon joins Mercury, Venus, Mars, and Jupiter in the eastern sky.

Astronomical Positions and Constants

Two celestial bodies are in **conjunction** when they are due North and South of each other, either in **right ascension** (with respect to the North celestial pole) or in **celestial longitude** (with respect to the North ecliptic pole). Celestial bodies in conjunction will rise and set at nearly the same time. For the inner planets—Mercury and Venus—**inferior conjunction** occurs when either planet passes between Earth and the Sun, while **superior conjunction** occurs when either Mercury or Venus is on the far side of the Sun. Celestial bodies are in **opposition** when their Right Ascensions differ by exactly 12 hours, or when their Celestial Longitudes differ by 180°. In this case one of the 2 objects in opposition will rise while the other is setting. **Quadrature** refers to the arrangement where the coordinates of 2 bodies differ by exactly 90°. These terms may refer to the relative positions of any 2 bodies as seen from Earth, but one of the bodies is so frequently the Sun that mention of the Sun is omitted in that case.

When objects are in conjunction, the alignment is not perfect, and one is usually passing above or below the other.

The geocentric angular separation between the Sun and an object is termed **elongation**. Elongation is limited only for Mercury and Venus; the greatest elongation for each of these bodies is approximately the time for longest observation. **Perihelion** is the point in an orbit that is nearest to the Sun, and **aphelion** is the point farthest from the Sun. **Perigee** is the point in an orbit that is nearest Earth, **apogee** the point that is farthest from Earth. An **occultation** of a planet or a star is an eclipse of it by some other body, usually the Moon. A **transit** of the Sun occurs when Mercury or Venus passes directly between Earth and the Sun, appearing to cross the disk of the Sun.

The following were adopted as part of the International Astronomical Union System of Astronomical Constants (1976): **Speed of light**, 299,792,458 km per sec., or about 186,282 statute mi per sec.; **solar parallax**, 8".794148; **Astronomical Unit** (the mean distance between the Earth and the Sun), 149,597,870 km, or 92,955,807 mi; **constant of nutation**, 9".2025; and **constant of aberration**, 20".49552.

Celestial Events Highlights, 2011

(In Coordinated Universal Time, or UTC, the standard time of the prime meridian.)

January

Mercury and Venus are visible low in the SE before sunrise all month.

Mars is too close to the Sun to be seen this month.

Jupiter, Uranus, and Neptune are high in the SW after sunset and set several hours later.

Saturn rises in the middle of the night and is visible high overhead at sunrise.

Jan. 1: Sun in Sagittarius, Mercury in Ophiuchus, Venus in Libra, Mars in Sagittarius, Jupiter in Pisces, Saturn in Virgo entire year, Uranus in Pisces entire year, Neptune in Capricorn

Jan. 1: Moon passes 2.51° N of Antares

Jan. 2: Moon passes 3.79° S of Mercury, Jupiter passes 0.57° S of Uranus

Jan. 4: New Moon, partial solar eclipse (see details under Eclipses)

Jan. 5: Moon passes 2.78° N of Mars

Jan. 8: Moon passes 5.16° N of Neptune, Venus at greatest elongation 47.0° W

Jan. 9: Mercury at greatest elongation 23.3° W, Venus enters Scorpius

Jan. 10: Moon passes 7.07° N of Jupiter, Moon passes 6.52° N of Uranus, Mercury enters Sagittarius

Jan. 12: First Quarter Moon

Jan. 14: Venus enters Ophiuchus

Jan. 15: Venus passes 8.00° N of Antares, Mars enters Capricorn

Jan. 16: Moon passes 7.48° N of Aldebaran

Jan. 19: Moon passes 8.81° S of Pollux, Full Moon

Jan. 20: Sun enters Capricorn

Jan. 22: Moon passes 5.29° S of Regulus

Jan. 24: Neptune enters Aquarius

Jan. 25: Moon passes 8.08° S of Saturn, Moon passes 2.96° S of Spica

Jan. 26: Last Quarter Moon

Jan. 29: Moon passes 2.58° N of Antares

Jan. 30: Moon passes 3.48° S of Venus

February

Mercury is low in the SE before sunrise the first half of the month but disappears into the Sun's glare by the second half.

Venus is visible low in the SE before sunrise all month.

Mars is too close to the Sun to be seen this month.

Jupiter and Uranus are in the SW after sunset and set several hours later.

Neptune begins the month low in the SW after sunset and is lost in the Sun's glare by the end of the month.

Saturn rises in the middle of the night and is visible in the SW at sunrise.

Feb. 1: Moon passes 3.60° N of Mercury, Venus enters Sagittarius

Feb. 3: Moon passes 4.85° N of Mars, New Moon, Mercury enters Capricorn

Feb. 4: Moon passes 5.14° N of Neptune, Mars passes 1.08° S of Sun

Feb. 7: Moon passes 6.82° N of Jupiter, Moon passes 6.36° N of Uranus
Feb. 11: First Quarter Moon
Feb. 12: Moon passes 7.33° N of Aldebaran
Feb. 16: Moon passes 8.88° S of Pollux, Sun enters Aquarius
Feb. 17: Neptune passes 0.49° S of Sun
Feb. 18: Moon passes 5.23° S of Regulus, Full Moon
Feb. 19: Mars enters Aquarius
Feb. 20: Mercury passes 1.06° S of Mars, Mars passes 0.63° S of Neptune, Mercury passes 1.69° S of Neptune, Mercury enters Aquarius
Feb. 21: Moon passes 8.04° S of Saturn
Feb. 22: Moon passes 2.76° S of Spica
Feb. 23: Jupiter enters Cetus
Feb. 24: Last Quarter Moon
Feb. 25: Moon passes 2.79° N of Antares, Mercury in superior conjunction 1.87° S

March

Mercury is low in the SW after sunset all month.
Venus is visible low in the SE before sunrise all month.
Mars is too close to the Sun to be seen this month.
Jupiter and **Uranus** are low in the SW after sunset and set soon afterwards.
Neptune is low in the SE at sunrise.
Saturn rises in late-evening and is visible the rest of the night.

Mar. 1: Moon passes 1.58° N of Venus
Mar. 2: Venus enters Capricorn
Mar. 3: Moon passes 5.19° N of Neptune
Mar. 4: Moon passes 6.21° N of Mars, New Moon
Mar. 5: Moon passes 6.53° N of Mercury
Mar. 6: Moon passes 6.22° N of Uranus, Mercury enters Pisces
Mar. 7: Moon passes 6.51° N of Jupiter
Mar. 8: Jupiter enters Pisces
Mar. 9: Mercury passes 0.37° N of Uranus
Mar. 12: Moon passes 7.07° N of Aldebaran, Sun enters Pisces
Mar. 13: First Quarter Moon
Mar. 15: Moon passes 9.07° S of Pollux
Mar. 16: Mercury passes 2.33° N of Jupiter
Mar. 18: Moon passes 5.29° S of Regulus
Mar. 19: Full Moon
Mar. 20: Vernal Equinox
Mar. 21: Moon passes 8.03° S of Saturn, Moon passes 2.58° S of Spica, Uranus passes 0.71° S of Sun
Mar. 23: Mercury at greatest elongation 18.6° E
Mar. 24: Moon passes 3.05° N of Antares, Mars enters Pisces
Mar. 25: Venus enters Aquarius
Mar. 26: Last Quarter Moon
Mar. 27: Venus passes 0.16° S of Neptune
Mar. 31: Moon passes 5.38° N of Neptune, Moon passes 5.99° N of Venus

April

Mercury is low in the SW after sunset at the start of the month and low in the SE before sunrise at the end of the month.
Venus and **Mars** are visible low in the SE before sunrise all month.
Jupiter and **Uranus** are low in the SE before sunrise by the end of the month.
Neptune is in the SE at sunrise.
Saturn rises around sunset and is visible all night.
Apr. 2: Moon passes 6.43° N of Mars, Moon passes 6.18° N of Uranus
Apr. 3: Mars passes 0.23° S of Uranus, New Moon
Apr. 4: Moon passes 6.21° N of Jupiter, Moon passes 1.33° N of Mercury, Saturn at opposition

Apr. 6: Jupiter passes 1.08° S of Sun
Apr. 8: Moon passes 6.83° N of Aldebaran
Apr. 9: Mercury in inferior conjunction 2.40° N
Apr. 10: Mercury passes 3.52° N of Jupiter
Apr. 11: Moon passes 9.33° S of Pollux, First Quarter Moon, Mars enters Cetus
Apr. 13: Mars enters Pisces
Apr. 14: Moon passes 5.47° S of Regulus
Apr. 17: Moon passes 8.11° S of Saturn, Moon passes 2.53° S of Spica, Venus enters Pisces
Apr. 18: Full Moon
Apr. 19: Mercury passes 0.78° N of Mars, Sun enters Aries
Apr. 20: Moon passes 3.26° N of Antares
Apr. 22: Venus passes 0.92° S of Uranus
Apr. 25: Last Quarter Moon
Apr. 26: Venus enters Cetus
Apr. 27: Moon passes 5.62° N of Neptune
Apr. 30: Moon passes 6.26° N of Uranus, Moon passes 7.02° N of Venus, Venus enters Pisces

May

Mercury is low in the SE before sunrise all month.
Venus and **Mars** are visible low in the SE before sunrise all month.
Jupiter and **Uranus** are low in the SE before sunrise all month.
Neptune is in the SE at sunrise all month.
Saturn rises before sunset and sets before sunrise.
May 1: Mars passes 0.39° N of Jupiter, Moon passes 5.93° N of Jupiter, Moon passes 5.53° N of Mars, Moon passes 7.80° N of Mercury
May 3: New Moon
May 5: Moon passes 6.70° N of Aldebaran
May 7: Mercury at greatest elongation 26.6° W
May 9: Moon passes 9.54° S of Pollux
May 10: Mercury passes 2.20° S of Jupiter, First Quarter Moon, Mars enters Aries
May 11: Venus passes 0.61° S of Jupiter, Moon passes 5.66° S of Regulus
May 14: Moon passes 8.20° S of Saturn, Sun enters Taurus
May 15: Moon passes 2.58° S of Spica
May 17: Full Moon, Venus enters Aries
May 18: Moon passes 3.33° N of Antares, Mercury enters Cetus
May 19: Mercury enters Aries
May 20: Mercury passes 2.35° S of Mars
May 22: Venus passes 1.06° S of Mars
May 24: Moon passes 5.81° N of Neptune, Last Quarter Moon
May 27: Moon passes 6.37° N of Uranus
May 29: Moon passes 5.67° N of Jupiter
May 30: Moon passes 3.83° N of Mars, Mercury enters Taurus
May 31: Moon passes 3.70° N of Mercury, Moon passes 4.42° N of Venus

June

Mercury is low in the SE before sunrise at the start of the month and low in the SW after sunset at the end of the month.
Venus and **Mars** are visible low in the SE before sunrise all month.
Jupiter, Uranus, and Neptune are high in the SE before sunrise all month.
Saturn is high in the S at sunset and sets after midnight.
June 1: Moon passes 6.68° N of Aldebaran, New Moon, partial solar eclipse (see details under Eclipses)
June 4: Venus enters Taurus
June 5: Moon passes 9.61° S of Pollux
June 6: Jupiter enters Aries
June 7: Moon passes 5.75° S of Regulus

June 8: Mercury passes 5.58° N of Aldebaran
June 9: First Quarter Moon
June 10: Moon passes 8.18° S of Saturn
June 11: Moon passes 2.64° S of Spica
June 12: Mars enters Taurus
June 13: Mercury in superior conjunction 0.89° N
June 14: Moon passes 3.33° N of Antares
June 15: Full Moon, total lunar eclipse (see details under Eclipses)
June 16: Mercury enters Gemini
June 18: Venus passes 4.79° N of Aldebaran
June 21: Moon passes 5.86° N of Neptune, Summer Solstice
June 22: Sun enters Gemini
June 23: Moon passes 6.39° N of Uranus, Last Quarter Moon
June 26: Moon passes 5.37° N of Jupiter
June 28: Mercury passes 4.87° S of Pollux, Moon passes 1.75° N of Mars
June 29: Moon passes 6.68° N of Aldebaran
June 30: Moon passes 0.09° N of Venus, Mercury enters Cancer

July

Mercury is low in the SW after sunset all month.
Venus is visible low in the SE before sunrise at the start of the month.
Mars is in the SE before sunrise all month.
Jupiter, Uranus, and Neptune are high in the S before sunrise all month.
Saturn is high in the SW at sunset and sets several hours later.

July 1: New Moon, partial solar eclipse (see details under Eclipses)
July 2: Moon passes 9.60° S of Pollux
July 3: Moon passes 5.12° S of Mercury
July 4: Venus enters Gemini
July 5: Moon passes 5.72° S of Regulus
July 6: Mars passes 5.50° N of Aldebaran
July 8: Moon passes 8.00° S of Saturn, Moon passes 2.59° S of Spica, First Quarter Moon
July 12: Moon passes 3.35° N of Antares
July 14: Mercury enters Leo
July 15: Full Moon
July 18: Moon passes 5.78° N of Neptune
July 20: Mercury at greatest elongation 26.8° E
July 21: Moon passes 6.30° N of Uranus, Sun enters Cancer
July 23: Last Quarter Moon
July 24: Moon passes 5.06° N of Jupiter, Venus passes 6.10° S of Pollux
July 26: Moon passes 6.61° N of Aldebaran
July 27: Moon passes 0.48° S of Mars, Venus enters Cancer
July 29: Moon passes 9.59° S of Pollux
July 30: Moon passes 4.35° S of Venus, New Moon

August

Mercury is low in the SW after sunset early in the month and low in the SE before sunrise late in the month.
Venus is too close to the Sun to be visible all month.
Mars is in the SE before sunrise all month.
Jupiter and Uranus rise late in the evening and are in the W before sunrise all month.
Neptune rises after sunset and is up most of the night.
Saturn is in the SW at sunset and sets several hours later.

Aug. 1: Moon passes 1.49° S of Mercury, Moon passes 5.63° S of Regulus
Aug. 3: Mars enters Gemini
Aug. 4: Moon passes 7.67° S of Saturn
Aug. 5: Moon passes 2.43° S of Spica
Aug. 6: First Quarter Moon
Aug. 8: Moon passes 3.48° N of Antares

Aug. 11: Sun enters Leo
Aug. 12: Venus enters Leo
Aug. 13: Full Moon
Aug. 14: Moon passes 5.67° N of Neptune
Aug. 15: Mercury passes 6.34° S of Venus
Aug. 16: Venus in superior conjunction 1.29° N
Aug. 17: Moon passes 6.15° N of Uranus, Mercury in inferior conjunction 4.59° S
Aug. 20: Moon passes 4.79° N of Jupiter
Aug. 21: Venus passes 0.96° N of Regulus, Last Quarter Moon
Aug. 22: Moon passes 6.41° N of Aldebaran, Neptune at opposition
Aug. 24: Mercury enters Cancer
Aug. 25: Moon passes 2.69° S of Mars
Aug. 26: Moon passes 9.69° S of Pollux
Aug. 28: Moon passes 2.56° S of Mercury, Moon passes 5.59° S of Regulus, Mercury enters Leo
Aug. 29: Moon passes 6.89° S of Venus, New Moon
Aug. 31: Moon passes 7.29° S of Saturn

September

Mercury is low in the SE before sunrise early in the month.
Venus is low in the SW after sunset late in the month.
Mars is in the SE before sunrise all month.
Jupiter and Uranus rise late in the evening and are visible through the night all month.
Neptune rises before sunset and is visible most of the night.
Saturn is low in the SW at sunset.

Sept. 1: Moon passes 2.23° S of Spica
Sept. 3: Mercury at greatest elongation 18.1° W
Sept. 4: Moon passes 3.71° N of Antares, First Quarter Moon
Sept. 9: Mercury passes 0.69° N of Regulus, Venus enters Virgo
Sept. 10: Mars passes 5.96° S of Pollux, Moon passes 5.66° N of Neptune
Sept. 12: Full Moon
Sept. 13: Moon passes 6.05° N of Uranus
Sept. 15: Mars enters Cancer
Sept. 16: Moon passes 4.68° N of Jupiter
Sept. 17: Sun enters Virgo
Sept. 19: Moon passes 6.15° N of Aldebaran
Sept. 20: Last Quarter Moon
Sept. 22: Moon passes 9.90° S of Pollux, Mercury enters Virgo
Sept. 23: Moon passes 4.76° S of Mars, Autumnal Equinox
Sept. 25: Moon passes 5.67° S of Regulus
Sept. 26: Uranus at opposition
Sept. 27: Moon passes 6.78° S of Mercury, New Moon
Sept. 28: Moon passes 6.96° S of Saturn, Moon passes 2.08° S of Spica, Moon passes 5.74° S of Venus, Mercury in superior conjunction 1.36° N
Sept. 30: Venus passes 1.40° S of Saturn

October

Mercury and Venus are low in the SW after sunset late in the month.
Mars rises after midnight and is high overhead at sunrise.
Jupiter and Uranus rise around sunset and are visible all night.
Neptune is high overhead at sunset and sets after midnight.
Saturn is low in the SW at sunset early in the month and low in the SE at sunrise late in the month.

Oct. 1: Moon passes 3.96° N of Antares
Oct. 3: Venus passes 3.15° N of Spica
Oct. 4: First Quarter Moon
Oct. 7: Mercury passes 1.87° S of Saturn
Oct. 8: Moon passes 5.78° N of Neptune
Oct. 9: Mercury passes 2.55° N of Spica

Oct. 10: Moon passes 6.08° N of Uranus
Oct. 12: Full Moon
Oct. 13: Moon passes 4.79° N of Jupiter, Saturn passes 2.25° N of Sun
Oct. 15: Venus enters Libra
Oct. 16: Moon passes 5.94° N of Aldebaran
Oct. 18: Mercury enters Libra
Oct. 19: Mars enters Leo
Oct. 20: Moon passes 10.14° S of Pollux, Last Quarter Moon
Oct. 22: Moon passes 6.48° S of Mars, Moon passes 5.85° S of Regulus
Oct. 26: Moon passes 6.74° S of Saturn, Moon passes 2.06° S of Spica, New Moon
Oct. 28: Moon passes 0.23° S of Mercury, Moon passes 1.80° S of Venus
Oct. 29: Moon passes 4.12° N of Antares, Jupiter at opposition
Oct. 31: Saturn passes 4.65° N of Spica, Sun enters Libra

November

Mercury and **Venus** are low in the SW after sunset all month. **Mars** rises after midnight and is high overhead at sunrise. **Jupiter** and **Uranus** are low in the SE after sunset and are visible most of the night. **Neptune** is high overhead at sunset and sets after midnight. **Saturn** is in the SE at sunrise all month.

Nov. 2: First Quarter Moon, Mercury enters Scorpius, Venus enters Scorpius
Nov. 4: Moon passes 5.96° N of Neptune
Nov. 7: Moon passes 6.20° N of Uranus
Nov. 8: Venus enters Ophiuchus
Nov. 9: Moon passes 5.04° N of Jupiter, Venus passes 3.98° N of Antares, Mercury enters Ophiuchus
Nov. 10: Mars passes 1.40° N of Regulus, Mercury passes 1.94° N of Antares, Full Moon
Nov. 12: Moon passes 5.85° N of Aldebaran, Mercury enters Scorpius
Nov. 14: Mercury at greatest elongation 22.7° E
Nov. 15: Mercury enters Ophiuchus
Nov. 16: Moon passes 10.30° S of Pollux
Nov. 18: Last Quarter Moon
Nov. 19: Moon passes 7.71° S of Mars, Moon passes 6.00° S of Regulus

Nov. 22: Moon passes 6.61° S of Saturn, Moon passes 2.11° S of Spica
Nov. 23: Venus enters Sagittarius
Nov. 24: Sun enters Scorpius
Nov. 25: Moon passes 4.16° N of Antares, New Moon, partial solar eclipse (see details under Eclipses)
Nov. 26: Moon passes 1.75° N of Mercury
Nov. 27: Moon passes 2.82° N of Venus
Nov. 30: Sun enters Ophiuchus

December

Mercury is low in the SE before sunrise by mid-month. **Venus** is low in the SW after sunset all month. **Mars** rises around midnight and is high overhead at sunrise. **Jupiter** and **Uranus** are low in the SE after sunset and are visible most of the night. **Neptune** is high overhead at sunset and sets in the late evening. **Saturn** is high in the SE at sunrise all month.

Dec. 1: Moon passes 6.06° N of Neptune
Dec. 2: First Quarter Moon
Dec. 4: Moon passes 6.27° N of Uranus, Mercury in inferior conjunction 1.27° N
Dec. 6: Mercury passes 6.55° N of Antares, Moon passes 5.19° N of Jupiter
Dec. 7: Mercury enters Scorpius
Dec. 8: Jupiter enters Pisces
Dec. 10: Moon passes 5.85° N of Aldebaran, Full Moon, total lunar eclipse (see details under Eclipses)
Dec. 13: Moon passes 10.32° S of Pollux
Dec. 16: Moon passes 6.02° S of Regulus
Dec. 17: Moon passes 8.50° S of Mars
Dec. 18: Last Quarter Moon, Sun enters Sagittarius
Dec. 20: Moon passes 6.51° S of Saturn, Moon passes 2.11° S of Spica, Venus enters Capricorn
Dec. 22: Mercury passes 6.80° N of Antares, Winter Solstice, Mercury enters Ophiuchus
Dec. 23: Moon passes 4.16° N of Antares, Moon passes 2.58° S of Mercury, Mercury at greatest elongation 21.8° W
Dec. 24: New Moon
Dec. 27: Moon passes 6.42° N of Venus
Dec. 29: Moon passes 6.03° N of Neptune
Dec. 31: Moon passes 6.19° N of Uranus

Meteorites and Meteor Showers

When a chunk of material, ice or rock, plunges into Earth’s atmosphere and burns up in a fiery display, the event is a **meteor**. While the chunk of material is still in space, it is a **meteoroid**. If a portion of the material survives passage through the atmosphere and reaches the ground, the remnant on the ground is a **meteorite**.

Meteorites found on Earth are classified into types, depending on their composition: **irons**, those composed chiefly of iron, a small percentage of nickel, and traces of other metals such as cobalt; **stones**, stony meteors consisting of silicates; and **stony irons**, containing varying proportions of both iron and stone.

Serious study of meteorites as non-earth objects began in the 20th century. Scientists use sophisticated chemical analysis, X-rays, and mass spectrography in determining their origin and composition. Although most meteorites are now believed to be fragments of asteroids or comets, geochemical studies have shown that a few Antarctic stones came from the Moon or from Mars, presumably ejected by the explosive impact of asteroids.

The **largest known meteorite**, estimated to weigh about 55 metric tons, is situated at Hoba West near Grootfontein, Namibia. The Manicouagan impact crater in Quebec, Canada, with an estimated diameter of 60 mi, is one of the largest crater structures still visible on the surface of the Earth. Although not visible to the eye, other still larger impact craters identified include the Vredefort crater in South Africa at 185 mi across and the Sudbury crater in Ontario, Canada, estimated

at 125 mi across. The Bedout impact site off the NW coast of Australia gained attention in 2004, when scientists identified further evidence in support of the idea that it may be linked to the Permian extinction event 250 mil years ago.

Meteor showers vary in strength, but usually the 3 best visible meteor showers of the year are the **Perseids**, around Aug. 13, the **Orionids**, around Oct. 21, and the **Geminids**, around Dec. 14. These showers feature meteors at the rate of about 60 per hour. Best observing conditions occur with the absence of moonlight, usually when the Moon’s phase is between waning crescent Moon and waxing quarter Moon.

For most meteor showers the cometary debris is relatively uniformly scattered along the comet’s orbit. However, in the case of the **Leonid** meteor shower, which occurs every year around Nov. 17-18, the cometary debris, from Comet Temple-Tuttle, seems to be bunched up in one stretch. Hence, most years when Earth crosses the orbit of this comet, the meteor shower produced is relatively weak. However, about every 33 years, Earth encounters the bunched-up debris. Sometimes the storm is a disappointment, as it was in 1899 and 1933; at other times it is a roaring success, as in 1833 and 1866. The Leonids stormed again more recently, producing rates of 1,000-3,000 meteors per hour in 2001. Viewing of the typically best showers of the year (Perseids in mid-Aug., Orionids in late Oct., Leonids in mid-Nov., and Geminids in mid-Dec.) will all be adversely affected by bright Moons during the best viewing hours.

Rising and Setting of Planets, 2011

(In Coordinated Universal Time. 0 in the *h* col. designates 12 AM.)

Largest Telescopes

Astronomers indicate the size of telescopes not by length or magnification, but by the diameter of the primary light-gathering component of the system—such as the lens or mirror. This measurement is a direct indication of the telescope’s light-gathering power. The bigger the diameter, the fainter the objects you are able to detect. The Earth’s atmosphere limits the resolution of what you see. That is why the Hubble Space Telescope, which is outside the atmosphere, can have better resolution than larger telescopes on the Earth.

Refracting (lens) telescopes are currently not made with lens diameters of more than 40 in. Mirror telescopes can be made less expensively than lens telescopes, so all modern large optical telescopes are made with mirrors. **Radio telescopes**, also reflecting telescopes, view at wavelengths not visible to optical telescopes or to the human eye. Radio telescopes are made larger than optical telescopes because larger diameters are required at longer wavelengths to obtain equivalent resolution. Arrays of telescopes are used to achieve even better resolution through a technique called interferometry. Originally developed for radio telescopes, the technique is now also used with optical and infrared telescopes.

Largest refracting (lens) optical telescope: Yerkes Observatory, 1 m (40 in.), at Williams Bay, WI

Largest reflecting (mirror) optical/infrared telescope: Keck, 9.8 m (32 ft), on Mauna Kea, HI (segmented mirror; 2 equal-size telescopes)

Largest infrared interferometer: Four 8.2 m (27 ft) telescopes of the Very Large Telescope Interferometer (VLTI) with a 200 m (656 ft) baseline on Cerro Paranal in Chile

Largest fully steerable radio dish: Robert Byrd Green Bank Telescope (GBT), 100 m × 110 m (328 ft × 360 ft), in Green Bank, WV

Largest single radio dish: Arecibo Observatory, 305 m (1,000 ft), in Puerto Rico

Largest radio interferometer: Ten 25 m (82 ft) diameter telescopes of the Very Long Baseline Array (VLBA), dispersed from Hawaii to the Virgin Islands with a resolution equal to a radio dish of 8,600 km (5,000 mi), making it the highest resolution telescope in the solar system

Constellations

Culturally, constellations are imagined patterns among the stars that, in some cases, have been recognized through millennia. Knowledge of constellations was once necessary in order to function as an astronomer. For today’s astronomers, constellations are simply areas on the entire sky in which interesting objects await observation and interpretation. Because Western culture has prevailed in establishing modern science, equally viable and interesting constellations and celestial traditions of other cultures are not well known outside their regions of origin. Even the patterns with which we are most familiar today have undergone considerable change over the centuries.

Today, **88 constellations** are officially recognized. Although many have ancient origins, some are modern, devised out of unclaimed stars by astronomers a few centuries ago. Unclaimed stars were those too faint or inconveniently placed to be included in the more prominent constellations. Stars in a constellation are not necessarily near each other; they are just located in the same direction on the celestial sphere.

When astronomers began to travel to South Africa in the 16th and 17th centuries, they found an unfamiliar sky that showed numerous brilliant stars. Thus, we find constellations in the Southern Hemisphere that depict technological marvels of the time, as well as some arguably traditional forms, such as Musca, the fly.

Many of the commonly recognized constellations had their **origins** in ancient Asia Minor. These were adopted by the Greeks and Romans, who translated their names and stories into their own languages, modifying some details in the process. After the declines of these cultures, most such knowledge entered oral tradition or remained hidden in monastic libraries. From the 8th century, the Muslim explosion spread through the Mediterranean world. Wherever possible, everything was translated into Arabic to be taught in the

universities the Muslims established all over their new-found world. In the 13th century, Alfonso X of Castile, an avid student of astronomy, had Ptolemy’s *Almagest* translated into Latin. It thus became widely available to European scholars. In the process, the constellation names were translated, but the star names were retained in their Arabic forms. Thus the names of many stars—Altair, Alnitak, and Mirfak, among others—have Arabic roots, although linguistic adaptation and the inaccuracies of transliteration have wrought changes.

Until the 1920s, astronomers used curved boundaries for the constellation areas. As these were rather arbitrary at best, the International Astronomical Union adopted new constellation boundaries that ran due north-south and east-west, filling the sky much as the contiguous states fill up the area of the lower 48 United States.

Common names of stars often referred to parts of the traditional figures they represented: Deneb, the tail of the swan; Betelgeuse, the armpit of the giant. Avoiding traditional names, astronomers may label stars by using Greek letters, generally to denote order of brightness. Thus, the “alpha star” would generally be the brightest star of that constellation. The “of” implies possession, so the genitive (possessive) form of the constellation name is used, as in Alpha Orionis, the first star of Orion (Betelgeuse). Astronomers usually use a 3-letter abbreviation for the constellation name, as indicated here.

Within these boundaries, and occasionally crossing them, popular asterisms are recognized: the so-called Big Dipper is a small part of the constellation Ursa Major, the big bear; the Sickle is the traditional head and mane of Leo, the lion; the three stars of the Summer Triangle are each in a different constellation, with Vega in Lyra the lyre, Deneb in Cygnus the swan, and Altair in Aquila the eagle; the northeast star of the Great Square of Pegasus is Alpha Andromedae.

Name	Genitive case	Abbr.	Meaning	Name	Genitive case	Abbr.	Meaning

Eclipses, 2011

(In Coordinated Universal Time, standard time of the prime meridian.)

There are 6 eclipses in 2011: four partial eclipses of the Sun, and two total eclipses of the Moon. During a partial eclipse of the Sun, the Moon and Sun are not sufficiently aligned for the solar disk to be completely blocked. The tables below give the times, in UTC, when the Moon or Sun reaches certain phases of eclipse. In the case of the lunar eclipses, the times are relevant for any observer who can see the Moon. In the case of solar eclipses, the tabulated times refer to when the given event may begin or end from specific points along the eclipse path; as the Moon’s shadow sweeps quickly across the Earth, observed duration of totality depends precisely on the observer’s location.

I. Partial Eclipse of the Sun, Jan. 4

The eclipse will be visible over a wide area extending from NW Africa across most of Europe, the Middle East, and Central and NE Asia. Viewers in N Europe and NW Russia will see as much as 80% of the Sun’s diameter blocked by the Moon, while more southerly observers will see less blocked.

Event	Date	h	m
Penumbral eclipse begins	Jan. 4	6	40.2
Greatest eclipse		8	51.7
Penumbral eclipse ends	4	10	7.6

II. Partial Eclipse of the Sun, June 1

The eclipse will be visible over a wide area starting from NE China and E Russia, extending across nearly the entire Arctic, including northern Alaska, northern Canada, and Iceland. No more than 60% of the Sun’s diameter will be eclipsed for any observers.

Event	Date	h	m
Penumbral eclipse begins	June 1	19	25.3
Greatest eclipse		21	17.3
Penumbral eclipse ends	1	23	7.0

III. Total Eclipse of the Moon, June 15

The eclipse will be visible over a wide area including Africa, the Middle East, and most of Europe. Totality will last an unusually long 100 minutes.

Event	Date	h	m
Penumbral eclipse begins	July 15	17	24.5
Total eclipse begins		19	22.5
Greatest eclipse		20	13.7
Total eclipse ends		21	2.2
Penumbral eclipse ends	15	23	0.6

IV. Partial Eclipse of the Sun, July 1

This very minor solar eclipse, in which no more than 10% of the Sun’s diameter is blocked, will be visible only in a very isolated region of the Antarctic Ocean, south of Africa.

Event	Date	h	m
Penumbral eclipse begins	July 1	7	53.7
Greatest eclipse		8	39.5
Penumbral eclipse ends	1	9	22.8

V. Partial Eclipse of the Sun, Nov. 25

The eclipse will be visible over a wide area that extends from southernmost Africa eastward to New Zealand and all of Antarctica. More than 90% of the Sun’s diameter will be blocked for observers who can see the greatest eclipse.

Event	Date	h	m
Penumbral eclipse begins	Nov. 25	4	23.2
Greatest eclipse		6	21.4
Penumbral eclipse ends	25	8	17.3

VI. Total Eclipse of the Moon, Dec. 10

The entire eclipse will be visible over a wide area including Asia, Australia, and Alaska. North American observers will be able to see at least part of the total phase, with more visible to observers in the Northwest.

Event	Date	h	m
Penumbral eclipse begins	Dec. 10	11	33.5
Total eclipse begins		14	6.2
Greatest eclipse		14	32.9
Total eclipse ends		14	57.4
Penumbral eclipse ends	10	17	30.0

Total Solar Eclipses, 2010-2020

Total solar eclipses actually take place nearly as often as total lunar eclipses. Total lunar eclipses are visible over at least half of the Earth, while total solar eclipses can be seen only along a very narrow path up to a few hundred miles wide and a few thousand miles long. Observing a total solar eclipse is thus a rarity for most people.

Solar eclipses can be dangerous to observe. This is not because the Sun emits more potent rays, but because the Sun is always dangerous to observe directly and people are particularly likely to stare at it during a solar eclipse.

Date	Duration ¹ m s	Width (mi)	Path of totality
2010, July 11	5 20	164	Pacific Ocean, southern S America
2012, Nov. 13	4 2	112	N Australia, Pacific Ocean
2013, Nov. 3 ^h	1 40	36	Atlantic Ocean, Africa

h = Indicates annular-total hybrid eclipse. (1) Duration refers to length of time at optimal viewing area.

Total Solar Eclipses in the U.S. in the 21st Century

During the 21st century there will be 8 total solar eclipses visible somewhere in the continental U.S. The first comes after a long gap; the last total solar eclipse was on Feb. 26, 1979, in the northwestern U.S.

Date	Path of totality	Date	Path of totality
Aug. 21, 2017	Oregon to South Carolina	Mar. 30, 2052	Florida to Georgia
Apr. 8, 2024	Mexico to Texas and N through Maine	May 11, 2078	Louisiana to North Carolina
Aug. 23, 2044	Montana to North Dakota	May 1, 2079	New Jersey to the lower edge of New England
Aug. 12, 2045	N California to Florida	Sept. 14, 2099	North Dakota to Virginia

Beginnings of the Universe

One of the dominating astronomical discoveries of the 20th century was that the galaxies of the universe all seem to be moving away from us. Doppler redshifts were observed for the spiral nebulae around 1920, even though they were not yet known to be galaxies. By the early 1930s, Edwin Hubble and M. L. Humason had established that the more distant a galaxy, the faster it was receding. It turned out that they are moving away not just from us but from one another—that is, the **universe is expanding**. Scientists conclude that the universe must once, very long ago, have been extremely compact and dense, until an explosion or a similar event caused the matter to spread out. The explosion that gave birth to the universe is called the **Big Bang**.

On the subatomic level, according to this theory, there were vast changes of energy and matter and the way physical laws operated during the first few minutes. After those early minutes the percentages of the basic matter of the universe—hydrogen, helium, and lithium—were set. Everything was so compact and so hot that **radiation dominated the early universe** and there were no stable, un-ionized atoms. At first, the universe was opaque, in the sense that any energy emitted was quickly absorbed and then re-emitted by free electrons. As the universe expanded, **density and temperature continued to drop**. A few hundred thousand years after the Big Bang, the temperature dropped far enough that electrons and nuclei could combine to form stable atoms as the universe became transparent. Once that occurred, the radiation that had been trapped was free to escape.

The 20th century might be called the century of the galaxy. By the start of the century, more than 10,000 **nebulae**—cloud-like luminous objects in the sky—had been discovered. Some were correctly identified as star clusters and others as clouds of gas and dust. Those nebulae which were spiral or elliptical in shape were found in regions of the sky far from the glowing band that is our own Milky Way Galaxy. Immanuel Kant had written in 1775 that some of these fuzzy objects might be “**island universes**” apart from our own. But the idea remained speculative until 1923-24, when Edwin Hubble discovered the existence of variable stars in some of these nebulae. This provided conclusive evidence that these systems were outside our own island universe, the Milky Way Galaxy.

Galaxies range in size from small dwarf elliptical ones, with perhaps 1 mil stars, to spiral galaxies containing 300

bil stars, to giant elliptical galaxies that may be home to more than 10 tril stars. The diameters of galaxies range from 3,000 light-years in dwarf elliptical galaxies to over 500,000 light-years in giant elliptical galaxies. It is estimated that the Milky Way galaxy is about 100,000 light-years in diameter with about 400 bil stars.

Galaxies also congregate into **clusters**. The smallest are poor clusters of only a few dozen galaxies, while the largest rich clusters may contain thousands of galaxies. The Milky Way is part of a poor cluster of about 3 dozen galaxies called the **Local Group**. The largest member of the Local Group is the Andromeda Galaxy, a spiral galaxy visible to the unaided eye in the constellation of Andromeda on a very dark night away from lights. The Milky Way is the second largest galaxy in this group; most other galaxies in our Local Group are small.

A related mystery is that evidence suggests there is hidden matter and hidden energy that cannot be directly observed. This **dark matter** may be composed of gas, large numbers of cool, small objects, or even sub-atomic particles. The presence of dark matter is indicated by the rotation curves of galaxies and the dynamics of clusters of galaxies. Evidence for **dark energy** is derived from studies of distant Type Ia supernovae in far galaxies indicating that the expansion of the universe is accelerating, rather than slowing. The visible matter we see seems to constitute only about 4% of the total mass of the universe, while the rest of the mass of the universe is in the form of dark matter (23%) and dark energy (73%). Dark energy is a mysterious force that seems to work on the very fabric of the universe, spreading it apart.

Galaxies

The Solar System

The major planets of the solar system, in order of mean distance from the Sun, are **Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune**. The dwarf planets in order of average distance from the Sun are **Ceres** (located between Mars and Jupiter), **Pluto, Haumea, Makemake, and Eris**. All planets orbit counterclockwise around the Sun as viewed from above the Earth’s North Pole.

Because **Mercury** and **Venus** are nearer to the Sun than is Earth, their motions about the Sun appear from Earth as wide swings first to one side of the Sun then to the other, though both planets move around the Sun in almost circular orbits. When their passage takes them between Earth and the Sun or beyond the Sun as seen from Earth, they cannot be seen.

The **planets that lie farther from the Sun** than does Earth may be seen for longer periods and are invisible only when so located in our sky so that they rise and set at about the same time as the Sun—and thus become overwhelmed by the Sun’s light.

The giant planets emit their own energy. On occasion, radio emissions from Jupiter exceed even those emitted by the Sun in intensity.

Mercury and Venus, because they are between Earth and the Sun, show phases much as the Moon does. The planets farther from the Sun are always seen as full, although Mars does occasionally present a slightly gibbous phase—like the Moon when not quite full.

The **planets appear to move rapidly among the stars** because they are relatively closer to Earth than the stars. The stars are also in motion, some at tremendous speeds, but they are so far away that their motion does not change their apparent positions in the heavens enough to be perceived. The nearest star is about 9,000 times farther away than Neptune. The count for identified **moons** in the solar system orbiting planets and dwarf planets stood at 174 in fall 2010.

Planet Superlatives

Largest, most massive planet.	Jupiter	Smallest, least massive planet.	Mercury
Fastest orbiting planet	Mercury	Slowest orbiting planet	Neptune
Fastest sidereal rotation	Jupiter	Slowest sidereal rotation	Venus
Longest (synodic) day	Mercury	Shortest (synodic) day	Jupiter
Rotational pole closest to ecliptic	Uranus	Hottest planet	Venus
Most moons	Jupiter	No moons	Mercury, Venus
Planet with largest moon	Jupiter	Planet with moon with most eccentric orbit . .	Neptune
Greatest average density	Earth	Lowest average density	Saturn
Tallest mountain	Mars	Deepest oceans	Jupiter
Strongest magnetic fields	Jupiter	Greatest amount of liquid, surface water . . .	Earth
Most circular orbit.	Venus

(1) Average angular motion measured in seconds of arc per day. (2) Speed of revolution around Sun. (3) Number of Earth days to orbit Sun with respect to background stars. (4) Number of Earth days to get back to the same position in its orbit around Sun, relative to Earth. (5) Light at perihelion and aphelion is solar illumination measured in units of mean illumination at Earth.

Planets of the Solar System

Note: AU = astronomical unit (92.96 mil mi, mean distance of Earth from the Sun); **d** = 1 Earth synodic (solar) day (24 hours); **synodic day** = rotation period of a planet measured with respect to the Sun (the “true” day, i.e., the time from midday to midday, or from sunrise to sunrise); **sidereal day** = the rotation period of a planet with respect to the stars.

The International Astronomical Union (IAU) on Aug. 24, 2006, at their General Assembly in Prague, Czech Republic, agreed on a new definition for “planet,” and in the process effectively removed Pluto’s planet status. The ruling came after years of debate as to whether Pluto, discovered in 1930, should still be considered the ninth planet in our solar system because of its size, orbit, and other characteristics. New discoveries of other Pluto-like objects in the solar system, such as the 2003 discovery of Eris, a **Kuiper Belt object (KBO)** bigger than Pluto, also contributed to the debate.

Under the IAU’s new definition, Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune are regarded as “classical” planets. A **planet** is now defined as a celestial body that (a) is in orbit around the Sun, (b) has sufficient mass for its self-gravity to overcome rigid body forces so that it assumes a hydrostatic equilibrium (nearly round) shape, and (c) has cleared the neighborhood around its orbit.

Pluto, Eris, Ceres, Makemake, and Haumea are now regarded as dwarf planets, with the status of Pluto’s largest moon, Charon, to be determined at a later date. A **dwarf planet** is a celestial body that (a) is in orbit around the Sun, (b) has sufficient mass for its self-gravity to overcome rigid body forces so that it assumes a hydrostatic equilibrium (nearly round) shape, (c) has not cleared the neighborhood around its orbit, and (d) is not a satellite.

The IAU also created a new category, **small solar system bodies**, for all other objects orbiting the Sun, including comets, asteroids, KBOs, and other small objects, although it has not yet established a process by which other solar system objects will be classified.

Mercury

Distance from the Sun	
Perihelion	28.6 mil mi
Aphelion	43.4 mil mi
Semi-major axis (mean distance)	36 mil mi (0.387 AU)
Period of revolution around Sun	87.97 d
Orbital eccentricity	0.2056
Orbital inclination	7.00°
Synodic day (midday to midday)	175.94 d
Sidereal day	58.65 d
Rotational inclination	0.01°
Mass (Earth = 1)	0.0553
Mean radius	1,516 mi
Mean density (Earth = 1)	0.984
Natural satellites	0
Average surface temperature	333°F

Mercury, named for the Roman gods’ messenger, is the closest planet to the Sun and the smallest in the solar system. Mercury is too much in line with the Sun to be observed against a dark sky; therefore it is always seen during morning or evening twilight. In 2008, the MESSENGER spacecraft made the first flybys of Mercury since the 1970s. Messenger is scheduled to go into orbit about Mercury in 2011 for a year-long reconnaissance mission.

Orbit and rotation. Mercury moves with great speed around the Sun, averaging about 30 mi per second to complete its

orbit, which takes about 88 Earth days. Mercury takes nearly 59 days to rotate on its axis. Because its orbital period is only about 50% longer than its sidereal rotation, the time from one sunrise to the next on Mercury is about 176 days—twice as long as a Mercurial year. Oddly, Mercury has a magnetic field, albeit very weak. It has been held that both a fluid core and rapid rotation—neither of which Mercury is believed to have—are necessary for the generation of a planetary magnetic field. Mercury may demonstrate the contrary.

Atmosphere. Mercury’s atmosphere is almost non-existent. What very little it has is composed of 42% oxygen, 29% sodium, 22% hydrogen, 6% helium, 0.5% potassium, and 0.5% other particles. Because of Mercury’s lack of atmosphere to regulate temperatures between day and night, the surface during the day may reach a temperature of about 845°F, while the temperature at night may fall as low as −300°F. Earth-based observation has provided evidence of water ice near the poles.

Surface and composition. Mercury’s surface is rocky and cratered similar to that of the Earth’s moon. The most imposing feature on Mercury, the Caloris Basin, is a huge impact crater more than 800 mi in diameter. Mercury has a huge iron core that takes up about 75% of the planet’s radius; it has higher percentage of iron than any other planet.

Venus

Distance from the Sun	
Perihelion	66.8 mil mi
Semi-major axis (mean distance)	.67.2 mil mi (0.723 AU)
Aphelion	67.7 mil mi
Period of revolution around Sun	224.7 d
Orbital eccentricity	0.0067
Orbital inclination	3.39°
Synodic day (midday to midday)	116.75 d (retrograde)
Sidereal day	243.02 d (retrograde)
Rotational inclination	177.4°
Mass (Earth = 1)	0.815
Mean radius	3,760 mi
Mean density (Earth = 1)	0.951
Natural satellites	0
Average surface temperature	867°F

Venus, named for the Roman goddess of love, is the second planet out from the Sun. Almost the same size as Earth, it is believed that the two planets were formed at the same time by the same general process and from the same mixture of chemical elements. Venus can easily be seen from Earth with the naked eye; it is the 3rd-brightest object in the sky, exceeded only by the Sun and the Moon.

Orbit and rotation. It takes Venus 225 Earth days to complete its orbit around the sun. Its synodic revolution—its return to the same relationship with Earth and the Sun, which is a result of the combination of its own motion with that of Earth—is 584 days. Because of this, every 19 months Venus is closer to Earth than any other planet. The rotation period of Venus appears to be 243 days clockwise—in other words, contrary to the spin of the other planets and contrary to its own motion around the Sun. This rate and sense of rotation makes for a solar day (sunrise to sunrise) on Venus of 116.8 Earth days; night lasts 58 days and day lasts 58 days. Venus has no detectible magnetic field.

Atmosphere. The Venusian atmosphere is very thick and toxic. It is composed primarily of 96.5% carbon dioxide, 3.5% nitrogen, and trace concentrations of sulfur dioxide, argon, water, carbon monoxide, helium, and neon. In addition, it exerts an atmospheric pressure at the surface more than 90 times Earth’s normal sea-level pressure. The planet is covered with a dense, white, cloudy atmosphere that conceals whatever is below it. These clouds are believed to contain sulfuric acid, meaning that when it rains on Venus, it may rain sulfuric acid. Due to the thickness of the atmosphere and resulting extreme greenhouse effect, the temperature is essentially the same day and night; the planet has an average surface temperature of about 867°F making it the hottest planet in the solar system. Winds of about 200 mph in the clouds may account for the transfer of heat into the night side despite the low rotation speed of the planet. However, at the surface, the winds are very slow.

Surface and composition. Radar-produced maps of the planet show large craters, continent-sized highlands, and extensive dry lowlands. No tectonic activity has been found similar to Earth’s moving tectonic plates, but a system of global rift zones and numerous broad, low, dome-like structures, called coronae, may have been produced by the upwelling and subsidence of magma from the mantle. Volcanic surface features, such as vast lava plains, fields of small lava domes, and large shield volcanoes, are common. About 1,600 volcanoes and volcanic features appear on the Venusian surface; more than 85% of the surface is covered by volcanic flows. Theia Mons, a huge shield volcano, has a diameter of over 600 mi and a height of over 3.5 mi. (The largest Hawaiian volcano is only about 125 mi in diameter, but rises nearly 5.5 mi from the ocean floor.) Aside from volcanoes, there are highly deformed mountain belts across Venus along with a few meteor-impact craters more than 20 mi wide. Erosion is a very slow process on Venus due to the lack of water. There are indications of some wind movement of dust and sand. The few impact craters on Venus suggest that the surface is generally geologically young—less than 800 mil years old. Despite the fact that probes have landed on Venus, there are very few pictures because the probes themselves couldn’t survive the high temperature and atmospheric pressure.

Mars

Distance from the Sun	
Perihelion	128.4 mil mi
Semi-major axis (mean distance)	.141.6 mil mi (1.524 AU)
Aphelion	154.9 mil mi
Period of revolution around Sun	686.98 d (1.88 y)
Orbital eccentricity	0.0935
Orbital inclination	1.85°
Synodic day (midday to midday)	24h 39m 35s
Sidereal day	24h 37m 22s
Rotational inclination	25.19°
Mass (Earth = 1)	0.107
Mean radius	2,106 mi
Mean density (Earth = 1)	0.713
Natural satellites	2
Average surface temperature	−81°F

Named for the Roman god of war, the “Red Planet” has some features much like Earth. Mars has climate, seasons, volcanoes, and possibly once had liquid water flowing across its surface. Mars can easily be seen with the naked eye on most clear nights, which is why it was one of the first planets to be studied by ancient astronomers. Later, when telescopes came into use, many observers claimed that canals made by Martians existed on the planet’s surface, which led to speculation as to whether there was intelligent life there. Unmanned probes have since put all those theories to rest; the canals turned out to be topographic patterns and dust storms.

Orbit and rotation. Although Mars’s orbital path is nearly circular, it is somewhat more eccentric than that of most other planets; Mars is more than 26 mil mi farther from the Sun at its most distant point compared to its closest approach. Its orbit and speed in relation to Earth’s bring it fairly close to Earth about every 2 years. Every 15-17 years the close approaches are especially favorable for observation.

Mars rotates in 24 hours and 37 minutes, almost the same period of time as Earth. Mars’s mean distance from the Sun is 142 mil mi. Because Mars’s axis of rotation is inclined by about 25° from the vertical to the plane of its solar orbit about the Sun, the planet has seasons.

Unlike Earth’s global magnetic field, the Martian magnetic field is small, weak, and localized and may be the remnant of a stronger field from the planet’s past.

Atmosphere. The Martian atmosphere is composed primarily of 95.32% carbon dioxide, 2.7% nitrogen, 1.6% argon, 0.13% oxygen, 0.08% carbon monoxide, and in very minor quantities, water, hydrogen oxide, and neon. The atmosphere on Mars is very thin; it has an atmospheric pressure between 1% and 2% of Earth’s (if Earth’s atmosphere were that thin, we would not have enough oxygen to breathe). Because the Martian atmosphere is so thin and because of the planet’s weak magnetic field, its surface is bombarded by cosmic radiation about 100 times as intense as on Earth.

Martian weather systems consist mainly of huge dust storms. On the poles, white caps (believed to be both water ice and carbon dioxide ice) grow in winter and shrink in summer. It is mainly the carbon dioxide that comes and goes with the seasons. The water ice is apparently in many layers with dust between them, indicating climatic cycles.

Surface and composition. Mars is an alien world with rust-red sand and pink skies. In the planet’s beginning stages when it was much hotter, Mars’s surface melted to a sufficient extent to separate into dense and lighter layers. At some point later, Mars cooled enough to allow liquid water to possibly flow across its surface. Today, Mars is very dry.

Natural satellites. Mars has 2 satellites called Phobos and Deimos, each discovered in 1877 by Asaph Hall. (Phobos measures about 11 by 17 mi and Deimos about 7 by 9 mi.) Deimos, the outer satellite, revolves around the planet in about 31 hours. Phobos, the inner satellite, whips around Mars in a little more than 7 hours, making 3 trips each Martian day. Since it orbits Mars faster than the planet rotates, Phobos rises in the west and sets in the east, opposite to what other bodies appear to do in the Martian sky. Both moons are irregularly shaped and pitted with numerous craters. Their origins are not known; however, some astronomers consider them to be asteroid-like objects that were captured by Mars very early in its history.

Jupiter

Distance from the Sun	
Perihelion	460.1 mil mi
Semi-major axis (mean distance)	483.8 mil mi (5.204 AU)
Aphelion	507.4 mil mi
Period of revolution around Sun	11.862 y
Orbital eccentricity	0.0489
Orbital inclination	1.304°
Synodic day (midday to midday)	9h 55m 33s
Sidereal day	9h 55m 30s
Rotational inclination	3.13°
Mass (Earth = 1)	317.8
Mean radius	43,441 mi
Mean density (Earth = 1)	0.24
Natural satellites	63
Average temperature*	−162°F
*i.e., temperature where atmosphere pressure equals 1 Earth atmosphere.	

Jupiter, named for the Roman ruler of the gods, is the largest planet in the solar system (11 times the diameter of Earth). Its mass is more than twice the mass of all the other planets, moons, and asteroids put together. Visible to the naked eye and known to the ancients, it was a focus of the Italian scientist Galileo Galilei who viewed the planet and its 4 largest moons through a homemade telescope.

Orbit and rotation. Jupiter is at an average distance of 484 mil mi from the Sun and takes almost 12 Earth years to make a complete revolution. The largest of the planets, Jupiter has an equatorial diameter of 88,846 mi; however, its polar diameter is more than 5,700 mi shorter. This noticeable oblateness is a result of the liquidity of the planet and its extremely rapid rotation rate—a Jupiter day is less than 10 Earth hours long. For a planet this size, this rotational speed is amazing. A point on Jupiter’s equator moves at a speed of 22,000 mph, as compared with 1,000 mph for a point on Earth’s equator. Jupiter’s magnetic field is by far the strongest of any planet. Electrical activity caused by this field is so strong that it discharges billions of watts into Earth’s magnetic field daily.

Atmosphere. Jupiter’s atmosphere is primarily composed of 90% molecular hydrogen and 10% helium. Minor constituents include methane, ammonia, hydrogen deuteride, ethane, and water. Jupiter has a turbulent atmosphere characterized by thick clouds, high winds, and huge lightning storms many times larger than those on Earth. The atmospheric temperature varies but the temperature at the tops of clouds may be about −280°F. The Great Red Spot seen prominently on Jupiter is a huge hurricane-like storm that is three times the diameter of Earth. In 2006, the Hubble Space Telescope detected the appearance of a second, smaller red spot.

Surface and composition. Gas giant planets like Jupiter, Saturn, and Neptune do not have a surface like Earth or any of the other rocky planets. The gases become denser with depth, until they may turn into a slush or slurry. Jupiter has a liquid hydrogen ocean more than 35,000 mi deep. It likely has a rocky core about the size of Earth, but 13 times more massive. There is no sharp interface between the gaseous atmosphere and the hydrogen ocean that accounts for most of Jupiter’s volume. At lower depths, under enormous pressure, the liquid hydrogen takes on the properties of a metal. It is likely that this liquid metallic hydrogen is the source for both Jupiter’s persistent radio noise and for its improbably strong magnetic field.

Natural satellites. Jupiter has 63 known satellites, 23 of which were found as recently as 2003. Four of the moons (in order of distance from Jupiter), Io, Europa, Ganymede, and Callisto—all discovered by Galileo in 1610—are large and bright and are close in diameter to Earth’s moon and Mercury. Because they move so rapidly around Jupiter, their change in position from night to night can be seen from Earth using binoculars.

Io is one of the most intriguing moons because it is the most volcanically active body in the solar system. A gaseous, doughnut-shaped ring, or torus, enveloping Io’s orbit around Jupiter may have been formed by material ejected from Io’s active volcanoes. (This is not to be confused with

Jupiter’s rings.) These volcanoes, hotter than Earth’s volcanoes, erupt mainly molten sulfur.

Europa may have a 30-mi-deep salty, liquid ocean beneath its icy crust, perhaps a small metallic core, and a very tenuous atmosphere. Ganymede is the biggest moon in the solar system. With a diameter of 3,120 mi, it is bigger than both Mercury and Pluto. Ganymede also has its own magnetic field produced by a molten core perhaps of iron sulfide. Callisto has the oldest, most heavily cratered surface in the solar system, a very thin atmosphere of carbon dioxide, and possibly a subsurface liquid ocean.

The other satellites are much smaller, with 4 closer to Jupiter than Io, 5 between Ganymede and Callisto, and the rest farther out. Most of Jupiter’s moons revolve around Jupiter clockwise as seen from the north, contrary to the motions of most satellites in the solar system and to the direction of revolution of planets around the Sun. These moons may be captured asteroids.

Jupiter has a set of rings that cannot be seen from Earth without powerful telescopes. They are composed of small dust grains possibly blasted off the 4 innermost moons by meteoroid impacts.

Saturn

Distance from the Sun	
Perihelion	840.44 mil mi
Semi-major axis (mean distance)	890.8 mil mi (9.582 AU)
Aphelion	941.07 mil mi
Period of revolution around Sun	29.458 y
Orbital eccentricity	0.0565
Orbital inclination	2.485°
Synodic day (midday to midday)	10h 39m 23s
Sidereal day	10h 39m 22s
Rotational inclination	26.73°
Mass (Earth = 1)	95.159
Mean radius	36,184 mi
Mean density (Earth = 1)	0.125
Natural satellites	62
Average temperature*	−218°F
*i.e., temperature where atmosphere pressure equals 1 Earth atmosphere.	

Saturn, named for the Roman ruler of the Titans, is the 6th planet from the sun and most distant of the planets visible to the unaided eye. Saturn is 2nd in size to Jupiter, but its mass is much smaller. Saturn is the only planet less dense than water, meaning that Saturn would float if there were a pool of water gigantic enough to hold it.

Orbit and rotation. Saturn’s diameter is almost 74,900 mi at the equator, while its polar diameter is more than 7,300 mi shorter. Like Jupiter, its noticeable oblateness is a result of the liquidity of the planet and its extremely rapid rate of rotation; a day is little more than 10 Earth hours long.

Atmosphere. Saturn’s atmosphere is composed primarily of 96.3% hydrogen, 3.3% helium, and traces of methane, ammonia, hydrogen deuteride, ethane, and water. Saturn’s atmosphere is much like that of Jupiter, except that the temperature at the top of its cloud layer is at least 50°F colder.

Surface and composition. Saturn’s atmosphere resembles Jupiter’s; it likely has a small dense center surrounded by a deep ocean of hydrogen.

Natural satellites. Saturn has 62 known natural satellites, most of which were not discovered until space probes reached the planet. Saturn’s moon Mimas has an impact crater 81 mi across (the moon itself is only 249 mi across). Enceladus has an atmosphere and shows evidence of geysers that spit water ice and vapor. Two tiny moons orbit within the rings, plowing through and making gaps in the rings along their orbits. Pan, the innermost satellite, creates the Encke Gap of Saturn’s A-ring. 2005 S1 creates the Keeler Gap. The most intriguing Saturnian moon is Titan. The second biggest moon in the solar system, Titan is bigger than Mercury. Its atmosphere is similar to Earth’s atmosphere of long ago; it is made up of approximately 95% nitrogen with traces of methane. Titan’s atmosphere extends about 360 mi into space whereas Earth’s atmosphere extends about 37 mi. Photographs from the surface show a muddy terrain, with possible deposits of water ice, channels carved by liquid methane springs, and an interesting boundary between light

and dark material on the surface. In addition, in 2006, scientists found sand dunes on Titan’s surface. The “sand” is believed to be tiny water ice crystals or organic compounds. Surface phenomenon such as sand dunes are signs of erosion and wind. However, unlike on Earth or Mars, Titan’s winds are not the result of uneven solar heating on the moon’s surface, but rather the strong gravitational pull from Saturn that creates atmospheric “tides” almost in the same way Earth’s moon does to the oceans.

Rings. Saturn’s ring system is the planet’s most recognizable feature. It begins about 4,000 mi above the visible disk of Saturn lying above its equator and extends about 260,000 mi into space. The diameter of the ring system visible from Earth is about 170,000 mi; the rings are estimated to be about 700 ft thick. The rings are composed of rock and ice and range in size from tiny particles to large chunks of material the size of a bus. There are several divisions in the rings. The 2,920 mi Cassini division, the gap between the A and B rings, is the largest division.

Uranus

Distance from the Sun	
Perihelion	1,703.4 mil mi
Semi-major axis (mean distance)	1,784.8 mil mi (19.201 AU)
Aphelion	1,866.4 mil mi
Period of revolution around Sun	84.01 y
Orbital eccentricity	0.0457
Orbital inclination	0.772°
Synodic day (midday to midday)	17h 14m 23s (retrograde)
Sidereal day	17h 14m 24s (retrograde)
Rotational inclination	97.77°
Mass (Earth = 1)	14.536
Mean radius	15,759 mi
Mean density (Earth = 1)	0.23
Natural satellites	27
Average temperature*	−323°F
*i.e., temperature where atmosphere pressure equals 1 Earth atmosphere.	

Uranus, discovered by Sir William Herschel in 1781, was the first planet discovered using a telescope. It was named for the father of the Titans in Roman mythology.

Rotation and orbit. Uranus has a diameter of over 31,000 mi and spins once in approximately 17.23 hours, according to flyby magnetic data. One of the most fascinating features of Uranus is how far over it is tipped. Its north pole lies 98° from being directly up and down to its orbit plane. Thus, its seasons are extreme. Over its 84 year orbit, when the Sun rises at the north pole, it shines there for about 42 Earth years; then it sets, and the north pole is in darkness for 42 Earth years. In addition to its rotational tilt, Uranus’s magnetic field axis is tipped an incredible 58.6° from its rotational axis and is displaced about 30% of its radius away from the planet’s center.

Atmosphere. The atmosphere is composed primarily of 82.5% hydrogen, 15.2% helium, 2.3% methane, with small amounts of hydrogen deuteride, ammonia ice, water ice, ammonia hydrosulfide, and methane ice.

Surface and composition. Uranus has no solid surface, and likely no rocky core but rather a mixture of rocks and assorted ices with about 15% hydrogen and some helium.

Natural satellites. Uranus has 27 known moons, which have orbits lying in the plane of the planet’s equator. Five moons are relatively large, while 22 are very small and were only discovered with the *Voyager 2* mission or in later observations. Miranda has grooved markings, reminiscent of Jupiter’s Ganymede, but often arranged in a chevron pattern. Rifts and channels on Ariel provide evidence of liquid flowing over its surface in the past. Umbriel is extremely dark, prompting some observers to regard its surface as among the oldest in the system. Titania has rifts and fractures, but not the evidence of flow found on Ariel. Oberon’s main feature is its surface saturated with craters, unrelieved by other formations.

In the equatorial plane there is also a complex of 11 rings, 9 of which were discovered in 1978 by observers watching Uranus pass before a star.

Neptune

Distance from the Sun	
Perihelion	2,761.7 mil mi
Semi-major axis (mean distance)	2,793.1 (30.047 AU)
Aphelion	2,824.5 mil mi
Period of revolution around Sun	164.79 y
Orbital eccentricity	0.0113
Orbital inclination	1.769°
Synodic day (midday to midday)	16h 6m 37s
Sidereal day	16h 6m 36s
Rotational inclination	28.32°
Mass (Earth = 1)	17.147
Mean radius	15,301 mi
Mean density (Earth = 1)	0.297
Natural satellites	13
Average temperature*	−330°F
*i.e., temperature where atmosphere pressure equals 1 Earth atmosphere.	

Named for the Roman god of the sea, Neptune was the first planet discovered through mathematical calculations and not observation. Its approximate orbit and position was first calculated independently by John Couch Adams and Urbain Le Verrier in 1845. In 1846, Johann Galle first observed Neptune through a telescope.

Orbit and rotation. Neptune orbits the Sun in 164.8 years in a nearly circular orbit. Its magnetic field is considerably asymmetric to the planet’s structure, similar to, but not so extreme as, that found at Uranus. Neptune’s magnetic field axis is tipped 46.9° from its rotational axis and is displaced more than 55% of its radius away from the planet’s center.

Atmosphere. The Neptunian atmosphere is composed primarily of 80% hydrogen, 19% helium, 1.5% methane, and small amounts of hydrogen deuteride, ethane, ammonia ice, water ice, ammonia hydrosulfide, and methane ice. Neptune’s atmosphere is quite blue, with quickly changing white clouds often suspended high above an apparent surface. A Great Dark Spot was discovered in 1989 when *Voyager 2* visited the planet, reminiscent of the Great Red Spot of Jupiter. Observations with the Hubble Space Telescope have shown that the Great Dark Spot originally seen by Voyager has apparently dissipated, but a new dark spot has since appeared. Lightning and auroras have been found on other giant planets, but only the aurora phenomenon has been seen on Neptune. As with the other giant planets, Neptune is emitting more energy than it receives from the Sun. The excess has been found to be 2.7 times the solar contribution.

Surface and composition. As with other giant planets, Neptune may have no solid surface, or exact diameter. However, a mean value of 30,600 mi may be assigned to a diameter between atmosphere levels where the pressure is about the same as sea level on Earth.

Natural satellites. Largest of Neptune’s 13 satellites is Triton. It is the only large moon in a retrograde orbit, which suggests that it was captured rather than having been there from the beginning. Triton’s large size, sufficient to raise significant tides on the planet, may one day, billions of years from now, cause Triton to come close enough to Neptune for it to be torn apart. Triton has a tenuous atmosphere of nitrogen with a trace of hydrocarbons and evidence of active geysers injecting material into it. Triton is the coldest object yet measured in the solar system with a surface temperature of −391°F. Only about half of Triton has been observed, but its terrain shows cratering and a strange regional feature described as resembling the skin of a cantaloupe. Nereid has the highest orbital eccentricity (0.75) of any moon. Its long looping orbit suggests that it was also captured. In 2003, 2 more moons, which orbit farther from their parent planet than any other moons, were discovered. The *Voyager 2* probe in 1989 confirmed the existence of 6 rings around Neptune composed of very fine particles. There may be some clumpiness in the rings’ structure. It is not known whether Neptune’s satellites influence the formation or maintenance of the rings.

Dwarf Planets

Note: See page 346 for the definition of a dwarf planet.

Ceres

Distance from the Sun	
Perihelion	237 mil mi (2.55 AU)
Semi-major axis (mean distance)	257 mil mi (2.77 AU)
Period of revolution around Sun	4.6 y
Orbital eccentricity	0.0789
Orbital inclination	10.58°
Sidereal day	9.075 hours
Mass (Earth = 1)	0.00016
Mean radius	300 mi

Ceres was the first asteroid ever discovered, on Jan. 1, 1801, by Guiseppe Piazzi. In the 1800s, it was considered a planet, but as more asteroids were discovered, it lost that designation. In Aug. of 2006, it was designated a dwarf planet by the International Astronomical Union.

No probe has ever visited Ceres. NASA’s DAWN space probe, launched in Sept. 2007, may become the first. The Dawn probe’s mission is to Vesta and Ceres, the solar system’s two largest asteroids. When Dawn arrives at Ceres in Feb. 2015, months before the New Horizons probe arrives at Pluto, it will be the first mission to study a dwarf planet.

Orbit and rotation. Ceres orbits the sun in the asteroid belt region between Mars and Jupiter.

Surface and composition. Ceres is in a class of stony meteorites known as carbonaceous chondrites. These are considered to be the oldest materials in the solar system, with a composition reflecting that of the primitive solar nebula. Extremely dark in color, probably because of their hydrocarbon content, they show evidence of having absorbed water of hydration. Thus, unlike the Earth and the Moon, they have never either melted or been reheated since they first formed.

Pluto

Distance from the Sun	
Perihelion	2,756.9 mil mi
Semi-major axis (mean distance)	3,647.2 mil mi (39.482 AU)
Aphelion	4,583.2 mil mi
Period of revolution around Sun	247.68 y
Orbital eccentricity	0.2488
Orbital inclination	17.16°
Synodic day (midday to midday)	6d 9h 17m (retrograde)
Sidereal day	6d 9h 18m (retrograde)
Rotational inclination	122.53°
Mass (Earth = 1)	0.0021
Mean radius	742.5 mi
Mean density (Earth = 1)	0.317
Natural satellites	3
Average surface temperature	-369°F

Pluto, named for the Roman god of the underworld, is the second largest known Kuiper Belt object (KBO) in the solar system. It was first discovered in 1930 by Clyde Tombaugh, and was classified as a planet until 2006 when the International Astronomical Union changed its designation to dwarf planet. The New Horizons spacecraft was launched on a voyage to Pluto and beyond in 2006; the spacecraft will make its closest approach to Pluto in July of 2015. In 2008, Pluto was designated by the IAU as the prototype for a class of objects called **plutoids**, bodies (a) whose average distance from the Sun is greater than Neptune’s; (b) are large enough that gravity has determines their shape; and (c) have not cleared their orbit of other objects. Haumea, Makemake and Eris are also Plutoids, and at least 10 other Plutoid candidates have been identified through mid-2010.

Orbit and rotation. Highly irregular. Although Pluto on the average stays about 3.6 bil mi from the Sun, it may get as close as 2.76 bil mi, and for about 20 years of its orbit, it is closer to the Sun than Neptune. Currently, it is beyond Neptune’s orbit.

Atmosphere and surface. Because no probes have visited Pluto, it is difficult for astronomers to accurately take readings of the dwarf planet’s atmospheric composition. It is believed that an atmosphere of methane, nitrogen, and carbon monoxide exists when the dwarf planet is closer to the Sun. When Pluto is farther away from the sun during its orbit, the atmosphere freezes and becomes part of the surface. Large regions on Pluto are dark, others light; Pluto has spots and perhaps polar caps. There is also evidence of temperature fluctuations on the dwarf planet that may indicate primitive weather. Its core may be rocky with a mantle of water ice surrounding it.

Natural satellites. Pluto has 3 natural satellites. Charon, the biggest, has a diameter of 737 mi—about half of Pluto’s diameter of 1,485 mi. No other planet of any kind has a moon so close to its size. Discovered in 1978, Charon orbits Pluto at a distance of 12,200 mi and takes 6.39 days to move around the dwarf planet. In this same length of time, Pluto and Charon both rotate once around their axes, meaning that a person standing on Pluto would always see the same face of Charon in the same part of the sky, every day and night. The Pluto-Charon system thus appears to rotate as virtually a rigid body. Both worlds are roughly spherical and have comparable densities. Because of these similarities and their peculiar relationship, there is a debate as to whether Charon should one day be designated a dwarf planet.

The 2 other moons, discovered in 2005 and 2006, were officially named Nix and Hydra.

Haumea

Distance from the Sun	
Semi-major axis (mean distance)	43.335 AU
Period of revolution around Sun	285 y
Mean radius	420 mi
Orbital eccentricity	0.189
Orbital inclination	28.19°
Mass (Earth = 1)	0.0007
Natural satellites	2

Haumea was discovered in 2004 and was accepted as a dwarf planet by the IAU in 2008.

Orbit and rotation. Haumea has a moderately eccentric orbit and takes about 285 years to go around the Sun.

Surface and composition. Spectra of Haumea indicate the presence of almost pure crystalline water ice. The surface reflects about 60% of sunlight shining on it. Haumea has a very oblong shape, twice as long as it is wide.

Natural satellites. Haumea has two natural satellites.

Makemake

Distance from the Sun	
Semi-major axis (mean distance)	45.791 AU
Period of revolution around Sun	310 y
Mean radius	450 mi
Orbital eccentricity	0.159
Orbital inclination	28.96°
Mass (Earth = 1)	0.0007

Makemake was discovered in 2005 and was accepted as a dwarf planet by the IAU in 2008.

Orbit and rotation. Makemake has a moderately eccentric orbit and takes about 310 years to go around the Sun.

Surface and composition. Spectra of Makemake indicate the presence of frozen methane, as well as several organic compounds. The surface is highly reflective and appears similar to that of Pluto.

Eris

Distance from the Sun	
Semi-major axis (mean distance)	67.6681 AU
Period of revolution around Sun	560 y
Mean radius	925 mi
Orbital eccentricity	0.44177
Orbital inclination	44.177°
Natural satellites	1
Mass (Earth = 1)	0.0027

Eris is the largest dwarf planet. Discovered in 2003 by astronomers at the California Institute of Technology, it is the most distant object ever seen in orbit around the Sun.

Orbit and rotation. Eris has a highly elliptical orbit and takes about 560 years to go around the Sun—more than twice the time it takes Pluto. Its inclination is steep, tilted at 44° to the planetary plane. It also has an extremely eccentric orbit. It will be at its closest, actually coming inside part of Pluto’s orbit, in about 280 years.

Surface and composition. Eris, with a surface covered in frozen methane, may be similar to Pluto and the Neptunian moon Triton. Observations made by the Hubble Space Telescope show that Eris’s surface is almost white and uniform, reflecting 86% of the light that hits it. This makes it the most reflective body in the solar system. The dwarf planet’s interior is likely a mixture of rock and ice.

Natural satellites. Eris has one moon, Dysnomia.

Small Solar System Bodies: Asteroids, Comets, Kuiper Belt, and the Oort Cloud

Asteroids

Besides planets and moons, there are many smaller objects that orbit the sun. In 2006, the IAU officially designated these objects “small solar system bodies.” **Asteroids** or minor planets are found mainly in a belt between the orbits of Mars and Jupiter, but some may be found outside this region. Within this belt there may be millions of asteroids of varying sizes. Most of asteroids are very small. Ceres, which can be classified both as an asteroid and a dwarf planet, is 588 mi in diameter is about one-quarter the diameter of our moon.

Some of these objects, or asteroids, are gravitationally locked with Jupiter and the Sun so that they have roughly the same orbit as Jupiter but are either 60° ahead or behind the planet. These are the **Trojan asteroids**. Many of the smaller moons of the solar system, especially those in retrograde orbits, may be captured asteroids. Asteroids whose orbits either cross or come close to the Earth’s orbit are labeled **Near Earth asteroids** or NEAs. A handful of asteroids have actually been imaged by the Arecibo and Goldstone radio telescopes, and by the NEAR Shoemaker space probe, while the *Galileo* spacecraft imaged the asteroids Gaspra and Ida (including its moon Dactyl) on its way to Jupiter.

Comets

Comets are small icy bodies that orbit the Sun. When they approach the Sun, the energy from the Sun boils off material from the comet’s icy nucleus, producing an enlarged head (or **coma**), and in many cases an extended tail. Because of the proximity to the Sun and the expanded head and tail, comets are brighter when near the Sun. For large comets, the head may be a 100,000 mi across and the tail more than a million mi long, though both are mainly empty space.

Comets have been known since ancient times; ultimately, British astronomer Edmund Halley (1656-1742) realized that a group of historical reports were just repeated visits of the

same object. Comets are the only astronomical objects named after their discoverers. In 1986, the European spacecraft *Giotto* took the first close-up images of a comet’s nucleus, specifically of Comet Halley, showing it had a peanut-shaped nucleus whose longest dimension was about 10 mi.

In 1995, Alan Hale and Thomas Bopp independently discovered a comet that was then beyond the orbit of Jupiter. It was the farthest comet ever discovered by amateurs and one of the brightest of all time. It also holds the record for length of naked-eye visibility—19 months—and is the most photographed comet in history. In July 2009, an amateur astronomer discovered a large impact scar in the upper atmosphere of Jupiter, likely the results of another cometary impact.

Kuiper Belt

The **Kuiper Belt** is a donut-shaped region that extends to about 50 AU from the Sun and is thought to be the source of short-period comets such as Comet Halley or Comet Swift-Tuttle. It is filled with icy bodies that are in solar orbit. The more than 1,000 objects found in this region in recent years are called Kuiper Belt objects (KBOs). It is estimated that there are more than 70,000 objects 60 mi in diameter or larger within the Kuiper Belt. Dwarf planets Pluto and Eris are considered KBOs. There are at least 6 KBOs larger than 300 mi in diameter.

Oort Cloud

The Oort Cloud is a vast spherical shell hypothesized to exist around the Sun. Astronomer Jan Oort proposed its existence as the origin for long-period comets that enter the inner part of the solar system where the planets orbit. As of yet, our technology is not sufficient to detect any members of the Oort Cloud, other than those comets that have been observed that indicate the most distant parts of their orbits may reach out to 50,000 AU. Recent examples of such long-period comets are Comet Hale-Bopp and Comet Hyakutake.

The Sun

Distance from Earth, mean	92.96 mil mi (1 AU)
Sidereal day	25.38 d
Mass (Earth=1)	332,900
Mean Radius	432,200 mi
Mean Density (Earth=1)	0.255
Average surface temperature	9,941°F

The Sun is the Earth’s primary source of light and heat, and its closest star. The biggest object in the solar system, the Sun is 332,900 times more massive than Earth and contains 99.86% of the mass of the entire solar system. On the whole, the Sun is made up of about 92.1% hydrogen and 7.8% helium, with trace amounts of other elements. It has a mass and luminosity greater than that of 90% of the stars in the Milky Way galaxy. Although most of the stars that can be easily seen on a clear night are bigger and brighter than the Sun, its proximity to Earth makes it appear tremendously large and bright. The Sun is 400,000 times as bright as the full moon and it gives Earth 6 mil times as much light as do all other stars put together. Because of the great distance between the Sun and Earth, it takes about 499 seconds, or slightly more than 8 minutes, for light from the Sun to reach Earth.

Composition. The Sun has six regions. The first three from the inside out are the core, the radiative zone, and the convective zone. Together they form the interior. The others, which comprise the visible surface, are the photosphere, the chromosphere, and the outermost region, the corona.

The Sun’s core is where its heat and energy are produced. Through a series of nuclear fusion reactions, hydrogen nuclei are converted to helium nuclei. Temperatures in the core are theorized to be 28 mil°F. From the core, photons transport the energy outward through the radiative zone. It can take photons several millions of years to pass through this area. In the convective zone, gases move energy outward at a faster rate. Like a boiling pot, bubbles of gas bring energy to the surface.

The photosphere is the visible surface of the sun, that is, the light from here is what we see as sunlight. When sunlight is analyzed with a spectroscope, it is found to consist of a

continuous spectrum composed of all the colors of the rainbow in order, crossed by many dark lines. The dark “absorption lines” are produced by gaseous materials in the outer layers of the Sun. More than 60 of the natural terrestrial elements have been identified in the Sun, all in gaseous form because of the Sun’s intense heat.

Just above the photosphere is the chromosphere, which is visible to the naked eye only at total solar eclipses, appearing then to be a pinkish-violet layer with occasional great prominences projecting above its general level. With proper instruments, the chromosphere can be seen or photographed whenever the Sun is visible. Above the chromosphere is the corona, also visible to the naked eye only at times of total eclipse or with instruments that permit the brighter portions of the corona to be seen. The light of the corona surges millions of miles from the Sun, where atoms of which it is composed are all in a state of extreme attenuation and high ionization that indicates temperatures nearly 2 mil°F.

Sunspots. These dark, irregularly shaped regions may reach diameters of thousands of miles. There is an intimate connection between sunspots and the corona. At times of low sunspot activity, the fine streamers of the corona are longer above the Sun’s equator than over the polar regions of the Sun; during periods of high sunspot activity, the corona extends fairly evenly outward from all regions of the Sun, but to a much greater distance in space. The average life of a sunspot group is 2 months, but some have lasted for more than a year.

Sunspots reach a low point, on average, every 11.3 years, with a peak of activity occurring irregularly between 2 successive periods of minimal activity. Currently, the number of sunspots is declining. Solar minimum occurred late in 2006.

Solar wind and magnetic field. Magnetic arches, called prominences, may extend tens of thousands of miles into the corona, and may release enormous amounts of energy heating the corona. Coronal mass ejections are enormous releases of solar energy. Coronal holes are regions where the corona appears dark in X-rays, and are associated with open magnetic field lines, where the magnetic field lines project

out into space instead of back towards the Sun. It is in these regions where the high-speed solar wind originates.

The solar wind carries the Sun's magnetic field, which extends beyond the planets. This is called the interplanetary

magnetic field (IMF). Far past Pluto and the Kuiper Belt, the solar wind and the IMF lose their influence, and the boundary between them and interstellar space is called the heliopause.

Searching for Extrasolar Planets

During the last 10 years of the 20th century, astronomers began to detect the presence of planets orbiting stars other than the Sun. Except for a few possible instances, they have not seen those objects, but merely inferred their existence by their effect on their parent star. The Sun is a typical star in many respects. With over 200 bil stars in the Milky Way, it seems plausible that many other stars might have planets.

As of summer 2010, astronomers had found a total of 473 planets orbiting 403 stars. Of those, 282 were at least as massive as Jupiter, which is about 318 times more massive than the Earth. About 191 of the planets may be less massive than Jupiter. Planets with masses less than Jupiter are now regularly discovered; at the time of this writing, the minimum confirmed mass for an extrasolar planet was near 3 times the mass of the Earth.

Using the Doppler Effect to detect radial velocity changes in the motions of individual stars, astronomers are more likely to find high-mass planets in close and eccentric orbits around stars, because that situation produces larger and more noticeable changes.

In addition to the radial velocity method, astronomers are now using an optical gravitational lensing means of detecting extrasolar planets. Using this technique, Southern Hemisphere astronomers found the most distant planet yet detected, about halfway to the center of our own Milky Way galaxy. Astrono-

mers have also found planets by looking for the periodic dimming of starlight as orbiting planets pass in front of their host stars. About 25 planets have been discovered this way.

In 2005, astronomers obtained the first direct photograph of an extrasolar planet. The unnamed planet orbits a star called GQ Lupi, which is a star like our Sun but younger. The planet is about 100 AUs away from its star, and it is estimated to be about twice as massive as Jupiter.

In 2006, astronomers discovered what they call a "super Earth" orbiting a red dwarf star 9,000 light-years away. The planet appears to have about 13 times the mass of Earth and may be composed of rock and ice. Although the planet is similar in structure to the Earth, it is believed to orbit too far from its star for there to be any liquid on the surface. In 2007, astronomers for the first time detected water in the atmosphere of an extra-solar planet.

In Apr. 2009, NASA launched Kepler, the first telescope sensitive enough to detect Earth-sized planets around other stars. Kepler's first data release, in summer 2010, included data indicating that small planets are more common than large planets, with hints of planets with diameters as small as twice the diameter of Earth. All of the planet candidates to date orbit their stars much closer than Earth orbits the Sun. Kepler will need to observe for several more years to find evidence of Earth-sized planets at comparable distances from their stars.

Earth: Size, Computation of Time, Seasons

Distance from the Sun	
Perihelion	91.4 mil mi
Semi-major axis	93 mil mi (1.0000 AU)
Aphelion	94.5 mil mi
Period of revolution	365.256 d
Orbital eccentricity	0.0167
Orbital inclination	0°
Sidereal day (rotation period)	23h 56m 4.2s
Synodic day (midday to midday)	24h 0m 0s
Rotational inclination	23.45°
Mass (Earth = 1)	1
Mean radius	3,958.8 mi
Mean density (Earth = 1)	1
Natural satellites	1
Average surface temperature	59°F

Earth is the 5th-largest planet and the 3rd from the Sun. Its mass is 5.9736 x 10²⁴ kg. Earth's equatorial diameter is 7,926 mi while its polar diameter is only 7,900 mi.

Size and dimensions. Earth is considered a solid mass, yet it has a large, liquid iron, **magnetic core** with a radius of about 2,160 mi. Surprisingly, it has a solid **inner core** that may be a large iron crystal, with a radius of 760 mi. Around the core is a thick shell, or **mantle**, of dense rock. This mantle is composed of materials rich in iron and magnesium. It is somewhat plastic-like, and under slow steady pressure, it can flow like a liquid. The mantle, in turn, is covered by a thin **crust** forming the solid granite and basalt base of the continents and ocean basins. Over broad areas of Earth's surface, the crust has a thin cover of sedimentary rock such as sandstone, shale, and limestone formed by weathering and by deposits of sands, clays, and plant and animal remains.

The temperature inside the Earth increases about 1°F with every 100 to 200 ft in depth, in the upper 100 km of Earth, and reaches nearly 8,000-9,000°F at the center. The heat is believed to come from radioactivity in rocks, pressures within Earth, and the original heat of formation.

Atmosphere of Earth. Earth's atmosphere is a blanket composed of 78% nitrogen, 21% oxygen, and 1% argon. Present in minute quantities are carbon dioxide, hydrogen, neon, helium, krypton, and xenon. Water vapor displaces other gases and varies from nearly zero to about 4% by volume. The atmosphere rests on Earth's surface with a weight equivalent to a layer of water 34 ft deep. For about 300,000 ft upward, the gases remain in the proportions stated. Gravity holds the gases

to Earth. The weight of the air compresses it at the bottom so that the greatest density is at Earth's surface. Pressure and density decrease as height increases.

The lowest layer of the atmosphere extending up about 7.5 mi is the **troposphere**, which contains 90% of the air and the tallest mountains. This is also where most weather phenomena occur. The temperature drops with increasing height throughout this layer. The atmosphere for about 23 mi above the troposphere is the **stratosphere**, where the temperature generally increases with height. The stratosphere contains **ozone**, which prevents ultraviolet rays from reaching Earth's surface. Since there is very little convection in the stratosphere, jets regularly cruise in the lower parts to provide a smoother ride for passengers.

Above the stratosphere is the **mesosphere**, where the temperature again decreases with height for another 19 mi. Extending above the mesosphere to the outer fringes of the atmosphere is the **thermosphere**, a region where temperature once more increases with height to a value measured in thousands of degrees Fahrenheit. The lower portion of this region, extending from 50 to about 400 mi in altitude, is characterized by a high ion density and is thus called the **ionosphere**. Most meteors are in the lower thermosphere or the mesosphere at the time they are observed.

Longitude and latitude. Position on the globe is measured by meridians and parallels. Meridians, which are imaginary lines drawn around Earth through the poles, determine **longitude**. The meridian running through Greenwich, England, is the **prime meridian** of longitude, and all others are either E or W. Parallels, which are imaginary circles parallel with the equator, determine **latitude**. The length of a degree of longitude varies as the cosine of the latitude. At the equator a degree of longitude is 69.171 statute mi; this is gradually reduced toward the poles. Value of a longitude degree at the poles is zero.

Latitude is reckoned by the number of degrees N or S of the **equator**, an imaginary circle on Earth's surface everywhere equidistant between the two poles. According to the International Astronomical Union, the length of a degree of latitude is 68.708 statute mi at the equator and varies slightly N and S because of the oblate form of the globe; at the poles it is 69.403 statute mi.

Definitions of time. Earth rotates on its axis and follows an elliptical orbit around the Sun. The rotation makes the Sun appear to move across the sky from E to W. This rotation determines day and night, and the complete rotation, in relation to

the Sun, is called the **apparent or true solar day**. A sundial thus measures **apparent solar time**. This length of time varies, but an average determines the mean solar day of 24 hours.

The mean solar day and **mean solar time** are in universal use for civil purposes. Mean solar time may be obtained from apparent solar time by correcting observations of the Sun for the **equation of time**. Mean solar time may be up to 16 minutes different from apparent solar time.

Sidereal time is the measure of time defined by the diurnal motion of the vernal equinox and is determined from observation of the meridian transits of stars. One complete rotation of Earth relative to the equinox is called the **sidereal day**. The **mean sidereal day** is 23 hours, 56 minutes, 4.091 seconds of mean solar time.

The interval required for Earth to make one absolute revolution around the Sun is a **sidereal year**; it consisted of 365 days, 6 hours, 9 minutes, and 9.5 seconds of mean solar time (approximately 24 hours per day) in 1900 and has been increasing at the rate of 0.0001 second annually.

The **tropical year**, upon which our calendar is based, is the interval between 2 consecutive returns of the Sun to the vernal equinox. The tropical year consisted of 365 days, 5 hours, 48 minutes, and 46 seconds in 1900. It has been decreasing at the rate of 0.53 second per century. The **calendar year** begins at 12 o'clock midnight precisely, local clock time, on the night of Dec. 31-Jan. 1. The day and the calendar month also begin at midnight by the clock.

On Jan. 1, 1972, the Bureau International des Poids et Mesures in Paris introduced **International Atomic Time** (TAI) as the most precisely determined time scale for astronomical usage. The fundamental unit of TAI in the international system of units is the second, defined as the duration of 9,192,631,770 periods of the radiation corresponding to the transition between 2 hyperfine levels of the ground state of the cesium-133 atom. **Coordinated Universal Time** (UTC), which serves as the basis for civil timekeeping and is the standard time of the prime meridian, is officially defined by a formula which relates UTC to mean sidereal time in Greenwich, England. (UTC has replaced GMT as the basis for standard time for the world.)

Zones and seasons. The 5 zones of Earth's surface are the Torrid, lying between the Tropics of Cancer and Capricorn; the N Temperate, between Cancer and the Arctic Circle; the S Temperate, between Capricorn and the Antarctic Circle; and the 2 Frigid Zones, between the Polar Circles and the Poles.

The inclination, or tilt, of Earth's axis, 23°27' away from a perpendicular to Earth's orbit of the Sun, determines the seasons. These are commonly marked in the N Temperate Zone, where spring begins at the vernal equinox, summer at the summer solstice, autumn at the autumnal equinox, and winter at the winter solstice. In the S Temperate Zone, the seasons are reversed. Spring begins at the autumnal equinox, summer at the winter solstice, etc.

The points at which the Sun crosses the equator are the **equinoxes**, when day and night are most nearly equal. The points at which the Sun is at a maximum distance from the equator are the **solstices**. Days and nights are then most unequal. However, at the equator, day and night are equal throughout the year.

In June, the North Pole is tilted 23°27' toward the Sun, and the days in the Northern Hemisphere are longer than the nights, while the days in the Southern Hemisphere are shorter than the nights. In Dec., the North Pole is tilted 23°27' away from the Sun, and the situation is reversed.

The Seasons in 2011. In 2011, the four seasons begin in the Northern Hemisphere as shown. (Add 1 hour to Eastern Standard Time for Atlantic Time; subtract 1 hour for Central, 2 for Mountain, 3 for Pacific, 4 for Alaska, 5 for Hawaii-Aleutian. Also shown is Coordinated Universal Time.)

Seasons	Date	UTC	EST/EDT
Vernal equinox (spring)	Mar. 20	23:21	19:21 EDT
Northern solstice (summer)	June 21	17:16	13:16 EDT
Autumnal equinox (fall)	Sept. 23	09:05	05:05 EDT
Southern solstice (winter)	Dec. 22	05:30	00:30 EST

Poles of Earth. The geographic (rotation) poles, or points where Earth's axis of rotation cuts the surface, are not absolutely fixed in the body of Earth. The pole of rotation describes an irregular curve about its mean position.

Two periods have been detected in this motion: (1) an annual period due to seasonal changes in barometric pressure, to load of ice and snow on the surface, and to other seasonal phenomena; (2) a period of about 14 months due to the shape and constitution of Earth. In addition, there are small but as yet unpredictable irregularities. The whole motion is so small that the actual pole at any time remains within a circle of 30 or 40 ft in radius centered at the mean position of the pole.

The pole of rotation for the time being is of course the pole having a latitude of 90° and an indeterminate longitude.

Magnetic poles. Although Earth's magnetic field resembles that of an ordinary bar magnet, this magnetic field is probably produced by electric currents in the liquid currents of the Earth's outer core. The **north magnetic pole** of Earth is that region where the magnetic force is vertically downward, and the **south magnetic pole** is that region where the magnetic force is vertically upward. A compass placed at the magnetic poles experiences no directive force in azimuth (i.e., direction).

There are slow changes in the distribution of Earth's magnetic field. This slow temporal change is referred to as the secular change of the main magnetic field, and the magnetic poles shift due to this. The location of the N magnetic pole was first measured in 1831 at Cape Adelaide on the west coast of Boothia Peninsula in Canada's Northwest Territories (about latitude 70°N and longitude 96°W). Since then it has moved over 500 mi. It is now estimated to be at 82.7°N and 114.4°W, northwest of Ellef Ringnes Island in northern Canada. Measurement for several decades by Canadian scientists indicates the motion of the pole has accelerated, now averaging about 25 mi per year.

The direction of the horizontal components of the magnetic field at any point is known as magnetic N at that point, and the angle by which it deviates E or W of true N is known as the magnetic declination.

A compass without error points in the direction of magnetic north. (In general, this is not the direction of the true rotational north pole.) If you follow the direction indicated by the N end of the compass, you will go along an irregular curve that eventually reaches the north magnetic pole (though not usually by a great-circle route). However, the action of the compass should not be thought of as due to any influence of the distant pole, but simply as an indication of the distribution of Earth's magnetism at the place of observation.

Rotation of Earth. The speed of rotation of Earth about its axis is slightly variable. The variations may be classified as:

(A) **Secular.** Tidal friction acts as a brake on the rotation and causes a slow secular increase in the length of the day, about 1 millisecond per century.

(B) **Irregular.** The speed of rotation may increase for a number of years, about 5 to 10, and then start decreasing. The maximum difference from the mean in the length of the day during a century is about 5 milliseconds. The accumulated difference in time has amounted to approximately 44 seconds since 1900. The cause is probably motion in the interior of Earth.

(C) **Periodic.** Seasonal variations exist with periods of 1 year and 6 months. The cumulative effect is such that each year, Earth is late about 30 milliseconds near June 1 and is ahead about 30 milliseconds near Oct. 1. The maximum seasonal variation in the length of the day is about 0.5 millisecond. It is believed that the principal cause of the annual variation is the seasonal change in the wind patterns of the Northern and Southern Hemispheres. The semiannual variation is due chiefly to tidal action of the Sun, which distorts the shape of Earth slightly.

The Moon

Distance from Earth	
Perigee	225,744 mi
Semi-major axis	238,855 mi
Apogee	251,966 mi
Period of revolution	27.322 d
Synodic orbital period (period of phases)	29.53 d
Orbital eccentricity	0.0549
Orbital inclination	5.145°
Sidereal day (rotation period)	27.322 d
Rotational inclination	6.68°
Mass (Earth = 1)	0.0123
Mean radius	1,079 mi
Mean density (Earth = 1)	0.607
Average surface temperature	-100°F

The Moon is the second brightest object in the sky (the sun is the first). Earth's only natural satellite, the Moon is the force behind the rising and falling of tides, and it helps to regulate the Earth's orbit around the sun. Many probes have been sent to the moon and between 1969 and 1972, 12 U.S. astronauts walked on its surface. The Moon is the subject of renewed international interest. In 2007, Japan and China orbited satellites around the Moon, India orbited a spacecraft in fall 2008, and the U.S. sent an orbiter and impactor in 2009. It is expected that several nations, including the U.S. and China, will send humans back to the Moon in the next 15 years. In Sept. 2009, American scientists announced the discovery of a thin layer of water ice near the lunar poles. The LCROSS impactor mission impacted the lunar south polar region in Oct. 2009. The plume of material thrown up in the impact included water plus a variety of other chemical species, indicating that the lunar regolith harbors a rich and active chemistry.

Orbit and rotation. The Moon completes a circuit around Earth in a period that averages 27 days, 7 hours, 43.2 minutes. This is the Moon's sidereal period. Because of the motion of the Moon in common with Earth around the Sun, the mean duration of the lunar month—the period from one New Moon to the next New Moon—is 29 days, 12 hours, 44.05 minutes. This is the Moon's synodic period.

The mean distance of the Moon from Earth is 238,855 mi, but its orbit about Earth is elliptical, and thus the actual distance varies considerably. The maximum distance from Earth that the Moon may reach is 251,966 mi and the least distance is 225,744 mi.

The Moon rotates on its axis in a period of time that is exactly equal to its sidereal revolution about Earth—27.322 days. Thus the backside, or farside, of the Moon always faces

away from Earth. But this does not mean that the backside is always dark. The farside of the Moon gets just as much direct sunlight as the nearside; at New Moon phase, the farside of the Moon is fully lit but not visible from Earth.

The Moon's revolution about Earth is irregular because of its elliptical orbit. The Moon's rotation, however, is regular, and this, together with the irregular revolution, produces what is called libration in longitude, which permits an observer on Earth to see first farther around the eastern side and then farther around the western side of the Moon. The Moon's variation north or south of the ecliptic permits one to see farther over first one pole of the Moon and then the other; this is called libration in latitude. These two libration effects permit observers on Earth to see a total of about 60% of the Moon's surface over a period of time.

Atmosphere and surface. The Moon, like the planet Mercury, has no real atmosphere to speak of. What little exists is variable and tenuous. With its long day and night, the daytime temperature can reach 260°F, while the coldest nighttime temperature may reach -280°F. This day-to-night contrast is exceeded only by that on Mercury.

The lunar surface has not changed much since humans have been observing it. The side visible from Earth has large craters and vast dark areas called *maria* that were once lava. The farside has almost no maria but is pockmarked with craters.

Recent findings show that up to 300 mil metric tons of water ice may exist in craters at the lunar poles. In its interior, the Moon may have a small core, which supports the idea that most of the mass of the Moon was ripped away from the early Earth when a Mars-size object collided with Earth. The hidden side of the Moon was first photographed in 1959 by the Soviet space probe *Lunik III*.

Harvest moon and hunter's moon. The harvest moon, the full Moon nearest the autumnal equinox, ushers in a period of several successive days when the Moon rises soon after sunset. This phenomenon gives farmers in temperate latitudes extra hours of light in which to harvest their crops before frost and winter. The 2011 harvest moon falls on Sept. 12. Harvest moon in the Southern Hemisphere temperate latitudes falls on Mar. 19.

The next full Moon after harvest moon is called the hunter's moon; it is accompanied by a similar but less marked phenomenon. In 2011, the hunter's moon occurs on Oct. 12 in the Northern Hemisphere and on Apr. 18 in the Southern Hemisphere.

Moon's Perigee and Apogee, 2011

Perigee is the point in the moon's orbit where it is closest to the Earth. Apogee is the point where it is farthest.
(In Coordinated Universal Time, standard time of the prime meridian.)

CALENDAR

Julian and Gregorian Calendars; Leap Year; Century

The **Julian calendar**, under which all Western nations measured time until 1582 CE, was authorized by Julius Caesar in 46 BCE. It called for a year of 365¼ days, starting in January, with every 4th year being a **leap year** of 366 days. St. Bede, an Anglo-Saxon monk also known as the Venerable Bede, announced in 730 CE that the Julian year was 11 min., 14 sec. too long, a cumulative error of about a day every 128 years, but nothing was done about this for centuries.

By 1582 the accumulated error was estimated at 10 days. In that year Pope Gregory XIII decreed that the day following Oct. 4, 1582, should be called Oct. 15, thus dropping 10 days and initiating the **Gregorian calendar**.

The Gregorian calendar continued a system devised by the monk Dionysius Exiguus (6th century), starting from the first year following the birth of Jesus Christ, which was inaccurately taken to be year 753 in the Roman calendar. Leap years were continued but, to prevent further displacements, centesimal years (years ending in 00) were made common years, not leap years, unless divisible by 400. Under this plan, 1600 and 2000 were leap years (as was 2004); 1700, 1800, and 1900 were not.

The Gregorian calendar was adopted at once by France, Italy, Spain, Portugal, and Luxembourg. Within 2 years most German Catholic states, Belgium, and parts of Switzerland and the Netherlands were brought under the new calendar, and Hungary followed in 1587. The rest of the Netherlands, along with Denmark and the German Protestant states, made the change in 1699-1700.

The British government adopted the Gregorian calendar and imposed it on all its possessions, including the American colonies, in 1752, decreeing that the day following Sept. 2, 1752, should be called Sept. 14, a loss of 11 days. All dates preceding were marked OS, for Old Style. In addition,

New Year's Day was moved to Jan. 1 from Mar. 25 (under the old reckoning, for example, Mar. 24, 1700, had been followed by Mar. 25, 1701). Thus George Washington's birthdate, which was Feb. 11, 1731, OS, became Feb. 22, 1732, NS (New Style). In 1753 Sweden also went Gregorian.

In 1793 the French revolutionary government adopted a calendar of 12 months of 30 days each with 5 extra days in September of each common year and 6 extra days every 4th year. Napoleon reinstated the Gregorian calendar in 1806.

The Gregorian system later spread to non-European regions, replacing traditional calendars at least for official purposes. Japan in 1873, Egypt in 1875, China in 1912, and Turkey in 1925 made the change, usually in conjunction with political upheaval. In China, the republican government began reckoning years from its 1911 founding. After 1949, the People's Republic adopted the Common, or Christian Era, year count, even for the traditional lunar calendar, which it retained. In 1918 the Soviet Union decreed that the day after Jan. 31, 1918, OS, would be Feb. 14, 1918, NS. Greece changed over in 1923. For the first time in history, all major nations had one calendar. The Russian Orthodox church and some other Christian sects retained the Julian calendar.

To convert from the Julian to the Gregorian calendar, add 10 days to dates Oct. 5, 1582, through Feb. 28, 1700; after that date add 11 days through Feb. 28, 1800; 12 days through Feb. 28, 1900; and 13 days through Feb. 28, 2100.

A **century** consists of 100 consecutive years. The 1st century CE may be said to have run from the years 1 through 100. The 20th century by this reckoning consisted of the years 1901 through 2000 and ended Dec. 31, 2000, as did the 2nd millennium CE. The 21st century thus technically began Jan. 1, 2001.

For a **Perpetual Calendar**, see pages 360-61.

Gregorian Calendar

Choose the desired year from the table below or from the Perpetual Calendar (for years 1803 to 2080). The number after each year designates which calendar to use for that year, as shown in the Perpetual Calendar. (The Gregorian calendar was inaugurated Oct. 15, 1582. From that date to Dec. 31, 1582, use calendar 6.)

1583-1802

The Julian Period

How many days have you lived? To determine this, multiply your age by 365, add the number of days since your last birthday, and account for all leap years. Chances are your calculations will go wrong somewhere. Astronomers, however, find it convenient to express dates and time intervals in days rather than in years, months, and days. This is done by placing events within the Julian period.

The Julian period was devised in 1582 by the French classical scholar Joseph Scaliger (1540-1609), who named it after his father, Julius Caesar Scaliger, not after the Julian calendar as might be supposed.

Scaliger began with a zero hour, or starting time, of noon on Jan. 1, 4713 BCE (on the Julian calendar). This was the most recent time that 3 major chronological cycles began on

the same day: (1) the 28-year solar cycle, after which dates in the Julian calendar (e.g., Feb. 11) return to the same days of the week (e.g., Monday); (2) the 19-year lunar cycle, after which the phases of the moon return to the same dates of the year; and (3) the 15-year indiction cycle, used in ancient Rome to regulate taxes.

It will take 7,980 years to complete the period, the product of 28, 19, and 15.

Noon (Universal Time) of Jan. 1, 2011, will be Julian Date (JD) 2,455,563; that many days will have passed since the start of the Julian period. The JD at noon of any date in 2011 may be found by adding to this figure the day of the year for that date, which can be obtained from the left half of the "How Far Apart Are Two Dates?" chart on the next page.

Julian Calendar

To find which of the 14 calendars of the Perpetual Calendar (pages 360-61) applies to any year under the Julian system, find the century for the desired year in the 3 leftmost columns below. Read across and find the year in the 4 top rows. Then read down. The number in the intersection is the calendar designation for that year. For some years and countries the Julian new year did not start Jan. 1; to find the correct Perpetual Calendar for Britain and its possessions, you can generally add one year for dates from Jan. 1-Mar. 24. For example, to look up Feb. 2, 1705, Old Style, use the year 1706.

			Year (last 2 figures of desired year)																												
			01	02	03	04	05	06	07	08	09	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28

How Far Apart Are Two Dates?

This table covers a range of 2 years. To use, find the numbers in the tables for each date and subtract the smaller from the larger. For example, to find the number of days from Mar. 15, 2010, to Sept. 22, 2011, subtract 74 from 630; the result is 556. For leap years, such as 2008, where Feb. 29 intervenes, one day must be added to the result; thus Feb. 4, 2008, and Mar. 13, 2009, were 403 days apart.

First year													Second year

Signs of the Zodiac

The **zodiac** is the apparent yearly path of the sun among the stars as viewed from earth, and was divided by the ancients into 12 equal sections or signs, each named for the constellation situated within its limits in ancient times. Astrologers claim that the temperament and destiny of each individual depend on the zodiac sign under which the person was born and the relationships between the planets at that time and throughout life.

Below are the 12 traditional signs and the traditional range of dates pertaining to each:

 Aries (Ram), March 21–April 19	 Libra (Scales), September 23–October 23
 Taurus (Bull), April 20–May 20	 Scorpio (Scorpion), October 24–November 21
 Gemini (Twins), May 21–June 21	 Sagittarius (Archer), November 22–December 21
 Cancer (Crab), June 22–July 22	 Capricorn (Goat), December 22–January 19
 Leo (Lion), July 23–August 22	 Aquarius (Water Bearer), January 20–February 18
 Virgo (Virgin), August 23–September 22	 Pisces (Fishes), February 19–March 20

Federal Holidays and Other Notable Dates, 2011

Some dates may be subject to change.

The dates marked on the calendar above and shown below *in italics* are U.S. federal holidays, designated by the president or Congress and applicable to federal employees and in the District of Columbia. Most U.S. states also observe these holidays, and many states observe others; practices vary from state to state. In most states the secretary of state's office can provide details.

- January

1

New Year's Day (federal holiday observed Dec. 31, 2010);
Rose Bowl; Fiesta Bowl

3

Orange Bowl

4

Sugar Bowl

10

BCS Football Championship Game (Glendale, AZ)

17

Martin Luther King Jr. Day

17-30

Australian Open tennis tournament

26

Australia Day, Australia

30

NFL Pro Bowl (Honolulu, HI)
- February

2

Groundhog Day

6

Super Bowl XLV (Arlington, TX)

12

Lincoln's Birthday

14

Valentine's Day

14-15

Westminster Dog Show

20

Daytona 500;
NBA All-Star Game (Los Angeles, CA)

21

Washington's Birthday (observed), Presidents' Day, or
Washington-Lincoln Day (3rd Mon. in Feb.)

27

Academy Awards
- March

4-8

Carnival, Brazil

5

Iditarod Trail Sled Dog Race begins

8

Mardi Gras

9

Ash Wednesday

13

Daylight Saving Time begins in U.S.

17

St. Patrick's Day

20

First day of Spring (Northern Hemisphere);
Purim (Feast of Lots), starts previous night

21

Benito Juárez's Birthday, Mexico
- April

1

April Fool's Day

2-4

NCAA men's basketball Final Four

3-5

NCAA women's basketball Final Four

4-10

Masters golf tournament

18

Patriots' Day;
Boston Marathon (3rd Mon. in Apr.)

19

Passover, 1st full day

22

Good Friday;
Earth Day

24

Easter

28

Take Our Daughters and Sons to Work Day

29

Arbor Day, U.S.
- May

1

May Day

3

National Teacher Day, U.S.

5

Cinco de Mayo (Battle of Puebla Day), Mexico

7

Kentucky Derby

8

Mother's Day

10

Buddha's Birthday, Korea, Hong Kong

21

Armed Forces Day;
Preakness Stakes

22-June 5

French Open tennis tournament

23

Victoria Day, Canada

30

Memorial Day, or Decoration Day (last Mon. in May)
- June

6

Dragon Boat Festival, China

11

Belmont Stakes

14

Flag Day

16-19

U.S. Open golf tournament (Bethesda, MD)

19

Father's Day

20-July 3

Wimbledon tennis tournament

21

First day of summer (Northern Hemisphere)
- July

1

Canada Day, Canada

4

Independence Day

7-14

Running of the Bulls (Pamplona, Spain)

14

Bastille Day, France

14-17

British Open golf tournament
- August

1

Ramadan (Islamic month of fasting), 1st full day

8-14

PGA Championship
- September

5

Labor Day, U.S. (1st Monday in Sept.); *Labor Day*, Canada

11

Grandparents' Day, U.S.

16

Independence Day, Mexico

17

Constitution Day and Citizenship Day, U.S.

23

First day of autumn (Northern Hemisphere)

29

Rosh Hashanah (New Year), 1st full day
- October

3

U.S. Supreme Court session begins;
German Unity Day, Germany

8

Yom Kippur (Day of Atonement), starts previous night

10

Columbus Day (2nd Mon. in Oct.);
Thanksgiving Day, Canada

12

Día de la Raza, Spain, Mexico

24

United Nations Day

31

Halloween
- November

1

All Saints' Day

1-2

Día de los Muertos, Mexico

5

Guy Fawkes Day, UK

6

New York City Marathon;
Daylight Saving Time ends in U.S.

8

Election Day (1st Tues. after 1st Mon. in Nov.)

11

Veterans Day; Remembrance Day, Canada

13

Remembrance Sunday, UK

24

Thanksgiving Day (4th Thurs. in Nov.)

26

Islamic New Year (Muharram 1), starts previous night
- December

10

Nobel Prizes awarded (winners announced in Oct.)

12

Día de la Virgen de Guadalupe, Mexico

21-28

Hanukkah (Festival of Lights), starts previous night

22

First day of winter (Northern Hemisphere)

25

Christmas Day

26

Christmas Day (federal holiday observed);
Boxing Day, New Zealand, UK

26-Jan. 1

Kwanzaa

27

Boxing Day (observed), Australia, Canada;
Christmas Day (bank holiday), UK

Chinese Calendar, Asian Festivals

Source: Chinese Information and Culture Center, New York, NY

The Chinese calendar, like the Jewish and Islamic calendars (see the Religion chapter), is a lunar calendar. It is divided into 12 months of 29 or 30 days (compensating for the lunar month’s mean duration of 29 days, 12 hr., 44.05 min.). This calendar is synchronized with the solar year by the addition of extra months at fixed intervals.

The Chinese calendar runs on a 60-year cycle. The cycles 1876-1935 and 1936-95, with the years grouped under their 12 animal designations, are printed below, along with the first 24 years of the current cycle. This cycle began in 1996 and will last until 2055. Feb. 14, 2010, marks the beginning of the year 4708 in the Chinese calendar, and is designated the Year of the Tiger. Readers can find the animal name for the year of their birth in the chart below. (Note: The first 3-7 weeks of each Western year belong to the previous Chinese year and animal designation.)

Both the Western (Gregorian) and traditional lunar calendars are used publicly in China and in North and South Korea, and 2 New Year’s celebrations are held. In Taiwan, overseas Chinese communities, and Vietnam, the lunar calendar is used only to set the dates for traditional festivals, with the Gregorian system in general use.

The 4-day Chinese New Year, the 3-day Vietnamese New Year festival, Tet, and the 3-to-4-day Korean festival, Suhl, begin at the 2nd new moon after the winter solstice. The new moon in the Far East, which is west of the International Date Line, may be a day later than the new moon in the U.S. The festivals may start, therefore, anywhere between Jan. 21 and Feb. 19 of the Gregorian calendar.

Special Months

There are many thousands of special months, days, and weeks because of anniversaries, official proclamations, and promotional events, both trivial and serious. Here are a few of the special months:

January: Jump Out of Bed Month, National Mentoring Month, National Poverty in America Awareness Month	July: Cell Phone Courtesy Month, National Hot Dog Month, Women’s Motorcycle Month
February: Black History Month, American Heart Month, Library Lovers Month, Youth Leadership Month, Return Shopping Carts to the Supermarket Month	August: Black Business Month, National Inventors’ Month, Happiness Happens Month, National Toddler Month
March: Irish-American Heritage Month, Women’s History Month, American Red Cross Month, National Frozen Foods Month, National Talk With Your Teen About Sex Month	September: Library Card Sign-Up Month, National Hispanic Heritage Month (Sept. 15-Oct. 15), National Biscuit Month
April: National Child Abuse Prevention Month, National Humor Month, Stress Awareness Month, Grange Month	October: National Domestic Violence Awareness Month, National Breast Cancer Awareness Month, Diversity Awareness Month, National Popcorn Poppin’ Month
May: Clean Air Month, Get Caught Reading Month, National Barbecue Month, Asian Pacific American Heritage Month, National Mental Health Month	November: National AIDS Awareness Month, National American Indian Heritage Month, National Adoption Month, American Diabetes Month, Peanut Butter Lovers’ Month
June: National Candy Month, Gay and Lesbian Pride Month, Potty Training Awareness Month, National Safety Month	December: Universal Human Rights Month, National Drunk and Drugged Driving Prevention Month, National Tie Month, Colorectal Cancer Education and Awareness Month

Wedding Anniversaries

The traditional names for wedding anniversaries go back many years in social usage and have been used to suggest types of appropriate anniversary gifts. Traditional products for gifts are listed here in capital letters, with allowable revisions in parentheses, followed by common modern gifts in each category.

1st PAPER, clocks	9th POTTERY (CHINA), leather goods	25th SILVER, sterling silver
2nd COTTON, china	10th TIN, ALUMINUM, diamond	30th PEARL, diamond
3rd LEATHER, crystal, glass	11th STEEL, fashion jewelry	35th CORAL (JADE), jade
4th LINEN (SILK), appliances	12th SILK, pearls, colored gems	40th RUBY, ruby
5th WOOD, silverware	13th LACE, textiles, furs	45th SAPPHIRE, sapphire
6th IRON, wood objects	14th IVORY, gold jewelry	50th GOLD, gold
7th WOOL (COPPER), desk sets	15th CRYSTAL, watches	55th EMERALD, emerald
8th BRONZE, linens, lace	20th CHINA, platinum	60th DIAMOND, diamond

Birthstones

Month	Ancient	Modern	Month	Ancient	Modern
January	Garnet	Garnet	July	Onyx	Ruby
February	Amethyst	Amethyst	August	Carnelian	Sardonyx or Peridot
March	Jasper	Bloodstone or Aquamarine	September	Chrysolite	Sapphire
April	Sapphire	Diamond	October	Aquamarine	Opal or Tourmaline
May	Agate	Emerald	November	Topaz	Topaz
June	Emerald	Pearl, Moonstone, or Alexandrite	December	Ruby	Turquoise or Zircon

Standard Time, Daylight Saving Time, and Others

Source: National Geospatial-Intelligence Agency, Dept. of Defense
See also Time Zone map, page 460.

Standard Time

Standard Time is reckoned from the Prime Meridian of Longitude in Greenwich, England. The world is divided into 24 zones, each 15 deg of arc, or one hour in time apart. The Greenwich meridian (0 deg) extends through the center of the initial zone, and the zones to the east are numbered from 1 to 12, with the prefix “minus” indicating the number of hours to be subtracted to obtain Greenwich Time. Each zone extends 7.5 deg on either side of its central meridian.

Westward zones are similarly numbered, but prefixed “plus,” showing the number of hours that must be added to get Greenwich Time. Although these zones apply generally to sea areas, the Standard Time maintained in many countries does not coincide with zone time.

The U.S. and possessions are divided into 10 Standard Time zones. Each zone is approximately 15 deg of longitude in width. All places in each zone use, instead of their own local time, the time counted from the transit of the “mean sun” across the Standard Time meridian that passes near the middle of that zone. These time zones are designated as Atlantic, Eastern, Central, Mountain, Pacific, Alaska, Hawaii-Aleutian, Samoa, Wake Island, and Guam; the time in these zones is reckoned from the 60th, 75th, 90th, 105th, 120th, 135th, 150th, and 165th meridians west of Greenwich and the 165th and 150th meridians east of Greenwich. The time zone line wanders to conform to local geographical regions. The time in the various zones in the U.S. and U.S. territories west of Greenwich is earlier than Greenwich Time by 4, 5, 6, 7, 8, 9, 10, and 11 hours, respectively. However, Wake Island and Guam cross the International Date Line and are 12 and 10 hours later than Greenwich Time, respectively.

24-Hour Time

Twenty-four-hour time is widely used in scientific work throughout the world. In the U.S. it is also used in operations of the armed forces. In Europe it is frequently used by the transportation networks in preference to the 12-hour AM and PM system. With the 24-hour system the day begins at midnight, and times are designated 00:00 through 23:59.

International Date Line

The Date Line, approximately coinciding with the 180th meridian, separates the calendar dates. The date must be advanced one day when crossing in a westerly direction and set back one day when crossing in an easterly direction. The Date Line frequently deviates from the 180th meridian because of decisions made by individual nations affected. The line is deflected eastward through the Bering Strait and westward of the Aleutians to prevent separating these areas by date. The line is deflected eastward of the Tonga and New Zealand Islands in the South Pacific for the same reason. In 1995, Kiribati announced that all of its islands east of the Date Line would observe the same date as islands to the west, though most maps and atlases do not depict this as a deviation in the Date Line. The line is established by international custom; there is no international authority prescribing its exact course.

Daylight Saving Time

Daylight Saving Time is achieved by advancing the clock one hour. Since 2007, Daylight Saving Time has begun at 2 AM on the 2nd Sunday in Mar. and ends at 2 AM on the first Sunday in Nov. **In 2011, Daylight Saving Time begins at 2 AM on Mar. 13 and ends at 2 AM on Nov. 6.** Prior to 2007, Daylight Saving Time traditionally ran from the first Sunday in Apr. to the last Sunday in Oct.

Daylight Saving Time was first observed in the U.S. during World War I, and then again during World War II. In the intervening years, some states and communities observed Daylight Saving Time, using whatever beginning and ending dates they chose. In 1966, Congress passed the Uniform Time Act, which provided that any state or territory that chooses to observe Daylight Saving Time must begin and end on the federal dates. Any state could, by law, exempt itself; a 1972 amendment to the act authorized states split by time zones to observe Daylight Saving Time in one time zone and standard time in the other time zone. Currently, Arizona, Hawaii, Puerto Rico, the U.S. Virgin Islands, Guam, and American Samoa do not observe Daylight Saving Time. On Apr. 2, 2006, all of Indiana observed Daylight Saving Time for the first time. The state remains divided between two time zones.

Congress and the secretary of transportation both have authority to change time zone boundaries, which they have done on a number of occasions since 1966. In addition, efforts to conserve energy have prompted various changes in the times that Daylight Saving Time is observed.

Daylight Saving Time: International Usage

Adjusting clock time so as to gain the added daylight on summer evenings is common throughout the world.

Canada, which extends over 6 time zones, generally observes Daylight Saving Time during the same period as the U.S. Most provincial governments—with the exceptions of Newfoundland, Nunavut, and Yukon—pledged to observe the 4 week extension to Daylight Saving Time that went into effect in 2007. Most of Saskatchewan remains on standard time all year. Communities elsewhere in Canada also may exempt themselves from Daylight Saving Time. Except for the state of Sonora, which shares a border with Arizona, most of Mexico observes Daylight Saving Time.

Member nations of the European Union (EU) observe a “summer-time period,” a version of Daylight Saving Time, from the last Sunday of Mar. until the last Sunday in Oct.

Russia, which extends over 11 time zones, maintains its Standard Time 1 hour fast for its zone designation. Additionally, it proclaims Daylight Saving Time from the last Sunday in Mar. until the 4th Sunday in Oct.

China, which extends across 5 time zones, has decreed that the entire country be placed on Greenwich Time plus 8 hours. Daylight Saving Time is not observed. Japan, which lies within one time zone, also does not modify its legal time during the summer months.

Many countries in the Southern Hemisphere maintain Daylight Saving Time, generally from Oct. to Mar.; however, most countries near the equator do not deviate from Standard Time.

Perpetual Calendar

The number shown for each year indicates which Gregorian calendar to use. For 1583-1802, see "Gregorian Calendar" on page 355. For 1803-20, use numbers for 1983-2000, respectively. For Julian Calendar, see "Julian Calendar" on page 356.

Note: This same table can be used for Daylight Saving Time when it is in effect, but allowance must be made for cities that do not observe it; they are marked with an asterisk (*). Daylight Saving Time is one hour later than Standard Time. (1) While most of Indiana is in the Eastern Time Zone, 18 counties in the southwestern and northwestern parts of the state observe Central Time.

WEIGHTS AND MEASURES

Source: National Institute of Standards and Technology, U.S. Dept. of Commerce

The International System of Units (SI)

Two systems of weights and measures coexist in the U.S. today: the **U.S. Customary System** and the **International System of Units** (SI, for *Système International*). SI, commonly identified with the **metric system**, is actually a more complete, coherent version of it. Throughout U.S. history, the Customary System—inherited from, but now different from, the British Imperial System—has been generally used. Federal and state legislation gave it, through implication, standing as the primary weights and measures system. The metric system, however, is the only system that Congress has ever specifically sanctioned, dating back to an 1866 law that reads:

“It shall be lawful throughout the United States of America to employ the weights and measures of the metric system; and no contract or dealing, or pleading in any court, shall be deemed invalid or liable to objection because the weights or measures expressed or referred to therein are weights or measures of the metric system.”

Since that time, use of the metric system in the U.S. has slowly and steadily increased, particularly in the scientific community, the pharmaceutical industry, and the manufacturing sector—the last motivated by the predominant use of the metric system in international commerce.

On Feb. 10, 1964, the National Bureau of Standards, now known as the National Institute of Standards and Technology, issued the following statement:

“Henceforth it shall be the policy of the National Bureau of Standards to use the units of the International System (SI), as adopted by the 11th General Conference on Weights and Measures (Oct. 1960), except when the use of these units would obviously impair communication or reduce the usefulness of a report.”

On Dec. 23, 1975, Pres. Gerald R. Ford signed the Metric Conversion Act of 1975. It defines the metric system as being the International System of Units as interpreted in the U.S. by the secretary of commerce. The Trade Act of 1988 and other legislation declare the metric system the preferred system of weights and measures for U.S. trade and commerce, call for the federal government to adopt metric specifications, and mandate the Commerce Dept. to oversee the program. However, the metric system has still not become the system of choice for most Americans’ daily use.

The following are the 7 base SI units: **length**—meter; **mass**—kilogram; **time**—second; **electric current**—ampere; **thermodynamic temperature**—kelvin; **amount of substance**—mole; and **luminous intensity**—candela.

Frequently Used Conversions

Boldface indicates exact values. For greater accuracy, use the “multiply by” number in parentheses. For weights, avoirdupois (avdp) weight is the system applied to all goods except medicines, precious metals, and precious stones (see p. 366). For more detailed tables, see pp. 365-68.

(1) Statute mile. (2) A short ton is 2,000 pounds. (3) A long ton is 2,240 pounds.

Temperature Conversions

The left-hand column below gives a temperature according to the **Celsius** scale, and the right-hand gives the same temperature according to the **Fahrenheit** scale. The lowest number on each scale is equivalent to absolute zero, the temperature at which all motion within a molecule would stop.

For temperatures not shown: To convert Fahrenheit to Celsius by formula, subtract 32 degrees and divide by 1.8; to convert Celsius to Fahrenheit, multiply by 1.8 and add 32 degrees.

Note: Although the term *centigrade* is still frequently used, the International Committee on Weights and Measures and the National Institute of Standards and Technology have recommended since 1948 that this scale be called *Celsius*.

Celsius	Fahrenheit	Celsius	Fahrenheit	Celsius	Fahrenheit	Celsius	Fahrenheit	Celsius	Fahrenheit

Boiling and Freezing Points

Water boils at 212°F (100°C) at sea level. For every 550 feet above sea level, boiling point of water is lower by about 1°F. Methyl alcohol boils at 148°F. Average human oral temperature, 98.6°F. **Water freezes** at 32°F (0°C).

Mathematical Formulas

Note: The value of π (the Greek letter pi) is approximately 3.14159265 (equal to the ratio of the circumference of a circle to the diameter). The equivalence is typically rounded further to 3.1416 or 3.14.

Calculating Circumference

Circle: Multiply the diameter by π .

Calculating Area

Circle: Multiply the square of the radius (equal to $\frac{1}{2}$ the diameter) by π .

Rectangle: Multiply the length of the base by the height.

Sphere (surface): Multiply the square of the radius by π and multiply by 4.

Square: Square the length of one side.

Trapezoid: Add the 2 parallel sides, multiply by the height, and divide by 2.

Triangle: Multiply the base by the height, divide by 2.

Calculating Volume

Cone: Multiply the square of the radius of the base by π , multiply by the height, and divide by 3.

Cube: Cube the length of one edge.

Cylinder: Multiply the square of the radius of the base by pi and multiply by the height.

Pyramid: Multiply the area of the base by the height and divide by 3.

Rectangular Prism: Multiply the length by the width by the height.

Sphere: Multiply the cube of the radius by π , multiply by 4, and divide by 3.

Playing Cards and Dice Chances

5-Card Poker Hands

Hand	Number possible	Odds against
Royal flush	4	649,739 to 1
Other straight flush . . .	36	72,192 to 1

	= 14.1 grams	Talent	= 60 mina		

Metric System Prefixes

The following prefixes, in combination with the basic unit names, provide the multiples and submultiples in the metric system. For example, the unit name *meter*, with the prefix *kilo* added, produces *kilometer*, meaning “1,000 meters.”

Prefix	Symbol	Multiples	Equivalent	Prefix	Symbol	Multiples	Equivalent
yotta	Y	10 ²⁴	septillionfold	deci	d	10 ⁻¹	tenth part
zetta	Z	10 ²¹	sextillionfold	centi	c	10 ⁻²	hundredth part
exa	E	10 ¹⁸	quintillionfold	milli	m	10 ⁻³	thousandth part
peta	P	10 ¹⁵	quadrillionfold	micro	μ	10 ⁻⁶	millionth part

deka	da	10	tenfold	yocto	y	10 ⁻²⁴	septillionth part

Metric Weights and Measures

The metric system generally uses the term *mass* instead of *weight*. Mass is a measure of an object’s inertial property, or the amount of matter it contains. Weight is a measure of the force exerted on an object by gravity or the force needed to support it. Also, the metric system does not make a distinction between dry volume and liquid volume.

Length					
10 millimeters (mm)	= 1 centimeter (cm)	10 liters	= 1 dekaliter (daL)

U.S. Customary Weights and Measures

Length

12 inches (in.)	= 1 foot (ft)
3 feet	= 1 yard (yd)
5½ yards	= 1 rod (rd), pole, or perch (16½ feet)
40 rods	= 1 furlong (fur) = 220 yards = 660 feet
8 furlongs	= 1 statute mile (mi) = 1,760 yards = 5,280 feet
3 miles	= 1 league (on land) = 5,280 yards = 15,840 feet
6,076.11549 feet	= 1 international nautical mile (nm)

Volume (Liquid Measure)

When necessary to distinguish the liquid pint or quart from the dry pint or quart, the word *liquid* (liq) is used in combination with the name or abbreviation of the liquid unit.

4 gills (gi)	= 1 pint (pt) = 28.875 cubic inches (in. ³)
2 pints	= 1 quart (qt) = 57.75 cubic inches
4 quarts	= 1 gallon (gal) = 231 cubic inches = 8 pints = 32 gills

Volume (Dry Measure)

When necessary to distinguish the dry pint or quart from the liquid pint or quart, the word *dry* is used in combination with the name or abbreviation of the dry unit.

2 pints (pt)	= 1 quart (qt) = 67.2006 cubic inches (in. ³)
8 quarts	= 1 peck (pk) = 537.605 cubic inches = 16 pints
4 pecks	= 1 bushel (bu) = 2,150.42 cubic inches = 32 quarts

Area

144 square inches (in. ²)	= 1 square foot (ft ²)
9 square feet	= 1 square yard (yd ²) = 1,296 square inches
30¼ square yards	= 1 square rod (rd ²) = 272¼ square feet
160 square rods	= 1 acre (A) = 4,840 square yards = 43,560 square feet

Weight and Measurement Equivalents

In this table it is necessary to distinguish between the *international* and the *survey* foot. The international foot, defined in 1959 as exactly equal to 0.3048 meter, is shorter than the old survey foot by exactly 2 parts in 1 million. The survey foot is still used in data expressed in feet in geodetic surveys within the U.S. In this table the survey foot is indicated with capital letters.

When the name of a unit is enclosed in brackets, e.g., [1 hand], either (1) the unit is not in general current use in the U.S. or (2) the unit is believed to be based on custom and usage rather than on formal definition.

Equivalents involving decimals are, in most instances, rounded to the 3rd decimal place; exact equivalents are so designated.

Lengths

1 angstrom (Å)	= 0.1 nanometer (exactly) = 0.000 1 micrometer (exactly) = 0.000 000 1 millimeter (exactly) = 0.000 000 004 inch
1 cable's length	= 120 fathoms (exactly) = 720 FEET (exactly) = 219 meters
1 centimeter (cm)	= 0.3937 inch
1 chain (ch) (Gunter's or surveyor's)	= 66 FEET (exactly) = 20.1168 meters
1 chain (engineer's)	= 30.48 meters (exactly) = 100 feet
1 decimeter (dm)	= 3.937 inches
1 degree (geographical)	= 364,566.929 feet = 69.047 miles (avg.) = 111.123 kilometers (avg.)
of latitude	= 68.708 miles at equator = 69.403 miles at poles
of longitude	= 69.171 miles at equator

640 acres	= 1 square mile (mi ²)
1 mile square	= 1 section (of land)
6 miles square	= 1 township = 36 sections = 36 square miles

Cubic Measure

1 cubic foot (ft ³)	= 1,728 cubic inches (in. ³)
27 cubic feet	= 1 cubic yard (yd ³)

Gunter's, or Surveyor's, Chain Measure

7.92 inches (in.)	= 1 link (li)
100 links	= 1 chain (ch) = 4 rods (rd) = 66 feet (ft)
80 chains	= 1 statute mile (mi) = 320 rods = 5,280 feet

Avoirdupois Weight

When necessary to distinguish the avoirdupois ounce or pound from the troy ounce or pound, the word *avoirdupois* (avdp) is used in combination with the name or abbreviation of the avoirdupois unit. The *grain* is the same in avoirdupois and troy weight.

27 ¹¹ / ₃₂ grains (gr)	= 1 dram (dr)
16 drams	= 1 ounce (oz) = 437½ grains
16 ounces	= 1 pound (lb) = 256 drams = 7,000 grains
100 pounds	= 1 hundredweight (cwt)*
20 hundredweights	= 1 ton (t) = 2,000 pounds*

In *gross* or *long* measure, the following values are recognized.

112 pounds	= 1 gross or long hundredweight*
20 gross or long hundredweights	= 1 gross or long ton = 2,240 pounds*

*When the terms *hundredweight* and *ton* are used unmodified, they are commonly understood to mean the 100-pound hundredweight and the 2,000-pound ton, respectively; these units may be designated *net* or *short* when necessary to distinguish them from the corresponding units in gross or long measure.

Troy Weight

24 grains	= 1 pennyweight (dwt)
20 pennyweights	= 1 ounce troy (oz t) = 480 grains
12 ounces troy	= 1 pound troy (lb t) = 240 pennyweights = 5,760 grains

1 meter (m)	= 39.37 inches
	= 1.09361 yards
1 micrometer (μm)	= 0.001 millimeter (exactly)
	= 0.00003937 inch
1 mil	= 0.001 inch (exactly)
	= 0.0254 millimeter (exactly)
1 mile (mi) (statute or land).	= 5,280 FEET (exactly)
	= 1.609344 kilometers (exactly)
1 international nautical mile (nmi)	= 1.852 kilometers (exactly)
	= 1.150779 statute miles
	= 6,076.11549 feet
1 millimeter (mm)	= 0.03937 inch
1 nanometer (nm)	= 0.001 micrometer (exactly)
	= 0.00000003937 inch
1 pica (typography).	= 12 points
1 point (pt) (typography)	= 0.013837 inch (exactly)
	= 0.351 millimeter
1 rod (rd), pole, or perch.	= 16½ FEET (exactly)
	= 5.029 meters
1 yard (yd)	= 0.9144 meter (exactly)

Areas or Surfaces

1 acre (A)	= 43,560 square FEET (exactly)
	= 4,840 square yards
	= 0.405 hectare
1 are (a)	= 119.599 square yards
	= 0.025 acre
1 bolt (cloth measure):	
length	= 100 yards (on modern looms)
width	= 45 or 60 inches
1 hectare (ha)	= 2.471 acres
[1 square (building)]	= 100 square feet
1 square centimeter (cm ²)	= 0.155 square inch
1 square decimeter (dm ²)	= 15.500 square inches
1 square foot (ft ²)	= 929.030 square centimeters
1 square inch (in ²)	= 6.4516 square centimeters (exactly)
1 square kilometer (km ²)	= 247.104 acres
	= 0.386102 square mile
1 square meter (m ²)	= 1.196 square yards
	= 10.764 square feet
1 square mile (mi ²)	= 258.999 hectares
1 square millimeter (mm ²)	= 0.002 square inch
1 square rod (rd ²), sq. pole, or sq. perch.	= 25.293 square meters
1 square yard (yd ²)	= 0.836127 square meter

Capacities or Volumes

1 barrel (bbl), liquid.	= 31 to 42 gallons*
*There are a variety of “barrels” established by law or usage. For example: federal taxes on fermented liquors are based on a barrel of 31 gallons; many state laws fix the “barrel for liquids” as 31½ gallons; one state fixes a 36-gallon barrel for cistern measurement; federal law recognizes a 40-gallon barrel for “proof spirits”; by custom, 42 gallons constitute a barrel of crude oil or petroleum products for statistical purposes, and this equivalent is recognized “for liquids” by 4 states.	
1 barrel (bbl), standard for fruits, vegetables, and other dry commodities except dry cranberries	= 7,056 cubic inches
	= 105 dry quarts
	= 3.281 bushels, struck measure
1 barrel, standard, cranberry	= 86 45/64 dry quarts
	= 2.709 bushels, struck measure
	= 5,826 cubic inches
1 board foot (lumber measure)	= a foot-square board 1 inch thick
1 bushel (U.S.) (struck measure)	= 2,150.42 cu in (exactly)
	= 35.239 liters
[1 bushel, heaped (U.S.)]	= 2,747.715 cubic inches
	= 1.278 bushels, struck measure*
*Frequently recognized as 1¼ bushels, struck measure.	
[1 bushel (bu) (British Imperial) (struck measure)]	= 1.032 U.S. bushels, struck measure
	= 2,219.36 cubic inches
1 cord (cd) (firewood)	= 128 cubic feet (exactly)
1 cubic centimeter (cm ³)	= 0.061 cubic inch

1 cubic decimeter (dm ³)	= 61.024 cubic inches
1 cubic inch (in ³)	= 0.554 fluid ounce
	= 4.433 fluid drams
	= 16.387 cubic centimeters
1 cubic foot (ft ³)	= 7.481 gallons
	= 28.317 cubic decimeters
1 cubic meter (m ³)	= 1.308 cubic yards
1 cubic yard (yd ³)	= 0.765 cubic meter
1 cup, measuring	= 8 fluid ounces (exactly)
	= ½ liquid pint (exactly)
[1 dram, fluid (fl dr) (British)]	= 0.961 U.S. fluid dram
	= 0.217 cubic inch
	= 3.552 milliliters
1 dekaliter (daL)	= 2.642 gallons
	= 1.135 pecks
1 gallon (gal) (U.S.)	= 231 cubic inches (exactly)
	= 3.785 liters
	= 0.833 British gallon
	= 128 U.S. fluid ounces (exactly)
[1 gallon (British Imperial)]	= 277.42 cubic inches
	= 1.201 U.S. gallons
	= 4.546 liters
	= 160 British fluid ounces (exactly)
1 gill (gi)	= 7.219 cubic inches
	= 4 fluid ounces (exactly)
	= 0.118 liter
1 hectoliter (hL)	= 26.418 gallons
	= 2.838 bushels
1 liter (L) (1 cubic decimeter exactly)	= 1.057 liquid quarts
	= 0.908 dry quart
	= 61.024 cubic inches
1 milliliter (mL) (1 cu cm exactly)	= 0.271 fluid dram
	= 16.231 minims
	= 0.061 cubic inch
1 ounce, liquid (U.S.)	= 1.805 cubic inches
	= 29.574 milliliters
	= 1.041 British fluid ounces
[1 ounce, fluid (fl oz) (British)]	= 0.961 U.S. fluid ounce
	= 1.734 cubic inches
	= 28.412 milliliters
1 peck (pk)	= 8.810 liters
1 pint (pt), dry	= 33.600 cubic inches
	= 0.551 liter
1 pint, liquid	= 28.875 cubic inches (exactly)
	= 0.473 liter
1 quart (qt), dry (U.S.)	= 67.201 cubic inches
	= 1.101 liters
	= 0.969 British quart
1 quart, liquid (U.S.)	= 57.75 cubic in (exactly)
	= 0.946 liter
	= 0.833 British quart
[1 quart (British)]	= 69.354 cubic inches
	= 1.032 U.S. dry quarts
	= 1.201 U.S. liquid quarts
1 tablespoon (T., Tbs, tbsp.)	= 3 teaspoons*(exactly)
	= 4 fluid drams
	= ½ fluid ounce (exactly)
1 teaspoon (t., tsp.)	= ⅓ tablespoon*(exactly)
	= 1⅓ fluid drams*

*The equivalent “1 teaspoon = 1⅓ fluid drams” has been found to correspond more closely with the actual capacities of teaspoons in use than the equivalent “1 teaspoon = 1 fluid dram” which is given by many dictionaries.

Weights or Masses

1 assay ton** (AT)	= 29.167 grams
**Used in assaying. The assay ton bears the same relation to the milligram that a ton of 2,000 pounds avoirdupois bears to the ounce troy; hence, the weight in milligrams of precious metal obtained from one assay ton of ore gives directly the number of troy ounces to the net ton.	
1 bale (cotton measure)	= 500 pounds in U.S.
	= 750 pounds in Egypt
1 carat (c)	= 200 milligrams (exactly)
	= 3.086 grains
1 dram avoirdupois (dr avdp)	= 27 11/32 (= 27.344) grains
	= 1.772 grams
1 gamma (g)	= 1 microgram
1 grain (gr)	= 64.7989 milligrams

1 gram (g)	= 15.432 grains = 0.035 ounce, avoirdupois
1 hundredweight, gross or long*** (gross cwt)	= 112 pounds (exactly) = 50.802 kilograms
1 hundredweight, net or short (cwt or net cwt)	= 100 pounds (exactly) = 45.359 kilograms
1 kilogram (kg)	= 2.20462 pounds
1 microgram (µg)	= 0.000001 gram (exactly)
1 milligram (mg)	= 0.015 grain
1 ounce, avoirdupois (oz avdp)	= 437.5 grains (exactly) = 0.911 troy ounce = 28.3495 grams
1 ounce, troy (oz t)	= 480 grains (exactly) = 1.097 avoirdupois ounces = 31.103 grams
1 pennyweight (dwt)	= 1.555 grams
1 pound, avoirdupois (lb avdp)	= 7,000 grains (exactly) = 1.215 troy pounds = 453.59237 grams (exactly)

1 pound, troy (lb t)	= 5,760 grains (exactly) = 0.823 pound, avoirdupois = 373.242 grams
1 stone (st)	= 14 pounds avdp (exactly) = 6.350 kilograms
1 ton, gross or long.	= 2,240 pounds (exactly) = 1.12 net tons (exactly) = 1.016 metric tons

***The gross, or long, ton and hundredweight are used commercially in the U.S. to only a limited extent, usually in restricted industrial fields. These units are the same as the British ton and hundredweight.

1 ton, metric (t)	= 2,204.623 pounds = 0.984 gross ton = 1.102 net tons
1 ton, net or short (sh ton)	= 2,000 pounds (exactly) = 0.893 gross ton = 0.907 metric ton

Electrical Units

The **watt** (W) is the unit of power (electrical, mechanical, thermal). Electrical power is given by the product of the voltage and the current.

Energy is sold by the **joule** (J), but in common practice the billing of electrical energy is expressed in terms of the **kilowatt-hour** (kWh), which is 3,600,000 joules or 3.6 megajoules.

The **horsepower** (hp) is a nonmetric unit sometimes used in mechanics. It is equal to 746 watts.

The **ohm** is the unit of electrical resistance and represents the physical property of a conductor that offers a resistance to the flow of electricity, permitting just 1 ampere to flow at 1 volt of pressure.

Measures of Force and Pressure

Dyne (dyn) = force necessary to accelerate a 1-gram mass 1 centimeter per second squared = 0.000072 poundal
Poundal (pdl) = force necessary to accelerate a 1-pound mass 1 foot per second squared = 13,825.5 dynes = 0.138255 newtons
Newton (N) = force needed to accelerate a 1-kilogram mass 1 meter per second squared

Pascal (pressure) (Pa) = 1 newton per square meter = 0.020885 pound per square foot
Atmosphere (air pressure at sea level) (atm) = 2,116.102 pounds per square foot = 14.6952 pounds per square inch = 1.0332 kilograms per square centimeter = 101,323 newtons per square meter

Spirits Measures

Pony	= 0.5 jigger
Shot	= 0.667 jigger = 1.0 ounce
Jigger	= 1.5 shots
Pint (pt)	= 16 shots = 0.625 fifth
Fifth.	= 25.6 shots = 1.6 pints = 0.8 quart = 0.75706 liter

Quart (qt)	= 32 shots = 1.25 fifths
Magnum	= 2 quarts = 2.49797 bottles (wine)

For champagne and brandy only:

Jeroboam	= 6.4 pints = 1.6 magnums = 0.8 gallon
--------------------	--

For champagne only:

Rehoboam	= 3 magnums
Methuselah	= 4 magnums
Salmanazar	= 6 magnums
Balthazar	= 8 magnums
Nebuchadnezzar	= 10 magnums
Wine bottle (standard)	= 0.800633 quart = 0.7576778 liter

Miscellaneous Measures

Caliber (cal)—the diameter of a gun bore. In the U.S., caliber is traditionally expressed in hundredths of inches, e.g., .22. In Britain, caliber is often expressed in thousandths of inches, e.g., .270. Now it is commonly expressed in millimeters, e.g., the 5.56 mm M16 rifle. Heavier weapons' caliber has long been expressed in millimeters, e.g., the 155 mm howitzer. Naval guns' caliber refers to the barrel length as a multiple of the bore diameter. A 5-inch, 50-caliber naval gun has a 5-inch bore and a barrel length of 250 inches.

Decibel (dB)—a measure of the relative loudness or intensity of sound. A 20-decibel sound is 10 times louder than a 10-decibel sound; 30 decibels is 100 times louder; 40 decibels is 1,000 times louder.

One decibel is the smallest difference between sounds detectable by the human ear. A 120-decibel sound is painful.

10 decibels	light whisper
20	quiet conversation
30	normal conversation
40	light traffic
50	typewriter, loud conversation
60	noisy office
70	normal traffic, quiet train
80	rock music, subway
90	heavy traffic, thunder
100	jet plane at takeoff

Em—a printer's measure designating the square width of any given type size. For example, an em of 10-point type is 10 points. An en is half an em.

Gauge (ga)—a measure of shotgun bore diameter. Gauge numbers originally referred to the number of lead balls just fitting the gun barrel diameter required to make a pound. Thus, a 16-gauge shotgun's bore was smaller than a 12-gauge shotgun's. Today, an international agreement assigns millimeter measures to each gauge.

Gauge	Bore diameter (mm)	Gauge	Bore diameter (mm)
6	23.34	14	17.60
10	19.67	16	16.81
12	18.52	20	15.90

Horsepower (hp)—the power needed to lift 550 pounds 1 foot in 1 second or to lift 33,000 pounds 1 foot in 1 minute. Equivalent to 746 watts or 2,546.0756 Btu/h.

Karat or carat (k or c)—a measure of fineness for gold equal to 1/24 part of pure gold in an alloy. Thus 24-karat gold is pure; 18-karat gold is ¾ alloy. The carat is also used as a unit of weight for precious stones; it is equal to 200 milligrams or 3.086 grains.

Knot (kn or kt)—a measure of the speed of ships. A knot equals 1 nautical mile per hour.

Quire (qr)—25 sheets of paper of the same size and quality.

Ream (rm)—500 sheets of paper of the same size and quality.

COMPUTERS AND TELECOMMUNICATIONS

Computer Milestones

- 1623:** German mathematician Wilhelm Schickard developed the 1st mechanical calculator, capable of adding, subtracting, multiplying, and dividing.
- 1642:** French mathematician Blaise Pascal built the 1st of more than 4 dozen copies of an adding and subtracting machine that he invented.
- 1801:** French inventor Joseph Marie Jacquard demonstrated a new control system for looms. He “programmed” the loom, communicating desired weaving operations to the machine via patterns of holes in paper cards.
- 1833-71:** British mathematician and scientist Charles Babbage used the Jacquard punch-card system in his design for a sophisticated, programmable “Analytical Engine” that foreshadowed basic features of today’s computers. Babbage’s conception was beyond the capabilities of the technology of his time, and the machine remained unfinished at his death in 1871.
- 1889:** American engineer Herman Hollerith patented an electromechanical punch-card tabulating system that facilitated the handling of large amounts of statistical data and quickly found use in censuses in the U.S. and other countries.
- 1911:** Hollerith’s Tabulating Machine Company merged with 2 other enterprises to form the Computing-Tabulating-Recording Company, which was renamed the International Business Machines Corporation (IBM) in 1924.
- 1941:** German engineer Konrad Zuse completed the Z3, the 1st fully functional digital computer to be controlled by a program; the Z3 was not electronic—it was based on electrical switches called relays.
- 1942:** Iowa State Coll. physicist John Vincent Atanasoff and his assistant Clifford Berry completed a working model of the 1st fully electronic computer, using vacuum tubes, which could operate much more quickly than relays; the rudimentary machine was not programmable.
- 1943:** IBM and Harvard professor Howard Aiken completed the 1st large-scale automatic digital computer, the Mark I, a relay-based machine 55 ft long and 8 ft high. British scientists built the Colossus, an electronic computer designed specifically for breaking German codes.
- 1946:** ENIAC (Electronic Numerical Integrator and Computer), a 30-ton room-sized electronic computer with more than 18,000 vacuum tubes, was completed by physicist John Mauchly and engineer J. Presper Eckert at the Univ. of Pennsylvania for the U.S. Army. ENIAC could be programmed to do different tasks, but cables had to be plugged in and switches set by hand.
- 1951:** Eckert and Mauchly’s UNIVAC (Universal Automatic Computer) became the 1st computer commercially available in the U.S. The 1st customer: the Census Bureau. CBS-TV used a UNIVAC in 1952 to predict election results.
- 1969-71:** The powerful Unix operating system was developed at Bell Laboratories; later versions became widely used on large computers and formed the basis for Linux and Macintosh OS X operating systems for personal computers.
- 1971:** Intel released the 4004, the 1st commercial microprocessor (an entire computer processing unit on a chip).
- 1973:** The Alto computer, developed at Xerox’s Palo Alto Research Center, became operational, implementing many features used years later in commercial personal computers, including a graphical user interface (GUI) featuring windows, icons, a mouse, and pointers.
- 1975:** The 1st widely marketed personal computer (PC), the MITS Altair 8800, was introduced in kit form, with no keyboard, video display, or printer, for under \$400. Microsoft was founded by college dropouts Bill Gates and Paul Allen.
- 1976:** The 1st word-processing program for personal computers, Electric Pencil, was written. Apple Computer Company was founded by Steven Jobs and Stephen Wozniak.
- 1977:** Apple introduced the Apple II; capable of displaying text and graphics in color, the machine enjoyed phenomenal success.
- 1981:** IBM unveiled its Personal Computer, which used an operating system from Microsoft known as MS-DOS (disc operating system).
- 1984:** Apple introduced the 1st Macintosh. The easy-to-use Macintosh came with a proprietary operating system and was the 1st popular computer to have a GUI and a mouse.
- 1990:** Microsoft released Windows 3.0, the 1st workable version of its own GUI.
- 1991:** The Linux operating system was invented for the personal computer by Helsinki Univ. student Linus Torvalds and made available for free.
- 1996:** The Palm Pilot, the 1st widely successful handheld computer and personal information manager, arrived.
- 1997:** The IBM computer Deep Blue beat world chess champion Garry Kasparov in a 6-game match, 2-1, with 3 draws.
- 2000:** Microsoft was found guilty of antitrust violations by a federal district judge. Microsoft settled in 2001 by accepting certain restrictions on its competitive practices and creating an antitrust compliance committee.
- 2001:** Apple introduced the Unix-based operating system OS X for the Macintosh.
- 2002:** The total number of personal computers, including desktop and laptop machines of all types, shipped by manufacturers since 1975 reached 1 bil, according to computer industry research firm Gartner Dataquest.
- 2004:** The European Union (EU) found Microsoft guilty of anticompetitive practices and fined the company \$613 mil. In mid-2006 the EU levied an additional penalty of \$357 mil for noncompliance.
- 2006:** Apple began using Intel microprocessors in its Macintosh computers instead of the IBM PowerPC.
- 2007:** Microsoft released Windows Vista, the successor to its 6-year-old Windows XP operating system. Apple introduced the iPhone, a touchscreen-equipped smartphone. Amazon released the Kindle, a proprietary hardware/software system for displaying books electronically.

Nations with the Most Personal Computers in Use, 2009

About the Internet

The Internet is a vast and rapidly growing computer network. In 1994, a total of 3 mil people (most of them in the U.S.) made use of it; by the end of 2009 the number of users worldwide exceeded 1.8 bil (Computer Industry Almanac Inc.).

The Internet is not owned or funded by any one institution, organization, or government. It has no CEO and is not a commercial service. Its development is guided by the Internet Society (ISOC), which is composed of volunteers. The ISOC appoints the Internet Architecture Board (IAB), which oversees issues of standards and network resources, among others.

Major Historical Highlights

- 1969:** ARPANET, an experimental 4-computer network, was established by the Advanced Research Projects Agency (ARPA) of the U.S. Defense Dept. Two years later, ARPANET linked about 23 computers (“hosts”) at 15 sites, including MIT and Harvard.
- 1978:** The 1st spam, or junk e-mail, message was sent over ARPANET.
- 1983:** The set of communications rules (protocol) known as TCP/IP became the main networking protocol of ARPANET. TCP/IP facilitates connection between networks. Its adoption was tantamount to the birth of the Internet. The military portion of ARPANET was moved onto the MILNET.
- 1986:** The U.S. National Science Foundation (NSF) launched NSFNET, the 1st large-scale network using Internet technology.
- 1988:** Internet Relay Chat (IRC) was developed by Finnish student Jarkko Oikarinen, enabling people to communicate via the Internet in “real time.”
- 1988:** A “worm” crafted by Cornell Univ. computer science graduate student Robert Morris Jr. infected thousands of computers, shutting many down and causing millions of dollars of damage—the 1st known case of large-scale damage caused by a computer virus spread via the Internet.
- 1989:** The World—the 1st commercial Internet service provider supplying dial-up access—debuted.
- 1989-90:** Tim Berners-Lee invented the World Wide Web. Created as an environment in which scientists at the European Center for Nuclear Research in Switzerland could share information, it gradually evolved into a medium with text, graphics, audio, animation, and video.
- 1990:** ARPANET was disbanded.
- 1991:** The NSFNET was opened to commercial traffic. Berners-Lee introduced the 1st browser, or software for accessing the web.
- 1993:** The U.S. National Center for Supercomputing Applications released versions of Mosaic, the 1st web browser able to present both text and images in a single page.
- 1994:** Netscape Communications released the Netscape Navigator browser.
- 1995:** Microsoft released its Internet Explorer browser. It initially failed to make a dent in Netscape’s dominance of the browser market but surpassed it by 1999.
- 1996:** A group of universities launched Internet2, an advanced, high-performance network for the research community and a test bed for development of new capabilities that might find use in the commercial Internet.
- 1998:** Under a contract with the U.S. Dept. of Commerce, the nonprofit Internet Corporation for Assigned Numbers and Names (ICANN) took over the management of assigning domain names and Internet (IP) addresses.
- 1999:** Release of the free Napster file-sharing service enabled users to easily exchange files containing music or other content without regard to copyright restrictions.
- 2003:** Niue, a self-governing Pacific island associated with New Zealand, became the 1st country to offer free nationwide wireless access to the Internet (using Wi-Fi technology).
- 2004:** The Mozilla Foundation released the first official version of the open-source browser Mozilla Firefox.
- 2006:** Websites with rich user interfaces that encourage collective participation and personalization through online applications and scripts, known as Web 2.0, became prevalent.
- 2007:** Apple Inc. releases the iPhone, a touchscreen-equipped smartphone; the company sold 1 mil units within 3 days of its launch.
- 2010:** A U.S. appellate court rules that the FCC cannot regulate an Internet provider’s ability to charge tiered rates for different download speeds.

Safety and Security on the Internet

Common sense dictates some basic security rules:

- Pick passwords that are difficult to guess, preferably consisting of both letters and numbers, and other symbols, if permitted. Using the same password at multiple websites is not recommended.
- Do not give out your phone number, address, credit card number, or other personal information unless needed for a transaction at a site you trust.
- If you feel someone is being threatening or dangerous, inform your Internet service provider.
- Use protective “firewall,” antivirus, and antispyware software to guard your system against attacks by hackers.
- Be careful about opening e-mail and file attachments from unknown correspondents.
- If you have programs that can make use of macros—bits of auxiliary coding that are meant to play a helpful role but can be taken advantage of by some viruses—make sure the programs’ macro virus protection is turned on. Disable macros if you do not know how to use them.
- Users of so-called **peer-to-peer** (P2P) file-sharing networks or protocols should open up only part of their computer system to sharing, not the entire hard drive.
- When manufacturers provide **patches** to solve security flaws or other problems with operating systems, software, or web browsers, it is usually advisable to install these fixes. If a fix is not available for a serious security problem, you may want to consider switching to an alternative program.

Malware. Software designed to harm a computer system—such as a virus (malicious code carried within a program) or a worm (a self-contained malicious program)—may be transmitted via the Internet, received on a disk, or communicated via e-mail.

Malicious software may install a “back door” on an infected system, giving hackers access; attempt to turn off any antivirus program on the system; or try to log the user’s keystrokes.

A **Trojan horse** is computer code concealed within harmless code or data that is capable of taking control and causing damage. It can be used to mount a massive **denial-of-service** attack, which overwhelms targeted computers by inundating them with messages. The infected computers, acting under hacker control without their owners’ knowledge, are called **zombies**, and the network of zombie computers that carry out an attack is called a **botnet**.

Spyware. Software that observes your computer activity without your knowledge is often regarded as a type of malware. Spyware programs, which can gain entry to your machine via a Trojan horse, may record your keystrokes and report passwords or other personal information to a hacker. Some can flood your screen with ads.

Phishing. A popular scam is **phishing**—the use of a forged e-mail message purportedly from a respectable organization, such as a bank, to elicit personal data. The e-mail typically contains a hyperlink that leads to a fabricated website resembling the site of the ostensible sender. To avoid falling victim to a phishing scam, do not click on any links in e-mails sent by companies with whom you do business. If you want to visit a company’s website, open your browser and manually enter the site’s address.

Spam. Junk e-mail, or **spam**, can be a time-wasting annoyance or worse—spam may offer pornography or products dangerous to health; seek to defraud the recipient; carry a destructive virus; or turn the recipient’s machine into a zombie that stores illicit material, takes part in a denial-of-service attack, or distributes spam. Net administrators worry that the flood of spam could cause a breakdown in the flow of Internet traffic.

In 2003 Congress enacted a law that attempted to restrict spam, but it had little effect on the volume of spam received by e-mail accounts.

While filtering software can help reduce the deluge of spam—some e-mail programs include filters—it is not completely accurate. Experts recommend that you be wary of revealing your e-mail address as you surf the web. If possible, do not list your e-mail address on a public website.

Internet Addresses

The fundamental part of an address on the Internet is called the domain. The final part of a domain name, known as the **top-level domain (TLD)**, is its most basic part. For example, in *The World Almanac's* web address (www.worldalmanac.com), .com is the top-level domain.

So-called generic top-level domains (gTLDs), consisting of 3 or more letters, include the following:

Domain	What it is (usually)
.aero	an organization in the air-transport industry
.asia	legal entities within the Pan-Asia and Asia-Pacific region
.biz	a business
.cat	a site associated with Catalan language and culture
.com	generally a commercial organization, business, or company
.coop	a nonprofit business cooperative, such as a rural electric co-op

.edu	an educational institution
.gov	a nonmilitary U.S. governmental entity, usually federal
.info	an informational site for an individual or organization, without restriction
.int	an international organization
.jobs	information about employment, such as job openings
.mil	a U.S. military organization
.mobi	a site providing content for mobile devices
.museum	a museum
.name	an individual
.net	suggested for a network administration, but actually used by a wide variety of sites
.org	suggested for a nonprofit organization, but actually used by a wide variety of sites
.post	postal services
.pro	a professional, such as an accountant, lawyer, or physician
.tel	Internet communications identifier for an individual or organization
.travel	information about travel

Domain names with 2 letters are generally for countries or regions. The **top-level domain** .us, for instance, is available to persons, organizations, and entities in the U.S. More examples: .eu (European Union), .jp (Japan), .ru (Russia), .uk (United Kingdom).

Internet Lingo

The following abbreviations are sometimes used on the Internet and in e-mail.

BTW	By the way	GOK	God only knows	LOL	Laughing out loud
CBLO	See below	GTG	Got to go	PLS	Please
F2F	Face to face; a personal meeting	HHOK	Ha, ha—only kidding	ROFL	Rolling on the floor laughing
FCOL	For crying out loud	IMHO	In my humble opinion	TAFN	That's all for now
FWIW	For what it's worth	IMO	In my opinion	TTFN	Ta-ta for now

Emoticons, or **smileys**, are a series of typed characters that, when turned sideways, resemble a face and express an emotion. Here are some smileys often encountered on the Internet.

: -)	Smile	: - D	Laugh	: - (	Unhappy	: - b..	Drooling
: -)	Wink	: - *	Kiss	: - o	Surprised	{ * }	A hug and a kiss

Informative and Useful Websites

Name	URL	Description
Daily Data		
Federal Register	www.federalregister.gov	Online magazine approach to the government's daily journal. Browse by topic, location, agency, etc.
Flowing Data	flowingdata.com	Online data visualizations and statistics.
ResourceShelf	www.resourceshelf.com	Librarians and researchers share the websites they find.
Today's Front Pages	www.newseum.org/todaysfrontpages	Today's front page from more than 500 newspapers worldwide.
Education and Exhibits		
American Memory	memory.loc.gov	More than 5 million items from the Library of Congress, including audio, maps, movies, photos, prints, and sheet music.
Europeana	europeana.eu	Network of European cultural organizations linking to more than 6 million digital items.
Internet Archive	www.archive.org	Digital library of free cultural artifacts and Internet sites.
MIT OpenCourseWare	ocw.mit.edu	Free and open educational course material from Massachusetts Institute of Technology.
New York Public Library Digital Gallery	digitalgallery.nypl.org	More than 700,000 images digitized from primary sources and printed rarities in the library's collections.
Our Documents	www.ourdocuments.gov	Digitized images and text of 100 milestone documents from America's history.
SmART History	smarthistory.org	Open educational resource on art history.
World Digital Library	www.wdl.org	Collection of significant primary documents from countries around the world.
Statistics		
DATA.gov	www.data.gov	Open access to raw government data files.
FedStats	www.fedstats.gov	Statistics by topic or program from more than 100 federal agencies.
Swivel	www.swivel.com	Community for users to visually map out and share statistics.
United Nations Statistics Division	unstats.un.org	International data sets and country profiles with demographics and stats on society, industry, and the environment.
U.S. Economy at a Glance	stats.bls.gov/eag	Quick reference tables on employment and wages from the Bureau of Labor Statistics.
Online Tools		
Kayak	www.kayak.com	One stop search of multiple travel-booking sites for the lowest fares and price trends.
LibraryThing	www.librarything.com	Track the books you've read, receive suggestions for new books, and compare lists with similar readers.
Wolfram Alpha	www.wolframalpha.com	Ready reference through computation of databases maintained by Wolfram Research.
Open Congress	www.opencongress.org	Easily follow Congress and find news about specific members, bills, committees, and issues. Receive updates by RSS feed.
Downloadable Tools		
Google Earth	earth.google.com	Free downloadable interactive world atlas and mapping software.
Stellarium	www.stellarium.org	Free downloadable planetarium that visualizes astronomical phenomena in real time from any point on Earth.

POSTAL INFORMATION

Basic U.S. Postal Service

The Postal Reorganization Act, creating a government-owned postal service under the executive branch and replacing the old Post Office Department, was signed into law by Pres. Richard Nixon, Aug. 12, 1970. The service officially came into being on July 1, 1971. The U.S. Postal Service is governed by an 11-person board of governors. Nine of the members are appointed by the president, with Senate approval. These 9 choose a postmaster general. The board and the postmaster general choose the 11th member, who serves as deputy postmaster general.

Congress passed the Postal Accountability and Enhancement Act, which overhauled postal service operations for the first time since 1971, on Dec. 8, 2006. New operating provisions included the ability to adjust rates annually, negotiate for contracts, and invest profits in internal improvements.

U.S. Domestic Rates

Domestic rates apply to the U.S., to its territories and possessions, and to APOs and FPOs. Many changes in domestic postal rates, fees, and services took effect May 11, 2009.

First-Class Mail

First-Class Mail includes written matter such as letters, postal cards, and postcards (private mailing cards), plus all other matter wholly or partly in writing, whether sealed or unsealed, except book manuscripts, periodical articles and music, manuscript copy accompanying proof sheets or corrected proof sheets of the same, and writing authorized by law on matter of other classes. Also included: matter sealed or closed against inspection, bills, and statements of accounts.

Written letters and matter sealed against inspection cost **44¢** for first ounce, 17¢ for each additional ounce or fraction thereof, up to 3.5 oz. Postcard postage is **28¢**. Large envelopes measuring up to 12 in. by 15 in. (or standard envelopes over 3.5 oz.) cost **88¢** for the first ounce and 17¢ for each additional ounce or fraction thereof. Presort- and automation-compatible mail can qualify for lower rates if certain piece minimums, mailing permits, and other requirements are met.

Express Mail

Express Mail provides guaranteed expedited service for any mailable article (up to 70 lbs and not over 108 in. in combined length and girth). Offers next day delivery by noon to most destinations; there is a \$12.50 extra charge for Sunday or holiday delivery. Second-day service is available to locations not on the Next Day Delivery Network. Prices start at \$13.65 for items weighing up to 8 oz., dependent on distance. All rates include insurance up to \$100, shipment receipt, record of delivery at the destination post office, and free tracking.

Express Mail Flat Rate: \$18.30, regardless of weight, if matter fits into a designated Postal Service flat-rate envelope.

Pickup On Demand service is available for **\$15.30** per stop, regardless of the number of pieces or service used.

Standard Mail

Standard Mail is limited to items less than 16 oz. such as solicitations, newsletters, advertising materials, books, cassettes, and other merchandise. It may not be used for personal correspondence. A minimum volume of 200 pieces or 50 lbs of such items is necessary, and specific bulk mail preparation and sortation requirements apply.

The minimum rate per piece for pieces 3.3 oz. or less is \$0.330 for basic nonmachinable letters. Contact your post office for the discounts offered for automation, presorted, carrier route, destination entry, and other discounts. Separate rates are available for some nonprofit organizations.

Any mailer who uses standard mail is required to pay an annual fee of \$185, good for 365 days. Additional standards apply to mailings of nonidentical-weight pieces.

Priority Mail

Due to expeditious handling and transportation, Priority Mail is delivered in 2 days, in most cases. Priority Mail may include any mailable article up to 70 lbs and not over 108 in. in length and girth combined, including written and other First-Class material.

Pickup On Demand service costs an additional \$15.30, regardless of the number of pieces or service used (e.g., Express Mail, Priority Mail, or Parcel Post can be picked up together).

Priority Mail Flat Rate: \$4.90, regardless of weight, if matter fits into a designated Postal Service flat-rate envelope. **\$4.95, \$10.70, or \$14.50**, regardless of weight (under 70 lbs), if matter fits into special Postal Service flat-rate boxes.

(1) See postmaster for pieces over 15 lbs.

Periodicals

Periodicals include newspapers and magazines.

For the general public, the applicable Package Services or First-Class postage is paid for periodicals.

For publishers, rates vary according to the following:

- (1) whether item is sent to same county,
- (2) percentage of editorial and advertising matter,
- (3) whether the publishing org. is nonprofit or produces educational material for use in classrooms,
- (4) weight,
- (5) distance,
- (6) level of presort, and
- (7) automation compatibility.

Historical Postage Rates, 1851-2010

Postage cost for a prepaid, one-ounce letter (the first-class standard after July 1, 1885).

Effective date	Rate	2010 dollars	Effective date	Rate	2010 dollars	Effective date	Rate	2010 dollars
July 1, 1851	\$0.06 ¹	\$1.57	Jan. 7, 1968	\$0.06	\$0.38	Feb. 3, 1991	\$0.29	\$0.46

(1) For domestic letters traveling under 3,000 miles. (2) The price increased one cent during World War I; Congress restored the prewar rate in 1919.

Package Services

Package Services, formerly Standard Mail (B), is any mailable matter that is not included in First-Class or Periodicals (unless permitted or required by regulations). There are currently 5 subclasses of Package Services: Parcel Post, Parcel Select, Bound Printed Matter, Media Mail (formerly Special Standard Mail), and Library Mail.

The post office determines charges for Package Services according to the weight of the package in pounds and the zone distance shipped (Media Mail and Library Mail rates are determined by weight alone). There is no minimum weight; see separate headings for maximum weight. Presort- and automation-compatible mail for all Package Services can qualify for lower rates if certain piece minimums, mailing permits, and other requirements are met. Contact your local post office for further information. Package Services is not sealed against postal inspection.

Parcel Post

Parcel Post is any Package Services not mailed as Bound Printed Matter, Media Mail, or Library Mail. (Parcel Select, a separate service, is used for medium-to-large volumes of packages.) Any Package Services matter may be mailed at Parcel Post rates provided it does not exceed 70 lbs or 130 in. in combined length and girth. Packages over 84 in. and up to 108 in. in combined length and girth and under 20 lbs use the 20-lb “balloon price.” Packages exceeding 108 in. use the over-sized price—consult postal worker. All fractions of a pound are counted as a full pound. Parcel Post subclass consists of two basic retail rate categories and three drop-shipped categories, the latter collectively known as Parcel Select.

Parcel Post Basic Rates

(Inter BMC/ASF ZIP codes only, machinable¹ parcels, no discount, no surcharge)

(1) Machinable parcels must be not less than 6 in. long, 3 in. high, and 0.25 in. thick or more than 34 in. long, 17 in. high, and 17 in. thick; at least 6 oz. but not more than 35 lbs. (2) Consult postmaster for pieces greater than 20 lbs.

Library Mail

(minimum weight: none; maximum weight: 70 lbs)

Applies to books, printed music, bound academic theses, periodicals, sound recordings, museum materials, and other library materials mailed between schools, colleges, universities, public libraries, museums, veteran and fraternal organizations, and nonprofit religious, educational, scientific, and labor organizations or associations (or to or from these organizations). Advertising restrictions apply. All packages must

be marked “Library Mail,” and may not exceed 108 in. in combined length and girth. Contact your local post office for further information.

Rates are calculated by weight only. Single-piece rates: \$2.26, up to 1 lb; 37¢ for each additional pound or fraction thereof.

Media Mail

(minimum weight: none; maximum weight: 70 lbs)

Applies to books of at least 8 printed pages; 16-mm or narrower-width films; printed music; printed test materials; sound recordings, playscripts, and manuscripts for books; printed educational charts; loose-leaf pages and binders consisting of medical information; computer-readable media. Advertising restrictions apply. Packages must be marked “Media Mail” and may not exceed 108 in. in combined length and girth. Contact your local post office for further information.

Rates are calculated by weight only. Single-piece rates: \$2.38, up to 1 lb; additional pounds thereafter, 39¢ each.

Bound Printed Matter

(minimum weight: none; maximum weight: 15 lbs)

Applies to advertising, promotional, directory, or editorial material that is bound by permanent fastening and consists of sheets of which at least 90% are imprinted by any process other than handwriting or typewriting. Does not include stationery (or pads of blank forms) or personal correspondence. Packages may not exceed 108 in. in combined length and girth and must be marked “Bound Printed Matter” or “BPM.”

Domestic Mail Special Services

Delivery Confirmation

Applies to First-Class Mail parcels, Priority Mail, and Package Services. Available for purchase at the time of mailing only. Provides mailer with the date and time an article was delivered or date and time of any unsuccessful delivery attempts. Electronic confirmation is available for bar-coded matter.

Confirmation is accessible to retail purchasers on the Internet (www.usps.com) or toll-free by phone at (800) 222-1811).

Priority Mail fees: retail, 70¢; electronic, free. First-Class Mail parcels and Package Services fees: retail, 80¢; electronic, 19¢. Standard Mail fee: electronic, 19¢.

Change of Address

The USPS will forward mail to another address provided a Change of Address (COA) card has been filed, either in person (free), on www.usps.com (\$1 fee), or by phone at (800) ASK-USPS (\$1). The COA card, which can be picked up at any post office or printed off the Internet, can also be dropped in any mailbox for filing, free of charge.

Special Handling

Provides preferential handling, but not preferential delivery, to the extent practicable in dispatch and transportation. Available for First-Class Mail, Priority Mail, and Package Services for the following surcharge: up to 10 lb, \$7.40; over 10 lb, \$10.40. Pieces must be marked “Special Handling.”

The USPS introduced the “Forever” stamp Apr. 12, 2007. The Forever stamp initially cost 41¢ and will always be valid as First-Class postage on standard envelopes weighing one ounce or less, even if rates change. The Forever stamp can be purchased at the current First-Class standard rate (44¢ as of Sept. 2010).

Registered Mail

Provides sender with mailing receipt, and a delivery record is maintained. Only matter prepaid with postage at First Class or Priority Mail rates may be registered. Stamps or meter stamps must be attached. The face of the article must be at least 5 in. long, 3½ in. high.

Each additional \$100 or fraction thereof	—	1.00

(1) Not all countries insure items up to the amounts listed in the table. Canada does not insure items for more than \$675.

Collect on Delivery (C.O.D.): Fee: \$5.50 for up to \$50; increases incrementally. Items must be sent as bona fide orders or be in conformity with agreements between senders and addressees. Maximum amount collectible is \$1,000. For details, consult postmaster.

Certified mail: Available for any matter having no intrinsic value on which First Class or Priority Mail postage is paid. A receipt is furnished at the time of mailing, and evidence of delivery is obtained. Basic fee is \$2.80 in addition to regular postage. Return receipt and restricted delivery available upon payment of additional fees. No indemnity.

Insured Mail

Applicable to Standard Mail, Package Services, and First-Class or Priority Mail items eligible to be mailed as Package Services. Matter for sale addressed to prospective purchasers who have not ordered it or authorized its sending cannot be insured. **Note:** For Express Mail, insurance is included up to \$100, and additional insurance can be purchased for significantly lower than those shown here.

SOCIAL SECURITY AND WELFARE

Social Security Coverage

Source: Social Security Administration; World Almanac research; provisions shown are as under current law, Sept. 2010

Social Security Benefits

Social Security's **Old-Age, Survivors, and Disability Insurance (OASDI)** program benefits are based on a worker's **primary insurance amount (PIA)**, which is related by law to the average indexed monthly earnings (AIME) on which Social Security contributions have been paid. The full PIA is currently payable to a worker retiring at age 66 (varies depending on birth year), and to an entitled disabled worker at any age. Spouses and children of retired or disabled workers and survivors of deceased workers receive set proportions of the PIA subject to a family maximum amount.

The PIA is calculated by applying varying percentages to succeeding parts of the AIME. The formula is adjusted annually to reflect changes in average annual wages.

Automatic increases in Social Security benefits are initiated for Dec. of each year, assuming the Consumer Price Index (CPI) for the 3rd calendar quarter of the year increased relative to the base quarter, which is either the 3rd calendar quarter of the preceding year or the quarter in which an increase legislated by Congress became effective. The size of the benefit increase is determined by the percentage rise of the CPI between the quarters measured.

The **average monthly benefit** payable to all retired workers amounted to \$1,164 in Dec. 2009. The average benefit for disabled workers in that month amounted to \$1,064.

Maximum monthly retired-worker benefits payable for individuals who retired at age 65¹

Year attaining age 65	Maximum benefit	
	Payable at retirement	Payable effective Dec. 2009
1990	\$975	\$1,701
1995	1,199	1,762
1996	1,248	1,789
1997	1,326	1,847
1998	1,342	1,831
1999	1,373	1,848
2000	1,435	1,885
2001	1,538	1,952
2002	1,660	2,054
2003	1,721	2,100
2004	1,784	2,133
2005	1,874	2,181
2006	1,961	2,193
2007	1,998	2,163
2008	2,030	2,148
2009	2,172	2,172
2010	2,191	2,191

(1) Assumes retirement at beginning of year.

Amount of Work Required

To qualify for benefits, the worker generally must have worked a certain length of time in covered employment. Just how long depends on when the worker reaches age 62 or, if earlier, when he or she dies or becomes disabled. A person born after 1929 who dies, becomes disabled, or reaches age 62 after 1991 must generally have had at least 10 years work credit to qualify for benefits.

Contribution and Benefit Base

Calendar year	OASDI ¹	Calendar year	OASDI ¹	Calendar year	OASDI ¹
1994	\$60,600	2000	\$76,200	2006	\$94,200
1995	61,200	2001	80,400	2007	97,500
1996	62,700	2002	84,900	2008	102,000
1997	65,400	2003	87,000	2009	106,800
1998	68,400	2004	87,900	2010	106,800
1999	72,600	2005	90,000		

(1) Old-Age, Survivors, and Disability Ins.

A person is **fully insured** who has 1 quarter of coverage for every year after age 21 is reached (or 1950, if later) up to but not including the year the worker reaches 62, dies, or becomes disabled. In 2010, a person earns 1 quarter of coverage for each \$1,120 of annual earnings in covered employment, up to 4 quarters per year.

To receive **disability benefits**, the worker, in addition to being fully insured, must generally have credit for 20 quarters of coverage out of the 40 calendar quarters before he

or she became disabled. A disabled blind worker need meet only the fully insured requirement. Persons disabled before age 31 can qualify with a briefer period of coverage. Certain survivor benefits are payable if the deceased worker had 6 quarters of coverage in the 13 quarters preceding death.

Tax Rate Schedule

(percentage of covered earnings)

Year	Total (for employees and employers, each)	OASDI ¹	HI ²
1979-80	6.13%	5.08%	1.05%
1981	6.65	5.35	1.30
1982-83	6.70	5.40	1.30
1984	7.00	5.70	1.30
1985	7.05	5.70	1.35
1986-87	7.15	5.70	1.45
1988-89	7.51	6.06	1.45
1990 and after	7.65	6.20	1.45
(for self-employed)			
1979-80	8.10%	7.05%	1.05%
1981	9.30	8.00	1.30
1982-83	9.35	8.05	1.30
1984	14.00	11.40	2.60
1985	14.10	11.40	2.70
1986-87	14.30	11.40	2.90
1988-89	15.02	12.12	2.90
1990 and after	15.30	12.40	2.90

(1) Old-Age, Survivors, and Disability Ins. (2) Hospital Insurance (Medicare).

What Aged Workers Receive

A person may receive monthly old-age benefits when he or she has enough work in covered employment and has reached retirement age—age 62 for reduced benefits, the age below for full benefits.

Full-Benefit Retirement Age (FRA) by Birth Year

Year of birth	FRA	Year of birth	FRA
1937 or earlier	65	1955	66 and 2 months
1938	65 and 2 months	1956	66 and 4 months
1939	65 and 4 months	1957	66 and 6 months
1940	65 and 6 months	1958	66 and 8 months

1942	65 and 10 months	1960 or later	67
1943-54	66		

Note: If born on Jan. 1, refer to the previous birth year.

In 2000, the retirement **earnings test** was eliminated beginning with the month when the beneficiary reaches **full-benefit retirement age (FRA)**. A person at and above FRA no longer has benefits reduced because of earnings. However, in the calendar year a beneficiary reaches FRA, benefits are reduced \$1 for every \$3 of earnings above the limit allowed by law (\$37,680 in 2010) for the months prior to FRA. For years before the beneficiary attains FRA, the reduction is \$1 for every \$2 of earnings over the exempt amount (\$14,160 for 2010).

For workers who reached age 65 between 1982 and 1989, Social Security benefits are raised by 3% for each year for which the worker failed to receive benefits between FRA and 70 (72 before 1984), whether because of earnings from work, because the worker had not applied for benefits, or because the worker declined benefits after entitlement. The **delayed retirement credit** is 1% per year for workers who reached age 65 before 1982. The delayed retirement credit rose to 8% per year for 2008 and years after. The rate for workers who reached age 65 in 1998-99 is 5.5%; 2000-01, 6.0%; 2002-03, 6.5%; 2004-05, 7.0%. For 2006-07 it is 7.5%.

For workers retiring early, before full retirement age, benefits are permanently reduced $\frac{5}{9}$ of 1% for each month before FRA, up to 36 months. If the number of months exceeds 36, then the benefit is further reduced $\frac{5}{12}$ of 1% per month.

For example, when FRA reaches 67, for workers who retire at exactly age 62, there are a total of 60 months of reduction. The reduction for the first 36 months is $\frac{5}{9}$ of 36%, or 20%. The reduction for the remaining 24 months is $\frac{5}{12}$ of 24%, or 10%. Thus, when the FRA reaches 67, the amount of reduction at age 62 will be 30%. The nearer to FRA the worker is when he or she begins collecting a benefit, the larger the monthly benefit will be.

Benefits for Worker’s Spouse

The spouse of a worker who is getting Social Security retirement or disability payments may become entitled to an insurance benefit of **one-half of the worker’s PIA** if claiming benefits at full retirement age. Reduced spouse’s benefits are available at age 62 and are permanently reduced ²⁵/₃₆ of 1% for each month before FRA, up to 36 months. If the number of months exceeds 36, then the benefit is further reduced ⁵/₁₂ of 1% per month. Benefits are also payable to the aged divorced spouse of an insured worker if he or she was married to the worker for at least 10 years. To qualify for divorced spouse benefits, the insured worker does not have to be receiving benefits if the divorce occurred at least 2 years earlier. Benefits received as a spouse are reduced by the amount of one’s own PIA.

Benefits for Children of Workers

If a retired or disabled worker has a child under age 18, the **child** will usually get a benefit equal to half of the worker’s unreduced benefit. So will the worker’s spouse, even if under age 62, if he or she is **caring for an entitled child** of the worker who is under 16 or who became disabled before age 22. However, total benefits paid on a worker’s earnings record are subject to a family maximum. Total monthly benefits paid to the family of a worker who retired in 2010 at age 66 and always had the maximum earnings creditable under Social Security cannot exceed \$4,141.

When entitled children reach age 18, their benefits generally stop, but a child disabled before age 22 may get a benefit as long as the disability meets the definition in the law. Benefits will be paid until age 19 to a child attending elementary or secondary school full-time.

Benefits may also be paid to a grandchild or step-grandchild of a worker or of his or her spouse, in special circumstances.

(1) Numbers may not add up to totals due to rounding or incomplete enumeration.

What Disabled Workers Receive

A worker who becomes unable to work may be eligible for a monthly **disability benefit**. Benefits continue until it is determined that the individual is no longer disabled. When a disabled-worker beneficiary reaches FRA (66 years for workers born in 1943), the disability benefit becomes a retired-worker benefit.

Benefits—generally like those for dependents of retired-worker beneficiaries—may be paid to dependents of disabled beneficiaries. However, the maximum family benefit in disability cases is generally lower than in retirement cases.

Survivor Benefits

If an insured worker should die, one or more types of benefits may be payable to survivors, again subject to a maximum family benefit as described above.

1. If claiming benefits at FRA, the **surviving spouse** will receive a benefit equal to 100% of the deceased worker’s benefit. Benefits claimed before FRA are reduced for age with a maximum reduction of 28.5% at age 60. However, if the deceased worker claimed benefits before FRA, the surviving spouse’s benefits are limited to the reduced amount the worker would be getting if alive, but not less than 82.5% of the worker’s PIA. Remarriage after the worker’s death ends the surviving spouse’s benefit rights. However, if the widow(er) marries and the marriage is ended, he or she

regains benefit rights. (A marriage after age 60, age 50 if disabled, is deemed not to have occurred for benefit purposes.) Survivor benefits may also be paid to a divorced spouse if the marriage lasted for at least 10 years.

Disabled widows and widowers may under certain circumstances qualify for benefits after attaining age 50 at the rate of 71.5% of the deceased worker’s PIA. The widow or widower must have become totally disabled before or within 7 years after the spouse’s death or the last month in which he or she received mother’s or father’s insurance benefits.

2. There is a benefit for each **child under age 18**. The monthly benefit for a child of a deceased worker is ³/₄ of the PIA, subject to the family maximum. A child with a disability that began before age 22 may also receive benefits. Also, a child may receive benefits until age 19 if he or she is in full-time attendance at an elementary or secondary school.

3. There is a **mother’s or father’s benefit** for the widow(er) if children of the worker under age 16 are in his or her care. The benefit is 75% of the PIA (subject to the family maximum), and it continues until the youngest child reaches age 16, at which time payments stop even if the child’s benefit continues. However, if the widow(er) has a disabled child beneficiary age 16 or over in his or her care, benefits may continue.

4. **Dependent parents** may be eligible for benefits if they have been receiving at least half their support from the worker before his or her death, have reached age 62, and (except in certain circumstances) have not remarried since the worker’s death. Each parent gets 75% of the worker’s PIA; if only one parent survives, the benefit is 82%, but could be reduced for the family maximum.

5. A **lump sum** cash payment of **\$255** is made when there is a spouse who was living with the worker or a spouse or child eligible for immediate monthly survivor benefits.

Self-Employed Workers

A self-employed person who has **net earnings of \$400 or more** in a year must report such earnings for Social Security tax and credit purposes. The person reports net returns from the business. Income from real estate, savings, dividends, loans, pensions, or insurance policies are not included unless it is part of the business.

A self-employed person receives 1 quarter of coverage for each \$1,120 (for 2010), up to a maximum of 4 quarters per year.

The nonfarm self-employed have the option of reporting their earnings as ²/₃ of their gross income from self-employment. This option can be used only if actual net earnings from self-employment income are less than \$1,600 and less than ²/₃ of their gross income. The option may be used only 5 times. Also, the self-employed person must have actual net earnings of \$400 or more in 2 of the 3 taxable years immediately preceding the year in which he or she uses the option.

When a person has both taxable wages and earnings from self-employment, wages are credited for Social Security purposes first; only as much self-employment income as brings total earnings up to the current taxable maximum becomes subject to the self-employment tax.

Farm Owners and Workers

Self-employed farmers whose gross annual earnings from farming are from **\$600-2,400** may report ²/₃ of their gross earnings instead of net earnings for Social Security purposes. (Farmers whose gross annual earnings are under \$600 cannot use the optional method.) Farmers whose gross income is over \$2,400 and whose net earnings are less than \$1,600 can report \$1,600. Cash or crop shares received from a tenant or share farmer count if the owner participated materially in production or management. The self-employed farmer pays contributions at the same rate as other self-employed persons.

Agricultural employees. A worker’s earnings from farm work count toward benefits (1) if the employer pays the worker \$150 or more in cash during the year; or (2) if the employer spends \$2,500 or more in the year for agricultural labor. Under these rules, a person gets credit for 1 calendar quarter for each \$1,120 in cash pay in 2010.

Foreign farm workers admitted to the U.S. on a temporary basis are not covered.

Household Workers

If an employer pays a household worker (e.g. maid, cook, laundry worker, nurse, babysitter, chauffeur, gardener, or other worker) who is age 18 or older \$1,700 or more in wages in 2010, the wages are covered under Social Security. This includes transportation costs paid for in cash. The job need

not be regular or full-time. The employee should get a Social Security card at the Social Security office and show it to the employer. The employer deducts the amount of the employee’s Social Security tax from the worker’s pay, adds an identical amount as the employer’s Social Security tax, and sends the total amount to the federal government.

Medicare Coverage

The Medicare health insurance program provides acute-care coverage for Social Security and Railroad Retirement beneficiaries age 65 and over; workers and spouses age 65 and over with sufficient Medicare-only coverage in Federal, State, or local government employment; certain persons entitled to receive Social Security or Railroad Retirement disability benefits; certain disabled persons with Medicare-only coverage through government employment; and certain persons with end-stage kidney disease. What follows is a basic description and may not cover all circumstances.

The **basic Medicare plan**, available nationwide, is a fee-for-service arrangement, where the beneficiary may use any provider accepting Medicare; some services are not covered and there are some out-of-pocket costs.

Hospital insurance (Part A). The basic hospital insurance program pays covered services for hospital and posthospital care including the following:

- All necessary inpatient hospital care for the first 60 days of each benefit period, except for a deductible (\$1,100 in 2010). For days 61-90, Medicare pays for services over and above a coinsurance amount (\$275 per day in 2010). After 90 days, the beneficiary has 60 lifetime reserve days for which Medicare helps pay. The coinsurance amount for reserve days was \$550 in 2010.
- Up to 100 days of care in a skilled-nursing facility in each benefit period. Hospital insurance pays for all covered services for the first 20 days; for days 21-100, the beneficiary pays coinsurance (\$137.50 per day in 2009).
- Part-time home health care provided by nurses or other health workers.
- Limited coverage of hospice care for individuals certified to be terminally ill.
- There is a premium for this insurance in certain cases.

Medical insurance (Part B). Eligible elderly and disabled persons can receive benefits under this supplementary program only if they sign up for them and agree to a monthly premium. As of 2007, the monthly premium is tied to annual income. Individuals with income less than \$85,000 and couples with income under \$170,000 pay \$110.50 per person if they sign up upon becoming eligible in 2010. The federal government pays the covered costs of treatment. The Part B deductible was \$155 in 2010. As of 2006, the deductible rose annually in proportion to the increase in average cost of Part B services to aged beneficiaries. After the deductible, the medical insurance program usually pays 80% of the approved amount for the following services:

- Covered services received from a doctor in his or her office, in a hospital, in a skilled-nursing facility, at home, or in other locations.
- Medical and surgical services, including anesthesia.
- Diagnostic tests and procedures that are part of the patient’s treatment.
- Radiology and pathology services by doctors while the individual is a hospital inpatient or outpatient.
- Other services such as X-rays, services of a doctor’s office nurse, drugs and biologicals that cannot be self-administered, transfusions of blood and blood components, medical supplies, physical/occupational therapy, and speech pathology services.

In addition to the above, certain other tests or preventive measures are now covered without an additional premium. These include a “Welcome to Medicare” physical exam and related services, mammograms, bone mass measurement,

colorectal cancer screening, and flu shots. Routine physical exams, dental care, hearing aids, and routine eye care are generally not covered under the basic plan. There is limited coverage for nonhospital treatment of mental illness.

To get medical insurance (Part B), persons approaching age 65 may enroll during the **Initial Enrollment Period** that lasts from 3 months before to 3 months after the 65th birthday, and the month of their birthday. If new enrollers desire coverage to begin in the month they reach age 65, they must enroll in the 3 months before their birthday. Persons who did not enroll during their first enrollment period may enroll later, but late-enrollment premiums may apply.

The monthly premium is deducted from the cash benefit for persons receiving Social Security, Railroad Retirement, or Civil Service retirement benefits. Income from the medical premiums and the federal matching payments are put in a Supplementary Medical Insurance Trust Fund, from which benefits and administrative expenses are paid.

Medicare Advantage (Part C) (formerly Medicare+Choice). Persons eligible for Medicare may have the option of getting services through a health maintenance organization (HMO), a preferred provider organization (PPO), or other **managed care** plan. Any such plan must provide at least the same benefits, except for hospice services, and may provide added benefits—such as lower or no deductibles and coverage for some prescription drugs—but is usually subject to restrictions in choice of health care providers. In some plans services by outside providers are still covered for an extra out-of-pocket cost. Also available as options in some areas are Medicare-approved private fee-for-service plans and, for certain beneficiaries, special needs plans.

Prescription Drug Coverage (Part D). Effective Jan. 1, 2006, a Medicare prescription drug plan provides insurance coverage for prescription drugs. Medicare recipients pay a monthly premium (averaging \$30 in 2010, depending on the provider) and a portion of drug costs. **Enrollment is scheduled to take place Nov. 15-Dec. 31 each year**, and is optional. Coverage varies depending on the drug plan selected.

Part D Benefits

(parameters determined annually by the Centers for Medicare and Medicaid Services)

Standard benefit parameters	2009	2010
Deductible	\$295	\$310
Initial coverage limit	2,700	2,830
Out-of-pocket threshold	4,350	4,550
Minimum generic cost-sharing ¹	2.40	2.50
Minimum other drug cost-sharing	6.00	6.30

Retiree drug subsidy		
Cost threshold	\$295	\$310
Cost limit	6,000	6,300

(1) For generic/preferred multi-source drugs in the catastrophic coverage phase.

Further details are available on the Internet at www.medicare.gov or by calling 1-800-MEDICARE (1-800-633-4227).

Medicare card. Persons qualifying for hospital insurance under Social Security receive a health insurance card similar to cards used by other health insurers. The card indicates whether the individual has taken out medical insurance protection. It is to be shown to the hospital, skilled-nursing facility, home health agency, doctor, or whoever provides the covered services.

Payments are generally made only in the 50 states, Puerto Rico, Virgin Islands, Guam, and American Samoa.

Social Security Financing

Social Security is paid for by a tax on certain earnings (for 2010, on earnings up to \$106,800) for **Old Age, Survivors, and Disability Insurance** and on all earnings (no upper limit) for Hospital Insurance with the **Medicare** Program; the taxable earnings base for OASDI has been adjusted annually to reflect

increases in average wages. The employed worker and his or her employer share Social Security taxes equally.

Employers remit amounts withheld from employee wages for Social Security and income taxes to the Internal Revenue Service; employer Social Security taxes are also payable at

the same time. (Self-employed workers pay Social Security taxes when filing their regular income tax forms.) The Social Security taxes (along with revenues arising from partial taxation of the Social Security benefits of certain high-income people) are transferred to the Social Security Trust Funds; they can be used only to pay benefits, the cost of rehabilitation services, and administrative expenses. Money not immediately needed for these purposes is by law invested in obligations of the federal government, which must pay interest on the money borrowed and must repay the principal when the obligations are redeemed or mature.

Supplemental Security Income

On Jan. 1, 1974, the Supplemental Security Income (SSI) program established by the 1972 Social Security Act amendments replaced the former federal grants to states for aid to the needy aged, blind, and disabled in the 50 states and the District of Columbia. The program provides both for federal payments, based on uniform national standards and eligibility requirements, and for state supplementary payments varying from state to state. The Social Security Administration administers the federal payments financed from general funds of the Treasury—and the state supplements as well, if the state elects to have its supplementary program

federally administered. States may supplement the federal payment for all recipients and must supplement it for persons otherwise adversely affected by the transition from the former public assistance programs. In May 2010, the number of persons receiving federally administered SSI payments was 7,800,015 and the payments totaled about \$4.2 billion.

The maximum monthly federal SSI payment for individuals with no other countable income, living in their own household, was \$674 in 2010. For couples the maximum payment was \$1,011.

Social Security Statement

On Oct. 1, 1999, the Social Security Administration initiated regular mailings of an annual Social Security Statement to all workers age 25 and older not already receiving benefits. Workers will automatically receive statements about 3 months before their birth month. The statement provides estimates of potential monthly Social Security retirement, disability, and survivor benefits as well as a record of lifetime earnings. The statement also gives workers an easy way to determine whether their earnings are accurately posted in Social Security records.

For further information contact the Social Security Administration toll-free at 1-800-772-1213 or visit its web-site at www.socialsecurity.gov

Examples of Monthly Social Security Benefits Available, 2010

Description of benefit or beneficiary	For low earnings (\$18,480) ¹	For med. earnings (\$41,068) ¹	For max. earnings (\$94,802) ^{1,2}
Primary insurance amount (worker retiring at 66 years, 0 months) . . .	\$905.10	\$1,491.30	\$2,346.80
Maximum family benefit (worker retiring at 66 years, 0 months)	1,357.60	2,722.30	4,107.50
Maximum family disability benefit (worker disabled at 55; in 2010) . . .	1,341.30	2,345.40	3,710.70
Disabled worker (worker disabled at 55):			
Worker alone	946.00	1,563.00	2,473.00
Worker, spouse, and 1 child.	1,341.00	2,343.00	3,708.00
Retired worker claiming benefits at age 62:			
Worker alone ³	702.00	1,157.00	1,809.00
Worker with spouse claiming benefits at—			
NRA or over	1,170.00	1,928.00	3,015.00
Age 62 ³	1,029.00	1,697.00	2,653.00
Widow or widower claiming benefits at—			
Age 66 or over ⁴	905.00	1,491.00	2,346.00
Age 60 ⁴	650.00	1,072.00	1,687.00
Disabled widow or widower claiming benefits at age 50-59 ⁵	647.00	1,066.00	1,677.00
1 surviving child ⁴	678.00	1,118.00	1,760.00
Widow or widower NRA or over and 1 child ⁴	1,356.00	2,609.00	4,106.00
Widowed mother or father and 1 child ⁴	1,356.00	2,236.00	3,520.00
Widowed mother or father and 2 children ⁴	1,356.00	2,721.00	4,107.00

Note: Effective Jan. 2010. NRA = Normal retirement age. (1) Career average earnings: an average of lifetime earnings indexed to the year prior to entitlement (2009 in this case). (2) Assumes work beginning at age 22. (3) Assumes maximum reduction. (4) Assumes worker lived and worked until NRA without receiving reduced benefits. (5) Effective Jan. 1984, disabled widow(er) claiming a benefit at age 50-59 receives a benefit equal to 71.5% of the PIA.

(1) Fiscal years 1980 and later consist of the 12 months ending on Sept. 30 of each year. Fiscal years prior to 1977 consisted of the 12 months ending on June 30 of each year. (2) Beginning in 1983, includes transfers from general fund of Treasury representing contributions that would have been paid on deemed wage credits for military service in 1957 and later, if such credits were considered covered wages. (3) Includes payments (a) in 1947-52 and in 1967 and later, for costs of noncontributory wage credits for military service performed before 1957; (b) in 1972-83, for costs of deemed wage credits for military service performed after 1956; and (c) in 1969 and later, for costs of benefits to certain uninsured persons who attained age 72 before 1968. (4) Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses were charged currently to the trust fund on an estimated basis, with a final adjustment, including interest, made in the next fiscal year. The amounts of these interest adjustments are included in net interest. For years prior to 1967, the method of accounting for administrative expenses is described in the 1970 Annual Report. Beginning in Oct. 1973, the figures shown include relatively small amounts of gifts to the fund. During 1983-91, interest paid from the trust fund to the general fund on advance tax transfers is reflected. (5) Beginning in 1967, includes payments for vocational rehabilitation services furnished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks. (6) Net change in assets during fiscal year, including amounts borrowed or repaid by other funds.

(1) Fiscal year 1975 consists of the 12 months ending on June 30, 1975; fiscal years 1980 and later consist of the 12 months ending on Sept. 30 of each year. (2) For Part D, premiums include both amounts withheld from Social Security benefit checks (and certain other federal benefit payments) and amounts paid directly to Part D plans (estimated). (3) For Part B, includes matching payments from the general fund, plus certain interest-adjustment items. For Part D, includes all federal govt. transfers. Includes amounts for the transitional assistance benefits in 2004-06. (4) As of 2006, Medicaid is no longer the primary payer for full-benefit dual eligibles. States must pay a portion of their estimated forgone drug costs for this population. As of 2006, states pay 90% of estimated costs, with the percentage phasing down, to 75% in 2015 and later. (5) "Other income" includes recoveries of amounts reimbursed from the trust fund that are not obligations of the trust fund and other small amounts of miscellaneous income. (6) Values after 2005 include additional premiums for Medicare Advantage (MA) plans that are deducted from beneficiaries' Social Security checks, transferred to HI and SMI trust funds and then to the plans. In 2008, includes an adjustment of \$812 mil for interest inadvertently unearned as a result of HI hospice costs that were misallocated to, and paid from, the Part B account from May 2005 to Sept. 2007. (7) Includes costs of Peer Review Organizations from 1983-2001 and costs of Quality Review Organizations beginning in 2002. (8) For Part D, includes payments to plans, subsidies to employer-sponsored retiree drug plans, payments to states for low-income eligibility determinations, and Part D drug premiums (the amount collected from beneficiaries and transferred to plans and an estimated amount for premiums paid directly by enrollees to plans). Includes amounts for the transitional assistance benefits in 2004-06. (9) The financial status of SMI depends on the assets and liabilities of the trust fund. (10) Includes the impact of the Medicare Catastrophic Coverage Act of 1988. (11) Benefit payments less monies transferred from the HI trust fund for home health agency costs. (12) Certain HI hospice costs were misallocated to, and paid from, the Part B account of the SMI trust fund. See also footnote (14). (13) Includes an estimated \$1.804 bil (2006), \$2.270 bil (2007), \$2.930 bil (2008), and \$3.653 bil (2009) for premiums paid directly to Part D plans. (14) Benefit payments were \$229,898 mil shown includes —\$8,484 mil, which represents a transfer from the general fund of the Treasury to the Part B account of the SMI trust fund for HI hospice costs that were misallocated to, and paid from, the Part B account from May 2005 to Sept. 2007. (The HI trust fund, in turn, transferred \$8,484 mil to the general fund.) **Note:** Numbers may not add up to totals because of rounding.

(1) Fiscal year 1975 consists of the 12 months ending on June 30, 1975; fiscal years 1980 and later consist of the 12 months ending Sept. 30 of each year. (2) Other income includes recoveries of amounts reimbursed from the trust fund that are not obligations of the trust fund, receipts from the fraud and abuse control program, and other small amounts of miscellaneous income. In 2008, includes an adjustment of —\$853 mil for interest inadvertently earned as a result of HI hospice costs that were misallocated to, and paid from, the Part B account of the SMI trust fund from May 2005 to Sept. 2007. (3) Values after 2005 include additional premiums for Medicare Advantage (MA) plans that are deducted from beneficiaries' Social Security checks, transferred to the HI and SMI trust funds, and then transferred to the plans. (These additional premiums are incurred when an MA plan is chosen with a monthly payment exceeding the benchmark amount. Enrollees may pay plans directly or have the amounts deducted from their Social Security checks.) (4) Includes costs of Peer Review Organizations from 1983 through 2001 (beginning with the implementation of the Prospective Payment System on Oct. 1, 1983), and costs of Quality Improvement Organizations beginning in 2002. (5) Includes costs of experiments and demonstration projects. Beginning in 1997, includes fraud and abuse control expenses, as provided for by PL 104-191. (6) Includes the lump-sum general revenue adjustment of —\$2,366 mil, as provided for by sec. 151 of PL 98-21. (7) Includes monies transferred to the SMI trust fund for home health agency costs, as provided for by PL 105-33. (8) Certain HI hospice costs were misallocated to, and paid from, the Part B account of the SMI trust fund. (9) Benefit payments were \$218,525 mil. Amount shown includes a transfer of \$8,484 mil to the general fund of the Treasury for HI hospice costs that were misallocated to, and paid from, the Part B account of the SMI trust fund from May 2005 to Sept. 2007. (The general fund, in turn, transferred \$8,484 mil to the Part B account.) (10) Includes the lump-sum general revenue adjustment of —\$968 mil, as provided for by sec. 151 of PL 98-21. **Note:** Numbers may not add up to totals because of rounding.

TAXES

Federal Income Tax

Source: George W. Smith III, CPA, Managing Partner, George W. Smith & Company, P.C.

Highlights of Recent Legislation

Health Care and Education Reconciliation Act

On Mar. 25, 2010, Pres. Barack H. Obama signed into law the 2010 Reconciliation Act. The roughly \$800 billion package includes over \$300 billion in revenue raisers, and new taxes on employers and individuals.

Higher Income Earners. Taxpayers with adjusted gross income that exceeds \$200,000 (\$250,000 married filing jointly) will pay an additional 3.8% Medicare tax on net investment income. Investment income includes interest, dividends, capital gains, annuities, royalties, and passive rental income.

Hospital Insurance. This portion of the law imposes an additional tax rate of 0.9% on earned income (wages, etc.) that exceeds \$200,000 (\$250,000 for married filing jointly).

Medical Expense. Also beginning in 2013, the 7.5% adjustment for medical expense deduction on Schedule A, Form 1040 increases to 10%. For taxpayers age 65 and older it goes into effect in 2017.

Tanning. Congress added another provision on qualified indoor tanning salons. Starting July 1, 2010, a 10% excise tax will apply to tanning services.

Adoption. The adoption expense amount will be indexed for inflation in 2011. In addition, the total adoption credit is allowed even if it exceeds the filer's tax liability.

Hiring Incentives to Restore Employment Act

Pres. Obama passed the HIRE Act on Mar. 18, 2010; it provides additional tax breaks for businesses to encourage hiring.

Payroll Tax. This provision temporarily suspends the employer's Social Security payroll tax paid for qualified employees. The law applies to wages paid to covered workers who are on the employer's payroll after Mar. 18, 2010, and before Jan. 1, 2011. The employee must begin employment after Feb. 3, 2010.

The newly hired worker must not have been employed for more than 40 hours during the 60-day period ending on the date that the individual begins employment. The act provides an employer up to \$1,000 credit for each qualified new hire.

Expenses. The HIRE Act also extends the increased deduction for business equipment expensing limitation (Section 179) of \$250,000 and the investment limitation expensing of \$800,000. This increase had been set to expire at the end of 2009.

IRS Rulings and Other Tax Matters

Haiti Earthquake. Taxpayers may claim a deduction for a qualified Haiti earthquake contribution made between Jan. 11 and Mar. 1, 2010, on their 2009 return. Alternatively, taxpayers may claim the deduction on their 2010 returns filed in 2011.

Bicycling. A maximum \$20 per month commuting reimbursement is excludable from income for employees who bicycle between their home and work. Expenses include the purchase of a bicycle, repair, and storage.

Weight Loss. The IRS allows a medical deduction for costs of certain weight-loss programs. Participation must be for treatment of a physician-diagnosed disease, including obesity. No deduction is allowed for diets that are used for purely cosmetic reasons or special diet foods.

Same-Sex Marriage. The IRS ruled that it is unlawful for same-sex couples to file federal tax returns under any married status, even if the jurisdiction in which the couple lives recognizes such marriages.

Employee Parking. Fringe benefit reimbursement for parking expense provided to an employee who commutes caps out at \$230 per month. The limit also applies to employees who commute by mass transportation.

American Recovery and Reinvestment Act of 2009

On Feb. 17, 2009, Pres. Barack H. Obama signed into law a massive stimulus package. The total cost was estimated at \$787 billion, including \$300 billion in tax relief.

Homebuyer Credit. A \$7,500 credit for first-time homebuyers was increased to a maximum \$8,000 for purchases made after Dec. 31, 2008, and before Dec. 1, 2009. The repayment requirement is eliminated for purchases made during this period, unless the home is disposed of within 36 months. The credit was extended to Apr. 30, 2010.

Existing Home. The home buyer credit was also extended for the purchase of an existing residence for a maximum credit of \$6,500 or 10% of the purchase price of the replacement residence, whichever is less. Contracts that closed prior to Oct. 1, 2010, were eligible.

American Opportunity Tax Credit. This addition to the Hope educational credit increased the credit to a maximum \$2,500 per year for each eligible student. The tax credit can be claimed each year for up to four years. Forty percent of the eligible expenses are refundable for 2009 and 2010.

Alternative Powered Vehicles. A new 10% credit up to \$4,000 is available for the conversion of existing vehicles into plug-in electric drive motor vehicles before 2012.

Energy Credit. The law increased the tax credit for residential energy property to a maximum \$1,500 for 2009 and 2010. The credit includes insulation, exterior windows and doors, central air conditioners, and furnaces.

Military Tax Relief Bill of 2008

Congress unanimously passed this legislation in May 2008; it includes tax breaks for members of the military.

Retaining Jobs. A provision requires civilian employers of service members to keep their jobs available when they return from active duty.

Home Buyers. Military personnel on official extended duty outside the U.S. are given an extra year to apply for the home owner credit.

Combat Pay. This provision allows military personnel to permanently treat combat pay as tax-free. Military personnel can include tax-free combat pay to compute the Earned Income Credit.

Retirement. The law makes permanent the ability to make penalty-free withdrawals from IRAs for military reservists called to active duty.

Auto Damage. Damage to a person's car may be a deductible casualty loss unless it was caused by the person's willful conduct, such as drunken driving.

Smoking. Taxpayers can deduct the cost of two types of aids for quitting cigarette smoking as a medical expense: (1) participation in a smoking-cessation program; (2) prescription drugs to alleviate the effects of nicotine withdrawal. Over-the-counter products such as nicotine patches and chewing gum remain nondeductible.

Alimony. Payments to an individual under a written separation agreement constitute alimony for federal tax purposes even if the agreement is not enforceable under state law.

Working Abroad. Many Americans who live and work abroad are eligible to exclude a certain amount of their pay from U.S. income taxes. The amount of earned income that is excludable for 2010 is \$91,400.

Penalties. Penalties and fines paid to a governmental agency or department are not deductible. This includes parking and speeding tickets as well as penalties for late filing of a tax return.

Death Benefits. Qualified accelerated death benefits paid under a life insurance contract to terminally ill persons (certified as expected to die within 24 months) are excludable from gross income.

Sale of Residence. Married couples filing jointly who have lived in their principal residence for at least two years out of the last five years can exclude up to \$500,000 of the gain on the sale of their residence. Single taxpayers can exclude up to \$250,000.

Household Workers. The annual threshold dollar amount for reporting and paying social security and federal unemployment taxes on domestic employees, including nannies and housekeepers, for 2010 is \$1,700. Household workers under 18 are exempt unless household work is their principal occupation.

Student Loans. For 2010, the income phase-out range for the student loan interest deduction up to \$2,500 is \$60,000-\$75,000 for single taxpayers and \$120,000-\$150,000 for married taxpayers filing jointly.

Personal Auto Mileage. The mileage allowance deduction for moving and medical expense decreased from 24 cents per mile for 2009 to 16.5 cents in 2010. The rate used for volunteer work for charitable activities remains at 14 cents per mile. Charitable rates are set by Congress, not the IRS.

Business Auto Mileage. Starting in 2010, the standard mileage rate method for calculating the business use of an individual's automobile is 50 cents. The business portion of parking fees and tolls may be deducted in addition to the standard mileage rate.

Investment Expenses. Investors may take a miscellaneous deduction on Schedule A, Form 1040 for financial newspapers, reports, and other expenses incurred in managing their investment portfolio. However, investors cannot deduct expenses for attending a convention, seminar, or similar meeting.

Garage Sales. Revenues received from a garage sale usually do not result in taxable income. In most cases, the item that was sold cost more than the revenue received. These losses are considered personal and, therefore, not deductible.

"Hands Off." In a unanimous decision, the U.S. Supreme Court held that Individual Retirement Accounts (IRAs) are beyond the reach of creditors. This includes IRA assets of taxpayers who have filed for bankruptcy.

Full-Time Student. A taxpayer in 2010 may not claim a dependency exemption for an individual who qualifies as a full-time student and is over age 23 at the end of the year, unless the student's gross income is less than \$3,650.

First Job. Graduates may not deduct the expenses of seeking their first job. Expenses include auto rental, plane travel, motel costs, and meals.

Day Camps. The cost of computer camps, soccer camps, and other specialty day camps (not overnight) for children may qualify for the child care credit. The child must be under age 13 and the expenses must be incurred so the parent or parents can work.

Income Tax Errors

Periodically, the IRS issues a list of the most commonly made income tax errors. The top five last year were:

1. Incorrect or missing Social Security numbers.
2. Incorrect tax entered from tax tables.
3. Mathematical errors or wrong ID numbers listed for tax credits.
4. Entering withholding and estimated tax payments on the wrong line.
5. General math mistakes.

Meeting With a Tax Preparer

More than 65% of all individual income tax returns are now signed by paid tax professionals. Here are some ideas to keep in mind when visiting a tax preparer:

- **Review** last year's tax return. Make notes of any changes since then such as marriage, divorce, number of dependents, retirement, job changes, additional income, new deductions, etc.
- **Organize** your records with income items first, followed by itemized deductions in sequence: medical, taxes, interest, charitable, and other miscellaneous deductions, followed by gains, losses, rentals, or other items.
- **Time** spent with your preparer may affect your bill. If you bring in jumbled records and deductions, there may be an additional cost to have your tax preparer organize your records.
- **Prepare** a list of questions in advance. Bring with you any invoices or bills that you are not sure of.

Additional Help: For more information about choosing tax preparers, call the IRS Tele-Tax information at (800) 829-4477. Follow the prompts and select Topic 254. This information is also available online at www.irs.gov/taxtopics/tc254.html.

Income Tax Filing and Payment Due Dates

Filing Dates. The due date for filing a 2010 U.S. Individual Income Tax Return Form 1040, 1040A, or 040EZ including U.S. Partnership tax returns, Form 1065, is Fri., Apr. 15, 2011. Calendar year-ending 2010 corporate returns are due Tues., Mar. 15, 2011.

Estimated Payments. Due dates for filing individual quarterly federal estimated tax payments, Form 1040-ES: 1st quarter, Fri., Apr. 15, 2011; 2nd quarter, Wed., June 15; 3rd quarter, Thu., Sept. 15; and 4th quarter, Mon., Jan. 16, 2012. Different filing dates may apply for state/local taxes.

Refunds. Individuals can check on the status of their expected refund by calling the IRS toll-free number at (800) 829-4477, or by checking at www.irs.gov.

Filing Penalties. The IRS can levy two potential penalties after the filing due date when there is a balance owed. One penalty is for failing to file a timely tax return; the other is for failure to pay the tax when due. In addition, interest will be charged on any unpaid tax balance.

Business Returns. The late filing penalty for S corporations and partnerships soars to \$195 per owner or partner per month for up to 12 months. The previous monthly penalty was \$89.

Need More Time to File? Individuals who cannot file their 2010 individual income tax return by the due date, Apr. 15, 2011, may apply for an automatic six-month extension to Mon., Oct. 17, 2011. To qualify for an extension, Form 4868 must be filed no later than the tax return due date Apr. 15, 2011. Approximately 9 million extensions were filed last year.

Other Due Dates. The extension of time to file for calendar year partnerships, estates, and trusts has been reduced to five months; they are due Thurs., Sept. 15, 2011. Calendar year corporations on extension are due the same date.

Statute of Limitations. Taxpayers who have not yet filed their 2007 federal tax return have until Apr. 15, 2011, to file and claim their refund. After that date any refunds for income tax or withholding tax for 2007, including the refundable earned income tax credit, will be lost.

Electronic Filing. The IRS reported that e-filing for individual tax returns grew from 4.2 million returns in 1990, the first year it was available, to 95 million returns in 2009. For 2009, 66% of all individual returns were filed electronically.

Tax Tip. For security purposes, taxpayers should request that tax refunds be deposited directly into their bank accounts.

IRS Contact Information

For Tax Questions: (800) 829-1040

Website: www.irs.gov

Fax: (703) 368-9694

For Forms/Publications: (800) TAX-FORM (829-3676)

For English and Spanish: The IRS provides videotaped instructions both in English and Spanish at participating libraries. Many IRS publications and tax forms, including instructions, are also printed in Spanish. For more information, call (800) TAX-FORM and ask for the free IRS Publication 1SP, *Derechos del Contribuyente*.

For Hearing Impaired: The IRS telephone service for hearing impaired persons is available for taxpayers with access to TDD equipment. The toll-free number is (800) 829-4059.

- **Alert** your preparer if you're waiting to receive additional information. He or she can begin preparing your tax return and include the missing data later to finalize your return.
- **Don't hesitate** to call the preparer if you receive additional information at a later time. However, if you call after the return is completed, changes may cost you additional fees.
- **Don't forget** to review your tax return before signing it. Ask questions about any item you don't understand. Remember, even though your preparer is required to sign the return, *you are responsible for its contents*.

Individual Income Tax Rates and Tax Brackets for 2010

Tax rate	Single	Married filing jointly or qualifying widow(er)	Married filing separately	Head of household
10%	\$1 to \$8,375	\$1 to \$16,750	\$1 to \$8,375	\$1 to 11,950
15%	\$8,376 to \$34,000	\$16,751 to \$68,000	\$8,376 to \$34,000	\$11,951 to \$45,550
25%	\$34,001 to \$82,400	\$68,001 to \$137,300	\$34,001 to \$68,650	\$45,551 to \$117,650
28%	\$82,401 to \$171,850	\$137,301 to \$209,250	\$68,651 to \$104,625	\$117,651 to \$190,550
33%	\$171,851 to \$373,650	\$209,251 to \$373,650	\$104,626 to \$186,825	\$190,551 to \$373,650
35%	Over \$373,650	Over \$373,650	Over \$186,825	Over \$373,650

Note: The 2010 income tax brackets were only slightly increased from the prior year because of mild inflation during the 12-month period from Sept. 2008 through Aug. 2009. The tax rates are identical to the prior year's rates.

Personal Exemptions

Dollar Amounts. The personal exemption amount for each taxpayer, spouse, and dependent for 2010 is \$3,650. The exemption amount is adjusted each year for cost-of-living increases. The personal exemption of an individual who is a dependent of another taxpayer is zero.

Exemption Phase-Out. The exemption deduction phase-out rule for higher-income taxpayers was eliminated for 2010.

Standard Deduction

The standard deduction is a flat dollar amount that is subtracted from the adjusted gross income of taxpayers who do not itemize their deductions.

2010 Standard Deduction Amount

Single	\$5,700
Married filing jointly or qualifying widow(er). . .	\$11,400
Married filing separately	\$5,700
Head of household	\$8,400

Dependents Tax Returns. An individual reported as a dependent on another person's 2010 income tax return generally may claim on his or her own tax return only the greater of \$950 or the sum of \$300 plus earned income not to exceed the regular standard deduction.

Additional Standard Deduction

Taxpayers in 2010 who do not itemize, are 65 or older, and/or blind may claim an additional standard deduction.
Single or head of household, 65 or older OR blind. \$1,400
Single or head of household, 65 or older AND blind \$2,800
Married filing jointly or qualifying widow(er), 65 or older OR blind (per person) \$1,100
Married filing jointly or qualifying widow(er), 65 or older AND blind (per person) \$2,200
Married filing separately, 65 or older OR blind \$1,100
Married filing separately, 65 or older AND blind \$2,200

Savings Plans for Traditional and Roth IRAs

Traditional IRA. For 2010 the maximum tax-deferred Individual Retirement Arrangement (IRA) deduction for a married couple filing jointly is \$10,000 (\$5,000 for singles). Each spouse can contribute up to \$5,000 annually even if one spouse has little or no income. Individuals age 50 or older can fund an additional "catch-up" amount of \$1,000. However, there are income limitations and phase-outs.

Withdrawals. There is a 10% penalty for IRA distributions before age 59½. Distributions paid to the beneficiary due to a disability or death of the owner are not subject to this penalty, nor are payments used for certain unreimbursed medical expenses, higher-education expenses, or first-time homebuyer acquisition costs (up to \$10,000).

Contributions to a traditional IRA or Roth IRA made after Apr. 15, 2011, will automatically be considered deposits for the year 2011.

Roth IRA. Although contributions paid into a Roth IRA are not tax deductible, distributions of funds including investment earnings held in the account for five years or longer and distributed after age 59½ are both free of income tax and the 10% early withdrawal penalty at the time of distribution. Withdrawals from the account in less than five years can be subject to income tax and the 10% withdrawal penalty regardless of age. There are income limitations on contributions. Beginning in 2010, the income limitation for converting traditional IRAs to Roth IRAs has been eliminated.

401(k) Plan. The maximum amount that an individual under age 50 can contribute to a 401(k) plan for 2010 is \$16,500. Individuals age 50 or older can put away an additional \$5,500, for a total of \$22,000.

Distributions. The owner of a traditional IRA (or a SIMPLE, pension, or profit-sharing plan account) must begin receiving distributions by Apr. 1 of the calendar year following the year in which he or she reaches age 70½. Any employee who works beyond 70½ and is not a 5% or more owner of the business can continue to defer profit-sharing and pension plan distributions.

IRA Publication. For more information on IRAs call the IRS at (800) TAX-FORM (829-3676) for a free copy of Publication 590, *Individual Retirement Arrangements (IRAs)*.

Itemized Deductions for 2010

If the total amount of itemized deductions is more than the standard deduction, taxpayers generally should itemize their deductions on Schedule A, Form 1040. The following examples are just a few of the many deductions that may be itemized. Some are subject to income limitations.

Medical expenses that exceed 7.5% of the taxpayer's adjusted gross income are deductible. Medicines, birth control pills, and insulin qualify if prescribed by a physician. Cosmetic surgery for congenital abnormality, for personal injury from an accident or trauma, or for a disfiguring disease is also allowed as a medical deduction.

Tax Tip. A mother-to-be may deduct the cost of classes taken for Lamaze breathing and relaxation techniques, stages of labor, and delivery procedures as a medical expense.

Medical Traveling. Taxpayers may deduct part of the travel expense to seek health care. Travel can include auto and plane expense.

Long-Term Care. Based on various annual limits, long-term care insurance premiums are deductible as medical expenses. For 2010 taxpayers age 71 and older can claim as much as \$4,110 per person; 61 to 70 up to \$3,290. Individuals age 51 to 60 can deduct up to \$1,230; 41 to 50, up to \$620; and age 40 and younger are limited to \$330.

Interest. Mortgage interest paid on a primary residence or a second home is deductible. However, there are limitations on mortgages in excess of \$1 million. Interest on home equity loans also is deductible, but only covering the first \$100,000 of equity debt. Personal credit card interest is not deductible.

Taxes. State and local income taxes including real estate taxes are deductible. An auto license fee based on weight, model, year, or horsepower is not deductible. A tax based on the car's value qualifies as a personal property tax.

Charitable Contributions. Individuals may not deduct the value of volunteer work they personally perform for charities.

Personal Losses. Casualty and theft losses are deductible subject to a \$100 reduction and further reduced 10% for each occurrence. Separate rules apply for federally declared disasters. Unreimbursed automobile accident damage may be a deductible casualty loss.

Miscellaneous Deductions. Certain miscellaneous expenses are deductible, but only the amount that exceeds 2% of adjusted gross income. Expenses include investment expenses, union

and professional dues, tax preparation fees, safe deposit box rental fees, and most (but not all) expenses for a job search.

Business Expenses. Deductible miscellaneous expenses include unreimbursed employee business expenses such as travel, automobile, telephone, and gifts. However, only 50% of the cost of customer meals and entertainment is deductible.

Moving Expenses. Taxpayers who change jobs or are transferred usually can deduct part of their moving expenses, including travel and the cost of moving household goods, but not cost of meals.

Gambling. Lottery, slots, Texas Hold-Em poker, craps, bingo, or other gambling expenses are deductible if the taxpayer itemizes on Schedule A. However, expenses are limited to gambling winnings reported on page one, Form 1040. If there are no winnings on page one, there are no deductions allowed on Schedule A.

Tax Credits

A tax deduction reduces a taxpayer's taxable income. Tax credits reduce, dollar-for-dollar, the amount of tax owed. Credits are better!

Energy Credits. There are many energy-related credits— from the purchase of an alternative fuel vehicle, the installation of solar/fuel cell property in a residence to the production of biodiesel or ethanol.

Earned Income Credit. Lower-income workers who maintain a household may be eligible for an Earned Income Credit (EIC). This credit is based on total earned income such as wages, commissions, and tips. Military personnel can include tax-free combat pay in income to compute the credit. There are phase-out rules. Refer to the income tax instructions for guidance.

American Opportunity Tax Credit. Modifying the Hope credit, this provides a partially refundable \$2,500 credit to cover each of four years of college. The credit begins to phase out for higher income individuals.

Adoption Credit. The adoption credit for qualified expenses increased to \$13,170 in 2010. The credit limit is per person, not per year, and is adjusted annually for inflation. The exclusion phases out for taxpayers whose income is between \$182,520 and \$222,520, when the credit is completely phased out.

Alternative Minimum Tax

AMT. The Alternative Minimum Tax was established in 1969 to prevent people with very high incomes from using special tax breaks to pay little or no tax. It hasn't been indexed or adjusted for inflation. Because of changes in the tax law, this tax now affects more and more middle-income taxpayers every year.

Assistance. Instructions included with tax forms 1040 and 1040A provide help for individuals to determine if they are subject to the AMT. Tax Form 6251 is used to figure how much additional tax, if any, is owed.

Estate and Gift Taxes Exclusion

Estate Tax. The Tax Relief Reconciliation Act increased the estate tax exclusion from \$675,000 in 2001 to \$3.5 million in 2009. As the law stands now, the estate tax changes for 2010 have expired.

Rates. The maximum tax rate in 2001, based on the value of an estate, was 55%. The rate was decreased over the years to a maximum 45% in 2009. Like the estate tax exclusion, the rates expired in 2010.

Legislation. Starting in 2011, the estate tax laws revert to the old lower exclusion of \$1 million and the higher maximum tax rate of 55%.

Resident Aliens. The estate of a resident alien is subject to the same rules as that of an American citizen. All property owned worldwide is subject to the U.S. estate tax rules and regulations.

Gifting. U.S. citizens, residents, and non-resident aliens can make tax-free gifts of up to \$13,000 in 2010 to as many individuals as he or she chooses. For married couples the gift is twice that amount, \$26,000, even if only one spouse does all the gifting.

Lifetime Gifting. A \$1 million gift tax exclusion is the total limit an individual is allowed to give to other individuals (other than charities and the annual \$13,000 gifting) during his or her lifetime before having to pay gift taxes.

Tax-Free Gifting. The gift tax does not apply for tuition that donors pay directly to schools or for medical expenses that donors pay on behalf of donees.

Taxable Social Security Benefits

Earnings Limitations. In 2010 Social Security recipients who have not reached full retirement age of 66 will lose \$1 of their benefits for every \$2 of earned income over \$14,160. Recipients who reach full retirement age in 2010 will not lose any benefits if they earn \$37,680 or less. Recipients will have to pay back some benefits if their income exceeds that amount.

Taxable Benefits. Up to 50% of Social Security benefits may be taxable if the person's total income is more than \$25,000 but less than \$34,000 for a single individual, head of household, qualifying widow(er), or a married person who is filing separately if spouses lived apart all year; or more than \$32,000 but less than \$44,000 for married individuals filing jointly. For higher incomes, 85% of Social Security benefits may become taxable.

Tax-Free. If the only income received during the year was Social Security, these benefits are not taxable and you probably do not have to file a tax return.

Retention of Income Tax Records

How long should a taxpayer keep copies of their tax returns and supporting records? The answer is a combination of judgment and the statutes of limitations. Since federal tax returns generally can be audited for up to three years after filing, or six years if the IRS suspects underreported income, it's wise to keep copies of the income tax return and records at least seven years after a return is filed.

IRS Tax Audits

In 2009, the IRS conducted more than 1,452,888 audits of individual taxpayers. Business audits numbered 58,144. Most taxpayers have no reason to be concerned about being audited—unless they happen to be one of the 1.03% returns being audited.

Decisions. The IRS audit selection process is not done randomly. It is based on a set of formulas that are designed to spot questionable returns. If the IRS concludes that the taxpayer owes more tax and he or she disagrees with the findings, the taxpayer can meet with a supervisor. If the taxpayer still does not agree, he or she can appeal to a separate Appeals Office, or take it to the U.S. Tax Court, Federal District Court, or the U.S. Court of Federal Claims.

Tax Court. The U.S. Tax Court is a federal court where taxpayers can dispute tax deficiencies as determined by the Commissioner of Internal Revenue before payment of the disputed amounts. The Tax Court is composed of presidentially appointed members. Many taxpayers will choose the Tax Court because they are not required to pay the contested tax up front.

Appeals. For more information about audits, call the IRS at (800) TAX-FORM (829-3676) for its free Publication 556, *Examination of Returns, Appeal Rights, and Claims for Refund*. Or visit www.irs.gov.

Your Rights as a Taxpayer

Congress has enacted "Taxpayer Bill of Rights" legislation and created an Office of the Taxpayer Advocate within the IRS, with authority to order IRS personnel to issue refund checks and meet deadlines for resolving disputes. Taxpayer advocates can be contacted at (877) 777-4778; (800) 829-4059 for TTY/TDD.

The IRS must pay legal fees if the taxpayer wins the case and the IRS cannot show it was "substantially justified" in pursuing the disputed amount. For more information ask for free IRS Publication 1, *Your Rights As a Taxpayer*, by calling (800) TAX-FORM (829-3676).

Reporting Wrongdoings

To confidentially report misconduct, waste, fraud or abuse by an IRS employee, call (800) 366-4484; (800) 877-8339 for TTY/TDD.

More IRS Services

To find out what additional services are available, ask for Publication 910, *IRS Guide to Free Tax Services*. This guide contains a list of free tax publications and other information including tax education and assistance programs and a list of Tele-Tax topics.

State Government Personal Income Tax Rates, 2010

Source: Reproduced with permission from CCH State Tax Guide, published and copyrighted by CCH Inc., a Wolters Kluwer business

Alaska, Florida, Nevada, South Dakota, Texas, Washington, and Wyoming did not have state income taxes and are thus not listed. Tax rates apply in stages—for example, a single person in Arizona making \$60,000 in taxable income would pay 2.59% on the first \$10,000 of income, 2.88% on the next \$15,000 and so on. For further details, see notes at end of table.

* = Data not collected. **Note:** Because of rounding, details may not add upto totals. Prior to 1959-60, data do not include Alaska and Hawaii. (1) Population data for 1899-1900 are based on total population from the decennial census. From 1919-20 to 1959-60, population data are total population, including armed forces overseas, as of July 1 preceding the school year. Data for later years are for resident population excluding armed forces overseas. (2) Data for 1899-1960 are school year enrollment; data for later years are fall enrollment. (3) In 1899-1900, includes interest on school debt. (4) Because of changes in the definition of "current expenditures," data for 1959-60 and later years are not entirely comparable with prior years. (5) Data prior to 1959-60 include supervisors, principals, teachers, and nonsupervisory instructional staff. (6) ADA = average daily attendance.

U.S. Public High School Graduation Rates, 2006-07

Source: National Center for Education Statistics, U.S. Dept. of Education

Idaho	80.4	15	Missouri	81.9	10	Pennsylvania	83.0	8	Total U.S.	73.9	

Note: The averaged freshman graduation rate provides an estimate of the percentage of students who receive a regular diploma within 4 years of entering ninth grade. The rate uses aggregate student enrollment data to estimate the size of an incoming freshman class and aggregate counts of the number of diplomas awarded 4 years later.

High School Dropouts by Sex, Race, and Ethnicity, 1960-2008

NA = Not available. **Note:** Table shows "status" dropouts, defined as 16- to 24-year-old persons who are not enrolled in school and who have not completed a high school program, regardless of when they left school. People who have received GED credentials are not shown. Excludes persons in prisons or in the military, and other persons not living in households. Race categories exclude persons of Hispanic ethnicity unless otherwise noted. (1) Includes other racial/ethnic categories not separately shown. (2) Based on the Apr. 1960 decennial census. (3) White and black figures include persons of Hispanic ethnicity for 1970. (4) Because of changes in data collection procedures, data may not be comparable with figures for years prior to 1992. (5) White and black figures exclude persons identifying themselves as being of two or more races.

— = Not available or not reliable data. **Note:** Counts based on reports from states and District of Columbia. Details may not add to totals because of rounding and/or incomplete enumeration. (1) Includes limited strength, vitality, or alertness due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, or diabetes.

Trends in International Mathematics and Science Study (TIMSS), 1995-2007

Source: National Center for Education Statistics, U.S. Dept. of Education

The TIMSS is an international assessment test that was administered to 4th and 8th graders in 1995, 1999 (5th graders only), 2003, and 2007, to measure the degree to which students have learned concepts of mathematics and science. Listed below are the average scaled scores for each country. Scores are reported on a scale of 0 to 1,000, with the scale average set at 500. Student achievement is considered “high” with a score of at least 550; a score of at least 475 is considered “intermediate.”

Homeschooled Students

Source: National Center for Education Statistics, U.S. Dept. of Education

A total of 1,508,000 U.S. students in grades K-12 were homeschooled in 2007, 84% of them full-time, according to the latest available statistics from the U.S. Dept. of Education.

In a 2007 U.S. Dept. of Education survey of parents who homeschool their children the reasons given as *most important* included concern over the school environment, including such factors as safety, drugs, or negative peer pressure (20.5%); desire to provide religious or moral instruction (35.8%); dissatisfaction with academic instruction in schools (17.1%); and a physical or mental health problem or other special need (5.7%). In all, 87.6% cited concern over school environment as one of their reasons, while 83.3% cited religious or moral instruction, and 72.7% cited dissatisfaction with academic instruction.

Below is a breakdown of homeschooled students by selected characteristics for 1999 and 2007.

Characteristic	1999			2007		
	No. of students	Percentage distribution	Home-schooling rate ¹	No. of students	Percentage distribution	Home-schooling rate ¹
Total U.S.	850,000	100.0%	1.7%	1,508,000	100.0%	2.9%
Homeschooled entirely	697,000	82.0	—	1,266,000	84.0	—
Homeschooled and enrolled in school part-time	153,000	18.0	—	242,000	16.0	—
Race/ethnicity ²						
White.	640,000	75.3	2.0	1,159,000	76.8	3.9
Black.	84,000	9.9	1.0	61,000	4.0	0.8
Hispanic	77,000	9.1	1.1	147,000	9.8	1.5
Other.	49,000	5.8	1.9	141,000	9.3	3.4
Number of children in household						
One child.	120,000	14.1	1.5	187,000	12.4	2.2
Two children	207,000	24.4	1.0	412,000	27.3	2.0
Three or more children	523,000	61.6	2.4	909,000	60.3	4.1
Household income						
\$25,000 or less	262,000	30.9	1.6	239,000	15.9	2.1
\$25,001-50,000.	278,000	32.7	1.8	364,000	24.1	3.4
\$50,001-75,000.	162,000	19.1	1.9	405,000	26.8	3.9
\$75,001 or more	148,000	17.4	1.5	501,000	33.2	2.7
Parents' education						
High school diploma or less	160,000	18.9	0.9	206,000	13.7	1.4
Some college or vocational/technical	287,000	33.7	1.9	549,000	36.4	3.8
Bachelor's degree	213,000	25.1	2.6	444,000	29.4	3.9
Graduate/professional degree	190,000	22.3	2.3	309,000	20.5	2.9

(1) The homeschooling rate is the percentage of the total group or subgroup within the general population that is homeschooled. For example, in 1999, 1.1% of all Hispanic students K-12 in the U.S. were homeschooled. (2) Hispanic or Latino persons may be of any race. Race categories include non-Hispanic population only.

NA = Not available. (1) Purchasing power parities (PPPs) are the rates of currency conversion that equalize the purchasing power of different currencies by eliminating differences in price levels between countries. (2) Salaries in Belgium vary depending on whether French (Fr.) or Flemish (Fl.) community.

Charges at U.S. Institutions of Higher Education, 1969-70 to 2008-09

Source: National Center for Education Statistics, U.S. Dept. of Education

Figures for 1969-70 are average charges for full-time resident degree-credit students; figures for later years are average charges per full-time equivalent student. Room and board are based on full-time students. These figures are enrollment-weighted, according to the number of full-time-equivalent undergraduates, and thus may vary from averages given elsewhere.

Financial Aid for College and Other Postsecondary Education

As of July 2010. Reviewed by National Assoc. of Student Financial Aid Administrators.

The cost of postsecondary education in the U.S. continues to increase, but financial aid—in the form of **grants** (no repayment needed), **loans**, and/or **work-study** programs—is widely available to help families meet these expenses. Most federal aid is limited to families that demonstrate financial need as determined by standard formulas. Student aid is designed to help students attend the college of their choice regardless of their ability to pay. Financial aid personnel at each school can provide information about all aid programs (federal, state, institutional, and private) available to students, steps to apply for them, and deadlines, all of which may vary.

All applicants for federal aid must file a Free Application for Federal Student Aid (FAFSA), generally as soon as possible after Jan. 1 for the academic year starting the following Sept. Figures provided should match federal income tax forms filed for the previous year. Applicants may also import certain information from their tax forms when they file their taxes online. Many other sources of aid—state governments, employers and unions, civic organizations, and the institutions themselves—also use the FAFSA to determine eligibility for aid. There are also special federal programs that pay for postsecondary education in return for service: AmeriCorps (phone: 1-800-942-2677), ROTC (1-800-USA-ROTC), and the G.I. Bill (1-888-442-4551). Additional forms and applications may be required if a student is to be considered for non-federal aid. Aid must be reapplied for annually.

A **federal formula**, based on information provided on the FAFSA, takes into account such factors as family income in the preceding calendar year, parental and student assets (excluding the parents’ home, farm, or small business), length of time to parents’ retirement, and unusual expenses (such as very high medical expenses). Outside scholarships (even non-need-based) are also taken into account in determining aid eligibility for federal, institutional, and state financial aid programs.

The formula determines a family’s **expected family contribution** (EFC), which is divided among the number of family members—excluding parents—in college. The EFC is subtracted from the total cost of attending college for each person (including tuition and fee charges, room and board or allowance for living costs, books and supplies, transportation to and from school, and other miscellaneous costs). The

difference determines financial need and the maximum federal aid for which the family may be eligible. (Some institutions use a separate formula for need-based institutional aid.) Some schools guarantee to meet the full financial need of each admitted student; most do their best to cover a student’s financial need using various forms of financial aid but may not be able to because of a lack of funds.

The **aid package** offered by each school may include one or more of the following resources: Federal Pell Grants, for those who demonstrate sufficient financial need; Federal Supplemental Educational Opportunity Grants, for those who still have need after receiving Pell Grants; grants from the school; Federal Work-Study or other work programs; low-interest Perkins loans; and subsidized and unsubsidized Stafford loans. Parents of undergraduates may also apply for a Federal PLUS loan. Unsubsidized Stafford loans and all PLUS loans to parents are available to all students regardless of their financial need, but students and parents must still complete the FAFSA to get these loans.

Loans have varying interest rates and other requirements. Repayment of Perkins and Stafford loans does not begin until after graduation; deferments, income-based repayment plans, and loan forgiveness are available on federal loans for students who meet certain requirements. For PLUS loans, parents must pass a credit check and begin repayment of both principal and interest while the student is still in school.

Certain federal income **tax credits and refunds** are also available to families who meet income and other requirements; see the chapter on taxes.

Rules for financial aid are complex and changeable. *Funding Education Beyond High School: The Guide to Federal Student Aid*, a comprehensive resource on financial aid from the U.S. Dept. of Education, is available in English and Spanish on the Department’s website: studentaid.ed.gov/students/publications/student_guide/index.html

Further information and FAFSA forms are available from schools or from the Federal Student Aid Information Center, P.O. Box 84, Washington, DC 20044; phone: 1-800-4-FED-AID, Mon.-Fri., 8 AM-12 midnight EST. The Information Center also has a free booklet called *The EFC Formula Book*. FAFSA forms can be obtained online at www.fafsa.ed.gov

(1) Based on number of high school graduates in 2009, as projected by the Western Interstate Commission for Higher Education, and number of students in the class of 2009 who took the ACT.

The SAT

The College Board first administered a new version of the SAT in Mar. 2005 to the graduating class of 2006. The first revision to the test since 1995 added a section in which test takers were asked to write an essay in 25 minutes, among other changes: the critical reading section (formerly the verbal section) now places more emphasis on reading comprehension, and the math section includes more advanced algebra and geometry. Each section is scored on an 800-point scale, making a perfect score 2,400. The test has a time limit of 3 hours and 45 minutes, up from 3 hours.

Results for the graduating high school class of 2006 showed the sharpest drop in SAT scores in 31 years: composite reading and math scores fell by about 7 points. At the same time, the ACT, a competitor to the SAT, reported its largest composite score increase in 20 years. Some critics charged that the drop in SAT scores might be attributed to the increased length. However, a College Board study of some 700,000 tests found no evidence to support this claim. College Board officials suggest that the drop may be due to a decrease in repeat test taking.

NA = Not applicable. **Note:** In 1995, the College Board recentered the scoring scale for the SAT by reestablishing the original mean score of 500 on the 200-800 scale. Earlier scores have been adjusted to account for this recentering. The writing test was first given in Mar. 2005; however, only the scores of the first graduating class to take the revised test are given. (1) Pre-2006 scores are for the Verbal section.

SAT Mean Scores by State, 1990-2010

Note: In 1995, the College Board recentered the scoring scale for the SAT by reestablishing the original mean score of 500 on the 200-800 scale. The College Board states that comparing states or ranking them on the basis of SAT scores alone is invalid, and the College Board discourages doing so. (1) In 2005, the SAT was changed. The verbal portion became critical reading, and a new writing test was added. The 2006 graduating class was the first to take the new test. (2) Based on number of high school graduates in 2009, as projected by the Western Interstate Commission for Higher Education, and number of students in the class of 2009 who took the SAT.

Four-Year Colleges and Universities

General Information for the 2009-10 Academic Year

Source: Peterson’s College Database © 2010 Peterson’s Nelnet, LLC. All rights reserved.

Note: These listings include only accredited degree-granting institutions in the U.S. and the U.S. territories with a total enrollment of 1,000 or more. Only four-year colleges and universities (which award a bachelor’s degree as their highest undergraduate degree) are included. Data reported only for institutions that provided updated information on Peterson’s Annual Survey of Undergraduate Institutions for the 2009-10 academic year.

All institutions are coeducational except those where the ZIP code is followed directly by a number in parentheses. (1) = men only, (2) = primarily men, (3) = women only, (4) = primarily women.

The **Tuition & Fees** column shows the annual tuition and required fees for full-time students, or, where indicated, the tuition and standard fees per unit for part-time students. Where tuition varies according to residence, the figure is given for the most local resident and is coded as follows: (A) = area residents, (S) = state residents; all other figures apply to all students regardless of residence. Where annual expenses are expressed as a lump sum (including full-time tuition, mandatory fees, and room and board), the figure is entered under Tuition & Fees and coded (C) = comprehensive fee. **Room & Board** is the average cost for one academic year. * indicates fee only.

Control: 1 = independent (nonprofit), 2 = independent-religious, 3 = proprietary (profit-making), 4 = federal, 5 = state, 6 = commonwealth (Puerto Rico), 7 = territory (U.S. territories), 8 = county, 9 = district, 10 = city, 11 = state and local, 12 = state-related, 13 = private (unspecified). **Degree** means the highest degree offered: B = bachelor’s, M = master’s, D = doctorate.

Enrollment is the total number of matriculated undergraduate and (if applicable) graduate students.

Faculty is the total number of faculty members teaching undergraduate courses and (if available) graduate courses.

NA or a dash indicates category is inapplicable or data not available from a consistent source.

Health Organizations

Source: World Almanac research

Entries are roughly alphabetized by the basic condition addressed or organization name. Year established is in parentheses. In addition to these selected sites, there is a vast array of medical information on the Internet. It is important, however, to be certain that the source of information is reliable and accurate. Always check with a physician before embarking on any new health-related undertaking.

UNITED STATES FACTS

Superlative U.S. Statistics¹

Source: U.S. Geological Survey, Dept. of the Interior; U.S. Census Bureau, Dept. of Commerce; World Almanac research

Total area for 50 states and Washington, DC (land, 3,537,440 sq mi; water, 256,648 sq mi)	3,794,085 sq mi ²
Largest state	Alaska 663,267 sq mi
Smallest state	Rhode Island 1,545 sq mi
Largest county (excluding Alaska)	San Bernardino County, CA 20,105 sq mi
Smallest county	Arlington County, VA ³ 26 sq mi
Largest incorporated city (in area; pop. 1,000+)	Sitka, AK 4,812 sq mi
Northernmost city	Barrow, AK 71°17' N
Northernmost point	Point Barrow, AK 71°23' N
Southernmost city	Hilo, HI 19°44' N
Southernmost settlement	Naalehu, HI 19°03' N
Southernmost point	Ka Lae (South Cape), island of Hawaii 18°55' N (155°41' W)
Easternmost city	Eastport, ME 66°59'05'' W
Easternmost settlement ⁴	Attu Station, AK 173°11' E
Easternmost point ⁴	Pochnoi Point, on Semisopochnoi Island, AK 179°46' E
Westernmost city	Adak Station, AK 173°11' E
Westernmost settlement	Adak Station, AK 173°11' E
Westernmost point	Amatignak Isl., AK 179°06' W
Highest settlement	Tordal Estates, CO 10,653 ft
Lowest settlement	Bombay Beach, CA -223 ft
Highest point on Atlantic coast	Cadillac Mountain, Mount Desert Island, ME 1,530 ft
Oldest national park	Yellowstone National Park (1872), WY-MT-ID 2,219,791 acres
Largest national park	Wrangell-St. Elias, AK 8,323,148 acres
Highest waterfall	Yosemite Falls—total in 3 sections 2,425 ft (Upper Yosemite Fall, 1,430 ft; Cascades, 675 ft; Lower Yosemite Fall, 320 ft)
Longest river system	Mississippi-Missouri-Red Rock 3,710 mi
Highest mountain	Mount McKinley (Denali), AK 20,320 ft
Lowest point	Death Valley, CA -282 ft
Deepest lake	Crater Lake, OR 1,958 ft
Rainiest spot	Mount Waialeale, HI annual avg. rainfall 426 in.
Largest gorge	Grand Canyon, Colorado River, AZ 277 mi long, 600 ft to 18 mi wide, 1 mi deep
Deepest gorge	Hells Canyon, Snake River, OR-ID 7,900 ft
Largest dam	New Cornelia Tailings, Ten Mile Wash, AZ ⁵ 274,026,000 cu yds material used
Tallest building	Willis Tower, Chicago, IL ⁶ 1,451 ft
Largest building	Boeing Manufacturing Plant, Everett, WA 472,000,000 cu ft; covers 98 acres
Largest office building	Pentagon, Arlington, VA 77,025,000 cu ft; covers 29 acres
Tallest structure	TV tower, Blanchard, ND 2,063 ft
Longest bridge span	Verrazano-Narrows, NY 4,260 ft
Highest bridge	Royal Gorge, CO 1,053 ft above water
Deepest well	Bertha Rogers gas well (inactive), Washita County, OK 31,441 ft

The 48 Contiguous States

Total area for 48 states and Washington, DC (land, 2,959,066 sq mi; water, 160,824 sq mi)	3,119,887 sq mi ²
Largest state	Texas 268,581 sq mi
Northernmost city	Bellingham, WA 48°46' N
Northernmost settlement	Angle Inlet, MN 49°21' N
Northernmost point	Northwest Angle, MN 49°23' N
Southernmost city	Key West, FL 24°33' N
Southernmost mainland city	Florida City, FL 25°27' N
Southernmost point	Ballast Key 24°31' N
Easternmost settlement	Lubec, ME 66°58'49'' W
Easternmost point	West Quoddy Head, ME 66°57' W
Westernmost town	La Push, WA 124°38' W
Westernmost point	Bodelteh Islands, WA 124°46' W
Highest mountain	Mount Whitney, CA 14,494 ft

(1) All areas are total area, including water, unless otherwise noted. (2) Does not add, because of rounding. (3) Smallest county by land area is New York County (Manhattan) at 23 sq mi; its total area including water is 34 sq mi. Superlative shown is for smallest total area. (4) Alaska's Aleutian Islands extend into the eastern hemisphere (across 180° longitude) and thus technically contain the easternmost point and settlement in the U.S. (5) The New Cornelia Tailings Dam is a privately owned industrial dam composed of tailings, remnants of a mining process. (6) The former Sears Tower became formally known as the Willis Tower as of July 16, 2009.

Geodetic Datum of North America

In July 1986, the National Oceanic and Atmospheric Administration's National Geodetic Survey (NGS), in cooperation with Canada and Mexico, completed readjustment and redefinition of the system of latitudes and longitudes. The resulting North American Datum of 1983 (NAD 83) replaces the North American Datum of 1927, as well as local reference systems for Hawaii, Puerto Rico, and the Virgin Islands. The change was prompted by Hawaii's increased need for accurate coordinate information. To facilitate use of satellite surveying and navigation systems, such as the Global Positioning System (GPS), the new datum was redefined using the Geodetic Reference System 1980 as the reference ellipsoid because this model more closely approximates the true size and shape of the earth. In addition, the origin of the coordinate system is referenced to the mass center of the Earth to coincide with the orbital orientation of the GPS satellites. Positional changes resulting from the datum redefinition can reach 330 ft in the continental U.S., Canada, and Mexico. Changes that exceed 660 ft can be expected in Alaska, Puerto Rico, and the Virgin Islands. Hawaii's coordinates changed about 1,300 ft.

Additional Statistical Information About the U.S.

The annual *Statistical Abstract of the United States*, published by the U.S. Commerce Dept., Bureau of the Census, contains additional data. For information, write Supt. of Documents, P.O. Box 979050, St. Louis, MO 63197-9000; bookstore.gpo.gov/help/ordering.jsp, call 1-866-512-1800, or e-mail ContactCenter@gpo.gov. The *Statistical Abstract* can be viewed online at www.census.gov/compendia/statab

Highest and Lowest Altitudes in U.S. States and Territories

(1) Figures are lengths of general outline of seacoast. Measurements were made with a unit measure of 30 minutes of latitude on charts as near the scale of 1:1,200,000 as possible. Coastline of sounds and bays is included to a point where they narrow to width of unit measure, and includes the distance across at such point. (2) Figures obtained in 1939-40 with a recording instrument on the largest-scale charts and maps then available. Shoreline of outer coast, offshore islands, sounds, bays, rivers, and creeks is included to the head of tidewater or to a point where tidal waters narrow to a width of 100 ft.

States: Capitals, Key Dates, Geographic Data

Source: Statistical Abstract of the United States, U.S. Census Bureau, Dept. of Commerce

The 13 colonies that declared independence from Great Britain and fought the War of Independence (American Revolution) became the 13 original states. They were (in the order in which they ratified the Constitution): Delaware, Pennsylvania, New Jersey, Georgia, Connecticut, Massachusetts, Maryland, South Carolina, New Hampshire, Virginia, New York, North Carolina, and Rhode Island.

NA = Not applicable. **Note:** Land and water areas may not add up to totals because of rounding. (1) First permanent settlement by Europeans. (2) Rank is based on total area as shown. (3) Aleutian Islands and Alexander Archipelago not included.

The Continental Divide of the U.S.

The Continental Divide of the U.S., also known as the Great Divide, is located at the watershed created by the mountain ranges, or tablelands, of the Rocky Mountains. This watershed separates the waters that drain easterly into the Atlantic Ocean and its marginal seas, such as the Gulf of Mexico, from those waters that drain westerly into the Pacific Ocean. The majority of easterly flowing water in the U.S. drains into the Gulf of Mexico before reaching the Atlantic Ocean. The majority of westerly flowing water, before reaching the Pacific Ocean, drains either through the Columbia River or through the Colorado River, which flows into the Gulf of California before reaching the Pacific Ocean.

The location and route of the Continental Divide across the U.S. can briefly be described as follows:

Beginning at the U.S.-Mexican boundary, near long. 108° 45' W, the Divide, in a northerly direction, crosses New Mexico

along the W edge of the Rio Grande drainage basin, entering Colorado near long. 106° 41' W.

From there by a very irregular route north across Colorado along the W summits of the Rio Grande and of the Arkansas, the South Platte, and the North Platte river basins, and across Rocky Mountain National Park, entering Wyoming near long. 106° 52' W.

From there in a northwesterly direction, forming the W rims of the North Platte, the Big Horn, and the Yellowstone river basins, crossing the SW portion of Yellowstone National Park.

From there in a westerly and then a northerly direction forming the common boundary of Idaho and Montana, to a point on said boundary near long. 114° 00' W.

From there northeasterly and northwesterly through Montana and the Glacier National Park, entering Canada near long. 114° 04' W.

Chronological List of Territories, With State Admissions to Union

Source: National Archives and Records Administration

Name of territory	Date of act creating territory	When act took effect	Admission as state	Years as terr.
Northwest Territory ¹	July 13, 1787	No fixed date	Mar. 1, 1803 ²	16
Territory southwest of Ohio River	May 26, 1790	No fixed date	June 1, 1796 ³	6
Mississippi	Apr. 7, 1798	When president acted	Dec. 10, 1817	19
Indiana	May 7, 1800	July 4, 1800	Dec. 11, 1816	16
Orleans	Mar. 26, 1804	Oct. 1, 1804	Apr. 30, 1812 ⁴	7
Michigan	Jan. 11, 1805	June 30, 1805	Jan. 26, 1837	31
Louisiana-Missouri ⁵	Mar. 3, 1805	July 4, 1805	Aug. 10, 1821	16
Illinois	Feb. 3, 1809	Mar. 1, 1809	Dec. 3, 1818	9
Alabama	Mar. 3, 1817	When MS became a state	Dec. 14, 1819	2
Arkansas	Mar. 2, 1819	July 4, 1819	June 15, 1836	17
Florida	Mar. 30, 1822	No fixed date	Mar. 3, 1845	23
Wisconsin	Apr. 20, 1836	July 3, 1836	May 29, 1848	12
Iowa	June 12, 1838	July 3, 1838	Dec. 28, 1846	8
Oregon	Aug. 14, 1848	Date of act	Feb. 14, 1859	10
Minnesota	Mar. 3, 1849	Date of act	May 11, 1858	9
New Mexico	Sept. 9, 1850	On president's proclamation	Jan. 6, 1912	61
Utah	Sept. 9, 1850	Date of act	Jan. 4, 1896	46
Washington	Mar. 2, 1853	Date of act	Nov. 11, 1889	36
Nebraska	May 30, 1854	Date of act	Mar. 1, 1867	12
Kansas	May 30, 1854	Date of act	Jan. 29, 1861	6
Colorado	Feb. 28, 1861	Date of act	Aug. 1, 1876	15
Nevada	Mar. 2, 1861	Date of act	Oct. 31, 1864	3
Dakota	Mar. 2, 1861	Date of act	Nov. 2, 1889	28
Arizona	Feb. 24, 1863	Date of act	Feb. 14, 1912	49
Idaho	Mar. 3, 1863	Date of act	July 3, 1890	27
Montana	May 26, 1864	Date of act	Nov. 8, 1889	25
Wyoming	July 25, 1868	When officers were qualified	July 10, 1890	22
Alaska ⁶	May 17, 1884	No fixed date	Jan. 3, 1959	75
Oklahoma	May 2, 1890	Date of act	Nov. 16, 1907	17
Hawaii	Apr. 30, 1900	June 14, 1900	Aug. 21, 1959	59

(1) Included what is now Ohio, Indiana, Illinois, Michigan, Wisconsin, E Minnesota. (2) Ohio was the first state of NW territory admitted. (3) Admitted as the state of Tennessee. (4) Admitted as the state of Louisiana. (5) The act creating Missouri Territory (June 4, 1812) became effective Dec. 7, 1812. (6) Although the May 17, 1884, act actually constituted Alaska as a district, it was often referred to as a territory, and administered as such. The Territory of Alaska was formally organized by an act of Aug. 24, 1912.

Geographic Centers, U.S. and Each State

Source: U.S. Geological Survey, Dept. of the Interior

There is no generally accepted definition of geographic center and no uniform method for determining it. Following the U.S. Geological Survey, the geographic center of an area is defined here as the center of gravity of the surface, or that point on which the surface would balance if it were a plane of uniform thickness. All locations in the following list are approximate.

No marked point has been officially established by any government agency as the geographic center of the 50 states, the conterminous U.S. (48 states), or the North American continent. A group of private citizens erected a monument in Lebanon, KS, marking it as geographic center of the conterminous U.S., and a cairn erected in Rugby, ND, asserts that location as the center of the North American continent.

Geographic centers as reported by the U.S. Geological Survey are indicated below:

United States, including Alaska and Hawaii: W of Castle Rock, Butte County, SD; lat. 44° 58' N, long. 103° 46' W
Conterminous U.S. (48 states): Near Lebanon, Smith County Kansas; lat. 39° 50' N, long. 98° 35' W
North American continent: 6 mi W of Balta, Pierce County, North Dakota; lat. 48° 10' N, long. 100° 10' W
Alabama: Chilton, 12 mi SW of Clanton
Alaska: approx. 60 mi NW of Mt. McKinley; lat. 63° 50' N, long. 152° W;
Arizona: Yavapai, 55 mi E-SE of Prescott
Arkansas: Pulaski, 12 mi NW of Little Rock
California: Madera, 38 mi E of Madera
Colorado: Park, 30 mi NW of Pikes Peak
Connecticut: Hartford, at East Berlin
Delaware: Kent, 11 mi S of Dover
District of Columbia: Near 4th and L Sts. NW
Florida: Hernando, 12 mi N-NW of Brooksville
Georgia: Twiggs, 18 mi SE of Macon
Hawaii: off Maui; lat. 20° 15' N, long. 156° 20' W
Idaho: Custer, SW of Challis
Illinois: Logan, 28 mi NE of Springfield
Indiana: Boone, 14 mi N-NW of Indianapolis
Iowa: Story, 5 mi NE of Ames
Kansas: Barton, 15 mi NE of Great Bend
Kentucky: Marion, 3 mi N-NW of Lebanon
Louisiana: Avoyelles, 3 mi SE of Marksville
Maine: Piscataquis, 18 mi N of Dover
Maryland: Prince George's, 4.5 mi NW of Davidsonville
Massachusetts: Worcester, N part of city

Michigan: Wexford, 5 mi N-NW of Cadillac
Minnesota: Crow Wing, 10 mi SW of Brainerd
Mississippi: Leake, 9 mi W-NW of Carthage
Missouri: Miller, 20 mi SW of Jefferson City
Montana: Fergus, 11 mi W of Lewistown
Nebraska: Custer, 10 mi NW of Broken Bow
Nevada: Lander, 26 mi SE of Austin
New Hampshire: Belknap, 3 mi E of Ashland
New Jersey: Mercer, 5 mi SE of Trenton
New Mexico: Torrance, 12 mi S-SW of Willard
New York: Madison, 12 mi S of Oneida and 26 mi SW of Utica
North Carolina: Chatham, 10 mi NW of Sanford
North Dakota: Sheridan, 5 mi SW of McClusky
Ohio: Delaware, 25 mi N-NE of Columbus
Oklahoma: Oklahoma, 8 mi N of Oklahoma City
Oregon: Crook, 25 mi S-SE of Prineville
Pennsylvania: Centre, 2.5 mi SW of Bellefonte
Rhode Island: Kent, 1 mi S-SW of Crompton
South Carolina: Richland, 13 mi SE of Columbia
South Dakota: Hughes, 8 mi NE of Pierre
Tennessee: Rutherford, 5 mi NE of Murfreesboro
Texas: McCulloch, 15 mi NE of Brady
Utah: Sanpete, 3 mi N of Manti
Vermont: Washington, 3 mi E of Roxbury
Virginia: Buckingham, 5 mi SW of Buckingham
Washington: Chelan, 10 mi W-SW of Wenatchee
West Virginia: Braxton, 4 mi E of Sutton
Wisconsin: Wood, 9 mi SE of Marshfield
Wyoming: Fremont, 58 mi E-NE of Lander

International Boundary Lines of the U.S.

The length of the N boundary of the conterminous U.S.—the U.S.-Canadian border, excluding Alaska—is 3,987 mi according to the U.S. Geological Survey, Dept. of the Interior. The length of the Alaskan-Canadian border is 1,538 mi. The U.S.-Mexican border, from the Gulf of Mexico to the Pacific Ocean, is about 1,933 mi (1963 boundary agreement).

Origins of the Names of U.S. States

Source: State officials; Smithsonian Institution; Topographic Division, U.S. Geological Survey, Dept. of the Interior

Alabama: Choctaw word for a Chickasaw tribe. First noted in accounts of De Soto expedition.

Alaska: Russian version of Aleutian (Eskimo) word, *alakshak*, for “peninsula,” “great lands,” or “land that is not an island.”

Arizona: Spanish version of Pima Indian word for “little spring place,” or Aztec *arizuma*, meaning “silver-bearing.”

Arkansas: Algonquin name for the Quapaw Indians, meaning “south wind.”

California: Bestowed by the Spanish conquistadors (possibly by Cortez). It was the name of an imaginary island, an earthly paradise, in *Las Serges de Esplandian*, a Spanish romance written by Montalvo in 1510. *Baja California* (Lower California, in Mexico) was first visited by Spanish in 1533. The present U.S. state was called *Alta* (Upper) *California*.

Colorado: From Spanish for “red,” first applied to Colorado River.

Connecticut: From Mohican and other Algonquin words meaning “long river place.”

Delaware: Named for Lord De La Warr, early governor of Virginia; first applied to river, then to Indian tribe (Lenni-Lenape), and the state.

District of Columbia: For Christopher Columbus, 1791.

Florida: Named by Juan Ponce de León *Pascua Florida*, “Flowery Easter,” on Easter Sunday, 1513.

Georgia: For King George II of England, by James Oglethorpe, colonial administrator, 1732.

Hawaii: Possibly derived from native word for homeland, *Hawaiki* or *Owhyhee*.

Idaho: Said to be a coined name with the invented meaning “gem of the mountains”; originally suggested for the Pikes Peak mining territory (Colorado), then applied to the new mining territory of the Pacific Northwest. Another theory suggests *Idaho* may be a Kiowa Apache term for the Comanche.

Illinois: French for *Illini* or “land of *Illini*,” Algonquin word meaning “men” or “warriors.”

Indiana: Means “land of the Indians.”

Iowa: Indian word variously translated as “here I rest” or “beautiful land.” Named for the Iowa River, which was named for the Iowa Indians.

Kansas: Sioux word for “south wind people.”

Kentucky: Indian word that is variously translated as “dark and bloody ground,” “meadowland,” and “land of tomorrow.”

Louisiana: Part of territory called Louisiana by Robert Cavalier Sieur de La Salle for French King Louis XIV.

Maine: From Maine, ancient French province. Also descriptive, referring to the mainland as distinct from the many coastal islands.

Maryland: For Queen Henrietta Maria, wife of Charles I of England.

Massachusetts: From Indian tribe whose name meant “at or about the Great Hill” in Blue Hills region south of Boston.

Michigan: From Chippewa words, *mici gama*, meaning “great water,” after the lake of the same name.

Minnesota: From Dakota Sioux word meaning “cloudy water” or “sky-tinted water” of the Minnesota River.

Mississippi: Probably Chippewa: *mici zibi*, “great river” or “gathering-in of all the waters.” Also: Algonquin word, *messipi*.

Missouri: An Algonquin Indian term meaning “river of the big canoes.”

Montana: Latin or Spanish for “mountainous.”

Nebraska: From Omaha or Otos Indian word meaning “broad water” or “flat river,” describing the Platte River.

Nevada: Spanish, meaning “snow-clad.”

New Hampshire: Named, 1629, by Capt. John Mason of Plymouth Council for his home county in England.

New Jersey: The Duke of York, 1664, gave a patent to John Berkeley and Sir George Carteret to be called *Nova Caesaria*, or New Jersey, after England’s Isle of Jersey.

New Mexico: Spaniards in Mexico applied term to land north and west of Rio Grande in the 16th century.

New York: For Duke of York and Albany, who received patent to New Netherland from his brother Charles II and sent an expedition to capture it, 1664.

North Carolina: In 1619 Charles I gave a large patent to Sir Robert Heath to be called Province of Carolana, from *Carolus*, Latin name for Charles. A new patent was granted by Charles II to Earl of Clarendon and others. Divided into North and South Carolina, 1710.

North Dakota: *Dakota* is Sioux for “friend” or “ally.”

Ohio: Iroquois word for “fine or good river.”

Oklahoma: Choctaw word meaning “red man,” proposed by Rev. Allen Wright, Choctaw-speaking Indian.

Oregon: Origin unknown. One theory holds that the name possibly derives from *wauregan*, meaning “beautiful,” term used by Indians in New England.

Pennsylvania: William Penn, the Quaker who was made full proprietor of this area by King Charles II in 1681, suggested “Sylvania,” or “woodland,” for his tract. The king’s government owed Penn’s father, Admiral William Penn, 16,000 pounds, and the land was granted as partial settlement. Charles II added the “Penn” to Sylvania, against the desires of the modest proprietor, in honor of the admiral.

Puerto Rico: Spanish for “rich port.”

Rhode Island: Exact origin is unknown. One theory notes that Giovanni de Verrazano recorded an island about the size of Rhodes in the Mediterranean in 1524, but others believe the state was named *Roode Eylandt* by Adriaen Block, Dutch explorer, because of its red clay.

South Carolina: See North Carolina.

South Dakota: See North Dakota.

Tennessee: *Tanasi* was the name of Cherokee villages on the Little Tennessee River. From 1784 to 1788 this was the State of Franklin, or Frankland.

Texas: Variant of word used by Caddo and other Indians meaning “friends” or “allies,” and applied to them by the Spanish in eastern Texas. Also written *Texias*, *Tejas*, *Teysas*.

Utah: From a Navajo word meaning “upper,” or “higher up,” as applied to a Shoshone tribe called Ute. Spanish form is *Yutta*; the English is *Uta* or *Utah*. Proposed name *Deseret*, “land of honeybees,” from Book of Mormon, was rejected by Congress.

Vermont: From French words *vert* (green) and *mont* (mountain). The Green Mountains were said to have been named by Samuel de Champlain. When the state was formed, 1777, Dr. Thomas Young suggested combining *vert* and *mont* into Vermont.

Virginia: Named by Sir Walter Raleigh, who fitted out the expedition of 1584, in honor of Queen Elizabeth, the Virgin Queen of England.

Washington: Named after George Washington. When the bill creating the Territory of Columbia was introduced in the 32nd Congress, its name was changed to Washington because of the existence of the District of Columbia.

West Virginia: So named when western counties of Virginia refused to secede from the U.S. in 1863.

Wisconsin: An Indian name, spelled *Ouisconsin* and *Mesconsing* by early chroniclers. Believed to mean “grassy place” in Chippewa. Congress made it *Wisconsin*.

Wyoming: From the Algonquin words for “large prairie place,” “at the big plains,” or “on the great plain.”

Territorial Sea of the U.S.

According to a Dec. 27, 1988, proclamation by Pres. Ronald Reagan, “The territorial sea of the United States henceforth extends to 12 nautical miles from the baselines of the United States determined in accordance with international law. In accordance with international law, as reflected in the applicable provisions of the 1982 United Nations Convention on the Law of the Sea, within the territorial sea of the United States, the ships of all countries enjoy the right of innocent passage and the ships and aircraft of all countries enjoy the right of transit passage through international straits.”

Major Accessions of Territory by the U.S.

Source: U.S. Dept. of the Interior; U.S. Census Bureau, U.S. Dept. of Commerce

Not including territories such as Panama Canal Zone and the Philippines which are no longer under U.S. jurisdiction; area figures are for total area and may differ from figures for current areas given elsewhere.

Accession	Date	Area (sq mi)	Accession	Date	Area (sq mi)	Accession	Date	Area (sq mi)
Territory in 1790 ¹	NA	888,685	Mexican Cession	1848	529,017	Guam ³	1899	212
Louisiana Purchase	1803	827,192	Gadsden Purchase	1853	29,640	American Samoa ⁴	1900	76
Treaty of Florida	1819	72,003	Alaska	1867	586,412	U.S. Virgin Islands	1917	133
Texas	1845	390,143	Hawaii	1898	6,450	Northern Marianas ⁵	1986	179
Oregon Territory	1846	285,680	Puerto Rico ²	1899	3,435			

NA = Not applicable. (1) Includes that part of a drainage basin of Red River of the North, S of 49th parallel, sometimes considered part of Louisiana Purchase. (2) Ceded by Spain in 1898, ratified in 1899, and became the Commonwealth of Puerto Rico by Act of Congress on July 25, 1952. (3) Acquired in 1898; ratified 1899. (4) Acquired in 1899; ratified 1900. (5) Formerly a part of the U.S. administered Trust Territory of the Pacific Islands; became a U.S. commonwealth, Nov. 3, 1986.

(1) Area administered by the Forest Service or federally owned.

20 Most-Visited Sites in the National Park System, 2009

Source: National Park Service, Dept. of the Interior
Attendance at all areas administered by the National Park Service in 2009 totaled 285,579,941 recreation visits.

Site (location)	Recreation visits
Blue Ridge Parkway (NC-VA)	15,936,316
Golden Gate Natl. Recreation Area (CA)	15,036,372
Great Smoky Mountains NP (NC-TN)	9,491,437
Gateway Natl. Recreation Area (NJ-NY)	9,010,522
Lake Mead Natl. Recreation Area (AZ-NV)	7,668,689
George Washington Memorial Pkwy. (VA-MD-DC)	6,938,309
Natchez Trace Parkway (MS-AL-TN)	5,934,363
Lincoln Memorial (DC)	5,255,570
Delaware Water Gap Natl. Recreation Area (NJ-PA)	5,213,030
Vietnam Veterans Memorial (DC)	4,437,771
Grand Canyon National Park (AZ)	4,348,068

Site (location)	Recreation visits
Cape Cod National Seashore (MA)	4,311,949
San Francisco Maritime Natl. Historical Park (CA)	4,152,497
Gulf Islands National Seashore (FL-MS)	4,132,674
World War II Memorial (DC)	4,118,528
Castle Clinton National Monument (NY)	4,080,152
Independence National Historical Park (PA)	3,967,694
Statue of Liberty NM.	3,829,483
Chesapeake & Ohio Canal Natl. Historical Park (DC-MD-WV)	3,751,681
Yosemite National Park (CA)	3,737,472

National Parks, Other Areas Administered by National Park Service

As of Dec. 31, 2009, the National Park Service administered 84,378,873 acres of federal and non-federal land across 392 sites. Dates when sites were authorized for initial protection by Congress or by presidential proclamation are given in parentheses. If different, the date the area got its current designation, or was transferred to the National Park Service, follows. Gross area in acres, as of Dec. 31, 2009, follows date(s). Some parks, trails, and other areas are not listed.

National Parks

Acadia, ME (1916/1929): 47,414. Includes Mount Desert Isl., half of Isle au Haut, Schoodic Peninsula on mainland. Highest elevation on Eastern seaboard.

American Samoa, AS (1988): 9,000. Features a paleotropical rain forest and a coral reef.

Arches, UT (1929/1971): 76,679. Contains giant red sandstone arches and other products of erosion.

Badlands, SD (1929/1978): 242,756. Reformations and native prairie. Animal fossils 23-37 mil years old.

Big Bend, TX (1935): 801,163. Rio Grande, Chisos Mts.

Biscayne, FL (1968/1980): 172,971. Aquatic park encompassing chain of islands south of Miami.

Black Canyon of the Gunnison, CO (1933/1999): 30,750. Has a canyon 2,900 ft deep and 40 ft wide at its narrowest part.

Bryce Canyon, UT (1923/1928): 35,835. Spectacularly colorful and unusual display of erosion effects.

Canyonlands, UT (1964): 337,598. At junction of Colorado and Green rivers; extensive evidence of prehistoric Indians.

Capitol Reef, UT (1937/1971): 241,904. A 70-mi uplift of sandstone cliffs dissected by high-walled gorges.

Carlsbad Caverns, NM (1923/1930): 46,766. Largest known caverns; not yet fully explored.

Channel Islands, CA (1938/1980): 249,561. Sea lion breeding place, nesting sea birds, unique plants.

Congaree, SC (1976/2003): 26,546. Largest intact tract of old-growth bottomland hardwood forest in the U.S.

Crater Lake, OR (1902): 183,224. Extraordinary blue lake in the crater of Mt. Mazama, a volcano that erupted about 7,700 years ago; deepest U.S. lake.

Cuyahoga Valley, OH (1974/2000): 32,856. Rural landscape along Ohio and Erie Canal system between Akron and Cleveland.

Death Valley, CA-NV (1933/1994): 3,373,042. Large desert area. Includes the lowest point in the Western Hemisphere; also includes Scotty's Castle.

Denali, AK (1917/1980): 4,740,912. Name changed from Mt. McKinley National Park. Has highest mountain in U.S.; wildlife.

Dry Tortugas, FL (1935/1992): 64,701. Ft. Jefferson and seven coral reef and sand islands near Key West.

Everglades, FL (1934): 1,398,893. Largest remaining subtropical wilderness in continental U.S.

Gates of the Arctic, AK (1978/1984): 7,523,898. Vast wilderness in north central region. Limited federal facilities.

Glacier, MT (1910): 1,013,322. Superb Rocky Mt. scenery, numerous glaciers and glacial lakes. Part of Waterton-Glacier Intl. Peace Park established by U.S. and Canada in 1932.

Glacier Bay, AK (1925/1986): 3,224,841. Great tidewater glaciers that move down mountainsides and break up into the sea; much wildlife.

Grand Canyon, AZ (1893/1919): 1,217,403. Most spectacular part of Colorado River's greatest canyon.

Grand Teton, WY (1929): 310,044. Most impressive part of the Teton Mts., winter feeding ground of largest American elk herd.

Great Basin, NV (1922/1986): 77,180. Includes Wheeler Pk., Lexington Arch, and Lehman Caves.

Great Sand Dunes, CO (1932/2000): 44,246. North America's tallest dunes.

Great Smoky Mountains, NC-TN (1926/1934): 522,051. Largest Eastern U.S. mountain range, magnificent forests.

Guadalupe Mountains, TX (1966): 86,416. Extensive Permian limestone fossil reef; tremendous earth fault.

Haleakala, HI (1916/1960): 33,223. Dormant volcano on Maui with large colorful craters.

Hawaii Volcanoes, HI (1916/1961): 323,431. Contains Kilauea and Mauna Loa, active volcanoes.

Hot Springs, AR (1832/1921): 5,550. Bathhouses are furnished with thermal waters from the park's 47 hot springs; these waters are used for bathing and drinking.

Isle Royale, MI (1931): 571,790. Largest island in Lake Superior, noted for its wilderness area and wildlife.

Joshua Tree, CA (1936/1994): 789,866. Desert region includes Joshua trees, other plant and animal life.

Katmai, AK (1918/1980): 3,674,540. "Valley of Ten Thousand Smokes," scene of 1912 volcanic eruption.

Kenai Fjords, AK (1978/1980): 669,983. Abundant marine mammals, birdlife; Harding Icefield, one of 4 major icecaps in U.S.

Kings Canyon, CA (1890/1940): 461,901. Mountain wilderness, dominated by Kings River Canyons and High Sierra; contains giant sequoias.

Kobuk Valley, AK (1978/1980): 1,750,717. Contains geological and recreational sites. Limited federal facilities.

Lake Clark, AK (1978/1980): 2,619,733. Across Cook Inlet from Anchorage. A scenic wilderness rich in fish and wildlife. Limited federal facilities.

Lassen Volcanic, CA (1907/1916): 106,372. Contains Lassen Peak, recently active volcano, and other volcanic phenomena.

Mammoth Cave, KY (1926/1941): 52,830. 365 mi of explored underground passages, beautiful natural formations, river 300 ft below surface.

Mesa Verde, CO (1906): 52,485. Most notable and best preserved prehistoric cliff dwellings in the U.S.

Mount Rainier, WA (1899): 236,381. Greatest single-peak glacial system in the U.S.

North Cascades, WA (1968): 504,781. Spectacular mountainous region with many glaciers, lakes.

Olympic, WA (1909/1938): 922,651. Mountain wilderness containing finest remnant of Pacific Northwest rainforest, active glaciers, Pacific shoreline, rare elk.

Petrified Forest, AZ (1906/1962): 221,621. Extensive petrified wood and Indian artifacts. Contains part of Painted Desert.

Redwood, CA (1968): 112,582. 40 mi of Pacific coastline, groves of ancient redwoods and world's tallest trees.

Rocky Mountain, CO (1915): 265,758. On the Continental Divide; includes peaks over 14,000 ft.

Saguaro, AZ (1933/1994): 91,440. Part of the Sonoran Desert; includes the giant saguaro cacti, unique to the region.

Sequoia, CA (1890): 404,063. Groves of giant sequoias, highest mountain in conterminous U.S.: Mt. Whitney (14,494 ft). World's largest tree.

Shenandoah, VA (1926): 199,100. Portion of the Blue Ridge Mts.; overlooks Shenandoah Valley; Skyline Drive.

Theodore Roosevelt, ND (1947/1978): 70,447. Contains part of Roosevelt's ranch and scenic badlands.

Virgin Islands, VI (1956): 15,006. Authorized to cover 75% of St. John Isl. and Hassel Isl.; lush growth, lovely beaches, Carib Indian petroglyphs, evidence of colonial Danes.

Voyageurs, MN (1971): 218,200. Abundant lakes, forests, wildlife, canoeing, boating.

Wind Cave, SD (1903): 28,295. Limestone caverns in Black Hills. Extensive wildlife includes a herd of bison.

Wrangell-St. Elias, AK (1978/1980): 8,323,043. Largest area in park system, most peaks over 16,000 ft, abundant wildlife; day's drive east of Anchorage. No federal facilities.

Yellowstone, ID-MT-WY (1872): 2,219,791. World's first national park. World's greatest geyser area has about 10,000 geysers and hot springs; spectacular falls and impressive canyons of the Yellowstone River; grizzly bear, moose, and bison.

Yosemite, CA (1890): 761,268. Yosemite Valley, the nation's highest waterfall, grove of sequoias, and mountains.

Zion, UT (1909/1919): 146,597. Unusual shapes and landscapes resulting from erosion and faulting; evidence of past volcanic activity; contains the "Great White Throne," 2,394-ft monolith.

National Historical Parks

Abraham Lincoln Birthplace, Hodgenville, KY (1916/1959): 11. Memorial building, sinking spring.

Adams, MA (1946/1998): 24. Home of Pres. John Adams, John Quincy Adams, and celebrated descendants.

Appomattox Court House, VA (1930/1954): 1,774. Where Lee surrendered to Grant.

Boston, MA (1974): 44. Includes Faneuil Hall, Old North Church, Bunker Hill, Paul Revere House.

Cane River Creole (and heritage area), LA (1994): 207. Preserves the Creole culture as it developed along the Cane R.

Cedar Creek & Belle Grove, VA (2002): 3,712. Civil War battle site and an antebellum plantation in the Shenandoah Valley.

Chaco Culture, NM (1907/1980): 33,960. Ruins of pueblos built by prehistoric Indians including the Pueblo, Hopi, and Navajo.

Chesapeake and Ohio Canal, MD-DC-WV (1938/1971): 19,616. 184-mi historic canal; DC to Cumberland, MD.

Colonial, VA (1930/1936): 8,677. Includes most of Jamestown Isl., site of first successful English colony; Yorktown, site of Cornwallis's surrender to George Washington; and Colonial Parkway.

Cumberland Gap, KY-TN-VA (1940): 22,366. Mountain pass of the Wilderness Road, which carried the first great migration of pioneers into America's interior.

Dayton Aviation Heritage, OH (1992): 86. Commemorates the area's aviation heritage.

Edison, West Orange, NJ (1955/1962): 21. Inventor's home and laboratory.

George Rogers Clark, IN (1966): 26. Commemorates American defeat of British in West during Revolution.

Harpers Ferry, MD-VA-WV (1944/1963): 3,647. At the confluence of the Shenandoah and Potomac rivers, the site of John Brown's 1859 raid on the Army arsenal.

Hopewell Culture, OH (1923/1992): 1,170. Remains of ceremonial mounds built in the Ohio River Valley, 200 BCE-500 CE.

Independence, PA (1948): 45. Contains several properties associated with the American Revolution and the founding of the U.S. Includes Independence Hall and the Liberty Bell Center.

Jean Lafitte (and preserve), LA (1907/1978): 20,001. Includes Chalmette, site of 1815 Battle of New Orleans; French Quarter.

Kalaupapa, HI (1980): 10,779. Molokai's former leper colony.

Kaloko-Honokohau, HI (1978): 1,161. Preserves the native culture of Hawaii.

Keweenaw, MI (1992): 1,870. Site of first significant copper mine in U.S.

Klondike Gold Rush, AK-WA (1976): 12,996. Preserves Chilkoot Trail used in 1898 Gold Rush. Museum in Seattle.

Lewis & Clark, OR-WA (1958/2004): 1,584. Lewis and Clark encampment, 1805-06. Incorporates former Fort Clatsop Natl. Mem. Park and OR-WA state parks.

Lowell, MA (1978): 141. Textile mills, canal, 19th-cent. structures; park shows planned city of Industrial Revolution.

Lyndon B. Johnson, TX (1969/1980): 1,570. President's birthplace, boyhood home, ranch.

Marsh-Billings-Rockefeller, VT (1992): 643. Boyhood home of conservationist George Perkins Marsh.

Minute Man, MA (1959): 961. Where the Minute Men battled the British, Apr. 19, 1775. Also contains Nathaniel Hawthorne's home.

Morristown, NJ (1933): 1,711. Sites of important military encampments during the American Revolution; Washington's headquarters, 1779-80.

Natchez, MS (1988): 108. Mansions, townhouses, and villas related to history of Natchez.

New Bedford Whaling, MA (1996): 34. Preserves structures and relics associated with the city's 19th-cent. whaling industry.

New Orleans Jazz, LA (1994): 5. Preserves, educates, and interprets jazz as it has evolved in New Orleans.

Nez Perce, ID-MT-OR-WA (1965): 4,570. Illustrates the history and culture of the Nez Perce Indian country (38 separate sites).

Palo Alto Battlefield, TX (1978): 3,407. Scene of first battle of the Mexican War.

Pecos, NM (1965/1990): 6,669. Ruins of ancient Pueblo of Pecos, archaeological sites, and 2 associated Spanish colonial missions from the 17th and 18th centuries.

Pu'uhonua o Honaunau, HI (1955/1978): 420. Until 1819, a sanctuary for Hawaiians vanquished in battle and for those guilty of crimes or breaking taboos.

Rosie the Riveter/WWII Home Front, CA (2000): 145. Site of a shipyard that employed thousands of women in WWII; commemorates women who worked in wartime industries.

Salt River Bay (and ecological preserve), St. Croix, VI (1992): 982. The only known site where, in 1493, members of a Columbus party landed on what is now territory of the U.S.

San Antonio Missions, TX (1978): 826. Four of finest Spanish missions in U.S., 18th-cent. irrigation system.

San Francisco Maritime, CA (1988): 50. Artifacts, photographs, and historic vessels related to the development of the Pacific Coast.

San Juan Island, WA (1966): 1,752. Commemorates peaceful relations between the U.S., Canada, and Great Britain since the 1872 boundary disputes.

Saratoga, NY (1938): 3,394. Scene of a major 1777 battle that became a turning point in the American Revolution.

Sitka, AK (1910/1972): 112. Scene of last major resistance of the Tlingit Indians to the Russians, 1804.

Tumacacori, AZ (1908/1990): 360. Historic Spanish mission building stands near site first visited by Father Kino in 1691.

Valley Forge, PA (1976): 3,466. Continental Army campsite in 1777-78 winter.

War in the Pacific, GU (1978): 2,037. Seven distinct units illustrating the Pacific theater of WWII. Limited federal facilities.

Women's Rights, NY (1980): 7. Seneca Falls site where Lucretia Mott, Elizabeth Cady Stanton organized movement in 1848.

National Battlefields/Parks/Sites

Antietam, MD (1890/1978): 3,230. Battle here ended first Confederate invasion of North, Sept. 17, 1862.

Big Hole, MT (1910/1963): 1,011. Site of major battle with Nez Perce Indians, Aug. 9-10, 1877.

Brices Cross Roads, MS (1929): 1. Site of the Confederate victory, June 10, 1864.

Cowpens, SC (1929/1972): 842. American Revolution battlefield, Jan. 17, 1781.

Fort Donelson, TN-KY (1928/1985): 1,006. Site of first major Union victory, Feb. 14-16, 1862.

Fort Mifflin, PA (1931/1961): 903. Site of first battle of French and Indian War, July 3, 1754.

Kennesaw Mountain, GA (1917/1935): 2,853. Site of major battle of Atlanta campaign in Civil War.

Manassas, VA (1940): 5,073. Scene of two battles in Civil War, 1861 and 1862.

Monocacy, MD (1934/1976): 1,647. Civil War battle in defense of Washington, DC, fought here, July 9, 1864.

Moore's Creek, NC (1926/1980): 88. Feb. 27, 1776, battle between Patriots and Loyalists commemorated here.

Petersburg, VA (1926/1962): 2,740. Scene of 10-month Union campaigns, 1864-65.

Richmond, VA (1936): 7,131. Site of battles defending Confederate capital.

Stones River, TN (1927/1960): 709. Scene of battle that began federal offensive to trisect Confederacy, Dec. 31, 1862-Jan. 2, 1863.

Tupelo, MS (1929/1961): 1. Site of crucial battle over Sherman's supply line, July 14-15, 1865.

Wilson's Creek, MO (1960/1970): 2,369. Scene of Civil War battle for control of Missouri, Aug. 10, 1861.

National Military Parks

Chickamauga and Chattanooga, GA-TN (1890): 9,036. Site where Gen. Sherman and Union armies gained control of TN, 1863.

Fredericksburg and Spotsylvania County, VA (1927/1933): 8,382. Sites of several major Civil War battles and campaigns.

Gettysburg, PA (1895/1933): 5,990. Site of decisive Confederate defeat in North, July 1863, and of Gettysburg Address.

Guilford Courthouse, NC (1917/1933): 230. American Revolution battle site.

Horseshoe Bend, AL (1956): 2,040. On Tallapoosa River, where Gen. Andrew Jackson's forces broke the power of the Upper Creek Indian Confederacy on Mar. 27, 1814.

Kings Mountain, SC (1931/1933): 3,945. Site of American Revolution battle, fought on Oct. 7, 1780.

Pea Ridge, AR (1956): 4,300. Scene of Civil War battle, fought Mar. 7-8, 1862.

Shiloh, TN (1894/1933): 6,181. Major Civil War battle site; includes some well-preserved Indian burial mounds.

Vicksburg, MS (1899/1933): 1,795. Union victory gave North control of the Mississippi and split the Confederate forces.

National Memorials

Arkansas Post, AR (1960): 758. First permanent French settlement in the lower Mississippi River valley.

Arlington House, The Robert E. Lee Memorial, VA (1925/1972): 28. Lee's home overlooking the Potomac River.

Chamizal, El Paso, TX (1966/1974): 55. Commemorates 1963 settlement of 99-year border dispute with Mexico.

Coronado, AZ (1941/1952): 4,750. Commemorates first European exploration of the Southwest.

De Soto, FL (1948): 30. Commemorates 16th-cent. Spanish explorations.

Federal Hall, NY (1939/1955): 0.45. First seat of U.S. government under the Constitution.

Flight 93, Shanksville, PA (2002): 2,262. Commemorates the passengers and crew of Flight 93, who died thwarting an attack on Sept. 11, 2001. Permanent memorial expected for completion in 2011.

Fort Caroline, FL (1950): 138. On St. Johns River, overlooks site of a former French Huguenot colony.

Franklin Delano Roosevelt, DC (1982): 8. Statues of Pres. Roosevelt and Eleanor Roosevelt; waterfalls and gardens.

General Grant, NY (1958): 0.76. Tomb of Ulysses Grant and wife.

Hamilton Grange, NY (1962): 1. Home of Alexander Hamilton.

Jefferson National Expansion, MO (1935): 91. Commemorates westward expansion.

Johnstown Flood, PA (1964): 178. Commemorates 1889 flood.

Korean War Veterans, DC (1986): 2. Dedicated in 1995; honors those who served in the Korean War.

Lincoln Boyhood, IN (1962): 200. Site of Lincoln cabin, Lincoln's boyhood home, and grave site of Lincoln's mother.

Lincoln Memorial, DC (1911/1933): 107. Marble statue of the 16th U.S. president.

Lyndon Baines Johnson Memorial Grove on the Potomac, DC (1973): 17. Overlooks the Potomac R.; vista of the Capitol.

Mount Rushmore, SD (1925): 1,278. World-famous sculpture of 4 presidents: Washington, Jefferson, Lincoln, T. Roosevelt.

Perry's Victory and International Peace Memorial, Put-in-Bay, OH (1936/1972): 25. The world's most massive Doric column, constructed 1912-15, promotes pursuit of peace through arbitration and disarmament.

Port Chicago Naval Magazine, Danville, CA (2009): 5. 1944 munitions ship explosion killed 320 men.

Roger Williams, Providence, RI (1965): 5. Memorial to founder of Rhode Island.

Thaddeus Kosciuszko, PA (1972): 0.02. Memorial to Polish hero of American Revolution.

Theodore Roosevelt Island, DC (1932/1933): 89. Statue of Roosevelt in wooded island sanctuary.

Thomas Jefferson, DC (1934): 18. Statue of Jefferson in an inscribed circular, colonnaded structure.

Vietnam Veterans, DC (1980): 2. Black granite wall inscribed with names of those missing or killed in action in Vietnam War.

Washington Monument, DC (1848/1933): 106. Obelisk honoring the first U.S. president.

World War II, DC (1994/2004): 7. Oval plaza with central pool commemorating those who fought and died.

Wright Brothers, NC (1927/1953): 428. Site of first powered flight.

National Historic Sites

Allegheny Portage Railroad, PA (1964): 1,284. Linked the Pennsylvania Canal system and the West.

Andersonville, GA (1970): 515. Noted Civil War prisoner-of-war camp.

Andrew Johnson, Greeneville, TN (1935/1963): 17. Two homes and the tailor shop of the 17th U.S. president.

Bent's Old Fort, CO (1960): 799. Replica of S. Plains outpost.

Boston African-American, MA (1980): 0.59. Pre-Civil War black-owned structures.

Brown v. Board of Education, KS (1992): 2. Commemorates the landmark 1954 U.S. Supreme Court decision, which ended legal segregation in schools.

Carl Sandburg Home, Flat Rock, NC (1968): 264.

Carter G. Woodson Home, DC (2006): 0.15.

Charles Pinckney, SC (1988): 28. Statesman's farm. Pinckney was a principal author and signer of the Constitution.

Christiansted, St. Croix, VI (1952/1961): 27. Commemorates Danish colony.

Clara Barton, MD (1974): 9. Home of founder of American Red Cross.

Edgar Allan Poe, Philadelphia, PA (1978/1980): 0.52. Writer's home, where he wrote short stories.

Eisenhower, Gettysburg, PA (1967): 690. Home of 34th president.

Eleanor Roosevelt, Hyde Park, NY (1977): 181. The former first lady's personal retreat.

Eugene O'Neill, Danville, CA (1976): 13. Playwright's home where he wrote his final plays, including *The Iceman Cometh*.

First Ladies, Canton, OH (2000): 0.33. Home of first lady Ida Sexton McKinley. Library now devoted to America's first ladies.

Ford's Theatre, DC (1866/1970): 0.30. Includes theater, now restored, where Lincoln was assassinated, house where he died, and Lincoln Museum.

Fort Bowie, AZ (1964): 999. Focal point of operations against Geronimo and the Apaches.

Fort Davis, TX (1961): 474. Frontier outpost in West Texas. Established to guard the San Antonio-El Paso Road.

Fort Laramie, WY (1938/1960): 833. Military post on Oregon Trail.

Fort Larned, KS (1964/1966): 718. Military post on Santa Fe Trail.

Fort Point, San Francisco, CA (1970): 29. West Coast fortification. Protected San Francisco during and after Civil War.

Fort Raleigh, NC (1941): 513. First attempted English settlement in North America.

Fort Scott, KS (1965/1978): 17. Commemorates U.S. frontier of 1840s and '50s. Was a major focal point of black troop activity and training during Civil War.

Fort Smith, AR-OK (1961): 75. One of the earliest U.S. posts in Missouri Territory, active 1817-90.

Fort Union Trading Post, MT-ND (1966): 444. Principal fur-trading post on upper Missouri, 1829-67.

Fort Vancouver, WA-OR (1948/1961): 194. Headquarters for Hudson's Bay Company in 1825. Early political seat.

Frederick Douglass, DC (1962/1988): 9. Home of famous black abolitionist, writer, and orator.

Frederick Law Olmsted, MA (1979): 7. Home of city planner, famous for designing Central Park in NYC.

Friendship Hill, PA (1978): 675. Home of Albert Gallatin, Jefferson's and Madison's secretary of treasury.

Golden Spike, UT (1957): 2,735. Commemorates completion of first transcontinental railroad in 1869.

Grant-Kohrs Ranch, MT (1972): 1,618. Ranch house owned by John Grant, a 19th-cent. range-cattle industry pioneer.

Hampton, MD (1948): 62. 18th-cent. Georgian mansion, which in 1790 was the largest house in the U.S.

Harry S. Truman, MO (1983): 7. Home of pres. after 1919.

Herbert Hoover, West Branch, IA (1965): 187. Birthplace and boyhood home of 31st president.

Home of Franklin D. Roosevelt, Hyde Park, NY (1944): 792. FDR's birthplace, home, and "summer White House."

Hopewell Furnace, PA (1938/1985): 848. 19th-cent. iron-making village.

Hubbell Trading Post, AZ (1965): 160. Trading post that allowed interaction between the Navajo and white traders in the late 19th and 20th century. Still active today.

James A. Garfield, Mentor, OH (1980): 8. Home of 20th president. Site of his front-porch campaign.

Jimmy Carter, GA (1987): 72. Birthplace and home of 39th president.

John Fitzgerald Kennedy, Brookline, MA (1967): 0.09. Birthplace and childhood home of 35th president.

John Muir, Martinez, CA (1964): 345. Home of Sierra Club founder and "Father of the National Park Service."

Knife River Indian Villages, ND (1974): 1,758. Remnants of villages last occupied by Hidatsa and Mandan Indians.

Lincoln Home, Springfield, IL (1971): 12. Lincoln's residence at the time he was elected 16th president, 1860.

Little Rock Central High School, AR (1998): 27. Commemorates 1957 desegregation during which federal troops had to be called in to protect 9 black students.

Longfellow, Cambridge, MA (1972): 2. Poet's home, 1837-82; Washington's headquarters during Boston siege, 1775-76.

Maggie L. Walker, VA (1978): 1. Richmond home of black leader and first female bank president, daughter of a former slave.

Manzanar, Lone Pine, CA (1992): 814. Commemorates Manzanar War Relocation Ctr., a Japanese-American internment camp during WWII.

Martin Luther King Jr., Atlanta, GA (1980): 39. Birthplace, grave, church of the civil rights leader.

Martin Van Buren, NY (1974): 40. Lindenwald, home of 8th president, near Kinderhook.

Mary McLeod Bethune Council House, DC (1982/1991): 0.07. Commemorates Bethune's leadership in the black women's movement.

Minidoka, ID (2008): 72.75. WWII Japanese internment center.

Minuteman Missile, SD (1999): 15. Missile launch facilities dating back to the Cold War era.

Nicodemus, KS (1996): 5. Only remaining Western town established by African Americans during Reconstruction.

Ninety Six, SC (1976): 1,022. Colonial trading village and the site of Gen. Nathanael Greene's siege on Loyalist-held fort in 1781.

Pennsylvania Avenue, DC (1965): 0.26. Includes area between Capitol and White House, encompassing the U.S. Navy Memorial, Freedom Plaza, the Old Post Office Pavilion, and other sites.

Puukohola Heiau, HI (1972): 86. Ruins of temple built by King Kamehameha, first king of united Hawaiian islands.

Sagamore Hill, Oyster Bay, NY (1962): 83. Home of Pres. Theodore Roosevelt from 1885 until his death in 1919.

Saint-Gaudens, Cornish, NH (1964): 148. Home, studio, and gardens of American sculptor Augustus Saint-Gaudens.

Saint Paul's Church, New York, NY (1943): 6. Site associated with John Peter Zenger's "freedom of press" trial.

Salem Maritime, MA (1938): 9. Major fishing and whaling port famous for 1692 witchcraft trials.

San Juan, PR (1949): 75. 16th-cent. Span. fortifications.

Sand Creek Massacre, CO (2000): 12,583. Site where more than 160 Cheyenne and Arapaho Indians were killed by U.S. soldiers in 1864.

Saugus Iron Works, MA (1974): 9. Reconstructed 17th-cent. colonial ironworks.

Springfield Armory, MA (1974): 55. Small-arms manufacturing center for nearly 200 years.

Steamtown, PA (1986): 62. Rail yard, roadhouse, repair shops of former Delaware, Lackawanna & Western Railroad.

Theodore Roosevelt Birthplace, New York, NY (1962): 0.11. Reconstructed brownstone where the president was born.

Theodore Roosevelt Inaugural, Buffalo, NY (1966): 1. Wilcox House, where he took oath of office, 1901.

Thomas Stone, MD (1978): 328. Home of signer of Declaration of Independence.

Tuskegee Airmen, AL (1998): 90. Airfield where pilots of all-black air corps unit of WWII received flight training.

Tuskegee Institute, AL (1974): 58. College founded by Booker T. Washington in 1881 for blacks.

Ulysses S. Grant, St. Louis Co., MO (1989): 10. Home of Grant during pre-Civil War years.

Vanderbilt Mansion, Hyde Park, NY (1940): 212. Mansion of 19th-cent. financier.

Washita Battlefield, OK (1996): 315. Scene of Nov. 27, 1868, battle between Plains tribes and the U.S. army.

Weir Farm, Wilton, CT (1990): 74. Home and studio of American impressionist painter J. Alden Weir.

Whitman Mission, WA (1936/1963): 139. Site of Protestant Missionaries to the Cayuse Indians during the mid-19th cent.

William Howard Taft, Cincinnati, OH (1969): 3. Birthplace and early home of the 27th president.

UNITED STATES HISTORY

This chapter includes the following sections:

Chronology of Events	444
Patrick Henry's Speech	482
Declaration of Independence	482
Constitution of the U.S.	485
The Bill of Rights, Constitutional Amendments	490
How a Bill Becomes a Law	494
Confederate States and Government	494
Gettysburg Address	494
Presidential Oath of Office	495

Law on Succession to the Presidency	495
U.S. National Motto	495
Great Seal of the U.S.	495
Flag of the U.S.	495
National Anthem	498
"America (My Country 'Tis of Thee)"	498
"America, the Beautiful"	499
Liberty Bell	499
Statue of Liberty National Monument	499

Chronology of Events

- 1492 Christopher Columbus** and crew sighted land Oct. 12 in present-day Bahamas.
- 1513 Juan Ponce de León** explored Florida coast.
- 1524 Giovanni da Verrazano** led French expedition along coast from Carolina north to Nova Scotia; entered New York Harbor.
- 1526** San Miguel de Guadalupe, **first European settlement** in what became U.S. territory, was established in the summer off South Carolina coast; abandoned in Oct.
- 1539 Hernando de Soto** landed in Florida May 28; crossed Mississippi River, **1541**.
- 1540 Francisco Vázquez de Coronado** explored Southwest north of Rio Grande. **Hernando de Alarcón** reached Colorado River; **García López de Cárdenas** reached Grand Canyon. Others explored California coast.
- 1562 First French colony** in what became U.S. territory founded on Parris Island off South Carolina coast; abandoned, **1564**.
- 1565 St. Augustine, FL**, oldest continuously occupied European settlement in U.S., founded Sept. 8 by Pedro Menéndez de Avilés. Spain ceded settlement to U.S. in **1821**.
- 1579 Sir Francis Drake** entered San Francisco Bay and claimed region for Britain.
- 1585 First English colony** in America, sponsored by Sir Walter Raleigh, founded on **Roanoke Island**, off North Carolina coast; colony failed.
- 1587** Second colony attempted on Roanoke Island. Virginia Dare of colony became **first English infant born** in the New World. Settlers of second colony found to have vanished, **1590**.
- 1607** Capt. **John Smith** and 105 cavaliers in 3 ships landed on Virginia coast, started Jamestown, **first permanent English settlement** in New World.
- 1609 Henry Hudson**, English explorer of Northwest Passage, employed by Dutch, sailed into New York Harbor in Sept. and up Hudson to Albany. **Samuel de Champlain** explored Lake Champlain, to the north. Spaniards settled **Santa Fe, NM**.
- 1619** House of Burgesses, **first representative assembly** in New World, elected July 30 at Jamestown, VA. **First black laborers**—indentured servants—in English North American colonies, brought by Dutch to Jamestown in Aug. Chattel slavery legally recognized, **1650**.
- 1620 Pilgrims**, Puritan separatists, left Plymouth, England, Sept. 16 on *Mayflower*; reached Cape Cod Nov. 19; 103 passengers landed at Plymouth, Dec. 26. **Mayflower Compact**,

- signed Nov. 11, was agreement to form a self-government. Half of colony died during harsh winter.
- 1624** Dutch colonies started in Albany and in New York area, where **New Netherland** was established in May.
- 1626** Peter Minuit bought **Manhattan** for Dutch West India Co. from Manahatta Indians during summer for goods valued at \$24; named island **New Amsterdam**.
- 1630** Settlement of **Boston** established by Massachusetts colonists led by John Winthrop; Winthrop began *The History of New England*. **William Bradford**, a governor of Plymouth Colony, began his chronicle *History of Plymouth Plantation (1620-1647)*, first published in entirety in **1856**.
- 1634 Maryland** founded as Catholic colony under charter to Lord Baltimore. Act of Toleration passed **1649** provided for religious tolerance.
- 1635** Boston Latin School, **oldest public school** in continuous existence in U.S., founded Apr. 23.
- 1636** Roger Williams founded **Providence, RI**, in June, as a democratically ruled colony with separation of church and state. Charter granted, **1644**. **Harvard College** founded; **oldest institution of higher learning** in U.S.
- 1640 First book printed** in America, the so-called *Bay Psalm Book*.
- 1647 Liberal constitution** drafted in Rhode Island. First law in America providing for **free compulsory basic education** enacted in Massachusetts.
- 1660** British Parliament passed first **Navigation Act** Dec. 1, regulating colonial commerce to suit English needs.
- 1661** A version of the New Testament translated into Algonquian became the **first Bible printed** in the colonies.
- 1664** British troops Sept. 8 seized New Netherland from Dutch. Charles II granted New Netherland and city of New Amsterdam to brother, Duke of York; both renamed **New York**. Dutch recaptured colony **1673**, but ceded it to Britain Nov. 10, **1674**.
- 1670 Charles Town, SC**, founded by English colonists in Apr.
- 1673 Regular mail service** on horseback instituted Jan. 1 between New York and Boston. **Jacques Marquette** and **Louis Jolliet** reached the upper Mississippi and traveled down it.
- 1674** Future **Salem witch trial** judge Samuel Sewall began renowned diary covering events through **1729**.
- 1676 Bloody Indian war** in New England ended Aug. 12. King Philip, Wampanoag chief, and Narragansett Indians killed. **Nathaniel Bacon** led planters against autocratic British Gov. Sir William Berkeley, burned Jamestown, VA, Sept. 19. Rebellion collapsed when Bacon died; 23 followers executed.
- 1678** A book of poetry by **Anne Bradstreet** (first published in Britain) revised and expanded for posthumous publication in Massachusetts. Considered first female poet in American colonies.
- 1679** Fire destroyed 150 houses in Boston. City imported **first fire engines** from England.
- 1681** John Bunyan's *The Pilgrim's Progress* published in America; became best seller.
- 1682 Robert Cavelier, Sieur de La Salle**, claimed lower Mississippi River country for France and called it **Louisiana** Apr. 9. Had French outposts built in Illinois and Texas, **1684**. Killed during mutiny, **1687**. Spanish colonists became the **first Europeans to settle Texas**, at site of present-day El Paso.
- 1683** William Penn signed treaty with Delaware Indians Apr. 23 and made payment for **Pennsylvania** lands. The **first German colonists** in America settled near Philadelphia.
- 1689** New York's English colonial governor, **Sir Edmund Andros**, resigned after armed uprising in Boston on Apr. 18.

1620: Pilgrims and other colonists sign the Mayflower Compact to form a "civil body politic."

1692: Witch trials begin in Salem Village; 20 men and women are executed.

1690 First colonial newspaper, *Publick Occurrences*, published by Benjamin Harris but promptly shut down for lack of official permission. Harris also published *New England Primer* for use as elementary school textbook. Large-scale whaling operations began in Nantucket, MA.

1692 Witchcraft hysteria began in Salem Village (now Danvers), MA; 20 men and women convicted of witchcraft executed by special court.

1697 *The Essays of Sir Francis Bacon*, first published in England in 1597, was published in America; it became a best seller.

1699 Former privateer Capt. **William Kidd** arrested and sent to England; hanged for piracy, **1701**. French settlements made in **Mississippi, Louisiana**.

1702 Legislation enacted making **Church of England** the established church in Maryland.

1704 Indians attacked Deerfield, MA, Feb. 28-29; killed 40, carried off 100. *Boston News Letter*, **first regular newspaper**, started by postmaster John Campbell.

1710 British-colonial troops captured French fort, Port Royal, Nova Scotia, in **Queen Anne's War, 1702-13**. France yielded Nova Scotia by treaty, **1713**.

1712 Slaves revolted in New York Apr. 6; 21 were executed. Second uprising, **1741**; 13 slaves hanged, 13 burned, 71 deported.

1716 First theater in colonies opened in Williamsburg, VA.

1726 Great Awakening, general revival of evangelical religion, began in colonies.

1731 America's **first circulating library** founded in Philadelphia by Benjamin Franklin.

1732 Benjamin Franklin published the **first Poor Richard's Almanack**; published annually until **1757**. Georgia, last of 13 colonies, chartered.

1733 Influenza epidemic swept through New York City and Philadelphia.

1735 Editor **John Peter Zenger** was acquitted of libel Aug. 5 in New York after criticizing the British governor's conduct in office.

1739 A series of **slave uprisings** put down in South Carolina.

1741 Famous sermon "Sinners in the Hands of an Angry God," delivered July 8 at Enfield, MA, by Jonathan Edwards, one of the most important preachers in the **Great Awakening** religious revival. Danish navigator **Vitus Bering**, commanding Russian expedition, reached Alaska.

1744 King George's War pitted British and colonials versus French. Colonials captured Louisbourg, Cape Breton Isl., Nova Scotia, June 17, **1745**. Returned to France **1748** by Treaty of Aix-la-Chapelle.

1752 Benjamin Franklin, flying kite in thunderstorm, proved lightning is electricity, June 15; invented lightning rod. **Liberty Bell**, cast in England, was delivered to Pennsylvania.

1754 French and Indian War began with Ft. Necessity campaign in Pennsylvania. Skirmish May 28, battle at fort July 3-4. British moved Acadian French from Nova Scotia to

Louisiana Oct. 8, **1755**. British captured Québec Sept. 18, **1759**, in battles in which French Gen. Joseph de Montcalm and British Gen. James Wolfe were killed. Peace pact signed Feb. 10, **1763**. French lost Canada and Midwest. Delegates from 7 colonies to New York for **Albany Congress**, July 19, approved plan of union by Benjamin Franklin; plan rejected by the colonies.

1757 First streetlights appeared in Philadelphia.

1764 Sugar Act, Apr. 5, placed duties on lumber, foodstuffs in colonies. First law passed by Parliament to specifically raise revenue from colonies, alleviate French and Indian War debts. British enforced this act, unlike with **Molasses Act of 1733**.

1765 Stamp Act, enacted by Parliament Mar. 22, required revenue stamps to help fund royal troops. Nine colonies, at Stamp Act Congress in New York Oct. 7-25, adopted Declaration of Rights. Stamp Act repealed Mar. 17, **1766**. **Quartering Act**, requiring colonists to house British troops, went into effect Mar. 24.

1767 Townshend Acts levied taxes on glass, painter's lead, paper, and tea. In **1770** all duties except on tea were repealed.

1770 British troops fired Mar. 5 into Boston mob, killed 5 including **Crispus Attucks**, a black man, reportedly leader of group; later called **Boston Massacre**.

1773 East India Co. tea ships turned back at Boston, New York, and Philadelphia in May. Cargo ship burned at Annapolis, Oct. 14; cargo thrown overboard at **Boston Tea Party**, Dec. 16, to protest the tea tax. **First museum** in the colonies was officially established in Charleston, SC; later named the Charleston Museum.

1774 "Intolerable Acts" of Parliament curtailed Massachusetts self-rule; barred use of Boston Harbor until tea was paid for. **First Continental Congress** held in Philadelphia Sept. 5-Oct. 26; called for civil disobedience against British. Rhode Island **abolished slavery**.

1775 Patrick Henry addressed Virginia convention, Mar. 23, said, "Give me liberty or give me death!" **Paul Revere**, **William Dawes**, and Dr. **Samuel Prescott**, Apr. 18, rode to alert patriots that British were on their way to

1765: Demonstrations erupt in Boston in response to the Stamp Act proclamations.

1776: George Washington's army crosses the Delaware River to defeat Hessian forces in the Battle of Trenton.

Concord to destroy arms. At **Lexington, MA**, Apr. 19, Minutemen lost 8. On return from **Concord**, British suffered 273 casualties. Col. Ethan Allen (joined by Col. Benedict Arnold) captured **Ft. Ticonderoga** in New York, May 10, also Crown Point. Colonials headed for **Bunker Hill**, fortified Breed's Hill, Charlestown, MA. Repulsed British under Gen. William Howe twice before retreating, June 17. Continental Congress June 15 named **George Washington** commander in chief. Established a postal system, July 26; Benjamin Franklin became the **first postmaster general**.

1776 Thomas Paine's *Common Sense*, famous pro-independence pamphlet, published Jan. 10; quickly sold some 100,000 copies. **France and Spain** agreed May 2 to provide arms to U.S. In Continental Congress June 7, Richard Henry Lee (VA) moved "that these united colonies are, and of right ought to be, free and independent states." Resolution adopted July 2. **Declaration of Independence** approved July 4, signed Aug. 2. Col. William Moultrie's batteries at **Charleston, SC**, repulsed British sea attack June 28. Washington lost **Battle of Long Island** Aug. 27; evacuated New York. **Nathan Hale** executed as spy by British Sept. 22. Brig. Gen. Arnold's **Lake Champlain** fleet was defeated at Valcour Oct. 11, but British returned to Canada. Howe failed to destroy Washington's army at White Plains, Oct. 28. Hessians captured Ft. Washington, Manhattan, and 3,000 men, Nov. 16; captured Ft. Lee, NJ, Nov. 20. Washington, in Pennsylvania, recrossed **Delaware River** Dec. 25-26, defeated Hessians at Trenton, NJ, Dec. 26.

1777 Washington defeated Lord Charles Cornwallis at **Princeton** Jan. 3. Continental Congress, June 14, authorized an **American flag**, the Stars and Stripes. Maj. Gen. John Burgoyne's force of 8,000 from Canada, captured **Ft. Ticonderoga**, July 6. Americans beat back Burgoyne at Bemis Heights, Oct. 7, cut off British escape route. Burgoyne surrendered 5,000 men at Saratoga, NY, Oct. 17. **Articles of Confederation** adopted by Continental Congress, Nov. 15; took effect Mar. 1, **1781**.

1778 **France** signed treaty of aid with U.S. Feb. 6. Sent fleet; British evacuated Philadelphia, June 18.

1779 **George Rogers Clark** took Ft. Vincennes in what is now Indiana in Feb. **John Paul Jones** on the *Bonhomme Richard* defeated *Serapis* in British North Sea waters, Sept. 23.

1780 Charleston, SC, fell to the British May 12, but Loyalists were defeated in battle of **Kings Mountain, NC**, Oct. 7 in what Thomas Jefferson called "the turn of the tide of success." **Benedict Arnold** found to be a traitor Sept. 23. Arnold escaped, made brigadier general in British army.

1781 Bank of North America, **first commercial bank**, incorporated May 26. Cornwallis retired to **Yorktown, VA**. Adm. Francois Joseph de Grasse landed 3,000 French and stopped British fleet in **Hampton Roads**. Washington and Jean Baptiste de Rochambeau joined forces, arrived near Williamsburg, Sept. 26. Siege of Cornwallis began, Oct. 6; **Cornwallis surrendered** Oct. 19.

1782 New British cabinet agreed in Mar. to **recognize U.S. independence**. Preliminary agreement signed in Paris, Nov. 30. Use of **scarlet letter A**, sewn on clothing or branded on skin of adulterers, discontinued in New England.

1783 Massachusetts Supreme Court decision in final Quock Walker trial **legally ended slavery**. Newspapers typically published weekly; **first regular daily newspaper**, *Pennsylvania Evening Post*, went on sale in Philadelphia, May 30. Britain, U.S. signed **Paris peace treaty**, Sept. 3, recognizing American independence; Congress ratified it Jan. 14, **1784**. **Washington ordered army disbanded** Nov. 3, bade farewell to his officers at Fraunces Tavern, New York City, Dec. 4.

1784 Thomas Jefferson's proposal to **ban slavery in new territories** after **1802** was narrowly defeated, Mar. 1.

1785 **Regular stagecoach routes** established between Albany, New York City, and Philadelphia.

1786 Delegates from 5 states at Annapolis, MD, Sept. 11-14 asked Congress to call a **constitutional convention**.

1787 **Shays's Rebellion** of debt-ridden farmers in Massachusetts failed, Jan. 25. **Constitutional convention** opened in Philadelphia, May 25, with Washington presiding. Constitution accepted by delegates, Sept. 17; Delaware became first state to ratify it, Dec. 7; Pennsylvania and New Jersey followed. **Northwest Ordinance** adopted July 13 by Continental Congress for Northwest Territory, north of Ohio River, west of New York; made rules for statehood. Guaranteed freedom of religion, support for schools, no slavery. *Federalist Papers* first appeared in *NY Independent Journal*.

1788 A **large fire in New Orleans**, then a Spanish territory, destroyed much of the city, Mar. 21. **Constitution adopted** June 21 after being ratified by the requisite ninth state (New Hampshire); also ratified by **Georgia, Connecticut, Massachusetts, Maryland, South Carolina, Virginia, and New York** throughout the year. **First U.S. senators elected** Sept. 30, from Pennsylvania.

1789 **George Washington** chosen president by all electors voting (73 eligible, 69 voting, 4 absent); **John Adams**, vice president, got 34 votes. **First Congress** met at Federal Hall, New York City, and declared Constitution in effect, Mar. 4; Washington inaugurated there Apr. 30; **first inaugural ball** held May 7. **U.S. State Dept.** established by Congress July 27. (Thomas Jefferson installed as first secretary of state Feb. **1790**.) **War Dept.** created Aug. 7, with Henry Knox as secretary; **Treasury Dept.** created Sept. 2, with Alexander Hamilton to be secretary. **Supreme Court** created by Federal Judiciary Act, Sept. 24; **John Jay** confirmed by Congress as **first Supreme Court chief justice**, Sept. 26.

1790 **First Supreme Court session** held Feb. 2 in New York City. Congress, Mar. 1, authorized decennial **U.S. census**. Collection of data took 18 months. **Naturalization Act** (2-year residency) passed Mar. 26. John Carroll consecrated as **first American Catholic bishop**, Aug. 15. Congress met in **Philadelphia**, new temporary capital, Dec. 6.

1791 **Bill of Rights**, submitted to states, Sept. 25, **1789**, went into effect Dec. 15. First Bank of the United States, **first bank to be chartered by federal government**, established in Philadelphia.

1792 Coinage Act established **U.S. Mint** in Philadelphia, Apr. 2. Gen. "**Mad**" **Anthony Wayne** made commander in Ohio-Indiana area, trained American Legion, established string of forts. Routed Indians at Fallen Timbers on Maumee River, Aug. 20, **1794**, checked British at Fort Miami, OH, same year. **White House** cornerstone laid Oct. 13.

1793 **Washington** inaugurated for second term, Mar. 4, having received 132 electoral votes; **John Adams** again became vice president, having received second highest total, 77. Washington declared **U.S. neutrality**, Apr. 22, in war between Britain and France. Eli Whitney invented **cotton gin**, reviving Southern slavery.

1794 **Whiskey Rebellion**, western Pennsylvania farmers protesting liquor tax of **1791**, suppressed by federal militia in Sept. **Jay's Treaty**, controversial treaty with Britain negotiated by John Jay, signed Nov. 19, ratified June 24, **1795**. This treaty intended to settle long-standing differences between U.S. and Britain.

1795 U.S. bought peace from **Algerian pirates** by paying \$1 mil ransom for 115 seamen Sept. 5, followed by annual tributes. Gen. Wayne signed **Treaty of Greenville** with Indians, opening Northwest Territory to settlers. Univ. of North Carolina became **first operating state university**.

1793: Eli Whitney patents the cotton gin; massive growth in U.S. cotton production and expansion of Southern slavery follows.

1796 Washington's farewell address as president delivered Sept. 17. Warned against permanent alliances with foreign powers, big public debt, large military establishment, and devices of "small, artful, enterprising minority."

1797 John Adams inaugurated as second president Mar. 4, having received 71 electoral votes; Thomas Jefferson became vice president, having received 68. U.S. frigate *United States* launched at Philadelphia, July 10; *Constellation* at Baltimore, Sept. 7; *Constitution* (Old Ironsides) at Boston, Sept. 20.

1798 Alien and Sedition Acts passed by Federalists June-July; intended to silence political opposition. War with France threatened over French raids on U.S. shipping and rejection of U.S. diplomats. Navy (45 ships) and 365 privateers captured 84 French ships. USS *Constellation* took French warship *Insurgente*, 1799. Napoleon stopped French raids after becoming first consul.

1800 Federal government moved to Washington, DC.

1801 John Marshall named Supreme Court chief justice, Jan. 20. Thomas Jefferson, who had received same number of electoral votes as Aaron Burr in 1800 election, won out over Burr in House vote reached Feb. 17; Burr named vice president. Tripoli declared war June 10 against U.S., which refused added tribute to commerce-raiding Arab corsairs. Land and naval campaigns forced Tripoli to negotiate peace, June 4, 1805. Oldest U.S. art institution, Pennsylvania Academy of Fine Arts, founded in Philadelphia.

1802 Congress established U.S. Military Academy at West Point, NY.

1803 Supreme Court, in *Marbury v. Madison*, overturned U.S. law for first time, Feb. 24. Napoleon sold all of Louisiana, stretching to Canadian border, to U.S. for \$11,250,000 in bonds, plus \$3,750,000 indemnities to American citizens with claims against France. U.S. took title Dec. 20. Louisiana Purchase doubled U.S. area.

1804 Meriwether Lewis and William Clark expedition ordered by Pres. Thomas Jefferson to explore what is now Northwest U.S. Started from St. Louis May 14; ended Sept. 23, 1806, back in St. Louis. Vice Pres. Aaron Burr shot Alexander Hamilton in duel July 11 in Weehawken, NJ; Hamilton died next day.

1805 U.S. Marines aided by Arab mercenaries, Apr. 27, captured Tripolitan port of Derna. Major victory in war against Barbary pirates; inspiration for "to the shores of Tripoli" in Marines Corps song.

1807 Robert Fulton made first practical steamboat trip; left New York City Aug. 17, reached Albany, 150 mi away, in 32 hrs. Embargo Act banned all trade with foreign countries, forbidding ships to set sail for foreign ports Dec. 22.

1808 Slave importation outlawed. Some 250,000 slaves were illegally imported 1808-60.

1810 Third U.S. Census found population of 7,239,814. The slave population was put at 1,191,364, and the population of all other non-white free persons at 186,446.

1811 Indiana Territory governor William Henry Harrison defeated Indians led by Tenskwatawa, called the Prophet, in

Battle of Tippecanoe, Nov. 7. Construction began on Cumberland Road in Cumberland, MD; road became important route to West. About 400 slaves revolted in Louisiana, killing the son of a plantation owner and marching on New Orleans. The insurrection was suppressed; some 75 slaves killed.

1812 War of 1812 had 3 main causes: Britain seized U.S. ships trading with France; Britain had seized 4,000 naturalized U.S. sailors by 1810; Britain armed Indians, who raided Western border. U.S. stopped trade with Europe 1807 and 1809. Trade with Britain only was stopped 1810. Unaware that Britain had raised blockade against France two days before, Congress declared war June 18. British took Detroit Aug. 16.

1813 Oliver H. Perry defeated British fleet at Battle of Lake Erie, Sept. 10. U.S. won Battle of the Thames, Ontario, Oct. 5, but failed in Canadian invasion attempts. York (Toronto) and Buffalo were burned.

1814 Troops under Andrew Jackson defeated Creek Indians led by Chief Weatherford at Battle of Horseshoe Bend in Alabama, Mar. 29, ending Creek Indian War, begun a year earlier. British landed in Maryland in Aug., defeated U.S. force Aug. 24, burned Capitol and White House. Maryland militia stopped British advance, Sept. 12. British bombardment of Ft. McHenry, Baltimore, for 25 hours, Sept. 13-14, failed, inspiring Francis Scott Key to write the words to "The Star-Spangled Banner." U.S. won naval Battle of Lake Champlain Sept. 11. Peace treaty with Great Britain signed at Ghent, Dec. 24.

1815 Some 5,300 British, unaware of peace treaty, attacked U.S. entrenchments near New Orleans, Jan. 8. British had more than 2,000 casualties; Americans lost 71. U.S. flotilla finally ended attacks by pirates from Ottoman states of Algiers, Tunis, Tripoli.

1816 Second Bank of the U.S. chartered Apr. 10. The American Colonization Society, which sought to address slavery issue by transporting freed blacks to Africa, formed in Washington, DC, Dec. 1816-Jan. 1817.

1817 Thomas Hopkins Gallaudet established the first free public school for the deaf in Hartford, CT.

1818 Connecticut expanded suffrage among white male voters. Massachusetts followed suit in 1820, and New York in 1821, reducing or eliminating property qualifications.

1819 Spain ceded Florida to U.S. Feb. 22. American steamship *Savannah* made first part-steam-powered, part-sail-powered crossing of Atlantic, traveling from Savannah, GA, to Liverpool, England, in 29 days. Washington Irving's *Sketch Book* became best seller.

1820 First organized immigration of blacks to Africa from U.S. began with 86 free blacks sailing to Sierra Leone in Feb. Henry Clay's Missouri Compromise bill passed by Congress, Mar. 3. Slavery was allowed in Missouri but not west of the Mississippi River, north of 36° 30' (the southern line of Missouri). Repealed 1854.

1821 Emma Willard founded Troy Female Seminary, first U.S. women's college. Stephen Austin established first American community in Texas, San Felipe de Austin. James Fenimore Cooper's *The Spy*, novel set during American Revolution, published and became a best seller.

1822 Tension between sports and academics surfaced when Yale College Pres. Timothy Dwight banned a primitive form of football, setting fines for violators.

1823 Monroe Doctrine, opposing European intervention in the Americas, enunciated by Pres. James Monroe Dec. 2. The Hudson River School, painters who focused on the beauties of nature, began to come to public attention.

1824 Pawtucket, RI, weavers strike, first such action by women workers. Slavery abolished in state of Illinois Aug. 2.

1825 After a deadlocked election, John Quincy Adams was elected president by the House, Feb. 9. Erie Canal opened; first boat left Buffalo Oct. 26, reached New York City Nov. 4. John Stevens, of Hoboken, NJ, built and operated first experimental steam locomotive in U.S.

1826 Thomas Jefferson and John Adams both died July 4. James Fenimore Cooper's *The Last of the Mohicans* published.

1827 Massachusetts became first state to pass a law providing for tax-supported public high schools.

1828 Baltimore & Ohio, the **first U.S. passenger railroad**, began operations July 4. South Carolina Dec. 19 declared right of **state nullification of federal laws**, opposing the "Tariff of Abominations." **Noah Webster** published his *American Dictionary of the English Language*.

1829 **Andrew Jackson** inaugurated as president, Mar. 4.

1830 Famous **debate** Jan. 27 between Sen. **Daniel Webster** (MA) and Robert Hayne (SC), on state right to nullify federal law. **Mormon church** organized by Joseph Smith in Fayette, NY, Apr. 6. Pres. Jackson, May 28, signed **Indian Removal Act**, granting president authority to negotiate treaties whereby Indians living east of Mississippi R. gave up lands in exchange for lands in West.

1831 William Lloyd Garrison began **abolitionist newspaper** *The Liberator* Jan. 1. **Nat Turner**, black slave in Virginia, led local slave rebellion, starting Aug. 21; 57 whites killed. Troops called in, 100 slaves killed. Turner captured, tried, hanged Nov. 11.

1832 **Black Hawk War** in Illinois and Wisconsin Apr.-Sept. pushed Sauk and Fox Indians west across Mississippi.

1833 **American Anti-Slavery Society** founded in Philadelphia, Dec. 4. **Oberlin College** became **first to adopt coeducation** in U.S.

1835 **Liberty Bell cracked** July 8 while tolling death of Chief Justice John Marshall. **Seminole Indians** in Florida under Osceola began attacks Nov. 1, protesting forced removal. The unpopular war ended Aug. 14, **1842**; most of the Indians sent to Oklahoma. **Texas** proclaimed right to secede from Mexico; **Sam Houston** put in command of Texas army, Nov. 2-4. **Gold** discovered on Cherokee land in Georgia. Indians forced to cede lands, Dec. 20, and to cross Mississippi.

1836 Texans besieged at **Alamo** in San Antonio by Mexicans under Santa Anna, Feb. 23-Mar. 6; entire garrison killed. Texas independence declared, Mar. 2. At San Jacinto Apr. 21, Sam Houston and Texans defeated Mexicans. **Ralph Waldo Emerson** published his first work, *Nature*, espousing his philosophy of **transcendentalism**. Marcus Whitman, H. H. Spaulding, and wives reached Fort Walla Walla on Columbia River, OR, **first white women to cross the Continental Divide**, in the Rocky Mountains.

1838 Cherokee Indians forced to walk "**Trail of Tears**" from southeast U.S. to area in present-day Oklahoma. At least 4,000—nearly one-fifth of Cherokee population—are estimated to have died.

1841 **First emigrant wagon train bound for California**, 47 persons, left Independence, MO, May 1, reached California Nov. 4. **Edgar Allan Poe** published one of the **first American detective stories**, *The Murders in the Rue Morgue*.

1842 **Webster-Ashburton Treaty** signed Aug. 9, fixing U.S.-Canada border in Maine and Minnesota. **First use of anesthetic** (sulfuric ether gas).

1843 More than 1,000 settlers left Independence, MO, for Oregon May 22, arriving in Oct. via **Oregon Trail**.

1844 **First message over first telegraph line** sent May 24 by inventor Samuel F. B. Morse from Washington to Baltimore: "What hath God wrought?"

1845 Congress **overrode a presidential veto for the first time**, Mar. 3, after Pres. John Tyler vetoed a tariff bill.

1838: Cherokee Indians are marched from their homes in southeast U.S. to present-day Oklahoma on the "Trail of Tears."

Congress of **Texas voted for annexation** by U.S., July 4. Texas admitted to Union, Dec. 29. **Edgar Allan Poe's** poem "The Raven" published.

1846 **Mexican War** began after Pres. James K. Polk ordered Gen. Zachary Taylor to seize disputed Texan land settled by Mexicans. After border clash, U.S. declared war May 13; Mexico declared war May 23. About 12,000 U.S. troops took Vera Cruz Mar. 27, **1847**, and Mexico City Sept. 14, **1847**. Treaty signed Feb. 2, **1848**, ended war, and Mexico ceded claims to Texas, California, and other territory. Bear flag of **Republic of California** raised by American settlers at Sonoma, June 14. Treaty with Britain June 15 set **Oregon territory boundary** at 49th parallel (extension of existing line). Expansionists had used slogan "54° 40' or fight." The term "**manifest destiny**," coined by journalist in **1845**, also came into play. **Mormons**, after violent clashes with settlers over polygamy, left Nauvoo, IL, for West under Brigham Young. They settled July **1847** at Salt Lake City, UT. Elias Howe invented **sewing machine**.

1847 **First adhesive U.S. postage stamps**—Benjamin Franklin 5¢, Washington 10¢—sold July 1. **Henry Wadsworth Longfellow's** *Evangeline* published.

1848 **Gold discovered** Jan. 24 in California; 80,000 prospectors emigrated in **1849**. **Lucretia Mott** and **Elizabeth Cady Stanton** led Seneca Falls, NY, **Women's Rights Convention** July 19-20.

1850 Sen. Henry Clay's **Compromise of 1850** admitted California as 31st state Sept. 9, with slavery forbidden; made Utah and New Mexico territories; made **Fugitive Slave Law** more harsh; and ended District of Columbia slave trade. **Nathaniel Hawthorne's** *The Scarlet Letter* published.

1851 **Herman Melville's** *Moby-Dick* published.

1852 **Harriet Beecher Stowe's** *Uncle Tom's Cabin* published.

1853 Japan receives Comm. Matthew C. Perry, July 14. He negotiated **treaty to open Japan** to U.S. ships. New York City hosted **first World's Fair** in the U.S., beginning July 14. **Stephen Foster** published "My Old Kentucky Home."

1854 **Republican Party** formed at Ripon, WI, Feb. 28. Opposed Kansas-Nebraska Act, which left issue of slavery to vote of settlers. Act became law May 30. Treaty ratified with Mexico Apr. 25, providing for **Gadsden Purchase** of a strip of land. **Henry David Thoreau's** *Walden* published.

1855 **First railroad train crossed Mississippi River** on river's first bridge, between Rock Island, IL, and Davenport, IA, Apr. 21. **Walt Whitman's** *Leaves of Grass* published.

1856 Republican Party's **first presidential nominee**, John C. Fremont, defeated. Abraham Lincoln made 50 speeches for him. Proslavery group sacked **Lawrence, KS**, May 21; abolitionist John Brown led antislavery contingent against Missourians at Osawatimie, KS, Aug. 30. **First U.S. kindergarten** opened in Watertown, WI.

1857 In **Dred Scott** case, which involved determination of constitutionality of already-repealed Missouri Compromise, Supreme Court decided Mar. 6 that slaves did not become free in a free state, and blacks were not and could not be citizens. **Currier & Ives**, firm of American lithographers, issued their first print.

1858 **First Atlantic cable** completed, by Cyrus W. Field Aug. 5. **Lincoln-Douglas debates** in Illinois, Aug. 21-Oct. 15.

1859 Edwin L. Drake drilled the **first commercially productive oil well** near Titusville, PA, Aug. 27. Abolitionist **John Brown**, with 21 men, seized U.S. armory at **Harpers Ferry, WV**, Oct. 16. U.S. Marines captured raiders, killing several. Brown was hanged for treason Dec. 2.

1860 Shoeworkers in Lynn, MA, went on strike Feb. 22. Within a week, strike spread to include 20,000 shoeworkers throughout New England in country's **largest strike to date**. **First Pony Express** between Sacramento, CA, and St. Joseph, MO, started Apr. 3. Republican **Abraham Lincoln** elected president Nov. 6 in 4-way race.

1861 Seven southern states set up **Confederate States of America** Feb. 8, with **Jefferson Davis** as president. Civil

War began as Confederates fired on **Ft. Sumter** in Charleston, SC, Apr. 12. They captured it Apr. 14. Pres. Lincoln called for 75,000 volunteers Apr. 15. By May, 11 states had **seceded**. Lincoln blockaded Southern ports Apr. 19, cutting off vital exports and aid. Confederates repelled Union forces at first **Battle of Bull Run**, July 21. **First transcontinental telegraph line** put in operation.

1862 Union forces were victorious in Western campaigns, took New Orleans May 1. Battles in East were largely inconclusive despite heavy casualties. The **Battle of Antietam**, in western Maryland Sept. 17, was bloodiest one-day battle of war; each side lost more than 2,000 men. **Homestead Act**, which granted free farms to settlers, approved May 20. **Land Grant Act**, which provided for public land sale to benefit agricultural education, approved July 7. It eventually led to establishment of state university systems.

1863 Pres. Lincoln issued **Emancipation Proclamation** Jan. 1, freeing "all slaves in areas still in rebellion." Entire Mississippi River was in Union hands by July 4. Union forces won major victory at Gettysburg, PA, July 1-3. Pres. Lincoln gave his **Gettysburg Address** Nov. 19. Confederate forces under siege surrendered **Vicksburg, MS**, to Union forces under Gen. Ulysses S. Grant, July 4. About 1,000 were killed or wounded in **draft riots** in New York City; some blacks were hanged by mobs July 13-16. Pres. Lincoln declared **Thanksgiving** a national holiday.

1864 Gen. **William Tecumseh Sherman** marched through Georgia, taking Atlanta Sept. 1 and Savannah Dec. 22. **Sand Creek massacre** of Cheyenne and Arapaho Indians Nov. 29. Soldiers drove Indians out of village; about 150 killed.

1865 Gen. **Robert E. Lee** surrendered 27,800 Confederate troops to Gen. Grant at Appomattox Court House in VA, Apr. 9. J. E. Johnston surrendered 31,200 to Sherman at Durham Station, NC, Apr. 18. Last rebel troops surrendered May 26. Pres. Lincoln shot Apr. 14 by **John Wilkes Booth** in Ford's Theater, Washington, DC. Died the following morning. Vice Pres. **Andrew Johnson** was sworn in as president. Booth was hunted down and fatally wounded, perhaps by his own hand, Apr. 26. Four co-conspirators were hanged July 7. **13th Amendment**, abolishing slavery, ratified Dec. 6.

1866 Congress took control of Southern **Reconstruction**, backed freedmen's rights in legislation vetoed by Johnson; veto overridden by Congress, Apr. 9. **Ku Klux Klan** formed secretly in South to terrorize blacks who voted. Disbanded **1869-71**.

1867 **Alaska** sold to U.S. by Russia for \$7.2 mil Mar. 30, through efforts of Sec. of State William H. Seward. Fraternal society the **Grange** was organized Dec. 4 to protect farmer interests. **Horatio Alger's Ragged Dick** published.

1868 Pres. Johnson again dismissed Sec. of War Edwin M. Stanton after first dismissing him in **1867**. **Johnson impeached** by the House Feb. 24 for violation of Tenure of Office Act but actually in response to his opposition to congressional Reconstruction. He was acquitted by the Senate Mar.-May. **14th Amendment**, providing for citizenship

1863: Union forces win decisive victory in the Battle of Gettysburg, ending the Confederacy's second attempt to invade the north with the war's bloodiest battle.

1869: The golden spike is driven at Promontory Summit, UT, marking the completion of the transcontinental railroad.

of all persons born or naturalized in U.S. and subject to the jurisdiction thereof, ratified July 9. **Louisa May Alcott's Little Women** published. **The World Almanac**, a publication of the *New York World*, appeared for first time.

1869 **Transcontinental railroad** completed; golden spike driven at Promontory Summit, UT, May 10, marking junction of Central Pacific and Union Pacific lines. Attempt to "corner" gold led to financial "**Black Friday**" in New York Sept. 24. **Woman suffrage law** passed in Wyoming Territory Dec. 10. **Knights of Labor** labor union formed in Philadelphia. By **1886**, it had 700,000 members nationally.

1870 **15th Amendment**, making race no bar to voting rights, ratified Feb. 8. **First U.S. boardwalk** completed, in Atlantic City, NJ. **U.S. Weather Bureau** founded.

1871 **Great Chicago fire** destroyed city Oct. 8-11. **National Rifle Association (NRA)** founded.

1872 **Amnesty Act** May 22 restored civil rights to citizens of the South, except for 500 Confederate leaders. Congress established Yellowstone, **first national park**. James McNeill Whistler painted famous portrait known informally as "**Whistler's Mother**."

1873 **First U.S. postal card** issued May 1. **Jesse James** and his gang robbed their first passenger train July 21. Banks failed, panic began in Sept. **Depression** lasted 5 years. "**Boss**" **William Tweed** of New York City was convicted Nov. 19 of stealing public funds. He died in jail in **1878**. New York's Bellevue Hospital started **first nursing school**.

1874 **Women's Christian Temperance Union** established in Cleveland. **First public zoo** in U.S. established in Philadelphia.

1875 Congress passed **Civil Rights Act** Mar. 1, giving equal rights to blacks in public accommodations and jury duty. Act invalidated in **1883** by Supreme Court. **First Kentucky Derby** held May 17. First **Jim Crow segregation law** enacted, in Tennessee.

1876 Democrat **Samuel J. Tilden** received majority of popular votes for president over Republican **Rutherford B. Hayes**, but 22 electoral votes were in dispute. Congress agreed to certify Hayes as winner in Feb. **1877** after Republicans agreed to end federal Reconstruction of South. **Alexander Graham Bell** patented the telephone Mar. 7. Col. **George A. Custer** and 264 soldiers of the 7th Cavalry were killed June 25 in "last stand," **Battle of the Little Bighorn**, MT, in Sioux Indian War.

1877 **Molly Maguires**—Irish terrorist society in mining areas of Scranton, PA—was broken up by hanging, June 21, of 11 leaders for murders of mine officials and police. Pres. Rutherford B. Hayes sent federal troops to control violent national **railroad strike**.

1878 **First commercial telephone exchange** opened, New Haven, CT, Jan. 28. **Thomas A. Edison** founded Edison Electric Light Co. on Oct. 15.

1879 **F. W. Woolworth** opened his first five-and-ten store, in Utica, NY, Feb. 22. French actress **Sarah Bernhardt** made her U.S. debut Nov. 8 at New York City's Booth Theater.

Economist and social philosopher **Henry George** published *Progress & Poverty*, advocating single tax on land.

Photos showing abuse of **Abu Ghraib prison inmates** in Iraq by American soldiers emerged Apr. 3. **National World War II Memorial** in Washington, DC, opened Apr. 29.

Ronald Reagan, 40th U.S. president, died June 5. U.S.-led coalition formally transferred power to **interim Iraqi government**, June 28. U.S. Supreme Court, June 28, issued decisions regarding **rights of terrorism detainees** that curtailed sweeping powers claimed by Bush as commander in chief. The **9/11 Commission Report**, released July 22, called for restructuring U.S. intelligence operations.

In Boston, July 28-29, **Democrats nominated** Sen. **John Kerry** (MA) for president and Sen. **John Edwards** (NC) for vice president. Pres. **Bush** and Vice Pres. **Cheney** renominated Sept. 1 at **Republican** convention in New York.

Four hurricanes hit Florida and surrounding states, Aug. 13-Sept. 25; blamed for over 50 deaths and more than \$20 bil in damage in U.S. Number of **U.S. soldiers killed** in the Iraqi conflict reached 1,000 on Sept. 7, including 755 in combat. **Boston Red Sox** swept their last 8 games to win **World Series** Oct. 27, for first time since 1918.

Pres. **Bush** reelected Nov. 2, capturing 31 states with 286 electoral votes. Republicans gained 4 Senate seats for new 55-44 majority, won majority in House for 6th consecutive election. After weeklong campaign, U.S. forces took control of the Iraqi city of **Fallujah** from insurgents, Nov. 14. Pres. Bush signed intelligence reform bill Dec. 17, based on 9/11 Commission's findings: bill created **director of national intelligence** to oversee nation's intelligence agencies.

2005 Army Reserve Spec. Charles Graner Jr. found guilty, Jan. 14, in **Abu Ghraib prisoner abuses** in Iraq, sentenced to 10 years. Army Reserve Pfc. Lynndie England convicted Sept. 26, sentenced to 3 years.

Pres. **Bush inaugurated** for 2nd term, Jan. 20. **Condoleezza Rice** became first black woman sec. of state, Jan. 26. **Alberto Gonzales** became first Hispanic U.S. atty. gen., Feb. 3.

Supreme Court, Mar. 1, ruled that **executing** convicts for crimes committed before age 18 was unconstitutional. **Terri Schiavo**, in a persistent vegetative state since 1990, died Mar. 31, 13 days after feeding tube was removed.

Vanity Fair article revealed May 31 that former FBI official **W. Mark Felt** was "**Deep Throat**"—key source for *Washington Post* reporters Bob Woodward and Carl Bernstein probing 1972 **Watergate break-in**. *Discovery* blasted off from Cape Canaveral, FL, July 26, in first shuttle launch since 2003 **Columbia disaster**.

Hurricane Katrina hit Gulf coast, Aug. 29, causing devastation in Louisiana, Mississippi, and Alabama. Breach in a levee on Lake Pontchartrain, Aug. 30, flooded **New Orleans**. Relief efforts widely criticized as insufficient.

Chief Justice **William H. Rehnquist** died Sept. 3. Bush Sept. 5 nominated as successor **John G. Roberts Jr.**; on Sept. 29 he was confirmed by Senate, 78-22, and sworn in as 17th chief justice. White House counsel **Harriet Miers**, nominated Oct. 3 to Supreme Court, withdrew Oct. 27. In her place, Bush, Oct. 31, nominated **Samuel A. Alito Jr.**; confirmed Jan. 31, 2006.

House Majority Leader **Tom DeLay** (R, TX) indicted in Texas Sept. 28 for allegedly conspiring to launder illegal contributions; he stepped down from his leadership post. Civil rights icon **Rosa Parks** died Oct. 24. **Chicago White Sox**, Oct. 26, defeated Houston Astros to win their first World Series title since 1917.

New York Times, Dec. 16, reported that Pres. Bush in 2002 had secretly authorized National Security Agency to **eavesdrop** without court warrant on people in U.S. suspected of terrorist activities. Senate, Dec. 21, passed \$453 bil defense appropriations bill after inclusion of **anti-torture amendment**. Tropical Storm Zeta, Dec. 29, the season's 28th ended the **most active hurricane season** on record.

2006 Former top Republican lobbyist **Jack Abramoff** pleaded guilty Jan. 3 to bribery and other charges; in plea agreement,

2005: Hurricane Katrina and subsequent failure of levees cause unprecedented destruction in New Orleans and along the Gulf coast.

promised to cooperate with investigation into his dealings with members of Congress. Former Enron CEO **Jeffrey Skilling** convicted May 25 of fraud, conspiracy, and insider trading related to Enron's 2001 bankruptcy. **Kenneth Lay**, Enron's founder and Skilling's successor as CEO, found guilty same day of fraud and conspiracy; died July 15.

U.S. Supreme Court ruled June 29 that Pres. Bush's system for trying **terrorism detainees** at **Guantánamo Bay** was unauthorized under federal law and Geneva Conventions. Bush, July 19, issued his **first veto**, rejecting bill to end federal funding constraints on human embryonic **stem cell research**.

British authorities announced Aug. 10 they had foiled **terrorist plot to use liquid explosives** on flights between Britain and U.S.; new security restrictions prohibited passengers in U.S. from transporting most liquids in carry-on luggage. In speech Sept. 6 Bush confirmed existence of **secret overseas prisons** for terrorism suspects run by CIA. Defense Dept. same day released new Army Field Manual delimiting permissible interrogation methods.

Pres. Bush signed bill Oct. 26 authorizing construction of **700-mi fence** along U.S.-Mexico border; broader immigration bill that he favored—approved by the Senate but not the House—would have given many **illegal immigrants** a chance to gain citizenship.

Democrats won control of House and Senate in **midterm congressional elections** Nov. 7. Pres. Bush announced Nov. 8 that Defense Sec. **Donald Rumsfeld**, a focus of criticism over Iraq war, had resigned. **Gerald R. Ford**, 38th U.S. president, died Dec. 26 at age 93.

2007 Rep. Nancy Pelosi (D, CA) chosen Jan. 4 as **first woman Speaker of the House**. Pres. Bush announced Jan. 10 he was sending more than 20,000 additional troops to Iraq, in troop "**surge**" backed by Lt. Gen. **David Petraeus**, new top U.S. commander in Iraq. Bush administration announced Jan. 17 that a court established under the 1978 **Foreign Intelligence Surveillance Act** (FISA) would have jurisdiction over a National Security Agency program monitoring international communications between people in the U.S. and suspected terrorists.

Reports of substandard conditions at **Walter Reed Army Medical Center** in Washington, DC, resulted in dismissals of military officials, Mar. 1-2. U.S. District Court jury found **I. Lewis "Scooter" Libby**, former chief of staff for Vice Pres. Cheney, guilty Mar. 6 of perjury and obstructing justice in the investigation into a leak exposing undercover CIA agent Valerie Plame Wilson; Bush commuted his 30-month prison sentence.

A senior at **Virginia Tech** killed 27 students and 5 faculty members on Apr. 16 before killing himself. On Apr. 18,

Supreme Court upheld, 5-4, a 2003 federal law that banned so-called **partial birth abortions**.

U.S. Senate and House May 24 approved Iraq and Afghanistan **war-funding bill** without timetable for withdrawal of U.S. troops from Iraq; as part of the agreement, Congress also approved increase in **national minimum wage** from \$5.15 to \$7.25 per hour in 3 stages over 2 years.

Dow Jones closed over 14,000 July 19, just 59 trading days after passing 13,000. ***Harry Potter and the Deathly Hallows***, final novel in J. K. Rowling's series, released July 21, earning record U.S. sales. Pres. Bush issued an executive order July 20 requiring that **imprisoned terror suspects** receive "the basic necessities of life" and barring cruel, inhuman, or degrading treatment.

A **Minneapolis highway bridge** collapsed Aug. 1, causing the deaths of 13 people. Congress, Aug. 4, cleared measure allowing **National Security Agency** to monitor communications without court warrants if believed related to terrorism. Barry Bonds tied Major League Baseball's all-time career **home-run record** at 755—set by Hank Aaron—on Aug. 4 in San Diego; hit No. 756 on Aug. 7.

Karl Rove, Bush's chief political strategist, announced Aug. 13 that he was resigning. **José Padilla** convicted of conspiracy in terrorism case, Aug. 16; later sentenced to 17 years, 4 months in prison. Atty. Gen. **Alberto Gonzales**, blamed for alleged firing of U.S. attorneys, announced his resignation Aug. 27.

Congress voted, Nov. 6 and 8, to **overturn veto** by Pres. Bush for first time; bill included projects for hurricane recovery, wetlands restoration, and flood control. Federal grand jury probing athletes' use of performance-enhancing drugs indicted slugger **Barry Bonds** Nov. 15, for allegedly lying to the grand jury in 2003 about his use. Report by former U.S. Sen. **George J. Mitchell**, released Dec. 13, presented evidence of **performance-enhancing drug** use by 86 Major League Baseball players.

On Dec. 6 Pres. Bush announced accord among mortgage lenders to impose 5-year **freeze on interest rates** for some mortgage holders and provide options for some homeowners to refinance. Under law signed Dec. 17 New Jersey became **first state to repeal the death penalty** since Supreme Court reinstated it under certain conditions in 1976. An **energy bill** mandating an increase in automobile **fuel-economy standards** to 35 miles per gallon by 2030 signed by Pres. Bush Dec. 19; also set timetable for requiring more energy-efficient bulbs and mandated greater use of biofuels.

2008 Sen. **John McCain** (AZ) won New Hampshire primary, Jan. 8, and state primaries on **Super Tuesday**, Feb. 5, clinching 2008 Republican presidential nomination by early Mar. Race for Democrats was tighter, but Sen. **Barack Obama** (IL) moved ahead of closest rival, Sen. **Hillary Rodham Clinton** (NY) in primary wins, and by early June had enough delegates to be assured of victory.

Fed **cut key interest rates** in two stages, Jan. 22 and 30, citing slow job growth and deterioration in housing and credit markets. Bush submitted fiscal 2009 budget to Congress Feb. 4 that called for expenditures of \$3.1 tril, forecasting \$407 bil deficit. A \$168 bil **economic stimulus package**, signed Feb. 13 by Pres. Bush, provided tax rebates of up to \$600 for individuals and \$1,200 for couples, plus \$300 per child.

New York Gov. **Eliot Spitzer** (D) left office Mar. 17, after revelations that he had been a client of a prostitution service. In Mar. 18 speech, Sen. Obama discussed America's racial divide and condemned inflammatory statements by his former longtime pastor, Rev. **Jeremiah Wright**.

Justice Dept. declassified, Apr. 1, a 2003 legal brief that had given military interrogators authority to use extreme methods when **questioning detainees** linked to al-Qaeda. **Benedict XVI** made his first papal visit to U.S., Apr. 15-20. U.S. Supreme Court held Apr. 16 that Kentucky's method of **execution by lethal injection** did not violate constitution.

On Apr. 23 Bush administration announced that Gen. **David Petraeus** would be promoted to head Central Command, overseeing military affairs in Middle East and Central Asia. U.S. Supreme Court ruled June 12 that foreign **prisoners at Guantánamo Bay** could challenge their detention by filing a writ of **habeas corpus**. The court held June 26 that individuals have a constitutional **right to own a gun**. **Oil prices spiked** above \$140 per barrel in June; national average price for gallon of regular unleaded gas reached nearly \$4.09 by July 1.

U.S. Sec. of State **Condoleezza Rice** signed agreement in Czech Republic, July 8, and Poland, Aug. 20, allowing U.S. to

place components of a **missile defense system** in those countries. Measure signed July 10 by Pres. Bush expanded federal government's power to spy on suspected terrorists. U.S. military deaths in Iraq dropped to 13 in July, lowest monthly total since the war began. **U.S. air strike** against reputed Taliban activity in **Afghanistan** village of Azizabad, Aug. 22, caused as many as 90 civilian deaths according to Afghan sources. The U.S., Sept. 1, transferred to Iraqi forces security responsibilities in **Anbar province**, formerly the center of a Sunni insurgency.

Meeting Aug. 25-28 in Denver, CO, Democrats **nominated** Sen. **Barack Obama** (IL) for president and Sen. Joe Biden (DE) for vice president. **Hurricane Gustav** hit Louisiana coast Sept. 1, but New Orleans levee system, strengthened since Hurricane Katrina, held up; some 2 mil people evacuated beforehand. More than 1 mil people fled Texas coast in advance of **Hurricane Ike**, which claimed 37 lives in the state. On Sept. 12, 25 people were killed when commuter train collided with freight train near Chatsworth, CA.

Meeting Sept. 3 in St. Paul, MN, Republicans **nominated** **McCain** for president and his pick, Alaska Gov. **Sarah Palin**, for vice president. Palin was only 2nd woman ever to run for vice president on major party ticket.

With financial system in crisis, federal government Sept. 7 took control of nation's two largest mortgage finance companies, **Fannie Mae** and **Freddie Mac**. On Wall Street a week later, investment titan **Merrill Lynch** agreed to sell itself to Bank of America for \$50 bil, and **Lehman Brothers** declared bankruptcy, after failing to find a buyer. The Fed Sept. 16 took control of insurance giant **American International Group (AIG)**, taking a 79.9% equity stake and giving it a credit line that expanded to \$144 bil by Oct. 31. On Sept. 20 a Treasury plan was introduced to purchase up to \$700 bil of **"toxic" mortgage-backed securities** to restore confidence among investors and banks reluctant to make loans.

On Sept. 29, so-called **bailout** failed in the House; about two-thirds of Republicans rejected it. **Dow Jones closed down 778 points**, for loss in wealth estimated at \$1.2 tril. Substantially revised version of **bailout plan passed** Senate Oct. 1, 74-25, and House Oct. 3, 263-171.

Las Vegas jury Oct. 3 found former football star **O. J. Simpson** and co-defendant guilty in robbery and kidnapping of two sports memorabilia dealers; Simpson sentenced Dec. 5 to at least 9 years in prison.

Fed announced Oct. 7 that it would begin lending directly to U.S. corporations. On Oct. 21 Fed pledged \$540 bil to ease credit flows and bolster investor confidence.

Bush administration announced Oct. 11 it had removed **North Korea** from its list of countries that sponsor terrorism, as part of a June agreement for North Korea to begin dismantling nuclear weapons program. Federal jury found Sen. **Ted Stevens** (R, AK) guilty Oct. 27 of accepting and failing to report gifts from oil services firm; he was defeated for reelection in Nov. Stevens's conviction was later voided because of prosecutorial misconduct. Dow Jones closed Oct. 31 at 9,325.01, for one-month decline of 14.1%.

2008: Sen. Barack Obama is elected the first African American president.

Barack Obama elected, Nov. 4, as **first African American president** in U.S. history. Obama-Biden ticket earned 53% of popular vote, versus 46% for McCain-Palin, with electoral vote margin of 365-173. Democrats increased majorities in House and Senate; election gave them control of both White House and Congress for first time since 1995. **California** voters approved **Proposition 8**, overturning May 2008 state supreme court decision affirming constitutional right for same-sex couples to marry.

Dow Jones fell 427 points, or 5.1%, Nov. 19, going below 8,000 for first time since 2003. U.S. government Nov. 23 announced plan to provide \$20 bil in cash and up to \$306 bil more as backup to protect **Citigroup** from potential mortgage losses; **volatile Dow Jones** rose 397 points. Preparing to deal with economic crisis, Pres.-elect **Obama** Nov. 24 named **Timothy Geithner** as choice for **treasury sec.** (confirmed Jan. 26, 2009). **Dow dropped 680 points** Dec. 1 after reports that U.S. manufacturing had hit 26-year low and that U.S. economy officially fell into **recession** in Dec. 2007.

Obama named former rival **Hillary Clinton**, Dec. 1, as choice for **sec. of state** (confirmed Jan. 21, 2009). Illinois Gov. Rod **Blagojevich** (D) arrested Dec. 9, accused of seeking to sell U.S. Senate seat being vacated by Obama. Illinois legislators voted Dec. 15 to begin **impeachment process**; Blagojevich asserted innocence and made Senate appointment, Dec. 30, choosing former state Atty. Gen. **Roland Burris**.

Investment manager **Bernard Madoff** arrested Dec. 11 on charges he had defrauded clients of tens of billions of dollars in massive **Ponzi scheme**.

The Fed Dec. 16 cut **benchmark interest rate** to near zero. Bush announced plans Dec. 19 to lend **General Motors** and **Chrysler** \$17.4 bil to help them survive over the next 3 months.

2009 Illinois Gov. **Blagojevich**, impeached Jan. 9, was convicted Jan. 29 by the state Senate and **removed from office**.

Barack Obama inaugurated Jan. 20 as 44th U.S. president amid economic turmoil; outlined activist agenda for **"remaking" America**. On Jan. 22 issued executive orders restricting CIA interrogation practices and calling for closing U.S. military prison at **Guantánamo Bay**, Cuba, within a year.

Treasury Sec. Geithner Feb. 10 outlined \$2 tril program to **stabilize banking** and ease credit markets. It included **"stress tests,"** which were begun Feb. 25, leading regulators to require some banks to raise more capital. On Feb. 17, Obama signed **stimulus bill** providing for \$212 bil in tax cuts and \$575 bil in new spending; lawmakers also raised **debt ceiling** from \$11.3 tril to \$12.1 tril and restricted **bonuses** by financial firms receiving funds under **TARP program**. On Feb. 18, Obama introduced \$275 bil program to help protect homeowners from **foreclosure** and ease terms for refinancing.

Pres. Obama announced, Feb. 17, that U.S. would send 17,000 more **troops to Afghanistan** and, Feb. 27, that most U.S. **troops would be out of Iraq** by Aug. 2010.

California legislators, ending 15-week deadlock, closed **\$42 bil budget gap**, Feb. 19; after ballot measures implementing the plan were defeated, passed another budget-cutting measure, July 24. Revised data released Feb. 27 showed **GDP fell** at 6.2% annual rate in Oct.-Dec. 2008, steepest drop since 1982.

Obama, Mar. 11, signed \$410 bil **omnibus spending measure** to fund government though fiscal 2009. Bailed-out **insurance giant AIG** Mar. 2 reported **record \$62 bil quarterly loss** for 4th quarter 2008, and new government funding was extended; news that AIG was paying out **\$165 mil in bonuses** to employees of its financial products unit evoked protests. Treasury Sec. Geithner, Mar. 23, introduced **Public-Private Investment Program (PPIP)**, offering incentives to encourage investments in **"toxic assets."**

Pres. Obama Mar. 27 announced retooled U.S. strategy to **defeat al-Qaeda** in Pakistan and Afghanistan. Plan called for new aid to Pakistan and more U.S. troops to train and advise Afghan army.

Iowa's Supreme Court Apr. 3 struck down state law barring **same-sex marriage**; measures allowing it were approved in Vermont Apr. 7, Maine May 6 (repealed in Nov. 3 referendum), and New Hampshire, June 3.

New York Review of Books Apr. 6 posted confidential 2007 report by International Committee of the Red Cross, concluding the **CIA** had violated international law in its handling of 14 **"high-value detainees."** Justice Dept. Apr. 16 made public past memos offering legal rationale for CIA interrogation methods that included beatings and **waterboarding**. On Aug. 24, Atty. Gen. Eric Holder appointed a **special prosecutor** to investigate possible abuses by CIA officials or contractors.

U.S. Navy SEALs April 12 rescued American captain Richard Phillips, taken hostage by **pirates off Somali coast**. Obama administration Apr. 13 eased restrictions on family travel and remittances to Cuba. Outbreak of influenza A (H1N1), or **swine flu**, in Mexico and then in U.S., triggered worldwide alerts; U.S. officials declared public health emergency Apr. 26.

On Apr. 29, House (233-193) and Senate (53-43), with no GOP support, approved **\$3.5 tril federal budget** for fiscal 2010, with deficit of \$1.2 tril. Veteran Sen. **Arlen Specter** (R, PA) Apr. 29 said he was switching to Democratic party. **Chrysler LLC** filed for bankruptcy protection Apr. 30; **United Automobile Workers** retirement health-care fund was to gain 55% stake in reorganized company.

Gallup poll released May 15 showed majority of Americans (51%) were now **“pro-life” on abortion**. In commencement address May 17 at **Notre Dame**, Obama called for civility and compromise. On May 31, **George Tiller**, Kansas doctor known to perform **late-term abortions**, was shot and killed; Scott Roeder, an anti-abortion activist, arrested and charged.

Pres. Obama May 19 tightened **fuel efficiency standards** for vehicles sold in U.S. On May 20-22, he signed **consumer protection measures**, including one to restrict interest rates and fees by credit card companies.

General Motors filed for bankruptcy June 1 under plan providing \$30.1 bil in new federal funds to support a leaner GM. On June 9, JPMorgan Chase, Goldman Sachs, Morgan Stanley, and 7 other big financial firms got permission from U.S. Treasury to **return some \$68 bil** received from Troubled Asset Relief Program (TARP).

Speaking June 4 at Cairo Univ. in Egypt, Pres. Obama called for “a new beginning” in **relations with Muslim world**. U.S. military completed scheduled **withdrawal from Iraq’s cities** and towns June 30; some 130,000 U.S. troops remained at forward-operating bases.

U.S. TV stations turned off analog signals June 12 and began **all-digital broadcasting**, as mandated by Congress.

On June 16, Sen. **John Ensign** (R, NV) apologized for affair with a former staffer; he then resigned as chair of Republican Policy Committee. On June 24, Gov. **Mark Sanford** (R, SC) admitted extramarital affair with woman from Argentina; repaid state for trip to Buenos Aires to visit her, and resigned chairmanship of Republican Governors Association.

Pres. Obama signed June 22 measure authorizing FDA to regulate content and marketing of **tobacco products**. In *Ricci v. DeStefano*, the Supreme Court held June 29 that a group of mostly white firefighters in New Haven, CT, suffered **reverse discrimination** when city threw out promotion exam because African American firefighters had done poorly.

Pop superstar **Michael Jackson died** suddenly June 25 at age 50; coroner attributed death to “acute propofol intoxication.” Alaska Gov. **Sarah Palin** (R), July 3, announced she was **resigning** her office. Pres. Obama and Pres. Dmitri Medvedev, meeting in Russia July 6, reached agreement for reducing **nuclear arsenals** and allowing U.S. flights to Afghanistan through Russian airspace.

Senate Judiciary Committee held confirmation hearings July 13-16 on Obama’s nomination of Judge **Sonia Sotomayor**, for Supreme Court vacancy left by retirement of Assoc. Justice David Souter. **Confirmed** Aug. 6 by Senate, 68-31; sworn in Aug. 8, she became first Latina and third woman to join the court.

Harvard African American scholar **Henry Louis Gates** arrested July 16 in Cambridge, MA, by Sgt. James Crowley, a white police officer, when Gates tried to open his own jammed front door. Police later dropped charges, and Obama, seeking to defuse tensions, invited both men for a beer at White House. Federal **“cash for clunkers”** program, which offered refund vouchers for trade-ins of old gas-guzzling vehicles, began July 24 with funding of \$1 bil; renewed Aug. 7 with another \$2 bil.

Returning to home districts during Aug. recess, lawmakers encountered angry protesters at **town hall meetings**, opposed to pending healthcare legislation. Some claimed **“Obamacare”** meant government takeover and “death panels.” In speech to Congress Sept. 9, Obama criticized **“scare tactics”** and defended plan.

Federal jury found former Rep. **William Jefferson** (D, LA) guilty Aug. 5 on corruption charges. After 15-month battle with brain cancer, Sen. **Edward M. (Ted) Kennedy** (D, MA) died Aug. 25.

The community advocacy organization **ACORN** came under fire after videos, surreptitiously filmed by conservative activists, showed employees apparently counseling illegal activity. Congress, Sept. 14-17, barred federal funding for ACORN.

Obama administration Sept. 17 announced it was canceling plans for ground-based **antiballistic missile system** in Eastern Europe and would no longer seek to place ballistic missile interceptors in Poland and a radar facility in Czech Republic. Federal prosecutors Sept. 24 charged **Najibullah Zazi**, airport shuttle driver in Denver, CO, with plotting to produce bombs for **terror attacks against subways**. On Sept. 25, at meeting of Group of 20 (G-20) leaders in Pittsburgh, PA, Obama and British and French leaders accused Iran of building **secret uranium enrichment facility** near Qom.

Fugitive film director **Roman Polanski** detained by authorities Sept. 26 as he arrived in Zurich to accept film award; he was wanted by U.S. for 1977 case in which he was accused of drugging and raping 13-year-old girl. Justice Dept. Oct. 19 said federal statutes should not be enforced against people who use or provide **marijuana for medical purposes** where allowed by state law. In raids carried out in 38 U.S. cities, Oct. 21-22, federal agents arrested over 300 people connected with **La Familia**, Mexican cartel that sold drugs to U.S. buyers for cash and guns.

On Oct. 14, Obama signed legislation tripling **economic aid to Pakistan**, as Pakistani troops prepared to launch major offensive. Obama administration announced Oct. 19 it was renewing **sanctions against Sudan**, while also calling for diplomatic engagement.

Government reported Oct. 29 that **real GDP grew** at an annual rate of 3.5% during July-Sept., signaling that key sectors had **emerged from recession**. White House claimed Oct. 30 that stimulus bill passed in Feb. had created or saved some 640,000 jobs by end of Sept., including 325,000 in education and 80,000 in construction. On Oct. 30, Obama announced he would end long-standing U.S. **travel and immigration restrictions** on people infected with AIDS virus. U.S. Centers for Disease Control and Prevention (CDC) reported that by late Oct. over 12,000 Americans had been hospitalized with swine flu, with a death toll of around 500.

Republicans made election gains on Nov. 3, picking up governorships in New Jersey and Virginia. Despite signs of economic growth, Bureau of Labor Statistics reported Nov. 6 that **unemployment** in Oct. hit 10.2%, passing the 10% mark for first time since 1983. Obama Nov. 6 signed measure extending unemployment benefits in hard-pressed states and renewing \$8,000 tax credit for first-time homebuyers.

On Nov. 5, 12 soldiers and a civilian were killed in a **mass shooting at Ft. Hood, TX**; Army psychiatrist Maj. Nidal Malik Hasan, a Palestinian American who reportedly had contacts with the Yemen-based radical cleric Anwar al-Awlaki, was charged with premeditated murder.

U.S. House Nov. 7 approved \$1.1 tril **health care bill**, 220-215, with only 1 Republican vote in favor; Senate Dec. 24 approved \$871 bil version, 60-39, with no Republican votes. Both bills required most Americans to purchase health insurance; only the House version provided for some form of “public option.”

In speech Dec. 1 at West Point, Pres. Obama announced **surge** of 30,000 additional troops to **Afghanistan**, so as to peak at 100,000, with drawdown to begin within 18 months. Accepting **Nobel Peace Prize**, Dec. 10 in Oslo, Norway, Obama defended U.S.-led military action in Afghanistan as a “just war” and described U.S.-led war in Iraq as “winding down.”

After unexplained accident with his car and tabloid stories portraying him as a serial adulterer, **Tiger Woods**, on his website Dec. 11, acknowledged “infidelity” and announced “an indefinite break” from pro golf. Pres. Obama brokered 5-nation **greenhouse-gas accord**, Dec. 18 in Copenhagen, establishing monitoring and reduction goals, but with no binding commitments.

On Dec. 25, passengers and crew aboard a Northwest Airlines passenger jet approaching Detroit thwarted apparent attempt by Nigerian man to ignite **explosives hidden in his underwear**; taken into custody, he acknowledged having received help from al-Qaeda in Yemen. On Dec. 30, a Jordanian CIA informant acting as a double agent set off **bomb at site of a high-level CIA intelligence meeting** near Afghan-Pakistan border, killing himself and 8 others.

While unemployment hovered at 10%, U.S. stock exchanges made **best gains since 2003**, with Dow Jones closing Dec. 31 at 10,428.05, up 18.8% since a year earlier, and 59.3% from 2009 low point in early Mar. According to year-end statistics compiled by iCasualties.org, U.S. military **fatalities in Iraq** in 2009 declined to a low of 149, with a cumulative total of 4,370 since 2003; **fatalities in Afghanistan** reached an annual high of 317 in 2009, with a cumulative total of 947 since fighting began.

Patrick Henry's Speech to the Virginia Convention

The following is an excerpt from Patrick Henry's speech to the Virginia Convention, which met at St. John's Church in Richmond, on Mar. 23, 1775, to react to British oppression.

Gentlemen may cry, peace, peace—but there is no peace. The war is actually begun! The next gale that sweeps from the north will bring to our ears the clash of resounding arms! Our brethren are already in the field! Why stand we here idle? What is it that gentlemen wish? What would they have? Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take; but as for me, give me liberty, or give me death!

Adoption of the Declaration of Independence

On June 7, 1776, Richard Henry Lee, who had issued the first call for a congress of the colonies, introduced in the Continental Congress at Philadelphia a resolution declaring “that these United Colonies are, and of right ought to be, free and independent states, that they are absolved from all allegiance to the British Crown, and that all political connection between them and the state of Great Britain is, and ought to be, totally dissolved.”

The resolution, seconded by John Adams on behalf of the Massachusetts delegation, came up again on June 11 when a committee of five, headed by Thomas Jefferson, was appointed to express the purpose of the resolution in a declaration of independence. The other four were John Adams, Benjamin Franklin, Robert R. Livingston, and Roger Sherman.

Drafting the Declaration was assigned to Jefferson, who worked on a portable desk of his own construction in a room at Market and 7th St. The committee reported the result on June 28, 1776. The members of the Congress suggested a number of changes, which Jefferson called “deplorable.” They did not approve Jefferson’s arraignment of the British people and King George III for encouraging and fostering the slave trade, which Jefferson called “an execrable commerce.” They eliminated 630 words and added 146, leaving 1,322 words in the final draft. In its final form, capitalization was erratic. Jefferson had written that men were endowed with “inalienable” rights; in the final copy it came out as “unalienable” and has been thus ever since.

The Lee-Adams resolution of independence was adopted by 12 yeas on July 2—the actual date of the act of independence. The Declaration, which explains the act, was adopted July 4.

After the Declaration was adopted, July 4, 1776, it was turned over to printer John Dunlap to be printed on broadsides. The original copy was lost and one of his broadsides

was attached to a page in the journal of the Congress. It was read aloud July 8 in Philadelphia, PA, Easton, PA, and Trenton, NJ. On July 9, it was read by order of Gen. George Washington to the troops assembled on the Common in New York City (City Hall Park).

The Continental Congress of July 19, 1776, adopted the following resolution:

“Resolved, That the Declaration passed on the 4th, be fairly engrossed on parchment with the title and stile of ‘The Unanimous Declaration of the thirteen United States of America’ and that the same, when engrossed, be signed by every member of Congress.”

Not all delegates who signed the engrossed Declaration were present on July 4. Robert Morris (PA), William Williams (CT), and Samuel Chase (MD) signed on Aug. 2; Oliver Wolcott (CT), George Wythe (VA), Richard Henry Lee (VA), and Elbridge Gerry (MA) signed in August and September; Matthew Thornton (NH) joined the Congress Nov. 4 and signed later. Thomas McKean (DE) rejoined Washington’s army before signing and said later that he signed in 1781.

Charles Carroll of Carrollton was appointed a delegate by Maryland on July 4, 1776, presented his credentials July 18, and signed the engrossed Declaration on Aug. 2. Born Sept. 19, 1737, he was 95 years old and the last surviving signer when he died on Nov. 14, 1832.

Two Pennsylvania delegates who did not support the Declaration on July 4 were replaced. The four New York delegates did not have authority from their state to vote on July 4. On July 9, the New York state convention authorized its delegates to approve the Declaration, and the Congress was so notified on July 15, 1776. The four signed the Declaration on Aug. 2.

The original engrossed Declaration is preserved at the National Archives in Washington, DC.

Declaration of Independence

The Declaration of Independence was adopted by the Continental Congress in Philadelphia on July 4, 1776. John Hancock was president of the Congress, and Charles Thomson was secretary. A copy of the Declaration, engrossed on parchment, was signed by members of Congress on and after Aug. 2, 1776. On Jan. 18, 1777, Congress ordered that “an authenticated copy, with the names of the members of Congress subscribing the same, be sent to each of the United States, and that they be desired to have the same put on record.” Authenticated copies were printed in broadside form in Baltimore, where the Continental Congress was then in session. The following text is that of the original printed by John Dunlap at Philadelphia for the Continental Congress. The original is on display at the National Archives.

IN CONGRESS, July 4, 1776.

A DECLARATION

By the REPRESENTATIVES of the

UNITED STATES OF AMERICA,

In GENERAL CONGRESS assembled

When in the Course of human Events, it becomes necessary for one People to dissolve the Political Bands which have connected them with another, and to assume among the Powers of the Earth, the separate and equal Station to which the Laws of Nature and of Nature’s God entitle them, a decent Respect to the Opinions of Mankind requires that they should declare the causes which impel them to the Separation.

We hold these Truths to be self-evident, that all Men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the Pursuit of Happiness—That to secure these Rights, Governments are instituted among Men, deriving their just Powers from the Consent of the Governed, that whenever any Form of Government becomes destructive of these Ends, it

is the Right of the People to alter or to abolish it, and to institute new Government, laying its Foundation on such Principles, and organizing its Powers in such Form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient Causes; and accordingly all Experience hath shewn, that Mankind are more disposed to suffer, while Evils are sufferable, than to right themselves by abolishing the Forms to which they are accustomed. But when a long Train of Abuses and Usurpations, pursuing invariably the same Object, evinces a Design to reduce them under absolute Despotism, it is their Right, it is their Duty, to throw off such Government, and to provide new Guards for their future Security. Such has been the patient Sufferance of these Colonies; and such is now the Necessity which constrains them to alter their former Systems of Government. The History of the present King of Great-Britain is a History of repeated Injuries and Usurpations, all having in direct Object the Establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid World.

He has refused his Assent to Laws, the most wholesome and necessary for the public Good.

He has forbidden his Governors to pass Laws of immediate and pressing Importance, unless suspended in their Operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the Accommodation of large Districts of People, unless those People would relinquish the Right of Representation in the Legislature, a Right inestimable to them, and formidable to Tyrants only.

He has called together Legislative Bodies at Places unusual, uncomfortable, and distant from the Depository of their Public Records, for the sole Purpose of fatiguing them into Compliance with his Measures.

He has dissolved Representative Houses repeatedly, for opposing with manly Firmness his Invasions on the Rights of the People.

He has refused for a long Time, after such Dissolutions, to cause others to be elected; whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the Dangers of Invasion from without, and Convulsions within.

He has endeavoured to prevent the Population of these States; for that Purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their Migrations hither, and raising the Conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone, for the Tenure of their Offices, and the Amount and payment of their Salaries.

He has erected a Multitude of new Offices, and sent hither Swarms of Officers to harrass our People, and eat out their Substance.

He has kept among us, in Times of Peace, Standing Armies, without the consent of our Legislatures.

He has affected to render the Military independent of, and superior to the Civil Power.

He has combined with others to subject us to a Jurisdiction foreign to our Constitution, and unacknowledged by our Laws; giving his Assent to their Acts of pretended Legislation:

For quartering large Bodies of Armed Troops among us:
For protecting them, by a mock Trial, from Punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all Parts of the World:
For imposing Taxes on us without our Consent:

For depriving us, in many Cases, of the Benefits of Trial by Jury:

For transporting us beyond Seas to be tried for pretended Offences:

For abolishing the free System of English Laws in a neighbouring Province, establishing therein an arbitrary Government, and enlarging its Boundaries, so as to render it at once an Example and fit Instrument for introducing the same absolute Rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with Power to legislate for us in all Cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our Seas, ravaged our Coasts, burnt our towns, and destroyed the Lives of our People.

He is, at this Time, transporting large Armies of foreign Mercenaries to complete the works of Death, Desolation, and Tyranny, already begun with circumstances of Cruelty

and Perfidy, scarcely paralleled in the most barbarous Ages, and totally unworthy the Head of a civilized Nation.

He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the Executioners of their Friends and Brethren, or to fall themselves by their Hands.

He has excited domestic Insurrections amongst us, and has endeavoured to bring on the Inhabitants of our Frontiers, the merciless Indian Savages, whose known Rule of Warfare, is an undistinguished Destruction, of all Ages, Sexes and Conditions.

In every stage of these Oppressions we have Petitioned for Redress in the most humble Terms: Our repeated Petitions have been answered only by repeated Injury. A Prince, whose Character is thus marked by every act which may define a Tyrant, is unfit to be the Ruler of a free People.

Nor have we been wanting in Attentions to our British Brethren. We have warned them from Time to Time of Attempts by their Legislature to extend an unwarrantable Jurisdiction over us. We have reminded them of the Circumstances of our Emigration and Settlement here. We have appealed to their native Justice and Magnanimity, and we have conjured them by the Ties of our common Kindred to disavow these Usurpations, which, would inevitably interrupt our Connections and Correspondence. They too have been deaf to the Voice of Justice and of Consanguinity. We must, therefore, acquiesce in the Necessity, which denounces our Separation, and hold them, as we hold the rest of Mankind, Enemies in War, in Peace, Friends.

We, therefore, the Representatives of the UNITED STATES OF AMERICA, in General Congress, Assembled, appealing to the Supreme Judge of the World for the Rectitude of our Intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly Publish and Declare, That these United Colonies are, and of Right ought to be, Free and Independent States; that they are absolved from all Allegiance to the British Crown, and that all political Connection between them and the State of Great-Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. And for the support of this declaration, with a firm Reliance on the Protection of Divine Providence, we mutually pledge to each other our lives, our Fortunes, and our sacred Honor.

JOHN HANCOCK, President
Attest.
CHARLES THOMSON, Secretary.

Signers of the Declaration of Independence

Delegate (state)	Occupation	Birthplace	Born	Died
Adams, John (MA)	Lawyer	Braintree (Quincy), MA	Oct. 30, 1735	July 4, 1826
Adams, Samuel (MA)	Political leader	Boston, MA	Sept. 27, 1722	Oct. 2, 1803

Wythe, George (VA)	Lawyer	Elizabeth City County, VA	c. 1726	June 8, 1806

Origin of the Constitution

The War of Independence was conducted by delegates from the original 13 states, who comprised the Congress of the United States of America, known as the Continental Congress. In 1777 the Congress submitted to the legislatures of the states the Articles of Confederation and Perpetual Union, which were ratified by New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Virginia, North Carolina, South Carolina, Georgia, and finally, in 1781, Maryland.

The first article read: “The stile of this confederacy shall be the United States of America.” This did not signify a sovereign nation, because the states delegated only those powers they could not handle individually, such as to wage war, make treaties, and contract debts for general expenses (e.g., paying the army). Taxes for payment of such debts were

levied by the individual states. The president signed himself “President of the United States in Congress assembled,” but here the United States were considered in the plural, a cooperating group.

When the war was won, it became evident that a stronger federal union was needed. The Congress left the initiative to the legislatures. Virginia in Jan. 1786 appointed commissioners to meet with representatives of other states; delegates from Virginia, Delaware, New York, New Jersey, and Pennsylvania met at Annapolis. Alexander Hamilton prepared their call asking delegates from all states to meet in Philadelphia in May 1787 “to render the Constitution of the federal government adequate to the exigencies of the union.” Congress endorsed the plan on Feb. 21, 1787. Delegates were appointed by all states except Rhode Island.

The convention was called for May 14, 1787, but a quorum was not present until May 25. George Washington was chosen president (presiding officer). The states certified 65 delegates, but 10 did not attend. The work was done by 55, not all of whom were present at all sessions. Of the 55 attending delegates, 16 failed to sign, and 39 actually signed Sept. 17, 1787, some with reservations. Some historians have said 74 delegates (9 more than the 65 actually certified) were named, and 19 failed to attend. These 9 additional persons refused the appointment, were never delegates, and were never counted as absentees. Washington sent the Constitution to Congress, and that body, Sept. 28, 1787, ordered it sent to the legislatures, “in order to be submitted to a convention of delegates chosen in each state by the people thereof.”

The Constitution was ratified by votes of state conventions as follows: Delaware, Dec. 7, 1787, unanimous; Penn-

sylvania, Dec. 12, 1787, 46 to 23; New Jersey, Dec. 18, 1787, unanimous; Georgia, Jan. 2, 1788, unanimous; Connecticut, Jan. 9, 1788, 128 to 40; Massachusetts, Feb. 6, 1788, 187 to 168; Maryland, Apr. 28, 1788, 63 to 11; South Carolina, May 23, 1788, 149 to 73; New Hampshire, June 21, 1788, 57 to 46; Virginia, June 25, 1788, 89 to 79; New York, July 26, 1788, 30 to 27. Nine states were needed to establish the operation of the Constitution “between the states so ratifying the same,” and New Hampshire was the 9th state. The government did not declare the Constitution in effect until the first Wednesday in Mar. 1789, which was Mar. 4. After that, North Carolina ratified it on Nov. 21, 1789, 194 to 77; and Rhode Island, May 29, 1790, 34 to 32. Vermont in convention ratified it on Jan. 10, 1791, and by act of Congress approved on Feb. 18, 1791, was admitted into the Union as the 14th state, Mar. 4, 1791.

Constitution of the United States
The Original 7 Articles

The text of the Constitution given here (except for Amendment XXVII) is from the pocket-size edition of the Constitution published by the U.S. Government Printing Office as a result of a congressional resolution to print the Constitution in its original form as amended through July 5, 1971. *Text in brackets* indicates that an item has been superseded or amended, or provides background information. **Boldface text preceding** an article, section, or amendment is a brief summary, added by *The World Almanac*.

PREAMBLE

We, the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

ARTICLE I.

Section 1—Legislative powers; in whom vested.

All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

Section 2—House of Representatives, how and by whom chosen. Qualifications of a Representative. Representatives and direct taxes, how apportioned. Enumeration. Vacancies to be filled. Power of choosing officers, and of impeachment.

The House of Representatives shall be composed of Members chosen every second Year by the People of the several States, and the Electors in each State shall have the Qualifications requisite for Electors of the most numerous Branch of the State Legislature.

No person shall be a Representative who shall not have attained to the Age of twenty-five Years, and been seven Years a Citizen of the United States, and who shall not, when elected, be an Inhabitant of that State in which he shall be chosen.

[Representatives and direct taxes shall be apportioned among the several States which may be included within this Union, according to their respective Numbers, which shall be determined by adding to the whole Number of free Persons, including those bound to Service for a Term of Years, and excluding Indians not taxed, three-fifths of all other persons.] [The previous sentence was superseded by Amendment XIV, section 2.] The actual Enumeration shall be made within three Years after the first Meeting of the Congress of the United States, and within every subsequent Term of ten Years, in such Manner as they shall by Law direct. The Number of Representatives shall not exceed one for every thirty Thousand, but each State shall have at Least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to chuse three, Massachusetts eight, Rhode-Island and Providence Plantations one, Connecticut five, New-York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

When vacancies happen in the Representation from any State, the Executive Authority thereof shall issue Writs of Election to fill such Vacancies.

The House of Representatives shall chuse their Speaker and other Officers; and shall have the sole Power of Impeachment.

Section 3—Senators, how and by whom chosen. How classified. Qualifications of a Senator. President of the Senate, his right to vote. President pro tem., and other officers of the Senate, how chosen. Power to try impeachments. When President is tried, Chief Justice to preside. Sentence.

The Senate of the United States shall be composed of two Senators from each State, *[chosen by the Legislature thereof]* *[The preceding five words were superseded by Amendment XVII.]* for six Years; and each Senator shall have one Vote.

Immediately after they shall be assembled in Consequence of the first Election, they shall be divided as equally as may be into three Classes. The Seats of the Senators of the first Class shall be vacated at the Expiration of the second Year, of the second Class at the Expiration of the fourth Year, and of the third Class at the Expiration of the Sixth year, so that one-third may be chosen every second Year; *[and if Vacancies happen by Resignation, or otherwise, during the Recess of the Legislature of any State, the Executive thereof may make temporary Appointments until the next Meeting of the Legislature, which shall then fill such Vacancies.]* *[The words in brackets were superseded by Amendment XVII.]*

No person shall be a Senator who shall not have attained to the Age of thirty Years, and been nine Years a Citizen of the United States, and who shall not, when elected, be an Inhabitant of that State for which he shall be chosen.

The Vice President of the United States shall be President of the Senate, but shall have no Vote, unless they be equally divided.

The Senate shall chuse their other Officers, and also a President pro tempore, in the absence of the Vice President, or when he shall exercise the Office of President of the United States.

The Senate shall have the sole Power to try all Impeachments. When sitting for that Purpose, they shall be on Oath or Affirmation. When the President of the United States is tried, the Chief Justice shall preside: And no Person shall be convicted without the Concurrence of two thirds of the Members present.

Judgment in Cases of Impeachment shall not extend further than to removal from Office, and disqualification to hold and enjoy any Office of honor, Trust or Profit under the United States: but the Party convicted shall nevertheless be liable and subject to Indictment, Trial, Judgment and Punishment, according to Law.

Section 4—Times, etc., of holding elections, how prescribed. One session each year.

The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by Law make or alter such Regulations, except as to the Place of Chusing Senators.

The Congress shall assemble at least once in every Year, and such Meeting shall be *[on the first Monday in December,]* *[The words in brackets were superseded by Amendment XX, section 2.]* unless they shall by Law appoint a different Day.

Section 5—Membership, quorum, adjournments, rules. Power to punish or expel. Journal. Time of adjournments, how limited, etc.

Each House shall be the Judge of the Elections, Returns and Qualifications of its own Members, and a Majority of

each shall constitute a Quorum to do Business; but a smaller number may adjourn from day to day, and may be authorized to compel the Attendance of absent Members, in such manner, and under such Penalties as each House may provide.

Each House may determine the Rules of its Proceedings, punish its members for disorderly Behavior, and, with the Concurrence of two thirds, expel a Member.

Each House shall keep a Journal of its Proceedings, and from time to time publish the same, excepting such Parts as may in their Judgment require Secrecy; and the Yeas and Nays of the Members of either House on any question shall, at the Desire of one fifth of those Present, be entered on the Journal.

Neither House, during the Session of Congress, shall, without the Consent of the other, adjourn for more than three days, nor to any other Place than that in which the two Houses shall be sitting.

Section 6—Compensation, privileges, disqualifications in certain cases.

The Senators and Representatives shall receive a Compensation for their Services, to be ascertained by Law, and paid out of the Treasury of the United States. They shall in all Cases, except Treason, Felony and Breach of the Peace, be privileged from Arrest during their Attendance at the Session of their respective Houses, and in going to and returning from the same; and for any Speech or Debate in either House, they shall not be questioned in any other Place.

No Senator or Representative shall, during the Time for which he was elected, be appointed to any civil Office under the Authority of the United States, which shall have been created, or the Emoluments whereof shall have been increased during such time; and no Person holding any Office under the United States, shall be a Member of either House during his Continuance in Office.

Section 7—House to originate all revenue bills. Veto. Bill may be passed by two-thirds of each House, notwithstanding, etc. Bill, not returned in ten days, to become a law. Provisions as to orders, concurrent resolutions, etc.

All bills for raising Revenue shall originate in the House of Representatives; but the Senate may propose or concur with Amendments as on other Bills.

Every Bill which shall have passed the House of Representatives and the Senate, shall, before it become a Law, be presented to the President of the United States; If he approve he shall sign it, but if not he shall return it, with his Objections to that House in which it shall have originated, who shall enter the Objections at large on their Journal, and proceed to reconsider it. If after such Reconsideration two thirds of that House shall agree to pass the Bill, it shall be sent, together with the Objections, to the other House, by which it shall likewise be reconsidered, and if approved by two thirds of that House, it shall become a Law. But in all such Cases the Votes of both Houses shall be determined by Yeas and Nays, and the Names of the Persons voting for and against the Bill shall be entered on the Journal of each House respectively. If any Bill shall not be returned by the President within ten Days (Sundays excepted) after it shall have been presented to him, the Same shall be a Law, in like Manner as if he had signed it, unless the Congress by their Adjournment prevent its Return, in which Case it shall not be a Law.

Every order, Resolution, or Vote to which the Concurrence of the Senate and House of Representatives may be necessary (except on a question of Adjournment) shall be presented to the President of the United States; and before the Same shall take Effect, shall be approved by him, or being disapproved by him, shall be repassed by two thirds of the Senate and House of Representatives, according to the Rules and Limitations prescribed in the Case of a Bill.

Section 8—Powers of Congress.

The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defence and general Welfare of the United States; but all Duties, Imposts and Excises shall be uniform throughout the United States;

To borrow money on the credit of the United States;

To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes;

To establish an uniform Rule of Naturalization, and uniform Laws on the subject of Bankruptcies throughout the United States;

To coin Money, regulate the Value thereof, and of foreign Coin, and fix the Standard of Weights and Measures;

To provide for the Punishment of counterfeiting the Securities and current Coin of the United States;

To establish Post Offices and post Roads;

To promote the Progress of Science and useful Arts, by securing for limited Times to Authors and Inventors the exclusive Right to their respective Writings and Discoveries;

To constitute Tribunals inferior to the supreme Court;

To define and punish Piracies and Felonies committed on the high Seas, and Offenses against the Law of Nations;

To declare War, grant Letters of Marque and Reprisal, and make Rules concerning Captures on Land and Water;

To raise and support Armies, but no Appropriation of Money to that Use shall be for a longer Term than two Years;

To provide and maintain a Navy;

To make Rules for the Government and Regulation of the land and naval Forces;

To provide for calling forth the Militia to execute the Laws of the Union, suppress Insurrections and repel Invasions;

To provide for organizing, arming, and disciplining the Militia, and for governing such Part of them as may be employed in the Service of the United States, reserving to the States respectively, the Appointment of the Officers, and the Authority of training the Militia according to the discipline prescribed by Congress;

To exercise exclusive Legislation in all Cases whatsoever, over such District (not exceeding ten Miles square) as may, by Cession of particular States, and the acceptance of Congress, become the Seat of the Government of the United States, and to exercise like Authority over all Places purchased by the Consent of the Legislature of the State in which the Same shall be, for the Erection of Forts, Magazines, Arsenals, dock-Yards, and other needful Buildings;—And

To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof.

Section 9—Provision as to migration or importation of certain persons. Habeas corpus, bills of attainder, etc. Taxes, how apportioned. No export duty. No commercial preference. Money, how drawn from Treasury, etc. No titular nobility. Officers not to receive presents, etc.

The Migration or Importation of such Persons as any of the States now existing shall think proper to admit, shall not be prohibited by the Congress prior to the Year one thousand eight hundred and eight, but a tax or duty may be imposed on such Importation, not exceeding ten dollars for each Person.

The privilege of the Writ of Habeas Corpus shall not be suspended, unless when in Cases of Rebellion or Invasion the public Safety may require it.

No Bill of Attainder or ex post facto Law shall be passed.

[No capitation, or other direct, Tax shall be laid, unless in Proportion to the Census or Enumeration herein before directed to be taken.] [Words in brackets modified by Amendment XVI.]

No Tax or Duty shall be laid on Articles exported from any State.

No Preference shall be given by any Regulation of Commerce or Revenue to the Ports of one State over those of another: nor shall Vessels bound to, or from, one State, be obliged to enter, clear, or pay Duties in another.

No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law; and a regular Statement and Account of the Receipts and Expenditures of all public Money shall be published from time to time.

No Title of Nobility shall be granted by the United States: and no Person holding any Office of Profit or Trust under them, shall, without the Consent of the Congress, accept of any present, Emolument, Office, or Title, of any kind whatever, from any King, Prince, or foreign State.

Section 10—States prohibited from the exercise of certain powers.

No State shall enter into any Treaty, Alliance, or Confederation; grant Letters of Marque and Reprisal; coin Money; emit Bills of Credit; make any Thing but gold and silver Coin a Tender in Payment of Debts; pass any Bill of Attainder, ex post facto Law, or Law impairing the Obligation of Contracts, or grant any Title of Nobility.

No State shall, without the Consent of the Congress, lay any Imposts or Duties on Imports or Exports, except what may be absolutely necessary for executing its inspection Laws: and the net Produce of all Duties and Imposts, laid by any State on Imports or Exports, shall be for the Use of the Treasury of the United States; and all such Laws shall be subject to the Revision and Control of the Congress.

No State shall, without the Consent of Congress, lay any duty of Tonnage, keep Troops, or Ships of War in time of Peace, enter into any Agreement or Compact with another State, or with a foreign Power, or engage in War, unless actually invaded, or in such imminent Danger as will not admit of delay.

ARTICLE II.

Section 1—President: his term of office. Electors of President; number and how appointed. Electors to vote on same day. Qualification of President. On whom his duties devolve in case of his removal, death, etc. President's compensation. His oath of office.

The executive Power shall be vested in a President of the United States of America. He shall hold his Office during the Term of four Years, and, together with the Vice President, chosen for the same Term, be elected, as follows.

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

[The Electors shall meet in their respective States, and vote by Ballot for two persons, of whom one at least shall not be an Inhabitant of the same State with themselves. And they shall make a List of all the Persons voted for, and of the Number of Votes for each; which List they shall sign and certify, and transmit sealed to the Seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the Presence of the Senate and House of Representatives, open all the Certificates, and the Votes shall then be counted. The Person having the greatest Number of Votes shall be the President, if such Number be a Majority of the whole Number of Electors appointed; and if there be more than one who have such Majority, and have an equal Number of Votes, then the House of Representatives shall immediately chuse by Ballot one of them for President; and if no Person have a Majority, then from the five highest on the List the said House shall in like Manner chuse the President. But in chusing the President,

the Votes shall be taken by States, the Representation from each State having one Vote; a quorum for this Purpose shall consist of a Member or Members from two thirds of the States, and a Majority of all the States shall be necessary to a Choice. In every Case, after the Choice of the President, the Person having the greatest Number of Votes of the Electors shall be the Vice President. But if there should remain two or more who have equal Votes, the Senate shall chuse from them by Ballot the Vice-President.] [This clause was superseded by Amendment XII.]

The Congress may determine the Time of chusing the Electors, and the Day on which they shall give their Votes; which Day shall be the same throughout the United States.

No person except a natural born Citizen, or a Citizen of the United States, at the time of the Adoption of this Constitution, shall be eligible to the Office of President; neither shall any Person be eligible to that Office who shall not have attained to the Age of thirty-five Years, and been fourteen Years a Resident within the United States. *[For qualification of the Vice President, see Amendment XII.]*

[In Case of the Removal of the President from Office, or of his Death, Resignation, or Inability to discharge the Powers and Duties of the said Office, the same shall devolve on the Vice President, and the Congress may by Law, provide for the Case of Removal, Death, Resignation or Inability, both of the President and Vice President, declaring what Officer shall then act as President, and such Officer shall act accordingly, until the Disability be removed, or a President shall be elected.] [This clause was superseded by Amendments XXV.]

The President shall, at stated Times, receive for his Services, a Compensation, which shall neither be encreased nor diminished during the Period for which he shall have been elected, and he shall not receive within that Period any other Emolument from the United States, or any of them.

Before he enter on the Execution of his Office, he shall take the following Oath or Affirmation:—"I do solemnly swear (or affirm) that I will faithfully execute the Office of President of the United States, and will to the best of my Ability, preserve, protect and defend the Constitution of the United States."

Section 2—President to be Commander-in-Chief. He may require opinions of cabinet officers, etc., may pardon. Treaty-making power. Nomination of certain officers. When President may fill vacancies.

The President shall be Commander in Chief of the Army and Navy of the United States, and of the Militia of the several States, when called into the actual Service of the United States; he may require the Opinion in writing, of the principal Officer in each of the executive Departments, upon any subject relating to the Duties of their respective Offices, and he shall have Power to Grant Reprieves and Pardons for Offenses against the United States, except in Cases of Impeachment.

He shall have Power, by and with the Advice and Consent of the Senate, to make Treaties, provided two-thirds of the Senators present concur; and he shall nominate, and by and with the Advice and Consent of the Senate, shall appoint Ambassadors, other public Ministers and Consuls, Judges of the supreme Court, and all other Officers of the United States, whose Appointments are not herein otherwise provided for, and which shall be established by Law: but the Congress may by Law vest the Appointment of such inferior Officers, as they think proper, in the President alone, in the Courts of Law, or in the Heads of Departments.

The President shall have Power to fill up all Vacancies that may happen during the Recess of the Senate, by granting Commissions which shall expire at the End of their next Session.

Section 3—President shall communicate to Congress. He may convene and adjourn Congress, in case of disagreement, etc. Shall receive ambassadors, execute laws, and commission officers.

He shall from time to time give to the Congress Information of the State of the Union, and recommend to their Consideration such Measures as he shall judge necessary and expedient; he may, on extraordinary Occasions, convene both Houses, or either of them, and in Case of Disagreement between them, with Respect to the Time of Adjournment, he may adjourn them to such Time as he shall think proper; he shall receive Ambassadors and other public Ministers; he shall take Care that the Laws be faithfully executed, and shall Commission all the Officers of the United States.

Section 4—All civil offices forfeited for certain crimes.

The President, Vice President and all civil Officers of the United States, shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other high Crimes and Misdemeanors.

ARTICLE III.

Section 1—Judicial powers, tenure. Compensation.

The judicial Power of the United States, shall be vested in one supreme Court, and in such inferior Courts as the Congress may from time to time ordain and establish. The Judges, both of the supreme and inferior Courts, shall hold their Offices during good Behaviour, and shall, at stated Times, receive for their Services, a Compensation, which shall not be diminished during their Continuance in Office.

Section 2—Judicial power; to what cases it extends. Original jurisdiction of Supreme Court; appellate jurisdiction. Trial by jury, etc. Trial, where.

The judicial Power shall extend to all Cases, in Law and Equity, arising under this Constitution, the Laws of the United States, and Treaties made, or which shall be made, under their Authority;—to all Cases affecting Ambassadors, other public Ministers and Consuls;—to all Cases of admiralty and maritime Jurisdiction;—to Controversies to which the United States shall be a Party;—to Controversies between two or more States; *[—between a State and Citizens of another State;—]* between Citizens of different States; — between Citizens of the same State claiming Lands under Grants of different States, *[and between a State, or the Citizens thereof, and foreign States, Citizens or Subjects.]* *[This section is modified by Amendment XI.]*

In all Cases affecting Ambassadors, other public Ministers and Consuls, and those in which a State shall be Party, the supreme Court shall have original Jurisdiction. In all the other Cases before mentioned, the supreme Court shall have appellate Jurisdiction, both as to Law and Fact, with such Exceptions, and under such Regulations as the Congress shall make.

The trial of all Crimes, except in Cases of Impeachment, shall be by Jury; and such Trial shall be held in the State where the said Crimes shall have been committed; but when not committed within any State, the Trial shall be at such Place or Places as the Congress may by Law have directed.

Section 3—Treason Defined. Proof of. Punishment of.

Treason against the United States, shall consist only in levying War against them, or in adhering to their Enemies, giving them Aid and Comfort. No Person shall be convicted of Treason unless on the Testimony of two Witnesses to the same overt Act, or on Confession in open Court.

The Congress shall have Power to declare the Punishment of Treason, but no Attainder of Treason shall work Corruption of Blood, or Forfeiture except during the Life of the Person attainted.

ARTICLE IV.

Section 1—Each State to give credit to the public acts, etc., of every other State.

Full Faith and Credit shall be given in each State to the public Acts, Records, and judicial Proceedings of every other State. And the Congress may by general Laws prescribe the Manner in which such Acts, Records and Proceedings shall be proved, and the Effect thereof.

Section 2—Privileges of citizens of each State. Fugitives from justice to be delivered up. Persons held to service having escaped, to be delivered up.

The Citizens of each State shall be entitled to all Privileges and Immunities of Citizens in the several States.

A Person charged in any State with Treason, Felony, or other Crime, who shall flee from Justice, and be found in another State, shall on demand of the executive Authority of the State from which he fled, be delivered up, to be removed to the State having Jurisdiction of the Crime.

[No Person held to Service or Labour in one State, under the Laws thereof, escaping into another, shall, in Consequence of any Law or Regulation therein, be discharged from such Service or Labour, but shall be delivered up on Claim of the Party to whom such Service or Labour may be due.] [This clause was superseded by Amendment XIII.]

Section 3—Admission of new States. Power of Congress over territory and other property.

New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the Jurisdiction of any other State; nor any State be formed by the Junction of two or more States, or parts of States, without the Consent of the Legislatures of the States concerned as well as of the Congress.

The Congress shall have Power to dispose of and make all needful Rules and Regulations respecting the Territory or other Property belonging to the United States; and nothing in this Constitution shall be so construed as to Prejudice any Claims of the United States, or of any particular State.

Section 4—Republican form of government guaranteed. Each State to be protected.

The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic Violence.

ARTICLE V.

Constitution: how amended; proviso.

The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose Amendments to this Constitution, or, on the Application of the Legislatures of two-thirds of the several States, shall call a Convention for proposing Amendments, which, in either Case, shall be valid to all Intents and Purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by Conventions in three-fourths thereof, as the one or the other Mode of Ratification may be proposed by the Congress: Provided that no Amendment which may be made prior to the Year One thousand eight hundred and eight shall in any Manner affect the first and fourth Clauses in the Ninth Section of the first Article; and that no State, without its Consent, shall be deprived of its equal Suffrage in the Senate.

ARTICLE VI.

Certain debts, etc., declared valid. Supremacy of Constitution, treaties, and laws of the United States. Oath to support Constitution, by whom taken. No religious test.

All Debts contracted and Engagements entered into, before the Adoption of this Constitution, shall be as valid against the United States under this Constitution, as under the Confederation.

This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.

The Senators and Representatives before mentioned, and the Members of the several State Legislatures, and all executive and judicial Officers, both of the United States and of the several States, shall be bound by Oath or Affirmation, to support this Constitution; but no religious Test shall ever be required as a Qualification to any Office or public Trust under the United States.

ARTICLE VII.

What ratification shall establish Constitution.

The Ratification of the Conventions of nine States shall be sufficient for the Establishment of this Constitution between the States so ratifying the Same.

Done in Convention by the Unanimous Consent of the States present the Seventeenth Day of September in the Year of our Lord one thousand seven hundred and Eighty seven and of the Independence of the United States of America the Twelfth.

In Witness whereof We have hereunto subscribed our Names.

Georgia—William Few, Abr Baldwin

Attest: William Jackson, Secretary.

Ten Original Amendments: The Bill of Rights

In force Dec. 15, 1791

[The First Congress, at its first session in the City of New York, Sept. 25, 1789, submitted to the states 12 amendments to clarify certain individual and state rights not named in the Constitution. They are generally called the Bill of Rights.

Influential in framing these amendments was the Declaration of Rights of Virginia, written by George Mason (1725-92) in 1776. Mason, a Virginia delegate to the Constitutional Convention, did not sign the Constitution and opposed its ratification on the ground that it did not sufficiently oppose slavery or safeguard individual rights.

In the preamble to the resolution offering the proposed amendments, Congress said: "The conventions of a number of the States having at the time of their adopting the Constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added, and as extending the ground of public confidence in the government will best insure the beneficent ends of its institution, be it resolved," etc.

Ten of these amendments, now commonly known as one to 10 inclusive, but originally 3 to 12 inclusive, were ratified by the states as follows: New Jersey, Nov. 20, 1789; Maryland, Dec. 19, 1789; North Carolina, Dec. 22, 1789; South Carolina, Jan. 19, 1790; New Hampshire, Jan. 25, 1790; Delaware, Jan. 28, 1790; New York, Feb. 27, 1790; Pennsylvania, Mar. 10, 1790; Rhode Island, June 7, 1790; Vermont, Nov. 3, 1791; Virginia, Dec. 15, 1791; Massachusetts, Mar. 2, 1939; Georgia, Mar. 18, 1939; Connecticut, Apr. 19, 1939. These original 10 ratified amendments follow as Amendments I to X inclusive.

Of the two original proposed amendments that were not ratified promptly by the necessary number of states, the first related to apportionment of Representatives; the second, relating to compensation of members of Congress, was ratified in 1992 and became Amendment 27.]

AMENDMENT I.

Religious establishment prohibited. Freedom of speech, of press, right to assemble and to petition.

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

AMENDMENT II.

Right to keep and bear arms.

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

AMENDMENT III.

Conditions for quarters for soldiers.

No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.

AMENDMENT IV.

Protection from unreasonable search and seizure.

The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

AMENDMENT V.

Provisions concerning prosecution and due process of law. Double jeopardy restriction. Private property not to be taken without compensation.

No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor

shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

AMENDMENT VI.

Right to speedy trial, witnesses, etc.

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the Assistance of Counsel for his defence.

AMENDMENT VII.

Right of trial by jury.

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise reexamined in any Court of the United States, than according to the rules of the common law.

AMENDMENT VIII.

Excessive bail or fines; cruel and unusual punishment.

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

AMENDMENT IX.

Rule of construction of Constitution.

The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.

AMENDMENT X.

Rights of States under Constitution.

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

Amendments Since the Bill of Rights

AMENDMENT XI.

Judicial powers construed.

The Judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by Citizens of another State, or by Citizens or Subjects of any Foreign State.

[This amendment was proposed to the Legislatures of the several States by the Third Congress on March 4, 1794, and was declared to have been ratified in a message from the President to Congress, dated Jan. 8, 1798.]

[It was on Jan. 5, 1798, that Secretary of State Pickering received from 12 of the States authenticated ratifications, and informed President John Adams of that fact.]

[As a result of later research in the Department of State, it is now established that Amendment XI became part of the Constitution on Feb. 7, 1795, for on that date it had been ratified by 12 States as follows.]

[1. New York, Mar. 27, 1794. 2. Rhode Island, Mar. 31, 1794. 3. Connecticut, May 8, 1794. 4. New Hampshire, June 16, 1794. 5. Massachusetts, June 26, 1794. 6. Vermont, between Oct. 9, 1794, and Nov. 9, 1794. 7. Virginia, Nov. 18, 1794. 8. Georgia, Nov. 29, 1794. 9. Kentucky, Dec. 7, 1794. 10. Maryland, Dec. 26, 1794. 11. Delaware, Jan. 23, 1795. 12. North Carolina, Feb. 7, 1795]

[On June 1, 1796, more than a year after Amendment XI had become a part of the Constitution—but before anyone was officially aware of this—Tennessee had been admitted as a State; but not until Oct. 16, 1797, was a certified copy of the resolution of Congress proposing the amendment sent to the Governor of Tennessee, John Sevier, by Secretary of State Pickering, whose office was then at Trenton, New Jersey, because of the epidemic of yellow fever at Philadelphia; it seems, however, that the Legislature of Tennessee took no action on Amendment XI, owing doubtless to the fact that public announcement of its adoption was made soon thereafter.]

[Besides the necessary 12 States, one other, South Carolina, ratified Amendment XI, but this action was not taken until Dec. 4, 1797; the two remaining States, New Jersey and Pennsylvania, failed to ratify.]

AMENDMENT XII.

Manner of choosing President and Vice-President.

[Proposed by Congress Dec. 9, 1803; ratified June 15, 1804.]

The Electors shall meet in their respective states and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President, and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the President of the Senate;—the President of the Senate shall, in presence of the Senate and House of Representatives, open all the certificates and the votes shall then be counted;—The person having the greatest number of votes for President, shall be the President, if such number be a majority of the whole number of Electors appointed; and if no person have such majority, then from the persons having the highest numbers not exceeding three on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. *[And if the House of Representatives shall not choose a President whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President.]* *[The words in brackets were superseded by Amendment XX, section 3.]* The person having the greatest number of votes as Vice-President, shall be the Vice-President, if such number be a majority of the whole number of Electors appointed, and if no person have a majority, then from the two highest numbers on the list, the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

THE RECONSTRUCTION AMENDMENTS

[Amendments XIII, XIV, and XV are commonly known as the Reconstruction Amendments, inasmuch as they followed the Civil War, and were drafted by Republicans who were bent on imposing their own policy of reconstruction on the South. Postbellum legislatures there—Mississippi, South Carolina, Georgia, for example—had set up laws which, it was charged, were contrived to perpetuate Negro slavery under other names.]

AMENDMENT XIII.

Slavery abolished.

[Proposed by Congress Jan. 31, 1865; ratified Dec. 6, 1865. The amendment, when first proposed by a resolution in Congress, was passed by the Senate, 38 to 6, on Apr. 8, 1864, but was defeated in the House, 95 to 66 on June 15, 1864. On reconsideration by the House, on Jan. 31, 1865, the resolution passed, 119 to 56. It was approved by President Lincoln on Feb. 1, 1865, although the Supreme Court had decided in 1798 that the President has nothing to do with the proposing of amendments to the Constitution, or their adoption.]

1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

2. Congress shall have power to enforce this article by appropriate legislation.

AMENDMENT XIV.

Citizenship rights not to be abridged.

[The following amendment was proposed to the Legislatures of the several states by the 39th Congress, June 13, 1866, ratified July 9, 1868, and declared to have been ratified in a proclamation by the Secretary of State, July 28, 1868.]

[The 14th amendment was adopted only by virtue of ratification subsequent to earlier rejections. Newly constituted legislatures in both North Carolina and South Carolina (respectively July 4 and 9, 1868), ratified the proposed amendment, although earlier legislatures had rejected the proposal. The Secretary of State issued a proclamation, which, though doubtful as to the effect of attempted withdrawals by Ohio and New Jersey, entertained no doubt as to the validity of the ratification by North and South Carolina. The following day (July 21, 1868), Congress passed a resolution which declared the 14th Amendment to be a part of the Constitution and directed the Secretary of State so to promulgate it. The Secretary waited, however, until the newly constituted Legislature of Georgia had ratified the amendment, subsequent to an earlier rejection, before the promulgation of the ratification of the new amendment.]

1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the Executive and Judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State, being *[twenty-one]* *[The words in brackets were changed by Amendment XXVI.]* years of age, and citizens of the United States, or in any way abridged, except

for participation in rebellion, or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

3. No person shall be a Senator or Representative in Congress, or elector of President and Vice-President, or hold any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof. But Congress may by a vote of two-thirds of each House, remove such disability.

4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations and claims shall be held illegal and void.

5. The Congress shall have power to enforce, by appropriate legislation, the provisions of this article.

AMENDMENT XV.

Race no bar to voting rights.

[The following amendment was proposed to the legislatures of the several States by the 40th Congress, Feb. 26, 1869, and ratified Feb. 3, 1870.]

1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude—

2. The Congress shall have power to enforce this article by appropriate legislation.

AMENDMENT XVI.

Income taxes authorized.

[Proposed by Congress July 12, 1909; ratified Feb. 3, 1913.]

The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

AMENDMENT XVII.

United States Senators to be elected by direct popular vote.

[Proposed by Congress May 13, 1912; ratified Apr. 8, 1913.]

The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State legislatures.

When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writs of election to fill such vacancies: *Provided*, That the legislature of any State may empower the executive thereof to make temporary appointments until the people fill the vacancies by election as the legislature may direct.

This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution.

AMENDMENT XVIII.

Liquor prohibition amendment.

[Proposed by Congress Dec. 18, 1917; ratified Jan. 16, 1919. Repealed by Amendment XXI, effective Dec. 5, 1933.]

1. After one year from the ratification of this article the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

2. The Congress and the several States shall have concurrent power to enforce this article by appropriate legislation.

3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of the several States as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress.

[The total vote in the Senates of the various States was 1,310 for; 237 against—84.6% dry. In the lower houses of the States the vote was 3,782 for; 1,035 against—78.5% dry.]

[The amendment ultimately was adopted by all the States except Rhode Island.]

AMENDMENT XIX.

Giving nationwide suffrage to women.

[Proposed by Congress June 4, 1919; ratified Aug. 18, 1920.]

The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex.

Congress shall have power to enforce this Article by appropriate legislation.

AMENDMENT XX.

Terms of President and Vice President to begin on Jan. 20; those of Senators, Representatives, Jan. 3.

[Proposed by Congress Mar. 2, 1932; ratified Jan. 23, 1933.]

1. The terms of the President and Vice President shall end at noon on the 20th day of January, and the terms of Senators and Representatives at noon on the 3d day of January, of the years in which such terms would have ended if this article had not been ratified; and the terms of their successors shall then begin.

2. The Congress shall assemble at least once in every year, and such meeting shall begin at noon on the 3d day of January, unless they shall by law appoint a different day.

3. If, at the time fixed for the beginning of the term of the President, the President elect shall have died, the Vice President elect shall become President. If a President shall not have been chosen before the time fixed for the beginning of his term, or if the President elect shall have failed to qualify, then the Vice President elect shall act as President until a President shall have qualified; and the Congress may by law provide for the case wherein neither a President elect nor a Vice President elect shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or Vice President shall have qualified.

4. The Congress may by law provide for the case of the death of any of the persons from whom the House of Representatives may choose a President whenever the right of choice shall have devolved upon them, and for the case of the death of any of the persons from whom the Senate may choose a Vice President whenever the right of choice shall have devolved upon them.

5. Sections 1 and 2 shall take effect on the 15th day of October following the ratification of this article. *[Oct. 1933]*

6. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several States within seven years from the date of its submission.

AMENDMENT XXI.

Repeal of Amendment XVIII.

[Proposed by Congress Feb. 20, 1933; ratified Dec. 5, 1933.]

1. The eighteenth article of amendment to the Constitution of the United States is hereby repealed.
2. The transportation or importation into any State, Territory, or possession of the United States for delivery or use therein of intoxicating liquors, in violation of the laws thereof, is hereby prohibited.
3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by conventions in the several States, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress.

AMENDMENT XXII.

Limiting Presidential terms of office.

[Proposed by Congress Mar. 24, 1947; ratified Feb. 27, 1951.]

1. No person shall be elected to the office of the President more than twice, and no person who has held the office of President, or acted as President, for more than two years of a term to which some other person was elected President shall be elected to the office of the President more than once. But this Article shall not apply to any person holding the office of President when this Article was proposed by the Congress, and shall not prevent any person who may be holding the office of President, or acting as President, during the term within which this Article becomes operative from holding the office of President or acting as President during the remainder of such term.
2. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several States within seven years from the date of its submission to the States by the Congress.

AMENDMENT XXIII.

Presidential vote for District of Columbia.

[Proposed by Congress June 16, 1960; ratified Mar. 29, 1961.]

1. The District constituting the seat of Government of the United States shall appoint in such manner as the Congress may direct:
A number of electors of President and Vice President equal to the whole number of Senators and Representatives in Congress to which the District would be entitled if it were a State, but in no event more than the least populous State; they shall be in addition to those appointed by the States, but they shall be considered, for the purposes of the election of President and Vice President, to be electors appointed by a State; and they shall meet in the District and perform such duties as provided by the twelfth article of amendment.
2. The Congress shall have power to enforce this article by appropriate legislation.

AMENDMENT XXIV.

Barring poll tax in federal elections.

[Proposed by Congress Sept. 14, 1962; ratified Jan. 23, 1964.]

1. The right of citizens of the United States to vote in any primary or other election for President or Vice President, for electors for President or Vice President, or for Senator or Representative in Congress, shall not be denied or abridged by the United States or any State by reason of failure to pay any poll tax or other tax.
2. The Congress shall have power to enforce this article by appropriate legislation.

AMENDMENT XXV.

Presidential disability and succession.

[Proposed by Congress July 6, 1965; ratified Feb. 10, 1967.]

1. In case of the removal of the President from office or of his death or resignation, the Vice President shall become President.
2. Whenever there is a vacancy in the office of the Vice President, the President shall nominate a Vice President who shall take office upon confirmation by a majority vote of both houses of Congress.
3. Whenever the President transmits to the President pro tempore of the Senate and the Speaker of the House of Representatives his written declaration that he is unable to discharge the powers and duties of his office, and until he transmits to them a written declaration to the contrary, such powers and duties shall be discharged by the Vice President as Acting President.
4. Whenever the Vice President and a majority of either the principal officers of the executive departments or of such other body as Congress may by law provide, transmit to the President pro tempore of the Senate and the Speaker of the House of Representatives their written declaration that the President is unable to discharge the powers and duties of his office, the Vice President shall immediately assume the powers and duties of the office as Acting President.

Thereafter, when the President transmits to the President pro tempore of the Senate and the Speaker of the House of Representatives his written declaration that no inability exists, he shall resume the powers and duties of his office unless the Vice President and a majority of either the principal officers of the executive department or of such other body as Congress may by law provide, transmit within four days to the President pro tempore of the Senate and the Speaker of the House of Representatives their written declaration that the President is unable to discharge the powers and duties of his office. Thereupon Congress shall decide the issue, assembling within forty-eight hours for that purpose if not in session. If the Congress, within twenty-one days after receipt of the latter written declaration, or, if Congress is not in session, within twenty-one days after Congress is required to assemble, determines by two-thirds vote of both Houses that the President is unable to discharge the powers and duties of his office, the Vice President shall continue to discharge the same as Acting President; otherwise, the President shall resume the powers and duties of his office.

AMENDMENT XXVI.

Lowering voting age to 18 years.

[Proposed by Congress Mar. 23, 1971; ratified July 1, 1971.]

1. The right of citizens of the United States, who are eighteen years of age or older, to vote shall not be denied or abridged by the United States or by any State on account of age.
2. The Congress shall have the power to enforce this article by appropriate legislation.

AMENDMENT XXVII.

Congressional pay.

[Proposed by Congress Sept. 25, 1789; ratified May 7, 1992.]

No law, varying the compensation for the services of the Senators and Representatives, shall take effect, until an election of Representatives shall have intervened.

How a Bill Becomes a Law

A senator or representative introduces a bill in Congress by sending it to the clerk of the Senate or the House, who assigns it a number and title. This procedure is termed the first reading. The clerk then refers the bill to the appropriate committee of the Senate or House.

If the committee does not wish to consider the bill, it will table, or kill, it. Otherwise, the committee holds hearings to listen to opinions and facts offered by members and other interested parties. The committee then debates the bill and may offer amendments. A vote is taken, and if favorable, the bill is sent back to the clerk of the Senate or House.

The clerk reads the bill to the house—the second reading. Members may then debate the bill and suggest amendments.

After debate and any amendments, the bill is given a third reading, simply of the title, and put to a voice or roll-call vote.

If passed, the bill goes to the other house, where it may be defeated or passed, with or without amendments. If defeated, the bill dies. If passed with amendments, a conference committee made up of members of both houses works out the differences and arrives at a compromise.

After passage of the final version by both houses, the bill is sent to the president. If the president signs it, the bill becomes a law. The president may, however, veto the bill by refusing to sign it and sending it back to the house where it originated, with reasons for the veto.

The president's objections are then read and debated, and a roll-call vote is taken. If the bill receives less than a two-thirds majority, it is defeated. If it receives at least two-thirds, it is sent to the other house. If that house also passes it by at least a two-thirds majority, the one veto is overridden, and the bill becomes a law.

If the president neither signs nor vetoes the bill within 10 days—not including Sundays—it automatically becomes a law even without the president's signature. However, if Congress has adjourned within those 10 days, the bill is automatically killed; this indirect rejection is termed a pocket veto.

Note: Under the Line Item Veto Act, effective Jan. 1, 1997, the president was authorized, under certain circumstances, to veto a bill in part, but the legislation was found unconstitutional by the Supreme Court, June 25, 1998.

Confederate States and Secession

The American Civil War (1861-65) grew out of sectional disputes over the continued existence of slavery in the South and the contention of Southern legislators that the states retained many rights, including the right to secede.

The war was not fought by state against state but by one federal regime against another, the Confederate government in Richmond assuming control over the economic, political, and military life of the South, under protest from Georgia and South Carolina.

South Carolina voted an ordinance of secession from the Union, repealing its 1788 ratification of the U.S. Constitution on Dec. 20, 1860, to take effect on Dec. 24. Other states seceded in 1861. Their votes in conventions were: Mississippi, Jan. 9, 84-15; Florida, Jan. 10, 62-7; Alabama, Jan. 11, 61-39; Georgia, Jan. 19, 208-89; Louisiana, Jan. 26, 113-17; Texas, Feb. 1, 166-7, ratified by popular vote on Feb. 23 (for 34,794, against 11,325); Virginia, Apr. 17, 88-55, ratified by popular vote on May 23 (for 128,884;

against 32,134); Arkansas, May 6, 69-1; Tennessee, May 7, ratified by popular vote on June 8 (for 104,019, against 47,238); North Carolina, May 20.

Missouri Unionists stopped secession in conventions Feb. 28 and Mar. 9. The legislature condemned secession Mar. 7. Under the protection of Confederate troops, secessionist members of the legislature adopted a resolution of secession at Neosho, Oct. 31. The Confederate Congress seated the secessionists' representatives.

Kentucky did not secede, and its government remained Unionist. In a part of the state occupied by Confederate troops, Kentuckians approved secession, and the Confederate Congress admitted their representatives.

The Maryland legislature voted against secession Apr. 27, 53-13. Delaware did not secede. Western Virginia held conventions at Wheeling, named a pro-Union governor on June 11, 1861, and was admitted to the Union as West Virginia on June 20, 1863. Its constitution provided for gradual abolition of slavery.

Confederate Government

Forty-two delegates from South Carolina, Georgia, Alabama, Mississippi, Louisiana, and Florida met in convention at Montgomery, AL, on Feb. 4, 1861. They adopted a provisional constitution of the Confederate States of America and elected Jefferson Davis (MS) as provisional president and Alexander H. Stephens (GA) as provisional vice president.

A permanent constitution was adopted Mar. 11. It abolished the African slave trade, but it did not bar interstate

commerce in slaves. On July 20 the Congress moved to Richmond, VA. Davis was elected president in November and was inaugurated on Feb. 22, 1862.

The Congress adopted a flag, consisting of a red field with a white stripe, and a blue jack with a circle of white stars. Later the more popular flag was the red field with blue diagonal crossbars that held 13 white stars, for the 11 states in the Confederacy plus Kentucky and Missouri.

The Gettysburg Address

Delivered by Pres. Abraham Lincoln at Gettysburg, PA, on Nov. 19, 1863.

Fourscore and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation or any nation so conceived and so dedicated can long endure. We are met on a great battle field of that war. We have come to dedicate a portion of that field, as a final resting-place for those who here gave their lives that this nation might live. It is altogether fitting and proper that we should do this.

But, in a larger sense, we can not dedicate—we can not consecrate—we can not hallow—this ground. The brave men, living and dead, who struggled here, have consecrated

it, far above our poor power to add or detract. The world will little note, nor long remember, what we say here, but it can never forget what they did here. It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion—that we here highly resolve that these dead shall not have died in vain—that this nation, under God, shall have a new birth of freedom—and that government of the people, by the people, for the people, shall not perish from the earth.

Presidential Oath of Office

The Constitution (Article II) directs that the president-elect shall take the following oath or affirmation to be inaugurated as president: “I do solemnly swear [affirm] that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect,

and defend the Constitution of the United States.” (Custom decrees the addition of the words “So help me God” at the end of the oath when taken by the president-elect, with the left hand on the Bible for the duration of the oath, and the right hand slightly raised.)

Law on Succession to the Presidency

If by reason of death, resignation, removal from office, inability, or failure to qualify there is neither a president nor vice president to discharge the powers and duties of the office of president, then the speaker of the House of Representatives shall upon his resignation as speaker and as representative, act as president. The same rule shall apply in the case of the death, resignation, removal from office, or inability of an individual acting as president.

If at the time when a speaker is to begin the discharge of the powers and duties of the office of president there is no speaker, or the speaker fails to qualify as acting president, then the president pro tempore of the Senate, upon his resignation as president pro tempore and as senator, shall act as president.

An individual acting as president shall continue to act until the expiration of the then current presidential term, except that (1) if his discharge of the powers and duties of the office is founded in whole or in part in the failure of both the president-elect and the vice president-elect to qualify, then

he shall act only until a president or vice president qualifies, and (2) if his discharge of the powers and duties of the office is founded in whole or in part on the inability of the president or vice president, then he shall act only until the removal of the disability of one of such individuals.

If, by reason of death, resignation, removal from office, or failure to qualify, there is no president pro tempore to act as president, then the officer of the United States who is highest on the following list, and who is not under any disability to discharge the powers and duties of president shall act as president: the secretaries of state, treasury, defense, attorney general, secretaries of interior, agriculture, commerce, labor, health and human services, housing and urban development, transportation, energy, education, veterans affairs, homeland security.

[Legislation approved July 18, 1947; amended Sept. 9, 1965, Oct. 15, 1966, Aug. 4, 1977, and Sept. 27, 1979. See also Constitutional Amendment XXV.]

Origin of the United States National Motto

In God We Trust, designated as the U.S. National Motto by Congress in 1956, originated during the Civil War as an inscription for U.S. coins, although it was used by Francis Scott Key in a slightly different form when he wrote “The Star-Spangled Banner” in 1814. On Nov. 13, 1861, when Union morale had been shaken by battlefield defeats, the Rev. M. R. Watkinson, of Ridleyville, PA, wrote to Sec. of the Treasury Salmon P. Chase. “From my heart I have felt our national shame in disowning God as not the least of our

present national disasters,” the minister wrote, suggesting “recognition of the Almighty God in some form on our coins.” Sec. Chase ordered designs prepared with the inscription *In God We Trust* and backed coinage legislation that authorized use of this slogan. The motto first appeared on some U.S. coins in 1864, and disappeared and reappeared on various coins until 1955, when Congress ordered it placed on all paper money and all coins.

The Great Seal of the U.S.

On July 4, 1776, the Continental Congress appointed a committee consisting of Benjamin Franklin, John Adams, and Thomas Jefferson “to bring in a device for a seal of the United States of America.” The designs submitted by this and a subsequent committee were

considered unacceptable. After many delays, a third committee, appointed early in 1782, presented a design prepared by lawyer William Barton. Charles Thomson, the secretary of Congress, suggested certain changes, and Congress finally approved the design on June 20, 1782. The obverse side of the seal shows an American bald eagle. In its mouth is a ribbon bearing the motto *E Pluribus Unum* (out of many, one). In the eagle’s talons are 13 arrows of war and an olive branch of peace. The reverse side shows an unfinished pyramid with an eye (Eye of Providence) above it.

The Flag of the U.S.—The Stars and Stripes

The 50-star flag of the United States was raised for the first time officially at 12:01 AM on July 4, 1960, at Fort McHenry National Monument in Baltimore, MD. The 50th star had been added for Hawaii; a year earlier the 49th, for Alaska. Before that, no star had been added since 1912, when New Mexico and Arizona were admitted to the Union.

The true history of the Stars and Stripes has become so cluttered by myth and tradition that the facts are difficult, and in some cases impossible, to establish. For example, it is not certain who designed the Stars and Stripes, who made the first such flag, or even whether it ever flew in any sea fight or land battle of the American Revolution.

All agree, however, that the Stars and Stripes originated as the result of a resolution offered by the Marine Committee of the Second Continental Congress at Philadelphia and adopted on June 14, 1777. It read:

“Resolved: that the flag of the United States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation.”

Congress gave no hint as to the designer of the flag, no instructions as to the arrangement of the stars, and no information on its appropriate uses. Historians have been unable to find the original flag law.

The resolution establishing the flag was not even published until Sept. 2, 1777. Despite repeated requests, Washington did not get the flags until 1783, after the American Revolution was over. And there is no certainty that they were the Stars and Stripes.

Early Flags

Many historians consider the first flag of the U.S. to have been the Grand Union (sometimes called Great Union) flag, although the Continental Congress never officially adopted it. This flag was a modification of the British Meteor flag, which had the red cross of St. George and the white cross of St. Andrew combined in the blue canton. For the Grand Union flag, 6 horizontal stripes were imposed on the red field, dividing it into 13 alternating red and white stripes. On

Jan. 1, 1776, when the Continental Army came into formal existence, this flag was unfurled on Prospect Hill, Somerville, MA. Washington wrote that “we hoisted the Union Flag in compliment to the United Colonies.”

One of several flags about which controversy has raged for years is at Easton, PA. Containing the devices of the national flag in reversed order, this flag has been in the public library at Easton for more than 150 years. Some contend that this flag was actually the first Stars and Stripes, first displayed on July 8, 1776. This flag has 13 red and white stripes in the canton, 13 white stars centered in a blue field.

A flag was hastily improvised from garments by the defenders of Ft. Schuyler at Rome, NY, Aug. 3-22, 1777. Historians believe it was the Grand Union Flag.

The Sons of Liberty had a flag of 9 red and white stripes, to signify 9 colonies, when they met in New York in 1765 to oppose the Stamp Tax. By 1775, the flag had grown to 13 red and white stripes, with a rattlesnake on it.

At Concord, Apr. 19, 1775, the minutemen from Bedford, MA, are said to have carried a flag having a silver arm with sword on a red field. At Cambridge, MA, the Sons of Liberty used a plain red flag with a green pine tree on it.

In June 1775, Washington went from Philadelphia to Boston to take command of the army, escorted to New York by the Philadelphia Light Horse Troop. It carried a yellow flag that had an elaborate coat of arms—the shield charged with 13 knots, the motto “For These We Strive”—and a canton of 13 blue and silver stripes.

In Feb. 1776, Col. Christopher Gadsden, a member of the Continental Congress, gave the South Carolina Provincial Congress a flag “such as is to be used by the commander-in-chief of the American Navy.” It had a yellow field, with a rattlesnake about to strike and the words “Don’t Tread on Me.”

At the Battle of Bennington, Aug. 16, 1777, patriots used a flag of 7 white and 6 red stripes with a blue canton extending down 9 stripes and showing an arch of 11 white stars over the figure 76 and a star in each of the upper corners. The stars are 7-pointed. This flag is preserved in the historical museum in Bennington, VT.

At the Battle of Cowpens, Jan. 17, 1781, the 3d Maryland Regiment is said to have carried a flag of 13 red and white stripes, with a blue canton containing 12 stars in a circle around one star.

Who Designed the Flag? No one knows for certain. Francis Hopkinson, designer of a naval flag, declared he also had designed the flag and in 1781 asked Congress to reimburse him for his services. Congress did not do so. Dumas Malone of Columbia University wrote: “This talented man . . . designed the American flag.”

Who Called the Flag “Old Glory”? The flag is said to have been named Old Glory by William Driver, a sea captain of Salem, MA. One legend has it that when he raised the flag on his brig, the *Charles Doggett*, in 1824, he said: “I name thee Old Glory.” But his daughter, who presented the flag to the Smithsonian Institution, said he named it at his 21st birthday celebration on Mar. 17, 1824, when his mother presented the homemade flag to him.

The Betsy Ross Legend. The widely publicized legend that Betsy Ross made the first Stars and Stripes in June 1776, at the request of a committee composed of George Washington, Robert Morris, and George Ross, an uncle, was first made public in 1870, by a grandson of Ross. Historians have been unable to find a historical record of such a meeting or committee.

Adding New Stars

The flag of 1777 was used until 1795. Then, on the admission of Vermont and Kentucky to the Union, Congress passed and Pres. Washington signed an act that after May 1, 1795, the flag should have 15 stripes, alternating red and white, and 15 white stars on a blue field.

When new states were admitted, it became evident that the flag would become burdened with stripes. Congress thereupon ordered that after July 4, 1818, the flag should have 13 stripes, symbolizing the 13 original states; that the union have 20 stars, and that whenever a new state was admitted a new star should be added on the July 4 following admission.

No law designates the permanent arrangement of the stars. However, since 1912, when a new state has been admitted, the new design has been announced by executive order. No star is specifically identified with any state.

Code of Etiquette for Display and Use of the U.S. Flag

Reviewed by National Flag Foundation

Although the Stars and Stripes originated in 1777, it was not until 146 years later that there was a serious attempt to establish a uniform code of etiquette for the U.S. flag. On Feb. 15, 1923, the War Department issued a circular on the rules of flag usage. These rules were adopted almost in their entirety June 14, 1923, by a conference of 68 patriotic organizations in Washington, DC. Finally, on June 22, 1942, a joint resolution of Congress, amended by Public Law 94-344, July 7, 1976, codified “existing rules and customs pertaining to the display and use of the flag.”

When to Display the Flag—The flag should be displayed on all days, especially on legal holidays and other special occasions, on official buildings when in use, in or near polling places on election days, and in or near schools when in session. Citizens may fly the flag at any time. It is customary to display it only from sunrise to sunset on buildings and on stationary flagstaffs in the open. It may be displayed at night, however, on special occasions, preferably lighted. The flag now flies over the White House both day and night. It flies over the Senate wing of the Capitol when the Senate

is in session and over the House wing when that body is in session. It flies day and night over the east and west fronts of the Capitol, without floodlights at night but receiving illumination from the Capitol Dome. It flies 24 hours a day at several other places, including the Ft. McHenry National Monument in Baltimore, where it inspired Francis Scott Key to write “The Star Spangled Banner.” The flag also flies 24 hours a day, properly illuminated, at U.S. Customs ports of entry.

Flying the Flag at Half-Staff—Flying the flag at half-staff, that is, halfway up the staff, is a signal of mourning. The flag should be hoisted to the top of the staff for an instant before being lowered to half-staff. It should be hoisted to the peak again before being lowered for the day or night.

As provided by presidential proclamation, the flag should fly at half-staff for 30 days from the day of death of a president or former president; for 10 days from the day of death of a vice president, chief justice or retired chief justice of the U.S., or speaker of the House of Representatives; from day

of death until burial of an associate justice of the Supreme Court, cabinet member, former vice president, Senate president pro tempore, or majority or minority Senate or House leader; for a U.S. senator, representative, territorial delegate, or the resident commissioner of Puerto Rico, on day of death and the following day within the metropolitan area of the District of Columbia and from day of death until burial within the decedent's state, congressional district, territory or commonwealth; and for the death of the governor of a state, territory, or possession of the U.S., from day of death until burial.

On Memorial Day, the flag should fly at half-staff until noon and then be raised to the peak. The flag should also fly at half-staff on Korean War Veterans Armistice Day (July 27), National Pearl Harbor Remembrance Day (Dec. 7), and Peace Officers Memorial Day (May 15).

How to Fly the Flag—The flag should be hoisted briskly and lowered ceremoniously and should never be allowed to touch the ground or the floor. When the flag is hung over a sidewalk from a rope extending from a building to a pole, the union should be away from the building. When the flag is hung over the center of a street the union should be to the north in an east-west street and to the east in a north-south street. No other flag may be flown above or, if on the same level, to the right of the U.S. flag, except that at the United Nations Headquarters the UN flag may be placed above flags of all member nations and other national flags may be flown with equal prominence or honor with the flag of the U.S. At services by Navy chaplains at sea, the church pennant may be flown above the flag.

When two flags are placed against a wall with crossed staffs, the U.S. flag should be at right—its own right, and its staff should be in front of the staff of the other flag; when a number of flags are grouped and displayed from staffs, it should be at the center and highest point of the group.

Church and Platform Use—In an auditorium, the flag may be displayed flat, above and behind the speaker. When displayed from a staff in a church or in a public auditorium, the flag should hold the position of superior prominence, in advance of the audience, and in the position of honor at the speaker's right as she or he faces the audience. Any other flag so displayed should be placed on the left of the speaker or to the right of the audience.

When the flag is displayed horizontally or vertically against a wall, the stars should be uppermost and at the observer's left.

When used to cover a casket, the flag should be placed so that the union is at the head and over the left shoulder. It should not be lowered into the grave nor touch the ground.

How to Dispose of Worn Flags—When the flag is in such condition that it is no longer a fitting emblem for display, it should be destroyed in a dignified way, preferably by burning.

When to Salute the Flag—All persons present should face the flag, stand at attention, and salute on the following occasions: (1) when the flag is passing in a parade or in a review, (2) during the ceremony of hoisting or lowering, (3) when the national anthem is played, and (4) during the Pledge of Allegiance. Those present in uniform should render the military salute. Those not in uniform should place the right hand over the heart. A man wearing a hat should remove it with his right hand and hold it to his left shoulder during the salute.

Prohibited Uses of the Flag—The flag should not be dipped to any person or thing. (An exception—customarily, ships salute by dipping their colors.) It should never be displayed with the union down save as a distress signal. It

should never be carried flat or horizontally, but always aloft and free.

It should not be displayed on a float, an automobile, or a boat except from a staff. It should never be used as a covering for a ceiling, nor have placed on it any word, design, or drawing. It should never be used as a receptacle for carrying anything. It should not be used to cover a statue or a monument.

The flag should never be used for advertising purposes, nor be embroidered on such articles as cushions or handkerchiefs, printed or otherwise impressed on boxes or anything that is designed for temporary use and discard; or used as a costume or athletic uniform. Advertising signs should not be fastened to its staff or halyard.

The flag should never be used as drapery of any sort, never festooned, drawn back, nor up, in folds, but always allowed to fall free. Bunting of blue, white, and red, always arranged with the blue above and the white in the middle, should be used for covering a speaker's desk, draping the front of a platform, and for decoration in general.

An act of Congress approved on Feb. 8, 1917, provided certain penalties for the desecration, mutilation, or improper use of the flag within the District of Columbia. A 1968 federal law provided penalties of as much as a year's imprisonment or a \$1,000 fine or both for publicly burning or otherwise desecrating any U.S. flag. In addition, many states have laws against flag desecration. In 1989, the Supreme Court ruled that no laws could prohibit political protesters from burning the flag. The decision had the effect of declaring unconstitutional the flag desecration laws of 48 states, as well as a similar federal statute, in cases of peaceful political expression.

The Supreme Court, in June 1990, declared that a new federal law making it a crime to burn or deface the American flag violated the free-speech guarantee of the First Amendment. The 5-4 Court decision led to renewed calls in Congress for a constitutional amendment to make it possible to prosecute flag burners.

Pledge of Allegiance to the Flag

I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

This, the current official version of the Pledge of Allegiance, has developed from the original pledge, which was first published in the Sept. 8, 1892, issue of *Youth's Companion*, a weekly magazine then published in Boston. The original pledge contained the phrase "my flag," which was changed more than 30 years later to "flag of the United States of America." A 1954 act of Congress added the words "under God." (In 2002, the 9th Circuit U.S. Court of Appeals ruled that recitation of the pledge in public schools could not include that phrase. In 2004, however, the U.S. Supreme Court voted to decline to decide the case on a technicality. The lower court's decision was thus overturned.)

The authorship of the pledge was in dispute for many years. The *Youth's Companion* stated in 1917 that the original draft was written by James B. Upham, an executive of the magazine who died in 1910. A leaflet circulated by the magazine later named Upham as the originator of the draft "afterwards condensed and perfected by him and his associates of the Companion force."

Francis Bellamy, a former member of *Youth's Companion* editorial staff, publicly claimed authorship of the pledge in 1923. In 1939, the United States Flag Association, acting on the advice of a committee named to study the controversy, upheld the claim of Bellamy, who had died 8 years earlier. In 1957 the Library of Congress issued a report attributing the authorship to Bellamy.

The History of the National Anthem

"The Star-Spangled Banner" was ordered played by the military and naval services by Pres. Woodrow Wilson in 1916. It was designated the national anthem by Act of Congress, Mar. 3, 1931. The words were written by Francis Scott Key, of Georgetown, MD, during the bombardment of Fort McHenry, Baltimore, Sept. 13-14, 1814. Key was a lawyer, a graduate of St. John's College, Annapolis, and a volunteer in a light artillery company. When a friend, Dr. Beanes, a Maryland physician, was taken aboard Admiral Cockburn's British squadron for interfering with ground troops, Key and J. S. Skinner, carrying a note from Pres. Madison, went to the fleet under a flag of truce on a cartel ship to ask Beanes's release. Cockburn consented, but as the fleet was about to sail up the Patapsco to bombard Fort McHenry, he detained them, first on HMS *Surprise* and then on a supply ship.

Key witnessed the bombardment from his own vessel. It began at 7 AM, Sept. 13, 1814, and lasted, with intermissions, for 25 hrs. The British fired more than 1,500 shells, each weighing as much as 220 lbs. They were unable to approach closely because the U.S. had sunk 22 vessels. Only 4 Americans were killed and 24 wounded. A British bombship was disabled.

During the event, Key wrote a stanza on the back of an envelope. Next day at Indian Queen Inn, Baltimore, he wrote out the poem and gave it to his brother-in-law, Judge J. H. Nicholson. Nicholson suggested use of the tune, "Anacreon in Heaven" (attributed to a British composer named John Stafford Smith), and had the poem printed on broadsides, of which 2 survive. On Sept. 20 it appeared in the *Baltimore American*. Later Key made 3 copies; one is in the Library of Congress, and one in the Pennsylvania Historical Society. The copy Key wrote on Sept. 14 remained in the Nicholson family for 93 years. In 1907 it was sold to Henry Walters of Baltimore. In 1934 it was bought at auction by the Walters Art Gallery, Baltimore, for \$26,400. In 1953 it was sold to the Maryland Historical Society for the same price.

The flag that Key saw during the bombardment is preserved in the Smithsonian Institution, Washington, DC. It measures 30 by 42 ft and has 15 alternating red and white stripes and 15 stars, for the original 13 states plus Kentucky and Vermont. It was made by Mary Young Pickersgill. The Baltimore Flag House, a museum, occupies her premises, which were restored in 1953.

The Star-Spangled Banner

Note: The 2nd and 3rd stanzas are commonly omitted as a courtesy to the British.

I

Oh, say can you see by the dawn's early light
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars thru the perilous fight,
O'er the ramparts we watched were so gallantly streaming?
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.
Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

II

On the shore, dimly seen through the mists of the deep,
Where the foe's haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning's first beam,
In full glory reflected now shines in the stream:
'Tis the star-spangled banner! Oh long may it wave
O'er the land of the free and the home of the brave!

III

And where is that band who so vauntingly swore
That the havoc of war and the battle's confusion,
A home and a country should leave us no more!
Their blood has washed out their foul footsteps' pollution.
No refuge could save the hireling and slave
From the terror of flight, or the gloom of the grave:
And the star-spangled banner in triumph doth wave
O'er the land of the free and the home of the brave!

IV

Oh! thus be it ever, when freemen shall stand
Between their loved home and the war's desolation!
Blest with victory and peace, may the heav'n rescued land
Praise the Power that hath made and preserved us a nation.
Then conquer we must, when our cause it is just,
And this be our motto: "In God is our trust."
And the star-spangled banner in triumph shall wave
O'er the land of the free and the home of the brave!

America (My Country 'Tis of Thee)

First sung in public on July 4, 1831, at a service in the Park Street Church, Boston, the words were written by Rev. Samuel Francis Smith, a Baptist clergyman, who set them to a melody he found in a German songbook, unaware that it was the tune for the British anthem "God Save the King/Queen."

My country, 'tis of thee,
Sweet land of liberty,
Of thee I sing.
Land where my fathers died!
Land of the Pilgrims' pride!
From ev'ry mountainside,
Let freedom ring!

My native country, thee,
Land of the noble free,
Thy name I love.
I love thy rocks and rills,
Thy woods and templed hills;
My heart with rapture thrills
Like that above.

Let music swell the breeze,
And ring from all the trees
Sweet freedom's song.
Let mortal tongues awake;
Let all that breathe partake;
Let rocks their silence break,
The sound prolong.

Our fathers' God, to Thee,
Author of liberty,
To Thee we sing.
Long may our land be bright
With freedom's holy light;
Protect us by Thy might,
Great God, our King!

America, the Beautiful

Words composed by Katharine Lee Bates, a Massachusetts educator and author, in 1893, inspired by the view she experienced atop Pikes Peak in Colorado. The final form was established in 1911, and it is set to the music of Samuel A. Ward’s “Materna.”

O beautiful for spacious skies.
For amber waves of grain,
For purple mountain majesties
Above the fruited plain.
America! America!
God shed His grace on thee,
And crown thy good with brotherhood
From sea to shining sea.

O beautiful for pilgrim feet
Whose stern impassion’d stress
A thorough-fare for freedom beat
Across the wilderness.
America! America!
God mend thine ev’ry flaw,
Confirm thy soul in self control,
Thy liberty in law.

O beautiful for heroes prov’d
In liberating strife,
Who more than self their country lov’d
And mercy more than life.
America! America!
May God thy gold refine
Till all success be nobleness,
And ev’ry gain divine.

O beautiful for patriot dream
That sees beyond the years,
Thine alabaster cities gleam,
Undimmed by human tears.
America! America!
God shed His grace on thee,
And crown thy good with brotherhood
From sea to shining sea.

The Liberty Bell: Its History and Significance

The Liberty Bell is housed in the Liberty Bell Center, located in Philadelphia’s National Historical Park.

The original bell was ordered by Assembly Speaker and Chairman of the State House Superintendents Isaac Norris and was ordered from Thomas Lester, Whitechapel Foundry, London. It reached Philadelphia at the end of August 1752. It bore an inscription from Leviticus 25:10: “PROCLAIM LIBERTY THROUGHOUT ALL THE LAND UNTO ALL THE INHABITANTS THEREOF.”

The bell was cracked by a stroke of its clapper in Sept. 1752 while it hung on a truss in the State House yard for testing. Pass & Stow, Philadelphia founders, recast the bell, adding 1½ ounces of copper to a pound of the original “Whitechapel” metal to reduce its high tone and brittleness. It was found that the bell contained too much copper, injuring its tone, so Pass & Stow recast it again, this time successfully.

In June 1753 the bell was hung in the old wooden steeple of the State House. In use while the Continental Congress was in session in the State House, it rang out in defiance of British tax and trade restrictions, and it proclaimed the Boston Tea Party and, on July 8, 1776, the first public reading of the Declaration of Independence.

On Sept. 18, 1777, when the British Army was about to occupy Philadelphia, the Liberty Bell was moved in a baggage train of the American Army to Allentown, PA, where it was hidden until June 27, 1778. The bell was moved back to Philadelphia after the British left the city.

In July 1781 the wooden steeple became insecure and had to be taken down. The bell was lowered into the brick section of the tower, where it remained until 1828. Between 1828 and 1844 the old State House bell continued to ring during special occasions. According to tradition, it cracked in 1835 as it tolled the death of Chief Justice John Marshall. It rang for the last time on Feb. 23, 1846. In 1852 it was placed on exhibition in the Declaration Chamber of Independence Hall.

In 1876, when thousands of Americans visited Philadelphia for the Centennial Exposition, the bell was placed in its old wooden support in the tower hallway. In 1877 it was hung from the ceiling of the tower by a chain of 13 links. It was returned again to the Declaration Chamber and in 1896 taken back to the tower hall, where it occupied a glass case. In 1915 the case was removed so that the public might touch it. On Jan. 1, 1976, just after midnight to mark the opening of the Bicentennial Year, the bell was moved to a new glass and steel pavilion behind Independence Hall for easier viewing.

On Oct. 9, 2003, the bell was transferred from Liberty Bell Pavilion to its present location, where exhibits and displays explain the history of the bell.

The measurements of the bell are as follows: circumference around the lip, 12 ft ½ in.; circumference around the crown, 6 ft 11¼ in.; lip to the crown, 3 ft; height over the crown, 2 ft 3 in.; thickness at lip, 3 in.; thickness at crown, 1¼ in.; weight, 2,080 lbs; length of clapper, 3 ft 2 in.

Statue of Liberty National Monument

Since 1886, the Statue of Liberty, formally known as “Liberty Enlightening the World,” has stood as a symbol of freedom in New York harbor. It also commemorates French-American friendship, for it was given by the people of France and designed by French sculptor Frederic Auguste Bartholdi (1834-1904).

On Washington’s Birthday, Feb. 22, 1877, Congress approved the use of a site on Bedloe’s Island suggested by Bartholdi. This island of 12 acres had been owned in the 17th cent. by a Walloon named Isaac Bedloe. It was called Bedloe’s until Aug. 3, 1956, when Pres. Dwight Eisenhower approved a measure changing the name to Liberty Island.

The statue was finished on May 21, 1884, and presented to the U.S. minister to France, Levi Parsons Morton, July 4, 1884, by Ferdinand de Lesseps, head of the Franco-

American Union, promoter of the Panama Canal, and builder of the Suez Canal.

On Aug. 5, 1884, the Americans laid the cornerstone for the pedestal, to be built on the foundations of Fort Wood, erected by the government in 1811. The American committee had raised \$125,000, but this was inadequate. Joseph Pulitzer, owner of the *New York World*, appealed on Mar. 16, 1885, for general donations. By Aug. 11, 1885, he had raised \$100,000. The statue itself arrived dismantled, in 214 packing cases, from Rouen, France, in June 1885. The last rivet of the statue was driven on Oct. 28, 1886, when Pres. Grover Cleveland dedicated the monument.

The Statue of Liberty National Monument was designated as such in 1924. It is administered by the National Park Service. A \$2.5-mil building housing the American Museum of Immigration was opened by Pres. Richard Nixon on Sept.

26, 1972, at the base of the statue. It houses a permanent exhibition tracing the history of American immigration.

Four years of restoration work funded and led by the Statue of Liberty-Ellis Island Foundation were completed before the statue’s 1986 centennial. Among other repairs, the \$87-mil project included replacing the 1,600 wrought iron bands that hold the statue’s copper skin to its frame, replacing its torch, and installing an elevator. A 4-day “Liberty Weekend” extravaganza of concerts, tall ships, ethnic festivals, and fireworks, July 3-6, 1986, celebrated the 100th anniversary. Chief Justice Warren E. Burger swore in 5,000 new citizens on Ellis Island, while 20,000 others across the country were sworn in through a satellite telecast. Other ceremonies followed on Oct. 28, 1986, the statue’s exact 100th birthday.

Following the Sept. 11, 2001, terrorist attacks, Liberty Island was closed to visitors. On Dec. 20, 2001, the secretary of the interior reopened the island after installing airport-type screening facilities at passenger embarkation areas at Battery Park in Manhattan and Liberty State Park in New Jersey.

To open the statue, the federal government needed to increase security throughout the park. In addition to federally

funded security upgrades, significant safety improvements were made to meet building codes. The National Park Service turned to the Statue of Liberty-Ellis Island Foundation, which began a fund-raising campaign to help finance safety renovations inside the statue, additional exits, improved handicapped access, and upgraded fire suppression and emergency warning systems. The federal investment in upgrades amounted to about \$30 mil, with the private sector contributing an additional \$7 mil. Access to the statue was finally restored on Aug. 3, 2004. The crown of the statue reopened July 4, 2009. Visitors must make a reservation to visit the top of the pedestal or the statue’s crown. Pedestal tickets to enter any level of the monument are limited to 3,000 visitors per day, and access to the crown is limited to 240 people each day.

Reservations are available by visiting www.statuecruises.com or by calling 1-877-LADY-TIX. A limited number of “walk up” reservations may also be available at ferry embarkation areas. Free, ranger-guided tours are available daily. Pedestal pass holders can visit the original torch, taken down during renovation in the 1980s, and the museum. For more information, visit www.nps.gov/stli and www.statueofliberty.org

Statue Statistics					
The statue weighs 450,000 lbs., or 225 tons. The copper sheeting weighs 200,000 lbs. There are 167 steps from the land level to the top of the pedestal, 168 steps inside the statue to the head, and 54 rungs on the ladder leading to the arm that holds the torch.					
	Ft	In.		Ft	In.
Height from base to torch tip	151	1	Nose, length	4	6

The New Colossus

Poem by Emma Lazarus. Engraved on pedestal below the Statue of Liberty.

Not like the brazen giant of Greek fame,
With conquering limbs astride from land to land;
Here at our sea-washed, sunset gates shall stand
A mighty woman with a torch, whose flame
Is the imprisoned lightning, and her name
Mother of Exiles. From her beacon-hand
Glows world-wide welcome; her mild eyes command

The air-bridged harbor that twin cities frame.
“Keep ancient lands, your storied pomp!” cries she
With silent lips. “Give me your tired, your poor,
Your huddled masses yearning to breathe free,
The wretched refuse of your teeming shore.
Send these, the homeless, tempest-tost to me,
I lift my lamp beside the golden door!”

Ellis Island

Ellis Island was the gateway to America for over 12 mil immigrants between 1892 and 1924. In the late 18th cent., Samuel Ellis, a New York City merchant, purchased the island and gave it his name. From Ellis, it passed to New York State, and the U.S. government bought it in 1808. On Jan. 1, 1892, the government opened the first federal immigration center in the U.S. there. The 27½-acre site eventually supported more than 35 buildings, including the Main Building with its Great Hall, in which as many as 5,000 people a day were processed.

Closed as an immigration station in 1954, Ellis Island was proclaimed part of the Statue of Liberty National Monument in 1965 by Pres. Lyndon B. Johnson. After a 6-year, \$170 mil restoration project funded by the Statue of Liberty-Ellis Island Foundation, Ellis Island was reopened as a museum in 1990. Artifacts, historic photographs and documents, oral histories, and ethnic music depicting 400 years of American immigration are housed in the museum. The museum also

includes The American Immigrant Wall of Honor ([www.wall ofhonor.org](http://www.wallofhonor.org)), which is inscribed with more than 700,000 names that have been placed in tribute. Registrations are still being accepted for inclusion in the memorial.

The American Family Immigration History Center® opened in Apr. 2001. It contains an electronic database of ship passenger arrival information through the Port of New York and Ellis Island from 1892 to 1924. Data on over 25 mil individuals are available, as well as an interactive database which features a Living Family Archive, multimedia presentations on various immigration groups and patterns, reproductions of original ships’ passenger manifests, and pictures of over 800 immigrant ships (www.ellis island.org).

In 1998, the Supreme Court ruled that nearly 90% of the island (the 24.2 acres that are landfill) lies in New Jersey, while the original 3.3 acres, on which the museum is located, are in New York.

Note: The offices of party (majority and minority) leaders in the Senate did not evolve until the 20th century. (1) First Republican to be designated floor leader. (2) First Democrat to be designated floor leader. (3) Democrats held the majority Jan. 3, 2001, until Dick Cheney (R) was installed as vice pres., Jan. 20. Republicans subsequently lost the majority when Jim Jeffords (VT) switched from Republican to Independent, June 6, 2001. (4) Trent Lott resigned from Republican leadership Dec. 20, 2002. William Frist was elected Republican leader Dec. 23, 2002, and began service Jan. 7, 2003, as majority leader. (5) Thomas Daschle was defeated in the 2004 election and retired from the Senate Jan. 3, 2005; Democratic Whip Harry M. Reid was elected to the post for the 109th Congress.

(1) Democrats organized the House with help of other parties. (2) Democrats organized House because of Republican deaths. (3) Proclamation declaring Alaska a state issued Jan. 3, 1959. (4) Proclamation declaring Hawaii a state issued Aug. 21, 1959. (5) While the Senate was split 50-50, control was held by whichever party had an incumbent vice president. Republican Sen. James M. Jeffords (VT) changed his party designation to Independent on June 6, 2001, switching control of the Senate to Democrats. (6) Both Independent senators chose to caucus with the Democrats. (7) Sen. Al Franken (D, MN) was not seated until July 7, 2009.

— = 0. (1) First term only. (2) Second term only. (3) Excluded from the figures are 2 additional bills that Pres. George H. W. Bush claimed to be vetoed but Congress considered enacted into law because the president failed to return them to Congress during a recess period. (4) Does not include line-item vetoes, which were ruled unconstitutional by the Supreme Court on June 25, 1998. (5) Pres. Bush characterized his Dec. 28, 2007, veto of H.R. 1585 as a pocket veto, although he did return the parchment to the House.

U.S. SUPREME COURT

(as of Sept. 2010)

Justices of the U.S. Supreme Court

The Supreme Court comprises the chief justice of the U.S. and 8 associate justices, all appointed for life by the president with advice and consent of the Senate. Names of chief justices are in **boldface**. Terms of service begin with the year each justice took the judicial oath. Service years are the number of complete years served by a justice. Current salaries: chief justice, \$223,500; associate justice, \$213,900. The U.S. Supreme Court Bldg. is at 1 First St. NE, Washington, DC 20543. The Court website is www.supremecourt.gov

Members at start of 2009-10 term (Oct. 4, 2010): Chief justice: John G. Roberts Jr.; assoc. justices in seniority order: Antonin Scalia, Anthony M. Kennedy, Clarence Thomas, Ruth Bader Ginsburg, Stephen G. Breyer, Samuel A. Alito Jr., Sonia Sotomayor, Elena Kagan.

*Because of inadequate government record keeping, date of oath is estimated and not absolutely certain. (1) Later, chief justice, as listed. (2) Formerly assoc. justice. (3) Named as acting chief justice; confirmation rejected by the Senate. (4) Longest term of service.

Selected Landmark Decisions of the U.S. Supreme Court, 1803-2009

See also Year in Review: Notable Supreme Court Decisions, 2009-10.

1803: *Marbury v. Madison*. The Court ruled that Congress exceeded its power in the Judiciary Act of 1789; the Court thus established its power to review acts of Congress and declare invalid those it found in conflict with the Constitution.

1819: *McCulloch v. Maryland*. The Court ruled that Congress had the authority to charter a national bank, under the Constitution's granting of the power to enact all laws "necessary and proper" to responsibilities of government.

1819: *Trustees of Dartmouth College v. Woodward*. The Court ruled that a state could not arbitrarily alter the terms of a college's contract. (The Court later used a similar principle to limit the states' ability to interfere with business contracts.)

1857: *Dred Scott v. Sanford*. The Court declared unconstitutional the already-repealed Missouri Compromise of 1820 because it deprived a person of his or her property—a slave—without due process of law. The Court also ruled that slaves were not citizens of any state nor of the U.S. (The latter part of the decision was overturned by ratification of the 14th Amendment in 1868.)

1896: *Plessy v. Ferguson*. The Court ruled that a state law requiring federal railroad trains to provide separate but equal facilities for black and white passengers neither infringed upon federal authority to regulate interstate commerce nor violated the 13th and 14th Amendments. (The "separate but equal" doctrine remained effective until the 1954 *Brown v. Board of Education* decision.)

1904: *Northern Securities Co. v. U.S.* The Court ruled that a holding company formed solely to eliminate competition between two railroad lines was a combination in restraint of trade, violating the federal antitrust act.

1908: *Muller v. Oregon*. The Court upheld a state law limiting the working hours of women. (Louis D. Brandeis, counsel for the state, cited evidence from social workers, physicians, and factory inspectors that the number of hours women worked affected their health and morals.)

1911: *Standard Oil Co. of New Jersey et al. v. U.S.* The Court ruled that the Standard Oil Trust must be dissolved because of its unreasonable restraint of trade.

1919: *Schenck v. U.S.* The Court sustained the Espionage Act of 1917, maintaining that freedom of speech and press could be constrained if "the words used . . . create a clear and present danger."

1925: *Gitlow v. New York*. The Court ruled that the 1st Amendment prohibition against government abridgment of the freedom of speech applied to the states as well as to the federal government. The decision was the first of a number of rulings holding that the 14th Amendment extended the guarantees of the Bill of Rights to state action.

1935: *Schechter Poultry Corp. v. U.S.* The Court ruled that Congress exceeded its authority to delegate legislative powers and to regulate interstate commerce when it enacted the National Industrial Recovery Act, which afforded the U.S. president too much discretionary power.

1951: *Dennis et al. v. U.S.* The Court upheld convictions under the Smith Act of 1940 for invoking Communist theory advocating the forcible overthrow of the government. (In *Yates v. U.S.* [1957], the Court moderated this ruling by allowing such advocacy in the abstract, if not connected to action to achieve the goal.)

1954: *Brown v. Board of Education of Topeka*. The Court ruled that separate public schools for black and white students were inherently unequal, so that state-sanctioned segregation in public schools violated the equal protection guarantee of the 14th Amendment. And in *Bolling v. Sharpe* the same year, the Court ruled that the congressionally mandated segregated public school system in the District of Columbia violated the 5th Amendment's due process guarantee of personal liberty. (The *Brown* ruling also led to abolition of state-sponsored segregation in other public facilities.)

1957: *Roth v. U.S.*; *Alberts v. California*. The Court ruled obscene material was not protected by 1st Amendment guarantees of freedom of speech and press, defining obscene

as "utterly without redeeming social value" and appealing to "prurient interests" in the average person's view. This definition was modified in later decisions, and the "average person" standard was replaced by the "local community" standard in *Miller v. California* (1973).

1961: *Mapp v. Ohio*. The Court ruled that evidence obtained in violation of the 4th Amendment guarantee against unreasonable search and seizure must be excluded from use at state as well as federal trials.

1962: *Engel v. Vitale*. The Court held that government bodies could not encourage the recitation of a state-composed prayer in public schools, even if nondenominational, because this would be an unconstitutional attempt to establish religion.

1962: *Baker v. Carr*. The Court held that the constitutional challenges to the unequal distribution of voters among legislative districts could be resolved by federal courts.

1963: *Gideon v. Wainwright*. The Court ruled that state and federal defendants charged with serious crimes must have access to an attorney, at state expense if necessary.

1964: *New York Times Co. v. Sullivan*. The Court ruled that the 1st Amendment protected the press from libel suits for defamatory reports about public officials unless an injured party could prove that a defamatory report was made out of malice or "reckless disregard" for the truth.

1965: *Griswold v. Connecticut*. The Court ruled that a state unconstitutionally interfered with personal privacy in the marriage relationship when it prohibited anyone, including married couples, from using contraceptives.

1966: *Miranda v. Arizona*. The Court ruled that, under the guarantee of due process, suspects in custody, before being questioned, must be informed that they have the right to remain silent, that anything they say may be used against them, and that they have the right to counsel.

1973: *Roe v. Wade*; *Doe v. Bolton*. The Court ruled that the fetus was not a "person" with constitutional rights and that a right to privacy inherent in the 14th Amendment's due process guarantee of personal liberty protected a woman's decision to have an abortion. During the 1st trimester of pregnancy, the Court maintained, the decision should be left entirely to a woman and her physician. Some regulation of abortion procedures was allowed in the 2nd trimester, and some restriction of abortion in the 3rd.

1974: *U.S. v. Nixon*. The Court ruled that neither the separation of powers nor the need to preserve the confidentiality of presidential communications could alone justify an absolute executive privilege of immunity from judicial demands for evidence to be used in a criminal trial.

1976: *Gregg v. Georgia*; *Proffitt v. Florida*; *Jurek v. Texas*. The Court held that death, as a punishment for persons convicted of 1st degree murder, was not in and of itself cruel and unusual punishment in violation of the 8th Amendment. But the Court ruled that the sentencing judge and jury must consider the individual character of the offender and the circumstances of the particular crime.

1978: *Regents of the Univ. of Calif. v. Bakke*. The Court ruled that a special admissions program for a state medical school, under which a set number of places were reserved for minorities, violated the 1964 Civil Rights Act, which forbids excluding anyone, because of race, from a federally funded program. However, the Court ruled that race could be considered as one of a complex of factors.

1986: *Bowers v. Hardwick*. The Court refused to extend any constitutional right of privacy to homosexual activity, upholding a Georgia antisodomy law that in effect made such activity a crime. However, the law was struck down by the state supreme court in 1998, and in *Lawrence v. Texas* (2003), the U.S. Supreme Court struck down all state antisodomy laws, as violations of liberty prohibited in the 14th Amendment's due process clause. Also, in *Romer v. Evans* (1996), the Court struck down a Colorado constitutional provision that it ruled violated the 14th Amendment's Equal Protection Clause because it barred legislation whereby "homosexual orientation, conduct, practices, or relationships" granted a person "minority status, quota preferences, protected status, or claim of discrimination."

1990: *Cruzan v. Missouri*. The Court ruled that a person had the right to refuse life-sustaining medical treatment. However, the Court also ruled that, before treatment could be withheld from a comatose patient, a state could require “clear and convincing evidence” that the patient would not have wanted to live. In two 1997 rulings, *Washington v. Glucksberg* and *Vacco v. Quill*, the Court ruled that states could ban doctor-assisted suicide.

1995: *Adarand Constructors, Inc. v. Peña*. The Court held that federal programs that classify people by race, unless “narrowly tailored” to accomplish a “compelling governmental interest,” may violate the right to equal protection.

1995: *U.S. Term Limits Inc. v. Thornton*. The Court ruled that neither states nor Congress could limit terms of members of Congress, since the Constitution reserves to the people the right to choose federal lawmakers.

1997: *Clinton v. Jones*. Rejecting an appeal by Pres. Clinton in a sexual harassment suit, the Court ruled that a sitting president did not have temporary immunity from a lawsuit for actions outside the realm of official duties.

1997: *City of Boerne v. Flores*. The Court overturned a 1993 law banning enforcement of laws that “substantially burden” religious practice unless there is a “compelling need” to do so. The Court held that the act was an unwarranted intrusion by Congress on states’ prerogatives and an infringement of the judiciary’s role.

1997: *Reno v. ACLU*. Citing the right to free expression, the Court overturned a provision making it a crime to display or distribute “indecent” or “patently offensive” material on the Internet. The Court ruled, however, in *NEA v. Finley* (1998) that “general standards of decency” may be used as a criterion in federal arts funding.

1998: *Clinton v. City of New York*. The Court struck down the Line-Item Veto Act (1996), holding that it unconstitutionally gave the president “the unilateral power to change the text of duly enacted statutes.”

1998: *Faragher v. City of Boca Raton; Burlington Industries, Inc. v. Ellerth*. The Court issued new guidelines for workplace sexual harassment suits, holding employers responsible for misconduct by supervisory employees. And in *Oncale v. Sundowner Offshore Services*, the Court ruled that the law against sexual harassment applies regardless of whether harasser and victim are the same sex.

1999: *Dept. of Commerce v. U.S. House*. Upholding a challenge to plans for the 2000 census, the Court prohibited statistical sampling, favored by Democrats, in the apportioning of seats in the U.S. House of Representatives. The Court maintained that an actual head count was required.

1999: *Alden v. Maine; Florida Prepaid v. College Savings Bank; College Savings Bank v. Florida*. In a series of rulings, the Court applied the principle of “sovereign immunity” to shield states in large part from being sued under federal law.

2000: *Boy Scouts of America v. Dale*. The Court ruled that the Boy Scouts could dismiss a troop leader after learning he was gay, holding that the right to freedom of association outweighed a New Jersey antidiscrimination statute.

2000: *Stenberg v. Carhart*. The Court struck down a Nebraska law that banned so-called partial-birth abortion. It argued that the law could be interpreted as banning other abortion procedures and that it should have made exception for reasons of health. (See 1973: *Roe v. Wade*.)

2000: *Bush v. Gore*. The Court ruled that manual recounts of presidential ballots in the Nov. 2000 election could not proceed because inconsistent evaluation standards in different counties violated the equal protection clause. In effect, the ruling meant existing official results leaving George W. Bush as narrow winner of the election would prevail.

2001: *Easley v. Cromartie*. The Court ruled that North Carolina’s 12th Congressional District, whose irregular shape had been challenged as an unconstitutional racial gerrymander, was the permissible result of attempts to create a majority-Democrat district.

2001: *Good News Club v. Milford Central School*. The justices found that religious and secular organizations were entitled to equal access to public elementary school grounds for after-school meetings.

2002: *Atkins v. Virginia*. The Court ruled that the execution of mentally retarded felons violated the 8th Amendment ban on “cruel and unusual punishment.”

2002: *Ring v. Arizona*. The Court found that only a jury, not a judge, could decide to impose the death penalty.

2002: *Zelman v. Simmons-Harris*. The Court ruled that publicly funded tuition vouchers could be used at religious schools without violating the separation of church and state.

2002: *Federal Maritime Commission v. South Carolina State Ports Authority*. The Court ruled that the 11th Amendment gave states immunity from private lawsuits involving federal agencies.

2003: *Grotter v. Bollinger; Gratz v. Bollinger*. The Court upheld affirmative action in admission policies at the Univ. of Michigan Law School. However, in a second decision, the Court ruled against a strict point system based on racial and ethnic backgrounds, as used in the university’s undergraduate admissions process.

2004: *Tennessee v. Lane*. The Court ruled that disabled individuals could sue states under the Americans with Disabilities Act for failing to provide adequate access to state courthouses, despite states’ usual immunity from private lawsuits in federal court under the 11th amendment, which the Court ruled on in *Federal Maritime Commission v. South Carolina State Ports Authority* (2002).

2004: *Locke v. Davey*. The justices decided that a scholarship program provided by the state of Washington did not violate the right to free exercise of religion in denying aid to students preparing for the clergy.

2004: *Ashcroft v. ACLU et al.* The Court struck down the Child Online Protection Act, which Congress passed in 1998 to restrict access to online pornography by minors, on the basis that the law, as written, violated the 1st Amendment right of free speech.

2005: *Kelo v. City of New London*. The Court ruled that local governments could force property owners to sell their land in order to facilitate private development projects deemed to be economically beneficial to the community.

2005: *Roper v. Simmons*. The Court ruled that executions of convicts who committed their crimes before age 18 were prohibited under the 8th Amendment ban on cruel and unusual punishment.

2006: *Garcetti v. Ceballos*. The Court ruled that the 1st Amendment guarantee of free speech did not protect statements made by public employees in the course of their official duties.

2006: *Hamdan v. Rumsfeld*. The Court ruled that Pres. George W. Bush’s system for trying terrorism detainees at the U.S. military base in Guantanamo Bay, Cuba, was unauthorized under both federal law and the international Geneva Conventions.

2007: *Gonzales v. Carhart et al.; Gonzales v. Planned Parenthood Federation of America*. The Court upheld a 2003 federal law prohibiting the abortion procedure known as intact dilation and extraction, or “partial-birth” abortion.

2007: *Parents Involved in Community Schools v. Seattle School District No. 1; Madison v. Jefferson County Board of Education*. The Court ruled that two school districts could not, to encourage diversity, use “racial classifications in making school assignments.”

2008: *Boumediene v. Bush*. The Court ruled that the guarantee of habeas corpus applied at the U.S. naval base at Guantanamo Bay, Cuba, and that detainees had a constitutional right to challenge their detention in federal court.

2008: *Kennedy v. Louisiana*. The Court ruled that death was a disproportionate penalty, and prohibited by the Constitution, in cases of child rape that did not result in the death of the victim.

2008: *District of Columbia vs. Heller*. The Court overturned DC’s handgun ban, ruling that the 2nd Amendment protected individuals’ right to own guns for personal use.

2009: *Ricci v. DeStefano*. The Court ruled that fear of litigation was not reason enough to justify a city invalidating the results of a promotion test after no black firefighters performed well on it.

PRESIDENTS OF THE UNITED STATES

U.S. Presidents

	Name	Politics	Born	Birthplace	Inaug.	Age at inaug.	Died	Age at death
1.	George Washington		1732, Feb. 22	VA	1789	57	1799, Dec. 14	67
2.	John Adams	Fed.	1735, Oct. 30	MA	1797	61	1826, July 4	90
3.	Thomas Jefferson	Dem.-Rep.	1743, Apr. 13	VA	1801	57	1826, July 4	83
4.	James Madison	Dem.-Rep.	1751, Mar. 16	VA	1809	57	1836, June 28	85
5.	James Monroe	Dem.-Rep.	1758, Apr. 28	VA	1817	58	1831, July 4	73
6.	John Quincy Adams	Dem.-Rep.	1767, July 11	MA	1825	57	1848, Feb. 23	80
7.	Andrew Jackson	Dem.	1767, Mar. 15	SC	1829	61	1845, June 8	78
8.	Martin Van Buren	Dem.	1782, Dec. 5	NY	1837	54	1862, July 24	79
9.	William Henry Harrison	Whig	1773, Feb. 9	VA	1841	68	1841, Apr. 4	68
10.	John Tyler	Whig	1790, Mar. 29	VA	1841	51	1862, Jan. 18	71
11.	James Knox Polk	Dem.	1795, Nov. 2	NC	1845	49	1849, June 15	53
12.	Zachary Taylor	Whig	1784, Nov. 24	VA	1849	64	1850, July 9	65
13.	Millard Fillmore	Whig	1800, Jan. 7	NY	1850	50	1874, Mar. 8	74
14.	Franklin Pierce	Dem.	1804, Nov. 23	NH	1853	48	1869, Oct. 8	64
15.	James Buchanan	Dem.	1791, Apr. 23	PA	1857	65	1868, June 1	77
16.	Abraham Lincoln	Rep.	1809, Feb. 12	KY	1861	52	1865, Apr. 15	56
17.	Andrew Johnson	(1)	1808, Dec. 29	NC	1865	56	1875, July 31	66
18.	Ulysses S. Grant	Rep.	1822, Apr. 27	OH	1869	46	1885, July 23	63
19.	Rutherford Birchard Hayes	Rep.	1822, Oct. 4	OH	1877	54	1893, Jan. 17	70
20.	James Abram Garfield	Rep.	1831, Nov. 19	OH	1881	49	1881, Sept. 19	49
21.	Chester Alan Arthur	Rep.	1829, Oct. 5	VT	1881	51	1886, Nov. 18	57
22.	Grover Cleveland	Dem.	1837, Mar. 18	NJ	1885	47	1908, June 24	71
23.	Benjamin Harrison	Rep.	1833, Aug. 20	OH	1889	55	1901, Mar. 13	67
24.	Grover Cleveland	Dem.	1837, Mar. 18	NJ	1893	55	1908, June 24	71
25.	William McKinley	Rep.	1843, Jan. 29	OH	1897	54	1901, Sept. 14	58
26.	Theodore Roosevelt	Rep.	1858, Oct. 27	NY	1901	42	1919, Jan. 6	60
27.	William Howard Taft	Rep.	1857, Sept. 15	OH	1909	51	1930, Mar. 8	72
28.	(Thomas) Woodrow Wilson	Dem.	1856, Dec. 28	VA	1913	56	1924, Feb. 3	67
29.	Warren Gamaliel Harding	Rep.	1865, Nov. 2	OH	1921	55	1923, Aug. 2	57
30.	(John) Calvin Coolidge	Rep.	1872, July 4	VT	1923	51	1933, Jan. 5	60
31.	Herbert Clark Hoover	Rep.	1874, Aug. 10	IA	1929	54	1964, Oct. 20	90
32.	Franklin Delano Roosevelt	Dem.	1882, Jan. 30	NY	1933	51	1945, Apr. 12	63
33.	Harry S. Truman	Dem.	1884, May 8	MO	1945	60	1972, Dec. 26	88
34.	Dwight David Eisenhower	Rep.	1890, Oct. 14	TX	1953	62	1969, Mar. 28	78
35.	John Fitzgerald Kennedy	Dem.	1917, May 29	MA	1961	43	1963, Nov. 22	46
36.	Lyndon Baines Johnson	Dem.	1908, Aug. 27	TX	1963	55	1973, Jan. 22	64
37.	Richard Milhous Nixon ²	Rep.	1913, Jan. 9	CA	1969	56	1994, Apr. 22	81
38.	Gerald Rudolph Ford	Rep.	1913, July 14	NE	1974	61	2006, Dec. 26	93
39.	James Earl (Jimmy) Carter	Dem.	1924, Oct. 1	GA	1977	52		
40.	Ronald Wilson Reagan	Rep.	1911, Feb. 6	IL	1981	69	2004, June 5	93
41.	George Herbert Walker Bush	Rep.	1924, June 12	MA	1989	64		
42.	Wm. Jefferson (Bill) Clinton	Dem.	1946, Aug. 19	AR	1993	46		
43.	George Walker Bush	Rep.	1946, July 6	CT	2001	54		
44.	Barack Hussein Obama	Dem.	1961, Aug. 4	HI	2009	47		

(1) Andrew Johnson, a Democrat, was nominated vice president by Republicans and elected with Lincoln on National Union ticket.
(2) Resigned Aug. 9, 1974.

U.S. Presidents, Vice Presidents, Congresses

President	Service	Vice President	Congresses
1. George Washington	Apr. 30, 1789-Mar. 3, 1797	1. John Adams	1, 2, 3, 4
2. John Adams	Mar. 4, 1797-Mar. 3, 1801	2. Thomas Jefferson	5, 6
3. Thomas Jefferson	Mar. 4, 1801-Mar. 3, 1805	3. Aaron Burr	7, 8
4. James Madison	Mar. 4, 1805-Mar. 3, 1809	4. George Clinton	9, 10
	Mar. 4, 1809-Mar. 3, 1813	George Clinton ¹	11, 12
5. James Monroe	Mar. 4, 1813-Mar. 3, 1817	5. Elbridge Gerry ²	13, 14

7. Andrew Jackson	Mar. 4, 1829-Mar. 3, 1833	John C. Calhoun ³	21, 22
8. Martin Van Buren	Mar. 4, 1833-Mar. 3, 1837	8. Martin Van Buren	23, 24
	Mar. 4, 1837-Mar. 3, 1841	9. Richard M. Johnson	25, 26
9. William Henry Harrison ⁴	Mar. 4, 1841-Apr. 4, 1841	10. John Tyler	27
10. John Tyler	Apr. 6, 1841-Mar. 3, 1845	(None)	27, 28
11. James K. Polk	Mar. 4, 1845-Mar. 3, 1849	11. George M. Dallas	29, 30
12. Zachary Taylor ⁴	Mar. 5, 1849-July 9, 1850	12. Millard Fillmore	31
13. Millard Fillmore	July 10, 1850-Mar. 3, 1853	(none)	31, 32
14. Franklin Pierce	Mar. 4, 1853-Mar. 3, 1857	13. William R. King ⁵	33, 34
15. James Buchanan	Mar. 4, 1857-Mar. 3, 1861	14. John C. Breckinridge	35, 36
16. Abraham Lincoln	Mar. 4, 1861-Mar. 3, 1865	15. Hannibal Hamlin	37, 38
(4)	Mar. 4, 1865-Apr. 15, 1865	16. Andrew Johnson	39
17. Andrew Johnson	Apr. 15, 1865-Mar. 3, 1869	(None)	39, 40
18. Ulysses S. Grant	Mar. 4, 1869-Mar. 3, 1873	17. Schuyler Colfax	41, 42
19. Rutherford B. Hayes	Mar. 4, 1873-Mar. 3, 1877	18. Henry Wilson ⁶	43, 44
	Mar. 4, 1877-Mar. 3, 1881	19. William A. Wheeler	45, 46
20. James A. Garfield ⁴	Mar. 4, 1881-Sept. 19, 1881	20. Chester A. Arthur	47
21. Chester A. Arthur	Sept. 20, 1881-Mar. 3, 1885	(None)	47, 48
22. Grover Cleveland ⁷	Mar. 4, 1885-Mar. 3, 1889	21. Thomas A. Hendricks ⁸	49, 50
23. Benjamin Harrison	Mar. 4, 1889-Mar. 3, 1893	22. Levi P. Morton	51, 52
24. Grover Cleveland ⁷	Mar. 4, 1893-Mar. 3, 1897	23. Adlai E. Stevenson	53, 54
25. William McKinley	Mar. 4, 1897-Mar. 3, 1901	24. Garret A. Hobart ⁹	55, 56
(4)	Mar. 4, 1901-Sept. 14, 1901	25. Theodore Roosevelt	57
26. Theodore Roosevelt	Sept. 14, 1901-Mar. 3, 1905	(None)	57, 58
27. William H. Taft	Mar. 4, 1905-Mar. 3, 1909	26. Charles W. Fairbanks	59, 60
	Mar. 4, 1909-Mar. 3, 1913	27. James S. Sherman ¹⁰	61, 62

President	Service	Vice President	Congresses
28. Woodrow Wilson	Mar. 4, 1913-Mar. 3, 1921	28. Thomas R. Marshall	63, 64, 65, 66
29. Warren G. Harding ⁴	Mar. 4, 1921-Aug. 2, 1923	29. Calvin Coolidge	67
30. Calvin Coolidge	Aug. 3, 1923-Mar. 3, 1925	(None)	68
	Mar. 4, 1925-Mar. 3, 1929	30. Charles G. Dawes	69, 70
31. Herbert C. Hoover	Mar. 4, 1929-Mar. 3, 1933	31. Charles Curtis	71, 72
32. Franklin D. Roosevelt ¹¹	Mar. 4, 1933-Jan. 20, 1941	32. John N. Garner	73, 74, 75, 76, 77
	Jan. 20, 1941-Jan. 20, 1945	33. Henry A. Wallace	77, 78, 79
(4)	Jan. 20, 1945-Apr. 12, 1945	34. Harry S. Truman	79
33. Harry S. Truman	Apr. 12, 1945-Jan. 20, 1949	(None)	79, 80, 81
	Jan. 20, 1949-Jan. 20, 1953	35. Alben W. Barkley	81, 82, 83
34. Dwight D. Eisenhower	Jan. 20, 1953-Jan. 20, 1961	36. Richard M. Nixon	83, 84, 85, 86, 87
35. John F. Kennedy ⁴	Jan. 20, 1961-Nov. 22, 1963	37. Lyndon B. Johnson	87, 88
36. Lyndon B. Johnson	Nov. 22, 1963-Jan. 20, 1965	(None)	88, 89
	Jan. 20, 1965-Jan. 20, 1969	38. Hubert H. Humphrey	89, 90, 91
37. Richard M. Nixon	Jan. 20, 1969-Jan. 20, 1973	39. Spiro T. Agnew ¹²	91, 92, 93
(13)	Jan. 20, 1973-Aug. 9, 1974	40. Gerald R. Ford ¹⁴	93
38. Gerald R. Ford ¹⁵	Aug. 9, 1974-Jan. 20, 1977	41. Nelson A. Rockefeller ¹⁶	93, 94, 95
39. Jimmy Carter	Jan. 20, 1977-Jan. 20, 1981	42. Walter F. Mondale	95, 96, 97
40. Ronald W. Reagan	Jan. 20, 1981-Jan. 20, 1989	43. George H. W. Bush	97, 98, 99, 100, 101
41. George H. W. Bush	Jan. 20, 1989-Jan. 20, 1993	44. Dan Quayle	101, 102, 103
42. Bill Clinton	Jan. 20, 1993-Jan. 20, 2001	45. Al Gore	103, 104, 105, 106, 107
43. George W. Bush	Jan. 20, 2001-Jan. 20, 2009	46. Dick Cheney	107, 108, 109, 110, 111
44. Barack H. Obama	Jan. 20, 2009-	47. Joe Biden	111

(1) Died Apr. 20, 1812. (2) Died Nov. 23, 1814. (3) Resigned Dec. 28, 1832, to become U.S. senator. (4) Died in office. (5) Died Apr. 18, 1853. (6) Died Nov. 22, 1875. (7) Terms not consecutive. (8) Died Nov. 25, 1885. (9) Died Nov. 21, 1899. (10) Died Oct. 30, 1912. (11) First president to be inaugurated under 20th Amendment, Jan. 20, 1937. (12) Resigned Oct. 10, 1973. (13) Resigned Aug. 9, 1974. (14) First nonelected vice president, chosen under 25th Amendment procedure. (15) First president never elected president or vice president. (16) Second nonelected vice president, chosen under 25th Amendment. Confirmed Dec. 19, 1974.

Vice Presidents of the U.S.

The numerals given vice presidents do not coincide with those given presidents, because some presidents (Tyler, Fillmore, A. Johnson, Arthur) had none, and some had more than one.

Name	Birthplace	Year	Home	Inaug.	Politics	Place of death	Year	Age at death
1. John Adams	Quincy, MA	1735	MA	1789	Fed.	Quincy, MA	1826	90
2. Thomas Jefferson	Shadwell, VA	1743	VA	1797	Dem.-Rep.	Monticello, VA	1826	83

29. Calvin Coolidge	Plymouth Notch, VT	1872	MA	1921	Rep.	Northampton, MA	1933	60
30. Charles G. Dawes	Marietta, OH	1865	IL	1925	Rep.	Evanston, IL	1951	85
31. Charles Curtis	Topeka, KS	1860	KS	1929	Rep.	Washington, DC	1936	76
32. John Nance Garner	Red River Co., TX	1868	TX	1933	Dem.	Uvalde, TX	1967	98
33. Henry A. Wallace	Adair County, IA	1888	IA	1941	Dem.	Danbury, CT	1965	77
34. Harry S. Truman	Lamar, MO	1884	MO	1945	Dem.	Kansas City, MO	1972	88
35. Alben W. Barkley	Graves County, KY	1877	KY	1949	Dem.	Lexington, VA	1956	78
36. Richard M. Nixon	Yorba Linda, CA	1913	CA	1953	Rep.	New York, NY	1994	81
37. Lyndon B. Johnson	Stonewall, TX	1908	TX	1961	Dem.	San Antonio, TX	1973	64
38. Hubert H. Humphrey	Wallace, SD	1911	MN	1965	Dem.	Waverly, MN	1978	66
39. Spiro T. Agnew ⁵	Baltimore, MD	1918	MD	1969	Rep.	Berlin, MD	1996	77
40. Gerald R. Ford ⁶	Omaha, NE	1913	MI	1973	Rep.	Rancho Mirage, CA	2006	93
41. Nelson A. Rockefeller ⁷	Bar Harbor, ME	1908	NY	1974	Rep.	New York, NY	1979	70
42. Walter F. Mondale	Ceylon, MN	1928	MN	1977	Dem.			
43. George H. W. Bush	Milton, MA	1924	TX	1981	Rep.			
44. James Danforth (Dan) Quayle Jr.	Indianapolis, IN	1947	IN	1989	Rep.			
45. Albert A. Gore	Washington, DC	1948	TN	1993	Dem.			
46. Richard B. Cheney	Lincoln, NE	1941	WY	2001	Rep.			
47. Joseph R. Biden Jr.	Scranton, PA	1942	DE	2009	Dem.			

(1) Resigned Dec. 28, 1832, having been elected to the Senate to fill a vacancy. (2) Richard M. Johnson was the only vice president to be chosen by the Senate because of a tied vote in the Electoral College. (3) Andrew Johnson was a Democrat, nominated vice president by Republicans, and elected with Lincoln on the National Union Ticket. (4) Grandfather of Democratic candidate for president in 1952 and 1956. (5) Resigned Oct. 10, 1973. (6) First nonelected vice president, chosen under 25th Amendment procedure. (7) Second nonelected vice president, chosen under 25th Amendment.

Biographies of the Presidents

George Washington (1789-97), 1st president, Federalist, was born on Feb. 22, 1732, in Wakefield on Pope's Creek, Westmoreland Co., VA, the son of Augustine and Mary Ball Washington. He spent his early childhood on a farm near Fredericksburg. His father died when Washington was 11. He studied mathematics and surveying, and at 16, he went to live with his elder half brother, Lawrence, who built and named Mount Vernon in Virginia. Washington surveyed the lands of Thomas Fairfax in the Shenandoah Valley. He accompanied Lawrence to Barbados, West Indies, where he contracted smallpox and was deeply scarred. Lawrence died in 1752, and Washington inherited his property. He valued land, and when he died, he owned 70,000 acres in Virginia and 40,000 acres in what is now West Virginia.

Washington's military service began in 1753, when Lt. Gov. Robert Dinwiddie of Virginia sent him on missions deep into Ohio country. He clashed with the French and had to surrender Fort Necessity on July 3, 1754. He was an aide to the British general Edward Braddock and was at his side when the army was ambushed and defeated (July 9, 1755) on a march to Fort Duquesne. He helped take Fort Duquesne from the French in 1758.

After Washington's marriage to Martha Dandridge Custis, a widow, in 1759, he managed his family estate at Mount Vernon. Although not at first for independence, he opposed the repressive measures of the British crown and took charge of the Virginia troops before war broke out. He was made commander of the newly created Continental Army by the Continental Congress on June 15, 1775.

The American victory was due largely to Washington's leadership. He was resourceful, a disciplinarian, and the one dependable force for unity. Washington favored a federal government. He became chairman of the Constitutional Convention of 1787 and helped get the Constitution ratified. Unanimously elected president by the electoral college, he was inaugurated Apr. 30, 1789, on the balcony of New York's Federal Hall. He was reelected in 1792. Washington made an effort to avoid partisan politics as president.

Refusing to consider a 3rd term, Washington retired to Mount Vernon in March 1797. A ride in snow and rain around his estate led to what present-day doctors believe to have been an attack of acute epiglottitis. Doctors were unsuccessful in treating the inflammation in his throat, and Washington died Dec. 14, 1799.

John Adams (1797-1801), 2nd president, Federalist, was born on Oct. 30, 1735, in Braintree (now Quincy), MA, the son of John and Susanna Boylston Adams. He was a great-grandson of Henry Adams, who came from England in 1636. He graduated from Harvard in 1755, then taught school and studied law. He married Abigail Smith in 1764. In 1765 he argued against taxation without representation before the royal governor. In 1770, he successfully defended in court the British soldiers who fired on civilians in the Boston Massacre. He was a delegate to the Continental Congress and a signer of the Declaration of Independence. In 1778, Congress sent Adams and John Jay to join Benjamin Franklin as diplomatic representatives in Europe. Because he ran second to Washington in electoral college balloting in Feb. 1789, Adams became the nation's first vice president, a post he characterized as highly insignificant; he was reelected in 1792.

In 1796 Adams was chosen president by the electors. His administration was marked by growing conflict with fellow Federalist Alexander Hamilton and with others in his own cabinet who supported Hamilton's strongly anti-French position. Adams avoided full-scale war with France but became unpopular, especially after securing passage of the Alien and Sedition Acts in 1798. His foreign policy contributed significantly to the election of Thomas Jefferson in 1800.

Adams lived for a quarter century after he left office, during which time he wrote extensively. He died July 4, 1826, on the same day as his rival Thomas Jefferson (the 50th anniversary of the Declaration of Independence).

Thomas Jefferson (1801-09), 3rd president, Democratic-Republican, was born on Apr. 13, 1743, in Shadwell in Goochland (now Albemarle) Co., VA, the son of Peter and Jane Randolph Jefferson. His father died when Jefferson was 14, leaving him 2,750 acres and his slaves. Jefferson attended (1760-62) the College of William and Mary, read Greek and Latin classics, and played the violin. In 1769 he was elected to the Virginia House of Burgesses. In 1770 he began building his home, Monticello, and in 1772 he married Martha Wayles Skelton, a wealthy widow. Jefferson helped establish the Virginia Committee of Correspondence. As a member of the 2nd Continental Congress he drafted the Declaration of Independence. He also was a member of the Virginia House of Delegates (1776-79) and was elected governor of Virginia in 1779, succeeding Patrick Henry. He was reelected in 1780 but resigned in 1781 after British troops invaded Virginia. During his term he wrote the statute on religious freedom. After his wife's death in 1782, Jefferson again became a delegate to the Congress, and in 1784 he drafted the report that was the basis for the Ordinances of 1784, 1785, and 1787. He was minister to France from 1785 to 1789, when George Washington appointed him secretary of state.

Jefferson's strong faith in the consent of the governed conflicted with the emphasis on executive control, favored by Sec. of the Treasury Alexander Hamilton, and Jefferson resigned on Dec. 31, 1793. In the 1796 election Jefferson was the Democratic-Republican candidate for president; John Adams won the election, and Jefferson became vice president. In 1800, Jefferson and Aaron Burr received equal electoral college votes; the House of Representatives elected Jefferson president. Jefferson was a strong advocate of westward expansion; major events of his first term were the Louisiana Purchase (1803) and the Lewis and Clark expedition. An important development during his second term was passage of the Embargo Act, barring U.S. ships from setting sail to foreign ports. Jefferson established the Univ. of Virginia and designed its buildings. He died July 4, 1826, on the same day as John Adams (the 50th anniversary of the Declaration of Independence).

Analysis of DNA taken from descendants of Jefferson and Sally Hemings, one of his slaves, revealed a high probability of Jefferson fathering one or more of her six children.

James Madison (1809-17), 4th president, Democratic-Republican, was born on Mar. 16, 1751, in Port Conway, King George Co., VA, the son of James and Eleanor Rose Conway Madison. Madison graduated from the College of New Jersey in 1771. He served in the Virginia Constitutional Convention (1776), and, in 1780, became a delegate to the 2nd Continental Congress. He was chief recorder at the Constitutional Convention in 1787 and supported ratification in the *Federalist Papers*, written with Alexander Hamilton and John Jay. In 1789, Madison was elected to the House of Representatives, where he helped frame the Bill of Rights and fought against passage of the Alien and Sedition Acts. In the 1790s, he helped found the Democratic-Republican Party, which ultimately became the Democratic Party. He became Jefferson's secretary of state in 1801.

Madison was elected president in 1808. His first term was marked by tensions with Great Britain, and his conduct of foreign policy was criticized by the Federalists and by his own party. Nevertheless, he was reelected in 1812, the year war was declared on Great Britain. The war that many considered a second American revolution ended with a treaty that did not settle any of the issues. Madison's most important action after the war was demilitarizing the U.S.-Canadian border.

In 1817, Madison retired to his estate, Montpelier, where he served as an elder statesman. He edited his famous papers on the Constitutional Convention and helped found the Univ. of Virginia, of which he became rector in 1826. He died June 28, 1836.

James Monroe (1817-25), 5th president, Democratic-Republican, was born on Apr. 28, 1758, in Westmoreland Co., VA, the son of Spence and Elizabeth Jones Monroe. He entered the College of William and Mary in 1774 but left to serve in the 3rd Virginia Regiment during the American Revolution. After the war, he studied law with Thomas Jefferson. In 1782 he was elected to the Virginia House of Delegates, and he served (1783-86) as a delegate to the Continental Congress. He opposed ratification of the Constitution because it lacked a bill of rights. Monroe was elected to the U.S. Senate in 1790. In 1794, Pres. Washington appointed Monroe minister to France. He served twice as governor of Virginia (1799-1802, 1811). Pres. Jefferson also sent him to France as minister (1803), and from 1803 to 1807, he served as minister to Great Britain.

In 1816 Monroe was elected president; he was reelected in 1820 with all but one electoral college vote. His administration became known as the Era of Good Feeling. He obtained Florida from Spain, settled boundary disputes with Britain over Canada, and eliminated border forts. He supported the antislavery position that led to the Missouri Compromise. His most significant contribution was the Monroe Doctrine, which opposed European intervention in the Western Hemisphere and became a cornerstone of U.S. foreign policy.

Although Monroe retired to Oak Hill, VA, financial problems forced him to sell his property and move to New York City. He died there on July 4, 1831.

John Quincy Adams (1825-29), 6th president, independent Federalist, later Democratic-Republican, was born on July 11, 1767, in Braintree (now Quincy), MA, the son of John and Abigail Adams. His father was the 2nd president. He studied abroad and at Harvard College, from which he graduated in 1787. In 1803, he was elected to the U.S. Senate. President Monroe chose him as his secretary of state in 1817. In this capacity he negotiated the cession of Florida from Spain, supported exclusion of slavery in the Missouri Compromise, and helped formulate the Monroe Doctrine. In 1824, Adams was elected president by the House of Representatives after he failed to win an electoral college majority. His expansion of executive powers was strongly opposed, and in the 1828 election he lost to Andrew Jackson. In 1831 he entered the House of Representatives and served 17 years with distinction. He opposed slavery, the annexation of Texas, and the Mexican War. He helped establish the Smithsonian Institution.

Adams suffered a stroke in the House and died in the Speaker's Room on Feb. 23, 1848.

Andrew Jackson (1829-37), 7th president, Democratic-Republican, later a Democrat, was born on Mar. 15, 1767, in the Waxhaw district, on the border of North and South Carolina, the son of Andrew and Elizabeth Hutchinson Jackson. At the age of 13, he joined the militia to fight in the American Revolution and was captured. Orphaned at age 14, Jackson was brought up by a well-to-do uncle. By age 20, he was practicing law, and he later served as prosecuting attorney in Nashville, TN. In 1796 he helped draft the constitution of Tennessee, and for a year he occupied its one seat in the House of Representatives. The next year he served in the U.S. Senate.

In the War of 1812, Jackson crushed the Creek Indians at Horseshoe Bend, AL (1814), and, with a greatly outnumbered army consisting chiefly of backwoods militia members and volunteers, defeated Gen. Edward Pakenham's British troops at the Battle of New Orleans (1815). Nicknamed "Old Hickory" for his toughness, he emerged a national hero.

In 1818 Jackson briefly invaded Spanish Florida to quell Seminoles and outlaws who harassed frontier settlements. He ran for president against John Quincy Adams in 1824, but, although he won the most popular and electoral votes, he did not have a majority. The House of Representatives decided the election and chose Adams. In the 1828 election, however, Jackson defeated Adams, carrying the West and the South.

As president, Jackson introduced what became known as the spoils system—rewarding party members with government posts. Perhaps his most controversial act, however, was depositing federal funds in so-called pet banks, those directed by Democratic bankers, rather than in the Bank of the United States. "Let the people rule" was his slogan. In 1832, Jackson killed the congressional caucus for nominating presidential candidates and substituted the national convention. When South Carolina refused to collect imports under his protective tariff, he ordered army and naval forces to Charleston. After leaving office in 1837, he retired to the Hermitage, outside Nashville, where he died on June 8, 1845.

Martin Van Buren (1837-41), 8th president, Democrat, was born on Dec. 5, 1782, in Kinderhook, NY, the son of Abraham and Maria Hoes Van Buren. After attending local schools, he studied law and became a lawyer at the age of 20. A consummate politician, Van Buren began his career in the New York state senate and then served as state attorney general from 1816 to 1819. He was elected to the U.S. Senate in 1821. He helped swing Eastern support to Andrew Jackson in the 1828 election and then served as Jackson's secretary of state from 1829 to 1831. In 1832 he was elected vice president. Known as the "Little Magician," Van Buren was extremely influential in Jackson's administration.

In 1836, Van Buren defeated William Henry Harrison for president and took office as the financial panic of 1837 initiated a nationwide depression. Although he instituted the independent treasury system, his refusal to spend land revenues led to his defeat by William Henry Harrison in 1840. In 1844 he lost the Democratic nomination to James K. Polk. In 1848 he again ran for president on the Free Soil ticket but lost. He died in Kinderhook on July 24, 1862.

William Henry Harrison (1841), 9th president, Whig, who served only 31 days, was born on Feb. 9, 1773, in Berkeley, Charles City Co., VA, the son of Benjamin Harrison, a signer of the Declaration of Independence, and of Elizabeth Bassett Harrison. He attended Hampden-Sydney College. Harrison served as secretary of the Northwest Territory in 1798 and was its delegate to the House of Representatives in 1799. He was the first governor of Indiana Territory and served as superintendent of Indian affairs. With 900 men he put down a Shawnee uprising at Tippecanoe, IN, on Nov. 7, 1811. A generation later, in 1840, he waged a rousing presidential campaign, using the slogan "Tippecanoe and Tyler Too." The Tyler of the slogan was his running mate, John Tyler.

Although born to one of the wealthiest, most prestigious, and most influential families in Virginia, Harrison was elected president with the slogan, "Log Cabin and Hard Cider." He caught pneumonia during his inauguration and died Apr. 4, 1841, after only one month in office.

John Tyler (1841-45), 10th president, independent Whig, was born on Mar. 29, 1790, in Greenway, Charles City Co., VA, the son of John and Mary Armistead Tyler. His father was governor of Virginia (1808-11). Tyler graduated from the College of William and Mary in 1807 and in 1811 was elected to the Virginia legislature. In 1816 he was chosen for the U.S. House of Representatives. He served in the Virginia legislature again from 1823 to 1825, when he was elected governor of Virginia. After a stint in the U.S. Senate (1827-36), he was elected vice president (1840).

When William Henry Harrison died only a month after taking office, Tyler succeeded him. Because he was the first person to occupy the presidency without having been elected to that office, he was referred to as "His Accidency." He gained passage of the Preemption Act of 1841, which gave squatters on government land the right to buy 160 acres at the minimum auction price. His last act as president was to sign a resolution annexing Texas. Tyler accepted renomination in 1844 from some Democrats but withdrew in favor of the official party candidate, James K. Polk. A strong advocate of states' rights, he served briefly in the Confederate House of Representatives before he died in Richmond, VA, on Jan. 18, 1862.

James Knox Polk (1845-49), 11th president, Democrat, was born on Nov. 2, 1795, in Mecklenburg Co., NC, the son of Samuel and Jane Knox Polk. He graduated from the Univ. of North Carolina in 1818 and served in the Tennessee state legislature from 1823 to 1825. He served in the U.S. House of Representatives from 1825 to 1839, the last 4 years as Speaker. He was governor of Tennessee from 1839 to 1841. In 1844, after the Democratic National Convention became deadlocked, it nominated Polk, who became the first “dark horse” candidate for president. He was nominated primarily because he favored annexation of Texas.

As president, Polk reestablished the independent treasury system originated by Van Buren. He was so intent on acquiring California from Mexico that he sent troops to the Mexican border and, when Mexicans attacked, declared that a state of war existed. The Mexican War ended with the annexation of California and much of the Southwest as part of America’s “manifest destiny.” Polk compromised on the Oregon boundary (“54-40 or fight!”) by accepting the 49th parallel and yielding Vancouver Island to the British. Polk died in Nashville, TN, on June 15, 1849, a few months after leaving office.

Zachary Taylor (1849-50), 12th president, Whig, who served only 16 months, was born on Nov. 24, 1784, in Orange Co., VA, the son of Richard and Sarah Strother Taylor. He grew up on his father’s plantation near Louisville, KY, where he was educated by private tutors. In 1808 Taylor joined the regular army and was commissioned first lieutenant. He fought in the War of 1812, the Black Hawk War (1832), and the second Seminole War (beginning in 1837). He was called “Old Rough and Ready.” In 1846 Pres. Polk sent him with an army to the Rio Grande. When the Mexicans attacked him, Polk declared war. Outnumbered 4-1, Taylor defeated Antonio López de Santa Anna at Buena Vista (1847).

A national hero, Taylor received the Whig nomination in 1848 and was elected president, even though he had never bothered to vote. He resumed the spoils system and, though a slaveholder, worked to admit California as a free state. He fell ill, likely from a case of acute gastroenteritis, and died in office on July 9, 1850.

Millard Fillmore (1850-53), 13th president, Whig, was born on Jan. 7, 1800, in Cayuga Co., NY, the son of Nathaniel and Phoebe Millard Fillmore. Although he had little schooling, he became a law clerk at the age of 22 and a year later was admitted to the bar. He was elected to the New York state assembly in 1828 and served until 1831. From 1833 until 1835 and again from 1837 to 1843, he represented his district in the U.S. House of Representatives. He opposed the entrance of Texas as a slave state and voted for a protective tariff. In 1844 he was defeated for governor of New York.

In 1848 he was elected vice president, and he succeeded as president after Taylor’s death. Fillmore favored the Compromise of 1850 and signed the Fugitive Slave Law. His policies pleased neither expansionists nor slaveholders, and he was not renominated in 1852. In 1856 he was nominated by the American (Know-Nothing) Party, but despite the support of the Whigs, he was defeated by James Buchanan. He died in Buffalo, NY, on Mar. 8, 1874.

Franklin Pierce (1853-57), 14th president, Democrat, was born on Nov. 23, 1804, in Hillsboro, NH, the son of Benjamin Pierce, Revolutionary War general and governor of New Hampshire, and Anna Kendrick. He graduated from Bowdoin College in 1824 and was admitted to the bar in 1827. He was elected to the New Hampshire state legislature in 1829 and was chosen Speaker in 1831. He went to the U.S. House in 1833 and was elected a U.S. senator in 1837. He enlisted in the Mexican War and became brigadier general under Gen. Winfield Scott.

In 1852 Pierce was nominated as the Democratic presidential candidate on the 49th ballot. He decisively defeated Gen. Scott, his Whig opponent, in the election. Although he was against slavery, Pierce was influenced by proslavery Southerners. He supported the controversial Kansas-Nebraska Act, which left the question of slavery in the new territories of Kansas and Nebraska to popular vote. Pierce signed a reciprocity treaty with Canada and approved the Gadsden Purchase of a border area on a proposed railroad route, from Mexico. Denied renomination, he spent most of his remaining years in Concord, NH, where he died on Oct. 8, 1869.

James Buchanan (1857-61), 15th president, Federalist, later Democrat, was born on Apr. 23, 1791, near Mercersburg, PA, the son of James and Elizabeth Speer Buchanan. He graduated from Dickinson College in 1809 and was admitted to the bar in 1812. He fought in the War of 1812 as a volunteer. He was twice elected to the Pennsylvania general assembly, and in 1821 he entered the U.S. House of Representatives. After briefly serving (1832-33) as minister to Russia, he was elected U.S. senator from Pennsylvania. As Polk’s secretary of state (1845-49), he ended the Oregon dispute with Britain and supported the Mexican War and annexation of Texas. As minister to Great Britain, he signed the Ostend Manifesto (1854), declaring a U.S. right to take Cuba by force should efforts to purchase it fail.

Nominated by Democrats, Buchanan was elected president in 1856. On slavery he favored popular sovereignty and choice by state constitutions but did not consistently uphold this position. He denied the right of states to secede but opposed coercion and attempted to keep peace by not provoking secessionists. Buchanan left office having failed to deal decisively with the situation. He died at Wheatland, his estate, near Lancaster, PA, on June 1, 1868.

Abraham Lincoln (1861-65), 16th president, Whig, then Republican, was born on Feb. 12, 1809, in a log cabin on a farm in Hardin (now Larue) Co., KY, the son of Thomas and Nancy Hanks Lincoln. The Lincolns moved to Spencer Co., IN, near Gentryville, when Lincoln was 7. After Lincoln’s mother died, his father married Mrs. Sarah Bush Johnston in 1819. In 1830 the family moved to Macon Co., IL.

Defeated in 1832 in a race for the state legislature, Lincoln was elected on the Whig ticket two years later and served in the lower house from 1834 to 1842. In 1837 Lincoln was admitted to the bar and became partner in a Springfield, IL, law office. He soon won recognition as an effective and resourceful attorney. In 1846, he was elected to the U.S. House of Representatives, where he attracted attention during a single term for his opposition to the Mexican War and his position on slavery. In 1856 he campaigned for the newly founded Republican Party, and in 1858 he became its senatorial candidate against Stephen A. Douglas. Although he lost the election, Lincoln gained national recognition from his debates with Douglas.

In 1860, Lincoln was nominated for president by the Republican Party on a platform of restricting slavery. He ran against Douglas, a northern Democrat; John C. Breckinridge, a Southern proslavery Democrat; and John Bell, of the Constitutional Union Party. As a result of Lincoln’s winning the election, South Carolina seceded from the Union on Dec. 20, 1860, followed in 1861 by 10 other Southern states.

The Civil War erupted when Fort Sumter, which Lincoln decided to resupply, was attacked by Confederate forces on Apr. 12, 1861. Lincoln called successfully for recruits from the North. On Sept. 22, 1862, five days after the Battle of Antietam, Lincoln announced that slaves in territory then in rebellion would be free Jan. 1, 1863, the date of the Emancipation Proclamation. His speeches, including his Gettysburg and inaugural addresses, are remembered for their eloquence.

Lincoln was reelected, in 1864, over Gen. George B. McClellan, Democrat. Gen. Robert E. Lee surrendered on Apr. 9, 1865. On Apr. 14, Lincoln was shot by actor John Wilkes Booth in Ford’s Theater, in Washington, DC. He died the next day.

Andrew Johnson (1865-69), 17th president, Democrat, was born on Dec. 29, 1808, in Raleigh, NC, the son of Jacob and Mary McDonough Johnson. He was apprenticed to a tailor as a youth, but ran away after two years and eventually settled in Greeneville, TN. He became popular with the townspeople and in 1829 was elected councilman and later mayor.

In 1835 he was sent to the state general assembly. In 1843 he was elected to the U.S. House of Representatives, where he served for 10 years. Johnson was also governor of Tennessee from 1853 to 1857, when he was elected to the U.S. Senate. He supported John C. Breckinridge against Lincoln in the 1860 election. Although Johnson had held slaves, he opposed secession and tried to prevent Tennessee from seceding. In Mar. 1862, Lincoln appointed him military governor of occupied Tennessee.

In 1864, in order to balance Lincoln's ticket with a Southern Democrat, the Republicans nominated Johnson for vice president. He was elected vice president with Lincoln and then succeeded to the presidency upon Lincoln's death. Soon afterward, in a controversy with Congress over the president's power over the South, he proclaimed an amnesty to all Confederates, except certain leaders, if they would ratify the 13th Amendment abolishing slavery. States doing so added anti-Negro provisions that enraged Congress, which restored military control over the South. When Johnson removed Sec. of War Edwin M. Stanton, without notifying the Senate, the House impeached him in Feb. 1868. Charging him with thereby having violated the Tenure of Office Act, the House was actually responding to his opposition to harsh congressional Reconstruction, expressed in repeated vetoes. He was tried by the Senate, and in May, in two separate votes on different counts, Johnson was acquitted, both times by only one vote.

Johnson was denied renomination but remained politically active. He was reelected to the Senate in 1874. Johnson died July 31, 1875, at Carter Station, TN.

Ulysses S. Grant (1869-77), 18th president, Republican, was born on Apr. 27, 1822, in Point Pleasant, OH, the son of Jesse R. and Hannah Simpson Grant. The next year the family moved to Georgetown, OH. Grant was named Hiram Ulysses. Upon entering West Point in 1839, he found his name had been put down as Ulysses S. Grant, with his middle

name first and his mother's maiden name as his middle name. He eventually adopted it as his true name but maintained the "S" did not stand for anything. Grant graduated in 1843. During the Mexican War, Grant served under both Gen. Zachary Taylor and Gen. Winfield Scott. In 1854, he resigned his commission because of loneliness and drinking problems, and in the following years he engaged in generally unsuccessful farming and business ventures. With the start of the Civil War, he was named colonel and then brigadier general of the Illinois Volunteers. He took Forts Henry and Donelson and fought at Shiloh. His brilliant campaign against Vicksburg and his victory at Chattanooga made him so prominent that Lincoln placed him in command of all Union armies. Grant accepted Lee's surrender at Appomattox Court House on Apr. 9, 1865. Pres. Johnson appointed Grant secretary of war when he suspended Stanton, but Grant was not confirmed.

Grant was nominated for president by the Republicans in 1868 and elected over Democrat Horatio Seymour. The 15th Amendment, the amnesty bill, and peaceful settlement of disputes with Great Britain were events of his administration. The Liberal Republicans and Democrats opposed him with Horace Greeley in the 1872 election, but Grant was reelected. His second administration was marked by scandals, including the Crédit Mobilier affair, the Whiskey Ring, in which high-ranked officials conspired to defraud the government of taxes, and the impeachment of his Secretary of War. An attempt by the Stalwarts (Old Guard Republicans) to nominate him in 1880 failed. In 1884 the collapse of an investment firm in which he was a partner left Grant penniless. He wrote his personal memoirs while ill with cancer and completed them shortly before his death at Mt. McGregor, NY, on July 23, 1885.

Rutherford Birchard Hayes (1877-81), 19th president, Republican, was born on Oct. 4, 1822, in Delaware, OH, the son of Rutherford and Sophia Birchard Hayes. He was reared by his uncle, Sardis Birchard. Hayes graduated from Kenyon College in 1842 and from Harvard Law School in 1845. He practiced law in Lower Sandusky (now Fremont), OH, and was city solicitor of Cincinnati from 1858 to 1861. During the Civil War, he was major of the 23rd Ohio Volunteers. He was wounded several times, and by the end of the war he had risen to the rank of brevet major general. While serving (1865-67) in the U.S. House of Representatives, Hayes supported Reconstruction and Johnson's impeachment. He was twice elected governor of Ohio (1867, 1869). After losing a race for the U.S. House in 1872, he was reelected governor of Ohio in 1875.

In 1876, Hayes was nominated for president and believed he had lost the election to Democrat Samuel J. Tilden. But a few Southern states submitted two sets of electoral votes, and the result was in dispute. An electoral commission, consisting of 8 Republicans and 7 Democrats, awarded all disputed votes to Hayes, allowing him to become president by one electoral vote. Hayes, keeping a promise to Southerners, withdrew troops from areas still occupied in the South, ending the era of Reconstruction. He proposed civil service reforms, alienating those favoring the spoils system, and advocated repeal of the Tenure of Office Act restricting presidential power to dismiss officials. He supported sound money and specie payments.

Hayes died in Fremont, OH, on Jan. 17, 1893.

James Abram Garfield (1881), 20th president, Republican, was born on Nov. 19, 1831, in Orange, Cuyahoga Co., OH, the son of Abram and Eliza Ballou Garfield. His father died in 1833, and he was reared in poverty by his mother. He worked as a canal bargeman, a farmer, and a carpenter. He attended Western Reserve Eclectic Institute and graduated from Williams College in 1856. He returned to Western Reserve to teach and in 1857, at age 25, he became the school's president. In 1859 he was elected to the Ohio legislature. Antislavery and antisecession, he volunteered for military service in the Civil War, becoming colonel of the 42nd Ohio Infantry and brigadier in 1862. He fought at Shiloh, TN, was chief of staff for Gen. William Starke Rosecrans, and was made major general for gallantry at Chickamauga, GA. He entered Congress as a radical Republican in 1863, calling for execution or exile of Confederate leaders, but he moderated his views after the Civil War. On the electoral commission in 1877 he voted for Hayes against Tilden on strict party lines.

Garfield was a senator-elect in 1880 when he became the Republican nominee for president. He was chosen as a compromise over Gen. Grant, James G. Blaine, and John Sherman, and won election despite some bitterness among Grant's supporters. For much of his brief tenure as president, Garfield was concerned with a fight with New York Sen. Roscoe Conkling, who opposed two major appointments made by Garfield. On July 2, 1881, Garfield was shot and seriously wounded by a mentally disturbed office seeker, Charles J. Guiteau, while entering a railroad station in Washington, DC. He lingered on in the White House before finally succumbing on Sept. 19, 1881, in Elberon, NJ.

Chester Alan Arthur (1881-85), 21st president, Republican, was born on Oct. 5, 1829, in Fairfield, VT, to William and Malvina Stone Arthur. He graduated from Union College in 1848, taught school in Vermont, then studied law and practiced in New York City. In 1853, he argued in a fugitive slave case that slaves transported through New York State were thereby freed. In 1871, he was appointed collector of the Port of New York. Pres. Hayes, an opponent of the spoils system, forced him to resign in 1878. This made the New York machine enemies of Hayes. Arthur and the Stalwarts (Old Guard Republicans) tried to nominate Grant for a 3rd term as president in 1880. When Garfield was nominated, Arthur was nominated for vice president in the interests of harmony.

Upon Garfield's assassination, Arthur became president. Despite his past connections, he signed major civil service reform legislation. Arthur tried to dissuade Congress from enacting the high protective tariff of 1883. He was defeated for renomination in 1884 by James G. Blaine. He died in New York City on Nov. 18, 1886.

Grover Cleveland (1885-89; 1893-97) (*According to a State Dept. ruling, Grover Cleveland should be counted as both the 22nd and the 24th president because his two terms were not consecutive*), Democrat, was born Stephen Grover Cleveland on Mar. 18, 1837, in Caldwell, NJ, the son of Richard F. and Ann Neal Cleveland. When he was a small boy, his family moved to New York.

Prevented by his father's death from attending college, he studied by himself and was admitted to the bar in Buffalo, NY, in 1859. In succession he became assistant district attorney (1863), sheriff (1871), mayor (1881), and governor of New York (1882). He was an independent, honest administrator who hated corruption. Cleveland was nominated for president over Tammany Hall opposition in 1884 and defeated Republican James G. Blaine.

As president, he enlarged the civil service and vetoed many pension raids on the Treasury. In the 1888 election he was defeated by Benjamin Harrison, although his popular vote was larger. Reelected over Harrison in 1892, he faced a money crisis brought about by a lowered gold reserve, circulation of paper, and exorbitant silver purchases under the Sherman Silver Purchase Act. He obtained a repeal of the Sherman Act but was unable to secure effective tariff reform. A severe economic depression and labor troubles racked his administration, but he refused to interfere in business matters and rejected Jacob Coxey's demand for unemployment relief. In 1894, he broke the Pullman strike. Cleveland was not renominated in 1896.

He died in Princeton, NJ, on June 24, 1908.

Benjamin Harrison (1889-93), 23rd president, Republican, was born on Aug. 20, 1833, in North Bend, OH, the son of John Scott and Elizabeth Irwin Harrison. His great-grandfather, Benjamin Harrison, was a signer of the Declaration of Independence; his grandfather, William Henry Harrison, was 9th president; his father was a member of Congress. He attended school

on his father's farm and graduated from Miami University in Oxford, OH, in 1852. He was admitted to the bar in 1854 and practiced in Indianapolis, IN. During the Civil War, he rose to the rank of brevet brigadier general and fought at Kennesaw Mountain, Peachtree Creek, Nashville, and in the Atlanta campaign. He lost the 1876 gubernatorial election in Indiana but succeeded in becoming a U.S. senator in 1881.

In 1888 he defeated Cleveland for president despite receiving fewer popular votes. As president, he expanded the pension list and signed the McKinley high tariff bill, the Sherman Antitrust Act, and the Sherman Silver Purchase Act. During his administration, six states were admitted to the Union. He was defeated for reelection in 1892. He died in Indianapolis, IN, on Mar. 13, 1901.

William McKinley (1897-1901), 25th president, Republican, was born on Jan. 29, 1843, in Niles, OH, the son of William and Nancy Allison McKinley. McKinley briefly attended Allegheny College. When the Civil War broke out in 1861, he enlisted and served for the duration. He rose to captain and in 1865 was made brevet major. After studying law in Albany, NY, he opened a law office in Canton,

OH (1867). He served twice in the U.S. House (1877-83; 1885-91) and led the fight there for the McKinley Tariff, passed in 1890; he was not reelected to the House as a result. He served two terms (1892-96) as governor of Ohio.

In 1896 he was elected president as a proponent of a protective tariff and sound money (gold standard) over William Jennings Bryan, the Democrat and a proponent of free silver. McKinley was reluctant to intervene in Cuba, but the loss of the battleship *Maine* at Havana crystallized opinion. He demanded

Spain's withdrawal from Cuba; Spain made some concessions, but Congress announced a state of war as of Apr. 21, 1898. He was reelected in the 1900 campaign, defeating Bryan's anti-imperialist arguments with the promise of a "full dinner pail." McKinley was respected for his conciliatory nature and for his conservative stance on business issues. On Sept. 6, 1901, while welcoming citizens at the Pan-American Exposition, in Buffalo, NY, he was shot by Leon Czolgosz, an anarchist. He died Sept. 14.

Theodore Roosevelt (1901-09), 26th president, Republican, was born on Oct. 27, 1858, in New York City, the son of Theodore and Martha Bulloch Roosevelt. He was a 5th cousin of Franklin D. Roosevelt and an uncle of Eleanor Roosevelt. Roosevelt graduated from Harvard University in 1880. He attended Columbia Law School briefly but abandoned law to enter politics. He was elected to the

New York State Assembly in 1881 and served until 1884. He spent the next two years ranching and hunting in the Dakota Territory. In 1886, he ran unsuccessfully for mayor of New York City. He was civil service commissioner in Washington, DC, from 1889 to 1895. From 1895 to 1897, he served as New York City's police commissioner. He was assistant secretary of the Navy under McKinley. The Spanish-American War made him nationally known. He organized the 1st U.S. Volunteer Cavalry (Rough Riders) and, as lieutenant colonel, led the charge up Kettle Hill in San Juan. Elected New York governor in 1898, he fought the spoils system and achieved taxation of corporation franchises.

Nominated for vice president in 1900, Roosevelt became the nation's youngest president when McKinley was assassinated. He was reelected in 1904. As president he fought corruption of politics by big business, dissolved the Northern Securities Co. and others for violating antitrust laws, intervened in the 1902 coal strike on behalf of the public, obtained the Elkins Law (1903) forbidding rebates to favored corporations, and helped pass the Hepburn Railway Rate Act of 1906 (extending jurisdiction of the Interstate Commerce Commission). He helped obtain passage of the Pure Food and Drug Act (1906) and of employers' liability laws. Roosevelt vigorously organized conservation efforts. He mediated the peace between Japan and Russia in 1905, for which he won the Nobel Peace Prize. He abetted the 1903 revolution in Panama that led to U.S. acquisition of territory for the Panama Canal.

In 1908 Roosevelt obtained the nomination of William H. Taft, who was elected. Feeling that Taft had abandoned his policies, he unsuccessfully sought the nomination in 1912. He then ran on the Progressive "Bull Moose" ticket against Taft and Woodrow Wilson, splitting the Republicans and ensuring Wilson's election. During the campaign he was shot by a mentally deranged man but was not seriously wounded. In 1916, after unsuccessfully seeking the presidential nomination, he supported the Republican candidate, Charles E. Hughes. A strong friend of Britain, he fought for U.S. intervention in World War I.

Roosevelt was a voracious reader and wrote some 40 books, including *The Winning of the West*. He died Jan. 6, 1919, at Sagamore Hill, his home in Oyster Bay, NY.

William Howard Taft (1909-13), 27th president, Republican, and 10th chief justice of the U.S., was born on Sept. 15, 1857, in Cincinnati, OH, the son of Alphonso and Louisa Maria Torrey Taft. His father was secretary of war and attorney general in Grant's cabinet and minister to Austria and Russia under Arthur. Taft graduated from Yale in 1878

and from Cincinnati Law School in 1880. After working as a law reporter for Cincinnati newspapers, he served as assistant prosecuting attorney (1881-82), assistant county solicitor (1885), superior court judge (1887), U.S. solicitor-general (1890), and federal circuit judge (1892). In 1900 he became head of the U.S. Philippines Commission and was the first civil governor of the Philippines (1901-04). In 1904 he served as secretary of war, and in 1906 he was sent to Cuba to help avert a threatened revolution.

Taft was groomed for the presidency by Theodore Roosevelt and elected over William Jennings Bryan in 1908.

Taft vigorously continued Roosevelt's trust-busting, instituted the Dept. of Labor, and drafted the amendments calling for direct election of senators and the income tax. However, his tariff and conservation policies angered progressives. Although renominated in 1912, he was opposed by Roosevelt, who ran on the Progressive Party ticket; the result was Democrat Woodrow Wilson's election.

Taft, with some reservations, supported the League of Nations. After leaving office, he was professor of constitutional law at Yale (1913-21) and chief justice of the U.S. (1921-30). Taft was the only person in U.S. history to have been both president and chief justice. He died in Washington, DC, on Mar. 8, 1930.

(Thomas) Woodrow Wilson (1913-21), 28th president, Democrat, was born on Dec. 28, 1856, in Staunton, VA, the son of Joseph Ruggles and Janet (Jessie) Woodrow Wilson. He grew up in Georgia and South Carolina. He attended Davidson College in North Carolina before graduating from Princeton University in 1879. He studied law at the Univ. of Virginia and political science at Johns Hopkins Univ., where he received his PhD in 1886. He taught at Bryn Mawr (1885-88) and at Wesleyan (1888-90) before joining the faculty at Princeton. He was president of Princeton from 1902 until 1910, when he was elected governor of New Jersey. In 1912 he was nominated for president with the aid of William Jennings Bryan, who sought to block James "Champ" Clark and Tammany Hall. Wilson won because the Republican vote for Taft was split by the Progressives.

As president, Wilson protected American interests in revolutionary Mexico and fought for American rights on the high seas. He oversaw the creation of the Federal Reserve system, cut the tariff, and developed a reputation as a reformer. His sharp warnings to Germany led to the resignation of his secretary of state, Bryan, a pacifist. In 1916 he was reelected by a slim margin with the slogan, "He kept us out of war," although his attempts to mediate in the war failed. After several American ships were sunk by the Germans, he secured a declaration of war against Germany on Apr. 6, 1917.

Wilson outlined his peace program on Jan. 8, 1918, in the Fourteen Points, a state paper that had worldwide influence. He enunciated a doctrine of self-determination for the settlement of territorial disputes. The Germans accepted his terms and an armistice on Nov. 11, 1918.

Wilson went to Paris to help negotiate the peace treaty, the crux of which he considered the League of Nations. The Senate demanded reservations that would not make the U.S. subordinate to the votes of other nations in case of war. Wilson refused and toured the country to get support. He suffered a stroke in Oct. 1919. An invalid, he clung to his office while his wife and doctors effectively functioned as president.

Wilson was awarded the 1919 Nobel Peace Prize, but the treaty embodying the League of Nations was ultimately rejected by the Senate in 1920. He left the White House in Mar. 1921. He died in Washington, DC, on Feb. 3, 1924.

Warren Gamaliel Harding (1921-23), 29th president, Republican, was born on Nov. 2, 1865, near Corsica (now Blooming Grove), OH, the son of George Tyron and Phoebe Elizabeth Dickerson Harding. He attended Ohio Central College, studied law, and became editor and publisher of a county newspaper. He entered the political arena as state senator (1901-04) and then served as lieutenant governor (1904-06). In 1910 he ran unsuccessfully for governor of Ohio; in 1914 he was elected to the U.S. Senate. In the Senate he voted for antistrike legislation, women's suffrage, and the Volstead Prohibition Enforcement Act over Pres. Wilson's veto. He opposed the League of Nations.

In 1920 he was nominated for president and defeated James M. Cox in the election. The Republicans capitalized on war weariness and fear that Wilson's League of Nations would curtail U.S. sovereignty. Harding stressed a return to "normalcy" and worked for tariff revision and the repeal of excess profits law and high income taxes. In what became known as the Teapot Dome scandal, his secretary of the interior, Albert B. Fall, resigned and was later convicted of accepting bribes in the leasing of government-owned oil reserves to private companies.

As rumors began to circulate about the corruption in his administration, Harding fell ill after a trip to Alaska, and he died suddenly in San Francisco on Aug. 2, 1923.

(John) Calvin Coolidge (1923-29), 30th president, Republican, was born on July 4, 1872, in Plymouth Notch, VT, the son of John Calvin and Victoria J. Moor Coolidge. Coolidge graduated from Amherst College in 1895. He entered Republican state politics and served as mayor of Northampton, MA, as state senator, as lieutenant governor, and, in 1919, as governor. In Sept. 1919, Coolidge attained national prominence by calling out the state guard in the Boston police strike. He declared, "There is no right to strike against the public safety by anybody, anywhere, anytime." This brought his name before the Republican convention of 1920, where he was nominated for vice president.

Coolidge succeeded to the presidency on Harding's death. As president, he opposed the League of Nations and the soldiers' bonus bill, which was passed over his veto. In 1924 he was elected to the presidency by a huge majority. He substantially reduced the national debt. He twice vetoed the McNary-Haugen farm bill, which would have provided relief to financially hard-pressed farmers.

With Republicans eager to renominate him, Coolidge simply announced on Aug. 2, 1927, "I do not choose to run for president in 1928." He died in Northampton, MA, on Jan. 5, 1933.

Herbert Clark Hoover (1929-33), 31st president, Republican, was born on Aug. 10, 1874, in West Branch, IA, the son of Jesse Clark and Hulda Randall Minthorn Hoover. Hoover grew up in Indian Territory (now Oklahoma) and Oregon and graduated from Stanford University with a degree in geology in 1895. He worked briefly with the U.S. Geological Survey and then managed mines in Australia, Asia, Europe, and Africa. While chief engineer of imperial mines in China, he directed food relief for victims of the Boxer Rebellion. He gained a reputation not only as an engineer but as a humanitarian as he directed the American Relief Committee, London (1914-15) and the U.S. Commission for Relief in Belgium (1915-19). He was U.S. Food Administrator (1917-19), American Relief Administrator (1918-23), and in charge of Russian Relief (1918-23). He served as secretary of commerce under both Harding and Coolidge. Some historians believe that he was the most effective secretary of commerce ever to hold that office.

In 1928 Hoover was elected president over Alfred E. Smith. In 1929 the stock market crashed, and the economy collapsed. During the Great Depression, Hoover inaugurated some government assistance programs, but he was opposed to administration of aid through a federal bureaucracy. As the effects of the depression continued, he was defeated in the 1932 election by Franklin D. Roosevelt. Hoover remained active after leaving office. President Truman named him coordinator of the European Food Program (1946) and chairman of the Commission on Organization of the Executive Branch (1947-49; 1953-55).

Hoover died in New York City on Oct. 20, 1964.

Franklin Delano Roosevelt (1933-45), 32nd president, Democrat, was born on Jan. 30, 1882, in Hyde Park, NY, the son of James and Sara Delano Roosevelt. He graduated from Harvard University in 1903. He attended Columbia University Law School without taking a degree and was admitted to the New York State bar in 1907. His political career began when he was elected to the New York State senate in 1910. In 1913 Pres. Wilson appointed him assistant secretary of the navy, a post he held during World War I.

In 1920 Roosevelt ran for vice president with James Cox and was defeated. From 1921 to 1928 he worked in his New York law office and was also vice president of a bank. In Aug. 1921, he was stricken with poliomyelitis, which left his legs paralyzed. As a result of therapy he was able to stand, or walk a few steps, with the aid of leg braces.

Roosevelt served two terms as governor of New York (1929-33). In 1932, Democratic convention delegate W. G. McAdoo, pledged to nominee John N. Garner, threw his votes to Roosevelt, who was nominated for president. The Depression and the promise to repeal Prohibition ensured his election. He

asked for emergency powers, proclaimed the New Deal, and put into effect a vast number of administrative changes. Foremost was the use of public funds for relief and public works, resulting in deficit financing. He greatly expanded the federal government's regulation of business and by an excess profits tax and progressive income taxes produced a redistribution of earnings on an unprecedented scale. He also promoted legislation establishing the Social Security system. He was the last president inaugurated on Mar. 4 (1933) and the first inaugurated on Jan. 20 (1937).

Roosevelt was the first president to use radio for "fireside chats." When the Supreme Court nullified some New Deal laws, he sought power to "pack" the Court with additional justices, but Congress refused to give him the authority. He was the first president to break the "no 3rd term" tradition (1940) and was elected to a 4th term in 1944, despite failing health.

Roosevelt was openly hostile to fascist governments before World War II and launched a lend-lease program on behalf of the Allies. With British Prime Min. Winston Churchill he wrote a declaration of principles to be followed after Nazi defeat (the Atlantic Charter of Aug. 14, 1941) and urged the Four Freedoms (freedom of speech, of worship, from want, from fear) Jan. 6, 1941. When Japan attacked Pearl Harbor on Dec. 7, 1941, the U.S. entered the war. Roosevelt guided the nation through the war and conferred with allied heads of state at Casablanca, Morocco (Jan. 1943), Quebec, Canada (Aug. 1943), Tehran, Iran (Nov.-Dec. 1943), Cairo, Egypt (Nov. and Dec. 1943), and Yalta, Ukraine (Feb. 1945).

Roosevelt did not live to see the end of the war. He died of a cerebral hemorrhage in Warm Springs, GA, on Apr. 12, 1945.

Harry S. Truman (1945-53), 33rd president, Democrat, was born on May 8, 1884, in Lamar, MO, the son of John Anderson and Martha Ellen Young Truman. A family disagreement over whether his middle name should be Shipp or Solomon, after his two grandfathers, resulted in his using only the middle initial S. After graduating from high school (1901) in Independence, MO, he worked in the mailroom of the *Kansas City Star*, as a railroad timekeeper, and as a clerk in Kansas City banks until about 1905. He ran his family's farm from 1906 to 1917, then served in France during World War I. After the war he opened a haberdashery, was a judge on the Jackson Co. Court (1922-24), and attended Kansas City School of Law (1923-25).

Truman was elected to the U.S. Senate in 1934 and reelected in 1940. In 1944, with Roosevelt's backing, he was nominated for vice president and elected. On Roosevelt's death in 1945, Truman became president. In 1948, in a famous upset victory, he defeated Republican Thomas E. Dewey to win election to a new term.

Truman authorized the first uses of the atomic bomb (Hiroshima and Nagasaki, Aug. 6 and 9, 1945), bringing World War II to a rapid end. He was responsible for what came to be called the Truman Doctrine to aid nations such as Greece and Turkey, threatened by Communist takeover, and his strong commitment to NATO and to the Marshall Plan helped bring the two about. In 1948-49, he broke a Soviet blockade of West Berlin with a massive airlift. When Communist North Korea invaded South Korea (June 1950), he won UN approval for a "police action" and, without prior congressional consent, sent in forces under Gen. Douglas MacArthur. When MacArthur opposed his policy of limited objectives, Truman removed him.

He died in Kansas City, MO, on Dec. 26, 1972.

Dwight David Eisenhower (1953-61), 34th president, Republican, was born on Oct. 14, 1890, in Denison, TX, the son of David Jacob and Ida Elizabeth Stover Eisenhower. He grew up on a small farm in Abilene, KS, and graduated from West Point in 1915. He was on the staff of Gen. Douglas MacArthur in the Philippines from 1935 to 1939. In 1942, he was made commander of Allied forces landing in North Africa; the next year he was made full general. He became supreme Allied commander in Europe that same year and as such led the Normandy invasion (June 6, 1944). On Dec. 20, 1944, he was given the rank of general of the Army, which was made permanent in 1946.

On May 7, 1945, Eisenhower received the surrender of Germany at Rheims, France. He returned to the U.S. to serve as chief

of staff (1945-48). His memoir, *Crusade in Europe* (1948), was a best-seller. In 1948 he became president of Columbia University; in 1950 he became commander of NATO forces.

Eisenhower resigned from the army and was nominated for president by the Republicans in 1952. He defeated Adlai E. Stevenson in the 1952 election and again in 1956. Eisenhower called himself a moderate, favored the "free market system" versus government price and wage controls, kept government out of labor disputes, reorganized the defense establishment, and promoted missile programs. He continued foreign aid, helped negotiate a cease fire truce in the Korean War, endorsed Taiwan and SE Asia defense treaties, backed the UN in condemning the Anglo-French raid on Egypt, and advocated the "open skies" policy of mutual inspection with the USSR. He sent U.S. troops into Little Rock, AR, in Sept. 1957, to enforce school integration.

Eisenhower died on Mar. 28, 1969, in Washington, DC.

John Fitzgerald Kennedy (1961-63), 35th president, Democrat, was born on May 29, 1917, in Brookline, MA, the son of Joseph P. and Rose Fitzgerald Kennedy. He graduated from Harvard University in 1940. While serving in the Navy (1941-45), he commanded a patrol torpedo (PT) boat in the Solomons and won the Navy and Marine Corps Medal. In 1956, while recovering from spinal surgery, he wrote *Profiles in Courage*, which won a Pulitzer Prize in 1957. He served in the House of Representatives from 1947 to 1953 and was elected to the Senate in 1952 and 1958. In 1960, he won the Democratic nomination for president and narrowly defeated Republican Vice Pres. Richard M. Nixon. Kennedy was the youngest president ever elected to the office and the first Catholic.

Despite the image of youth and vigor he conveyed to the public, Kennedy suffered from serious medical problems, including Addison's disease and severe chronic back pain that required him to wear a back brace. The public was not aware of the extent of these problems, or of his many marital infidelities, including an affair with a young White House press aide that only became known in 2003.

In Apr. 1961, the new Kennedy administration suffered a severe setback when an invasion force of anti-Castro Cubans, trained and directed by the CIA, failed to establish a beachhead at the Bay of Pigs in Cuba. One of Kennedy's most important acts as president was his successful demand on Oct. 22, 1962, that the Soviet Union dismantle its missile bases in Cuba. Kennedy also defied Soviet attempts to force the Allies out of Berlin. He started the Peace Corps, backed civil rights, and expanded medical care for the aged. Space exploration was greatly developed during his administration.

On Nov. 22, 1963, President Kennedy was assassinated while riding in a motorcade in Dallas, TX. A commission chaired by Chief Justice Earl Warren concluded in Sept. 1964 that the sole assassin had been Lee Harvey Oswald, a former U.S. Marine and, at the time of the shooting, an ardent Marxist. Oswald was captured a short time after the assassination and charged with the crime. Two days after the assassination, before he could go on trial, he was shot dead by nightclub owner Jack Ruby while being moved to a county jail.

Lyndon Baines Johnson (1963-69), 36th president, Democrat, was born on Aug. 27, 1908, near Stonewall, TX, the son of Sam Ealy and Rebekah Baines Johnson. He graduated from Southwest Texas State Teachers College in 1930 and attended Georgetown University Law School. He taught public speaking in Houston (1930-31) and then served as secretary to Rep. R. M. Kleberg (1931-35). In 1937 Johnson won an election to fill the vacancy caused by the death of a U.S. representative and in 1938 was elected to the full term, after which he returned for four terms. During 1941 and 1942 he also served in the Navy in the Pacific, earning a Silver Star for bravery. He was elected U.S. senator in 1948 and reelected in 1954. He became Democratic leader of the Senate in 1953. Johnson had strong support for the Democratic presidential nomination at the 1960 convention, where the nominee, John F. Kennedy, asked him to run for vice president. His campaigning helped overcome religious bias against Kennedy in the South.

Johnson became president when Kennedy was assassinated. He was elected to a full term in 1964. Johnson's domestic program was of considerable importance. He won passage of

major civil rights, anti-poverty, aid to education, and health-care (Medicare, Medicaid) legislation—the “Great Society” program. However, his escalation of the war in Vietnam came to overshadow the achievements of his administration. In the face of increasing division in the nation and in his own party over his handling of the war, Johnson declined to seek another term.

Johnson died on Jan. 22, 1973, in San Antonio, TX.

Richard Milhous Nixon (1969-74), 37th president, Republican, was born on Jan. 9, 1913, in Yorba Linda, CA, the son of Francis Anthony and Hannah Milhous Nixon. He graduated from Whittier College in 1934 and from Duke University Law School in 1937. After practicing law in Whittier, CA, and serving briefly in the Office of Price Administration in 1942, he entered the Navy and served in the South Pacific. Nixon was elected to the House of Representatives in 1946 and 1948. He achieved prominence as the House Un-American Activities Committee member who forced the showdown leading to the Alger Hiss perjury conviction. In 1950 he was elected to the Senate.

Nixon was elected vice president in the Eisenhower landslide of 1952 and 1956. He won the Republican nomination for president in 1960 but was narrowly defeated by John F. Kennedy. He ran unsuccessfully for governor of California in 1962. In 1968 he again won the GOP presidential nomination, then defeated Hubert Humphrey for the presidency.

As president, Nixon appointed four Supreme Court justices, including the chief justice, moving the court to the right. As a “new federalist,” he sought to shift responsibility to state and local governments. He dramatically altered relations with China, which he visited in 1972—the first U.S. president to do so. With foreign affairs adviser Henry Kissinger, he pursued détente with the Soviet Union, signing major arms limitation and other treaties and increasing trade. He began a gradual withdrawal from Vietnam, but U.S. troops remained there through his first term. He ordered an incursion into Cambodia (1970) and the bombing of Hanoi and mining of Haiphong Harbor (1972). Reelected by a large majority in Nov. 1972, he secured a Vietnam cease-fire in Jan. 1973.

Nixon’s 2nd term was cut short by scandal, after disclosures relating to a June 1972 burglary of Democratic Party headquarters in the Watergate office complex in DC. The courts and Congress sought tapes of Nixon’s office conversations and called for criminal proceedings against former White House aides and for a House inquiry into possible impeachment. Nixon claimed executive privilege, but the Supreme Court ruled against him. In July 1974, the House Judiciary Committee recommended adoption of three impeachment articles charging him with obstruction of justice, abuse of power, and contempt of Congress. On Aug. 5, he released transcripts of conversations that linked him to cover-up activities. He resigned on Aug. 9, becoming the first president ever to do so.

In later years, Nixon emerged as an elder statesman. He died Apr. 22, 1994, in New York City.

Gerald Rudolph Ford (1974-77), 38th president, Republican, was born on July 14, 1913, in Omaha, NE, the son of Leslie and Dorothy Gardner King, and was named Leslie Lynch King Jr. When he was 2, his parents divorced, and he and his mother moved to Grand Rapids, MI. There she met and married Gerald R. Ford, who formally adopted him and gave him his name. Ford graduated from the Univ. of Michigan in 1935 and from Yale Law School in 1941. He began practicing law in Grand Rapids, but in 1942, he joined the Navy and served in the Pacific, leaving the service in 1946 as a lieutenant commander. He entered the House of Representatives in 1949 and spent 25 years in the House, eight of them as Republican leader.

On Oct. 12, 1973, after Vice Pres. Spiro T. Agnew resigned, Pres. Nixon nominated Ford to replace him. It was the first use of the procedures set out in the 25th Amendment. When Nixon resigned, Aug. 9, 1974, because of the Watergate scandal, Ford became president; he was the only president who was never elected either to the presidency or to the vice presidency.

Ford was widely credited with having contributed to rebuilding morale after the Nixon presidency. But he was also criticized by many when, in a controversial move, he pardoned Nixon for any federal crimes he might have committed as

president. Ford vetoed 48 bills in his first 21 months in office, mostly in the interest of fighting high inflation; he was less successful in curbing high unemployment. In foreign policy, Ford continued to pursue détente.

Ford was narrowly defeated in the 1976 election. In 1999, he received the Medal of Freedom, the country’s highest civilian award, and the Congressional Gold Medal, in recognition of his public service.

Ford died Dec. 26, 2006, at home in Rancho Mirage, CA.

James Earl (Jimmy) Carter (1977-81), 39th president, Democrat, was the first president from the Deep South since before the Civil War. He was born on Oct. 1, 1924, in Plains, GA, the son of James and Lillian Gordy Carter. Carter graduated from the U.S. Naval Academy in 1946 and in 1952 entered the Navy’s nuclear submarine program as an aide to Capt. (later Adm.) Hyman Rickover. He studied nuclear

physics at Union College.

Carter’s father died in 1953, and he left the Navy to take over the family peanut farming businesses. He served in the Georgia state senate (1963-67) and as governor of Georgia (1971-75). In 1976, Carter won the Democratic nomination and defeated Pres. Gerald R. Ford.

On his first full day in office, Carter pardoned all Vietnam draft evaders. He played a major role in the negotiations leading to the 1979 peace treaty between Israel and Egypt, and he won passage of new treaties with Panama providing for U.S. control of the Panama Canal to end in 2000. Carter was widely criticized, however, for the poor state of the economy and was viewed by some as weak in his handling of foreign policy. In Nov. 1979, Iranian student militants attacked the U.S. embassy in Tehran and held members of the embassy staff hostage. Efforts to obtain release of the hostages were a major preoccupation during the rest of his term. He reacted to the Soviet invasion of Afghanistan by imposing a grain embargo and boycotting the Moscow Olympic Games.

Carter was defeated by Ronald Reagan in the 1980 election. The 52 American hostages in Iran were finally released on inauguration day, 1981, just after Reagan officially became president. Since its founding by Carter and his wife, Rosalynn Carter, in 1982, the Center has observed more than 80 elections in more than 30 countries with struggling democracies and reduced incidents of Guinea worm disease. In large part for his diplomatic efforts, both in office and subsequently, he was awarded the Nobel Peace Prize in 2002.

Ronald Wilson Reagan (1981-89), 40th president, Republican, was born on Feb. 6, 1911, in Tampico, IL, the son of John Edward and Nellie Wilson Reagan. Reagan graduated from Eureka College in 1932, after which he worked as a sports announcer in Des Moines, IA. He began a successful career as an actor in 1937, starring in numerous movies, and later in television, until the 1960s. During World War II Reagan served in the Army Air Force, making training films. He was president of the Screen Actors Guild in 1947-52 and in 1959-60. Reagan was elected governor of California in 1966 and reelected in 1970.

In 1980, Reagan gained the Republican presidential nomination and won a landslide victory over Jimmy Carter. He was easily reelected in 1984. Reagan forged a bipartisan coalition in Congress, which led to enactment of his program of large-scale tax cuts, cutbacks in many government programs, and a major defense buildup. He signed a Social Security reform bill designed to provide for the long-term solvency of the system. In 1986, he signed into law a major tax-reform bill. He was shot and seriously wounded in 1981 by a would-be assassin who was later declared insane.

In 1982, the U.S. joined France and Italy in maintaining a peacekeeping force in Beirut, Lebanon, and the next year Reagan sent a task force to invade Grenada after two Marxist coups on the island. Reagan’s opposition to international terrorism led to the U.S. bombing of Libyan military installations in 1986. He strongly supported El Salvador, the Nicaraguan contras, and other anticommunist governments and forces throughout the world. He also held four summit meetings with Soviet leader Mikhail Gorbachev. At the 1987 meeting in Washington, DC, a historic treaty eliminating short- and medium-range missiles from Europe was signed.

Reagan faced a crisis in 1986-87. It was revealed that the U.S. had sold weapons through Israeli brokers to Iran in exchange for the release of U.S. hostages being held in Lebanon and that subsequently some of the money had been diverted to the Nicaraguan contras (Congress had barred U.S. aid to the contras). The scandal led to the resignation of leading White House aides. As Reagan left office in Jan. 1989, the nation was experiencing its 6th consecutive year of economic prosperity. Over the same period, however, the federal government recorded large budget deficits.

In 1994, in a letter to the American people, Reagan revealed that he was suffering from Alzheimer's disease. He died on June 5, 2004, in Los Angeles, CA, from complications of the disease.

George Herbert Walker Bush (1989-93), 41st president, Republican, was born on June 12, 1924, in Milton, MA, the son of Prescott and Dorothy Walker Bush. He served as a U.S. Navy pilot in World War II. After graduating from Yale University in 1948, he settled in Texas, where, in 1953, he helped found an oil company. After losing a bid for a U.S. Senate seat in 1964, he was elected to the House of Representatives in 1966 and 1968. He lost a second U.S. Senate race in 1970. Subsequently he served as U.S. ambassador to the United Nations (1971-73), headed the U.S. Liaison Office in Beijing (1974-75), and was director of the CIA (1976-77).

Following an unsuccessful bid for the 1980 Republican presidential nomination, Bush became Ronald Reagan's running mate, and served as vice president from 1981 to 1989.

In 1988, Bush gained the GOP presidential nomination and defeated Michael Dukakis. Bush took office faced with U.S. budget and trade deficits, and insolvent U.S. savings and loan institutions. He faced a severe budget deficit annually, struggled with military cutbacks, and vetoed abortion-rights legislation. In 1990 he agreed to a budget deficit-reduction plan that included tax hikes.

Bush supported Soviet reforms, Eastern Europe democratization, and good relations with Beijing. In Dec. 1989, Bush sent troops to Panama; they overthrew the government and captured military dictator Gen. Manuel Noriega.

Bush reacted to Iraq's Aug. 1990 invasion of Kuwait by sending U.S. forces to the Persian Gulf area and assembling a UN-backed coalition, including NATO and Arab League members. After a month-long air war, in Feb. 1991, Allied forces retook Kuwait in a 4-day ground assault. The quick victory, with extremely light casualties on the U.S. side, gave Bush at that time one of the highest presidential approval ratings in history. His popularity plummeted by the end of 1991, however, as the economy slipped into recession. He was defeated by Bill Clinton in the 1992 election. Bush's oldest son, George W. Bush, was elected president in 2000 and served two terms. In 2005, Bush led campaigns with former Pres. Clinton to raise money for the victims of the Indian Ocean tsunami and Hurricane Katrina.

William Jefferson (Bill) Clinton (1993-2001), 42nd president, Democrat, was born Aug. 19, 1946, in Hope, AR, son of William Blythe and Virginia Cassidy Blythe, and was named William Jefferson Blythe IV. Blythe died in an auto accident before his son was born. His widow married Roger Clinton, whose last name Bill Clinton then took.

Clinton earned his undergraduate degree from Georgetown Univ. in 1968. He then attended Oxford University for 2 years as a Rhodes scholar. During that time he legally avoided the draft and possible service in Vietnam, according to some critics by misleading his draft board. Clinton worked on George McGovern's 1972 presidential campaign and earned a degree from Yale Law School in 1973. He taught at the Univ. of Arkansas law school until 1976, when he was elected state attorney general. In 1978 he was elected governor, becoming the nation's youngest at the time. Though defeated for reelection in 1980, he was returned to office several times thereafter. He married law school classmate Hillary Rodham in 1975; they had a daughter, Chelsea, in 1980.

Clinton won most of the 1992 presidential primaries, moving his party toward the center as he tried to broaden his appeal; as the Democratic nominee he defeated Pres. George H. W. Bush and Reform Party candidate Ross Perot in the Nov. election. In 1993, Clinton won passage of a measure to reduce the federal

budget deficit and won congressional approval of the North American Free Trade Agreement. However, his administration's plan for major health care reform legislation died in Congress. After 1994 midterm elections, Clinton faced Republican majorities in both houses of Congress. He followed a centrist course at home, sent troops to Bosnia to help implement a peace settlement, and cultivated relations with Russia and China.

Though accused of improprieties in his involvement in the Whitewater Development Corp., an Arkansas land-development venture, Clinton won reelection with 49% of the vote in 1996. Independent prosecutor Kenneth Starr did not find substantial and credible evidence of impeachable wrongdoing related to Whitewater, but did report evidence of an affair between Clinton and former White House intern Monica Lewinsky. In 1998, Clinton became only the 2nd U.S. president to be impeached by the House of Representatives. He was charged with perjury and obstruction of justice in an attempted cover-up of the affair but was acquitted by the Senate the following year.

In 1999 the United States joined other NATO nations in an aerial bombing campaign that induced Serbia to withdraw troops from Kosovo, where they had been terrorizing ethnic Albanians. In 2000 Clinton became the first president since the Vietnam War to visit Vietnam. On Clinton's last full day in office, the Whitewater investigation ended in a deal; Clinton admitted having given false testimony about his affair with Lewinsky and agreed to give up his law license for 5 years and pay a \$25,000 fine.

Both before and after leaving office, Clinton campaigned for Democratic candidates he favored, including his wife, who was elected in 2000 to the U.S. Senate from New York. Reelected in 2005, Hillary Clinton ran unsuccessfully for the 2008 Democratic presidential nomination but was subsequently named secretary of state by her chief rival, Pres. Barack Obama. In 2005 Bill Clinton founded the Clinton Global Initiative, to promote practical solutions to global problems. Later named UN special envoy to Haiti, he co-chaired a national recovery commission after the nation was devastated by an earthquake in Jan. 2010.

George Walker Bush (2001-09), 43rd president, Republican, was born on July 6, 1946, in New Haven, CT. He was the first of six children born to George Herbert Walker Bush and his wife, the former Barbara Pierce, a close collateral descendant of Pres. Franklin Pierce. Bush was the first son of a former president to occupy the White House since John Quincy Adams took office in 1825.

Bush grew up in Midland and Houston, TX. He attended Andover Prep in Massachusetts and then Yale Univ., graduating in 1968. Eligible for the draft and possible Vietnam service, he fulfilled his military service requirement with the Texas Air National Guard. After earning a master's degree from Harvard Business School, he returned to Midland in 1975 and went into the oil business. Two years later he married Laura Welch, a librarian; in 1981 she gave birth to twin daughters, Barbara and Jenna. Bush lost a race for Congress in 1978 and returned to the oil business, but success proved elusive. After aiding in his father's winning 1988 presidential campaign, he became managing partner of the Texas Rangers baseball team. He ran for governor in 1994, defeating popular incumbent Ann Richards, and won reelection by a landslide in 1998.

Campaigning as a "compassionate conservative" in 2000, Bush won the Republican presidential nomination and, with running mate Dick Cheney, defeated the Democratic ticket led by Vice Pres. Al Gore, in one of the closest-ever U.S. presidential elections. The victory was not sealed until a mid-Dec. ruling by the U.S. Supreme Court left Florida's crucial electoral votes in Bush's column.

In May 2001, Bush won approval from Congress for a major tax cut package projected to amount to \$1.35 tril over the next decade. After the Sept. 11, 2001, terrorist attacks, Bush's presidency was transformed as he declared a "war against terrorism." By Dec. 2001 the U.S. military, aided by forces from other nations, had deposed Afghanistan's Taliban regime, which was sheltering al-Qaeda terrorists. The new Afghan government was weak, however, and unable to maintain control over much of the countryside. In Mar. 2003, the U.S., aided mainly by UK military forces, launched an air and ground war against Iraq and deposed Saddam Hussein. However, no evidence was found that his regime had developed weapons of mass destruction, the key rationale for the war. A new Iraqi government was formed in

June 2004, but insurgent violence and U.S. troop casualties continued.

Bush was reelected in Nov. 2004 with 51% of the popular vote, but his popularity declined in his 2nd term. His push for Social Security reform failed in Congress, and his administration was criticized for its response to Hurricane Katrina in Aug.-Sept. 2005. He also failed to win passage of a broad immigration proposal for granting legal status to many illegal immigrants. But the Senate confirmed his nominees for chief justice and associate justice of the Supreme Court, John G. Roberts Jr., 2005, and Samuel A. Alito Jr., 2006. In 2006, he exercised his first veto, preventing legislation that would have eased restrictions on federal funding for stem cell research.

After Democrats won majorities in House and Senate 2006 midterm elections, Bush accepted the resignation of Defense Sec. Donald Rumsfeld, a target of widespread criticism over the Iraq war. Two months later, he announced a “surge” in U.S. troop strength in Iraq, from around 130,000 to 160,000 by mid-2007. A sharp drop in casualties ensued, aided also by a shift in alliances. But the Taliban was gaining strength in Afghanistan and Pakistan. The administration was also damaged by revelations of prisoner abuse and attracted controversy after memos surfaced that had given legal sanction to extreme interrogation methods. U.S. military deaths in Iraq passed the 4,000 mark in Mar. 2008. North Korea emerged as an increasing threat, announcing that it would resume operations at its main nuclear reactor.

The U.S. economy fell into recession in Dec. 2007; Bush and congressional leaders responded with a \$168 billion stimulus plan that provided rebates for taxpayers. The cost of oil passed \$140 a barrel and gas prices passed \$4 a gallon in summer 2008. Problems in home finance and credit markets triggered a deeper crisis in Sept. The Treasury Dept. announced a bailout of mortgage finance firms Fannie Mae and Freddie Mac. Lehman Bros. filed for bankruptcy, while the Federal Reserve rescued insurance giant AIG with a line of credit reaching \$144 billion. A Bush administration-backed plan to buy up to \$700 billion in devalued mortgage-related assets, opposed by many Republicans and rejected by Congress in late Sept., cleared Congress Oct. 3, after a severe stock market plunge bolstered support. The economic crisis added to Bush’s unpopularity and contributed to the Nov. defeat of GOP presidential candidate Sen. John McCain (AZ).

After leaving office, Bush kept a low political profile, but he partnered with Pres. Bill Clinton in Jan. 2010 to establish the Clinton Bush Haiti Fund, a nonprofit organization established to raise funds for earthquake relief efforts in Haiti. A book in which he discusses his own presidential decisions was set for publication in Nov. 2010.

Barack Hussein Obama (2009-), 44th president, Democrat, was born Aug. 4, 1961, in Honolulu, HI. His father, Barack Obama Sr., was a black Kenyan, and his mother, Stanley Ann Dunham, was a white American from Kansas. By the time Obama was 6, his parents had divorced and his mother had married an Indonesian man and moved to Indonesia.

Returning to Hawaii, he lived with his grandparents while attending high school. He received a bachelor’s degree (1983) from Columbia Univ., worked from the mid-1980s as a community organizer in impoverished areas of Chicago’s South Side, and earned a law degree (1991) from Harvard Univ., where he was elected the first African American president of the law review. He then practiced civil rights law in Chicago and taught at the Univ. of Chicago Law School. In 1992, he married attorney and later hospital administrator Michelle Robinson (1964-). They have 2 daughters, Malia (1998-) and Natasha (Sasha) (2001-).

Obama won election to the Illinois state senate in 1996 and was twice reelected. He failed to capture the Democratic nomination for a U.S. House seat in 2000, but won the party’s nomination for a U.S. Senate seat in a Mar. 2004 primary. Already known to many through his 1995 memoir, *Dreams From My Father: A Story of Race and Inheritance*, he gained national attention with his keynote address at the Democratic National Convention in July. In Nov. he easily defeated his Republican opponent, conservative radio talk show host Alan Keyes, also an African American. Obama became the lone African American in the Senate, and only the 3rd since Reconstruction. His 2nd book, *The Audacity of Hope: Thoughts on Reclaiming the American Dream* (2006), rose to the top of best-seller lists.

In early 2007 Obama announced his candidacy for the 2008 Democratic presidential nomination. He stressed his longstanding opposition to the Iraq war and determination to bring change to Washington and transcend partisanship. He made good use of the Internet as a means of raising funds and gathering supporters, and gained momentum with a 1st-place finish in the Jan. 2008 Iowa caucuses, ahead of the expected front-runner Sen. Hillary Clinton (NY), among others. On “Super Tuesday,” Feb. 5, with the field narrowed to those two candidates, he emerged with a slight lead in pledged delegates. He went on to win a string of 11 caucuses and primaries. Before securing the nomination, he repudiated inflammatory racial remarks by his longtime former pastor, the Rev. Jeremiah Wright, an African American, in a speech on race relations. Despite later wins by Clinton, Obama earned enough delegates to clinch the nomination in advance of the party convention in Aug. His choice for vice president, Sen. Joe Biden (DE), was nominated as his running mate.

In the fall campaign, Republican nominee Sen. John McCain (AZ) and his vice-presidential pick, Alaska Gov. Sarah Palin, portrayed Obama as inexperienced and devoted to higher taxes and big government. Obama drew strength from his smooth-running campaign organization and fundraising apparatus, the unpopularity of the Iraq war and Republican Pres. George W. Bush, and an economic crisis that came to dominate the campaign. He won on Nov. 4, with 53% of the vote, the biggest proportion for a Democratic national ticket in 44 years, to become the nation’s first-ever African American president.

As president-elect, Obama named a new economic team, including Timothy Geithner for treasury secretary, and chose former rival Hillary Clinton for secretary of state. These and most of his other initial cabinet choices were confirmed. As president, Obama moved promptly to signal his change of direction. For example, he lifted abortion restrictions on federal funding for programs abroad and reversed certain Bush-era policies on interrogation of detainees suspected of terrorism. He also mandated that the U.S. military detention facility at Guantánamo Bay be closed within a year (a deadline that was not met). In Apr. 2009 his attorney general, Eric Holder, named a special prosecutor to determine whether CIA personnel had violated legal interrogation guidelines.

In an effort to revive the economy, the administration won passage, in Feb. 2009, of a \$787 bil stimulus package providing for tax cuts and some \$575 bil in new spending. The administration also unveiled a \$2 tril financial rescue plan and won congressional approval for a \$3.6 tril fiscal 2010 budget plan. The country pulled out of recession in 3rd quarter 2009, but economic growth fell short of expectations and unemployment continued to be high.

Democrats lost their filibuster-proof Senate majority after a Jan. 2010 special election in Massachusetts, and Congress remained sharply divided along partisan lines. With support from Democrats, Obama gained some important legislative victories. He won confirmation of two nominees to the Supreme Court, Sonia Sotomayor, in 2009, and Elena Kagan, in 2010. He also secured passage, in Mar. 2010, of his top priority, a massive, historic health care reform bill aimed in part at extending coverage to millions of uninsured Americans. But that measure, which got no Republican votes, was criticized, especially on the right, as costly and bureaucratic, and many on the left found fault with its lack of a public option.

Soon after taking office, Obama announced that by Aug. 31, 2010, all U.S. combat units would leave Iraq, where insurgency was on the decline; this deadline was met, although some 50,000 U.S. troops remained and the situation continued to be volatile. In Dec. 2009, Obama announced a major increase in U.S. troop levels in Afghanistan, to fight a growing Taliban insurgency. This was accompanied by a plan to withdraw troops starting in July 2011. In foreign policy generally, Obama sought to reach out to other countries, including hostile nations such as Iran and North Korea, and bolster America’s image abroad, which many regarded as having been damaged under the Bush administration. Obama was awarded the 2009 Nobel Peace Prize for “extraordinary efforts to strengthen international diplomacy and co-operation between peoples.”

Though he entered office with approval ratings of 65%, according to one poll, Obama came under attack before long, especially by Tea Party activists, for high budget deficits and what some saw as an undue expansion of government. More widely, the administration was blamed for failing to revive the economy and get unemployment rates down. By mid-summer 2010, only about 45% of those polled approved of Obama’s performance.

Note: Pres. Buchanan was unmarried. (1) Born in London, father a MD citizen. (2) Adopted son. (3) Pres. Reagan’s first wife, whom he later divorced, was Jane Wyman. They had a daughter who died in infancy, a daughter who lived past infancy, and an adopted son.

First Lady Michelle Obama

Michelle Robinson Obama was born in Chicago, IL, Jan. 17, 1964. She graduated from Princeton University, 1985, earned a law degree from Harvard University, 1988, and joined Chicago law firm Sidley & Austin. She served as assistant commissioner of planning and development for Chicago, then as founding executive director of the Chicago chapter of Public Allies, an AmeriCorps program. She began working for the Univ. of Chicago in 1996, first as associate dean of student services, then as the Univ. of Chicago Medical Center’s VP of community and external affairs. Michelle and Barack Obama were married in 1992; in 1998, their daughter Malia was born, followed by Natasha (Sasha) in 2001.

As First Lady, Michelle Obama planned to focus on issues related to supporting military families, helping women balance career and family, encouraging national service, and promoting the arts and arts education. In Feb. 2010, she launched the “Let’s Move!” campaign, which aimed to end the U.S. childhood obesity epidemic within a generation.

Presidential Facts

Oldest president: Ronald Reagan, who was 77 when he left office

Youngest president: Theodore Roosevelt, who was 42 when sworn in after McKinley's death

Youngest person elected president: John F. Kennedy, who was 43 when elected in 1960

Tallest president: Abraham Lincoln, who was 6 feet, 4 inches

Shortest president: James Madison, who was 5 feet, 4 inches

Heaviest president: William Howard Taft, who was 332 pounds in 1911

First president to live in the White House: John Adams, who moved there in 1800

First president inaugurated in Washington, DC: Thomas Jefferson, in 1801

First president whose parents were immigrants: Andrew Jackson; his parents immigrated from Ireland in 1765

First president born a U.S. citizen: Martin Van Buren, in Kinderhook, NY, 1782

First president born outside the original colonies: Abraham Lincoln, in Kentucky, 1809

Most common presidential home state: Virginia, with 8 presidents

First president of all 50 states: Dwight D. Eisenhower, first inaugurated in 1953

First president born in the 20th century: John F. Kennedy, in 1917

First president to be photographed while in office: James K. Polk, in 1849

First president to have a telephone in the White House: Rutherford B. Hayes, in 1879

First president to address the nation on radio: Warren G. Harding, in 1922

First president to appear on TV: Franklin D. Roosevelt, at opening ceremonies for the 1939 World's Fair

First president to give a live, televised news conference: John F. Kennedy, in 1961

First president to hold an Internet chat: Bill Clinton, in 1999

Only presidents who lost the popular vote while winning election: John Quincy Adams, in 1824 (elected by the House after general election failed to produce a majority); Rutherford B. Hayes, in 1876; Benjamin Harrison, in 1888; George W. Bush, in 2000. Popular vote totals before 1824 are unknown.

Only presidents chosen by the House of Representatives: Thomas Jefferson (1st term) and John Quincy Adams

Most common Alma Mater (undergraduate): Harvard, with 5 presidents

Only left-handed presidents: James Garfield, Herbert Hoover, Harry Truman, Gerald Ford, Ronald Reagan, George H. W. Bush, Bill Clinton, and Barack Obama

Only Catholic elected president: John F. Kennedy; the most common religious affiliations have been Episcopalian (11) and Presbyterian (7)

Only bachelor presidents: James Buchanan, who never married, and Grover Cleveland, who married Frances Folsom in the White House in 1886

Only divorced president: Ronald Reagan; divorced from actress Jane Wyman in 1948, married Nancy Davis in 1952

Presidents who died on July 4: John Adams and Thomas Jefferson (both 1826) and James Monroe (1831)

Only president buried in Washington, DC: Woodrow Wilson, who was interred at the Washington National Cathedral

Presidential Libraries

Presidential libraries are coordinated by the National Archives and Records Administration (www.archives.gov/presidential-libraries). Materials for presidents before Herbert Hoover are held by private institutions. Under the Presidential Records Act, presidential records are not available to the public for the first 5 years following the end of an administration. The George W. Bush Library and Museum is scheduled to open to the public in 2013; his records will become subject to FOIA requests on Jan. 20, 2014.

Presidential Impeachment in U.S. History

The U.S. Constitution provides for impeachment and removal from office of federal officials on grounds of "Treason, Bribery, or other high Crimes and Misdemeanors" (Article II, Sect. 4). Impeachment is the bringing of charges by the House of Representatives. It is followed by a Senate trial; a two-thirds majority vote of Senators present is needed for conviction and removal from office.

In 1868, **Andrew Johnson** became the first president impeached by the House, for his removal of Sec. of War

Edwin M. Stanton without first notifying the Senate. He was tried but not convicted. In 1974, impeachment articles against Pres. **Richard Nixon**, in connection with the Watergate scandal, were adopted by the House Judiciary Committee. He resigned Aug. 9, and the House accepted the committee report without taking further action. In 1998, Pres. **Bill Clinton** was impeached by the House in connection with covering up a sexual relationship with former White House intern Monica Lewinsky. He was tried in the Senate in 1999 and acquitted.

James Harris (Socialist Workers)	2,424	<0.01	None of These Candidates (Nevada)	6,267	<0.01
Total votes cast				131,313,820	
Voting age population, Nov. 2008				225,499,000	
Percentage casting vote for president				58.23%	

Note: Party designations vary from one state to another; party label listed may not necessarily represent a political party organization. Vote totals for the candidates listed above include any write-in votes they received.

The Electoral College

The president and the vice president are the only elective federal officials not chosen by direct vote of the people. They are elected by the members of the Electoral College, an institution provided for in the U.S. Constitution.

On presidential election day, the first Tuesday after the first Monday in Nov. of every 4th year, each state chooses as many electors as it has senators and representatives in Congress. In 1964, for the first time, as provided by the 23rd Amendment to the Constitution, the District of Columbia voted for 3 electors. Thus, with 100 senators and 435 representatives, there are 538 members of the Electoral College, with a majority of 270 electoral votes needed to elect the president and vice president.

Although political parties were not part of the original plan created by the Founding Fathers, today political parties customarily nominate their lists of electors at their respective state conventions. Some states print names of the candidates for president and vice president at the top of the Nov. ballot; others list only the electors' names. In either case, the electors of the party receiving the highest vote are elected. Two states, Maine and Nebraska, allow for proportional allocation.

The electors meet on the first Monday after the 2nd Wednesday in Dec. in their respective state capitals or in some other place prescribed by state legislatures. By long-established custom, they vote for their party nominees, although this is not required by federal law; some states do require it.

The Constitution requires electors to cast a ballot for at least one person who is not an inhabitant of that elector's home state. This ensures that presidential and vice presidential candidates from the same party will not be from the same state. (In 2000, Republican vice presidential nominee Dick Cheney changed his voter registration to Wyoming, where he grew up and which he'd once represented in Congress, from Gov. George W. Bush's home state of Texas.) Also, an elector cannot be a member of Congress or hold federal office.

Certified and sealed lists of the votes of the electors in each state are sent to the president of the U.S. Senate, who then opens them in the presence of the members of the Senate and House of Representatives in a joint session held in early Jan., and the electoral votes of all the states are then officially counted.

If no candidate for president has a majority, the House of Representatives chooses a president from the top 3 candidates, with all representatives from each state combining to cast one vote for that state. The House decided the outcome of the 1800 and 1824 presidential elections. If no candidate for vice president has a majority, the Senate chooses from the top 2, with the senators voting as individuals. The Senate chose the vice president following the 1836 election.

Under the electoral college system, a candidate who fails to be the top vote getter in the popular vote still may win a majority of electoral votes. This happened in the elections of 1876, 1888, and 2000.

Electoral Votes for President, 2008

Electoral votes based on the 2000 Census were in force beginning with the 2004 elections.

Voter Turnout in Presidential Elections, 1932-2008

2004	John Kerry	John Edwards	2004	George W. Bush*	Richard Cheney
2008	Barack Obama*	Joseph Biden	2008	John McCain	Sarah Palin

(1) Douglas and Johnson were nominated at the Baltimore convention. An earlier convention in Charleston, SC, failed to reach a consensus and resulted in a split in the party. The Southern faction of the Democrats nominated John Breckinridge for president and Joseph Lane for vice president. (2) Died Oct. 30; replaced on ballot by Nicholas Butler. (3) Chosen by Democratic National Committee after Thomas Eagleton withdrew because of controversy over past treatments for depression.

Third-Party and Independent Presidential Candidates

Although many “third-party” candidates or independents have pursued the presidency, only 10 of these from 1832 to 2000 have polled more than a million votes. In most elections since 1860, fewer than one vote in 20 has been cast for a third-party candidate. Major vote getters among third-party and independent candidates include James B. Weaver (People’s Party), 1892; former Pres. Theodore Roosevelt (Progressive Party), 1912; Robert M. La Follette (Progressive Party), 1924; George C. Wallace (American Independent Party), 1968; and H. Ross Perot, as an independent in 1992 and with the Reform Party in 1996. In these 6 elections non-major-party candidates combined polled at least 10% of the vote.

Roosevelt outpolled the Republican candidate, William Howard Taft, in 1912, capturing 28% of the popular vote and 88 elec-

toral votes. In 1948, Strom Thurmond was able to capture 39 electoral votes (from 5 Southern states); however, all third parties received only 5.75% of the popular vote in the election. Twenty years later, George Wallace’s popularity in the same region allowed him to get 46 electoral votes and 13.5% of the popular vote.

In 1992 Perot captured 19% of the popular vote; however, he did not win a single state. In 1996, Perot won 8% of the popular vote; all third-party candidates combined won just over 10%. In 2000, Ralph Nader won about 3% of the vote.

Despite the difficulty in winning the presidency, independent and third-party candidates often bring attention to their most prominent issues. They can also affect the outcome between major-party candidates.

Notable Third Party and Independent Campaigns by Year

Party	Presidential nominee	Year	Issues	Strength in
Anti-Masonic.	William Wirt.	1832	Against secret societies and oaths.	PA, VT
Liberty.	James G. Birney	1844	Anti-slavery.	North
Free Soil.	Martin Van Buren	1848	Anti-slavery.	NY, OH
American (Know-Nothing)	Millard Fillmore	1856	Anti-immigrant	Northeast, South
Greenback	Peter Cooper	1876	For “cheap money,” labor rights	National
Greenback	James B. Weaver	1880	For “cheap money,” labor rights	National
Prohibition	John P. St. John	1884	Anti-liquor	National
People’s (Populists)	James B. Weaver	1892	For “cheap money,” end of national banks.	South, West
Socialist	Eugene V. Debs	1900-12; 1920	For public ownership	National
Progressive (Bull Moose)	Theodore Roosevelt	1912	Against high tariffs	Midwest, West
Progressive	Robert M. La Follette	1924	Farmer and labor rights	Midwest, West
Socialist	Norman Thomas	1928-48	Liberal reforms	National
Union	William Lemke	1936	Anti-New Deal.	National
States’ Rights (Dixiecrats)	Strom Thurmond.	1948	For states’ rights.	South
Progressive	Henry A. Wallace	1948	Anti-Cold War	NY, CA
American Independent.	George C. Wallace	1968	For states’ rights.	South
American	John G. Schmitz	1972	For “law and order”.	Far West, OH, LA
None (independent)	John B. Anderson	1980	A 3rd choice	National
None (independent)	H. Ross Perot	1992	Federal budget deficit.	National
Reform	H. Ross Perot	1996	Deficit; campaign finance	National
Green, independent	Ralph Nader	2000-08	Corporate power; domestic priorities	National

2008	Barack H. Obama (D)	69,498,459	365	John McCain (R)	59,948,283	173

*1800—Elected by House of Representatives because of tied electoral vote. 1824—Elected by House of Representatives because no candidate had polled a majority. By 1824, the Democratic Republicans had become a loose coalition of competing political groups. By 1828, the supporters of Jackson were known as Democrats, and the John Q. Adams and Henry Clay supporters as National Republicans. 1872—Greeley died Nov. 29, 1872. His electoral votes were split among 4 individuals. 1876—FL, LA, OR, and SC election returns were disputed. Congress in joint session (Mar. 2, 1877) declared Hayes and Wheeler elected president and vice president. 1956—Democrats elected 74 electors, but 1 from Alabama refused to vote for Stevenson. 1960—Sen. Harry F. Byrd (D, VA) received 15 electoral votes. 1972—John Hospers of California received 1 vote from an elector of Virginia. 1976—Ronald Reagan of CA received 1 vote from an elector of Washington. 1988—Sen. Lloyd Bentsen (D, TX) received 1 vote from an elector of West Virginia. 2000—One Gore elector from Washington, DC, abstained. Nader was listed as “Independent” on the ballot in some states; he was not on the ballot in all states. 2004—One Minnesota elector voted for VP candidate John Edwards for both president and vice president.

Presidential Election Results by State and County

All results are official. Results for Connecticut, Maine, Massachusetts, and Rhode Island are for selected cities or towns. All totals statewide.
Source: Alaska district results, Alaska Div. of Elections; New Hampshire and Vermont county results, respective secretary of state's office; State totals and all other state results, Federal Election Commission.

Cabinet-Level Departments

Department of State

2201 C St. NW, 20520; www.state.gov

Conducts U.S. foreign policy. The Foreign Service protects American citizens and interests through embassies in some 180 countries under eight geographic bureaus. Maintains contact with foreign governments, negotiates agreements and treaties, and supports U.S. foreign trade. Promotes democracy, international security, human rights—including issues related to AIDS, human trafficking, war crimes, and migration—and arms and narcotics control. Represents the nation in international organizations. Issues passports to U.S. citizens and visas to foreigners. **Budget** (includes State Dept. and other international programs): \$37.1 bil (2009); \$51.0 bil (est. 2010); \$53.8 bil (est. 2011).

Department of Justice

950 Pennsylvania Ave. NW, 20530; www.justice.gov

Provides means for the enforcement of federal laws and investigating violations thereof; furnishes legal counsel in cases involving the federal government and interprets laws relating to the activities of other federal departments; supervises federal penal institutions. The Attorney General and Office of Legal Counsel render legal advice, upon request, to the president and department heads. The Solicitor General conducts all suits brought before the U.S. Supreme Court in which the federal government is concerned. The Civil Division represents the U.S. government in many civil or criminal matters. The 93 U.S. Attorneys are the principal litigators in the U.S. and its territories. Divisions for suits regarding antitrust laws, civil rights, civil and criminal statutes, natural resources and the environment, national security, and taxes. **Budget:** \$26.6 bil (2009); \$28.6 bil (est. 2010); \$31.3 bil (est. 2011).

Department of Health and Human Services

200 Independence Ave. SW, 20201; www.hhs.gov

Administers a wide range of programs in the fields of health care and social services that affect nearly all Americans. Medicare and Medicaid provide health care insurance for one in four Americans. The HRSA improves health care services for people who are uninsured, isolated, or medically vulnerable; also oversees organ, tissue, and blood cell donations. The FDA assures the safety of food, drugs, cosmetics, biological products, and medical devices. The CDC monitors and safeguards against disease outbreaks. The NIH supports research projects nationwide and 27 health institutes and centers. The Surgeon General is the nation's chief health educator and leads the U.S. Public Health Service Commissioned Corps. **Budget:** \$761.1 bil (2009); \$812.9 bil (est. 2010); \$900.9 bil (est. 2011).

Note: Fannie Mae and Freddie Mac are government-sponsored enterprises (GSEs).

Department of Transportation

1200 New Jersey Ave. SE, 20590; www.dot.gov

Promotes and develops rapid, safe, efficient, and convenient transportation in the U.S.; monitors and administers assistance to transportation industries; negotiates and implements international transportation agreements. Manages airspace, commercial space transportation, and the movement of hazardous materials. Resolves railroad rate and service disputes and reviews proposed railroad mergers. Analyzes and shares research and statistics to develop and improve transportation through RITA. Develops and enforces regulations on the nation's pipeline transportation system. The Maritime Administration maintains a fleet of cargo ships in reserve for war or national emergencies and commissions officers of the merchant marines. Operates the U.S. portion of the St. Lawrence Seaway between Montreal and Lake Erie. **Budget:** \$69.3 bil (2009); \$74.6 bil (est. 2010); \$75.3 bil (est. 2011).

- Office of Scientific and Technical Information (1 Science.gov Way, Oak Ridge, TN 37830); www.osti.gov

Department of Education

400 Maryland Ave. SW, 20202; www.ed.gov

Works with state agencies and local systems to ensure equal access to all levels of education and seeks to improve the quality of that education through federal support, research programs, and information sharing. Oversees a variety of financial aid distributed through competition, financial needs, or by a set formula. Sets policy goals and initiatives like No Child Left Behind. Conducts research and gathers educational information to disseminate to educators and the general public. **Budget:** \$32.4 bil (2009); \$56.0 bil (est. 2010); \$71.5 bil (est. 2011).

Department of Veterans Affairs

810 Vermont Ave. NW, 20420; www.va.gov

Supports veterans and their families with nationwide programs for health care, financial assistance, and burial benefits. Compensates for disabilities incurred during wartime, provides pensions for veterans with low incomes, education assistance, loan guaranty, and life insurance. Manages America's largest medical education and health professions training program including hospitals, clinics, nursing homes, veterans centers, rehabilitation treatment, readjustment counseling, and home-care programs. Also funds medical research pertaining to veterans issues. Manages 131 National Cemeteries, provides headstones and markers. **Budget:** \$94.9 bil (2009); \$124.0 bil (est. 2010); \$123.8 bil (est. 2011).

Department of Homeland Security

20528 (requires no street address); www.dhs.gov

Provides a unified core for the vast national network of organizations and institutions involved in efforts to secure the U.S., its borders, infrastructure, and major events. Provides funding, intelligence, and training for law enforcement and disaster relief.

Leads and coordinates response teams to natural and man-made emergencies. Directs security for borders, customs, and transportation. Identifies threats, administers the color-coded Homeland Security Advisory System. **Budget:** \$51.6 bil (2009); \$51.6 bil (est. 2010); \$53.7 bil (est. 2011).

CABINETS OF THE U.S.

The U.S. Cabinet and Its Role

The heads of major executive departments of government constitute the Cabinet. This institution, not provided for in the U.S. Constitution, developed as an advisory body out of the desire of presidents to consult on policy matters. Aside from its advisory role, the Cabinet as a body has no formal function and wields no executive authority. Individual members exercise authority as heads of their departments, reporting to the president. The Cabinet meets at times set by the president.

In addition to the heads of federal departments as listed below, the Cabinet commonly includes other officials designated by the president as of Cabinet rank.

The officials so designated by Pres. Barack Obama include Vice Pres. Joseph R. Biden, Council of Economic Advisors Chair Austan Goolsbee, Environmental Protection Agency Administrator Lisa P. Jackson, the Office of Management and Budget Director (vacant as of Oct. 1, 2010), United States Trade Representative Ronald Kirk, United States Ambassador to the United Nations Susan Rice, and Chief of Staff to the President Rahm I. Emanuel.

Members of Pres. Obama’s Cabinet listed in this chapter are as of Oct. 1, 2010.

Secretaries of State

The Department of Foreign Affairs was created by act of Congress on July 27, 1789, and the name changed to Department of State on Sept. 15, 1789.

Secretaries of Defense

The Department of Defense, originally designated the National Military Establishment, was created on Sept. 18, 1947. It is headed by the secretary of defense, who is a member of the president's Cabinet. The departments of the Army, of the Navy, and of the Air Force function within the Defense Department. Since 1947, the secretaries of those departments have not been members of the president's Cabinet.

Attorneys General

The Office of Attorney General was established by act of Congress on Sept. 24, 1789. It officially reached Cabinet rank in Mar. 1792, when the first attorney general, Edmund Randolph, attended his initial Cabinet meeting. The Department of Justice, headed by the attorney general, was created June 22, 1870.

100 MOST POPULOUS U.S. CITIES

Sources: Population: Population Estimates Program, U.S. Census Bureau, U.S. Dept. of Commerce (July 2009); population rank is indicated by figure in parentheses. **Pop. density** specifies the number of persons per square mile (sq mi). **Employment:** Bureau of Labor Statistics, U.S. Dept. of Labor (2009). **Per capita income:** Bureau of Economic Analysis, U.S. Dept. of Commerce; figures apply to MSA (2008). **Mayor** (or other city leaders) and websites: World Almanac research as of mid-2010; subject to change.

Included here are the 100 most populous U.S. cities, according to U.S. Census Bureau estimates released in July 2010. Most data are for the city proper; some statistics, where noted, apply to the whole Metropolitan Statistical Area (MSA). Inc. = Incorporated; est. = Established.

Akron, Ohio

Population: 207,216 (99). **Pop. density:** 3,337. **Pop. change (2000-09):** -4.6%. **Area:** 62.1 sq mi. **Employment:** 96,380 employed; 10.5% unemployed. **Per capita income:** \$37,893; change (2007-08): 2.1%.

Mayor: Donald L. Plusquellic, Democrat

History: Settled 1825; inc. as city 1865; located on Ohio-Erie Canal and is a port of entry; polymer center of the Americas.

Transportation: 1 intl., 1 regional airport; major trucking industry; Conrail, Amtrak; metro transit system. **Communications:** 1 daily newspaper; 6 TV, 8 radio stations. **Medical facilities:** 6 hosp. **Educational facilities:** 1 univ. and college; 57 pub. schools. **Further information:** Greater Akron Chamber, One Cascade Plz., 17th Fl., Akron, OH 44308; www.greaterakronchamber.org; www.ci.akron.oh.us

Albuquerque, New Mexico

Population: 528,497 (34). **Pop. density:** 2,926. **Pop. change (2000-09):** 17.6%. **Area:** 180.6 sq mi. **Employment:** 246,220 employed; 6.7% unemployed. **Per capita income:** \$35,415; change (2007-08): 2.3%.

Mayor: Richard J. Berry, Democrat

History: Founded 1706 by the Spanish; inc. 1890.

Transportation: 1 intl. airport; 1 railroad; bus system. **Communications:** 1 daily newspaper; 11 TV, 40 radio stations. **Medical facilities:** 19 major hosp. **Educational facilities:** 1 univ., 25 colleges; 132 pub. schools. **Further information:** Albuquerque Convention & Visitors Bureau, P.O. Box 26866, Albuquerque, NM 87125-6866; www.itsatrip.org; www.cabq.gov

Anaheim, California

Population: 337,896 (56). **Pop. density:** 6,910. **Pop. change (2000-09):** 2.8%. **Area:** 48.9 sq mi. **Employment:** 155,117 employed; 11.5% unemployed. **Per capita income:** \$44,519; change (2007-08): 1.6%.

Mayor: Curt Pringle, Republican

History: Founded 1857; inc. 1870; home of Disneyland Resort, the Anaheim Ducks, and the Los Angeles Angels.

Transportation: Amtrak; Metrolink (2 stations), OCTA bus service. **Communications:** 1 daily newspaper; 2 TV, 2 radio stations (MSA). **Medical facilities:** 5 hosp.; 5 medical centers. **Educational facilities:** 11 colleges and trade schools; 65 pub. schools, 33 private schools. **Further information:** City Hall, 200 South Anaheim Blvd., Ste. 733, Anaheim, CA 92805; www.anaheimoc.org; www.anaheim.net

Anchorage, Alaska

Population: 286,174 (66). **Pop. density:** 169. **Pop. change (2000-09):** 9.9%. **Area:** 1,697 sq mi. **Employment:** 144,303 employed; 6.6% unemployed. **Per capita income:** \$47,205; change (2007-08): 6.0%.

Mayor: Dan Sullivan, Republican

History: Founded 1914 as a construction camp for railroad; HQ of Alaska Defense Command, WWII; severely damaged in earthquake, 1964; current population center of Alaska.

Transportation: 1 intl., 1 regional airport, 2 seaplane bases, 2 airfields; 1 railroad; transit system; 1 port. **Communications:** 1 daily newspaper; 13 TV, 25 radio stations. **Medical facilities:** 5 hosp. **Educational facilities:** 2 univ., 8 trade schools/colleges; 96 pub. schools. **Further information:** Anchorage Chamber of Commerce, 1016 W. 6th Ave., Ste. 303, Anchorage, AK, 99501; www.anchoragechamber.org; www.muni.org

Arlington, Texas

Population: 380,084 (49). **Pop. density:** 3,967. **Pop. change (2000-09):** 14.1%. **Area:** 95.8 sq mi. **Employment:** 189,711 employed; 7.3% unemployed. **Per capita income:** \$41,667; change (2007-08): 1.0%.

Mayor: Robert N. Cluck, Republican

History: Settled in 1840s; inc. 1884.

Transportation: 1 muni. airport; freight railways. **Communications:** 2 TV, 1 radio station. **Medical facilities:** 7 hosp.

Educational facilities: 1 univ., 8 colleges and trade schools; 74 pub. schools. **Further information:** Arlington Chamber of Commerce, 505 E. Border St., Arlington, TX 76010; www.arlingtontx.com; www.ci.arlington.tx.us

Arlington, Virginia

Population: 217,483 (95). **Pop. density:** 8,397. **Pop. change (2000-09):** 14.8%. **Area:** 25.9 sq mi. **Employment:** NA. **Per capita income:** \$56,824; change (2007-08): 2.0%.

Chairman: Jay Fiset, Democrat

History: Originally part of the U.S. capital, the area west of the Potomac was returned to Virginia in 1846; known as Alexandria until 1920, when the county was renamed Arlington.

Transportation: 1 natl. airport, 2 intl. airports nearby; Metro connecting with Washington, DC; VA Railway Express connecting with outer suburbs; Amtrak. **Communications:** 21 TV, 44 radio stations. **Medical facilities:** 1 major hosp.; numerous urgent care centers. **Educational facilities:** 5 univ., 5 coll. and trade schools; 35 pub. schools. **Further information:** Arlington County Government, 2300 Clarendon Blvd., Arlington, VA 22201; www.arlingtonvirginia.com; www.arlingtonva.us

Atlanta, Georgia

Population: 540,921 (33). **Pop. density:** 4,107. **Pop. change (2000-09):** 29.2%. **Area:** 131.7 sq mi. **Employment:** 213,241 employed; 10.3% unemployed. **Per capita income:** \$38,336; change (2007-08): -1.0%.

Mayor: Kasim Reed, Democrat

History: Founded as Terminus 1837; renamed Atlanta 1845; inc. 1847; played major role in Civil War; became permanent state capital 1877; birthplace of civil rights movement; host to 1996 Centennial Olympic Games.

(1) City rankings as determined by 2009 Census Bureau estimates; race and Hispanic origin percentages are based on 2000 Census figures. (2) Persons who, instead of choosing a race listed in the questionnaire, filled in a designation under "some other race."

STATES AND OTHER AREAS OF THE U.S.

Sources: **Population:** U.S. Commerce Dept., Bureau of the Census—Census 2000: April 1, 2000, and July 2009 est. **Area:** Bureau of the Census, Geography Division. **Acres forested:** Agriculture Dept., Forest Service. **Chief airports:** Transportation Dept., Federal Aviation Admin. **Chief manuf. goods:** Bureau of the Census, Manufacturing and Construction Division. **Chief crops and Livestock:** Agriculture Dept., Natl. Agricultural Stat. Service. Many states do not separately report broiler or hog/pig stats. **Lumber production:** Bureau of the Census, Industry Division. **Nonfuel minerals:** Dept. of Interior, Office of Mineral Information. **Commercial fishing:** Commerce Dept., Natl. Marine Fisheries Service. **Gross state product and Per capita personal income:** Commerce Dept., Bureau of Economic Analysis. **Sales tax:** Fed. of Tax Admin. **Employment distribution and Unemployment:** Labor Dept., Bureau of Labor Statistics. **New private housing:** Bureau of the Census, Residential Construction Branch. **Finance:** Federal Deposit Insurance Corp. **Lottery figures** (not all states have a lottery): North American Assn. of State and Provincial Lotteries, for local fiscal year. **Federal employees:** Labor Dept., Office of Personnel Management. **Energy:** Energy Dept., Energy Information Administration. Other information from sources in individual states. Some data on Outlying U.S. Areas and Other Islands provided by the CIA World Factbook. For information about tourism earnings, see Transportation and Tourism.

Note: Pop. density is for land area only. Categories under racial distribution may not add up to 100% due to rounding. Distribution for Native Amer./AK (Native Americans and Native Alaskans) includes Eskimo and Aleut. **Hispanic population** may be of any race and is dispersed among racial categories, besides being listed separately. Chief airports had 500,000+ boardings in 2009. Nonfuel mineral values for some states exclude small amounts to avoid disclosing proprietary data. Categories under employment distribution are nonfarm only and are not all-inclusive. Commercial bank and savings institution figures are for FDIC-insured institutions only. Postal Service, TN Valley Auth., and some other agencies are not included in federal govt. numbers. Notable federal facilities marked with an asterisk (*) have been recommended for realignment or closure by the U.S. Dept. of Defense, to be completed by Sept. 15, 2011. Electricity prod. excludes independent power producers; negative power generation denotes that electric power consumed for plant use exceeds gross generation. **Famous Persons lists** may include nonnatives associated with the state as well as persons born there. **Websites** are subject to change and are not endorsed by *The World Almanac*.

Alabama (AL)

Heart of Dixie, Camellia State

People. Population (2009 est.): 4,708,708; rank: 23; net change (2008-09): 0.7%. **Pop. density:** 93.0 per sq mi. **Racial distribution** (2009): 70.9% white; 26.3% black; 1.0% Asian; 0.5% Native Amer./AK; 0.05% Hawaiian/Pacific Islander; 2 or more races, 1.1%. **Hispanic pop.** (any race): 3.2%.

Geography. Total area: 52,419 sq mi; rank: 30. **Land area:** 50,744 sq mi; rank: 28. **Acres forested:** 22.7 mil. **Location:** East South Central state extending N-S from Tenn. to the Gulf of Mexico; E of the Mississippi River. **Climate:** long, hot summers; mild winters; generally abundant rainfall. **Topography:** coastal plains, including Prairie Black Belt, give way to hills, broken terrain; highest elevation, 2,407 ft. **Capital:** Montgomery. **Chief airports:** Birmingham, Huntsville.

Economy. Chief industries: chemicals, electronics, apparel, primary metals, lumber and wood products, food processing, fabricated metals, automotive tires, oil and gas exploration. **Chief manuf. goods:** poultry processing, paper & paperboard, iron & steel, petroleum, automotive tires, aerospace, aluminum, auto body & parts. **Chief crops:** cotton, greenhouse & nursery, hay, peanuts, corn, soy beans. **Livestock** (Dec. 2009): 15.7 mil chickens (excl. broilers), 1.0 bil broilers; (Jan. 2010): 1.28 mil cattle/calves. **Timber/lumber** (est. 2008): 1.8 bil bd. ft; pine, hardwoods. **Nonfuel minerals** (2009 prelim.): \$991 mil; cement (portland), stone (crushed), lime, sand and gravel (construction), cement (masonry). **Commercial fishing** (2008): \$44.3 mil. **Chief port:** Mobile. **Gross state product** (2008): \$170.0 bil. **Sales tax** (2010): 4.0%. **Employment distrib.** (May 2010): 21.1% govt.; 19.2% trade/trans./util.; 12.7% mfg.; 11.3% ed./health; 10.9% prof./bus. serv.; 9.3% leisure/hosp.; 4.9% finance; 5.2% constr.; 1.2% info.; 4.2% other serv. **Unemployment** (2009): 10.1%. **Per cap. pers. income** (2009 prelim.): \$33,096. **New private housing** (2009): 13,266 units/\$1.7 bil. **Commercial banks** (2009): 168; deposits: \$79.6 bil. **Savings institutions** (2009): 15; deposits: \$3.8 bil.

Federal govt. Fed. civ. employees (Mar. 2010): 40,684; **avg. salary:** \$72,911. **Notable fed. facilities:** Redstone Arsenal; Ft. Rucker; Marshall Space Flight Ctr.; Anniston Army Depot; *Maxwell/Gunter AFB; U.S. Corps of Engineers, Mobile.

Energy. Electricity production (2009 kWh by source): coal: 55.3 bil; gas: 11.6 bil; nuclear: 39.7 bil; petroleum: 76 mil; hydroelectric: 11.8 bil; other: 6 mil.

State data. Motto: Audemus Jura Nostra Defendere (We dare defend our rights). **Flower:** Camellia. **Bird:** Yellowhammer. **Tree:** Southern longleaf pine. **Song:** "Alabama." **Entered union:** Dec. 14, 1819; rank: 22nd. **State fair:** no official state fair; regional and county fairs held in Sept. and Oct.

History. Alabama was inhabited by the Creek, Cherokee, Chickasaw, Alabama, and Choctaw peoples when Spanish explorers arrived in the early 1500s. The French made the first permanent settlement at Ft. Louis, 1702, and founded Mobile, 1711. France later gave up the entire region to England under the Treaty of Paris, 1763. Spanish forces took control of the Mobile Bay area, 1780, and it remained under Spanish control until seized by U.S. troops, 1813. Most of present-day Alabama was held by the Creeks until Gen.

Andrew Jackson broke their power, 1814. When Alabama became a state, 1819, black slaves made up about 1/3 of the population. The Indian Removal Act of 1830 forced most remaining Creeks west. The state seceded, 1861, and the Confederate states were organized Feb. 4, at Montgomery, the first capital; the state was readmitted, 1868. Birmingham, founded 1871, became a center for iron- and steel-making. The Montgomery bus boycott, 1955, sparked by Rosa Parks, helped launch the civil rights movement; other confrontations came at Birmingham, 1963, and Selma, 1965. The leading political figure from the 1960s through the '80s, 4-term gov. George Wallace, started as a segregationist but later won with black support. Growth in the auto industry boosted the state economy as the 21st cent. began.

Tourist attractions. First White House of the Confederacy, Civil Rights Memorial, Alabama Shakespeare Festival, in Montgomery; Ivy Green (Helen Keller's birthplace), Tusculumbia; Civil Rights Museum, statue of Vulcan, in Birmingham; Carver Museum, Tuskegee; W. C. Handy Home, Museum, & Library, Florence; Alabama Space and Rocket Center, Huntsville; Moundville State Monument; Pike Pioneer Museum, Troy; USS *Alabama* Memorial Park, Mobile; Russell Cave Natl. Monument, near Bridgeport: a detailed record of occupancy by humans from about 10,000 BCE to 1650 CE.

Famous Alabamians. Hank Aaron, Tallulah Bankhead, Hugo L. Black, Paul "Bear" Bryant, George Washington Carver, Nat King Cole, William C. Handy, Bo Jackson, Helen Keller, Coretta Scott King, Harper Lee, Joe Louis, Willie Mays, John Hunt Morgan, Jim Nabors, Jesse Owens, Condoleezza Rice, George Wallace, Booker T. Washington, Hank Williams.

Alaska (AK)

The Last Frontier (unofficial)

People. Population (2009 est.): 698,473; rank: 47; net change (2008-09): 1.5%. **Pop. density:** 1.2 per sq mi. **Racial distribution** (2009): 70.3% white; 4.2% black; 5.0% Asian; 15.2% Native Amer./AK; 0.7% Hawaiian/Pacific Islander; 2 or more races, 4.7% **Hispanic pop.** (any race): 6.4%.

Geography. Total area: 663,267 sq mi; rank: 1. **Land area:** 571,951 sq mi; rank: 1. **Acres forested:** 126.9 mil. **Location:** NW corner of North America, bordered on E by Canada. **Climate:** SE, SW, and central regions, moist and mild; far north extremely dry. Extended summer days, winter nights, throughout. **Topography:** includes Pacific and Arctic mountain systems, central plateau, and Arctic slope. Mt. McKinley, 20,320 ft, is the highest point in North America. **Capital:** Juneau. **Chief airport:** Anchorage.

Economy. Chief industries: petroleum, tourism, fishing, mining, forestry, transportation, aerospace. **Chief manuf. goods:** petroleum, seafood. **Chief crops:** greenhouse products, barley, oats, hay, potatoes, carrots. **Livestock** (Jan. 2010): 14,500 cattle/calves. **Timber/lumber:** figs. withheld; spruce, yellow cedar, hemlock. **Nonfuel minerals** (2009 prelim.): \$2.5 bil; zinc, gold, lead, silver, sand and gravel

(construction). **Commercial fishing** (2008): \$1.7 bil. **Chief ports:** Anchorage, Dutch Harbor, Kodiak, Juneau, Sitka, Valdez. **Gross state product** (2008): \$47.9 bil. **Sales tax** (2010): none. **Employment distrib.** (May 2010): 26.5% govt.; 19.8% trade/trans./util.; 3.4% mfg.; 12.3% ed./health; 7.6% prof./bus. serv.; 10.2% leisure/hosp.; 4.3% finance; 10.3% constr.; 2.0% info.; 3.4% other serv. **Unemployment** (2009): 8.0%. **Per cap. pers. income** (2009 prelim.): \$42,603. **New private housing** (2009): 916 units/\$195.2 mil. **Commercial banks** (2009): 7; deposits: \$21.7 bil. **Savings institutions** (2009): 2; deposits: \$384 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 13,169; **avg. salary:** \$62,879. **Notable fed. facilities:** Joint Base Elmendorf-Richardson; Ft. Wainwright; *Eilson AFB; Ft. Greely.

Energy. Electricity production (2009 kWh by source): coal: 213 mil; gas: 3.5 bil; petroleum: 1.1 bil; hydroelectric: 1.2 bil.

State data. Motto: North to the future. **Flower:** Forget-me-not. **Bird:** Willow ptarmigan. **Tree:** Sitka spruce. **Song:** "Alaska's Flag." **Entered union:** Jan. 3, 1959; rank: 49th. **State fair** at Palmer, late Aug.-early Sept.

History. Early inhabitants included the Tlingit-Haida and Athabaskan peoples. Ancestors of the Aleut and Inuit (Eskimo) probably arrived from Siberia between 10,000 and 6,000 years ago. Vitus Bering, a Dane sailing for Russia, was the first European to land in Alaska, 1741. Russians, pursuing the fur trade, established a permanent settlement on Kodiak Island, 1784. Sec. of State William H. Seward bought Alaska from Russia for \$7.2 mil in 1867, a bargain some called "Seward's Folly." Discovery of gold in the Klondike region of Canada's Yukon Territory, 1896, triggered an Alaskan gold rush. Alaska became a territory, 1912, and a state, 1959. A huge oil find at Prudhoe Bay, 1968, led to construction of the Trans-Alaska Pipeline, 1974-77. The *Exxon Valdez* supertanker ran aground, 1989, spilling about 11 mil gallons of crude oil; the cleanup cost more than \$2.2 bil. Repeated attempts by Congress members to allow oil and gas drilling in the Arctic National Wildlife Refuge have failed.

Tourist attractions. Inside Passage; Portage Glacier; Mendenhall Glacier; Ketchikan Totems; Glacier Bay Natl. Park and Preserve; Denali Natl. Park, one of N. America's great wildlife sanctuaries, surrounding Mt. McKinley, N. America's highest peak; Mt. Roberts Tramway, Juneau; Pribilof Islands fur seal rookeries; restored St. Michael's Russian Orthodox Cathedral, Sitka; White Pass & Yukon Route railroad; Skagway; Katmai Natl. Park & Preserve.

Famous Alaskans. Tom Bodett, Susan Butler, Ernest Gruening, Jewel (Kilcher), Gov. Tony Knowles, Sydney Laurence, Sarah Palin, Libby Riddles, Jefferson "Soapy" Smith.

Tourist information. Alaska Travel Industry Association, 2600 Cordova St., Ste. 201, Anchorage, AK 99503; 1-800-327-9372; www.travelalaska.com

Arizona (AZ) Grand Canyon State

People. Population (2009 est.): 6,595,778; rank: 14; net change (2008-09): 1.5%. **Pop. density:** 58.1 per sq mi. **Racial distribution** (2009): 86.1% white; 4.4% black; 2.6% Asian; 4.9% Native Amer./AK; 0.2% Hawaiian/Pacific Islander; 2 or more races, 1.8%. **Hispanic pop.** (any race): 30.8%.

Geography. Total area: 113,998 sq mi; rank: 6. **Land area:** 113,635 sq mi; rank: 6. **Acres forested:** 18.7 mil. **Location:** southwestern U.S. **Climate:** clear and dry in the southern regions and northern plateau; high central areas have heavy winter snows. **Topography:** Colorado plateau in the N, containing the Grand Canyon; Mexican Highlands running diagonally NW to SE; Sonoran Desert in the SW. **Capital:** Phoenix. **Chief airports:** Phoenix, Tucson.

Economy. Chief industries: manufacturing, construction, tourism, mining, agriculture. **Chief manuf. goods:** aerospace, semiconductors, navigational instruments, cement, plastics, structural metals, dairy, printing, furniture. **Chief crops:** cotton, grapes, apples, lettuce, hay, potatoes, sorghum, barley, corn, wheat. **Livestock** (Jan. 2010): 930,000 cattle/calves, 65,000 sheep/lambs. **Timber/lumber:** figs. withheld; pine, fir, spruce. **Nonfuel minerals** (2009 prelim.): \$5.4 bil; copper, molybdenum concentrates, sand and gravel (construction), cement (portland), stone (crushed). **Gross state product** (2008): \$248.9 bil. **Sales tax** (2010): 5.6%. **Employment distrib.** (May 2010): 18% govt.; 19.7% trade/

trans./util.; 6.1% mfg.; 13.9% ed./health; 14.1% prof./bus. serv.; 10.9% leisure/hosp.; 6.7% finance; 5.2% constr.; 1.5% info.; 3.8% other serv. **Unemployment** (2009): 9.1%. **Per cap. pers. income** (2009 prelim.): \$32,935. **New private housing** (2009): 14,474 units/\$2.7 bil. **Commercial banks** (2009): 80; deposits: \$77.0 bil. **Savings institutions** (2009): 13; deposits: \$5.2 bil. **Lottery** (2008): total sales: \$472.9 mil; profit: \$144.6 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 40,919; **avg. salary:** \$62,604. **Notable fed. facilities:** *Luke AFB, Davis-Monthan AFB; *Ft. Huachuca; Yuma Proving Grounds.

Energy. Electricity production (2009 kWh by source): coal: 39.5 bil; gas: 12.9 bil; nuclear: 30.7 bil; petroleum: 64 mil; hydroelectric: 6.5 bil; other: 32 mil.

State data. Motto: Ditat Deus (God enriches). **Flower:** Blossom of the Saguaro cactus. **Bird:** Cactus wren. **Tree:** Paloverde. **Song:** "Arizona." **Entered union:** Feb. 14, 1912; rank: 48th. **State fair** at Phoenix, Oct.-early Nov.

History. Paleo-Indians hunted large game in the area at least 12,000 years ago. Anasazi, Mogollon, and Hohokam civilizations lived there c. 300 BCE-1300 CE; Navajo and Apache came c. 15th cent. Marcos de Niza, a Franciscan, and Estevanico, a black former slave, explored, 1539; Spanish explorer Francisco Vásquez de Coronado visited, 1540. Eusebio Francisco Kino, a Jesuit missionary, taught Indians 1692-1711, and left missions. Tubac, a Spanish fort, became the first European settlement, 1752. Spain ceded Arizona to Mexico, 1821. The U.S. took over, 1848, after the Mexican War. The area below the Gila River came from Mexico in the Gadsden Purchase, 1853. Arizona became a territory, 1863. Apache wars ended with Geronimo's surrender, 1886. Arizona became a state, 1912, and grew rapidly after 1960 with a fourfold rise in population over the next 4 decades. Barry Goldwater was a leading conservative voice in the U.S. Senate (1953-65, 1969-87). The border with Mexico is a major gateway for illegal immigration to the U.S. In 2010, the U.S. Justice Dept. challenged a controversial state immigration law, which made it a state crime to be in the U.S. illegally and gave state police the power to make arrests without a warrant if they had reasonable suspicion of an individual's illegal status, as obstructing federal policy.

Tourist attractions. Grand Canyon; Painted Desert; Petrified Forest Natl. Park; Canyon de Chelly; Meteor Crater; London Bridge, Lake Havasu City; Biosphere 2, Oracle; Navajo Natl. Monument.

Famous Arizonans. Bruce Babbitt, Cochise, Alice Cooper, Geronimo, Barry Goldwater, Zane Grey, Carl Hayden, George W. P. Hunt, Helen Jacobs, Bil Keane, Percival Lowell, John McCain, William H. Pickering, John J. Rhodes, Morris Udall, Stewart Udall, Frank Lloyd Wright.

Federal govt. Fed. civ. employees (Mar. 2010): 14,505; **avg. salary**: \$61,919. **Notable fed. facilities**: Little Rock AFB; Pine Bluff Arsenal; Natl. Ctr. for Toxicological Research, Jefferson.

Energy. Electricity production (2009 kWh by source): coal: 25 bil; gas: 1.0 bil; nuclear: 15.2 bil; petroleum: 80 mil; hydroelectric: 4.3 bil.

State data. Motto: Regnat Populus (The people rule). **Flower**: Apple blossom. **Bird**: Mockingbird. **Tree**: Pine. **Song**: "Arkansas." **Entered union**: June 15, 1836; rank: 25th. **State fair** at Little Rock, mid-Oct.

History. Quapaw, Caddo, Osage, Cherokee, and Choctaw peoples lived in the area at the time of European contact. The first European explorers were de Soto, 1541; Marquette and Jolliet, 1673; and La Salle, 1682. French fur trader Henri de Tonty founded the first settlement, 1686, at Arkansas Post. In 1762, the area was ceded by France to Spain, then given back again, 1800, and was part of the Louisiana Purchase, 1803. It was made a territory, 1819, and entered the Union as a slave state, 1836. Arkansas seceded in 1861, after the Civil War began, and was readmitted, 1868. Pres. Eisenhower sent federal troops, 1957, to keep Gov. Orval Faubus from blocking racial integration at Central High School in Little Rock. Wal-Mart, now the world's leading retailer, opened its first store at Rogers, 1962. Elected 5 times as governor, Bill Clinton later served 2 terms in the White House (1993-2001); his presidential library opened, 2004, in Little Rock.

Tourist attractions. Hot Springs Natl. Park (water ranging from 95°F-147°F); Eureka Springs; Ozark Folk Center, Blanchard Caverns, near Mountain View; Crater of Diamonds (only U.S. diamond mine) near Murfreesboro; Toltec Mounds Archeological State Park, Little Rock; Buffalo Natl. River; Mid-America Museum, Hot Springs; Pea Ridge Natl. Military Park; Tanyard Springs, Morrilton; Wiederkehr Wine Village.

Famous Arkansans. Daisy Bates, Dee Brown, Paul "Bear" Bryant, Glen Campbell, Johnny Cash, Hattie Caraway, Wesley Clark, Bill Clinton, "Dizzy" Dean, Orval Faubus, James W. Fulbright, John Grisham, John H. Johnson, Douglas MacArthur, John L. McClellan, James S. McDonnell, Scottie Pippen, Dick Powell, Brooks Robinson, Billy Bob Thornton, Winthrop Rockefeller, Mary Steenburgen, Edward Durell Stone, Sam Walton, Archibald Yell.

California (CA) Golden State

People. Population (2009 est.): 36,961,664; rank: 1; net change (2008-09): 1.0%. **Pop. density**: 237.3 per sq mi. **Racial distribution** (2009): 76.4% white; 6.6% black; 12.7% Asian; 1.2% Native Amer./AK; 0.4% Hawaiian/Pacific Islander; 2 or more races, 2.6%. **Hispanic pop.** (any race): 37.0%.

Geography. Total area: 163,696 sq mi; rank: 3. **Land area**: 155,959 sq mi; rank: 3. **Acres forested**: 32.8 mil. **Location**: western coast of U.S. **Climate**: moderate temperatures and rainfall along the coast; extremes in the interior. **Topography**: long mountainous coastline; central valley; Sierra Nevada on the east; desert basins of the southern interior; rugged mountains of the north. **Capital**: Sacramento. **Chief airports**: Burbank, Fresno, Long Beach, Los Angeles, Oakland, Ontario, Palm Springs, Sacramento, San Diego, San Francisco, San Jose, Santa Ana.

Economy. Chief industries: agriculture, tourism, apparel, electronics, telecommunications, entertainment. **Chief manuf. goods**: petroleum, aerospace, precision instruments, semiconductors, telecom. & broadcasting equip., pharmaceutical, wineries, plastics, medical equip., preserved fruits & vegetables, printing, dairy, cut & sew apparel, motor vehicles. **Chief crops**: grapes, nursery products, almonds, lettuce, hay, strawberries, floriculture, tomatoes, cotton, oranges, pistachios, walnuts, broccoli, carrots, rice, peaches,

lemons. **Livestock** (Dec. 2009): 23.6 mil chickens (excl. broilers); (Jan. 2010): 5.15 mil cattle/calves, 290,000 sheep/lambs. **Timber/lumber** (est. 2008): 2.4 bil bd. ft; fir, pine, redwood, oak. **Nonfuel minerals** (2009 prelim.): \$3.6 bil; sand and gravel (construction), cement (portland), boron minerals, stone (crushed), gold. **Commercial fishing** (2008): \$113.4 mil. **Chief ports**: Long Beach, Los Angeles, San Diego, Port Hueneme, Richmond, Oakland, San Francisco, Stockton. **Gross state product** (2008): \$1.8 tril. **Sales tax** (2010): 8.25%. **Employment distrib.** (May 2010): 18.4% govt.; 18.3% trade/trans./util.; 8.9% mfg.; 12.7% ed./health; 14.6% prof./bus. serv.; 10.7% leisure/hosp.; 5.6% finance; 4.1% constr.; 3.2% info.; 3.5% other serv. **Unemployment** (2009): 11.4%. **Per cap. pers. income** (2009 prelim.): \$42,325. **New private housing** (2009): 35,069 units/\$7.8 bil. **Commercial banks** (2009): 316; deposits: \$792.4 bil. **Savings institutions** (2009): 35; deposits: \$41.7 bil. **Lottery** (2008): total sales: \$3.0 bil; profit: \$1.1 bil.

Federal govt. Fed. civ. employees (Mar. 2010): 168,207; **avg. salary**: \$73,989. **Notable fed. facilities**: San Diego; *USMC Camp Pendleton; Naval Base Coronado; Twentynine Palms; Miramar; Travis AFB; Naval Research Lab., Monterey; Lawrence Livermore Natl. Lab; Berkeley Natl. Lab; NASA Jet Propulsion Lab; Edwards AFB (NASA Dryden Flight Research Ctr., AF Flight Test Ctr.); San Francisco Mint.

Energy. Electricity production (2009 kWh by source): gas: 26.0 bil; nuclear: 31.7 bil; petroleum: 50 mil; hydroelectric: 26.3 bil; other: 1.4 bil.

State data. Motto: Eureka (I have found it). **Flower**: Golden poppy. **Bird**: California valley quail. **Tree**: California redwood. **Song**: "I Love You, California." **Entered union**: Sept. 9, 1850; rank: 31st. **State fair** at Sacramento, late Aug.-early Sept.

History. Early inhabitants included more than 100 different Native American tribes with multiple dialects. The first European explorers were Cabrillo, 1542, and Drake, 1579. The first settlement was the Spanish Alta California mission at San Diego, 1769, first in a string founded by Franciscan Father Junípero Serra. California became a province of independent Mexico, 1821. U.S. traders and settlers arrived in the 19th cent. and staged the Bear Flag revolt, 1846, in protest against Mexican rule; later that year U.S. forces occupied California. At the end of the Mexican War, Mexico ceded the territory to the U.S., 1848; that same year gold was discovered, and the famed gold rush began. California became a state, 1850. An economic downturn in the 1870s spurred riots against Chinese immigrants, who had come as laborers in the boom years. An earthquake and related fires devastated San Francisco, 1906. During World War II, Japanese Americans, many of them U.S. citizens, were held in detention camps, 1942-45. Ronald Reagan, a former movie actor, became state governor (1967-75) and U.S. president (1981-89). A budget crisis, 2003, resulted in the recall of Gov. Gray Davis and the election of another former actor, Arnold Schwarzenegger. Led by Hollywood in entertainment and Silicon Valley in high-tech, the state's economy dwarfs that of most nations. Still, billion-dollar budget deficits have been a perennial problem.

Tourist attractions. The *Queen Mary*, Aquarium of the Pacific, Long Beach; Palomar Mountain; Disneyland, Anaheim; Getty Center, Universal Studios, in Los Angeles; Tournament of Roses and Rose Bowl, Pasadena; Golden State Museum, Sacramento; San Diego Zoo; Yosemite Valley; Lassen and Sequoia-Kings Canyon natl. parks; Lake Tahoe; Mojave and Colorado deserts; San Francisco Bay; Napa Valley; Monterey Peninsula; oldest living things on earth believed to be a stand of Bristlecone pines in the Inyo Natl. Forest, est. 4,700 years old; Redwood Natl. and State Parks.

Famous Californians. Edmund G. (Pat) Brown, Jerry Brown, Luther Burbank, Julia Child, Ted Danson, Cameron Diaz, Leonardo DiCaprio, Joe DiMaggio, Dianne Feinstein, John C. Fremont, Tom Hanks, Bret Harte, William Randolph Hearst, Helen Hunt, Jack Kemp, Monica Lewinsky, Jack London, George Lucas, Mark McGwire, Marilyn Monroe, John Muir, Richard M. Nixon, George S. Colorado (CO) Centennial State

People. Population (2009 est.): 5,024,748; rank: 22; net change (2008-09): 1.8%. **Pop. density:** 48.5 per sq mi. **Racial distribution** (2009): 89.5% white; 4.4% black; 2.7% Asian; 1.2% Native Amer./AK; 0.2% Hawaiian/Pacific Islander; 2 or more races, 2.0%. **Hispanic pop.** (any race): 20.3%.

Geography. Total area: 104,094 sq mi; rank: 8. **Land area:** 103,718 sq mi; rank: 8. **Acres forested:** 22.6 mil. **Location:** W central U.S. **Climate:** low relative humidity, abundant sunshine, wide daily, seasonal temp. ranges; alpine conditions in the high mountains. **Topography:** eastern dry high plains; hilly to mountainous central plateau; western Rocky Mountains of high ranges, with broad valleys, deep, narrow canyons. **Capital:** Denver. **Chief airports:** Denver, Colorado Springs.

Economy. Chief industries: manufacturing, construction, government, tourism, agriculture, aerospace, electronics equipment. **Chief manuf. goods:** animal slaughtering, beer, petroleum, pharmaceuticals, aerospace, medical equip., precision instruments, printing, semiconductors. **Chief crops:** hay, corn, potatoes, wheat, onions, dry edible beans, sunflowers, sugar beets, barley, proso millet, cabbage, peaches, lettuce, apples, cantaloupes. **Livestock** (Dec. 2009): 4.7 mil chickens (excl. broilers), 710,000 hogs/pigs; (Jan. 2010): 2.6 mil cattle/calves, 185,000 sheep/lambs. **Timber/lumber** (est. 2008): 106.0 mil bd. ft; oak, ponderosa pine, Douglas fir. **Nonfuel minerals** (2009 prelim.): \$2.0 bil; molybdenum concentrates, sand and gravel (construction), gold, cement (portland), stone (crushed). **Gross state product** (2008): \$248.6 bil. **Sales tax** (2010): 2.9%. **Employment distrib.** (May 2010): 18.7% govt.; 17.8% trade/trans./util.; 5.6% mfg.; 11.9% ed./health; 14.8% prof./bus. serv.; 11.2% leisure/hosp.; 6.5% finance; 6.0% constr.; 3.2% info.; 4.3% other serv. **Unemployment** (2009): 7.7%. **Per cap. pers. income** (2009 prelim.): \$41,344. **New private housing** (2009): 9,355 units/\$2.1 bil. **Commercial banks** (2009): 178; deposits: \$82.7 bil. **Savings institutions** (2009): 15; deposits: \$3.4 bil. **Lottery** (2008): total sales: \$505.8 mil; profit: \$122.3 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 38,752; **avg. salary:** \$74,482. **Notable fed. facilities:** *U.S. Air Force Academy; Peterson AFB; Denver Mint; Ft. Carson; Natl. Renewable Energy Labs; U.S. Rail Transportation Test Ctr.; Cheyenne Mtn. Operations Ctr. (NORAD, U.S. Space Comm.); Denver Federal Ctr.; Natl. Ctr. for Atmospheric Research; Natl. Inst. for Standards & Technology, Boulder; Natl. Wildlife Res. Ctr.; NOAA Env. Technology Lab.

Energy. Electricity production (2009 kWh by source): coal: 31.5 bil; gas: 4.3 bil; petroleum: 14 mil; hydroelectric: 1.8 bil; other: 64 mil.

State data. Motto: Nil Sine Numine (Nothing without Providence). **Flower:** Rocky Mountain columbine. **Bird:** Lark bunting. **Tree:** Colorado blue spruce. **Songs:** "Where the Columbines Grow"; "Rocky Mountain High." **Entered union:** Aug. 1, 1876; rank 38th. **State fair** at Pueblo, mid-Aug.-early Sept.

History. Paleo-Indians hunted big game in the area at least 11,000 years ago. Anasazi cliff dwellers flourished around Mesa Verde until about 1300 CE; other Native Americans were the Ute, Pueblo, Cheyenne, and Arapaho. The region was claimed by Spain, but passed to France, 1800. The U.S. acquired eastern Colorado in the Louisiana Purchase, 1803. Lt. Zebulon M. Pike explored the area, 1806, sighting the peak that bears his name. After the Mexican War, 1846-48, U.S. immigrants settled in the east, former Mexicans in the south. Gold was discovered in 1858, causing a population boom. Congress created Colorado Territory, 1861. Conflict between newcomers and displaced Native Americans led to the Sand Creek Massacre, 1864, in which U.S. soldiers and settlers killed some 150 Cheyenne and Arapaho. Most Native Americans were later removed to Oklahoma Territory. The 1870s brought statehood, 1876, and rich silver finds that turned Leadville into a boomtown. Federal military and civilian employment in Colorado surged in the 1940s and '50s; since then, tourism and high-tech industries have fueled the economy. The state's Hispanic population grew from 5.8% in 1980 to 20.3% in 2009.

Tourist attractions. Rocky Mountain and Black Canyon of the Gunnison natl. parks; Aspen Ski Resort; Garden of the Gods, Colorado Springs; Great Sand Dunes, Dinosaur, and Colorado natl. monuments; Pikes Peak and Mt. Evans highways; Mesa Verde Natl. Park (ancient Anasazi Indian cliff

dwellings); Grand Mesa Natl. Forest; mining towns of Central City, Silverton, Cripple Creek; Burlington's Old Town; Bent's Fort, near La Junta; Georgetown Loop Historic Mining Railroad Park, Cumbres & Toltec Scenic Railroad; limited stakes gaming in Central City, Blackhawk, Cripple Creek, Ignacio, and Towaoe.

Connecticut (CT) Constitution State, Nutmeg State

People. Population (2009 est.): 3,518,288; rank: 29; net change (2008-09): 0.4%. **Pop. density:** 726.9 per sq mi. **Racial distribution** (2009): 84.0% white; 10.4% black; 3.6% Asian; 0.4% Native Amer./AK; 0.08% Hawaiian/Pacific Islander; 2 or more races, 1.5%. **Hispanic pop.** (any race): 12.3%.

Geography. Total area: 5,543 sq mi; rank: 48. **Land area:** 4,845 sq mi; rank: 48. **Acres forested:** 1.8 mil. **Location:** New England state in NE corner of the U.S. **Climate:** moderate; winters avg. slightly below freezing; warm, humid summers. **Topography:** western upland, the Berkshires, in the NW, highest elevations; narrow central lowland N-S; hilly eastern upland drained by rivers. **Capital:** Hartford. **Chief airport:** Windsor Locks.

Economy. Chief industries: manufacturing, retail trade, government, services, finances, insurance, real estate. **Chief manuf. goods:** aerospace, chemicals, fabricated metals, precision instruments, toiletries, medical equip., printing, plastics. **Chief crops:** nursery stock, Christmas trees, mushrooms, sweet corn, apples, tobacco, hay. **Livestock** (Dec. 2009): 3.2 mil chickens (excl. broilers); (Jan. 2010): 48,000 cattle/calves. **Timber/lumber** (est. 2008): 20 mil bd. ft; oak, birch, beech, maple. **Nonfuel minerals** (2009 prelim.): \$101 mil; stone (crushed), stone (dimension), sand and gravel (construction), clays (common), gemstones (natural). **Commercial fishing** (2008): \$17.1 mil. **Chief ports:** New Haven, Bridgeport, New London. **Gross state product** (2008): \$216.2 bil. **Sales tax** (2010): 6.0%. **Employment distrib.** (May 2010): 15.7% govt.; 17.7% trade/trans./util.; 10.3% mfg.; 18.9% ed./health; 11.5% prof./bus. serv.; 8.8% leisure/hosp.; 8.2% finance; 3.2% constr.; 2.1% info.; 3.7% other serv. **Unemployment** (2009): 8.2%. **Per cap. pers. income** (2009 prelim.): \$54,397. **New private housing** (2009): 3,786 units/\$715.4 mil. **Commercial banks** (2009): 35; deposits: \$56.2 bil. **Savings institutions** (2009): 36; deposits: \$34.4 bil. **Lottery** (2008): total sales: \$998.1 mil; profit: \$285.1 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 8,523; **avg. salary:** \$76,875. **Notable fed. facilities:** U.S. Coast Guard Academy; *Navy Sub Base New London.

Energy. Electricity production (2009 kWh by source): gas: 2 mil; petroleum: 2 mil; hydroelectric: 52 mil.

State data. Motto: Qui Transtulit Sustinet (He who transplanted still sustains). **Flower:** Mountain laurel. **Bird:** American robin. **Tree:** White oak. **Song:** "Yankee Doodle." **Fifth** of the 13 original states to ratify the Constitution, Jan. 9, 1788. **State fair:** no official state fair; district and local fairs, largest at Durham, late Sept.

History. At the time of European contact, inhabitants of the area were Algonquian peoples, including the Mohegan and Pequot. Dutch explorer Adriaen Block was the first European visitor, 1614. By 1634, settlers from Plymouth Bay had started colonies along the Connecticut River; in 1637 they defeated the Pequots. The Colony of Connecticut was chartered by England, 1662, adding New Haven, 1665. A Patriot stronghold in the American Revolution, the state actively supported the antislavery movement and the Union cause in the Civil War. The state economy prospered in the 20th cent. from insurance- and defense-related industries. *Nautilus*, the first nuclear-powered submarine, was launched at Groton, 1954.

Tourist attractions. Mark Twain House, Hartford; Yale University's Art Gallery, Peabody Museum, in New Haven; Mystic Seaport, Marine Life Aquarium; P. T. Barnum Museum,

Bridgeport; Gillette Castle, Hadlyme; USS *Nautilus* Memorial, Groton (1st nuclear-powered submarine); Mashantucket Pequot Museum & Research Ctr., Foxwoods Resort & Casino, in Ledyard; Mohegan Sun, Uncasville; Lake Compounce, Bristol.

Famous "Nutmeggers." Ethan Allen, Phineas T. Barnum, G. W. Bush, Samuel Colt, Jonathan Edwards, Nathan Hale, Katharine Hepburn, Isaac Hull, Robert Mitchum, J. Pierpont Morgan, Ralph Nader, Israel Putnam, Wallace Stevens, Harriet Beecher Stowe, Mark Twain, Noah Webster, Eli Whitney.

Delaware (DE)

First State, Diamond State

People. Population (2009 est.): 885,122; rank: 45; net change (2008-09): 1.0%. **Pop. density:** 454.1 per sq mi. **Racial distribution** (2009): 73.9% white; 21.1% black; 3.0% Asian; 0.4% Native Amer./AK; 0.06% Hawaiian/Pacific Islander; 2 or more races, 1.5%. **Hispanic pop.** (any race): 7.2%.

Geography. Total area: 2,489 sq mi; rank: 49. **Land area:** 1,954 sq mi; rank: 49. **Acres forested:** 0.4 mil. **Location:** Delmarva Peninsula on the Atlantic coastal plain. **Climate:** moderate. **Topography:** Piedmont plateau to the N, sloping to a near sea-level plain. **Capital:** Dover.

Economy. Chief industries: chemicals, agriculture, finance, poultry, shellfish, tourism, auto assembly, food processing, transportation equipment. **Chief manuf. goods:** pharmaceuticals, poultry processing, soap & cleaning compounds, precision instruments, basic chemicals, plastics. **Chief crops:** soybeans, corn, greenhouse & nursery, wheat, potatoes, barley, hay, watermelons, lima beans, green peas, pumpkins, mushrooms, cabbage. **Livestock** (Dec. 2009): 231.5 mil broilers; (Jan. 2010): 20,000 cattle/calves. **Timber/lumber:** figs. withheld; hardwoods and softwoods. **Nonfuel minerals** (2009 prelim.): \$13.6 mil; sand and gravel (construction), magnesium compounds, stone (crushed), gemstones (natural). **Commercial fishing** (2008): \$6.7 mil. **Chief port:** Wilmington. **Gross state product** (2008): \$61.8 bil. **Sales tax** (2010): none. **Employment distrib.** (May 2010): 15.6% govt.; 18.0% trade/trans./util.; 6.2% mfg.; 15.6% ed./health; 13.4% prof./bus. serv.; 10.1% leisure/hosp.; 10.4% finance; 4.4% constr.; 1.6% info.; 4.7% other serv. **Unemployment** (2009): 8.1%. **Per cap. pers. income** (2009 prelim.): \$39,817. **New private housing** (2009): 3,156 units/\$360.9 mil. **Commercial banks** (2009): 33; deposits: \$80.9 bil. **Savings institutions** (2009): 8; deposits: \$89.7 bil. **Lottery** (2008): total sales: \$736.4 mil; profit: \$252.5 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 3,375; **avg. salary:** \$65,726. **Notable fed. facilities:** Dover AFB; Federal Wildlife Refuge, Bombay Hook.

Energy. Electricity production (est. 2006 kWh by source): petroleum: 4 mil.

State data. Motto: Liberty and independence. **Flower:** Peach blossom. **Bird:** Blue hen chicken. **Tree:** American holly. **Song:** "Our Delaware." **First** of original 13 states to ratify the Constitution, Dec. 7, 1787. **State fair** at Harrington, mid-late July.

History. The Lenni Lenape (Delaware) people lived in the region at the time of European contact. Henry Hudson located the Delaware R., 1609, and in 1610, English explorer Samuel Argall entered Delaware Bay, naming the area after Virginia's governor, Lord De La Warr. Dutch, Swedish, and Finnish settlers were followed by the British, who took control in 1664. After 1682, Delaware became part of Pennsylvania, and in 1704 it was granted its own assembly. It adopted a constitution as the state of Delaware, 1776, and was first to ratify the federal Constitution, 1787. Although it remained in the Union during the Civil War, Delaware retained slavery until the 13th Amendment abolished it in 1865. The DuPont company, founded as a gunpowder mill in 1802, became an industrial giant in the 20th cent. making nylon, Teflon, and other synthetics. Pro-business laws drew many out-of-state firms to incorporate in Delaware. In 2000, Ruth Ann Minner was elected Delaware's first woman governor.

Tourist attractions. Ft. Christina Monument, site of founding of New Sweden, Holy Trinity (Old Swedes) Church, erected 1698, the oldest Protestant church in the U.S. still in use, in Wilmington; Hagley Museum, Winterthur Museum

and Gardens, near Wilmington; New Castle historic district; John Dickinson "Penman of the Revolution" home, Dover; Rehoboth Beach; Dover Downs Intl. Speedway.

Famous Delawareans. Thomas F. Bayard, Joseph Biden, Henry Seidel Canby, E. I. du Pont, John P. Marquand, Howard Pyle, Caesar Rodney.

State data. Motto: In God we trust. **Flower:** Orange blossom. **Bird:** Mockingbird. **Tree:** Sabal palmetto palm. **Song:** "Old Folks at Home." **Entered union:** Mar. 3, 1845; rank: 27th. **State fair** at Tampa, early-mid Feb.

History. Florida has been inhabited for at least 12,000 years. Timucua, Apalachee, and Calusa peoples were living in the region when the earliest Europeans came; later the Seminole migrated from Georgia to Florida, becoming dominant there in the early 18th cent. The first European to see Florida was Ponce de León, 1513. France established a colony, Fort Caroline, on the St. Johns River, 1564. Spain settled St. Augustine, 1565, and Spanish troops massacred most of the French. Britain's Sir Francis Drake burned St. Augustine, 1586. In 1763, Spain ceded Florida to Great Britain, which held the area 20 years before returning it to Spain. Florida was ceded to the U.S. in the Adams-Onís Treaty, 1819. The Seminole War, 1835-42, resulted in removal of most Native Americans to Indian Territory. Florida joined the Union in 1845, seceded in 1861, and was readmitted in 1868. In the late 19th cent., hotel and railroad builder Henry M. Flagler laid the foundations of the tourism industry. The state experienced phenomenal population growth in the 20th cent., especially after 1950. The first U.S. astronaut was launched into

space from Cape Canaveral, 1961. Walt Disney World opened near Orlando, 1971. Hurricane Andrew slammed S. Florida, 1992, causing at least \$25 bil in property damage. A dispute over Florida's presidential vote in 2000 led to the U.S. Supreme Court decision awarding the White House to George W. Bush; his brother Jeb was state governor 1999-2007. Four hurricanes hit the state in 2004, causing more than \$40 bil in damages.

Tourist attractions. Miami Beach; Castillo de San Marcos, St. Augustine (oldest permanent European settlement in U.S.); Walt Disney World Resort, Sea World, Universal Studios, near Orlando; Kennedy Space Center and U.S. Astronaut Hall of Fame; Everglades Natl. Park; Ringling Museums of Art & the Circus, in Sarasota; Cypress Gardens, Winter Haven; Busch Gardens, Tampa; Florida Caverns State Park, near Mariana; Church St. Station, Orlando; Silver Springs, Ocala.

Famous Floridians. Edna Buchanan, Jeb Bush, Marjory Stoneman Douglas, Henry M. Flagler, Carl Hiaasen, Zora Neale Hurston, James Weldon Johnson, MacKinlay Kantor, John D. MacDonald, Chief Osceola, Claude Pepper, Henry B. Plant, A. Philip Randolph, Marjorie Kinnan Rawlings, Janet Reno, Joseph W. Stilwell, Charles P. Summerall, Ben Vereen.

Georgia (GA)

Empire State of the South, Peach State

People. Population (2009 est.): 9,829,211; rank: 9; net change (2008-09): 1.4%. **Pop. density:** 170.9 per sq mi. **Racial distribution** (2009): 65.0% white; 30.2% black; 3.0% Asian; 0.4% Native Amer./AK; 0.1% Hawaiian/Pacific Islander; 2 or more races, 1.3%. **Hispanic pop.** (any race): 8.3%.

Geography. Total area: 59,425 sq mi; rank: 24. **Land area:** 57,906 sq mi; rank: 21. **Acres forested:** 24.8 mil. **Location:** South Atlantic state. **Climate:** maritime tropical air masses dominate in summer; polar air masses in winter; E central area drier. **Topography:** most southerly of the Blue Ridge Mts. cover NE and N central; central Piedmont extends to the fall line of rivers; coastal plain levels to the coast flatlands. **Capital:** Atlanta. **Chief airports:** Atlanta, Savannah.

Economy. Chief industries: services, manufacturing, retail trade. **Chief manuf. goods:** carpet & rugs, animal slaughtering & processing, motor vehicles & parts, plastics, aircrafts, paper, chemicals, food. **Chief crops:** cotton, greenhouse & nursery, peanuts, pecans, corn, tomatoes, cucumbers, onions, watermelons, tobacco, squash, blueberries, hay, cabbage, soybeans, peaches, snap beans, wheat. **Livestock** (Dec. 2009): 27.2 mil chickens (excl. broilers), 1.3 bil broilers; (Jan. 2010): 1.06 mil cattle/calves. **Timber/lumber** (est. 2008): 2.3 bil bd. ft; pine, hardwood. **Nonfuel minerals** (2009 prelim.): \$1.4 bil; clays (kaolin), stone (crushed), clays (fuller's earth), cement (portland), sand and gravel (construction). **Commercial fishing** (2008): \$12.5 mil. **Chief ports:** Savannah, Brunswick. **Gross state product** (2008): \$397.8 bil. **Sales tax** (2010): 4.0%. **Employment distrib.** (May 2010): 18.3% govt.; 21.0% trade/trans./util.; 8.8% mfg.; 12.6% ed./health; 13% prof./bus. serv.; 10.1% leisure/hosp.; 5.1% finance; 4.1% constr.; 2.7% info.; 4.1% other serv. **Unemployment** (2009): 9.6%. **Per cap. pers. income** (2009 prelim.): \$33,786. **New private housing** (2009): 18,228 units/\$2.6 bil. **Commercial banks** (2009): 330; deposits: \$180.6 bil. **Savings institutions** (2009): 29; deposits: \$5.5 bil. **Lottery** (2008): total sales: \$3.5 bil; profit: \$867.7 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 79,535; **avg. salary:** \$69,549. **Notable fed. facilities:** Ft. Benning; Ft. Stewart; Fed. Law Enforcement Training Ctr., Robins AFB; Ft. Gordon; King's Bay Naval Base; Moody AFB; *Navy Supply Corps School; *Ft. McPherson; Centers for Disease Control; Marine Corps Logistics.

Energy. Electricity production (2009 kWh by source): coal: 68.9 bil; gas: 11.1 bil; nuclear: 31.7 bil; petroleum: 65 mil; hydroelectric: 3.3 bil.

State data. Motto: Wisdom, justice, and moderation. **Flower:** Cherokee rose. **Bird:** Brown thrasher. **Tree:** Live oak. **Song:** "Georgia On My Mind." **Fourth** of the 13 original states to ratify the Constitution, Jan. 2, 1788. **State fair** at Macon, late Sept.-Oct.

History. Creek and Cherokee peoples were living in the region when Spaniards founded Santa Catalina mission, 1566, on Saint Catherines Island. Gen. James Oglethorpe established a colony at Savannah, 1733, for the poor and religiously persecuted. Oglethorpe defeated a Spanish army from Florida at Bloody Marsh, 1742. Georgia was a battleground in the American Revolution, with the British finally evacuating Savannah in 1782. When Georgia entered the Union, 1788, its plantation economy relied on slaves for rice and cotton growing. The Cherokee were removed to Indian Territory, 1838-39, and thousands died on the long march, known as the Trail of Tears. By 1860 the number of slaves exceeded 462,000 (44% of the total population). Georgia seceded from the Union, 1861, and was invaded by Union forces, 1864, under Gen. William T. Sherman, who took Atlanta, Sept. 2, and proceeded on his famous "march to the sea," ending in Dec., in Savannah. Georgia was readmitted, 1870. Born 1929 in Atlanta, Martin Luther King Jr., made the city his home base during the civil rights struggles of the 1960s. Atlanta became the leading city of the "New South," world headquarters of Coca-Cola and CNN, and host of the 1996 Summer Olympic Games. Hispanics are a rapidly growing economic and political force in the state.

Tourist attractions. State Capitol, Stone Mt. Park, Six Flags Over Georgia, Kennesaw Mt. Natl. Battlefield Park, Martin Luther King Jr. Natl. Historic Site, Underground Atlanta, Jimmy Carter Library & Museum, all Atlanta; Chickamauga and Chattanooga Natl. Military Park, near Dalton; Chattahoochee Natl. Forest; Helen alpine village; Dahlonega, site of America's first gold rush; Brasstown Bald Mt.; Lake Lanier; Franklin D. Roosevelt's Little White House, Warm Springs; Callaway Gardens, Pine Mt.; Andersonville Natl. Historic Site; Okefenokee Swamp, near Waycross; Jekyll, St. Simons, Cumberland islands; Savannah historic riverfront district.

Famous Georgians. Kim Basinger, Griffin Bell, James Bowie, James Brown, Erskine Caldwell, Jimmy Carter, Ray Charles, Lucius D. Clay, Ty Cobb, James Dickey, John C. Fremont, Newt Gingrich, Joel Chandler Harris, "Doc" Holliday, Holly Hunter, Alan Jackson, Jasper Johns, Martin Luther King Jr., Gladys Knight, Sidney Lanier, Little Richard, Juliette Gordon Low, Margaret Mitchell, Sam Nunn, Flannery O'Connor, Otis Redding, Burt Reynolds, Julia Roberts, Jackie Robinson, Clarence Thomas, Travis Tritt, Ted Turner, Carl Vinson, Alice Walker, Herschel Walker, Joseph Wheeler, Joanne Woodward, Trisha Yearwood, Andrew Young.

Hawai'i (HI)

Aloha State

People. Population (2009 est.): 1,295,178; rank: 42; net change (2008-09): 0.6%. **Pop. density:** 201.5 per sq mi. **Racial distribution** (2009): 30.2% white; 3.2% black; 38.8% Asian; 0.6% Native Amer./AK; 9.2% Hawaiian/Pacific Islander; 2 or more races, 18.0%. **Hispanic pop.** (any race): 9.0%.

Geography. Total area: 10,931 sq mi; rank: 43. **Land area:** 6,423 sq mi; rank: 47. **Acres forested:** 1.7 mil. **Location:** Hawaiian Islands lie in the North Pacific, 2,397 mi SW from San Francisco. **Climate:** subtropical, with wide variations in rainfall; Waialeale, on Kaua'i, wettest spot in U.S. (annual rainfall 460 in.) **Topography:** islands are tops of a chain of submerged volcanic mountains; active volcanoes: Mauna Loa, Kilauea. **Capital:** Honolulu. **Chief airports:** Hilo, Honolulu, Kahului, Kailua Kona, Lihue.

Economy. Chief industries: tourism, defense, sugar, pineapples. **Chief manuf. goods:** concrete, printing, baked goods, sugar, preserved fruits & vegetables, apparel. **Chief crops:** flowers & nursery, pineapples, seed crops, sugarcane, macadamia nuts, coffee, algae, papayas, tomatoes, bananas, basil, ginger. **Livestock** (Dec. 2009): 379,000 chickens (excl. broilers); (Jan. 2010): 151,000 cattle/calves. **Timber/lumber:** figs. undisclosed. **Nonfuel minerals** (2009 prelim.): \$134.0 mil; stone (crushed), sand and gravel (construction), gemstones (natural). **Commercial fishing** (2008): \$84.9 mil. **Chief ports:** Honolulu, Hilo, Barbers Point, Kahului. **Gross state product** (2008): \$63.8 bil. **Sales tax** (2010): 4.0%. **Employment distrib.** (May 2010): 21.8% govt.; 18.6% trade/trans./util.; 2.3% mfg.; 13.0% ed./health; 11.5% prof./bus. serv.; 17.2% leisure/

hosp.; 4.6% finance; 5.2% constr.; 1.5% info.; 4.5% other serv. **Unemployment** (2009): 6.8%. **Per cap. pers. income** (2009 prelim.): \$42,009. **New private housing** (2009): 2,617 units/\$779.0 mil. **Commercial banks** (2009): 8; deposits: \$22.8 bil. **Savings institutions** (2009): 3; deposits: \$5.9 bil.

Federal govt. Fed. civ. employees (Mar. 2010): 24,655; **avg. salary**: \$62,819. **Notable fed. facilities**: Pearl Harbor Naval Shipyard; Schofield Barracks; Marine Corps Base-Kaneohe Bay; *Hickam AFB; Tripler Army Med. Ctr.; Ft. Shafter; Wheeler AFB; Prince Kuhio Federal Bldg.

Energy. Electricity production (2009 kWh by source): petroleum: 6.4 bil; other: 3 mil.

State data. Motto: The life of the land is perpetuated in righteousness. **Flower**: Yellow hibiscus. **Bird**: Hawaiian goose. **Tree**: Kukui (Candlenut). **Song**: "Hawai'i Pono'i." **Entered union**: Aug. 21, 1959; rank: 50th. **State fair** at Honolulu, late May-June.

History. Polynesians from islands 2,000 mi to the S settled the Hawaiian Islands, probably 300-600 CE. The first European visitor was British captain James Cook, 1778. King Kamehameha I united the islands by 1810. Christian missionaries arrived, 1819, bringing Western culture. Under the reign, 1825-54, of King Kamehameha III, a constitution, legislature, and public school system were instituted. Sugar production began, 1835, and it became the dominant industry. Queen Liliuokalani was deposed, 1893, and a republic was established, 1894, headed by Sanford B. Dole. Annexation by the U.S. came in 1898. The Japanese attack on Pearl Harbor, Dec. 7, 1941, brought the U.S. into World War II. Hawaii attained statehood, 1959. Hurricane Iniki pounded Kauai, 1992, causing about \$1 bil in damage. In 2006, Pres. George W. Bush designated the Northwestern Hawaiian Islands National Monument, a marine area of 140,000 sq mi.

Tourist attractions. Hawaii Volcanoes, Haleakala natl. parks; Natl. Memorial Cemetery of the Pacific, Waikiki Beach, Diamond Head, in Honolulu; USS *Arizona* Memorial, Pearl Harbor; Hanauma Bay; Polynesian Cultural Center, Laie; Nu'uuanu Pali; Waimea Canyon; Wailoa and Wailuku River state parks.

Famous Islanders. Bernice Pauahi Bishop, Tia Carrere, Father Damien de Veuster, Don Ho, Duke Kahanamoku, King Kamehameha, Brook Mahealani Lee, Daniel K. Inouye, Jason Scott Lee, Queen Liliuokalani, Bette Midler, Ellison Onizuka.

Idaho (ID) Gem State

People. Population (2009 est.): 1,545,801; rank: 39; net change (2008-09): 1.2%. **Pop. density**: 18.7 per sq mi. **Racial distribution** (2009): 94.4% white; 1.0% black; 1.2% Asian; 1.6% Native Amer./AK; 0.1% Hawaiian/Pacific Islander; 2 or more races, 1.7%. **Hispanic pop.** (any race): 10.7%.

Geography. Total area: 83,570 sq mi; rank: 14. **Land area**: 82,747 sq mi; rank: 11. **Acres forested**: 21.4 mil. **Location**: northwestern Mountain state bordering on British Columbia. **Climate**: tempered by Pacific westerly winds; drier, colder, continental climate in SE; altitude an important factor. **Topography**: Snake R. plains in the S; central region of mountains, canyons, gorges (Hells Canyon, 7,900 ft, deepest in N. America); subalpine northern region. **Capital**: Boise. **Chief airport**: Boise.

Economy. Chief industries: manufacturing, agriculture, tourism, lumber, mining, electronics. **Chief manuf. goods**: computers & electronics, preserved fruits & vegetables, cheese, lumber. **Chief crops**: potatoes, wheat, hay, sugar beets, barley, greenhouse & nursery, onions, dry beans, corn, mint, apples, hops, peaches, lentils, peas, cherries, plums & prunes, oats. **Livestock** (Jan. 2010): 2.14 mil cattle/calves, 40,000 sheep/lambs. **Timber/lumber** (est. 2006): 854.0 mil bd. ft; pine, fir, spruce. **Nonfuel minerals** (2009 prelim.): \$917.0 mil; molybdenum concentrates, phosphate rock, silver, sand and gravel (construction), lead. **Chief port**: Lewiston. **Gross state product** (2008): \$52.7 bil. **Sales tax** (2010): 6.0%. **Employment distrib.** (May 2010): 20.6% govt.; 19.9% trade/trans./util.; 8.7% mfg.; 13.8% ed./health; 12.4% prof./bus. serv.; 9.6% leisure/hosp.; 4.8% finance; 5.4% constr.; 1.6% info.; 3.4% other serv. **Unemployment** (2009): 8.0%. **Per cap. pers. income** (2009 prelim.): \$31,632. **New**

private housing (2009): 4,863 units/\$804.9 mil. **Commercial banks** (2009): 32; deposits: \$16.6 bil. **Savings institutions** (2009): 3; deposits: \$1.4 bil. **Lottery** (2008): total sales: \$136.8 mil; profit: \$36.2 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 9,167; **avg. salary**: \$62,687. **Notable fed. facilities**: Idaho Natl. Lab; *Mountain Home AFB.

Energy. Electricity production (2009 kWh by source): gas: 256 mil; hydroelectric: 8.8 bil.

State data. Motto: Esto Perpetua (It is perpetual). **Flower**: Syringa. **Bird**: Mountain bluebird. **Tree**: White pine. **Song**: "Here We Have Idaho." **Entered union**: July 3, 1890; rank: 43rd. **State fair** at Boise, late Aug.; at Blackfoot, early Sept.

History. Paleo-Indian hunters roamed the land over 13,000 years ago; later inhabitants included Shoshone, Northern Paiute, Bannock, and Nez Percé peoples. Lewis and Clark expedition explored, 1805-06. Next came fur traders, 1809-34, and missionaries, 1830s-50s. Mormons made their first permanent settlement at Franklin, 1860. Idaho's gold rush began the same year and brought thousands of permanent settlers. A series of Indian wars followed, including a remarkable campaign by Chief Joseph and the Nez Percé that ended with his surrender in Montana, 1877. Idaho became a territory, 1863, and a state, 1890. In the 20th cent., it emerged as a leader in potato, lumber, and silver output. The Sun Valley ski resort opened in 1936, boosting tourism. Startup of Lewiston's river port, 1975, opened Idaho to oceangoing trade. Fueled by high-tech job growth, the state's population jumped 19.5% in 2000-09.

Tourist attractions. Hells Canyon, deepest gorge in N. America; World Center for Birds of Prey, Boise; Craters of the Moon Natl. Monument; Sun Valley, Sawtooth Mts.; Shoshone Falls; Lava Hot Springs; Lake Pend Oreille; Lake Coeur d'Alene; Sawtooth Natl. Recreation Area, Redfish Lake; River of No Return Wilderness Area.

Famous Idahoans. William E. Borah, Frank Church, Lou Dobbs, Fred T. Dubois, Chief Joseph, Harmon Killebrew, Ezra Pound, Sacagawea, Picabo Street, Lana Turner.

Illinois (IL) Prairie State

People. Population (2009 est.): 12,910,409; rank: 5; net change (2008-09): 0.5%. **Pop. density**: 232.5 per sq mi. **Racial distribution** (2009): 79.0% white; 14.9% black; 4.4% Asian; 0.4% Native Amer./AK; 0.07% Hawaiian/Pacific Islander; 2 or more races, 1.3%. **Hispanic pop.** (any race): 15.2%.

Geography. Total area: 57,914 sq mi; rank: 25. **Land area**: 55,584 sq mi; rank: 24. **Acres forested**: 4.5 mil. **Location**: East North Central state; western, southern, and eastern boundaries formed by Mississippi, Ohio, and Wabash rivers, respectively. **Climate**: temperate; typically cold, snowy winters, hot summers. **Topography**: prairie and fertile plains throughout; open hills in the southern region. **Capital**: Springfield. **Chief airports**: Chicago (2).

Economy. Chief industries: services, manufacturing, travel, wholesale and retail trade, finance, insurance, real estate, construction, health care, agriculture. **Chief manuf. goods**: food, petroleum, plastics, chemicals, agricultural machinery, pharmaceuticals, motor vehicles, printing. **Chief crops**: corn, soybeans, hay, wheat, greenhouse & nursery, apples, peaches, sorghum. **Livestock** (Dec. 2009): 5.0 mil chickens (excl. broilers), 4.3 mil hogs/pigs; (Jan. 2010): 1.2 mil cattle/calves, 9,000 sheep/lambs. **Timber/lumber** (est. 2008): 142.0 mil bd. ft; oak, hickory, maple, cottonwood. **Nonfuel minerals** (2009 prelim.): \$874.0 mil; stone (crushed), cement (portland), sand and gravel (construction), sand and gravel (industrial), tripoli. **Chief port**: Chicago. **Gross state product** (2008): \$633.7 bil. **Sales tax** (2010): 6.25%. **Employment distrib.** (May 2010): 15.6% govt.; 20.1% trade/trans./util.; 9.9% mfg.; 14.8% ed./health; 13.8% prof./bus. serv.; 9.2% leisure/hosp.; 6.5% finance; 3.7% constr.; 1.8% info.; 4.5% other serv. **Unemployment** (2009): 10.1%. **Per cap. pers. income** (2009 prelim.): \$41,411. **New private housing** (2009): 10,859 units/\$2.1 bil. **Commercial banks** (2009): 606; deposits: \$336.0 bil. **Savings institutions** (2009): 89; deposits: \$24.2 bil. **Lottery** (2008): total sales: \$2.1 bil; profit: \$657.0 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 50,215; **avg. salary**: \$74,975. **Notable fed. facilities**: *Great Lakes Naval Station; Fermi Natl. Accelerator Lab; Argonne Natl. Lab; Scott AFB; *Rock Island Arsenal.

Energy. Electricity production (2009 kWh by source): coal: 3.9 bil; gas: 189 mil; petroleum: 14 mil; hydroelectric: 69 mil.

State data. Motto: State sovereignty—national union. **Flower**: Native violet. **Bird**: Cardinal. **Tree**: White oak. **Song**: "Illinois." **Entered union**: Dec. 3, 1818; rank: 21st. **State fair** at Springfield, mid-Aug.; DuQuoin, late Aug.-Sept.

History. The region has been inhabited for at least 10,000 years; seminomadic Algonquian peoples, including the Peoria, Illinois, Kaskaskia, and Tamaroa, lived there at the time of European contact. Fur traders were the first Europeans in Illinois, followed shortly by Joliet and Marquette, 1673, and La Salle, 1680, who built a fort near present-day Peoria. French priests established the first permanent settlements, at Cahokia, near present-day St. Louis, 1699, and Kaskaskia, 1703. France ceded the area to Britain, 1763, and in 1778, American Gen. George Rogers Clark took Kaskaskia from the British without a shot. Illinois became a separate territory, 1809, and a state, 1818. Defeat of Native American tribes in the Black Hawk War, 1832, and canal, rail, and road construction brought rapid change. Mormon settlers at Nauvoo, 1839, met with hostility, and a Carthage mob killed Mormon leader Joseph Smith and his brother, 1844. The great Chicago Fire, 1871, destroyed the city's downtown. Illinois became a center for the labor movement, leading to bitter conflicts such as the Haymarket riot, 1886, and Pullman strike, 1894. Social reformer Jane Addams founded Hull House, 1889, to aid immigrants and the poor. During 1900-70, as manufacturing expanded, many African Americans arrived from the southern U.S. Chicago police violently suppressed antiwar protests at the 1968 Democratic National Convention. Dennis Hastert was the longest serving Republican Speaker of the House, 1999-2007. Barack Obama, elected in 2004, was only the fifth African American to serve in the U.S. Senate; he became the 44th U.S. president in 2009. Political corruption and criminality have plagued the state for decades; since 1960, five former governors have been charged with criminal offenses, including Rod Blagojevich.

Tourist attractions. Chicago museums and parks; Illinois State Museum, Abraham Lincoln Presidential Library and Museum, in Springfield; Cahokia Mounds, Collinsville; Starved Rock State Park; Crab Orchard Wildlife Refuge; Mormon settlement at Nauvoo; Fts. Kaskaskia, Chartres, Massac (parks); Shawnee Natl. Forest; Dickson Mounds Museum, Lewistown.

Famous Illinoisans. Jane Addams, John Ashcroft, Saul Bellow, Jack Benny, Ray Bradbury, Gwendolyn Brooks, William Jennings Bryan, St. Frances Xavier Cabrini, Hillary Rodham Clinton, Clarence Darrow, John Deere, Stephen A. Douglas, James T. Farrell, George W. Ferris, Marshall Field, Betty Friedan, Benny Goodman, Ulysses S. Grant, Dennis Hastert, Ernest Hemingway, Charlton Heston, Wild Bill Hickok, Henry J. Hyde, Abraham Lincoln, Vachel Lindsay, Edgar Lee Masters, Oscar Mayer, Cyrus McCormick, Ronald Reagan, Donald Rumsfeld, Carl Sandburg, Adlai Stevenson, James Watson, Frank Lloyd Wright, Philip Wrigley.

Indiana (IN) Hoosier State

People. Population (2009 est.): 6,423,113; rank: 16; net change (2008-09): 0.5%. **Pop. density**: 179.3 per sq mi. **Racial distribution** (2009): 87.8% white; 9.2% black; 1.5% Asian; 0.3% Native Amer./AK; 0.05% Hawaiian/Pacific Islander; 2 or more races, 1.2%. **Hispanic pop.** (any race): 5.5%.

Geography. Total area: 36,418 sq mi; rank: 38. **Land area**: 35,867 sq mi; rank: 38. **Acres forested**: 4.7 mil. **Location**: East North Central state; Lake Michigan on N border. **Climate**: 4 distinct seasons with a temperate climate. **Topography**: hilly southern region; fertile rolling plains of central region; flat, heavily glaciated north; dunes along Lake Michigan shore. **Capital**: Indianapolis. **Chief airport**: Indianapolis.

Economy. Chief industries: manufacturing, services, agriculture, government, wholesale and retail trade, trans-

portation and public utilities. **Chief manuf. goods**: motor vehicles & parts, iron & steel mills, pharmaceuticals, petroleum, plastics, medical equipment, printing. **Chief crops**: corn, soybeans, greenhouse & nursery, wheat, hay, tomatoes, watermelons, apples. **Livestock** (Dec. 2009): 31.6 mil chickens (excl. broilers), 3.6 mil hogs/pigs; (Jan. 2010): 870,000 cattle/calves, 6,000 sheep/lambs. **Timber/lumber** (est. 2008): 327.0 mil bd. ft; oak, tulip, beech, sycamore. **Nonfuel minerals** (2009 prelim.): \$776.0 mil; stone (crushed), cement (portland), sand and gravel (construction), lime, stone (dimension). **Chief ports**: Burns Harbor-Portage; Mt. Vernon; Jeffersonville. **Gross state product** (2008): \$254.9 bil. **Sales tax** (2010): 7.0%. **Employment distrib.** (May 2010): 16.2% govt.; 19.5% trade/trans./util.; 15.5% mfg.; 14.6% ed./health; 10.1% prof./bus. serv.; 10.2% leisure/hosp.; 4.5% finance; 4.3% constr.; 1.3% info.; 3.8% other serv. **Unemployment** (2009): 10.1%. **Per cap. pers. income** (2009 prelim.): \$33,725. **New private housing** (2009): 12,555 units/\$1.9 bil. **Commercial banks** (2009): 150; deposits: \$85.4 bil. **Savings institutions** (2009): 51; deposits: \$8.8 bil. **Lottery** (2008): total sales: \$822.8 mil; profit: \$217.1 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 26,550; **avg. salary**: \$61,926. **Notable fed. facilities**: Nav. Surface Warfare Ctr., Crane Div.; Grissom Air Reserve Base.

Energy. Electricity production (2009 kWh by source): coal: 101.3 bil; gas: 423 mil; petroleum: 131 mil; hydroelectric: 520 mil; other: 221 mil.

State data. Motto: Crossroads of America. **Flower**: Peony. **Bird**: Cardinal. **Tree**: Tulip poplar. **Song**: "On the Banks of the Wabash, Far Away." **Entered union**: Dec. 11, 1816; rank: 19th. **State fair** at Indianapolis, mid-Aug.

History. When the Europeans arrived, Miami, Potawatomi, Kickapoo, Piankashaw, Wea, and Shawnee peoples inhabited the region. La Salle visited the present South Bend area, 1679 and 1681. The first French fort was built near present-day Lafayette, 1717. A French trading post was established, 1731-32, at Vincennes. France ceded the area to Britain, 1763. During the American Revolution, American Gen. George Rogers Clark captured Vincennes, 1778, and defeated British forces, 1779. Indiana became a territory, 1800, and a state, 1816. The Miami were beaten, 1794, at Fallen Timbers, and Gen. William H. Harrison defeated Tecumseh's Indian confederation, 1811, at Tippecanoe. Manufacturing grew rapidly after the Civil War. U.S. Steel founded Gary, 1906. An automotive test track was the site of the first Indianapolis 500 race, 1911. The auto industry remains key to the state economy; in 2008, Honda opened a \$550-mil plant near Greensburg. Heavy rain in June 2008 flooded southwest and central Indiana.

Tourist attractions. Lincoln Log Cabin Historic Site, near Charleston; George Rogers Clark Park, Vincennes; Wyandotte Caves; Tippecanoe Battlefield Park, near Lafayette; Benjamin Harrison home, Indianapolis 500 raceway and museum, in Indianapolis; Indiana Dunes, Chesterton; Natl. College Football Hall of Fame, South Bend; Hoosier Natl. Forest.

Famous "Hoosiers." Larry Bird, Ambrose Burnside, Hoagy Carmichael, Jim Davis, James Dean, Eugene V. Debs, Theodore Dreiser, Paul Dresser, Jeff Gordon, Benjamin Harrison, Gil Hodges, Michael Jackson, David Letterman, Carole Lombard, John Mellencamp, Jane Pauley, Cole Porter, Gene Stratton Porter, Ernie Pyle, Dan Quayle, James Whitcomb Riley, Oscar Robertson, Red Skelton, Booth Tarkington, Kurt Vonnegut, Lew Wallace, Wendell L. Willkie, Wilbur Wright.

Iowa (IA) Hawkeye State

People. Population (2009 est.): 3,007,856; rank: 30; net change (2008-09): 0.5%. **Pop. density**: 53.8 per sq mi. **Racial distribution** (2009): 93.9% white; 2.8% black; 1.7% Asian; 0.4% Native Amer./AK; 0.05% Hawaiian/Pacific Islander; 2 or more races, 1.1%. **Hispanic pop.** (any race): 4.5%.

Geography. Total area: 56,272 sq mi; rank: 26. **Land area**: 55,869 sq mi; rank: 23. **Acres forested**: 2.9 mil. **Location**: West North Central state bordered by Mississippi R. on the E and Missouri R. on the W. **Climate**: humid, continental.

Topography: Watershed from NW to SE; soil especially rich and land level in the N central counties. **Capital:** Des Moines. **Chief airport:** Des Moines.

Economy. Chief industries: agriculture, communications, construction, finance, insurance, trade, services, manufacturing. **Chief manuf. goods:** machinery, vegetable oils, animal slaughtering & processing, laundry equipment, plastics, motor vehicles & parts. **Chief crops:** corn, soybeans, hay, greenhouse & nursery, oats. **Livestock** (Dec. 2009): 66.0 mil chickens (excl. broilers), 19 mil hogs/pigs; (Jan. 2010): 3.9 mil cattle/calves, 65,000 sheep/lambs. **Timber/lumber** (est. 2008): 63.0 mil bd. ft; red cedar. **Nonfuel minerals** (2009 prelim.): \$518 mil; stone (crushed), cement (portland), sand and gravel (construction), lime, gypsum (crude). **Gross state product** (2008): \$135.7 bil. **Sales tax** (2010): 6.0%. **Employment distrib.** (May 2010): 17.7% govt.; 20.0% trade/trans./util.; 13.5% mfg.; 14.4% ed./health; 8.2% prof./bus. serv.; 8.9% leisure/hosp.; 6.7% finance; 4.6% constr.; 2.0% info.; 4.0% other serv. **Unemployment** (2009): 6.0%. **Per cap. pers. income** (2009 prelim.): \$36,751. **New private housing** (2009): 7,729 units/\$1.2 bil. **Commercial banks** (2009): 373; deposits: \$58.5 bil. **Savings institutions** (2009): 21; deposits: \$5.9 bil. **Lottery** (2008): total sales: \$249.0 mil; profit: \$57.0 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 9,045; **avg. salary:** \$63,170. **Notable fed. facilities:** Ames Lab; Natl. Animal Disease Ctr.

Energy. Electricity production (2009 kWh by source): coal: 36.6 bil; gas: 1.1 bil; petroleum: 60 mil; hydroelectric: 734 mil; other: 3.6 bil.

State data. Motto: Our liberties we prize, and our rights we will maintain. **Flower:** Wild rose. **Bird:** Eastern goldfinch. **Tree:** Oak. **Rock:** Geode. **Entered union:** Dec. 28, 1846; rank: 29th. **State fair** at Des Moines, mid-Aug.

History. Early inhabitants were Mound Builders who dwelt on Iowa's fertile plains. Later, Iowa and Yankton Sioux lived in the area. The first Europeans, Marquette and Jolliet, gave France its claim to the area, 1673. In 1762, France ceded the region to Spain, but Napoleon took it back, 1800. It became part of the U.S. through the Louisiana Purchase, 1803. Native American Sauk and Fox tribes moved into the area but relinquished their land in defeat, after the 1832 uprising led by the Sauk chieftain Black Hawk. Iowa became a territory in 1838, and entered as a free state, 1846, strongly supporting the Union. Fertile land lured farmers from eastern states, 1850-1900 and the population rose rapidly. Growth slowed in the 20th cent., as farming became mechanized. Surging demand for ethanol fuel from Iowa corn contributed more than \$2.6 bil to the state economy in 2005. Severe flooding in eastern Iowa in June 2008 caused billions of dollars in damages and forced the evacuation of thousands of residents.

Tourist attractions. Herbert Hoover birthplace and library, West Branch; Effigy Mounds Natl. Monument, prehistoric Indian burial site, Marquette; Amana Colonies; Grant Wood's paintings and memorabilia, Davenport Municipal Art Gallery; Living History Farms, Des Moines; Adventureland, Prairie Meadows horse racing, in Altoona; Boone & Scenic Valley Railroad; Greyhound Parks, in Dubuque and Council Bluffs; riverboat cruises and casino gambling, Mississippi and Missouri Rivers; Iowa Great Lakes, Okoboji.

Famous Iowans. Tom Arnold, Johnny Carson, Marquis Childs, Buffalo Bill Cody, Mamie Dowd Eisenhower, Bob Feller, George Gallup, Susan Glaspell, James Norman Hall, Harry Hansen, Herbert Hoover, Ann Landers, Glenn Miller, Lillian Russell, Billy Sunday, James A. Van Allen, Abigail Van Buren, Carl Van Vechten, Henry Wallace, John Wayne, Meredith Willson, Grant Wood.

Kansas (KS) Sunflower State

People. Population (2009 est.): 2,818,747; rank: 33; net change (2008-09): 0.8%. **Pop. density:** 34.5 per sq mi. **Racial distribution** (2009): 88.5% white; 6.2% black; 2.3% Asian; 1.0% Native Amer./AK; 0.08% Hawaiian/Pacific Islander; 2 or more races, 1.9%. **Hispanic pop.** (any race): 9.3%.

Geography. Total area: 82,277 sq mi; rank: 15. **Land area:** 81,815 sq mi; rank: 13. **Acres forested:** 2.1 mil.

Location: West North Central state, with Missouri R. on E. **Climate:** temperate but continental, with great extremes between summer and winter. **Topography:** hilly Osage Plains in the E; central region level prairie and hills; high plains in the W. **Capital:** Topeka. **Chief airport:** Wichita.

Economy. Chief industries: manufacturing, finance, insurance, real estate, services. **Chief manuf. goods:** animal slaughtering, aerospace, petroleum, plastics, machinery, navigational instruments, printing. **Chief crops:** wheat, corn, soybeans, hay, sorghum, sunflowers, cotton, potatoes. **Livestock** (Dec. 2009): 1.8 mil hogs/pigs; (Jan. 2010): 6 mil cattle/calves, 30,000 sheep/lambs. **Timber/lumber:** figs. withheld; oak, walnut. **Nonfuel minerals** (2009 prelim.): \$1.1 bil; helium (grade-A), stone (crushed), cement (portland), salt, helium (crude). **Chief port:** Kansas City. **Gross state product** (2008): \$122.7 bil. **Sales tax** (2010): 5.3%. **Employment distrib.** (May 2010): 20.5% govt.; 18.9% trade/trans./util.; 11.9% mfg.; 13.4% ed./health; 10.1% prof./bus. serv.; 8.5% leisure/hosp.; 5.1% finance; 5.2% constr.; 2.5% info.; 3.9% other serv. **Unemployment** (2009): 6.7%. **Per cap. pers. income** (2009 prelim.): \$37,916. **New private housing** (2009): 6,677 units/\$880.9 mil. **Commercial banks** (2009): 355; deposits: \$50.8 bil. **Savings institutions** (2009): 19; deposits: \$7.0 bil. **Lottery** (2008): total sales: \$236.7 mil; profit: \$71.0 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 17,352; **avg. salary:** \$64,274. **Notable fed. facilities:** Fts. Riley, Leavenworth; Leavenworth Fed. Pen.; McConnell AFB; Colmery-O'Neal Veterans Hospital.

Energy. Electricity production (2009 kWh by source): coal: 32.2 bil; gas: 2.6 bil; nuclear: 8.8 bil; petroleum: 43 mil; other: 723 mil.

State data. Motto: Ad Astra per Aspera (To the stars through difficulties). **Flower:** Native sunflower. **Bird:** Western meadowlark. **Tree:** Cottonwood. **Song:** "Home on the Range." **Entered union:** Jan. 29, 1861; rank: 34th. **State fair** at Hutchinson, begins Friday after Labor Day.

History. Wichita, Pawnee, Kansa, and Osage peoples lived in the area when Coronado explored it in 1541. These Native Americans—hunters who also farmed—were joined on the Plains by the nomadic Cheyenne, Arapaho, Comanche, and Kiowa about 1800. France claimed the region, 1682, ceded its claim to Spain, 1762, then regained control, 1800, before selling it to the U.S. in the Louisiana Purchase, 1803. After 1830, thousands of Native Americans were removed from more eastern states to Kansas. Organized as a territory, 1854, the area witnessed violent clashes between pro- and antislavery settlers and became known as "Bleeding Kansas." It entered the Union as a free state, 1861. After the Civil War, rail construction and huge cattle drives from Texas turned Abilene and Dodge City into cowboy capitals. Russian Mennonite immigrants brought a new strain of winter wheat, 1874, transforming Kansas agriculture. Carry Nation launched her anti-saloon crusade in the 1890s. Part of the "Dust Bowl," the state experienced drought and depression in the 1930s. Topeka was the focus of the famous *Brown v. Board of Education* decision, 1954, that led to desegregation of U.S. public schools. Bob Dole represented Kansas in the U.S. Senate (1969-96) but failed in several efforts to win higher office.

Tourist attractions. Eisenhower Center, Abilene; Natl. Agricultural Ctr. and Hall of Fame, Bonner Springs; Dodge City-Boot Hill; Old Cowtown Museum, Wichita; Ft. Scott and Ft. Larned, restored 1800s cavalry forts; Kansas Cosmosphere and Space Center, Hutchinson; Woodlands Racetrack, Kansas City; U.S. Cavalry Museum, Ft. Riley; Heartland Park Raceway, Topeka.

Kentucky (KY) Bluegrass State

People. Population (2009 est.): 4,314,113; rank: 26; net change (2008-09): 0.6%. **Pop. density:** 109.2 per sq mi. **Racial distribution** (2009): 89.6% white; 7.9% black; 1.1% Asian; 0.3% Native Amer./AK; 0.06% Hawaiian/Pacific Islander; 2 or more races, 1.1%. **Hispanic pop.** (any race): 2.7%.

Geography. Total area: 40,409 sq mi; rank: 37. **Land area:** 39,728 sq mi; rank: 36. **Acres forested:** 12.0 mil. **Location:** East South Central state, bordered on N by Illinois, Indiana, Ohio; on E by West Virginia and Virginia; on S by Tennessee; on W by Missouri. **Climate:** moderate, with plentiful rainfall. **Topography:** mountainous in E; rounded hills of the Knobs in the N; Bluegrass, heart of state; wooded rocky hillsides of the Pennyroyal; Western Coal Field; the fertile Purchase in the SW. **Capital:** Frankfort. **Chief airports:** Covington, Louisville.

Economy. Chief industries: manufacturing, services, finance, insurance and real estate, retail trade, public utilities. **Chief manuf. goods:** motor vehicles & parts, aluminum, basic chemicals, plastics, iron & steel, rubber, printing. **Chief crops:** hay, corn, soybeans, tobacco, wheat. **Livestock** (Dec. 2009): 6.7 mil chickens (excl. broilers), 307 mil broilers; (Jan. 2010): 2.3 mil cattle/calves, 8,000 sheep/lambs. **Timber/lumber** (est. 2008): 515.0 mil bd. ft; hardwoods, pines. **Nonfuel minerals** (2009 prelim.): \$638.0 mil; stone (crushed), lime, cement (portland), sand and gravel (construction), clays (common). **Chief ports:** Louisville, Hickman-Fulton County. **Gross state product** (2008): \$156.4 bil. **Sales tax** (2010): 6.0%. **Employment distrib.** (May 2010): 18.7% govt.; 20.5% trade/trans./util.; 11.8% mfg.; 14.0% ed./health; 10.1% prof./bus. serv.; 9.6% leisure/hosp.; 4.8% finance; 5.2% constr.; 1.5% info.; 3.9% other serv. **Unemployment** (2009): 10.5%. **Per cap. pers. income** (2009 prelim.): \$31,883. **New private housing** (2009): 7,398 units/\$923.5 mil. **Commercial banks** (2009): 204; deposits: \$66.4 bil. **Savings institutions** (2009): 27; deposits: \$2.3 bil. **Lottery** (2008): total sales: \$778.2 mil; profit: \$192.1 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 26,023; **avg. salary:** \$58,284. **Notable fed. facilities:** U.S. Gold Bullion Depository, Ft. Knox; Ft. Campbell; Fed. Correctional Institution, Lexington; Army Corps of Engineers, Louisville.

Energy. Electricity production (2009 kWh by source): coal: 76.0 bil; gas: 549 mil; petroleum: 117 mil; hydroelectric: 3.3 bil; other: 165 mil.

State data. Motto: United we stand, divided we fall. **Flower:** Goldenrod. **Bird:** Cardinal. **Tree:** Tulip poplar. **Song:** "My Old Kentucky Home." **Entered union:** June 1, 1792; rank: 15th. **State fair** at Louisville, mid-Aug.

History. Paleo-Indians first arrived about 14,000 years ago. Much later, Shawnee, Wyandot, Delaware, and Cherokee peoples also used the area mostly for hunting. Explored by Thomas Walker and Christopher Gist, 1750-51, Kentucky was the first area W of the Alleghenies settled by American pioneers. The first permanent settlement was Harrodsburg, 1774. Daniel Boone blazed the Wilderness Trail through the Cumberland Gap and founded Ft. Boonesborough, 1775. Clashes with Native Americans were frequent, 1774-94. Virginia dropped its claims to the region, and Kentucky became a state, 1792. Tobacco growing, horse breeding, coal mining, and bourbon whiskey making were major industries in the 19th cent. A slave state, Kentucky tried to stay neutral in the Civil War, but then opted for the Union; many Kentuckians sided with the Confederacy. The U.S. gold depository at Fort Knox opened, 1937. Led by Toyota, Ford, and GM, auto manufacturing has grown in recent decades; about 10% of cars and trucks built in the U.S. each year are made in Kentucky. An ice storm in southwestern Kentucky in Jan. 2009 killed 14 and caused severe power outages.

Tourist attractions. Churchill Downs (Kentucky Derby), Louisville; Land Between the Lakes Natl. Recreation Area, lakes Kentucky and Barkley; Mammoth Cave Natl. Park; Lake Cumberland; Lincoln's birthplace, Hodgenville; My Old Kentucky Home State Park, Bardstown; Cumberland Gap Natl. People. Population (2009 est.): 4,492,076; rank: 25; net change (2008-09): 0.9%. **Pop. density:** 104.0 per sq mi. **Racial distribution** (2009): 64.6% white; 32.1% black; 1.5% Asian; 0.6% Native Amer./AK; 0.04% Hawaiian/Pacific Islander; 2 or more races, 1.1%. **Hispanic pop.** (any race): 3.6%.

Geography. Total area: 51,840 sq mi; rank: 31. **Land area:** 43,562 sq mi; rank: 33. **Acres forested:** 14.2 mil. **Location:** West South Central state on the Gulf Coast. **Climate:** subtropical, affected by continental weather patterns. **Topography:** lowlands of marshes and Mississippi R. flood plain; Red R. Valley lowlands; upland hills in the Florida Parishes; average elevation, 100 ft. **Capital:** Baton Rouge. **Chief airport:** Metairie.

Economy. Chief industries: wholesale and retail trade, tourism, manufacturing, construction, transportation, communication, public utilities, finance, insurance, real estate, mining. **Chief manuf. goods:** petroleum, chemicals, plastics material & resin, pesticides & fertilizers, cleaning products, paper & paperboard, ships, structural metals. **Chief crops:** sugarcane, cotton, rice, soybeans, corn, sweet potatoes. **Livestock** (Dec. 2009): 2.6 mil chickens (excl. broilers); (Jan. 2010): 840,000 cattle/calves. **Timber/lumber** (est. 2008): 1.2 bil bd. ft; pines, hardwoods, oak. **Nonfuel minerals** (2009 prelim.): \$494.0 mil; salt, sand and gravel (construction), stone (crushed), sand and gravel (industrial), clays (common). **Commercial fishing** (2008): \$272.9 mil. **Chief ports:** New Orleans, Baton Rouge, Lake Charles, Port of S. Louisiana (La Place), Shreveport, Plaquemine, St. Bernard, Alexandria. **Gross state product** (2008): \$222.2 bil. **Sales tax** (2010): 4.0%. **Employment distrib.** (May 2010): 19.8% govt.; 19.3% trade/trans./util.; 7.1% mfg.; 14.4% ed./health; 10.2% prof./bus. serv.; 10.5% leisure/hosp.; 4.6% finance; 9.2% constr.; 1.3% info.; 3.6% other serv. **Unemployment** (2009): 6.8%. **Per cap. pers. income** (2009 prelim.): \$35,507. **New private housing** (2009): 12,513 units/\$1.8 bil. **Commercial banks** (2009): 139; deposits: \$74.4 bil. **Savings institutions** (2009): 27; deposits: \$4.4 bil. **Lottery** (2008): total sales: \$373.7 mil; profit: \$131.8 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 20,815; **avg. salary:** \$65,159. **Notable federal facilities:** Ft. Polk (Joint Readiness Training Ctr.); Barksdale AFB; Strategic Petroleum Reserve, Michoud Assembly Plant, USDA Southern Regional Research Ctr., Army Corps of Engineers, all New Orleans; New Orleans NAS.

Energy. Electricity production (2009 kWh by source): coal: 11.0 bil; gas: 13.5 bil; nuclear: 16.8 bil; petroleum: 37 mil; other: 1.4 bil.

State data. Motto: Union, justice, and confidence. **Flower:** Magnolia. **Bird:** Eastern brown pelican. **Tree:** Cypress. **Song:** "Give Me Louisiana." **Entered union:** Apr. 30, 1812; rank: 18th. **State fair** at Shreveport; late Oct.-early Nov.

History. Caddo, Tunica, Choctaw, Chitimacha, and Chawash peoples lived in the region at the time of European contact. Spanish explorers in the early 16th cent. reached the mouth of the Mississippi. La Salle, 1682, claimed the region for France. Early French and Spanish settlers were the ancestors of Louisiana Creoles. Cajuns descended from the Acadians, French settlers expelled by the British from Nova Scotia, Canada, in 1755. France ceded the Louisiana region to Spain, 1762, took it back, 1800, and sold it to the U.S., 1803, in the Louisiana Purchase. Admitted as a state in 1812, Louisiana witnessed the Battle of New Orleans, 1815. Cotton and sugar plantations relied on black slaves, who made up 47% of the population in 1860, on the eve of the Civil War. Louisiana seceded, 1861, and was readmitted, 1868. Jazz was born in New Orleans in the early 20th cent. As governor (1928-32), Huey Long pushed populist programs. Many tropical storms and floods have battered Louisiana, including Hurricane Katrina, 2005, which devastated New Orleans. The offshore oil and gas industry developed after World War II.

An oil rig explosion off the state's Gulf coast spilled millions of barrels of oil into the gulf, damaging coastal wetlands and many of the state's marine-dependent industries in 2010.

Tourist attractions. French Quarter and other New Orleans attractions; Jean Lafitte Natl. Hist. Park, Chalmette; Longfellow-Evangeline State Hist. Site, St. Martinville; Kent Plantation House, Alexandria; Hodges Gardens, Natchitoches; USS Kidd Memorial, Baton Rouge.

Maine (ME) Pine Tree State

People. Population (2009 est.): 1,318,301; rank: 41; net change (2008-09): -0.1%. **Pop. density:** 42.7 per sq mi. **Racial distribution** (2009): 96.1% white; 1.2% black; 1.0% Asian; 0.6% Native Amer./AK; 0.04% Hawaiian/Pacific Islander; 2 or more races, 1.1%. **Hispanic pop.** (any race): 1.4%.

Geography. Total area: 35,385 sq mi; rank: 39. **Land area:** 30,862 sq mi; rank: 39. **Acres forested:** 17.7 mil. **Location:** New England state at northeastern tip of U.S. **Climate:** Southern interior and coastal, influenced by air masses from the S and W; northern clime harsher, avg. over 100 in. snow in winter. **Topography:** Appalachian Mts. extend through state; western borders have rugged terrain; long sand beaches on southern coast; northern coast mainly rocky promontories, peninsulas, fjords. **Capital:** Augusta. **Chief airport:** Portland.

Economy. Chief industries: manufacturing, agriculture, fishing, services, trade, government, finance, insurance, real estate, construction. **Chief manuf. goods:** paper, ships & boats, cardboard, frozen/canned fruits & vegetables, plastics, baked goods. **Chief crops:** potatoes, greenhouse & nursery, wild blueberries, apples, hay, maple syrup. **Livestock** (Dec. 2009): 4.8 mil chickens (excl. broilers); (Jan. 2010): 87,000 cattle/calves. **Timber/lumber** (est. 2008): 823.0 mil bd. ft; pine, spruce, fir. **Nonfuel minerals** (2009 prelim.): \$120.0 mil; sand and gravel (construction), cement (portland), stone (crushed), cement (masonry), stone (dimension). **Commercial fishing** (2008): \$287.5 mil. **Chief ports:** Searsport, Portland, Eastport. **Gross state product** (2008): \$49.7 bil. **Sales tax** (2010): 5.0%. **Employment distrib.** (May 2010): 18.3% govt.; 19.2% trade/trans./util.; 8.8% mfg.; 20.2% ed./health; 9.3% prof./bus. serv.; 10.0% leisure/hosp.; 5.1% finance; 4.3% constr.; 1.5% info.; 3.3% other serv. **Unemployment** (2009): 8.0%. **Per cap. pers. income** (2009 prelim.): \$36,745. **New private housing** (2009): 3,121 units/\$493.2 mil. **Commercial banks** (2009): 12; deposits: \$37.8 bil. **Savings institutions** (2009): 21; deposits: \$8.9 bil. **Lottery** (2008): total sales: \$228.5 mil; profit: \$49.5 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 10,922; **avg. salary:** \$63,969. **Notable fed. facilities:** Portsmouth Naval Shipyard; Loring AFB; *Brunswick NAS.

Energy. Electricity production (2009 kWh by source): petroleum: 1 mil.

State data. Motto: Dirigo (I direct). **Flower:** White pine cone and tassel. **Bird:** Chickadee. **Tree:** Eastern white pine. **Song:** "State of Maine Song." **Entered union:** Mar. 15, 1820; rank: 23rd. **State fair** at Bangor, late July-early Aug.; at Skowhegan, mid-Aug.

History. Paleo-Indians arrived about 11,500 years ago. Maine was inhabited by Algonquian peoples including the Abnaki, Penobscot, and Passamaquoddy at the time of European contact. French settled, 1604, at the St. Croix River, English, c. 1607, on the Kennebec; both settlements failed. A royal charter, 1691, made Maine part of Massachusetts. Maine broke off, 1819, and became a separate state, 1820. Drawing on vast forest resources, the pulp and paper industry developed after the Civil War. Bath Iron Works began building U.S. Navy vessels and other ships in the 1890s. Mail-order and retail giant L.L. Bean was founded, 1912. Women have

fared well in state politics: Margaret Chase Smith became the first woman to serve in both houses of Congress (House, 1940-49; Senate, 1949-73), and Olympia Snowe and Susan Collins have represented Maine in the Senate since the mid-1990s.

Tourist attractions. Acadia Natl. Park, Bar Harbor, on Mt. Desert Island; Old Orchard Beach; Portland's Old Port; Kennebunkport; Common Ground Country Fair, Unity; Portland Head Light; Baxter State Pk.; Freeport/L. L. Bean.

Famous "Down Easters." Leon Leonwood (L.L.) Bean, James G. Blaine, Cyrus H. K. Curtis, Hannibal Hamlin, Sarah Jewett, Stephen King, Henry Wadsworth Longfellow, Sir Hiram and Hudson Maxim, Edna St. Vincent Millay, George Mitchell, Edmund Muskie, Judd Nelson, Edwin Arlington Robinson, Joan Benoit Samuelson, Liv Tyler, Kate Douglas Wiggin, Ben Ames Williams.

Maryland (MD) Old Line State, Free State

People. Population (2009 est.): 5,699,478; rank: 19; net change (2008-09): 0.7%. **Pop. density:** 587.3 per sq mi. **Racial distribution** (2009): 63.0% white; 29.7% black; 5.2% Asian; 0.4% Native Amer./AK; 0.08% Hawaiian/Pacific Islander; 2 or more races, 1.7%. **Hispanic pop.** (any race): 7.2%.

Geography. Total area: 12,407 sq mi; rank: 42. **Land area:** 9,774 sq mi; rank: 42. **Acres forested:** 2.6 mil. **Location:** South Atlantic state stretching from the Ocean to the Allegheny Mts. **Climate:** continental in the west; humid subtropical in the east. **Topography:** Eastern Shore of coastal plain and Maryland Main of coastal plain, piedmont plateau, and the Blue Ridge, separated by the Chesapeake Bay. **Capital:** Annapolis. **Chief airport:** Glen Burnie.

Economy. Chief industries: manufacturing, biotechnology and information technology, services, tourism. **Chief manuf. goods:** navigational instruments, pharmaceutical & medicine, broadcasting equip., plastics, printing, milk & ice cream. **Chief crops:** greenhouse & nursery, corn, soybeans, wheat, hay, tomatoes, watermelons, barley, potatoes, apples. **Livestock** (Dec. 2009): 2.5 mil chickens (excl. broilers), 291.9 mil broilers; (Jan. 2010): 195,000 cattle/calves. **Timber/lumber** (est. 2008): 245.0 mil bd. ft; hardwoods. **Nonfuel minerals** (2009 prelim.): \$182.0 mil; cement (portland), stone (crushed), sand and gravel (construction), cement (masonry), stone (dimension). **Commercial fishing** (2008): \$73.5 mil. **Chief port:** Baltimore. **Gross state product** (2008): \$273.3 bil. **Sales tax** (2010): 6.0%. **Employment distrib.** (May 2010): 20.0% govt.; 17.2% trade/trans./util.; 4.5% mfg.; 15.7% ed./health; 15.3% prof./bus. serv.; 9.7% leisure/hosp.; 5.4% finance; 5.9% constr.; 1.8% info.; 4.5% other serv. **Unemployment** (2009): 7.0%. **Per cap. pers. income** (2009 prelim.): \$48,285. **New private housing** (2009): 11,123 units/\$2.1 bil. **Commercial banks** (2009): 89; deposits: \$88.6 bil. **Savings institutions** (2009): 48; deposits: \$19.5 bil. **Lottery** (2008): total sales: \$1.7 bil; profit: \$529.4 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 123,161; **avg. salary:** \$92,580. **Notable fed. facilities:** U.S. Naval Academy; Natl. Agriculture Res. Ctr.; Ft. Meade, Aberdeen Proving Ground; Andrews AFB; Naval Air Sys. Command; Goddard Space Flight Ctr.; Natl. Inst. of Health; Natl. Inst. of Standards & Technology; Food & Drug Admin.; Bureau of the Census; Natl. Naval Med. Ctr., Bethesda; Natl. Marine Fisheries Serv.; Natl. Oceanic and Atmospheric Admin.

Energy. Electricity production (2009 kWh by source): petroleum: 9 mil.

State data. Motto: Fatti Maschii, Parole Femine (Manly deeds, womanly words). **Flower:** Black-eyed Susan. **Bird:** Baltimore oriole. **Tree:** White oak. **Song:** "Maryland, My Maryland." **Seventh** of the original 13 states to ratify the U.S. Constitution, Apr. 28, 1788. **State fair** at Timonium, late Aug.-early Sept.

History. Europeans encountered Algonquian-speaking Nanticoke and Piscataway and Iroquois-speaking Susquehannock when they first visited the area. Italian navigator Verrazano reached the Chesapeake region in the early 16th cent. English Capt. John Smith explored and mapped the area, 1608. William Claiborne set up a trading post on Kent Island in Chesapeake Bay, 1631. King Charles I granted land

to Cecilius Calvert, Lord Baltimore, 1632; Calvert's brother Leonard, with about 200 settlers, founded St. Marys, 1634. During the Revolutionary War, Baltimore (1776-77) and Annapolis (1783-84) served as temporary capitals of the U.S. In the War of 1812, when a British fleet tried to take Ft. McHenry, Marylander Francis Scott Key wrote "The Star-Spangled Banner," 1814. Born into slavery at Tuckahoe in 1818, Frederick Douglass became a leading abolitionist. Although a slaveholding state, Maryland stayed in the Union during the Civil War and was the site of the battle of Antietam, 1862. Gov. Spiro Agnew elected U.S. vice pres. 1968, 1972; pleaded no contest to tax evasion and resigned 1973. Israeli and Egyptian leaders reached a historic peace accord at the Camp David presidential retreat, 1978. A major effort is under way to clean up pollution in the Chesapeake Bay watershed.

Tourist attractions. Laurel Park (Maryland Million); Ocean City; restored Ft. McHenry—near which Francis Scott Key wrote "The Star-Spangled Banner," Pimlico track (The Preakness), Edgar Allan Poe house, Camden Yards, Natl. Aquarium, Harborplace, all Baltimore; Antietam Battlefield, near Hagerstown; South Mountain Battlefield; U.S. Naval Academy, Maryland State House (oldest still in legislative use in the U.S.), Annapolis; Natl. Cryptologic Museum, Ft. Meade.

Famous Marylanders. John Astin, Benjamin Banneker, Tom Clancy, Jonathan Demme, Francis Scott Key, H. L. Mencken, Kweisi Mfume, Ogden Nash, Charles Willson Peale, William Pinkney, Edgar Allan Poe, Cal Ripken Jr., Babe Ruth, Upton Sinclair, Roger B. Taney, John Waters, Montel Williams.

Massachusetts (MA) Bay State, Old Colony

People. Population (2009 est.): 6,593,587; rank: 15; net change (2008-09): 0.8%. **Pop. density:** 845.2 per sq mi. **Racial distribution** (2009): 85.9% white; 7.1% black; 5.1% Asian; 0.3% Native Amer./AK; 0.09% Hawaiian/Pacific Islander; 2 or more races, 1.5%. **Hispanic pop.** (any race): 8.8%.

Geography. Total area: 10,555 sq mi; rank: 44. **Land area:** 7,840 sq mi; rank: 45. **Acres forested:** 3.2 mil. **Location:** New England state along Atlantic seaboard. **Climate:** temperate, with colder and drier climate in western region. **Topography:** jagged indented coast from Rhode Island around Cape Cod; flat land yields to stony upland pastures near central region and gentle hilly country in west; except in west, land is rocky, sandy, and not fertile. **Capital:** Boston. **Chief airport:** Boston.

Economy. Chief industries: services, trade, manufacturing. **Chief manuf. goods:** electronics & instruments, pharmaceuticals, telecom. & broadcasting equip., plastics, medical equip., printing. **Chief crops:** greenhouse & nursery, cranberries, tomatoes, sweet corn, apples, hay, tobacco. **Livestock** (Dec. 2009): 128,000 chickens (excl. broilers); (Jan. 2010): 43,000 cattle/calves. **Timber/lumber** (est. 2008): 37.0 mil bd. ft; white pine, oak, other hard woods. **Nonfuel minerals** (2009 prelim.): \$219.0 mil; stone (crushed), sand and gravel (construction), lime, stone (dimension), clays (common). **Commercial fishing** (2008): \$399.6 mil. **Chief ports:** Boston, Fall River. **Gross state product** (2008): \$365.0 bil. **Sales tax** (2010): 6.25%. **Employment distrib.** (May 2010): 14.4% govt.; 16.6% trade/trans./util.; 7.9% mfg.; 20.9% ed./health; 14.5% prof./bus. serv.; 9.4% leisure/hosp.; 6.5% finance; 3.4% constr.; 2.6% info.; 3.7% other serv. **Unemployment** (2009): 8.4%. **Per cap. pers. income** (2009 prelim.): \$49,875. **New private housing** (2009): 7,941 units/\$1.6 bil. **Commercial banks** (2009): 51; deposits: \$115.8 bil. **Savings institutions** (2009): 146; deposits: \$74.1 bil. **Lottery** (2008): total sales: \$4.7 bil; profit: \$913.0 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 28,643; **avg. salary:** \$77,183. **Notable fed. facilities:** Thomas P. O'Neill Jr. Fed. Bldg.; J.W. McCormack Bldg.; JFK Fed. Bldg.; Hanscom AFB; *Natick Army Soldier Systems Ctr.

Energy. Electricity production (2009 kWh by source): gas: 125 mil; petroleum: 34 mil; hydroelectric: 295 mil.

State data. Motto: Ense Petit Placidam Sub Libertate Quietem (By the sword we seek peace, but peace only

under liberty). **Flower:** Mayflower. **Bird:** Chickadee. **Tree:** American elm. **Song:** "All Hail to Massachusetts." **Sixth** of the original 13 states to ratify Constitution, Feb. 6, 1788. **State fair** at West Springfield, mid-Sept.-early Oct.

History. Early inhabitants were Algonquian peoples: Nauset, Wampanoag, Massachuset, Pennacook, Nipmuc, and Pocumtuc. Pilgrims settled in Plymouth, 1620, giving thanks for their survival with the first Thanksgiving Day, 1621. About 20,000 new settlers arrived, 1630-40. Colonist-Native American relations deteriorated, leading to King Philip's War, 1675-76, which the colonists won. Witch trials at Salem, 1692, led to the execution of 20 people. Demonstrations against British restrictions set off the Boston Massacre, 1770, and the Boston Tea Party, 1773. The first bloodshed of American Revolution was at Lexington, 1775. After statehood, Massachusetts prospered from shipbuilding, seafaring, and the making of textiles, shoes, and metal goods, while artists, writers, and social reformers flourished. The controversial Sacco-Vanzetti case, 1920-27, ended with the execution of two Italian immigrants on murder and robbery charges. After World War II, old industries declined, knowledge-intensive enterprises thrived, and the Kennedys became a dominant political family. The state's highest court ruled, 2003, that same-sex couples could legally marry.

Tourist attractions. Provincetown arts colony; Cape Cod; Plymouth Rock, Plimoth Plantation, Mayflower II, all Plymouth; Freedom Trail, Museum of Fine Arts, New England Aquarium, and other Boston attractions; Tanglewood, Hancock Shaker Village, Berkshire Scenic Railway Museum, Norman Rockwell Museum, and other Berkshires attractions; Salem; Old Sturbridge Village; Old Deerfield Historic District; Walden Pond, Concord; Naismith Memorial Basketball Hall of Fame, Springfield.

Famous "Bay Staters." John Adams, John Quincy Adams, Samuel Adams, Louisa May Alcott, Horatio Alger, Susan B. Anthony, Crispus Attucks, Clara Barton, Alexander Graham Bell, Stephen Breyer, George H. W. Bush, John Cheever, E. E. Cummings, Emily Dickinson, Charles Eliot, Ralph Waldo Emerson, William Lloyd Garrison, Edward Everett Hale, John Hancock, Nathaniel Hawthorne, Oliver Wendell Holmes, Winslow Homer, Elias Howe, John F. Kennedy, John Kerry, Jack Kerouac, Jack Lemmon, James Russell Lowell, Cotton Mather, Samuel F. B. Morse, Edgar Allan Poe, Paul Revere, Norman Rockwell, Dr. Seuss (Theodor Seuss Geisel), Henry David Thoreau, Barbara Walters, James McNeil Whistler, John Greenleaf Whittier.

Michigan (MI) Great Lakes State, Wolverine State

People. Population (2009 est.): 9,969,727; rank: 8; net change (2008-09): -0.3%. **Pop. density:** 176.4 per sq mi. **Racial distribution** (2009): 81.2% white; 14.2% black; 2.4% Asian; 0.6% Native Amer./AK; 0.04% Hawaiian/Pacific Islander; 2 or more races, 1.6%. **Hispanic pop.** (any race): 4.2%.

Geography. Total area: 96,716 sq mi; rank: 11. **Land area:** 56,804 sq mi; rank: 22. **Acres forested:** 19.5 mil. **Location:** East North Central state bordering on 4 of the 5 Great Lakes, divided into an Upper and Lower Peninsula by the Straits of Mackinac, which link lakes Michigan and Huron. **Climate:** well-defined seasons tempered by the Great Lakes. **Topography:** low rolling hills give way to northern tableland of hilly belts in Lower Peninsula; Upper Peninsula is level in the east, with swampy areas; western region is higher and more rugged. **Capital:** Lansing. **Chief airports:** Detroit, Grand Rapids.

Economy. Chief industries: manufacturing, services, tourism, agriculture, forestry/lumber. **Chief manuf. goods:** motor vehicles & parts, plastics, metalworking machinery, non-wood office furniture, fabricated metals. **Chief crops:** greenhouse & nursery, soybeans, corn, wheat, sugar beets, apples, blueberries, potatoes, dry beans, cherries, hay, cucumbers, tomatoes, grapes. **Livestock** (Dec. 2009): 12.5 mil chickens (excl. broilers), 1.1 mil hogs/pigs; (Jan. 2010): 1.1 mil cattle/calves, 19,000 sheep/lambs. **Timber/lumber** (est. 2008): 793.0 mil bd. ft; maple, oak, aspen. **Nonfuel minerals** (2009 prelim.): \$1.6 bil; iron ore (usable shipped),

cement (portland), salt, sand and gravel (construction), magnesium compounds, stone (crushed). **Commercial fishing** (2008): \$14.9 mil. **Chief ports:** Detroit, Escanaba, Calcite, Port Inland, Muskegon, Port Huron. **Gross state product** (2008): \$382.5 bil. **Sales tax** (2010): 6.0%. **Employment distrib.** (May 2010): 16.9% govt.; 18.2% trade/trans./util.; 11.8% mfg.; 16.1% ed./health; 13.5% prof./bus. serv.; 9.8% leisure/hosp.; 4.7% finance; 3.3% constr.; 1.3% info.; 4.3% other serv. **Unemployment** (2009): 13.6%. **Per cap. pers. income** (2009 prelim.): \$34,025. **New private housing** (2009): 6,884 units/\$1.2 bil. **Commercial banks** (2009): 152; deposits: \$149.9 bil. **Savings institutions** (2009): 21; deposits: \$13.8 bil. **Lottery** (2008): total sales: \$2.3 bil; profit: \$740.7 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 29,065; **avg. salary:** \$73,138. **Notable fed. facilities:** Detroit Arsenal (Army TACOM Life Cycle Mgmt.); Def. Logistics Info. Serv.; Selfridge Army Garrison; Hart-Dole-Inouye Fed. Ctr.

Energy. Electricity production (2009 kWh by source): coal: 66.4 bil; gas: 550 mil; nuclear: 15.7 bil; petroleum: 192 mil; hydroelectric: 348 mil; other: 24 mil.

State data. Motto: Si Quaeris Peninsulam Amoenam, Circumspice (If you seek a pleasant peninsula, look about you). **Flower:** Apple blossom. **Bird:** Robin. **Tree:** White pine. **Song:** "Michigan, My Michigan." **Entered union:** Jan. 26, 1837; rank: 26th. **State fair** at Detroit, late Aug.-early Sept.; at Escanaba, mid-Aug.

History. Hunting and fishing peoples lived in the region as early as 11,000 years ago. Ojibwa, Ottawa, Miami, Potawatomi, and Huron inhabited the area at the time of European contact. French fur traders and missionaries arrived in the 17th cent. and established a settlement at Sault Ste. Marie, 1668. British took over, 1763, and crushed a Native American uprising led by Ottawa chieftain Pontiac. Treaty of Paris ceded the area to U.S., 1783, but British remained until 1796. Michigan was organized as a territory, 1805. The British seized Ft. Mackinac and Detroit, 1812, but the U.S. regained control, 1814. The opening of the Erie Canal, 1825, and new land laws and Native American cessions led the way for a flood of settlers. Strongly antislavery, Michigan became a state, 1837, and supplied 90,000 soldiers to the Union army in the Civil War. In the 20th cent., automobile manufacturing was the backbone of the economy. Henry Ford launched the Model T car, 1908; the United Auto Workers union was founded, 1935. Motown music flourished in Detroit in the 1960s, but riots in 1967 dealt the city a heavy blow. As the auto industry faltered, Michigan lost more than 20% of its automotive-related jobs between 2002 and 2007. In 2009, the federal government loaned billions of dollars to GM and Chrysler to keep them solvent.

Tourist attractions. Henry Ford Museum/Greenfield Village, Dearborn; Frederick Meijer Gardens and Sculpture Park, Grand Rapids; Tahquamenon (*Hiawatha*) Falls; De Zwaan windmill and Tulip Festival, Holland; "Soo Locks," St. Mary's Falls Ship Canal, Sault Ste. Marie; Air Zoo, Kalamazoo; Mackinac Island; Museum of African-American History, Motown Historical Museum, Detroit.

Famous Michiganders. Ralph Bunche, Francis Ford Coppola, Paul de Kruif, Thomas Edison, Edna Ferber, Gerald R. Ford, Henry Ford, Aretha Franklin, Edgar Guest, Lee Iacocca, Robert Ingersoll, Magic Johnson, Casey Kasem, Will Kellogg, Ring Lardner, Elmore Leonard, Charles Lindbergh, Joe Louis, Madonna, Malcolm X, Terry McMillan, Michael Moore, Pontiac, Gilda Radner, Diana Ross, Glenn Seaborg, Tom Selleck, Sinbad (David Adkins), John Smoltz, Lily Tomlin, Stewart Edward White, Serena Williams.

Minnesota (MN)

North Star State, Gopher State

People. Population (2009 est.): 5,266,214; rank: 21; net change (2008-09): 0.7%. **Pop. density:** 66.2 per sq mi. **Racial distribution** (2009): 88.6% white; 4.7% black; 3.8% Asian; 1.3% Native Amer./AK; 0.07% Hawaiian/Pacific Islander; 2 or more races, 1.6%. **Hispanic pop.** (any race): 4.3%.

Geography. Total area: 86,939 sq mi; rank: 12. **Land area:** 79,610 sq mi; rank: 14. **Acres forested:** 16.4 mil. **Location:** West North Central state bounded on the E by Wisconsin and Lake Superior, on the N by Canada, on the W

by the Dakotas, and on the S by Iowa. **Climate:** northern part of state lies in the moist Great Lakes storm belt; the western border lies at the edge of the semi-arid Great Plains. **Topography:** central hill and lake region covering approx. half the state; to the NE, rocky ridges and deep lakes; to the NW, flat plain; to the S, rolling plains and deep river valleys. **Capital:** St. Paul. **Chief airport:** Minneapolis.

Economy. Chief industries: agribusiness, forest products, mining, manufacturing, tourism. **Chief manuf. goods:** petroleum & asphalt, computers & electronics, milk & cheese, printing, animal slaughtering, paper & product, medical equip. **Chief crops:** corn, soybeans, hay, sugar beets, wheat, potatoes, greenhouse & nursery, dry edible beans, green peas, sunflowers. **Livestock** (Dec. 2009): 14.1 mil chickens (excl. broilers), 44.8 mil broilers, 7.2 mil hogs/pigs; (Jan. 2010): 2.42 mil cattle/calves, 38,000 sheep/lambs. **Timber/lumber** (est. 2008): 230.0 mil bd. ft; needle-leaves and hardwoods. **Nonfuel minerals** (2009 prelim.): \$1.7 bil; iron ore (usable shipped), sand and gravel (construction), sand and gravel (industrial), stone (crushed), stone (dimension). **Commercial fishing** (2008): \$304,908. **Chief ports:** Two Harbors, Silver Bay, Duluth, St. Paul. **Gross state product** (2008): \$262.8 bil. **Sales tax** (2010): 6.875%. **Employment distrib.** (May 2010): 16.2% govt.; 18.6% trade/trans./util.; 11.0% mfg.; 17.3% ed./health; 11.6% prof./bus. serv.; 9.3% leisure/hosp.; 6.3% finance; 3.4% constr.; 2.0% info.; 4.2% other serv. **Unemployment** (2009): 8%. **Per cap. pers. income** (2009 prelim.): \$41,552. **New private housing** (2009): 9,425 units/\$1.7 bil. **Commercial banks** (2009): 426; deposits: \$110.4 bil. **Savings institutions** (2009): 34; deposits: \$4.9 bil. **Lottery** (2008): total sales: \$461.5 mil; profit: \$116.3 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 17,949; **avg. salary:** \$69,315. **Notable fed. facilities:** Bishop Henry Whipple Fed. Bldg.; Minneapolis-St Paul Air Reserve Station.

Energy. Electricity production (2009 kWh by source): coal: 29.2 bil; gas: 1.8 bil; nuclear: 12.4 bil; petroleum: 49 mil; hydroelectric: 529 mil; other: 840 mil.

State data. Motto: L'Etoile du Nord (The star of the north). **Flower:** Pink and white lady's-slipper. **Bird:** Common loon. **Tree:** Red pine. **Song:** "Hail! Minnesota." **Entered union:** May 11, 1858; rank: 32nd. **State fair** at St. Paul, late Aug.-early Sept.

History. Inhabited for at least 10,000 years, the region was home to Dakota Sioux when Europeans arrived. French fur traders Pierre Esprit Radisson and Médard Chouart, sieur des Groseilliers, explored in the mid-17th cent. In 1679, Daniel Greysolon, sieur Duluth, claimed the entire region for France. Ojibwa arrived in the 18th cent. and warred with the Sioux for over 100 years. Britain took the area east of the Mississippi, 1763. The U.S. took over that portion after the American Revolution and gained the western area, 1803, in the Louisiana Purchase. The U.S. built Ft. St. Anthony (now Ft. Snelling), 1819, and bought Native American lands, 1837, spurring an influx of settlers from the east. Minnesota became a territory, 1849, and a state, 1858. Sioux staged a bloody uprising, the Battle of Wood Lake, 1862, and were driven from the state. Railroad construction after the Civil War spurred the growth of the grain, timber, and iron mining industries. Opening of the St. Lawrence Seaway, 1959, aided the port of Duluth. Elected as a reformer, colorful former wrestler Jesse Ventura served as governor, 1999-2003. Two-term Sen. Paul Wellstone, one of a long line of liberal Minnesota Democrats, died when his campaign plane crashed, 2002. The I-35W Mississippi River Bridge in Minneapolis collapsed, 2007, killing 13.

Tourist attractions. Minneapolis Institute of Arts, Walker Art Center, Minneapolis Sculpture Garden, Minnehaha Falls (*Hiawatha*), Guthrie Theater, all Minneapolis; Ordway Theater, Winter Carnival, in St. Paul; Voyageurs Natl. Park; Mayo Clinic, Rochester; North Shore (of Lake Superior).

Famous Minnesotans. Warren Burger, Ethan and Joel Coen, William O. Douglas, Bob Dylan, F. Energy. Electricity production (2009 kWh by source): coal: 9.6 bil; gas: 10.9 bil; nuclear: 11.0 bil; petroleum: 13 mil.

State data. Motto: Virtute et Armis (By valor and arms). **Flower:** Magnolia. **Bird:** Mockingbird. **Tree:** Magnolia. **Song:** "Go, Mississippi!" **Entered union:** Dec. 10, 1817; rank: 20th. **State fair** at Jackson, begins first Wed. in Oct.

History. Choctaw, Chickasaw, and Natchez peoples were living in the region at the time of European contact. The Spaniard Hernando de Soto explored the area, 1540-41. La Salle traced the Mississippi River from Illinois to its mouth and claimed the entire Mississippi Valley for France, 1682. The first settlement, was the French Ft. Maurepas, 1699, on Biloxi Bay. The region was ceded to Britain, 1763, and claimed by Spain, 1779-98, then became a U.S. territory, 1798, and a state, 1817. Slavery spread along with cotton plantations, and slaves made up 55% of the population, 1860. Mississippi seceded, 1861. In the Civil War, Union forces captured Vicksburg, 1863, and caused extensive damage elsewhere. Mississippi reentered the Union, 1870. For the next 100 years, resistance to desegregation and violence against blacks made the state a battleground for the African American civil rights movement. Hurricanes Camille, 1969, and Katrina, 2005, caused substantial damage to the Gulf Coast. Since the early 1990s, casino gambling has boosted the economy.

Tourist attractions. Vicksburg Natl. Military Park and Cemetery, other Civil War sites; Hattiesburg; Natchez Trace; Indian mounds; Antebellum homes; pilgrimages in Natchez and some 25 other cities; The Elvis Presley Birthplace and Museum, Tupelo; Smith Robertson Museum, Mynelle Gardens, in Jackson; Mardi Gras, Shrimp Festival, in Biloxi; Gulf Islands Natl. Seashore.

Famous Mississippians. Margaret Walker Alexander, Dana Andrews, Jimmy Buffett, Bo Diddley, William Faulkner, Brett Favre, Shelby Foote, Morgan Freeman, John Grisham, Fannie Lou Hamer, Jim Henson, Faith Hill, John Lee Hooker, Robert Johnson, James Earl Jones, B. B. King, L. Q. C. Lamar,

Trent Lott, Gerald McRaney, Willie Morris, Walter Payton, Elvis Presley, Leontyne Price, Charley Pride, LeAnn Rimes, Muddy Waters, Eudora Welty, Tennessee Williams, Oprah Winfrey, Johnny Winter, Richard Wright, Tammy Wynette.

Missouri (MO) Show Me State

People. Population (2009 est.): 5,987,580; rank: 18; net change (2008-09): 0.5%. **Pop. density:** 87.1 per sq mi. **Racial distribution** (2009): 84.9% white; 11.5% black; 1.5% Asian; 0.5% Native Amer./AK; 0.08% Hawaiian/Pacific Islander; 2 or more races, 1.5%. **Hispanic pop.** (any race): 3.4%.

Geography. Total area: 69,704 sq mi; rank: 21. **Land area:** 68,886 sq mi; rank: 18. **Acres forested:** 15.1 mil. **Location:** West North Central state near the geographic center of the conterminous U.S.; bordered on the E by the Mississippi R., on the NW by the Missouri R. **Climate:** continental, susceptible to cold Canadian air, moist, warm gulf air, and drier SW air. **Topography:** rolling hills, open, fertile plains, and well-watered prairie N of the Missouri R.; south of the river land is rough and hilly with deep, narrow valleys; alluvial plain in the SE; low elevation in the west. **Capital:** Jefferson City. **Chief airports:** Kansas City, St. Louis.

Economy. Chief industries: agriculture, manufacturing, aerospace, tourism. **Chief manuf. goods:** motor vehicles & parts, aerospace, pharmaceuticals, plastics, soap, animal slaughtering & processing, printing. **Chief crops:** soybeans, corn, hay, cotton & cottonseed, wheat, rice, sorghum. **Livestock** (Dec. 2009): 9.6 mil chickens (excl. broilers), 3.1 mil hogs/pigs; (Jan. 2010): 4.15 mil cattle/calves, 8,000 sheep/lambs. **Timber/lumber** (est. 2008): 432.0 mil bd. ft; oak, hickory. **Nonfuel minerals** (2009 prelim.): \$1.8 bil; stone (crushed), cement (portland), lead, lime, sand and gravel (construction). **Gross state product** (2008): \$237.8 bil. **Sales tax** (2010): 4.225%. **Employment distrib.** (May 2010): 17.8% govt.; 19.0% trade/trans./util.; 9.2% mfg.; 15.0% ed./health; 11.5% prof./bus. serv.; 10.7% leisure/hosp.; 5.9% finance; 4.0% constr.; 2.3% info.; 4.5% other serv. **Unemployment** (2009): 9.3%. **Per cap. pers. income** (2009 prelim.): \$35,676. **New private housing** (2009): 10,056 units/\$1.4 bil. **Commercial banks** (2009): 359; deposits: \$114.3 bil. **Savings institutions** (2009): 32; deposits: \$9.6 bil. **Lottery** (2008): total sales: \$995.5 mil; profit: \$266.6 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 40,828; **avg. salary:** \$61,115. **Notable fed. facilities:** Federal Reserve banks; *Ft. Leonard Wood; Jefferson Barracks Natl. Cem.; Natl. Archives Civilian Personnel Records Ctr.; Whiteman AFB.

Energy. Electricity production (2009 kWh by source): coal: 71.6 bil; gas: 2.5 bil; nuclear: 10.2 bil; petroleum: 56 mil; hydroelectric: 2.5 bil; other: 103 mil.

State data. Motto: Salus Populi Suprema Lex Esto (The welfare of the people shall be the supreme law). **Flower:** Hawthorn. **Bird:** Bluebird. **Tree:** Dogwood. **Song:** "Missouri Waltz." **Entered union:** Aug. 10, 1821; rank: 24th. **State fair** at Sedalia, mid-Aug.; at Bethany, late Aug.-early Sept.

History. In the 17th cent., when French explorers arrived, Algonquian Sauk, Fox, and Illinois and Siouan Osage, Missouri, Iowa, and Kansa peoples were living in the region; few remained by the 1830s. French hunters and lead miners made the first settlement c. 1735, at Ste. Genevieve. The territory was ceded to Spain by the French, 1762, then returned to France, 1800, and acquired by the U.S. in the Louisiana Purchase, 1803. Powerful earthquakes rocked New Madrid, 1811-12. Missouri became a territory, 1812, and entered the Union as a slave state, 1821. St. Louis became the gateway for pioneers heading West. Though Missouri stayed with the Union, pro- and antislavery forces battled there during the Civil War. In the late 19th cent. railroad building and the cattle trade made Kansas City a boomtown. The most notable Missourian of the 20th cent., Harry S. Truman, was U.S. president, 1945-53. The state, a political bellwether, voted for the winner in every presidential election from 1960 to 2004.

Tourist attractions. Silver Dollar City, Branson; Mark Twain Area, Hannibal; Pony Express Museum, St. Joseph;

Harry S. Truman Library, Independence; Gateway Arch, St. Louis; Worlds of Fun, Kansas City; Lake of the Ozarks; Churchill Mem., Fulton; State Capitol, Jefferson City.

Famous Missourians. Maya Angelou, Robert Altman, Burt Bacharach, Josephine Baker, Scott Bakula, Thomas Hart Benton, Tom Berenger, Yogi Berra, Chuck Berry, George Caleb Bingham, Daniel Boone, Omar Bradley, William Burroughs, Kate Capshaw, Dale Carnegie, George Washington Carver, Bob Costas, Walter Cronkite, Walt Disney, T. S. Eliot, Richard Gephardt, John Goodman, Betty Grable, Edwin Hubble, Jesse James, Rush Limbaugh, Marianne Moore, Reinhold Niebuhr, J. C. Penney, John J. Pershing, Brad Pitt, Joseph Pulitzer, Ginger Rogers, Bess Truman, Harry S. Truman, Kathleen Turner, Tina Turner, Mark Twain, Dick Van Dyke, Tennessee Williams, Lanford Wilson, Shelley Winters, Jane Wyman.

Montana (MT) Treasure State

People. Population (2009 est.): 974,989; rank: 44; net change (2008-09): 0.7%. **Pop. density:** 6.7 per sq mi. **Racial distribution** (2009): 90.3% white; 0.7% black; 0.7% Asian; 6.4% Native Amer./AK; 0.07% Hawaiian/Pacific Islander; 2 or more races, 1.8%. **Hispanic pop.** (any race): 3.1%.

Geography. Total area: 147,042 sq mi; rank: 4. **Land area:** 145,552 sq mi; rank: 4. **Acres forested:** 25.0 mil. **Location:** Mountain state bounded on the E by the Dakotas, on the S by Wyoming, on the SSW by Idaho, and on the N by Canada. **Climate:** colder, continental climate with low humidity. **Topography:** Rocky Mts. in western third of the state; eastern two-thirds gently rolling northern Great Plains. **Capital:** Helena.

Economy. Chief industries: agriculture, timber, mining, tourism, oil and gas. **Chief manuf. goods:** sawmills, softwood veneer & plywood, petroleum. **Chief crops:** wheat, barley, hay, sugar beets, potatoes, dry beans, flaxseed, cherries, corn, oats. **Livestock** (Dec. 2009): 540,000 chickens (excl. broilers); (Jan. 2010): 2.6 mil cattle/calves, 20,000 sheep/lambs. **Timber/lumber** (est. 2008): 712.0 mil bd. ft; Douglas fir, pines, larch. **Nonfuel minerals** (2009 prelim.): \$1.1 bil; molybdenum concentrates, copper, platinum metal, palladium metal, sand and gravel (construction). **Gross state product** (2008): \$35.9 bil. **Sales tax** (2010): none. **Employment distrib.** (May 2010): 22.0% govt.; 21.0% trade/trans./util.; 4.0% mfg.; 14.3% ed./health; 8.7% prof./bus. serv.; 12.5% leisure/hosp.; 4.7% finance; 6.9% constr.; 1.7% info.; 4.0% other serv. **Unemployment** (2009): 6.2%. **Per cap. pers. income** (2009 prelim.): \$34,004. **New private housing** (2009): 1,686 units/\$253.6 mil. **Commercial banks** (2009): 78; deposits: \$16.3 bil. **Savings institutions** (2009): 2; deposits: \$257.0 mil. **Lottery** (2008): total sales: \$43.8 mil; profit: \$11.0 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 10,484; **avg. salary:** \$60,971. **Notable fed. facilities:** Malmstrom AFB and missile silos; Ft. Peck, Hungry Horse, Libby, Yellowstone, and other dams.

Energy. Electricity production (2009 kWh by source): coal: 317 mil; hydroelectric: 5.8 bil; other: 56 mil.

State data. Motto: Oro y Plata (Gold and silver). **Flower:** Bitterroot. **Bird:** Western meadowlark. **Tree:** Ponderosa pine. **Song:** "Montana." **Entered union:** Nov. 8, 1889; rank: 41st. **State fair** at Great Falls, late July-early Aug.

History. Paleo-Indian hunters reached the area over 12,000 years ago. Cheyenne, Blackfoot, Crow, Assiniboin, Salish (Flatheads), Kootenai, and Kalispel peoples lived in the region before Europeans arrived. French explorers visited the region, 1742. The U.S. acquired the area partly through the Louisiana Purchase, 1803, partly through explorations of Lewis and Clark, 1805-6. Fur traders and missionaries established posts in the early 19th cent. Gold was discovered on Grasshopper Creek, 1862, and Montana Territory was established, 1864. Indian uprisings reached their peak with the defeat of Gen. George Custer at the Battle of Little Bighorn, 1876. Chief Joseph and the Nez Percé tribe surrendered here, 1877, after a long trek across the state. Mining activity and the coming of the Northern Pacific Railway, 1883, brought population growth. Montana became a state, 1889. Copper wealth from the Butte pits resulted in the turn of the century "War of Copper Kings" as feuding factions contended

for "the richest hill on earth." During the first half of the 20th cent., the Anaconda Copper firm wielded enormous political influence. Jeannette Rankin, a suffragist and pacifist, was the first woman elected to Congress, 1916. Mike Mansfield served 34 years in Congress and was Senate Democratic leader, 1961-77. An 18-year hunt for notorious "Unabomber" Theodore Kaczynski ended with his arrest, 1996, at his cabin near Lincoln.

Tourist attractions. Glacier Natl. Park; Yellowstone Natl. Park; Museum of the Rockies, Bozeman; Museum of the Plains Indian, Blackfeet Reservation, near Browning; Little Bighorn Battlefield Natl. Monument and Custer Natl. Cemetery; Flathead Lake; Helena; Lewis and Clark Caverns State Park, near Whitehall; Lewis and Clark Interpretive Center, Great Falls.

Famous Montanans. Dana Carvey, Gary Cooper, Marcus Daly, Chet Huntley, Will James, Myrna Loy, David Lynch, Mike Mansfield, Brent Musburger, Jeannette Rankin, Charles M. Russell, Lester Thurow.

Nebraska (NE) Cornhusker State

People. Population (2009 est.): 1,796,619; rank: 38; net change (2008-09): 0.8%. **Pop. density:** 23.4 per sq mi. **Racial distribution** (2009): 91.1% white; 4.6% black; 1.7% Asian; 1.1% Native Amer./AK; 0.09% Hawaiian/Pacific Islander; 2 or more races, 1.3%. **Hispanic pop.** (any race): 8.4%.

Geography. Total area: 77,354 sq mi; rank: 16. **Land area:** 76,872 sq mi; rank: 15. **Acres forested:** 1.2 mil. **Location:** West North Central state with the Missouri R. for a NE and E border. **Climate:** continental semi-arid. **Topography:** till plains of the central lowland in the eastern third rising to the Great Plains and hill country of the north central and NW. **Capital:** Lincoln. **Chief airport:** Omaha.

Economy. Chief industries: agriculture, manufacturing. **Chief manuf. goods:** animal slaughtering, grain & oilseed, farm machinery, medical equip., motor vehicle parts, printing, structural metals. **Chief crops:** corn, sorghum, soybeans, hay, wheat, dry beans, oats, potatoes, sugar beets. **Livestock** (Dec. 2009): 11.8 mil chickens (excl. broilers), 3.1 mil hogs/pigs; (Jan. 2010): 6.3 mil cattle/calves, 16,000 sheep/lambs. **Timber/lumber:** figs. withheld; oak, hickory, and elm. **Nonfuel minerals** (2009 prelim.): \$118 mil; cement (portland), stone (crushed), sand and gravel (construction), lime, clays (common). **Gross state product** (2008): \$83.3 bil. **Sales tax** (2010): 5.5%. **Employment distrib.** (May 2010): 18.4% govt.; 20.6% trade/trans./util.; 9.7% mfg.; 14.5% ed./health; 10.5% prof./bus. serv.; 8.8% leisure/hosp.; 7.0% finance; 4.9% constr.; 1.8% info.; 3.8% other serv. **Unemployment** (2009): 4.6%. **Per cap. pers. income** (2009 prelim.): \$38,081. **New private housing** (2009): 5,150 units/\$725.1 mil. **Commercial banks** (2009): 238; deposits: \$42.8 bil. **Savings institutions** (2009): 15; deposits: \$3.5 bil. **Lottery** (2008): total sales: \$121.9 mil; profit: \$31.0 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 10,300; **avg. salary:** \$65,118. **Notable fed. facilities:** *Offutt AFB.

Energy. Electricity production (2009 kWh by source): coal: 23.4 bil; gas: 331 mil; nuclear: 9.4 bil; petroleum: 25 mil; hydroelectric: 401 mil; other: 263 mil.

State data. Motto: Equality before the law. **Flower:** Goldenrod. **Bird:** Western meadowlark. **Tree:** Cottonwood. **Song:** "Beautiful Nebraska." **Entered union:** Mar. 1, 1867; rank: 37th. **State fair** at Grand Island, late Aug.-early Sept.

History. When Europeans arrived, Pawnee, Ponca, Omaha, and Oto peoples lived in the region. Spanish and French explorers and fur traders visited the area prior to its acquisition in the Louisiana Purchase, 1803. Lewis and Clark passed through, 1804-06. The first permanent settlement was Bellevue, near Omaha, 1823. The 1834 Indian Intercourse Act declared Nebraska Indian country and excluded white settlement, but conflicts with settlers eventually forced Native Americans to move to reservations. Nebraska became a territory, 1854, and a state, 1867. Many Civil War veterans settled under free land terms of the 1862 Homestead Act; as agriculture grew, struggles followed between homesteaders and ranchers. Since the mid-1930s, Nebraska has been the only state with a unicameral legislature. A leader in agribusiness, Nebraska has also become a major telemarketing

center. The "Oracle of Omaha," investor Warren Buffett, one of the world's wealthiest men, announced in 2006 he would give most of his \$44 bil fortune to charity.

Tourist attractions. State Museum (Elephant Hall), State Capitol, in Lincoln; Stuhr Museum of the Prairie Pioneer, Grand Island; Museum of the Fur Trade, Chadron; Henry Doorly Zoo, Joslyn Art Museum, in Omaha; Ashfall Fossil Beds, Strategic Air and Space Museum, Ashland; Boys Town, Omaha; Arbor Lodge State Park, Nebraska City; Buffalo Bill Ranch State Hist. Park, North Platte; Pioneer Village, Minden; Oregon Trail landmarks; Scotts Bluff Natl. Monument; Chimney Rock Natl. Historic Site; Ft. Robinson; Hastings Museum of Natural and Cultural Hist.

Energy. Electricity production (2009 kWh by source): coal: 6.4 bil; gas: 14.3 bil; petroleum: 10 mil; hydroelectric: 2.4 bil; other: 1 mil.

State data. Motto: All for our country. **Flower:** Sagebrush. **Bird:** Mountain bluebird. **Trees:** Single-leaf piñon and bristlecone pine. **Song:** "Home Means Nevada." **Entered union:** Oct. 31, 1864; rank: 36th. **State fair** at Reno, late Aug.

History. Shoshone, Paiute, Bannock, and Washoe peoples lived in the area at the time of European contact. Nevada was first explored by Spaniards, 1776. In the 1820s, fur traders Peter Skene Ogden and Jedediah Smith separately explored the area. It was acquired by the U.S., 1848, at the end of the Mexican War. A trading post at Mormon Station, now Genoa, was established, 1850. Discovery of the Comstock Lode, rich in gold and silver, 1859, spurred a pop-

ulation boom. Nevada became a territory, 1861, and a state, 1864. Hoover Dam was built, 1931-36. With gambling legal since 1931, a surge in resort casino construction after World War II turned Las Vegas into one of the nation's most popular tourist destinations. An influx of Hispanics and Asians, attracted by service-industry and construction jobs, helped make Nevada the fastest-growing state in the U.S. during 1990-2005, and again in 2007. The recession in recent years has had an equally powerful effect. Nevada had the second-highest state unemployment rate and the highest home foreclosure rate in 2009.

Tourist attractions. Legalized gambling at Lake Tahoe, Reno, Las Vegas, Laughlin, Elko County, and elsewhere; Hoover Dam; Lake Mead; Great Basin Natl. Park; Valley of Fire State Park; Virginia City; Red Rock Canyon Natl. New Hampshire (NH)

Granite State

People. Population (2009 est.): 1,324,575; rank: 40; net change (2008-09): 0.2%. **Pop. density:** 148.0 per sq mi. **Racial distribution** (2009): 95.3% white; 1.4% black; 2.0% Asian; 0.3% Native Amer./AK; 0.04% Hawaiian/Pacific Islander; 2 or more races, 1.1%. **Hispanic pop.** (any race): 2.8%.

Geography. Total area: 9,350 sq mi; rank: 46. **Land area:** 8,968 sq mi; rank: 44. **Acres forested:** 4.9 mil. **Location:** New England state bounded on S by Massachusetts, on W by Vermont, on N and NW by Canada, on E by Maine and the Atlantic Ocean. **Climate:** highly varied, due to its nearness to high mountains and ocean. **Topography:** low, rolling coast followed by countless hills and mountains rising out of a central plateau. **Capital:** Concord. **Chief airport:** Manchester.

Economy. Chief industries: tourism, manufacturing, agriculture, trade, mining. **Chief manuf. goods:** navigational instr., circuit boards, electrical equip., fabricated metal, machinery, medical equip., plastics. **Chief crops:** greenhouse & nursery, apples, sweet corn, hay, Christmas trees, berries, maple syrup. **Livestock** (Jan. 2010): 37,000 cattle/calves. **Timber/lumber** (est. 2008): 217 mil bd. ft; white pine, hemlock, oak, birch. **Nonfuel minerals** (2009 prelim.): \$84.8 mil; stone (crushed), sand and gravel (construction), stone (dimension), gemstones (natural). **Commercial fishing** (2008): \$20.8 mil. **Chief port:** Portsmouth. **Gross state product** (2008): \$60.0 bil. **Sales tax** (2010): none. **Employment distrib.** (May 2010): 16.3% govt.; 21.3% trade/trans./util.; 10.3% mfg.; 17.2% ed./health; 10.2% prof./bus. serv.; 9.9% leisure/hosp.; 5.5% finance; 3.8% constr.; 2.0% info.; 3.6% other serv. **Unemployment** (2009): 6.3%. **Per cap. pers. income** (2009 prelim.): \$42,831. **New private housing** (2009): 2,287 units/\$420.8 mil. **Commercial banks** (2009): 18; deposits: \$17.8 bil. **Savings institutions** (2009): 22; deposits: \$7.2 bil. **Lottery** (2008): total sales: \$261.1 mil; profit: \$75.7 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 4,384; **avg. salary:** \$79,621. **Notable fed. facilities:** Army Cold Regions Res. & Engineering Lab.

Energy. Electricity production (2009 kWh by source): coal: 2.9 bil; gas: 35 mil; petroleum: 149 mil; hydroelectric: 409 mil; other: 318 mil.

State data. Motto: Live free or die. **Flower:** Purple lilac. **Bird:** Purple finch. **Tree:** White birch. **Song:** "Old New Hampshire." **Ninth** of the original 13 states to ratify the Constitution, June 21, 1788. **State fair:** no official state fair; many agricultural fairs statewide, July through Sept.

History. The area has been inhabited for about 10,000 years. Algonquian-speaking peoples, including the Pennacook, lived in the region when the Europeans arrived. The first explorers to visit the area were England's Martin Pring, 1603, and France's Champlain, 1605. The first settlement was Odiorne's Point (now port of Rye), 1623. Before the American Revolution, New Hampshire residents raided a

British fort at Portsmouth, 1774, and drove the royal governor out, 1775. New Hampshire became the first colony to adopt its own constitution, 1776. After statehood, 1788, New Hampshire became a textile manufacturing center. The mill towns declined in the first half of the 20th cent., but tourism and high-technology industries, lured by low taxes, have revived the economy since the 1960s. A state law requires it to hold the first primary of the presidential campaign season.

Tourist attractions. Mt. Washington, highest peak in Northeast; Lake Winnepesaukee; Crawford, Franconia, Pinkham notches, Flume Gorge, Canon Mt. aerial tramway, all White Mt. region; Strawberry Banke, Portsmouth; Canterbury Shaker Village; Saint-Gaudens, Natl. New Jersey (NJ) Garden State

People. Population (2009 est.): 8,707,739; rank: 11; net change (2008-09): 0.5%. **Pop. density:** 1,184.1 per sq mi. **Racial distribution** (2009): 75.8% white; 14.5% black; 7.8% Asian; 0.4% Native Amer./AK; 0.09% Hawaiian/Pacific Islander; 2 or more races, 1.4%. **Hispanic pop.** (any race): 16.7%.

Geography. Total area: 8,721 sq mi; rank: 47. **Land area:** 7,417 sq mi; rank: 46. **Acres forested:** 2.1 mil. **Location:** Middle Atlantic state bounded on N and E by New York and Atlantic Ocean, on S and W by Delaware and Pennsylvania. **Climate:** moderate, with marked difference bet. NW and SE extremities. **Topography:** Appalachian Valley in the NW also has highest elevation, High Pt., 1,801 ft; Appalachian Highlands, flat-topped NE-SW mountain ranges; Piedmont Plateau, low plains broken by high ridges (Palisades) rising 400-500 ft; Coastal Plain, covering three-fifths of state in SE, rises from sea level to gentle slopes. **Capital:** Trenton. **Chief airports:** Atlantic City, Newark.

Economy. Chief industries: pharmaceuticals, telecommunications, biotechnology, printing & publishing. **Chief manuf. goods:** petroleum, pharmaceuticals, toiletries, chemicals, plastics, printing, navigational instr., medical equip., paper prod. **Chief crops:** greenhouse & nursery, blueberries, peaches, corn, hay, tomatoes, bell peppers, cranberries, soybeans, apples. **Livestock** (Jan. 2010): 36,000 cattle/calves. **Timber/lumber** (est. 2008): 34.0 mil bd. ft; pine, cedar, mixed hardwoods. **Nonfuel minerals** (2009 prelim.): \$279.0 mil; sand and gravel (construction), stone (crushed), sand and gravel (industrial), greensand marl, peat. **Commercial fishing** (2008): \$168.7 mil. **Chief ports:** Newark-Elizabeth, Camden. **Gross state product** (2008): \$474.9 bil. **Sales tax** (2010): 7.0%. **Employment distrib.** (May 2010): 17.3% govt.; 20.8% trade/trans./util.; 6.6% mfg.; 15.6% ed./health; 14.9% prof./bus. serv.; 8.8% leisure/hosp.; 6.4% finance; 3.3% constr.; 2.1% info.; 4.1% other serv. **Unemployment** (2009): 9.2%. **Per cap. pers. income** (2009 prelim.): \$50,313. **New private housing** (2009): 12,421 units/\$2.1 bil. **Commercial banks** (2009): 100; deposits: \$169.5 bil. **Savings institutions** (2009): 73; deposits: \$80.5 bil. **Lottery** (2008): total sales: \$2.5 bil; profit: \$882.1 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 30,186; **avg. salary:** \$82,296. **Notable fed. facilities:** Joint Base McGuire-Dix-Lakehurst Picatinny Arsenal; FAA William J. Hughes Technical Ctr.

Energy. Electricity production (2009 kWh by source): hydroelectric: -202 mil.

State data. Motto: Liberty and prosperity. **Flower:** Purple violet. **Bird:** Eastern goldfinch. **Tree:** Red oak. **Third** of the original 13 states to ratify the Constitution, Dec. 18, 1787. **State fair** at Augusta, late July-early Aug.

History. The Lenni Lenape (Delaware) peoples lived in the region and had mostly peaceful relations with European colonists, who arrived after the explorers Verrazano, 1524, and Hudson, 1609. The first permanent European settlement was Dutch, at Bergen (now Jersey City), 1660. When the British took New Netherland, 1664, the area between the Delaware

and Hudson Rivers was given to Lord John Berkeley and Sir George Carteret. During the American Revolution, New Jersey was the scene of many major battles, including Trenton, 1776; Princeton, 1777; and Monmouth, 1778. New Jersey was the third state to ratify the Constitution, 1787, and the first to approve the Bill of Rights, 1789. In a duel at Weehawken, 1804, Vice Pres. Aaron Burr fatally shot Alexander Hamilton. Canal and railroad building stimulated the growth of cities and industries in the 19th cent. The 20th cent. arrival of large numbers of African Americans, Italians, Irish, European Jews, Puerto Ricans, Asian Indians, and other groups made New Jersey one of the most diverse states in the U.S. Construction of resort casinos in Atlantic City from the late 1970s revitalized tourism. Gov. James McGreevey resigned, 2004, after acknowledging an extramarital affair with a man identified as his former homeland security adviser.

Tourist attractions. 127 mi of beaches, boardwalks at Atlantic City (with gambling), Seaside Heights, Ocean City, Wildwood; Grover Cleveland birthplace, Caldwell; Cape May Historic District; Edison Natl. Historic Site, W. Orange; Six Flags Great Adventure, Jackson; Liberty State Park, Liberty Science Center, Jersey City; Pine Barrens wilderness area; Princeton University; Revolutionary War sites; Adventure Aquarium, Battleship NJ, Walt Whitman house, Camden.

Famous New Jerseyans. Jason Alexander, Samuel Alito, Count Basie, Judy Blume, Jon Bon Jovi, Bill Bradley, Aaron Burr, Grover Cleveland, James Fenimore Cooper, Stephen Crane, Danny DeVito, Thomas Edison, Albert Einstein, James Gandolfini, Allen Ginsberg, Alexander Hamilton, Ed Harris, Whitney Houston, Buster Keaton, Joyce Kilmer, Norman Mailer, Jack Nicholson, Thomas Paine, Dorothy Parker, Joe Pesci, Molly Pitcher, Paul Robeson, Philip Roth, Antonin Scalia, Wally Schirra, H. Norman Schwarzkopf, Frank Sinatra, Bruce Springsteen, Martha Stewart, Meryl Streep, Dave Thomas, John Travolta, Walt Whitman, William Carlos Williams, Woodrow Wilson.

New Mexico (NM) Land of Enchantment

People. Population (2009 est.): 2,009,671; rank: 36; net change (2008-09): 1.2%. **Pop. density:** 16.6 per sq mi. **Racial distribution** (2009): 83.6% white; 3.1% black; 1.5% Asian; 9.7% Native Amer./AK; 0.2% Hawaiian/Pacific Islander; 2 or more races, 1.9%. **Hispanic pop.** (any race): 45.6%.

Geography. Total area: 121,589 sq mi; rank: 5. **Land area:** 121,356 sq mi; rank: 5. **Acres forested:** 16.7 mil. **Location:** Southwestern state bounded by Colorado on the N, Oklahoma, Texas, and Mexico on the E and S, and Arizona on the W. **Climate:** dry, with temperatures rising or falling 5°F with every 1,000 ft elevation. **Topography:** eastern third, Great Plains; central third, Rocky Mts. (85% of the state is over 4,000-ft elevation); western third, high plateau. **Capital:** Santa Fe. **Chief airport:** Albuquerque.

Economy. Chief industries: government, services, trade. **Chief manuf. goods:** semiconductors, medical equip., navigational/measuring/medical/control instruments, aircrafts, chemicals, jewelry. **Chief crops:** hay, pecans, corn, greenhouse & nursery, chiles, onions, cotton, wheat, peanuts. **Livestock** (Jan. 2010): 1.55 mil cattle/calves, 15,000 sheep/lambs. **Timber/lumber:** figs. withheld; ponderosa pine, Douglas fir. **Nonfuel minerals** (2009 prelim.): \$974 mil; potash, copper, sand and gravel (construction), molybdenum concentrates, cement (portland). **Gross state product** (2008): \$79.9 bil. **Sales tax** (2010): 5.0%. **Employment distrib.** (May 2010): 25.8% govt.; 15.9% trade/trans./util.; 3.7% mfg.; 15.1% ed./health; 12.2% prof./bus. serv.; 10.8% leisure/hosp.; 4.0% finance; 7.4% constr.; 1.8% info.; 3.4% other serv. **Unemployment** (2009): 7.2%. **Per cap. pers. income** (2009 prelim.): \$32,992. **New private housing** (2009): 4,642 units/\$769.5 mil. **Commercial banks** (2009): 56; deposits: \$22.7 bil. **Savings institutions** (2009): 11; deposits: \$2.2 bil. **Lottery** (2008): total sales: \$147.1 mil; profit: \$40.8 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 26,617; **avg. salary:** \$65,657. **Notable fed. facilities:** Kirtland, *Canon, *Holloman AF bases; Los Alamos Natl. Lab; *White

Sands Missile Range; Natl. Solar Observatory; Natl. Radio Astronomy Observatory; Sandia Natl. Labs.

Energy. Electricity production (2009 kWh by source): coal: 29.1 bil; gas: 4.7 bil; petroleum: 43 mil; hydroelectric: 301 mil.

State data. Motto: Crescit Eundo (It grows as it goes). **Flower:** Yucca. **Bird:** Roadrunner. **Tree:** Piñon. **Songs:** "O, Fair New Mexico"; "Así Es Nuevo México." **Entered union:** Jan. 6, 1912; rank: 47th. **State fair** at Albuquerque, mid-Sept.; at Las Cruces, early Oct.; at Roswell, early Oct.; at Deming, early Oct.

History. Inhabited for more than 10,000 years, the region was home to Sandia, Clovis, Folsom, Mogollon, and Anasazi cultures, followed by the Pueblo people, Anasazi descendants; later, nomadic Navajo and Apache came. Franciscan Marcos de Niza and a former black slave, Estevanico, explored the area, 1539, seeking gold; Coronado followed, 1540. First settlements were near San Juan Pueblo, 1598, and at Santa Fe, 1610. Settlers alternately traded and fought with the Apache, Comanche, and Navajo. Trade on the Santa Fe Trail to Missouri started, 1821. After the Mexican War began, 1846, Gen. Stephen Kearny took Santa Fe without firing a shot, and declared New Mexico part of the U.S. All Hispanic New Mexicans and Pueblo became U.S. citizens by terms of the 1848 treaty ending the war. New Mexico became a territory, 1850, but did not attain statehood until 1912. Pancho Villa raided Columbus, 1916, and U.S. troops were sent to the area. The world's first atomic bomb was exploded at a test site near Alamogordo, 1945. An underground nuclear waste depository opened near Carlsbad, 1999. Construction on a "spaceport" for space tourism, partially financed by the state, began June 2009.

Tourist attractions. Carlsbad Caverns Natl. Park, with world's largest natural underground chamber; Santa Fe, oldest capital in U.S.; White Sands Natl. Monument, world's largest gypsum deposit; Chaco Culture Natl. Hist. Park; Acoma Pueblo, "sky city" built atop a 357-ft mesa; Taos Art Colony and Ski Valley; Ute Lake State Park; Shiprock; Roswell.

Famous New Mexicans. Ben Abruzzo, Maxie Anderson, Jeff Bezos, Billy (the Kid) Bonney, Kit Carson, Bob Foster, Peter Hurd, Tony Hillerman, Archbishop Jean Baptiste Lamy, Nancy Lopez, Bill Mauldin, Georgia O'Keeffe, Bill Richardson, Kim Stanley, Al Unser, Bobby Unser, Lew Wallace.

Tourist information. New Mexico Dept. of Tourism, 491 Old Santa Fe Trl., Santa Fe, NM 87501; 1-800-733-6396; www.newmexico.org

New York (NY) Empire State

People. Population (2009 est.): 19,541,453; rank: 3; net change (2008-09): 0.4%. **Pop. density:** 414.7 per sq mi. **Racial distribution** (2009): 73.4% white; 17.2% black; 7.1% Asian; 0.6% Native Amer./AK; 0.1% Hawaiian/Pacific Islander; 2 or more races, 1.6%. **Hispanic pop.** (any race): 16.8%.

Geography. Total area: 54,556 sq mi; rank: 27. **Land area:** 47,214 sq mi; rank: 30. **Acres forested:** 18.7 mil. **Location:** Middle Atlantic state, bordered by the New England states, Atlantic Ocean, New Jersey and Pennsylvania, Lakes Ontario and Erie, and Canada. **Climate:** variable; the SE region moderated by the ocean. **Topography:** highest and most rugged mountains in the NE Adirondack upland; St. Lawrence-Champlain lowlands extend from Lake Ontario NE along the Canadian border; Hudson-Mohawk lowland follows the flows of the rivers N and W, 10-30 mi wide; Atlantic coastal plain in the SE; Appalachian Highlands, covering half the state westward from the Hudson Valley, include the Catskill Mts., Finger Lakes; plateau of Erie-Ontario lowlands. **Capital:** Albany. **Chief airports:** Albany, Buffalo, Islip, New York (2), Rochester, Syracuse, White Plains.

Economy. Chief industries: manufacturing, finance, communications, tourism, transportation, services. **Chief manuf. goods:** pharmaceuticals, photographic chemicals, electronics, automotive parts, toiletries, printing, plastics, apparel. **Chief crops:** greenhouse & nursery, apples, corn, hay, cabbage, onions, soybeans, potatoes, snap beans, grapes, squash, pumpkins, tomatoes, wheat, cucumbers, green peas. **Livestock** (Dec. 2009): 5.1 mil chickens (excl. broilers); (Jan. 2010): 1.4 mil cattle/calves, 12,000 sheep/lambs. **Timber/lumber** (est. 2008): 514.0 mil bd. ft; birch, sugar and red maple, basswood, hemlock, pine, oak, ash. **Non-fuel minerals** (2009 prelim.): \$1.3 bil; salt, stone (crushed), cement (portland), sand and gravel (construction), wollastonite. **Commercial fishing** (2008): \$57.3 mil. **Chief ports:**

New York, Buffalo, Albany. **Gross state product** (2008): \$1.1 trillion. **Sales tax** (2010): 4.0%. **Employment distrib.** (May 2010): 18.1% govt.; 16.8% trade/trans./util.; 5.4% mfg.; 19.9% ed./health; 12.7% prof./bus. serv.; 8.5% leisure/hosp.; 7.8% finance; 3.7% constr.; 2.9% info.; 4.3% other serv. **Unemployment** (2009): 8.4%. **Per cap. pers. income** (2009 prelim.): \$46,957. **New private housing** (2009): 18,344 units/\$3.1 bil. **Commercial banks** (2009): 163; deposits: \$692.9 bil. **Savings institutions** (2009): 76; deposits: \$92.1 bil. **Lottery** (2008): total sales: \$7.5 bil; profit: \$2.6 bil.

Federal govt. Fed. civ. employees (Mar. 2010): 68,019; **avg. salary:** \$72,352. **Notable fed. facilities:** Ft. Drum; West Point Military Academy; Merchant Marine Academy; NY Fed. Reserve; Griffis AFB (Research Lab), Rome; Watervliet Arsenal; Brookhaven Natl. Lab.; U.S. Mission to the United Nations.

Energy. Electricity production (2009 kWh by source): gas: 12.3 bil; petroleum: 1.3 bil; hydroelectric: 22.2 bil.

State data. Motto: Excelsior (Ever upward). **Flower:** Rose. **Bird:** Bluebird. **Tree:** Sugar maple. **Song:** "I Love New York." **Eleventh** of the original 13 states to ratify the Constitution, July 26, 1788. **State fair** at Syracuse, late Aug.-early Sept.

History. When Europeans arrived, Algonquians including the Mahican, Wappinger, and Lenni Lenape inhabited the region, as did the Iroquoian Mohawk, Oneida, Onondaga, Cayuga, and Seneca tribes, who established the League of the Five Nations. Verrazano entered New York harbor, 1524. In 1609, Henry Hudson visited the river later named for him, and Champlain explored the lake that now bears his name. The first permanent settlement was Dutch, near present-day Albany, 1624. New Amsterdam was settled, 1626, at the S tip of Manhattan island. A British fleet seized New Netherland, 1664. Key battles of the American Revolution included Saratoga, 1777. In the 19th cent., New York City emerged as one of the world's great metropolitan areas, a center for trade, finance, and arts, and a haven for millions of immigrants. Completion of Erie Canal, 1825, established the state as a gateway to the West. The first women's rights convention was held in Seneca Falls, 1848. Although the state backed the Union in the Civil War, an 1863 military draft triggered 3 days of riots in New York City. Industry declined in the 20th cent., and California and Texas passed New York in population. Attica was the scene of a bloody prison revolt, 1971. New Yorkers, 2000, elected former First Lady Hillary Rodham Clinton to the U.S. Senate. Two jet aircraft hijacked by terrorists on Sept. 11, 2001, destroyed the World Trade Center in lower Manhattan.

Tourist attractions. New York City; Adirondack and Catskill Mts.; Finger Lakes; Great Lakes; Thousand Islands; Niagara Falls; Saratoga Springs; Philipsburg Manor, Sunnyside (Washington Irving's home), Dutch Church of Sleepy Hollow, near Tarrytown; Corning Museum of Glass; Fenimore House, Natl. Baseball Hall of Fame and Museum, Cooperstown; Ft. Ticonderoga; Empire State Plaza, Albany; Lake Placid; Franklin D. Roosevelt Natl. Historic Site, Hyde Park; Long Island beaches; Theodore Roosevelt estate, Sagamore Hill, Oyster Bay; Turning Stone Casino.

Famous New Yorkers. Woody Allen, Susan B. Anthony, James Baldwin, Lucille Ball, Ann Bancroft, L. Frank Baum, Milton Berle, Humphrey Bogart, Barbara Boxer, Mel Brooks, Benjamin Cardozo, De Witt Clinton, Peter Cooper, Aaron Copland, Tom Cruise, Robert De Niro, George Eastman, Millard Fillmore, Lou Gehrig, George and Ira Gershwin, Ruth Bader Ginsburg, Rudolph Giuliani, Jackie Gleason, Stephen Jay Gould, Julia Ward Howe, Charles Evans Hughes, Washington Irving, Henry and William James, John Jay, Michael Jordan, Edward Koch, Fiorello LaGuardia, Herman Melville, Arthur Miller, J. Pierpont Morgan Jr., Eddie Murphy, Joyce Carol Oates, Carroll O'Connor, Rosie O'Donnell, Eugene O'Neill, Jerry Orbach, George Pataki, Colin Powell, Nancy Reagan, John D. Rockefeller, Nelson Rockefeller, John Roberts, Richard Rodgers, Ray Romano, Eleanor Roosevelt, Franklin D. Roosevelt, Theodore Roosevelt, Tim Russert, J. D. Salinger, Caroline Kennedy Schlossberg, Jerry Seinfeld, Al Sharpton, Paul Simon, Alfred E. Smith, Elizabeth Cady Stanton, Barbra Streisand, Donald Trump, William (Boss) Tweed, Martin Van Buren, Luther Vandross, Gore Vidal, Denzel Washington, Edith Wharton, Walt Whitman.

North Carolina (NC)

Tar Heel State, Old North State

People. Population (2009 est.): 9,380,884; rank: 10; net change (2008-09): 1.4%. **Pop. density:** 192.9 per sq mi. **Racial distribution** (2009): 73.7% white; 21.6% black; 2.0% Asian; 1.3% Native Amer./AK; 0.08% Hawaiian/Pacific Islander; 2 or more races, 1.3%. **Hispanic pop.** (any race): 7.7%.

Geography. Total area: 53,819 sq mi; rank: 28. **Land area:** 48,711 sq mi; rank: 29. **Acres forested:** 18.4 mil. **Location:** South Atlantic state bounded by Virginia, South Carolina, Georgia, Tennessee, and the Atlantic Ocean. **Climate:** sub-tropical in SE, medium-continental in mountain region; tempered by the Gulf Stream and the mountains in W. **Topography:** coastal plain and tidewater, two-fifths of state, extending to the fall line of the rivers; piedmont plateau, another two-fifths, of gentle to rugged hills; southern Appalachian Mts. contains the Blue Ridge and Great Smoky Mts. **Capital:** Raleigh. **Chief airports:** Charlotte, Greensboro, Raleigh.

Economy. Chief industries: manufacturing, agriculture, tourism. **Chief manuf. goods:** transportation, tobacco, pharmaceuticals, toiletries, plastics, animal slaughtering & processing, household furniture, fabric & apparel. **Chief crops:** greenhouse & nursery, tobacco, cotton, soybeans, corn, Christmas trees, sweet potatoes, wheat, peanuts, blueberries, cucumbers, tomatoes, hay, potatoes. **Livestock** (Dec. 2009): 20.1 mil chickens (excl. broilers), 759.6 mil broilers, 9.6 mil hogs/pigs; (Jan. 2010): 820,000 cattle/calves, 5,000 sheep/lambs. **Timber/lumber** (est. 2008): 2.0 bil bd. ft; yellow pine, oak, hickory, poplar, maple. **Nonfuel minerals** (2009 prelim.): \$839 mil; stone (crushed), phosphate rock, sand and gravel (construction), sand and gravel (industrial), stone (dimension). **Commercial fishing** (2008): \$86.8 mil. **Chief ports:** Morehead City, Wilmington. **Gross state product** (2008): \$400.2 bil. **Sales tax** (2010): 5.75%. **Employment distrib.** (May 2010): 19.5% govt.; 18% trade/trans./util.; 10.9% mfg.; 14.0% ed./health; 12.0% prof./bus. serv.; 10.2% leisure/hosp.; 5.0% finance; 4.6% constr.; 1.7% info.; 4.1% other serv. **Unemployment** (2009): 10.6%. **Per cap. pers. income** (2009 prelim.): \$34,453. **New private housing** (2009): 33,800 units/\$5.0 bil. **Commercial banks** (2009): 97; deposits: \$297.4 bil. **Savings institutions** (2009): 37; deposits: \$7.2 bil. **Lottery** (2008): total sales: \$1.1 bil; profit: \$350.0 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 42,371; **avg. salary:** \$64,775. **Notable fed. facilities:** Ft. Bragg; *Camp LeJeune Marine Base. *Cherry Point Marine Air Station; NOAA Natl. Climatic Data Ctr.; Natl. Inst. of Environmental Health Sciences, EPA Research & Dev. Labs, all in Research Triangle Park.

Energy. Electricity production (2009 kWh by source): coal: 62.8 bil; gas: 4 bil; nuclear: 40.8 bil; petroleum: 227 mil; hydroelectric: 4.9 bil; other: 2 mil.

State data. Motto: Esse Quam Videri (To be rather than to seem). **Flower:** Dogwood. **Bird:** Cardinal. **Tree:** Pine. **Song:** "The Old North State." **Twelfth** of the original 13 states to ratify the Constitution, Nov. 21, 1789. **State fair** at Raleigh, mid-Oct.; at Fletcher, mid-Sept.

History. Algonquian, Siouan, and Iroquoian peoples lived in the region at the time of European contact. Sir Walter Raleigh tried to found a colony, 1584-87; the "Lost Colony" on Roanoke Island, 1587, disappeared without a trace. Permanent settlers came from Virginia in the mid-17th cent. The province's congress was the first to vote for independence, 1776. In the Revolutionary War, Cornwallis's forces were defeated at Kings Mountain, 1780, and forced out after Guilford Courthouse, 1781. The state ratified the Constitution, 1789, only after Congress passed the Bill of Rights. North Carolina, with a slave population of 1/3, seceded from the Union, 1861, and provided more troops to the Confederacy than any other state; it was readmitted, 1868. The Wright brothers made the first powered airplane flight at Kitty Hawk, 1903. Sit-ins at segregated Greensboro lunch counters, 1960, drew national attention to the civil rights movement. Long reliant on tobacco, textiles, and wood products, North Carolina has prospered since the 1960s from advanced technologies in the Raleigh-Durham-Chapel Hill area and banking in Charlotte. The hurricane-prone state was hit hard by Hazel, 1954, Fran, 1996, and Floyd, 1999.

Tourist attractions. Cape Hatteras and Cape Lookout natl. seashores; Great Smoky Mts.; Guilford Courthouse and Moore's Creek parks; 66 American Revolution battle

sites; Bennett Place (where last Confederate army surrendered), near Durham; Ft. Raleigh, Roanoke Island; Wright Brothers Natl. Memorial, Kitty Hawk; Battleship *North Carolina*, Wilmington; NC Zoo, Asheboro; NC Symphony, Exploris, NC museums of Art, Nat. Sciences, History, in Raleigh; Carl Sandburg Home, Hendersonville; Biltmore House and Gardens, Asheville.

Famous North Carolinians. David Brinkley, Shirley Caesar, John Coltrane, Rick Dees, Elizabeth Hanford Dole, John Edwards, Ava Gardner, Richard J. Gatling, Billy Graham, Andy Griffith, O. Henry, Andrew Jackson, Andrew Johnson, Michael Jordan, Wm. Rufus King, Charles Kuralt, Meadowlark Lemon, Dolley Madison, Thelonious Monk, Edward R. Murrow, Arnold Palmer, Richard Petty, James K. Polk, Charlie Rose, Carl Sandburg, Enos Slaughter, Dean Smith, James Taylor, Thomas Wolfe.

North Dakota (ND)

Peace Garden State

People. Population (2009 est.): 646,844; rank: 48; net change (2008-09): 0.8%. **Pop. density:** 9.4 per sq mi. **Racial distribution** (2009): 91.1% white; 1.2% black; 0.8% Asian; 5.6% Native Amer./AK; 0.05% Hawaiian/Pacific Islander; 2 or more races, 1.2%. **Hispanic pop.** (any race): 2.3%.

Geography. Total area: 70,700 sq mi; rank: 19. **Land area:** 68,976 sq mi; rank: 17. **Acres forested:** 0.7 mil. **Location:** West North Central state, situated exactly in the middle of North America, bounded on the N by Canada, on the E by Minnesota, on the S by South Dakota, on the W by Montana. **Climate:** continental, with a wide range of temperature and moderate rainfall. **Topography:** Central Lowland in the E comprises the flat Red River Valley and the Rolling Drift Prairie; Missouri Plateau of the Great Plains on the W. **Capital:** Bismarck.

Economy. Chief industries: agriculture, mining, tourism, manufacturing, telecommunications, energy, food processing. **Chief manuf. goods:** machinery, wood product, motor vehicles & parts, furniture, processed foods. **Chief crops:** wheat, soybeans, corn, sugar beets, barley, dry beans, sunflowers, canola, potatoes, flaxseed, hay, dry peas, lentils, oats. **Livestock** (Jan. 2010): 1.7 mil cattle/calves, 17,000 sheep/lambs. **Timber/lumber:** figs. withheld; oak, ash, cottonwood, aspen. **Nonfuel minerals** (2009 prelim.): \$33.1 mil; sand and gravel (construction), lime, clays (common), sand and gravel (industrial), stone (crushed). **Gross state product** (2008): \$31.2 bil. **Sales tax** (2010): 5.0%. **Employment distrib.** (May 2010): 22.0% govt.; 21.0% trade/trans./util.; 6.2% mfg.; 14.5% ed./health; 7.8% prof./bus. serv.; 9.2% leisure/hosp.; 5.4% finance; 7.8% constr.; 1.9% info.; 4.1% other serv. **Unemployment** (2009): 4.3%. **Per cap. pers. income** (2009 prelim.): \$39,530. **New private housing** (2009): 3,195 units/\$352.5 mil. **Commercial banks** (2009): 100; deposits: \$15.7 bil. **Savings institutions** (2009): 2; deposits: \$1.0 bil. **Lottery** (2008): total sales: \$22.1 mil; profit: \$6.1 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 6,564; **avg. salary:** \$60,362. **Notable fed. facilities:** Minot AFB; *Grand Forks AFB; Northern Prairie Wildlife Res. Ctr.; Garrison Dam Nat. Fish Hatchery; Grand Forks Human Nutrition Res. Ctr.

Energy. Electricity production (2009 kWh by source): coal: 29.7 bil; petroleum: 41 mil; hydroelectric: 1.5 bil; other: 376 mil.

State data. Motto: Liberty and union, now and forever, one and inseparable. **Flower:** Wild prairie rose. **Bird:** Western meadowlark. **Tree:** American elm. **Song:** "North Dakota Hymn." **Entered union:** Nov. 2, 1889; rank: 39th. **State fair** at Minot, late July.

History. Paleo-Indian peoples hunted in the area at least 11,000 years ago. At the time of European contact, the Ojibwa, Yanktonai and Teton Sioux, Mandan, Arikara, and Hidatsa peoples lived in the region. Pierre de Varennes, sieur de La Vérendrye, was the first French fur trader in the area, 1738, followed by the English at the end of the 18th cent. Lewis and Clark built Ft. Mandan, near present-day Washburn, 1804-05, and wintered there. The first permanent settlement was at Pembina, 1812. Missouri River steamboats reached the area, 1832. Dakota Territory was organized, 1861. The first railroad arrived, 1872. The "bonanza farm"

craze of the 1870s-80s led to statehood, 1889. The Nonpartisan League, a farmers' group favoring state ownership of industries, helped elect Lynn Frazier as governor, 1916, but he and others were ousted in a recall vote, 1921. The predominantly agricultural state had a 6.5% drop in population, 1930-2005.

Tourist attractions. North Dakota Heritage Center, Bismarck; Bonanzaville, Fargo; Ft. Union Trading Post Natl. Historic Site; Lake Sakakawea; Intl. Peace Garden; Theodore Roosevelt Natl. Park, including Elkhorn Ranch, Badlands; Ft. Abraham Lincoln State Park and Museum, near Mandan; Dakota Dinosaur Museum, Dickinson; Knife River Indian Villages-Natl. Hist. Site.

Famous North Dakotans. Maxwell Anderson, Angie Dickinson, John Bernard Flannagan, Phil Jackson, Louis L'Amour, Peggy Lee, Eric Sevareid, Ann Sothorn, Vilhjalmur Stefansson, Lawrence Welk.

Ohio (OH) Buckeye State

People. Population (2009 est.): 11,542,645; rank: 7; net change (2008-09): 0.1%. **Pop. density:** 282.5 per sq mi. **Racial distribution** (2009): 84.7% white; 12.1% black; 1.6% Asian; 0.3% Native Amer./AK; 0.04% Hawaiian/Pacific Islander; 2 or more races, 1.4%. **Hispanic pop.** (any race): 2.8%.

Geography. Total area: 44,825 sq mi; rank: 34. **Land area:** 40,948 sq mi; rank: 35. **Acres forested:** 7.9 mil. **Location:** East North Central state bounded on the N by Michigan and Lake Erie; on the E and S by Pennsylvania, West Virginia, and Kentucky; on the W by Indiana. **Climate:** temperate but variable; weather subject to much precipitation. **Topography:** generally rolling plain; Allegheny plateau in E; Lake Erie plains extend southward; central plains in the W. **Capital:** Columbus. **Chief airports:** Akron, Cleveland, Columbus, Dayton.

Economy. Chief industries: manufacturing, trade, services. **Chief manuf. goods:** motor vehicles & parts, petroleum, plastics & rubber, iron & steel, aircraft, machinery, fabricated metal, printing. **Chief crops:** corn, soybeans, hay, wheat, grapes, potatoes, tomatoes, apples, strawberries, tobacco. **Livestock** (Dec. 2009): 35.4 mil chickens (excl. broilers), 56.4 mil broilers, 2.0 mil hogs/pigs; (Jan. 2010): 1.3 mil cattle/calves, 25,000 sheep/lambs. **Timber/lumber** (est. 2008): 313.0 mil bd. ft; oak, ash, maple, walnut, beech. **Nonfuel minerals** (2009 prelim.): \$975.0 mil; stone (crushed), salt, sand and gravel (construction), lime, cement (portland). **Commercial fishing** (2008): \$10.6 mil. **Chief ports:** Cincinnati, Toledo, Conneaut, Cleveland, Ashtabula. **Gross state product** (2008): \$471.5 bil. **Sales tax** (2010): 5.5%. **Employment distrib.** (May 2010): 16.2% govt.; 18.8% trade/trans./util.; 12.3% mfg.; 16.3% ed./health; 12.2% prof./bus. serv.; 9.8% leisure/hosp.; 5.2% finance; 3.7% constr.; 1.5% info.; 4.1% other serv. **Unemployment** (2009): 10.2%. **Per cap. pers. income** (2009 prelim.): \$35,381. **New private housing** (2009): 13,343 units/\$2.2 bil. **Commercial banks** (2009): 172; deposits: \$202.9 bil. **Savings institutions** (2009): 103; deposits: \$32.5 bil. **Lottery** (2008): total sales: \$2.3 bil; profit: \$672.2 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 52,039; **avg. salary:** \$73,414. **Notable fed. facilities:** Wright-Patterson AFB; Defense Supply Ctr., Columbus; *NASA John H. Glenn Res. Ctr.; *Lima Army Tank Plant.

Energy. Electricity production (2009 kWh by source): coal: 92.8 bil; gas: 788 mil; petroleum: 206 mil; hydroelectric: 498 mil; other: 16 mil.

State data. Motto: With God, all things are possible. **Flower:** Scarlet carnation. **Bird:** Cardinal. **Tree:** Buckeye. **Song:** "Beautiful Ohio." **Entered union:** Mar. 1, 1803; rank: 17th. **State fair** at Columbus, early Aug.

History. Paleo-Indians hunted in the area about 11,000 years ago; the Adena and Hopewell cultures followed. Wyandot, Delaware, Miami, and Shawnee peoples sparsely occupied the area when the first Europeans arrived. La Salle visited the region, 1669. France claimed it, 1682, but ceded it to Britain, 1763. After the American Revolution, Ohio became part of the Northwest Territory, 1787. The first permanent settlement was at Marietta, 1788. Cincinnati was also founded, 1788; Cleveland, 1796. Indian warfare abated with the Treaty

of Greenville, 1795. Ohio became a state, 1803. In the War of 1812, Oliver Hazard Perry's victory on Lake Erie and William Henry Harrison's invasion of Canada, 1813, ended British incursions. Columbus, founded 1812, became the state capital, 1816. Before the Civil War, Ohioans aided the Underground Railroad, helping runaway slaves. Agricultural for much of the 19th cent., the state became an industrial powerhouse in the 20th. Manufacturing jobs dropped by 24%, 1998-2007. No Republican has ever won the presidency without carrying Ohio, and the state's 20 electoral votes proved crucial to Pres. George W. Bush in 2004.

Tourist attractions. Mound City Group, Hopewell Culture Natl. Hist. Park; Neil Armstrong Air and Space Museum, Wapakoneta; Air Force Museum, Dayton; Pro Football Hall of Fame, Canton; King's Island amusement park, Mason; Lake Erie Islands, Cedar Point amusement park, in Sandusky; birthplaces, homes of, and memorials to U.S. Pres. W. H. Harrison, Grant, Garfield, Hayes, B. Harrison, McKinley, Harding, Taft; Amish Region, Tuscarawas/Holmes counties; German Village, Columbus; Jack Nicklaus' Golf Center, Mason; Bob Evans Farm, Rio Grande; Rock and Roll Hall of Fame and Museum, Cleveland.

Famous Ohioans. Sherwood Anderson, Neil Armstrong, George Bellows, Halle Berry, Ambrose Bierce, Erma Bombeck, Drew Carey, Hart Crane, George Custer, Clarence Darrow, Paul Laurence Dunbar, Thomas Edison, Clark Gable, John Glenn, Zane Grey, Bob Hope, William Dean Howells, Toni Morrison, Jack Nicklaus, Jesse Owens, Jack Paar, Pontiac, Eddie Rickenbacker, John D. Rockefeller Sr. and Jr., Roy Rogers, Pete Rose, Arthur Schlesinger Jr., Gen. William Sherman, Steven Spielberg, Gloria Steinem, Harriet Beecher Stowe, Charles Taft, Robert A. Taft, William H. Taft, Tecumseh, James Thurber, Ted Turner, Orville and Wilbur Wright.

Oklahoma (OK) Sooner State

People. Population (2009 est.): 3,687,050; rank: 28; net change (2008-09): 1.2%. **Pop. density:** 53.7 per sq mi. **Racial distribution** (2009): 78.0% white; 8.1% black; 1.7% Asian; 8.0% Native Amer./AK; 0.1% Hawaiian/Pacific Islander; 2 or more races, 4.1%. **Hispanic pop.** (any race): 8.2%.

Geography. Total area: 69,898 sq mi; rank: 20. **Land area:** 68,667 sq mi; rank: 19. **Acres forested:** 7.7 mil. **Location:** West South Central state bounded on the N by Colorado and Kansas; on the E by Missouri and Arkansas; on the S and W by Texas and New Mexico. **Climate:** temperate; southern humid belt merging with colder northern continental; humid eastern and dry western zones. **Topography:** high plains predominate in the W, hills and small mountains in the E; the east central region is dominated by the Arkansas R. Basin, and the Red R. Plains, in the S. **Capital:** Oklahoma City. **Chief airports:** Oklahoma City, Tulsa.

Economy. Chief industries: manufacturing, mineral and energy exploration and production, agriculture, services. **Chief manuf. goods:** animal slaughtering & processing, petroleum, plastics & rubber, fabricated metals, machinery, motor vehicles & parts. **Chief crops:** wheat, greenhouse & nursery, hay, cotton, corn, soybeans, pecans, sorghum, peanuts. **Livestock** (Dec. 2009): 4.5 mil chickens (excl. broilers), 226 mil broilers, 2.3 mil hogs/pigs; (Jan. 2010): 5.5 mil cattle/calves, 16,000 sheep/lambs. **Timber/lumber** (est. 2008): 307 mil bd. ft; pine, oak, hickory. **Nonfuel minerals** (2009 prelim.): \$696 mil; stone (crushed), cement (portland), sand and gravel (construction), sand and gravel (industrial), iodine (crude). **Chief port:** Catoosa. **Gross state product** (2008): \$146.4 bil. **Sales tax** (2010): 4.5%. **Employment distrib.** (May 2010): 22.5% govt.; 18.0% trade/trans./util.; 8.0% mfg.; 13.5% ed./health; 10.9% prof./bus. serv.; 9.2% leisure/hosp.; 5.4% finance; 7.2% constr.; 1.7% info.; 3.8% other serv. **Unemployment** (2009): 6.4%. **Per cap. pers. income** (2009 prelim.): \$35,268. **New private housing** (2009): 8,753 units/\$1.3 bil. **Commercial banks** (2009): 257; deposits: \$59.1 bil. **Savings institutions** (2009): 7; deposits: \$8.4 bil. **Lottery** (2008): total sales: \$203.8 mil; profit: \$71.6 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 38,326; **avg. salary:** \$63,324. **Notable fed. facilities:** Tinker AFB; FAA Mike Monroney Aeronautical Ctr.; *Ft. Sill; *Altus AFB;

McAlester Army Ammunition Plant; Vance AFB; Natl. Severe Storms Lab.

Energy. Electricity production (2009 kWh by source): coal: 31.6 bil; gas: 22.1 bil; petroleum: 12 mil; hydroelectric: 3.6 bil; other: 360 mil.

State data. Motto: Labor Omnia Vincit (Labor conquers all things). **Flower:** Mistletoe. **Bird:** Scissor-tailed flycatcher. **Tree:** Redbud. **Song:** "Oklahoma!" **Entered union:** Nov. 16, 1907; rank: 46th. **State fair** at Oklahoma City, mid-Sept.; at Tulsa, 4th Thursday after Labor Day-2nd Sunday of Oct.

History. Few Native Americans inhabited the region when the Spanish explorer Coronado arrived, 1541; in the 16th and 17th cent., French traders visited. Part of the Louisiana Purchase, 1803, Oklahoma was known as Indian Country and, from 1834, Indian Territory. It became home to the "Five Civilized Tribes"—Cherokee, Choctaw, Chickasaw, Creek, and Seminole—after the forced removal of Indians from the eastern U.S., 1828-46. The land was also used by Comanche, Osage, and other Plains Indians. As white settlers pressed west, land was opened for homesteading by "runs" and lottery. The first run was in 1889; the most famous run, 1893, was to the Cherokee Outlet. Oklahoma became a state, 1907. In the early 20th cent., oil finds brought wealth to the Tulsa area; the Greenwood section of the city, then known as the "Negro Wall Street," was devastated by a white mob, 1921. Depression and drought drove many "Okies" from the Dust Bowl to California in the 1930s. A truck bomb in Oklahoma City, 1995, destroyed a federal office building, killing 168 people; Timothy McVeigh was executed for the crime, 2001.

Tourist attractions. Cherokee Heritage Center, Tahlequah; Oklahoma City Natl. Memorial; Natl. Cowboy Hall of Fame, Remington Park Race Track, White Water Bay and Frontier City theme pks., in Oklahoma City; Will Rogers Memorial, Claremore; Ft. Gibson; Ouachita Natl. Forest; Philbrook Museum of Art, Gilcrease Museum, in Tulsa; Tulsa's art deco district; Wichita Mts. Wildlife Refuge; Woolaroc Museum & Wildlife Preserve, Bartlesville; Sequoyah's Home Site, Sallisaw.

Famous Oklahomans. Troy Aikman, Carl Albert, Gene Autry, Johnny Bench, William "Hopalong Cassidy" Boyd, Garth Brooks, Lon Chaney, L. Gordon Cooper, Walter Cronkite, Jerome "Dizzy" Dean, Ralph Ellison, John Hope Franklin, James Garner, Geronimo, Woody Guthrie, Paul Harvey, Ron Howard, Gen. Patrick J. Oregon (OR) Beaver State

People. Population (2009 est.): 3,825,657; rank: 27; net change (2008-09): 1.1%. **Pop. density:** 39.9 per sq mi. **Racial distribution** (2009): 89.8% white; 2.0% black; 3.7% Asian; 1.6% Native Amer./AK; 0.3% Hawaiian/Pacific Islander; 2 or more races, 2.6%. **Hispanic pop.** (any race): 11.2%.

Geography. Total area: 98,381 sq mi; rank: 9. **Land area:** 95,997 sq mi; rank: 10. **Acres forested:** 30.2 mil. **Location:** Pacific state, bounded on N by Washington; on E by Idaho; on S by Nevada and California; on W by the Pacific. **Climate:** coastal mild and humid climate; continental dryness and extreme temperatures in the interior. **Topography:** Coast Range of rugged mountains; fertile Willamette R. Valley to E and S; Cascade Mt. Range of volcanic peaks E of the valley; plateau E of Cascades, remaining two-thirds of state. **Capital:** Salem. **Chief airport:** Portland.

Economy. Chief industries: manufacturing, services, trade, finance, insurance, real estate, government, construction. **Chief manuf. goods:** wood products, frozen produce, printing, computers & electronics, transportation equipment, industrial machinery. **Chief crops:** greenhouse & nursery, grass seed, hay, wheat, potatoes, Christmas trees, onions, pears, hazelnuts, corn, grapes, cherries, blackberries, blueberries, peppermint, snap beans, apples, hops. **Livestock** (Dec. 2009): 2.8 mil chickens (excl. broilers); (Jan. 2010): 1.3 mil cattle/calves, 71,000 sheep/lambs. **Timber/lumber** (est. 2008): 4.9 bil bd. ft; Douglas fir, hemlock, ponderosa pine. **Nonfuel minerals** (2009 prelim.): \$340.0 mil; stone (crushed),

sand and gravel (construction), cement (portland), diatomite, perlite (crude). **Commercial fishing** (2008): \$103.1 mil. **Chief ports:** Portland, Coos Bay. **Gross state product** (2008): \$161.6 bil. **Sales tax** (2010): none. **Employment distrib.** (May 2010): 19.7% govt.; 19.2% trade/trans./util.; 10.0% mfg.; 14.0% ed./health; 10.9% prof./bus. serv.; 10.3% leisure/hosp.; 5.8% finance; 4.4% constr.; 2.1% info.; 3.6% other serv. **Unemployment** (2009): 11.1%. **Per cap. pers. income** (2009 prelim.): \$35,667. **New private housing** (2009): 7,039 units/\$1.4 bil. **Commercial banks** (2009): 52; deposits: \$50.4 bil. **Savings institutions** (2009): 9; deposits: \$2.2 bil. **Lottery** (2008): total sales: \$1.2 bil; profit: \$678.7 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 20,740; **avg. salary:** \$68,124. **Notable fed. facilities:** Bonneville Power Administration.

Energy. Electricity production (2009 kWh by source): coal: 3.2 bil; gas: 6.1 bil; petroleum: 3 mil; hydroelectric: 32.5 bil; other: 663 mil.

State data. Motto: She flies with her own wings. **Flower:** Oregon grape. **Bird:** Western meadowlark. **Tree:** Douglas fir. **Song:** "Oregon, My Oregon." **Entered union:** Feb. 14, 1859; rank: 33rd. **State fair** at Salem, 11 days ending with Labor Day.

History. More than 100 Native American tribes inhabited the area at the time of European contact, including the Chinook, Yakima, Cayuse, Modoc, and Nez Percé. Capt. Robert Gray sighted and sailed into the Columbia River, 1792. Lewis and Clark, traveling overland, wintered at its mouth, 1805-06. Fur traders sent by John Jacob Astor established the Astoria trading post in the Columbia River region, 1811. Settlers arrived in the Willamette Valley, 1834. In 1843, the first large wave of settlers arrived via the Oregon Trail. Oregon became a territory, 1848, and a state, 1859. Early in the 20th cent., the "Oregon System"—political reforms that included initiative, referendum, recall, direct primary, and woman suffrage—was adopted. Originally dominated by forest products, the economy diversified after World War II, with high-tech firms clustering in the "Silicon Forest" area around Portland. Oregonians were the first in the U.S. to pass measures allowing physician-assisted suicide for terminally ill patients, 1994, and establishing an all-mail voting system, 1998.

Tourist attractions. John Day Fossil Beds Natl. Monument; Columbia River Gorge; Timberline Lodge, Mt. Hood Natl. Forest; Crater Lake Natl. Park; Oregon Dunes Natl. Recreation Area; Ft. Clatsop Natl. Memorial; Oregon Caves Natl. Monument; Oregon Museum of Science and Industry, Portland; Shakespeare Festival, Ashland; High Desert Museum, Bend; Multnomah Falls; Diamond Lake; "Spruce Goose," Evergreen Aviation Museum, McMinnville.

Famous Oregonians. Ernest Bloch, Bill Bowerman, Ernest Haycox, Chief Joseph, Ken Kesey, Phil Knight, Ursula K. Le Guin, Edwin Markham, Tom McCall, Dr. John McLoughlin, Joaquin Miller, Bob Packwood, Linus Pauling, Steve Prefontaine, John Reed, Alberto Salazar, Mary Decker Slaney, William Simon U'Ren.

Pennsylvania (PA) Keystone State

People. Population (2009 est.): 12,604,767; rank: 6; net change (2008-09): 0.3%. **Pop. density:** 281.7 per sq mi. **Racial distribution** (2009): 85.2% white; 10.9% black; 2.5% Asian; 0.2% Native Amer./AK; 0.05% Hawaiian/Pacific Islander; 2 or more races, 1.1%. **Hispanic pop.** (any race): 5.1%.

Geography. Total area: 46,055 sq mi; rank: 33. **Land area:** 44,817 sq mi; rank: 32. **Acres forested:** 16.6 mil. **Location:** Middle Atlantic state, bordered on the E by the Delaware R.; on the S by the Mason-Dixon Line; on the W by West Virginia and Ohio; on the N/NE by Lake Erie and New York. **Climate:** continental with wide fluctuations in seasonal temperatures. **Topography:** Allegheny Mts. run SW to NE, with Piedmont and Coast Plain in the SE triangle; Allegheny Front a diagonal spine across the state's center; N and W rugged plateau falls to Lake Erie Lowland. **Capital:** Harrisburg. **Chief airports:** Harrisburg, Philadelphia, Pittsburgh.

Economy. Chief industries: agribusiness, advanced manufacturing, health care, travel & tourism, depository

institutions, biotechnology, printing & publishing, research & consulting, trucking & warehousing, transportation by air, engineering & management, legal services. **Chief manuf. goods:** petroleum, pharmaceuticals, plastics, iron & steel, printing, paper & paperboard, confectionery & snacks, animal slaughtering & processing. **Chief crops:** greenhouse & nursery, mushrooms, corn, hay, soybeans, apples, tomatoes, wheat, grapes, peaches, potatoes, strawberries, tobacco. **Livestock** (Dec. 2009): 28.0 mil chickens (excl. broilers), 153.5 mil broilers, 1.1 mil hogs/pigs; (Jan. 2010): 1.6 mil cattle/calves, 14,000 sheep/lambs. **Timber/lumber** (est. 2008): 1.0 bil bd. ft; pine, oak, maple. **Nonfuel minerals** (2009 prelim.): \$1.6 bil; stone (crushed), cement (portland), sand and gravel (construction), lime, cement (masonry). **Commercial fishing** (2008): \$278,690. **Chief ports:** Philadelphia, Pittsburgh. **Gross state product** (2008): \$553.3 bil. **Sales tax** (2010): 6.0%. **Employment distrib.** (May 2010): 13.9% govt.; 19.0% trade/trans./util.; 9.9% mfg.; 20.0% ed./health; 12.0% prof./bus. serv.; 9.2% leisure/hosp.; 5.5% finance; 4.3% constr.; 1.7% info.; 4.4% other serv. **Unemployment** (2009): 8.1%. **Per cap. pers. income** (2009 prelim.): \$39,578. **New private housing** (2009): 18,275 units/\$3.1 bil. **Commercial banks** (2009): 169; deposits: \$227.1 bil. **Savings institutions** (2009): 92; deposits: \$67.7 bil. **Lottery** (2008): total sales: \$3.1 bil; profit: \$928.1 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 69,201; **avg. salary:** \$67,493. **Notable fed. facilities:** Army War College, Carlisle Barracks; *Naval Inventory Control Point, Mechanicsburg; Philadelphia Mint, Defense Supply Ctr., Naval Surface Warfare Ctr., in Phila.; Defense Distribution Ctr., New Cumberland; *Tobyhanna Army Depot; *Letterkenny Army Depot; *NAS Willow Grove.

Energy. Electricity production (2009 kWh by source): petroleum: 1 mil; hydroelectric: 1.2 bil.

State data. Motto: Virtue, liberty, and independence. **Flower:** Mountain laurel. **Bird:** Ruffed grouse. **Tree:** Hemlock. **Song:** "Pennsylvania." **Second** of the original 13 states to ratify the Constitution, Dec. 12, 1787. **State fair:** no official state fair; county and community fairs, Mar.-Oct.

History. When Europeans came, Algonquian-speaking Lenni Lenape (Delaware) and Shawnee and the Iroquoian Susquehannocks, Erie, and Seneca occupied the region. Swedish explorers made the first permanent settlement, 1643, on Tinicum Island. The Dutch seized the settlement, 1655, but lost it to the British, 1664. The region was given by Charles II to William Penn, 1681. Philadelphia ("brotherly love") was the capital of the colonies during most of the American Revolution, and of the U.S., 1790-1800; the Declaration of Independence, 1776, and Constitution, 1787, were signed here. Philadelphia was taken by the British, 1777; Washington's troops encamped at Valley Forge in the bitter winter of 1777-78. Slavery was abolished, 1780. Union victory at the Battle of Gettysburg, July 1-3, 1863, marked a turning point in the Civil War. A dam collapse at Johnstown, 1889, killed at least 2,200 people. From the late 19th cent. to the mid-20th, Pittsburgh prospered from coal and steel; later, heavy industry declined, but the city revived as a hub of finance, health care, and research. The Three Mile Island nuclear plant near Harrisburg had a near-meltdown, 1979. One of 4 hijacked planes on Sept. 11, 2001, crashed near Shanksville; a national memorial was designated on the site in 2002.

Tourist attractions. Independence Natl. Historic Park, Franklin Institute Science Museum, Philadelphia Museum of Art, in Philadelphia; Valley Forge Natl. Historic Park; Gettysburg Natl. Military Park; Pennsylvania Dutch Country; Hershey; Duquesne Incline, Carnegie Institute, Heinz Hall, in Pittsburgh; Pocono Mts.; Pennsylvania's Grand Canyon, Tioga County; Allegheny Natl. Forest; Laurel Highlands; Presque Isle State Park; Fallingwater, Mill Run; Johnstown; Steamtown, Scranton; U.S. Brig *Niagara*, Erie; Oil Heritage Region, Northwest PA.

State data. Motto: Hope. **Flower:** Violet. **Bird:** Rhode Island red. **Tree:** Red maple. **Song:** "Rhode Island." **Thirteenth** of original 13 states to ratify the Constitution, May 29, 1790. **State fair:** no state fair; largest fair at Richmond, mid-Aug.

History. When Europeans arrived, Narragansett, Niantic, Nipmuc, and Wampanoag peoples lived in the region. Verazano visited the area, 1524. The first permanent settlement was founded at Providence, 1636, by Roger Williams, who was exiled from the Massachusetts Bay Colony; Anne Hutchinson, also exiled, settled Portsmouth, 1638. Quaker and Jewish immigrants seeking freedom of worship began arriving, 1650s-60s. The colonists broke the power of the Narragansett in the Great Swamp Fight, 1675, the decisive battle in King Philip's War. The colony was the first to formally renounce all allegiance to King George III, May 4, 1776. Initially opposed to joining the Union, Rhode Island was the last of the 13 colonies to ratify the Constitution, 1790. Trade, textiles, and metal goods dominated the economy in the 19th cent., and Newport became a fashionable resort after the Civil War. The U.S. Navy was the state's largest civilian employer, 1945-73, until the destroyer force was relocated from Newport. A nightclub fire in West Warwick killed 100 people in 2003.

Tourist attractions. Newport mansions; yachting races including Newport to Bermuda; Block Island; Touro Synagogue (oldest in U.S.) Newport; First Baptist Church in America, Providence; Slater Mill Historic Site, Pawtucket; Gilbert Stuart birthplace, Saunderstown.

Famous Rhode Islanders. Ambrose Burnside, George M. Cohan, Nelson Eddy, Jabez Gorham, Nathanael Greene, Christopher and Oliver La Farge, John McLaughlin, Matthew C. and Oliver Hazard Perry, Gilbert Stuart.

South Carolina (SC)

Palmetto State

People. Population (2009 est.): 4,561,242; rank: 24; net change (2008-09): 1.3%. **Pop. density:** 151.7 per sq mi. **Racial distribution** (2009): 68.9% white; 28.2% black; 1.3% Asian; 0.4% Native Amer./AK; 0.06% Hawaiian/Pacific Islander; 2 or more races, 1.1%. **Hispanic pop.** (any race): 4.5%.

Geography. Total area: 32,020 sq mi; rank: 40. **Land area:** 30,109 sq mi; rank: 40. **Acres forested:** 12.7 mil. **Location:** South Atlantic state, bordered by North Carolina on the N; Georgia on the SW and W; the Atlantic Ocean on the E, SE, and S. **Climate:** humid subtropical. **Topography:** Blue Ridge province in NW has highest peaks; piedmont lies between the mountains and the fall line; coastal plain covers two-thirds of the state. **Capital:** Columbia. **Chief airports:** Charleston, Columbia, Greer, Myrtle Beach.

Economy. Chief industries: tourism, agriculture, manufacturing. **Chief manuf. goods:** chemicals & synthetics, motor vehicles & parts, plastics, paper & paper product, turbines, rubber, textiles. **Chief crops:** greenhouse & nursery, tobacco, soybeans, cotton, corn, peaches, wheat, tomatoes, peanuts. **Livestock** (Dec. 2009): 6.4 mil chickens (excl. broilers), 237.8 mil broilers; (Jan. 2010): 380,000 mil cattle/calves. **Timber/lumber** (est. 2008): 1.1 bil bd. ft; pine, oak. **Nonfuel minerals** (2009 prelim.): \$501.0 mil; cement (portland), stone (crushed), cement (masonry), sand and gravel (construction), vermiculite. **Commercial fishing** (2008): \$17.5 mil. **Chief ports:** Charleston, Georgetown. **Gross state product** (2008): \$156.4 bil. **Sales tax** (2010): 6.0%. **Employment distrib.** (May 2010): 20.0% govt.; 18.7% trade/trans./util.; 11.3% mfg.; 11.4% ed./health; 11.6% prof./bus. serv.; 11.6% leisure/hosp.; 5.6% finance; 4.5% constr.; 1.5% info.; 3.8% other serv. **Unemployment** (2009): 11.7%. **Per cap. pers. income** (2009 prelim.): \$31,799. **New private housing** (2009): 15,529 units/\$2.5 bil. **Commercial banks** (2009): 79; deposits: \$64.0 bil. **Savings institutions** (2009): 28; deposits: \$5.8 bil. **Lottery** (2008): total sales: \$992.5 mil; profit: \$263.9 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 21,449; **avg. salary:** \$64,183. **Notable fed. facilities:** *Ft. Jackson; Joint Base Charleston; Parris Island; Shaw AFB; USMC Air Station Beaufort; Savannah River Site.

Energy. Electricity production (2009 kWh by source): coal: 34.5 bil; gas: 8.9 bil; nuclear: 52.2 bil; petroleum: 107 mil; hydroelectric: 1.1 bil; other: 740 mil.

State data. Motto: Dum Spiro Spero (While I breathe, I hope). **Flower:** Yellow jessamine. **Bird:** Carolina wren. **Tree:** Palmetto. **Song:** "Carolina." **Eighth** of the original 13 states to ratify the Constitution, May 23, 1788. **State fair** at Columbia, mid-Oct.; at Aiken, late Oct.

History. When Europeans arrived, Cherokee, Catawba, and Muskogean peoples lived in the area. Spanish and French came in the 16th cent. The first English colonists settled near the Ashley River, 1670, and moved to the site of present-day Charleston, 1680. The colonists seized the government, 1775, and the royal governor fled. The British took Charleston, 1780, but were defeated at Kings Mountain that same year, and at Cowpens, 1781. In the 1830s, South Carolinians, angered by federal protective tariffs, adopted the Nullification Doctrine, holding that a state can void an act of Congress. Plantation agriculture relied on slave labor to cultivate rice and cotton; slaves made up 57% of the population in 1860, when South Carolina was the first state to secede from the Union. Confederate troops fired on and forced the surrender of U.S. troops at Ft. Sumter, in Charleston Harbor, 1861, launching the Civil War. The state was readmitted to the Union, 1868. Strom Thurmond, who ran for president as a segregationist in 1948, later served 48 years in the U.S. Senate (1955-2003). Formerly dependent on textiles, the state has attracted new industries by courting foreign investment.

Tourist attractions. Historic Charleston, Charleston Museum (est. 1773, oldest in U.S.); Ft. Sumter Natl. Monument, in Charleston Harbor; Middleton Place, Magnolia Plantation, Cypress Gardens, Drayton Hall, all near Charleston; other gardens at Brookgreen, Edisto, Glencairn; Myrtle Beach; Hilton Head Island; Revolutionary War battle sites; Andrew Jackson State Park; SC State Museum, Riverbanks Zoo Columbia.

Famous South Carolinians. Charles Bolden, James F. Byrnes, John C. Calhoun, Joe Frazier, DuBose Heyward, Ernest F. Hollings, Andrew Jackson, Jesse Jackson, "Shoeless" Joe Jackson, James Longstreet, Francis Marion, Andie

McDowell, Ronald McNair, Charles Pinckney, John Rutledge, Thomas Sumter, Strom Thurmond, John B. Watson.

South Dakota (SD)

Coyote State, Mount Rushmore State

People. Population (2009 est.): 812,383; rank: 46; net change (2008-09): 1.0%. **Pop. density:** 10.7 per sq mi. **Racial distribution** (2009): 87.9% white; 1.2% black; 0.9% Asian; 8.5% Native Amer./AK; 0.06% Hawaiian/Pacific Islander; 2 or more races, 1.5%. **Hispanic pop.** (any race): 2.9%.

Geography. Total area: 77,116 sq mi; rank: 17. **Land area:** 75,885 sq mi; rank: 16. **Acres forested:** 1.7 mil. **Location:** West North Central state bounded on the N by North Dakota; on the E by Minnesota and Iowa; on the S by Nebraska; on the W by Wyoming and Montana. **Climate:** characterized by extremes of temperature, persistent winds, low precipitation and humidity. **Topography:** Prairie Plains in the E; rolling hills of the Great Plains in the W; the Black Hills, rising 3,500 ft, in the SW corner. **Capital:** Pierre.

Economy. Chief industries: agriculture, services, manufacturing. **Chief manuf. goods:** animal slaughtering, machinery, semiconductors, surgical appliances. **Chief crops:** corn, soybeans, wheat, hay, sunflowers, sorghum, oats, barley. **Livestock** (Dec. 2009): 2.8 mil chickens (excl. broilers), 1.2 mil hogs/pigs; (Jan. 2010): 3.8 mil cattle/calves, 75,000 sheep/lambs. **Timber/lumber:** figs. withheld; ponderosa pine. **Nonfuel minerals** (2009 prelim.): \$229 mil; gold, cement (portland), sand and gravel (construction), stone (crushed), stone (dimension). **Gross state product** (2008): \$37.0 bil. **Sales tax** (2010): 4.0%. **Employment distrib.** (May 2010): 19.9% govt.; 20.0% trade/trans./util.; 9.2% mfg.; 15.7% ed./health; 6.9% prof./bus. serv.; 10.7% leisure/hosp.; 7.0% finance; 5.1% constr.; 1.7% info.; 3.9% other serv. **Unemployment** (2009): 4.8%. **Per cap. pers. income** (2009 prelim.): \$36,935. **New private housing** (2009): 3,691 units/\$463.5 mil. **Commercial banks** (2009): 89; deposits: \$85.2 bil. **Savings institutions** (2009): 6; deposits: \$1.6 bil. **Lottery** (2008): total sales: \$704.3 mil; profit: \$122.6 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 8,479; **avg. salary:** \$58,724. **Notable fed. facilities:** *Ellsworth AFB.

Energy. Electricity production (2009 kWh by source): coal: 3.2 bil; gas: 122 mil; petroleum: 9 mil; hydroelectric: 4.3 bil; other: 32 mil.

State data. Motto: Under God, the people rule. **Flower:** Pasqueflower. **Bird:** Chinese ring-necked pheasant. **Tree:** Black Hills spruce. **Song:** "Hail, South Dakota." **Entered union:** Nov. 2, 1889; rank: 40th. **State fair** at Huron, late Aug.-early Sept.

History. Paleo-Indians hunted in the region at least 11,500 years ago. At the time of first European contact, Mandan, Hidatsa, Arikara, and Sioux lived in the area. The French Vérendrye brothers explored the region, 1742-43. The U.S. acquired the territory in the Louisiana Purchase, 1803, and Lewis and Clark passed through, 1804-06. In 1817 a trading post opened at what would become Fort Pierre. Dakota Territory was established, 1861. Gold was discovered, 1874, in the Black Hills on Sioux land; the "Great Dakota Boom" began in 1879. South Dakota became a state, 1889. The massacre of Native American families at Wounded Knee, 1890, ended Sioux resistance; 83 years later, armed supporters of the American Indian Movement, a Native American rights group, occupied the area, leading to a 70-day standoff. Major economic activities include agribusiness and, since the 1980s, credit card services. Republicans scored a key election victory, 2004, with the defeat of 3-term U.S. Sen. Tom Daschle, a national Democratic leader.

Tourist attractions. Black Hills; Mt. Rushmore; Needles Highway; Harney Peak, tallest E. of Rockies; Deadwood, 1876 Gold Rush town; Custer State Park; Jewel Cave Natl. Monument; Badlands Natl. Park "moonscape"; "Great Lakes of S. Dakota"; Ft. Sisseton; Great Plains Zoo and Museum, Sioux Falls; Corn Palace, Mitchell; Wind Cave Natl. Park; Crazy Horse Memorial, mountain carving in progress.

Famous South Dakotans. Sparky Anderson, Black Elk, Bob Barker, Tom Brokaw, Crazy Horse, Thomas Daschle, Myron Floren, Mary Hart, Cheryl Ladd, Dr. Ernest O. Lawrence, George McGovern, Billy Mills, Allen Neuharth, Pat O'Brien, Sitting Bull.

Tennessee (TN) Volunteer State

People. Population (2009 est.): 6,296,254; rank: 17; net change (2008-09): 0.9%. **Pop. density:** 152.7 per sq mi. **Racial distribution** (2009): 80.2% white; 16.8% black; 1.4% Asian; 0.3% Native Amer./AK; 0.06% Hawaiian/Pacific Islander; 2 or more races, 1.2%. **Hispanic pop.** (any race): 4.2%.

Geography. Total area: 42,143 sq mi; rank: 36. **Land area:** 41,217 sq mi; rank: 34. **Acres forested:** 14.5 mil. **Location:** East South Central state bounded on the N by Kentucky and Virginia; on the E by North Carolina; on the S by Georgia, Alabama, and Mississippi; on the W by Arkansas and Missouri. **Climate:** humid continental to the N; humid subtropical to the S. **Topography:** rugged country in the E; the Great Smoky Mts. of the Unakas; low ridges of the Appalachian Valley; the flat Cumberland Plateau; slightly rolling terrain and knobs of the Interior Low Plateau, the largest region; Eastern Gulf Coastal Plain to the W, laced with streams; Mississippi Alluvial Plain, a narrow strip of swamp and flood plain in the extreme W. **Capital:** Nashville. **Chief airports:** Alcoa, Memphis, Nashville.

Economy. Chief industries: manufacturing, trade, services, tourism, finance, insurance, real estate. **Chief manuf. goods:** motor vehicles & parts, computers & electronics, food, chemicals, plastics, printing, appliances, aluminum. **Chief crops:** greenhouse & nursery, soybeans, cotton, corn, tobacco, hay, tomatoes, wheat. **Livestock** (Dec. 2009): 2.8 mil chickens (excl. broilers), 189.7 mil broiler; (Jan. 2010): 2.0 mil cattle/calves, 6,000 sheep/lambs. **Timber/lumber:** (est. 2008): 896.0 mil bd. ft; red oak, white oak, yellow poplar, hickory. **Nonfuel minerals** (2009 prelim.): \$641.0 mil; stone (crushed), cement (portland), sand and gravel (construction), clays (ball), lime. **Chief ports:** Memphis, Nashville, Chattanooga. **Gross state product** (2008): \$252.1 bil. **Sales tax** (2010): 7.0%. **Employment distrib.** (May 2010): 16.9% govt.; 21.0% trade/trans./util.; 11.5% mfg.; 14.1% ed./health; 11.6% prof./bus. serv.; 10.1% leisure/hosp.; 5.2% finance; 3.9% constr.; 1.7% info.; 3.9% other serv. **Unemployment** (2009): 10.5%. **Per cap. pers. income** (2009 prelim.): \$34,089. **New private housing** (2009): 15,005 units/\$2.1 bil. **Commercial banks** (2009): 213; deposits: \$106.4 bil. **Savings institutions** (2009): 20; deposits: \$4.7 bil. **Lottery** (2008): total sales: \$1.1 bil; profit: \$286.1 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 27,975; **avg. salary:** \$64,795. **Notable fed. facilities:** Tennessee Valley Authority; Oak Ridge Natl. Lab; Arnold Engineering Development Ctr.; Ft. Campbell; NSA Mid-South, Millington.

Energy. Electricity production (2009 kWh by source): coal: 40.4 bil; gas: 280 mil; nuclear: 27.0 bil; petroleum: 175 mil; hydroelectric: 8.8 bil.

State data. Motto: Agriculture and commerce. **Flower:** Iris. **Bird:** Mockingbird. **Tree:** Tulip poplar. **Songs:** "My Homeland, Tennessee"; "When It's Iris Time in Tennessee"; "My Tennessee"; "Tennessee Waltz"; "Rocky Top." **Entered union:** June 1, 1796; rank: 16th. **State fair** at Nashville, early Sept.; at Clarksville, mid-July; at Jackson, mid-Sept.

History. Inhabited for at least 20,000 years, the region was home to Creek and Yuchi peoples when the first Europeans arrived; the Cherokee moved into the region in the early 18th cent. Spanish explorers visited the area, 1540. English traders crossed the Great Smoky Mtns. from the east, while France's Marquette and Jolliet sailed down the Mississippi on the west, 1673. The first permanent settlement was of Virginians on the Watauga River, 1769. After the American Revolution, in which Tennesseans fought in eastern campaigns, the region became a territory, 1790, and a state, 1796. Slavery was widespread in western Tennessee, where cotton was the main crop, but much less common in the east. The state seceded, 1861, and saw many Civil War engagements; some 187,000 Tennesseans fought for the Confederacy and 51,000 for the Union. Tennessee was readmitted in 1866, the only former Confederate state not to have a postwar military government. The famous Scopes trial, 1925, questioned the teaching of evolution in public schools. In the 1930s, the Tennessee Valley Authority, a federal pro-

gram, brought electric power to rural areas. Nashville became the capital of country music, while Memphis fostered the blues and, with Elvis Presley in the 1950s, rock 'n' roll. Martin Luther King Jr. was assassinated in Memphis, 1968. Since the 1970s, auto plants have become major employers, as has Federal Express. Al Gore Jr., U.S. vice pres. (1993-2001), lost his 2000 presidential bid partly because he failed to carry his home state of Tennessee. Record amounts of rainfall flooded parts of Tennessee, including Nashville, in May 2010.

Tourist attractions. Reelfoot Lake; Lookout Mountain, Tennessee Aquarium, Chattanooga; Fall Creek Falls; Great Smoky Mts. Natl. Park; Lost Sea, Sweetwater; Cherokee Natl. Forest; Cumberland Gap Natl. Park; Andrew Jackson's home, the Hermitage, near Nashville; homes of Pres. Polk and Andrew Johnson; American Museum of Science and Energy, Oak Ridge; Parthenon, Grand Old Opry, Opryland USA, Nashville; Dollywood theme park, Pigeon Forge; Graceland, home of Elvis Presley, Memphis; Alex Haley Home and Museum, Henning; Casey Jones Village, Jackson.

Famous Tennesseans. Roy Acuff, Davy Crockett, David Farragut, Ernie Ford, Aretha Franklin, Morgan Freeman, Bill Frist, Al Gore Jr., Alex Haley, William C. Handy, Sam Houston, Cordell Hull, Andrew Jackson, Andrew Johnson, Casey Jones, Estes Kefauver, Grace Moore, Dolly Parton, Minnie Pearl, James Polk, Elvis Presley, Dinah Shore, Bessie Smith, Fred Thompson, Hank Williams Jr., Alvin York.

Texas (TX) Lone Star State

People. Population (2009 est.): 24,782,302; rank: 2; net change (2008-09): 2.0%. **Pop. density:** 94.9 per sq mi. **Racial distribution** (2009): 82.1% white; 12.0% black; 3.6% Asian; 0.8% Native Amer./AK; 0.1% Hawaiian/Pacific Islander; 2 or more races, 1.4%. **Hispanic pop.** (any race): 36.9%.

Geography. Total area: 268,581 sq mi; rank: 2. **Land area:** 261,797 sq mi; rank: 2. **Acres forested:** 17.3 mil. **Location:** southwestern state, bounded on the SE by the Gulf of Mexico; on the SW by Mexico, separated by the Rio Grande; surrounding states are Louisiana, Arkansas, Oklahoma, New Mexico. **Climate:** extremely varied; driest region is the Trans-Pecos; wettest is the NE. **Topography:** Gulf Coast Plain in the S and SE; North Central Plains slope upward with some hills; the Great Plains extend over the Panhandle, are broken by low mountains; the Trans-Pecos is the southern extension of the Rockies. **Capital:** Austin. **Chief airports:** Austin, Dallas, El Paso, Fort Worth, Houston (2), Lubbock, San Antonio.

Economy. Chief industries: manufacturing, trade, oil and gas extraction, services. **Chief manuf. goods:** petroleum, chemicals & resins, computers & electronics, animal slaughtering & processing, plastics, aerospace. **Chief crops:** cotton, greenhouse & nursery, corn, wheat, sorghum, hay, peanuts, onions, rice, pecans, grapefruit. **Livestock** (Dec. 2009): 24.0 mil chickens (excl. broilers), 668.7 mil broilers, 760,000 hogs/pigs; (Jan. 2010): 13.3 mil cattle/calves, 180,000 sheep/lambs. **Timber/lumber** (est. 2008): 1.5 bil bd. ft; pine, cypress. **Nonfuel minerals** (2009 prelim.): \$2.9 bil; cement (portland), stone (crushed), sand and gravel (construction), salt, sand and gravel (industrial). **Commercial fishing** (2008): \$176.1 mil. **Chief ports:** Houston, Galveston, Brownsville, Beaumont, Port Arthur, Corpus Christi, Texas City, Freeport. **Gross state product** (2008): \$1.2 trillion. **Sales tax** (2010): 6.25%. **Employment distrib.** (May 2010): 18.4% govt.; 19.6% trade/trans./util.; 7.9% mfg.; 13.3% ed./health; 12.0% prof./bus. serv.; 10.0% leisure/hosp.; 6.0% finance; 7.4% constr.; 1.8% info.; 3.5% other serv. **Unemployment** (2009): 7.6%. **Per cap. pers. income** (2009 prelim.): \$36,484. **New private housing** (2009): 84,440 units/\$12.5 bil. **Commercial banks** (2009): 634; deposits: \$415.2 bil. **Savings institutions** (2009): 61; deposits: \$57.1 bil. **Lottery** (2008): total sales: \$3.7 bil; profit: \$1.0 bil.

Federal govt. Fed. civ. employees (Mar. 2010): 139,160; **avg. salary:** \$66,796. **Notable fed. facilities:** Forts *Hood, *Bliss, *Sam Houston; *Lackland, *Randolph, *Sheppard, *Dyess, Goodfellow AF Bases; NASA Johnson Space Ctr.; Naval Air Training School, Corpus Christi NAS; Red River Army Depot; Ft. Worth Western Currency Facility.

Energy. Electricity production (2009 kWh by source): coal: 57.7 bil; gas: 30.9 bil; petroleum: 26 mil; hydroelectric: 1.4 bil; other: 156 mil.

State data. Motto: Friendship. **Flower:** Bluebonnet. **Bird:** Mockingbird. **Tree:** Pecan. **Song:** "Texas, Our Texas." **Entered union:** Dec. 29, 1845; rank: 28th. **State fair** at Dallas, late Sept.-mid-Oct.; at Beaumont, mid-Oct.; at Belton, late Aug.-early Sept.; at Denton, mid-Aug.; at Tyler, late Sept.

History. Humans have lived in the region for at least 12,000 years. Coahuiltecan, Karankawa, Caddo, Jumano, and Tonkawa peoples were in the area when the first Europeans came; later, Apache, Comanche, Cherokee, and Wichita arrived. Early Spanish explorers included Pineda, who sailed along the Texas coast, 1519; Cabeza de Vaca, shipwrecked near Galveston along with the former slave Estevanico, 1528; and Coronado, who crossed the Panhandle, 1541. Spaniards made the first settlement at Ysleta, near El Paso, 1682. Americans moved into the land early in the 19th cent. Mexico, of which Texas was a part, won independence from Spain, 1821. Texans rebelled, 1836, losing to Santa Anna at the Alamo, but winning decisively under Sam Houston at San Jacinto. With Houston as president, 1836-38 and 1841-44, the Republic of Texas functioned as a nation until admitted to the Union. With a slave population of 30%, Texas seceded, 1861; mostly unscathed by the Civil War, it was readmitted, 1870. In 1900 a powerful hurricane lashed Galveston, killing at least 8,000. Cotton and cattle were dominant until 1901, when the Spindletop gusher, near Beaumont, launched the petroleum and petrochemical industries. By 2000 the state population ranked 2nd in the U.S. With wealth and population came political power, notably in the presidencies of Lyndon B. Johnson (1963-69), George H. W. Bush (1989-93), and George W. Bush (2001-09).

Tourist attractions. Padre Island Natl. Seashore; Big Bend, Guadalupe Mts. natl. parks; Ft. Davis; Six Flags Over Texas, Arlington SeaWorld, Six Flags Fiesta Texas, The Alamo, San Antonio Missions Natl. Hist. Park, all San Antonio; Cowgirl Hall of Fame, Kimball Art Museum, Fort Worth; Lyndon B. Johnson Natl. Historical Park, Johnson City; Lyndon B. Johnson Library and Museum, Austin; Texas State Aquarium, Corpus Christi; George Bush Library, College Station.

Famous Texans. Lance Armstrong, Stephen F. Austin, Lloyd Bentsen, James Bowie, Carol Burnett, George H. W. Bush, George W. Bush, Joan Crawford, J. Frank Dobie, Dwight D. Energy. Electricity production (2009 kWh by source): coal: 34.3 bil; gas: 5.8 bil; petroleum: 50 mil; hydroelectric: 688 mil; other: 279 mil.

State data. Motto: Industry. **Flower:** Sego lily. **Bird:** Seagull. **Tree:** Blue spruce. **Song:** "Utah, This Is the Place." **Entered union:** Jan. 4, 1896; rank: 45th. **State fair** at Salt Lake City, early Sept.

History. Ute, Gosiute, Southern Paiute, and Navajo peoples lived in the region at the time of European contact. Spanish Franciscans visited the area, 1776; American fur traders followed. Permanent settlement began with the arrival of the Latter-day Saints, or Mormons, 1847; they made the arid land bloom and created a prosperous economy. Organized in 1849, the State of Deseret asked admission to the Union; instead, Congress established Utah Territory, 1850, and Brigham Young was appointed governor. The Union Pacific and Central Pacific railroads met near Promontory Point, May 10, 1869, creating the first transcontinental railroad. Statehood was not achieved until 1896, after a long controversy over the Mormon practices of economic isolationism and polygamy, which the church renounced in 1890. The 20th cent. brought expansion in mining, defense-related industries, and, more recently, information technologies. More than 2/3 of Utahans are Mormons; the church has its world headquarters in Salt Lake City. Utah experienced 61% population growth, 1990-2009, and has the highest birthrate and lowest median age of any state in the U.S.

Tourist attractions. Temple Square, Mormon Church headquarters, in Salt Lake City; Great Salt Lake; Zion, Canyonlands, Bryce Canyon, Arches, and Capitol Reef natl. parks; Dinosaur, Rainbow Bridge, Timpanogos Cave, and Natural Bridges natl. monuments; Lake Powell; Flaming Gorge Natl. Recreation Area.

Famous Utahans. Maude Adams, Ezra Taft Benson, John Moses Browning, Mariner Eccles, Philo Farnsworth, James Fletcher, David M. Kennedy, J. Willard Marriott, Merlin Olsen, Osmond family, Ivy Baker Priest, George Romney, Roseanne, Wallace Stegner, Brigham Young, Loretta Young.

Vermont (VT) Green Mountain State

People. Population (2009 est.): 621,760; rank: 49; net change (2008-09): 0.1%. **Pop. density:** 67.5 per sq mi. **Racial distribution** (2009): 96.2% white; 1.0% black; 1.2% Asian; 0.4% Native Amer./AK; 0.04% Hawaiian/Pacific Islander; 2 or more races, 1.2%. **Hispanic pop.** (any race): 1.5%.

Geography. Total area: 9,614 sq mi; rank: 45. **Land area:** 9,250 sq mi; rank: 43. **Acres forested:** 4.6 mil. **Location:** northern New England state. **Climate:** temperate, with considerable temperature extremes; heavy snowfall in mountains. **Topography:** Green Mts. N-S backbone 20-36 mi wide; avg. altitude 1,000 ft. **Capital:** Montpelier. **Chief airport:** Burlington.

Economy. Chief industries: manufacturing, tourism, agriculture, trade, finance, insurance, real estate, government. **Chief manuf. goods:** dairy, plastics, printing, wood furniture, sporting goods, metalworking machinery. **Chief crops:** greenhouse & nursery, hay, maple syrup, apples, berries, sweet corn. **Livestock** (Dec. 2009): 238,000 chickens (excl. broilers); (Jan. 2010): 265,000 cattle/calves. **Timber/lumber** (est. 2008):

144.0 mil bd. ft; pine, spruce, fir, hemlock. **Nonfuel minerals** (2009 prelim.): \$111.0 mil; stone (crushed), stone (dimension), sand and gravel (construction), talc (crude), gemstones (natural). **Gross state product** (2008): \$25.4 bil. **Sales tax** (2010): 6.0%. **Employment distrib.** (May 2010): 20.0% govt.; 18.5% trade/trans./util.; 10.3% mfg.; 20.4% ed./health; 7.6% prof./bus. serv.; 9.4% leisure/hosp.; 4.3% finance; 4.4% constr.; 1.8% info.; 3.3% other serv. **Unemployment** (2009): 6.9%. **Per cap. pers. income** (2009 prelim.): \$38,503. **New private housing** (2009): 1,367 units/\$213.9 mil. **Commercial banks** (2009): 12; deposits: \$6.0 bil. **Savings institutions** (2009): 10; deposits: \$4.4 bil. **Lottery** (2008): total sales: \$102.0 mil; profit: \$22.6 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 4,493; **avg. salary**: \$65,637. **Notable fed. facilities**: Law Enforcement Support Ctr.

Energy. Electricity production (2009 kWh by source): gas: 4 mil; hydroelectric: 548 mil; other: 230 mil.

State data. Motto: Freedom and unity. **Flower**: Red clover. **Bird**: Hermit thrush. **Tree**: Sugar maple. **Song**: "These Green Mountains." **Entered union**: Mar. 4, 1791; rank: 14th. **State fair** at Rutland, early Sept.

History. Inhabited for 10,000 years or more, the region attracted Abenaki and Mahican peoples before Europeans arrived. Champlain explored the lake that now bears his name, 1609. The first European settlement was on Isle la Motte, in Lake Champlain, 1666. During the American Revolution, Ethan Allen and the Green Mountain Boys captured Ft. Ticonderoga (NY), 1775. Under a constitution that provided for public schools and abolished slavery, settlers declared a republic, 1777. Vermont joined the Union, 1791. Agriculture dominated in the 19th cent. Still mainly rural, the state expanded tourism and manufacturing after World War II, and IBM became the largest private employer. In 2000, with Howard Dean as governor (1991-2003), Vermont became the first state in the U.S. to legalize same-sex civil unions.

Tourist attractions. Shelburne Museum; Rock of Ages Quarry, Graniteville; Vermont Marble Museum, Proctor; Bennington Battle Monument; Pres. Calvin Coolidge homestead, Plymouth; Maple Grove Maple Museum, St. Johnsbury; Ben & Jerry's Factory, N. Waterbury.

Federal govt. Fed. civ. employees (Mar. 2010): 141,603; **avg. salary**: \$85,518. **Notable fed. facilities**: Pentagon; *Norfolk Naval Sta., Shipyard, and other Hampton Roads; *Ft. Belvoir; *Langley AFB; NASA Langley Res. Ctr.; CIA George Bush Ctr. for Intelligence, Langley; Quantico USMC Base, FBI Academy; *Dahlgren Nav. Surface Warfare Ctr. & Lab; USDA Food and Nutrition Serv.; U.S. Geological Survey Natl. Ctr.

Energy. Electricity production (2009 kWh by source): coal: 22.4 bil; gas: 7.3 bil; nuclear: 28.2 bil; petroleum: 739 mil; hydroelectric: 118 mil; other: 441 mil.

State data. Motto: Sic Semper Tyrannis (Thus always to tyrants). **Flower**: Dogwood. **Bird**: Cardinal. **Tree**: Dogwood. **Song emeritus**: "Carry Me Back to Old Virginia." **Tenth** of the original 13 states to ratify the Constitution, June 25, 1788. **State fair** at the Meadow Event Park, Doswell, late Sept.-early Oct.

History. Cherokee and Susquehanna peoples and the Algonquians of the Powhatan Confederacy were in the region when Europeans arrived. English settlers founded Jamestown, 1607. Virginians were indispensable to the founding of the American republic, and 4 of the first 5 U.S. presidents—Washington, Jefferson, Madison, and Monroe—came from there. The conclusive battle of the American Revolution took place at Yorktown, 1781. The state profited from tobacco, cotton, and the slave trade; in 1860, slaves made up nearly 1/3 of the population. Virginia seceded from the Union, 1861, and Richmond became the capital of the Confederacy, but Western counties, loyal to the Union, split off to become West Virginia, 1863. The war ended with Lee's surrender to Grant at Appomattox, 1865, and Virginia was readmitted to the Union, 1870. In the 20th cent., expansion of federal civilian jobs and military facilities transformed the economy. State officials pledged "massive resistance" to racial integration in the mid-1950s, but eventually accommodated. In 1989, L. Douglas Wilder became the first elected black governor in U.S. history. On Sept. 11, 2001, terrorist hijackers crashed a jet into U.S. defense headquarters at the Pentagon, in Arlington.

Tourist attractions. Colonial Williamsburg; Busch Gardens Williamsburg; Wolf Trap Farm, near Vienna; Arlington Natl. Cemetery; Mt. Vernon, home of George Washington; Jamestown Settlement; Yorktown; Jefferson's Monticello, Charlottesville; Robert E. Lee's birthplace, Stratford Hall, and grave, Lexington; Appomattox; Shenandoah Natl. Park; Blue Ridge Parkway; Virginia Beach; Kings Dominion, near Richmond.

Famous Virginians. Richard E. Byrd, James B. Cabell, Henry Clay, Katie Couric, Jubal Early, Jerry Falwell, William Henry Harrison, Patrick Henry, A. P. Hill, Thomas Jefferson, Joseph E. Johnston, Robert E. Lee, Meriwether Lewis and William Clark, James Madison, John Marshall, George Mason, James Monroe, George Pickett, Pocahontas, Edgar Allan Poe, John Randolph, Walter Reed, Rev. Pat Robertson, John Smith, J.E.B. Stuart, William Styron, Zachary Taylor, John Tyler, Maggie Walker, Booker T. Washington, George Washington, L. Douglas Wilder, Woodrow Wilson.

Washington (WA) Evergreen State

People. Population (2009 est.): 6,664,195; rank: 13; net change (2008-09): 1.5%. **Pop. density**: 100.3 per sq mi. **Racial distribution** (2009): 83.8% white; 3.9% black; 7.0% Asian; 1.8% Native Amer./AK; 0.5% Hawaiian/Pacific

Islander; 2 or more races, 3.1%. **Hispanic pop.** (any race): 10.3%.

Geography. **Total area:** 71,300 sq mi; rank: 18. **Land area:** 66,544 sq mi; rank: 20. **Acres forested:** 22.3 mil. **Location:** Pacific state bordered by Canada on the N; Idaho on the E; Oregon on the S; and the Pacific Ocean on the W. **Climate:** mild, dominated by the Pacific Ocean and protected by the Cascades. **Topography:** Olympic Mts. on NW peninsula; open land along coast to Columbia R.; flat terrain of Puget Sound Lowland; Cascade Mts. region's high peaks to the E; Columbia Basin in central portion; highlands to the NE; mountains to the SE. **Capital:** Olympia. **Chief airports:** Seattle, Spokane.

Economy. **Chief industries:** advanced technology, aerospace, biotechnology, intl. trade, forestry, tourism, recycling, agriculture & food processing. **Chief manuf. goods:** aerospace, petroleum, food, paper, milled lumber, plastics, structural metals, computers & electronics. **Chief crops:** apples, potatoes, wheat, hay, cherries, greenhouse & nursery, forest products, pears, grapes, onions, hops, sweet corn, Christmas trees, mint, raspberries. **Livestock** (Dec. 2009): 7.4 mil chickens (excl. broilers); (Jan. 2010): 1.0 mil cattle/calves, 12,000 sheep/lambs. **Timber/lumber** (est. 2008): 3.5 bil bd. ft; Douglas fir, hemlock, cedar, pine. **Nonfuel minerals** (2009 prelim.): \$586 mil; sand and gravel (construction), gold, stone (crushed), cement (portland), sand and gravel (industrial). **Commercial fishing** (2008): \$230.5 mil. **Chief ports:** Seattle, Tacoma, Vancouver, Kelso-Longview, Anacortes. **Gross state product** (2008): \$322.8 bil. **Sales tax** (2010): 6.5%. **Employment distrib.** (May 2010): 20.2% govt.; 18.8% trade/trans./util.; 9.1% mfg.; 13.6% ed./health; 11.7% prof./bus. serv.; 9.4% leisure/hosp.; 4.8% finance; 5.1% constr.; 3.6% info.; 3.8% other serv. **Unemployment** (2009): 8.9%. **Per cap. pers. income** (2009 prelim.): \$41,751. **New private housing** (2009): 17,011 units/\$3.2 bil. **Commercial banks** (2009): 103; deposits: \$101.1 bil. **Savings institutions** (2009): 18; deposits: \$12.3 bil. **Lottery** (2008): total sales: \$521.1 mil; profit: \$130.3 mil.

Federal govt. Fed. civ. employees (Mar. 2010): 55,704; **avg. salary:** \$70,645. **Notable fed. facilities:** Bonneville Power Admin.; Lewis-McChord Joint Base; Fairchild AFB; DOE Hanford Nuclear Site; Naval Base Kitsap (Bremerton & Bangor); Whidbey Island NAS; Pacific Northwest Natl. Lab.

Energy. **Electricity production** (2009 kWh by source): gas: 3.7 bil; nuclear: 6.6 bil; petroleum: 16 mil; hydroelectric: 73.8 bil; other: 2.1 bil.

State data. **Motto:** Alki (By and by). **Flower:** Western rhododendron. **Bird:** Willow goldfinch. **Tree:** Western hemlock. **Song:** "Washington, My Home." **Entered union:** Nov. 11, 1889; rank: 42nd. **State fairs:** no official state fair; county and area fairs, Apr.-Sept.

History. People of the Clovis culture lived in the region 11,000 years ago. At the time of European contact, Native Americans in the area included Nez Percé, Spokane, Yakima, Cayuse, Okanogan, Walla Walla, and Colville peoples in the interior, and Nooksak, Chinook, Nisqually, Clallam, Makah, Quinault, and Puyallup peoples along the coast. Spain's Bruno Hezeta sailed the coast, 1775. In 1792, British naval officer George Vancouver mapped the Puget Sound area, and American Capt. Robert Gray sailed up the Columbia River. Fur traders and missionaries arrived in the first half of the 19th cent. Final agreement on the border of Washington and Canada was made with Britain, 1846. Completion in 1883 of a transcontinental rail link between Puget Sound and the eastern U.S. aided immigration, and Washington became a state in 1889. In the 20th cent., cheap hydroelectric power spurred growth in the aluminum and aircraft industries; founded in 1975, Microsoft became a computer software giant. Mt. St. Helens erupted, 1980. With grunge music, Starbucks coffee, and Amazon.com, Seattle became a national trendsetter in the 1990s; violent street protests disrupted a World Trade Organization meeting there in 1999. Gary Locke, in office 1997-2005, was the first U.S. governor of Chinese ancestry.

Tourist attractions. Seattle Center, Space Needle, waterfront, Museum of Flight, Underground Tour, Seattle; Mt. Rainier, Olympic, and North Cascades natl. parks; Mt. St. Helens; Puget Sound; San Juan Islands; Grand Coulee Dam; Columbia R. Gorge Natl. Scenic Area; Spokane's Riverfront Park.

Famous Washingtonians. Raymond Carver, Kurt Cobain, Bing Crosby, William O. Douglas, Bill Gates, Jimi Hendrix, Henry M. Jackson, Gary Larson, Mary McCarthy, Robert

Motherwell, Edward R. Murrow, Theodore Roethke, Ann Rule, Hilary Swank, Julia Sweeney, Adam West, Marcus Whitman, Minoru Yamasaki.

Energy. **Electricity production** (2009 kWh by source): coal: 51 bil; gas: 33 mil; petroleum: 159 mil; hydroelectric: 497 mil.

State data. **Motto:** Montani Semper Liberi (Mountaineers are always free). **Flower:** Big rhododendron. **Bird:** Cardinal. **Tree:** Sugar maple. **Songs:** "The West Virginia Hills"; "This Is My West Virginia"; "West Virginia, My Home, Sweet Home." **Entered union:** June 20, 1863; rank: 35th. **State fair** at Lewisburg, mid-Aug.

History. Sparsely inhabited at the time of European contact, the area was primarily Native American hunting grounds. British explorers Thomas Batts and Robert Fallam reached the New River, 1671. Coal, discovered in 1742, was mined extensively by the mid-19th cent. White settlement led to conflicts with Native Americans, including a major battle in which frontiersmen defeated an Indian confederacy at Point Pleasant, 1774. The region joined the Union as part of Virginia, 1788. Longstanding tensions between the E and W parts of the state came to a head in 1861, when Virginia seceded. Delegates of W counties, meeting at Wheeling, repudiated the act and created a new state, Kanawha, later renamed West Virginia, which was admitted to the Union in 1863. Poverty has been a problem for much of the state's subsequent history. West Virginia continued to rank low in per capita personal income, despite billions of dollars in federal contracts brought to the state by 9-term U.S. Sen. Robert Byrd, who passed away in 2010. Coal mining, though dangerous, continues to be a major industry; nearly 30 miners were killed in a mine explosion in 2010.

Tourist attractions. Harpers Ferry Natl. Historic Park; Clay Center and Avampato Discovery Museum, Charleston; White Sulphur Springs (The Greenbrier) and Berkeley Springs mineral water spas; New River Gorge Natl. River; Beckley Exhibition Coal Mine; Monongahela Natl. Forest; Fenton Glass, Williamstown; Blenko Glass, Milton; Stern-wheel Regatta, Charleston; Mountain State Forest Festival, Elkins; skiing at Canaan Valley, Snowshoe, Timberline, Winterplace; Mountain State Art & Craft Festival, Ripley; Oglebay Resort, Wheeling; white water rafting on New and Gauley rivers.

Famous West Virginians. Newton D. Baker, Pearl Buck, Robert Byrd, John W. Davis, Thomas "Stonewall" Jackson, Don Knotts, Dwight Whitney Morrow, Michael Owens, Mary Lou Retton, Walter Reuther, Cyrus Vance, Jerry West, Charles "Chuck" Yeager.

Energy. Electricity production (2009 kWh by source): coal: 36.9 bil; gas: 2.8 bil; petroleum: 38 mil; hydroelectric: 1.4 bil; other: 1.3 bil.

State data. Motto: Forward. **Flower:** Wood violet. **Bird:** Robin. **Tree:** Sugar maple. **Song:** "On, Wisconsin!" **Entered union:** May 29, 1848; rank: 30th. **State fair** at West Allis, early Aug.

History. At the time of European contact, Ojibwa, Menominee, Winnebago, Kickapoo, Sauk, Fox, and Potawatomi peoples inhabited the area. French explorer Jean Nicolet reached Green Bay, 1634; French missionaries and fur traders followed. The British took over, 1763. The U.S. won the

land after the American Revolution but did not wield control until forts were established at Green Bay and Prairie du Chien, 1816. Native Americans rebelled against the seizure of tribal lands in the Black Hawk War, 1832, but were defeated and relocated to reservations. Wisconsin became a territory, 1836, and a state, 1848. Some 96,000 soldiers served the Union cause during the Civil War. Many immigrants arrived from Germany, Poland, and Scandinavia. Wisconsin agriculture focused on dairy; Milwaukee became a manufacturing center. As gov., 1901-06, Robert La Follette pushed Progressive reforms such as direct primary voting and consumer protection laws. An era of "McCarthyism" ended when anti-Communist crusader Sen. Joseph McCarthy (R, WI) was censured by the U.S. Senate, 1954.
